FROM: Andrew LaManque, Ph.D.
Supervisor, Institutional Research and Planning

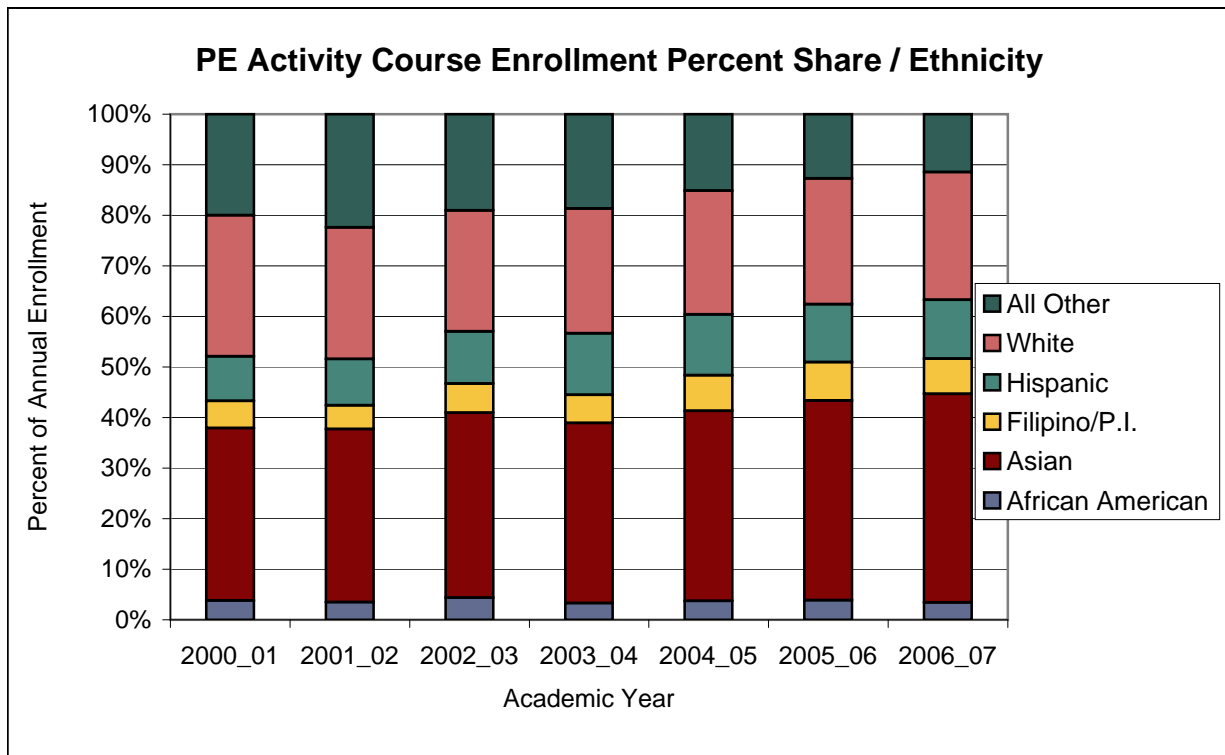

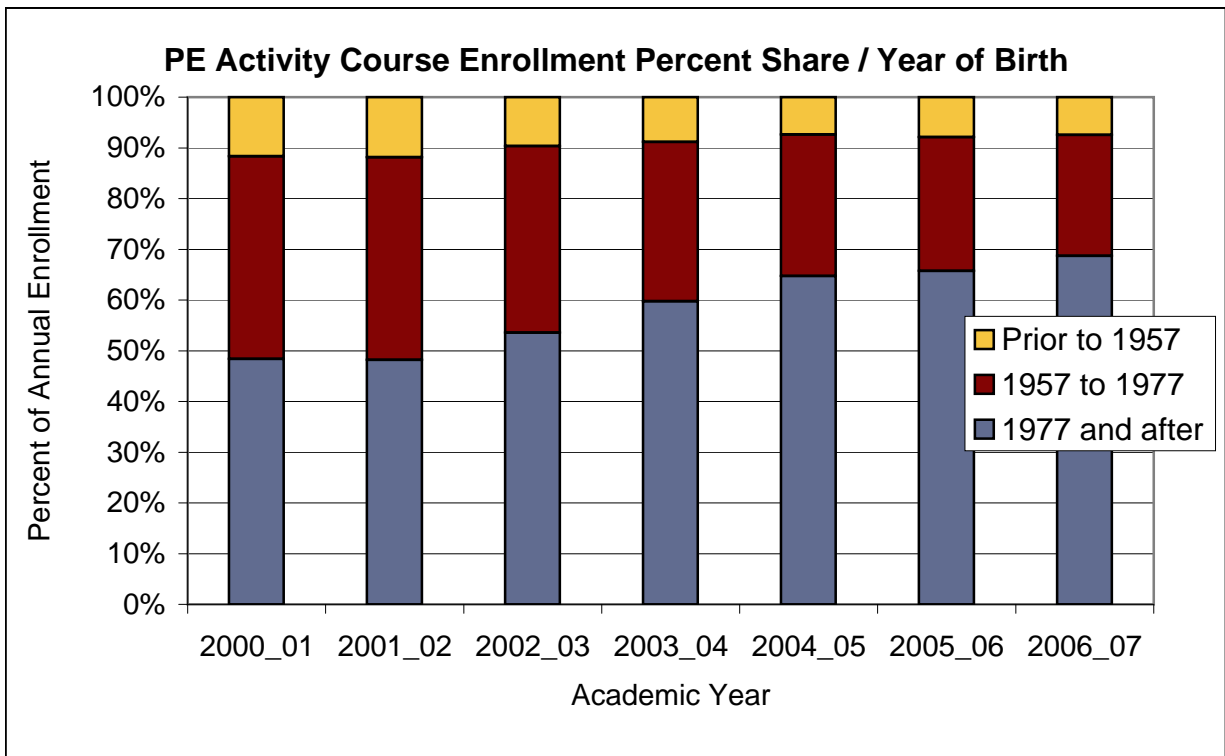

SUBJECT: PE Activity Course Enrollment Trends

Please find attached information on course enrollment trends for selected PE courses. The data have been grouped by year of birth (age), ethnicity, and location (whether most of the activities take place indoors or outdoors). Figures are presented for course enrollments or class seats and do not represent unique students or FTES based on WSCH.

Significant Trends

- PE Activity Course enrollments have grown +17% from 2000-01 to 2006-07 (9,172 to 10,728), while on-campus enrollments (excluding Job Corps and Distance Learning) declined by -6.7%. PE Activity Course enrollments now make about 6.5% of total on-campus enrollments.
- From 2001-02 to 2006-07 PE Activity Course enrollments declined by -6.7%, although Indoor enrollments grew +2.7%. This compares to a decline in on-campus enrollments (excluding Job Corps and Distance Learning) of -9.3%.
- About 70% of PE Activity Course enrollments are from courses normally held indoors. This is up from about 63% during the first part of the decade.
- The ethnicity of student enrollments in PE Activity Courses is similar to the overall student population.
- Activity courses are now serving a younger group of students than the first part of the decade, but overall enrollments in 2006-07 are from students older than found in overall student population. In fall 2006, 76% of De Anza credit students were under 30 years old, while 69% of PE Activity Course enrollments were from students under 30 years old.
- Stretch, Yoga, Pilates and Aerobics to Music courses have seen significant increases in enrollments over the period. Combined enrollment in these two groups has increased 169% from 1,188 to 3,201 and now account for about 43% of all indoor enrollments and 30% of all PE Activity Course enrollments. The increase has come largely from students under 30 years old, with Aerobics to Music including a higher percentage of Latino students than the overall De Anza population.

Physical Education Enrollement Trends by Course Group. Course Groupings provided by Rich Schroeder.
