

SLO Assessment Cycle for HTEC 180

Clinical Hematology/Urinalysis/Coagulation Practicum

Assessment Initiated by: [Debbie Wagner](#) (8790) in HTEC

Outcomes:

Outcome 1: Statement

Safely and accurately perform analytical procedures in Clinical Hematology/Urinalysis/ Coagulation departments identifying normal and abnormal lab tests and factors affecting results and take appropriate action.

Assessment Cycle Records:

Outcome 1: Assessment Planning Modified: [04/01/2011]

Assessment Strategy Used:

Quarter: Spring 2010

Assessors: Debbie Wagner

Assessment Tools: Exams • Logs •

Performances/Demonstrations

Sections being assessed: 55

Outcome 1: Reflect & Enhance Modified: [04/01/2011]

Number of people involved in Reflection and Enhancement: 2

Changes:

Methods:

Skills check off list specific to the departments of Hematology, Urinalysis and Coagulation will indicate the level of skill demonstrated by the student.

Summary:

All students received "proficient" ratings in each skill assessed
All students completing this clinical training course, HTEC 180 have demonstrated acceptable technical laboratory ability and theoretical knowledge of hematology, urinalysis and coagulation.

Enhancement (Part I):

Enhancements include incorporating input from the MLT Advisory Board, consisting of members of our clinical affiliate training facilities, into our lectures and student laboratories in order to continue to equip our MLT students with the technical skills they need for employment.

Enhancement (Part II):

N/A - this enhancement requires no additional resources
