

SLO Assessment Cycle for HTEC 183

Clinical Microbiology Practicum

Assessment Initiated by: [Debbie Wagner](#) (8790) in HTEC

Outcomes:

Outcome 1: Statement

Safely and accurately perform analytical procedures in Clinical Microbiology identifying normal and abnormal lab tests and factors affecting results and take appropriate action.

Assessment Cycle Records:

Outcome 1: Assessment Planning Modified: [04/09/2011]

Assessment Strategy Used:

Quarter: Spring 2010

Assessors: Debbie Wagner

Assessment Tools: Logs • Performances/Demonstrations Exams

Sections being assessed: 55

Outcome 1: Reflect & Enhance Modified: [04/01/2011]

Number of people involved in Reflection and Enhancement: 4

Changes:

Methods:

Skills checkoff list specific to the area of Microbiology will identify the students ability to safely and accurately perform analytical procedures in these departments.

Summary:

All students received "proficient" ratings in each skill assessed. All students completing this clinical training course, HTEC 183 have demonstrated acceptable technical laboratory ability and theoretical knowledge of microbiology.

Enhancement (Part I):

Course enhancements include continued feedback from De Anza College's MLT Advisory Board members who are employed by our clinical laboratory affiliates where MLT students complete this course. Skills lists for this course will be modified to include the Advisory Board's recommendations.

Enhancement (Part II):

N/A - no additional resources needed to complete this enhancement.
