<p>Using PC-TRAK installed on each workstation, we will gain a means to assess/quantify how the lab is being utilized. The college has an existing license for SARS-TRAK which is used in Counseling and elsewhere to track student usage of services. PC-TRAK is separate software for computer laboratories that works with SARS-TRAK to monitor student usage of computers in computer laboratories. This software is sold as a site license, which means that other labs on campus could potentially implement the same software with no additional licensing fee. The annual maintenance fee for PC-TRAK is \$900. We would need ETS to install and support the PC-TRAK application.</p>
