Subject: Data for the Phase Out of CIS15AG, CIS15BG and CIS15C

This analysis displays the number of students enrolled in CIS15AG, CIS15BG and CIS15C. The department identified three varying scenarios of students who may be notified of the phasing out of these courses. Each scenario, 1, 2, and 3, was broken out into 3 and 5-year trends. For 2013, only summer and fall terms were included as winter and spring grades were not available at this time.

In addition, if a student took the course more than once, only the most recent quarter in which they took the course was included. Passing grades include A, B, C, and P grades while non passing grades include D, F, NP, I and W grades. Academic years are displayed as the year end term, for example, 2013 is the 2012-13 academic year.
