

Written Assignment for Lab – due next week in lab!!!

(will put on website)

Write a 1.5 – 2 pg. paper (double-spaced) on one or two of the issues covered in the film. Using your knowledge of the biology involved, explain the issue, give the opinion on the issue and tell me why the issue could pose a problem in the future.

Some of the issues include:

Patenting human genes

Gene harvesting from indigenous populations

Designer babies

Using personal medical records to provide data for commercial companies

Your own topic!
