Activity: DUE at official start time of FIRST DAY of class. (This is an exercise in following directions!)

1. Print out copies of the syllabus, (including calendar).
The syllabus/calendar is attached to this welcome email.
It is also posted on my website: http://www.deanza.edu/faculty/hectorjanice/currentclasses.html
It is also posted on the Math Department website: http://nebula.deanza.edu/PSME_Division/PSME.html

2. Print your name on top (Last name, First name) of BOTH the first page of the class syllabus and the course calendar which is the last page of the syllabus.

3. Write the start time of your class under your name on both pages. (For example 1:30, 4:00, 6:30, etc.)

4. Highlight, with a yellow highlighter pen, information that you feel is most important to you on each page. Highlight answers to questions you typically want to know the answers to at the start of the quarter. There should be some highlights on every page.

5. Print and bring your syllabus, including the calendar with your name and highlighting to class the first day (and every class day for the rest of the quarter.)

You may be asked to turn these in for activity points. You will not be given time in class to prepare your papers for turning in.

Be ready so that you will be able to earn participation points!
