

## SLO Assessment Cycle for AUTO 94B

*Automotive Machining and Engine Service*

Assessment Initiated by: [Dave Capitolo](#) (8312) in AUTO

### Outcomes:

#### Outcome 1: Statement

Student will set up and grind a valve face with the proper surface finish, while maintaining a margin thickness of no less than 1/16".

### Assessment Cycle Records:

#### Outcome 1: Assessment Planning Modified: [05/21/2010]

##### Assessment Strategy Used:

Quarter: Fall 2011

Assessors: Dave Capitolo

Assessment Tools: Performances/Demonstrations

#### Outcome 1: Reflect & Enhance Modified: [04/15/2011]

**Number of people involved in Reflection and Enhancement:** 2

##### Changes:

##### Methods:

Students will set up valve grinding machine to grind a valve.

##### Summary:

Half of the class did not perform this task to satisfaction. Students did not have enough time to practice. I think this was due to the fact that we have only one valve grinder to use for 24 students.

##### Enhancement (Part I):

More practice

##### Enhancement (Part II):

Purchase another valve grinding machine
