Did You Have a Hard Time Locating Your Selling Area? We did also . . .
We apologize for the inconvenience. When the lots were resurfaced the contractor did not do a very good job with the slurry on Lot A. As you know the surface has been wearing off leaving a lot of gravel. The loose gravel has destroyed the painted booth numbers, row letters and lanes. The Flea Market staff has made some temporary repairs until the contractor can resurface and repaint. This should not disrupt any selling Market dates.

POST YOUR ENTRY TICKET IN PLAIN VIEW AT YOUR SELLING AREA
This is important, as our staff must verify that you are in the correct selling area. This can easily be accomplished by you using tape, string, wire, etc. to attach your selling ticket in clear view.

For those of you who have not noticed . . .
Construction on the new parking structure is well underway. The frontage road in front of Lot C will continue to be “One Way Only” from the Pepper Tree Entrance to the McClellan Road entrance. Limited parking will be allowed along this stretch of the frontage road. This should only affect customer parking and those of you who need additional parking spaces for multiple vehicles. NOTE: If you park in any location other than the Flea Market (Lots A and B), you will need to purchase a parking permit. This includes the newly created frontage road parking.

I Can’t Find the Guy Selling the White Socks, HELP ME PLEASE
Help yourself and your customers locate your selling areas. Direct them to our web site. We have vendor listings by name, business and by type of merchandise, as well as the map. We also have these listings at the Info Booth of each Flea Market. We usually update these listings on Friday prior to the market. Shoppers can print out a map and listings to bring with them on Saturday. Do you have suggestions to make our web site better? Feel free to make suggestions.

Where do I park My Vehicle????
Normally you need to park your vehicle in your assigned selling area. If you unload and move your vehicle, it must be OUT OF the Flea Market Selling Area in an approved parking lot with a paid parking permit ($5.00 from the parking attendant, not the machine). Do Not take up another space in the Flea Market unless you have paid for that selling area.
How Far Can I Set Up My Merchandise??????
Some of you are exceeding the size of your selling area. The selling area is 15 feet by 15 feet. If you extend forward beyond the parking stripes you are beyond the selling area. For example, take an imaginary straight line from the parking stripe from the left side to the right side of your assigned selling area. If you extend beyond this imaginary line, into the pedestrian area, then you have exceeded your selling area. We need to keep this area wide enough for emergency access and pedestrian traffic. NOTE: At all times, the number must be in complete, unobstructed view, free from any merchandise. Vendors who are exceeding their selling areas will be asked to pull their displays; merchandise, etc back to the appropriate areas.

Hey, Where Did the Food Vendors Go?????
AGAIN, WHAT IS WITH YOU GUYS?
The food court has relocated back to the original location; Lot A, Row M, near the Information Booth. If anyone has comments or suggestions, please direct them to Dr. John Cognetta, at (408) 864-8239 or by email to cognettajohn@deanza.edu.

This is not the Indianapolis Speed Way
We are asking all vendors to be especially careful while driving in the Flea Market areas. Vendors are reminded not to leave until well after 2:00 pm. If you park your vehicle outside the Market area, we ask that you pack your items before you bring the vehicle in (after 2:00 pm), and do not block other vendor stalls with your vehicle.

Support Our Clubs
Volunteers from the Saltworks Christian Fellowship, UNICEF Club and Vietnamese Student Association are staffing this month’s drink stands, and the Auto Tech Club and The Forseti Federation are staffing the hamburger stand. Satisfy your hunger and quench your thirst while donating to a good cause.
