## **Evolve Resources**

# First- Add the Pediatric Text to the Evolve Resources

- Go to your Evolve page (evolve.elsevier.com) and log in
- Click Evolve Catalog in the center of the page
- In the search box at the top, type in Hockenberry and click Go
- Find the correct edition of the text (Wong's Essentials of Pediatric Nursing by Hockenberry.....10<sup>th</sup> edition!) and click on it
- Click on the Register button
- Click on the Redeem/Check-out button
- Check the Yes, I accept the registered user agreement box
- Click Submit
- Your book will now be added!

# Accessing Resources from the Hockenberry Text Resources

#### A. Critical Thinking Case Studies:

These deal with a variety of the topics we will be covering. (eg. Asthma). With every topic there are only 4 or 5 questions to drive home the important points. I think they give the rationales too!

- Click on **My Evolve** on the top left of your Evolve homepage
- Find the Hockenberry text and click on it
- Click on the chapter of the text you want (see list attached)
- Click on Student Resources
- Click on Case Studies
- The link to the case studies follows

#### **B. NCLEX Review Questions:**

These are questions (obviously) set up just like the NCLEX format, but related only to pediatrics. There are about 15 questions on each topic. After completion, it reviews all the questions and gives the right answers and rationales.

- Click on My Evolve on the top left of your Evolve homepage
- Find the Hockenberry text and click on it
- Click on the chapter of the text you want (there are NCLEX questions for every chapter)
- Click on Student Resources
- Click on Prepare for Exams

#### C. HESI Case Studies (for course points)

Completion of two case studies is required for points in this course. As previously mentioned in class, it is advisable to watch the lecture and do your readings *before* attempting the case studies. In this way they will be a reinforcing activity. Getting a score of 35% means you haven't retained the major concepts of the topic, and might reflect poor performance on your final exam and/ or the NCLEX exam.

- Click on My Evolve on the top left of your Evolve homepage
- Scroll down to HESI RN Case Studies With Practice Test and click on it
- Click on the HESI Case Studies link
- Click on **Pediatrics**
- Select your case and begin. Remember, you can do a case more than once!

## <u>Critical Thinking Case Studies in Hockenberry (Evolve)</u>

### Chapter 2:

- Family Functioning
- Cultural Considerations

### Chapter 4:

- Communicating with Adolescents
- Pediatric Assessment

## Chapter 6:

- Bacterial Conjunctivitis
- Chicken Pox (Varicella)
- Immunizations
- Impetigo
- Tinea Capitis
- Varicella in Spite of Vaccination

#### Chapter 7:

- Breast Feeding
- The Normal Newborn

#### Chapter 8:

- Health Problems of the Newborn
- Hyperbilirubinemia

## Chapter 9:

Infant Growth and Development

#### Chapter 10:

• Health Problems of the Infant

#### Chapter 11:

Toilet Training/ Toddler Development

## Chapter 13:

- Behaviors Indicative of Future Child Abuse
- Burns
- Child Abuse
- Heavy Metal Poisoning
- Ingestion of an Injurious Agent
- Poison Ivy
- Saicylate Ingestion
- Sleep Problems

## Chapter 14:

Injury Prevention

## Chapter 16:

- Acne Vulgaris
- Attention Deficit/ Hyperactive Disorder
- Obesity
- Teen Smoking

## Chapter 17:

• The Dying Child

#### Chapter 18:

• Down Syndrome

## Chapter 19:

Home Care

### Chapter 20:

• Pediatric Procedures

### Chapter 21:

- Acute Epiglottitis
- Asthma
- Bronchiolitis
- Cystic Fibrosis
- Mononucleosis
- Tonsillitis

#### Chapter 22:

- Acute Diarrhea (Gastroenteritis)
- Appendicitis
- Cleft Lip and Palate
- Dehydration
- Dehydration and Diarrhea
- Gastroenteritis
- Gastrointestinal Problems
- Hepatitis

## Chapter 24:

- Immune Thrombocytic Purpura
- Iron Deficiency Anemia
- Sickle Cell Anemia

## Chapter 25:

• Brain Tumor

## Chapter 26:

- Acute renal Failure
- Urinary tract Infection

## Chapter 27:

- Head Injury
- Meningitis

## Chapter 28:

- Diabetes Insipidus
- Diabetes Mellitus

## Chapter 29:

- Developmental Dysplasia of the Hip
- Fractures
- Legg-Calve-Perthes Disease
- Osteomyelitis
- Scoliosis

## Chapter 30:

- Cerebral Palsy
- Hydrocephalus with Myelomeningocele
