Can I retest?
 If you have not yet taken any ESL courses then you **can** retest **WITHIN 6 months** of earning your first test result.

My ESL skills have improved since my first test.
Can I retest even if I have taken ESL Courses?
 If you have earned a D, F, NP or I grade in ESL, you **cannot** retest until you have made up your non-passing grade.
 If you have earned passing grades in ESL then you **can** retest **WITHIN 6 months** of earning your first test result.

If you have earned a D, F, NP or I grade in ESL, you **cannot** retest until you have made up your non-passing grade.

If you have never taken ESL courses, or you earned passing grades in ESL, then you **can** test with us again; or you can continue with the course sequence from where you left off.
 Because it has been 2 years (or more) since your last recorded test result, your test eligibility "restarts" so you are entitled to an initial and a retest.
