

## SLO Assessment Cycle for MUSI 3C

*Comprehensive Musicianship (Third Quarter)*

Assessment Initiated by: [Paul Setziol](#) (x8512) in MUSI

### Outcomes:

#### Outcome 1: Statement

The successful student will apply the stylistic principles of and normative adherence to the rules of strict four part writing using tertian triads in root, 6, and 6/4 positions including secondary authentic and modulating functions.

### Assessment Cycle Records:

#### Outcome 1: Assessment Planning Modified: [02/02/2012]

##### Assessment Strategy Used:

Quarter: Spring 2011

Assessors: Paul Setziol

Assessment Tools: Exams • Performances (Simulated)

Sections being assessed: 01

#### Outcome 1: Reflect & Enhance Modified: [09/20/2012]

**Number of people involved in Reflection and Enhancement: 1**

##### Changes:

##### Methods:

- Multiple 4 part writing assignments primarily using given soprano and given explicit harmonic progressions
- Mid term and final exams with the same starting points but limited time for completion

##### Summary:

Students were successful with a given progression and most of the time with a given bass line (depending on the complexity of the bass line). Final assessment of this SLO has not yet occurred.

##### Enhancement (Part I):

A careful examination of the musical scores produced over two years to determine the range of solutions created and basic stylistic tendencies revealed. At this point, if the range demonstrated is too narrow, ways will be sought to guide the students towards broader stylistic applications.

##### Enhancement (Part II):

An updating of the notational software for the classroom/lab is LONG overdue. In order for students to be able to create multiple stylistic versions of four part writings, Sibelius 7 needs to be installed.

#### Outcome 2: Statement

The successful student will demonstrate the use of solfeggio in accurate sight singing of melodies containing a balance of disjunct and conjunct motions a) in tempo with all nuances indicated and b) against interfering notes.
