

MEASURE E and MEASURE C

2007-2008

This year De Anza took part in developing the Foothill-De Anza Community College District 2007 Facilities Master Plan, which will guide the direction of Measure C and provide a vision of what campus development and renovations should be implemented over the next five years.

In 2006-2007 we renovated the Hinson Campus Center, including an exciting new food court and dining environment as well as all the following offices: Financial Aid, Student Activities, Student Accounts, De Anza Associated Student Body, Inter Club Council, Student Development and EOPS, Student Health Services and the Flea Market. Renovations to the Campus Center were primarily funded by the student body through the Campus Center Use Fee and a contribution from Measure E. We also renovated the Planetarium (funded by Measure E and State Capital Outlay dollars), which now houses a Konica Minolta next generation Infinium S Star projector – the only one in the world outside of Japan.

We completed our Campus Entries project to improve traffic flow off campus as well as improve on-campus circulation and access to the campus. We also created two new campus entrances and two emergency exits, and installed two electronic message signs on the northern corners of the campus. This project included other design features such as landscaping, new city sidewalks and enhanced pedestrian lighting.

This past summer we broke ground on the Visual and Performing Arts Center with completion scheduled for winter 2008. State Capital Outlay funded through Proposition 55 and external fundraising will augment the Measure E dollars allocated for this project. For progress updates on other Measure C projects, visit www.measurec.fhda.edu/.
