Using TurnItIn.com

Six times during the quarter you will turn in short writing assignments using TurnItIn.com. This helps to make sure I receive your work in a format I can open and read, and it is a bit more reliable than email. That means you don’t have to stress about whether I received your work! You will first need to create an account by going to www.turnitin.com

1) Click on “Create account”

2) Click on “New Users”

3) Click on “Student”

4) Enter in "3121607" for class ID, “mandible” for enrollment password, and your own email information. After submitting that information, you should be able to click on our class name (Biology 40A) and view/submit assignments! From then on, you can just log in with your email address and password directly from the turnitin.com homepage.
