Assessment Tools: Performances/Demonstrations • oral presentation and follow-up discussion

Outcome 1: Reflect & Enhance Modified: [05/31/2010]

Number of people involved in Phase III: 5

Changes:

Methods:

Oral presentation and follow-up discussion, assessed using a rubric.

Summary:

Student performance was outstanding in the rubric category of aural comprehension. The weakest category in the rubric was fluency, however after only a year and a half of French, fluency (speaking fluidly with little to no hesitation) is not a realistic expectation. Overall, students met my expectations of proficiency.

Enhancement (Part I):

The rubric for assessing this SLO should be modified to reflect more realistic expectations for fluency at the intermediate level of a foreign language.

Enhancement (Part II):

All of our world languages students will benefit from access to tutors for practicing oral communication, and smaller class sections.

Outcome 2: Statement Modified: []

Derive meaning from texts of greater sophistication, to interpret an expanding range of subtleties of the structure and content of the text.
