

### About the Survey

The CCSSE is administered in the spring quarter to credit students and gathers information about their overall college experience. De Anza College previously participated in 2007 and 2009.

The survey focuses on educational practices and student behaviors associated with higher levels of learning, persistence and completion.

All faculty members teaching in the spring were included in a pool from which a random sample of course sections were chosen to administer the survey. This resulted in 1,236 valid responses.

### Student Responses

**How would you evaluate your entire educational experience at De Anza?**

The majority (52%) of students stated that they had a good experience while one-third (33%) stated they had an excellent experience.

**How much does De Anza encourage you to spend significant amounts of time studying?**

One-third (34%) of students stated they are very much encouraged to spend time studying while 40% stated they are encouraged quite a bit.
