The Figures below are based on data derived from the state CC Chancellor's Office. Students attending a community college from selected zip codes in the East San Jose area were included in the analysis. The data allows a comparison of "market share" between community colleges. Despite the travel distance, De Anza College draws almost 1/4 of the students attending a CC from East San Jose each fall term.

Jan 2, 2008, Andrew LaManque, Ph.D., De Anza Research, with support from Elena Litvinova.

De Anza students from ESJ are increasingly younger and transfer / degree oriented. In 2006F, 50% of the students from ESJ attending De Anza were under 25 years old and had a goal of transfer / degree. This figure compares with 43% for West Valley, 37% for Evergreen and 28% for San Jose City.
