De Anza College Office of Institutional Research and Planning

To: Matt Abrahams and Anu Khana, LinC Program Coordinators

From: Mallory Newell, De Anza Research

Margaret Bliss, Student Assistant

Date: 04/27/2016

Subject: LinC Survey, Winter 2016

A survey of LinC program students was conducted during Winter quarter in 2016. The survey was distributed to all students enrolled in a LinC course which resulted in 78 valid respondents.

Important Highlights Include:

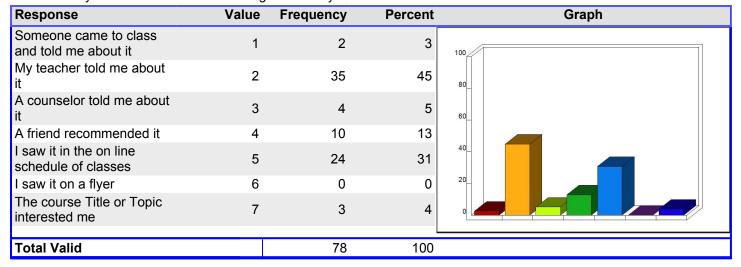

- 45% reported "I thought I could be more successful than in a regular classes" on what the most important reason they enrolled in this learning community. 33% reported "The class time worked best for me", 22% reported "The learning community concept seemed interesting" and 0% reported "I thought I could make friends" and "These were the only classes open". (Question 2)
- 40% responded they "often" connected and integrated ideas, concepts or skills from classes in the learning community to practice skills outside the class. (Question 4)
- 75% reported that their writing is "much" or "very much" more effective and clear. (Question 18)
- 71% reported that they learn "much" or "very much" more effectively. (Question 22)
- 36% of students reported they are "much" more successful because they have gotten the support they need. 27% reported "some" support, 26% reported "very much", 10% reported "very little" and 1% reported "not at all". (Question 31)
- 56% of students responded that their overall educational experience at De Anza College was "good" or "very good". (Question 37)
- 92% of students reported that the quality of their relationship with teachers in the learning community
 was "very friendly supportive and helpful" or "friendly supportive and helpful". Compared to a similar
 survey conducted in Fall 2015, 84% of students reported that the quality of their relationship with
 teachers in the learning community was "very friendly supportive and helpful" or "friendly supportive
 and helpful". (Question 34)
- 95% of respondents reported they would recommend this learning community to a friend or family member. Compared to a similar survey conducted in Fall 2015, 94% of respondents reported they would recommend this learning community to a friend or family member.

Provided below is a link to the previous survey conducted in Fall 2015:

http://www.deanza.edu/ir/deanza-research-projects/2015-16/LinC_Survey_Fall2015.pdf

1. How did you find out about this learning community?

Mean: 3

2. What is the most important reason you enrolled in this learning community?

Response	Value	Frequency	Percent	Graph
The learning community concept seemed interesting	1	17	22	100
I thought I could be more successful than in regular classes	2	35	45	80_
I thought I could make friends	3	0	0	40
The class times worked best for me	4	26	33	20_
These were the only classes open	5	0	0

38. Would you recommend this learning community to a friend or family member?

De Anza College Learning in Communities Survey

<u>Page 1 of 2</u>

This survey will be used for research purposes only. All responses will remain anonymous and any data that is reported will be at the aggregate level (no individual data will be given out). You may choose not to answer any question.

This survey will help the Learning in Communities(LinC) Program serve students better.
The results will be given to the research staff, not your instructor. This survey is voluntary and completing it shows your willingness to participate.

Please answer all questions in relation to this learning community this quarter.

We greatly appreciate your participation!

1. How did you find out about this learning community?

	▼
2.	What is the most important reason you enrolled in this learning community?
	•

In this learning community, how often have you done items #3-16? Please rate your experiences using the following scale:

- 1 = Never
- 2 = Rarely / Hardly ever
- 3 = Sometimes
- 4 = Often
- 5 = Very often
- 3. Connected and integrated ideas, concepts or skills from the different classes in the

4/26/2016 Page One

learning community when discussing material and doing assignments.

▼
4. Connected and integrated ideas, concepts or skills from the different classes in the learning community to practical skills outside of class.
▼
5. Looked at new ways to synthesize, connect or organize information, ideas and experiences.
▼
6. Judged the quality, value and accuracy of methods, positions, arguments or information.
▼
7. Used theories or concepts to look at practical problems or perform new skills.
▼
8. Spoke up in class discussions and asked questions in class.
▼
9. Worked with classmates during class.
▼
10. Worked on assignments or discussed material with classmates outside of class.
▼

11. Discussed ideas from the readings, lectures or discussions with non-classmates
