The Brown Decision

*Brown v. Board of Education of Topeka* was one of the most significant Supreme Court cases of the twentieth century. Write a three-page paper which explains your understanding of the case, identifying the main litigants, and give the arguments that legislators in the South gave against the decision. Why do you think the Supreme Court ruled as it did? What obstacles did African-American students have to face in integrated schools? Do obstacles still remain in America’s schools for people of color?
