---

## Background

The Math Performance Success Program (MPS) is modeled as a supportive learning environment with a team of faculty, counselors, and tutors that work with students to help them succeed in Math 210, 212, 114 and 10. The diagram below shows the course progression from basic skills level to transfer level Math.

## Methodology:

MPS sections of 210/200/110, 212/101/112, 114/105 and 10 were compared to the same course in the same year. The instructional method, either face to face or distance was identified for comparison purposes. Only students who received a grade at the end of the term were included. Success is calculated on A, B, C and P grades while non success is D, F, and NP grades and Withdraw is W grades.

## Main Findings:

Over 11 years, the course success rates of students in MPS sections of Math 210, 212, 114 and 10 are 12 to 23% higher than the success rates of students in the same course in the traditional format.

Over 11 years, 3,858 students took an MPS math course while 3,100 students (80%) successfully passed their MPS math course.

Over 11 years, 8% of MPS students withdrew from their class compared to 20% of students in a face-to-face and 28% for distance courses.

## Eleven Year History by MPS, Face to Face, or Distance Format

**2001-2002 to 2011-2012**

OTHER	DISTANCE	2,164	47%	1,163	25%	1,319	28%	4,646	100%

Includes Math 210, 212, 114 and 10 for MPS and Other.

- MPS sections exhibited success rates of 80% compared to 59% of similar courses in the face to face format and 47% for similar courses as a distance section.

Includes students taking multiple courses and/or repeating the same course.

- Over 11 years, the course success rates of students in MPS sections are 12 to 23% higher than the success rates of students in the same course in the traditional format.
- Math 10 exhibited the highest success rate of MPS sections at 88%, followed by Math 114 at 80%.
- Math 210 exhibited the lowest success rate of MPS sections at 69% success, though still higher than the traditional section at 57% success.
