DE ANZA COLLEGE

Math Performance Success Program

It's easy to give up on math. Anyone who has a fear of math knows what I'm talking about. What MPS can do is start to break down that fear and help knock math down off of that unreachable pedestal that many people place it on. Math is difficult, but if MPS helped me reach a confident understanding, it can definitely help anyone to do the same.

— HENRY GRAVES JR.
MPS STUDENT & TUTOR

The teachers and tutors are very passionate about what they do. This will be the math class you'll never want to walk away from. Don't be frightened by equations. Discover easy math in MPS.

— DORIS HONG
MPS STUDENT

The MPS Program is by far one of the best at De Anza College. It has helped many other students and me to pass math. I highly recommend it.

— PEDRO HERNANDEZ
MPS STUDENT

The key to the MPS Program is collaboration; collaboration among students, who help each other learn and collaboration among teachers, counselors, and tutors, who help guide the students.

— RICHARD LOPEZ
MPS INSTRUCTOR

Math Performance Success Program

MPS is an award-winning, innovative program that offers students a team approach to success, particularly for those who have had past difficulty with math courses. Instructors, counselors and tutor/mentors collaborate to help students complete requirements from pre-algebra to college-level mathematics.

Students in the MPS Program receive

- Increased hours of instruction
- Tutoring
- Specialized counseling

MPS Program team members are dedicated to the philosophy that any willing student with the proper support and services can be successful in math.

The MPS Program offers the following course sequences

- Fall quarter – Math 210, 212
- Winter quarter – Math 212, 114
- Spring quarter – Math 114, 10

I have never been successful in math in my life until this year, thanks to MPS. The teachers are the best.

— JENNY VON TRESS
MPS STUDENT

Since I joined MPS, I have been able to improve my math skills. This program is the best thing that has happened to me. The teacher, tutors and counselors know how to make math fun and easy.

— SAUL GEMBE
MPS STUDENT
