Health Library: <http://healthlibrary.stanford.edu>

What is the purpose (or mission statement) of this organization?

(Health library) Sponsored by Stanford Hospital & Clinics, Stanford Health Library provides scientifically-based medical information to help people make informed decisions about their health & healthcare.

What was your role in this organization?

Library Reference Associate

Summarize your experience and how you think you benefitted from your involvement.

Overall, I have really enjoyed my experience volunteering at the Stanford Health Library. We serve both patients/doctors, as well as the community at large with any and all questions related to health, healthcare, and best practices. Not only have I personally gained great insight into the medical profession, which I hope to enter into, but I have learned an enormous amount through my research here. Additionally, it has helped hone my researching skills. Above all, I enjoy helping others out by researching the latest information and treatments for their specific diagnosis.

Your name: _____
