Course Description:
This course is an introduction to the study of creativity in human life, its sources, development, social purposes, and role in culture change. Students analyze creativity as a central source of meaning and purpose in their lives as well as a development of their unique combination of human intelligences. Lives of creative people from all over the world are examined and contextualized.

*Note: This course is specifically designed to build commitment to civic and moral responsibility for diverse, equitable, healthy and sustainable communities. Students are expected to recognize themselves as members of larger social fabrics and to develop the abilities and willingness to take informed action for change.

Required Reading:

*Note: several copies of both texts are on reserve in the De Anza library, available for checkout.

Some underlying assumptions of this course:
“Almost anything good you do will seem insignificant, but it is very important that you do it.” -- Gandhi

“Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has.” -- Margaret Mead

“There is one thing stronger than all the armies in the world, and that is an idea whose time has come. — Victor Hugo

“Optimism is a political act. Those who benefit from the status quo are perfectly happy for us to think nothing is going to get any better. In fact, these days, cynicism is obedience.” -Alex Steffen

“To live a creative life, we must lose our fear of being wrong.” — Joseph Chilton Pierce

“We see the world not as it is, but as we are.” – Anais Nin
