

## Updates to the Clinical Orientation Video

- Regarding the discussion of anyone starting the preceptorship Week 4 of the quarter: we no longer do this. Everyone starts the preceptorship Week 2 of the quarter.
- Quiz “Wednesday of Week 1:” this day may change from quarter to quarter – it’s not necessarily on a Wednesday (although it might be). It will occur the first on-campus meeting, however, and will be announced on a quarterly basis.
- Ignore information about the VA – we’re not going there at the moment.
- OCH: Debra Sun is no longer the point person; instead our new liaison is Benita Price.
- Time Organization Assignment: no longer a handed-in assignment. We do it in class.
- Weekly Updates: now we do FOUR, not three weekly updates. Each Weekly Update is slightly different, containing a different QSEN section.
- Shift count: we will discuss during the on-campus portion of clinical orientation.
- 8h versus 12h shifts: since this recording hospitals have changed: 8h shifts are the norm, and few preceptors are on 12h shifts.
