

CA State Smog License Requirements:

1. **ASE Certification in areas A6, A8, L1 ***
2. **Basic and Advanced Clean Air Car Course.**
(De Anza Auto 65P and Auto 65W)
3. **Smog Update Course**
(De Anza Auto 69X, Y, or Z)
4. **Register for State Smog License Exam**
(Currently Basic or Advanced Level)

Suggested Schedule designed to prepare a student for passing the California State Smog Exam for the purpose of obtaining a smog license. Requirements are subject to the State of California Smog Licensing Regulations. BAR (Bureau of Automotive Repair) A6, A8, & L1 alternative courses may be substituted for ASE certification. For additional information visit www.bar.ca.gov.

ASE Exams available at ASE Test Centers, register in spring, summer, or fall at www.ase.com
Note: two years related work experience required for ASE certification, two years of auto tech training are equivalent to 1 year work experience.

Smog Technician college certificate is available for any student completing the basic and advanced clean air course and Auto 60C.

- **Enrollment Tip:** You must enroll in both 1st and 2nd six week courses at the beginning of the quarter (before enrollment closes)
