Summarize your experience and how you think you benefitted from your involvement.

I had a very good experience with the Mid-Peninsula organization. They were able to locate a center close to where I live and I was able to get my hours done in the afternoon, right when I finish class. Working with the children was fun and it never got out of hand because my supervisor was always there to help. I think I benefitted from my involvement because I gained experience in helping young children.
