### Discussion

**I. Review agenda and minutes from last meeting**
- A. 5/21/14 minutes approved with no changes.
- B. Agenda approved with no changes.

**II. Review and vote on DARE proposals**
- A. Core approved the Assessment proposal from Becky Roberts because it was under the $5000 limit.
- B. Equity proposal will be tabled until June 18th. Waiting for the revisions.
- C. Sankofa proposal was revised and we will be voting on at the June 18th meeting.
- D. Voting today on the E3 Real Test proposal.
  1. Recommendation from Core is to table until Fall due to the SSSP initiative and the effect it may have on it.
  2. Will also be a good idea to table because we will be getting the results from the pilot next Fall and it would be premature to vote on the full package until we know the results.
  3. Melissa motioned to table until we see results from Impact AAPI before we commit ourselves.
  4. Kathleen seconded the motion.
  5. All in favor, no oppositions and no abstentions.
- E. Dean Coleen Lee-Wheat and Malik Johnson are here today to talk about the FAST Proposal from P.E.
   - In order to transfer into NCAA, the GPA requirement was raised from 2.0 to 2.5. Also requirements for Math and English have gone up as well.
   - We want to give our athletes, especially those that qualify for basic skills classes, a little bit more help to get to this 2.5 or better.
   - This could be in the form of a study hall type setting 2 days a week.
   - Offer tutoring and study skills help perhaps in the form of some workshops we already have on campus.
   - Head Coach and Assistant Coaches will make sure they are there on a regular basis and follow up on progress in their classes.
   - Will tap into an electronic system with new software called Grades First. It will help their academic advisor collect progress reports electronically from instructors on campus. Allows us to work with instructors through email making sure students are on task.
   - Large portion of football program consists of athletes who are African American. Success rate in academic classes is about 63% and we need to give these students a little more help statistically.
   - This is a pilot program and hopefully would like to expand and build out using SSSP.
  2. Discussion ensued amongst the General Taskforce.
  3. Thomas – We will not be voting on this today.

**III. Announcements/for good of the order**
- A. For the very good of the order, we would all like to thank Kathleen Moberg for her incredible support and contributions not only to DARE but also to the entire campus. She will be missed. Best wishes on your new venture.
