De Anza College Researcher

SUBJECT: FHDA Transfer Students Enrolled at San Jose State University (SJSU)

The tables below outline enrollment of FHDA students at SJSU, with a focus on the Fall 2003 semester. Except where noted, most charts show data for all FHDA students enrolled at SJSU, including both new transfers and continuing students.

#### Observations

- In 2002-03, new transfer students to SJSU made up about 44% of the total transfers to CSU campuses for Foothill College and 67% for De Anza College.
- About 2/3 of new FHDA transfers to SJSU each year, transfer in the fall semester.
- Students identifying themselves as of Asian ethnicity made up about 1/3 of the FHDA transfer students to SJSU in fall 2003. This percentage is consistent with the overall enrollment of students at De Anza College but is more than 10 percent points higher than the Asian representation at Foothill College.
- More than 40% of FHDA continuing transfers students at SJSU in fall 2003 earned a SJSU GPA of 3.0 or higher.
- More than 55% of FHDA transfer students at SJSU in fall 2003 were female, which is just slightly higher than their representation in each of the campuses overall population.
- About 2/3 of FHDA transfer students at SJSU in fall 2003 were attending full time, which is about twice the rate of all students enrolled at each of the FHDA campuses.
- Business related majors are selected by more than 25% of FHDA students attending SJSU in fall 2003.

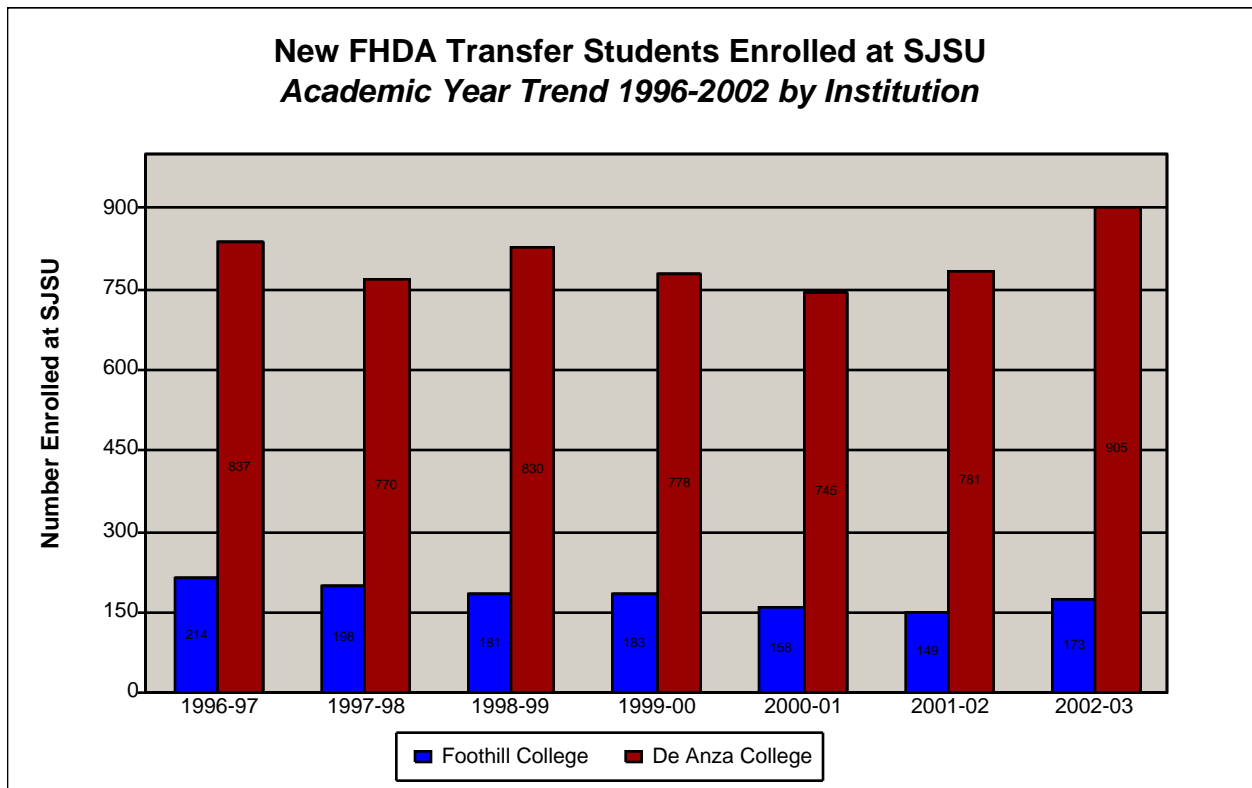

Our agreement with SJSU includes access to individual record detail for the purpose of improving educational practice. If interested, the variables included in this analysis can be compared to student activity variables at FHDA, such as FHDA major and time-to-transfer.
