

Community Conversation Request Form

The Community Conversation Program was developed by the Office of Equity, Social Justice, and Multicultural Education to open dialogue and build deeper understanding among students, faculty, and classified professionals. This program is an attempt to bring "hot topics" or burning issues of interest to the De Anza Community forward, in a safe place where we can hear each other's perspectives, hopes, concerns, and personal stories while also providing mutual respect and support. These conversations are led by De Anza community members, facilitated by students, and organized by the student interns of the Equity Office.

The Office of Equity, Social Justice, and Multicultural Education is happy to aid in supporting your requests for a community dialogue on topics related to community understanding and transformation.

Student Faculty Classified Professional Administrator

First Name: _____ **Last Name:** _____
