You may want to refer to the class handout (attached to syllabus), *Outline for Describing a Work of Art*.

You can focus upon one or more issues related to the social, cultural, historical, political, or ceremonial contexts – there are many ways of approaching this section. **Make sure you discuss the historical or cultural context of the works.** This section can include archaeological context as well.
4. Conclusion.
5. **A bibliography of four sources (in addition to your class textbooks) is required.** Sources can be internet sources, videos, handouts as well as books or articles. **We will go over correct formats in class.**
