## ~~*The Creative Mind*~~ *Creative Minds*

“Education is not the filling of a pail, but the lighting of a fire” - Yeats

**Description:** An introduction to the study of creativity in human life; its sources, development, social purposes, and role in culture change. Students analyze creativity as a central source of meaning and purpose in their lives as well as a development of their unique combination of human intelligences. Lives of creative people from all over the world are examined and contextualized. **This course is specifically designed to build commitment to civic and moral responsibility for diverse, equitable, healthy and sustainable communities. Students are expected to recognize themselves as members of larger social fabrics and to develop the abilities and motivation to take informed action for change.**

**SLO 1:** Students synthesize their critical thinking, imaginative, cooperative and empathetic abilities as whole persons in order to contextualize knowledge, interpret and communicate meaning, and cultivate their capacity for personal, as well as social change.

**SLO 2:** Students cultivate and demonstrate an awareness of the power of creativity and the potential of the creative process through direct involvement
