<td>TracDat system – Update on recommendation /purchase status</td>
<td>I</td>
<td>Khanna</td>
<td>Foothill is interested in purchasing Trac Dat. The district has directed Marty Khan, ETS Manager to get a quote for a district purchase. Wednesday, November 10, 2010 representatives from each college will meet with Fred Sherman, VP of Technology to discuss the purchase.</td>
</tr>
<tr>
<td>Program Outcomes Liaison Training Workshops – Information/Update</td>
<td>I/ D</td>
<td>Pape, Ramirez</td>
<td>November Liaison Workshops planning is underway. The activity for program level assessment is becoming clearer. Pape and Haynes will be attending a SLO Coordinators Regional Meeting at Sierra College on November 5, 2010. The hope is that more clarity and examples regarding program level assessment will be one of the main topics. Ramirez presented an example of an assessment calendar rubric.</td>
</tr>
<tr>
<td>SSLO/AUO – Status/Update</td>
<td>I</td>
<td>Haynes</td>
<td>Reported that 100% of the Student Services programs have written program SLOs and are on file with Jim. It is expected at 100% of SLOACs for these programs will be completed before Fall of 2011.</td>
</tr>
<tr>
<td>Program Outcomes and Assessment: Establishing a six-year cycle?</td>
<td>I/ A</td>
<td>Pape</td>
<td>Pape expressed a concern about the workload of program assessment for divisions/units/programs that have large numbers of certificates to assess. It was decided that the Coordinators would personally help programs that have large numbers of certificates organize their work over the 6 year—assessment cycle.</td>
</tr>
<tr>
<td>Need for updated Organizational Chart - Discussion</td>
<td>D</td>
<td>All</td>
<td>Last year, annual program review updates were only required of groups that had written program reviews in the past. Khanna reported that the curriculum committee is performing a SLOAC, where would this information go be placed? What about new programs such as Linc, MPS, Student Success Center . . . where do they fit? Any group that needs to make resource requests should (?) perform a program review. Anderson suggests that perhaps some of the programs can be grouped together based on similar outcomes. A clarification of who needs to do program review is imperative. LaManque suggested that criteria should be created by the SLO Steering Committee and then brought forth to all the shared governance groups for vetting. Action: The next SLO Steering Committee meeting agenda will center on this task. Lee-Wheat reported that a resolution from the accreditation steering committee and academic senate will be bringing forth resolutions to College Council asking for a handbook that clarifies college shared governance processes and groups.</td>
</tr>
<tr>
<td>DRAC committee</td>
<td>I/ A</td>
<td>Anderso n</td>
<td>The District office of Research has created a new committee. The SLO Steering Committee recommends that Lee-Wheat brings G.Anderson’s name to the Academic Senate for confirmation on this committee.</td>
</tr>
<tr>
<td>Program Review IPBT and CTEC reports</td>
<td>I/ D</td>
<td>Lee-Wheat</td>
<td>Bdzil and Sherman noted that CTEC programs regularly do program reviews for their accrediting agencies. They suggested that by adding two questions (see attachment # 6 and 7 of their proposed form) the De Anza PR would be more inclusive relative to CTEC programs. They also suggested that the current program review update form could be more effective and “user friendly” if the expectations for the writers was more clearly stated.</td>
