## Student Learning Outcomes for AUTO 60K

*Automotive Body Electrical Systems*

---

### Team Members:

**Team Leader:**

Rick Maynard (8704) in AUTO

**Other members:**

1. Rick Maynard (x8704) AUTO

**Additional team members/notes about team:**

Rick Maynard,

**Additional Notes:**

---

### Outcomes:

**Outcome 1 Phase I: Statement**

The student will show an understanding of a resistive multiplexed switch circuits operation and diagnosis through a written essay.

**Outcome 1 Phase II: Assessment Strategy Used:**

Assessment Quarter: Summer 2011

Assessors: Rick Maynard, Rick Maynard

Assessment Tools: *No tools assigned.*

Sections being assessed: 61

**Outcome 1 Phase III: Reflect & Enhance**

**Number of people involved in Phase III:** 1

**Changes:**

None

**Methods:**

Essay question in final exam.

**Findings and Conclusions:**

82% of the students showed a complete understanding of the multiplex circuit. All of the students showed an increase in their understanding.

**Enhancement (Planned Actions)**

**Part I:**

No improvement needed

**Part II:**

None
