

SLO Assessment Cycle for HLTH 57E

Cardiopulmonary Resuscitation and Automated External Defibrillation

Assessment Initiated by: [Cassie Hanna](#) () in NURS

Outcomes:

Outcome 1: Statement

Demonstrate life saving skills in respiratory and cardiac emergencies as specified by the American Red Cross.

Assessment Cycle Records:

Outcome 1: Assessment Planning Modified: [12/07/2010]

Assessment Strategy Used:

Quarter: Spring 2010

Assessors: , Mary Donahue

Assessment Tools: Exams • Performances/Demonstrations

Sections being assessed: 1

Outcome 1: Reflect & Enhance Modified: [12/07/2010]

Number of people involved in Reflection and Enhancement: 1

Changes:

Methods:

Red Cross multiple-choice exam

Skills demonstration on manikins of CPR and automated external defibrillation

Summary:

With the exception of two students who stopped attending, all students passed all the practical skills tests.

21 of 21 passed the written exam for certification and earned the certification.

The Red Cross allows two tries at the 40 question multiple-choice exam for certification.

19 of 21 students passed the exam on their first try. (1 student had a perfect score, 4 missed one, 7 missed two, 2 each missed four or five questions on their first try.)

Two needed a second try, both passed.

Enhancement (Part I):

Add survey

I know when to use the skills I learned in this course:

I have confidence I can do these skills correctly:

Enhancement (Part II):

On an annual basis new "lung bags" and nonlatex gloves are needed for safety reasons.

Early 2011 new videos will be needed because of Red Cross changes in curriculum.
