Students who want to earn a bachelor’s degree at a university can earn the first half of their program at De Anza College. Be sure to create your education plan with a De Anza counselor to ensure that the credits you earn at De Anza will transfer into the bachelor’s degree program at the California State University (CSU) or the University of California (UC) you want to attend. CSU and UC give admission priority to California community college transfer students who have completed 90 transferable units in their bachelor’s degree program.
