

De Anza College presents

# OCEANS OF IMPACT

**LOCATION: Campus Center, Conference Room B**

Through a series of videos, you will hear Filipino, Pacific Islander, and South East Asian students talk about their educational needs and experiences. You will learn the importance of using culturally specific content, creating safe spaces for your students, building community, and creating support networks. Most importantly, the videos & workshop structure are designed to put instructors into learner/learning mode to facilitate becoming more culturally competent, as evidenced in the last video of faculty discussing how their practice has changed.

Attend the 50-minute “Fly-by” workshops (one or all) or attend a 4-hour session that includes all 4 videos and discussion:
