2019-2020 DE ANZA COLLEGE CATALOG
DE ANZA COLLEGE

ACADEMIC CALENDAR 2019-2020

FALL QUARTER
Sept. 23 through Dec. 13, 2019
Last day for international students to apply for admission: June 30
Instruction begins: Sept. 23
Final examinations: Dec. 9-13

Holidays
Veterans Day: Nov. 11
Thanksgiving recess: Nov. 28-Dec. 1
Winter recess: Dec. 16-Jan. 3

WINTER QUARTER
Jan. 6 through March 27, 2020
Last day for international students to apply for admission: Oct. 31
Instruction begins: Jan. 6
Final examinations: March 23-27

Holidays
Martin Luther King, Jr. Day: Jan. 20
Presidents’ Day weekend: Feb. 14-17
Spring recess: March 30-April 3

SPRING QUARTER
April 6 through June 26, 2020
Last day for international students to apply for admission: Jan. 31
Instruction begins: April 6
Final examinations: June 22-26

Holidays
Memorial Day weekend: May 23-25

SUMMER SESSION
For the latest information, see deanza.edu/calendar.

Holidays
Independence Day: July 4

ALTERNATIVE MEDIA
To request college materials in an alternate format, people with disabilities should contact the alternate media specialist at 408.864.5815.

ACCURACY OF INFORMATION
Every effort has been made to ensure that the information in this catalog is accurate at the time of publication. Students and other users should be aware that laws, policies, rules, fees, programs and services may change, thereby altering the material in this catalog. Such changes may come in the form of statutes enacted by the federal or state government or policies and guidelines adopted by the California Community Colleges Board of Governors, state Chancellor’s Office, the board of trustees or chancellor of the Foothill-De Anza Community College District, De Anza College governance, and the president of De Anza College or the president’s designee. Users of this catalog should verify necessary information, which is generally found in most current form on the college website. See deanza.edu.

The 2019-2020 De Anza College catalog is produced by the college’s offices of Communications and Curriculum with the assistance of contributors from other departments.

De Anza College is a public, two-year college of the Foothill-De Anza Community College District
21250 Stevens Creek Boulevard | Cupertino, California 95014 | deanza.edu
Dear Student,

We are honored that you have chosen to join us at De Anza.

I know that you will find yourself at home here on our campus. De Anza is an exciting college, with wonderful faculty, classified professionals and administrators, all committed to your success.

We have great academic programs, athletic teams and clubs. We are committed to providing an outstanding education and a safe, supportive, engaging environment for all students.

We are proud of our college and its well-deserved reputation for being “Tops in Transfer.” De Anza is the top Silicon Valley college for transfer and is always at or near the top statewide in community college transfers to the University of California, California State University and private universities. We’re also proud to be “Tops in Career Training,” with outstanding workforce programs.

Here at De Anza, we believe all elements of a comprehensive education are crucial to your success, including a beautiful physical environment for learning. We have a number of upgraded facilities, made possible by the generosity of local voters through their approval of construction bonds. The entire campus is committed to environmental sustainability and energy conservation.

While the campus is wonderful, our people are the most important part of De Anza. Faculty you can talk with, staff willing to go the extra mile, fellow students from all over the world – these are what make De Anza special.

I am a De Anza College graduate myself, and both of my children graduated and transferred from De Anza. I am very happy that you, too, have chosen to attend De Anza College. Welcome!

Sincerely,

Christina G. Espinosa-Pieb, Interim President

---

PATHWAY TO SUCCESS

1. Declare a major on your application (not “Undecided”).
2. Select a goal of transfer, degree or certificate.
3. Complete assessment.
5. Create an educational plan in DegreeWorks.

These steps are best practices recommended through the Student Success Act of 2012. Following them will help you get priority enrollment (see page 31).
OUR VISION
Empower all students to attain their educational goals, develop an equity-based mindset and become civic leaders in their communities.

MISSION STATEMENT
De Anza College provides an academically rich, multicultural learning environment that challenges students of every background to develop their intellect, character and abilities; to realize their goals; and to be socially responsible leaders in their communities, the nation and the world. The college engages students in creative work that demonstrates the knowledge, skills and attitudes contained within its Institutional Core Competencies:

- Communication and expression
- Information literacy
- Physical/mental wellness and personal responsibility
- Civic capacity for global, cultural, social and environmental justice
- Critical thinking

VALUES
De Anza values and is committed to:

INTEGRITY
We embrace honesty, credibility, clear communication and acting on our stated values. We strive to acknowledge and address issues that may be difficult to broach. The college’s ability to fulfill its mission depends on a college community in which everyone feels included, respected and safe.

INNOVATION
In all of our many roles, we will continuously and purposefully reflect in order to innovate and improve. We work to ensure our physical space is welcoming, conducive to learning and environmentally sustainable. We are committed to being innovative in our daily work, curriculum and use of technology. We work with our students to be creative, flexible, imaginative and inventive, and to prepare to contribute to a world that will demand skills and competencies not yet in view.

EQUITY
We welcome students of all ages and backgrounds and connect with them, in their range of unique circumstances, to help them fulfill their dreams. We strive to design classes and services to the needs of those we serve. We value and embrace the intellectual contributions of a diverse spectrum of people and cultures. We strive for a diverse workforce that honors the contributions of all who work here.

DEVELOPING THE HUMAN CAPACITY OF ALL STUDENTS
We will provide support in six key factors of student success. Our students will be:

- Directed, with a goal and the knowledge of how to achieve it.
- Focused, staying on track to achieve that goal.
- Nurtured, feeling that we want to, and do, help them to succeed.
- Engaged, actively participating in class and extracurricular activities.
- Connected, feeling that they are part of the college community.
- Valued, with their skills, talents and abilities recognized, and with opportunities to contribute on campus and feel that their contributions are appreciated.*

CIVIC ENGAGEMENT FOR SOCIAL JUSTICE
We provide students with opportunities to enhance their potential for purposeful and productive lives. As a public institution, we contribute to the development of our local, state, national and global communities. We view our students and ourselves as agents of change, responsible for building the world in which all people are able to realize their dreams in ways that are environmentally sustainable and in alignment with the United Nations’ Declaration of Human Rights.

Website: deanza.edu/about-us/mission-and-values
COMMUNICATION AND EXPRESSION
Students will communicate clearly, express themselves creatively, interpret thoughtfully and logically, and engage actively in dialogue and discussion, while paying attention to audience, situation and (inter) cultural context. Communication and expression may be written or oral, verbal or nonverbal, informational or artistic.

INFORMATION LITERACY
Students will recognize when information is needed and locate, critically evaluate, synthesize and communicate information in various formats. They will use appropriate resources and technologies while understanding the social, legal and ethical issues for information and its use.

PHYSICAL/MENTAL WELLNESS AND PERSONAL RESPONSIBILITY
Students will recognize lifestyles that promote physical and mental well-being, engage in self-reflection and ethical decision-making, explore career choices and life goals, practice effective individual and collaborative work habits, and demonstrate a commitment to ongoing learning.

CIVIC CAPACITY FOR GLOBAL, CULTURAL, SOCIAL AND ENVIRONMENTAL JUSTICE
Students will recognize their role as local, national and global citizens. They will participate in a democratic process, respect social and cultural diversity; appreciate the complexity of the physical world, and understand the significance of both environmental sustainability and social justice.

CRITICAL THINKING
Students will analyze arguments, create and test models, solve problems, evaluate ideas, estimate and predict outcomes based on underlying principles relative to a particular discipline, interpret literary, artistic, and scientific works, utilize symbols and symbolic systems, apply qualitative and quantitative analysis, verify the reasonableness of conclusions, explore alternatives, empathize with differing perspectives, and adapt ideas and methods to new situations.

—Adopted by the Academic Senate in spring 2009; updated spring 2014.

GENERAL EDUCATION PROGRAM
The General Education program reflects the conviction that students must have knowledge about certain basic principles, concepts and methodologies both unique to and shared by various disciplines. The faculty intends that the General Education program will provide students with the knowledge and skills necessary to evaluate and appreciate the physical environment, their culture and other cultures, the contributions of both men and women, and the society in which they live; and it will help them connect various fields of knowledge in order to become active, vibrant participants in a diverse and global society.

—Taken from the General Education Statement of Philosophy

STUDENT RIGHTS AND RESPONSIBILITIES
Students at De Anza College have guaranteed rights, and assume responsibilities, under applicable state and federal law and regulations derived from these statutes. These rights and responsibilities include protection of freedom of expression and protection against improper evaluation in the classroom; access to, safekeeping and confidentiality of records; rights of freedom of association, inquiry and expression; participation in student governance with corresponding responsibilities; and the exercise of the rights of citizenship off campus. De Anza College has the responsibility to establish disciplinary proceedings and applicable penalties, within the law, for the violation of college rules and regulations. The colleges shall also establish procedures for grievances and complaints in order to provide a means for resolving alleged unfair or improper action by any member of the academic community.

Board Policy 5500
See Administrative Procedure 5500
De Anza College is an institution dedicated at its core to diversity and to a multicultural learning environment.

The college offers 71 degrees, 95 certificates and more than 1,700 courses.

HISTORY

De Anza was established in Cupertino on Sept. 11, 1967, as the Foothill Junior College District worked to meet local community demand for a second campus. Planning for De Anza began soon after the district’s first campus, Foothill College, launched in temporary quarters in 1958 and filled to capacity after moving in 1961 to its permanent location in Los Altos Hills. Just four years after approving a $10.4 million bond measure for Foothill, community members readily voted in favor of a second bond measure, in the amount of $14 million, to build De Anza College.

De Anza was constructed on 112 acres of what was once a turn-of-the-century wine-producing estate that the district purchased for $1.1 million. Guiding principles for the new college called for creating an “open door” institution to serve students with a wide variety of abilities, aptitudes and interests; an atmosphere of “friendly informality between faculty members and students”; and a campus that conveyed a sense of “quiet dignity” and “higher learning.”

De Anza’s enrollment has grown from 3,000 students in its first year to about 20,000 today. Students, faculty and staff reflect the highly diverse ethnicities, cultures and backgrounds that comprise contemporary Silicon Valley.

Since its earliest days, De Anza has embodied a set of fundamental values that remain embedded in its culture. A deep concern for equity and social justice took root during the college’s formative years, influenced by the sweeping social and political changes of the 1960s and 1970s. In intentionally cultivating a new educational community, the founders of what became the Foothill-De Anza Community College District placed a premium on excellence and innovation, and searched out faculty with a passion for teaching.

These foundational values continue to shape De Anza’s institutional character today. They are evident in De Anza’s deep commitment to providing a learning environment that is inclusive and welcoming to all students, and the college’s concerted effort over the past decade to achieve educational equity across racial and ethnic groups.

STUDENT SUCCESS

All De Anza students can find support through the Student Success Center, which can help them connect with a supportive community of instructors, counselors, advisers, tutors, peer mentors and study groups. The center can also direct students to study skills classes, and workshops on critical thinking and time management. In addition, Learning Communities provide many students with a network of support as they take classes and participate in other activities as a group.

Since 2014, the college has used funding from the state’s Student Success and Support Program (SSSP) to provide counselors within instructional divisions and Learning Communities, where they can work closely with students and offer assistance tailored to their circumstances and their educational goals. De Anza also has expanded its Office of Outreach and Relations with Schools to provide core services in high schools and work with new students on campus to assist them in completing their comprehensive educational plan and provide counseling and advising, peer support, follow-up and connection to campus resources for increased student retention and success.

These support systems are among the reasons De Anza has one of the highest university transfer rates among community colleges in California. A 2008 case study by the California Community Colleges Research and Planning (RP) Group concluded that De Anza’s high transfer rate is attributable to its strategic approach to institutional development; its encouragement and support of academic excellence and achievement; its tradition of innovation; and its experimentation with ways to integrate student services with instruction. The college consistently ranks at or near the top statewide in transfer to four-year institutions, according to the state Chancellor’s Office Velocity Data Mart.

De Anza’s commitment to historically underserved students also is seen in its long history of programs for students with disabilities, which date to 1973. In 2018-19, the college served 1,281 students with disabilities.

SUSTAINABILITY, LEARNING FACILITIES AND BOND MEASURES

Just as the civil rights movement shaped De Anza in its early days, the environmental movement has galvanized a wide range of activities on the campus among students, faculty and staff. De Anza’s commitment to sustainability as a core value is evident in daily improvements ranging from 100 percent biodegradable containers and utensils in the cafeteria to drought-tolerant landscaping and weather-responsive irrigation on the grounds.

In 2016, De Anza became the first community college to be certified as a Bay Area Green Business. The program distinguishes organizations that protect, sustain and preserve the environment. The city of Cupertino also awarded the college with a GreenBiz certification, an offshoot of the Bay Area Green Business program.

Through the work of its College Environmental Advisory Group (CEAG), De Anza in 2007 became the first community college in the nation to develop its own Sustainability Management Plan to guide continual improvement. The college’s Environmental Studies Department, housed in the Kirsch Center for Environmental Studies, has provided inspiration for the campus as the first “green” demonstration building in the California community colleges. The department has developed an extensive sustainability curriculum leading to certificates and degrees in three program areas. The Cheeseman Environmental Study Area contains several diversified ecosystems and is located next to the Kirsch Center for Environmental Studies.

De Anza College is committed to using sustainable building methods and materials. Nine of its buildings have been certified as meeting national LEED standards for environmental sustainability: the Kirsch
Center for Environmental Studies and the Media & Learning Center – both rated LEED Platinum; the Baldwin Winery and the Visual & Performing Arts Center (VPAC) – rated LEED Silver; and the East Cottage, Multicultural Center (MCC), Registration & Student Services (RSS) building, Science Center and Seminar (SEM) building – LEED certified.

Among the comprehensive athletic facilities are a 5,000-seat stadium, aquatics complex, gymnasiums, fields and courts. Specialized facilities include the De Anza Planetarium, which houses the only Infinium S Star projector outside Japan, and the VPAC, which includes a 400-seat performance and lecture hall and the Euphrat Museum of Art. These facilities, along with the California History Center and other buildings across campus, are spaces for the college’s extensive program of cultural and educational activities that contribute to the enrichment of the students and community.

De Anza’s state-of-the-art facilities have been made possible by community support of two bond measures: Measure E for $248 million was approved by Foothill-De Anza Community College District voters in 1999, and Measure C for $490.8 million was approved in 2006. In addition to construction, bond proceeds have funded extensive building renovations; upgrades of critical electrical and mechanical systems; installation of energy-producing solar arrays; and restoration of two historic campus landmarks: the old stone Baldwin Winery building, which now houses Financial Aid, and the estate’s once-crumbling Trianon building, home to the college’s California History Center. Facilities are available for community rental.

VIDA offers a range of opportunities for students, including a certificate in Leadership and Social Change. VIDA facilitates service learning for more than 2,000 students annually and maintains active relationships with more than 25 community partners that work with students in their service learning placements. Classes that include at least 12 hours of mandatory service are designated with an “S” and totaled on student transcripts. VIDA sponsors several initiatives and co-sponsors conferences where hundreds of historically underrepresented high school students learn about attending college and becoming active in the community. VIDA also houses the HEFAS (Higher Education for AB540 Students) Undocumented Center, which provides supportive services, scholarship information, community resources and leadership and advocacy opportunities.

De Anza students also have extensive opportunities to become engaged through the active leadership of the De Anza Associated Student Body (DASB), which in addition to on-campus and community activities mobilizes in statewide advocacy efforts for public higher education.

EQUITY, SOCIAL JUSTICE AND MULTICULTURAL EDUCATION

De Anza College defines student equity not as providing each student with the same support, but rather connecting with students in their unique range of circumstances and supporting them in their individual journeys to academic success.

To achieve this goal, the Office of Equity, Social Justice and Multicultural Education partners with college leadership, faculty members, classified professionals and the Equity Action Council to provide ongoing resources, measurements and focused attention on enhancing student success. De Anza College is committed to increasing transfer rates and the awarding of degrees and certificates; improving access, course completion, course retention and persistence; and equalizing student success rates by gender, race, ethnicity and disability. The college works to address achievement and opportunity gaps by providing developmental opportunities and educational forums across the campus, and through the Equity Office, enhancing the ability of faculty members, classified professionals and administrators to provide culturally responsive support and guidance for students and each other, with the goal of creating a fully inclusive community. Using the philosophy and approach of social justice and multicultural education, student equity is achieved through rigorous ongoing accountable processes that will work toward ensuring equality of outcomes in all measurements of student access and achievement.

More information on the Equity Office is available on page 11.

COMMUNITY AND CIVIC ENGAGEMENT

Community and civic engagement is a focus of the college. The Institute for Community and Civic Engagement (ICCE) was launched in 2006 to work with students on civic and leadership skills and provide them with opportunities to be agents of social, economic and political change in their communities. In 2015, the ICCE was renamed the Vasconcellos Institute for Democracy in Action (VIDA) in honor of the late state Sen. John Vasconcellos.
ATHLETICS

De Anza is a member of the Coast Conference and the California Community College Athletic Association. We are the proud home of 12 consecutive Coast Conference All-Sports trophies – awarded to the top athletic program in the region. Varsity teams compete in eight sports for men: baseball, basketball, cross country, football, soccer, swimming and diving, track and field, and water polo. The nine sports for women include badminton, basketball, cross country, soccer, softball, swimming and diving, track and field, volleyball and water polo.

All entering students have two years of eligibility at the community college level and must be enrolled in 12 units while competing. Nine of those units must be attempted in courses that are consistent with the student-athlete’s educational plan. Most athletic programs follow a yearlong calendar of conditioning, training and competition. Information about each program and coach can be found on the Athletics Department website.

**Telephone:** 408.864.8701  
**Website:** deanza.edu/athletics

BOOKSTORE

The De Anza College Bookstore is located in the Registration & Student Services Building. The Bookstore is the one-stop source for textbooks, including rental textbooks, reference books, study aids and school, art and office supplies. The Bookstore also sells De Anza College logo clothing and gifts, Scantron forms, pencils and convenience store items. The Bookstore offers computers, software and supplies at educational discounts.

**Telephone:** Textbook information 408.864.8455  
**General information** 408.864.8701  
**Website:** deanza.edu/bookstore  
(includes 24-hour online textbook orders, school supplies, logo clothing orders, online faculty textbook requisitions, hours of operation, buyback dates and special events)

CALIFORNIA HISTORY CENTER

The California History Center is an active focal point for the study of California and has been recognized as an Outstanding Educational Facility by the state of California, while receiving numerous other awards and honors. The center is housed in the rehabilitated Trianon building, located on the De Anza College campus and listed on the National Register of Historic Places. The center is dedicated to promoting the study of local and regional history and encouraging the development of a vibrant civic and cultural life for the community. Students, faculty, staff and community members are welcome to utilize the center’s resources: credit courses, changing exhibits, lectures and special events, and publications including its quarterly membership magazine, Californian, and local history books.

Another history center resource is the Stocklmeir Library and Archives, a growing collection of materials on California and on almost every aspect of Santa Clara Valley’s development. A book and journal collection and archives, including student research papers, audio and video oral history, photographs, manuscripts, ephemera, newsletters, clippings and pamphlets are available for research.

The CHC also houses the Audrey Edna Butcher Civil Liberties Education Initiative, which engages students and the general public on civil liberties issues.

**Telephone:** Executive Director 408.864.8986  
**Library/Archives** 408.864.8987  
**Website:** deanza.edu/califhistory

CAREER TRAINING PROGRAMS

De Anza offers career training in 23 different subject areas, most with hands-on learning, internship opportunities and curriculum developed with input from industry experts. These programs are designed to prepare students for immediate employment or transfer to a four-year university, and to enhance career prospects for working professionals. A number of De Anza’s career training programs have earned special recognition from the chancellor’s office for California community colleges, which found they met or exceeded goals for helping students increase earnings and find employment in a job similar to their field of study. Learn more at deanza.edu/career-training.

CHEESEMAN ENVIRONMENTAL STUDY AREA

The Cheeseman Environmental Study Area (ESA) is a natural garden containing more than 400 species of plants representing 12 California native plant communities. This 1.5-acre site on the southeast corner of the campus is maintained by the Biological, Health and Environmental Sciences Division and the Environmental Studies Department. The ESA is used to conduct environmental research and contains a student laboratory for use by environmental studies and biology classes.

**Telephone:** 408.864.5446  
**Website:** deanza.edu/es/esa

CHILD DEVELOPMENT CENTER

The De Anza Child Development Center offers child care to Foothill-De Anza students and the community at large. The program values inclusion of all children and
serves as a practicum for student interns working toward their degree or certificate in the fields of Child Development or Early Intervention. Staff members meet the highest standards of the profession, and curriculum is based on best practices for young children.

The center serves children ages 18 months to five years and has the capacity to provide services to more than 100 children. Parent participation is supported and strongly encouraged. For students, the center offers an income-eligible sliding scale fee program sponsored by the California Department of Education.

Families are encouraged to sign up for a tour of the center prior to submitting a waiting list application — available at deanza.edu/child — where they can also find the dates of tours. Parents can place their child’s name on the waiting list by completing the application and mailing or faxing it to the center.

Child care services operate all year from 7:15 a.m. to 5:30 p.m.

Location: Southwest corner of campus
Telephone: 408.864.5795
FAX: 408.864.5627
Website: deanza.edu/child

COLLEGE LIFE (OFFICE OF)
The Office of College Life provides an information and resource center for students, staff and community members. It also enhances multiculturalism and diversity at De Anza. The office, in concert with the De Anza Associated Student Body (DASB), clubs and staff, provides for numerous educational programs and events representing the college’s diverse student and staff community.

Among the many services are a housing website and college posting approval. Free legal advice from a lawyer is also available.

Location: Campus Center (lower level, near Health Services)
Telephone: 408.864.8756
Email: collegelife@deanza.edu
Website: deanza.edu/collegelife

CLUBS
Student success is the primary focus of De Anza, and one factor of success is campus involvement. There are more than 70 active clubs on campus that provide diverse opportunities for students including leadership, community service and friendships. Students can also form new clubs. For a current list of clubs, club meetings, how to start a new club and more, visit the website.

Website: deanza.edu/clubs

STUDENT GOVERNMENT
The De Anza Associated Student Body (DASB) is the elected government organization designed to enhance the college environment through student involvement in the decision-making process. Student government financially supports athletics, clubs, dances and speakers, creative arts events, student publications, social events, student support services and some instructional programs.

Active participation in student government provides students the opportunity to gain skills and knowledge in group dynamics, program planning and leadership.

Students are encouraged to participate in the development of co-curricular programs and the formulation of general college policies. Students are involved in college governance through membership and participation on all major college boards and committees.

The opportunity for self-government is extended to the students of De Anza by the board of trustees, administration and faculty to promote student activities that provide social and intellectual stimulation to the college campus and community. More information is available at the Office of College Life.

Website: deanza.edu/dasb

COMMUNITY EDUCATION
De Anza’s Community Education Division offers programs and services to community members of all ages and interests, through the De Anza College Academy, Euphrat Museum of Art (see page 11), Planetarium (see page 16) and Short Courses.

Website: deanza.edu/community

DE ANZA COLLEGE ACADEMY
This program is offered for students entering first through 12th grades. Though peak operations take place during the summer months, De Anza College Academy operates year-round. The programs are offered in partnership with De Anza College’s Euphrat Museum of Art, California History Center and Planetarium, as well as Foothill College’s Krause Center for Innovation and local K-12 schools.

Location: Learning Center, Room 141
Telephone: 408.864.8817
FAX: 408.864.5472
Email: communityeducation@deanza.edu
Website: deanza.edu/academy

DE ANZA COLLEGE SHORT COURSES
This program provides a variety of fee-based, not-for-credit courses in educational, recreational, cultural and community development.

Location: Learning Center, Room 141
Telephone: 408.864.8817
FAX: 408.864.5472
Email: communityeducation@deanza.edu
Website: deanza.edu/shortcourses

COUNSELING AND ACADEMIC ADVISING
De Anza offers counseling and advising services to help students set academic goals and find support services to achieve them.

The general Counseling and Advising Center provides comprehensive services for students who seek assistance with a variety of concerns. Additional counselors and academic advisers are assigned to various instructional divisions, Learning Communities and other campus offices, where they work closely with students in those areas and provide assistance tailored to their circumstances and educational goals.

Academic advisers assist with developing educational plans and addressing academic concerns. Counselors provide academic advising as well as educational, personal and career counseling. These services include:

Academic Advising
- Individual educational planning
- Determination of transfer requirements
- Applying for a certificate or degree

Educational Counseling
- Individual educational planning
- Selecting a major
- Time management
- Study skills
- Test anxiety
- Introduction to College course
Career Counseling
- Career and life planning courses
- Exploration of career goals based on personal assessment
- Development and implementation of career plans

Personal Counseling
- Self-awareness
- Interpersonal communication
- Stress management
- Relationship counseling
- Clarification and resolution of problem areas
- Referral to off-campus resources

Counseling is a confidential relationship. Counselors act as catalysts to help students define their own questions, explore their own alternatives and ultimately find their own answers.

Office hours for counselors and academic advisers are posted online, but may be subject to change, especially during academic breaks. Counselors and advisers may be seen on a drop-in basis or by appointment. Students can find their counselors and learn how to contact them or make an appointment by visiting deanza.edu/our-counselors.

Location: General Counseling and Advising; RSS, Second Floor
Website: deanza.edu/our-counselors

DASB CARD
The purchase of a DASB Card provides benefits to students and to the campus as a whole. The card provides the funds needed to support programs and services to the student such as clubs, seminars, guest speakers, athletics, creative arts productions, legal advice, loans, culturally diverse programs and campus publicity.

The DASB card is the property of the college and must be surrendered for needed replacement or by request of the Foothill-De Anza Community College District police. The purchaser of the DASB Card is entitled to the following benefits:
- Eligibility to run for student government office
- DASB scholarships
- Free admission to all home athletic games
- Participation in student clubs and organizations
- Discount movie passes
- Legal advice service
- Use of computers in the Open Media Lab

See College Life on page 9.
Website: deanza.edu/collegelife/idcard

DINING SERVICES
Dining Services, located on the upper level of the Campus Center, serves breakfast, lunch and dinner. Menu items include an organic salad bar, burgers, hot and cold sandwiches, specialty pizzas, pasta, Vietnamese pho, Mexican food and Korean bibimbap. An assortment of snacks, desserts and beverages is also available. Private dining rooms are available by reservation by calling the Dining Services office. Banquet catering services are available for both on- and off-campus events.

Telephone: 408.864.8515
Website: deanza.edu/dining

DISABILITY SUPPORT PROGRAMS AND SERVICES (DSPS)

ADAPTATED PHYSICAL EDUCATION
The Adapted Physical Education (APE) program provides exercise classes for individuals with physical limitations and disabilities.

Location: Building PE 6 (near the pool)
Telephone: 408.864.8885
Website: deanza.edu/dsps/ape

DISABILITY SUPPORT SERVICES
Disability Support Services (DSS) provides services and instruction to students with physical, psychological, chronic health, hearing, visual, learning and spectrum disabilities. These services and accommodations include ASL interpreting, captioning, mobility, tutoring, assistive technology support and training as well as testing accommodations.

Visually impaired students have the services of an alternate media specialist to assist them with curricular modifications such as ordering materials in special media.

Deaf and hard-of-hearing students have the assistance of an interpreter/scheduler with registration, interpreting and captioning services in the classroom, and a campus liaison.

Location: RSS 141
Telephone: 408.864.8753 (Voice)
408.864.8748 (TTY)
Email: dss@deanza.edu
Website: deanza.edu/dsps/dss

LEARNING DISABILITY SUPPORT
The DSS Learning Disability Support team assists students in discovering their learning styles and academic strengths and weaknesses, and assesses eligibility for learning disability services.

An adult with learning disabilities has average or above-average intelligence and needs assistance in one or more of the following areas: reading, spelling, math, writing, problem solving, memory and organizational skills. All eligibility assessments are done on an individual basis, and a personalized plan of instruction is developed according to the student’s abilities and needs. The following services are available to eligible students: registration assistance, tutoring, specialized instruction, and campus and community liaison.

Location: RSS 141
Telephone: 408.864.8838
Website: deanza.edu/dsps

HOPE PROGRAM
The Hope-De Anza cooperative program is designed to serve adults with developmental disabilities who would benefit from a comprehensive rehabilitation and educational program. Training assists the individual in developing the attitudes, behaviors, work skills and self-confidence leading to competitive, supported or sheltered employment.

The program uses a team approach that considers the total individual, with emphasis on the development of an individualized and prescriptive vocational and educational plan.

Locations:
3080 Alfred St., Santa Clara
1555 Parkmoor Ave., San Jose

Telephone: 408.282.5012
Website: deanza.edu/dsps/hope

EDUCATIONAL PLAN/DEGREEWORKS
Students create an educational plan in DegreeWorks, found on MyPortal. During orientation, new students learn how to create an abbreviated educational plan for their first one or two quarters. Students must then develop a comprehensive educational plan for three quarters or more. Both orientation and an educational plan are required steps in obtaining priority enrollment.
Students can also perform a degree audit in the DegreeWorks app on MyPortal, to see what courses they have completed and which requirements remain to be completed in order to finish their degree or certificate. DegreeWorks will indicate what percentage of their degree has been completed. This information may be used by the Financial Aid office to determine if students are on track to complete their degree and maintain their financial aid eligibility. DegreeWorks’ educational plan function allows students or counselors to create a multi-quarter plan for registration, including their degree requirements. This plan may also be used by the Financial Aid office in appeals or to determine if a student has an approved plan on file.

Students who are considering a change of major can run “what if” scenarios to compare their progress in other majors. A “change major” function is available in MyPortal if students find they are making better progress in a different major or program or wish to pursue a different area of study. Students can also change their educational goal in MyPortal.

EOPS AND CARE

Extended Opportunity Programs and Services (EOPS) provides support services for economically and academically disadvantaged students. Services include academic and personal counseling; assistance in completing admission, registration and financial aid forms; and early registration and university transfer services.

As part of EOPS, the Cooperative Agencies Resources for Education (CARE) program provides support services to single heads of household receiving Temporary Assistance for Needy Families (TANF) CARE students receive academic and personal counseling, early registration and financial assistance with child care, books and transportation.

**Location:** Campus Center, Lower Level
**Telephone:** 408.864.8950
**Website:** deanza.edu/eops

EQUITY, SOCIAL JUSTICE AND MULTICULTURAL EDUCATION (OFFICE OF)

The Office of Equity, Social Justice and Multicultural Education (Equity Office) promotes an academic, cultural and social environment that supports equity, social justice and academic success for all members of the campus community. The Equity Office has expanded the mission of fostering a climate of healthy diversity that values individual and group differences and respects the perspectives of others by working to eliminate barriers that perpetuate inequity, injustice and mono-cultural education. The office works to deepen acceptance and understanding of diverse cultural and ethnic groups, including racial, gender, LGBTQQI+, religious, differently abled, and economic and political affinity groups.

More information on student equity and the Equity Office is available on page 7 and online.

**Location:** MLC 250
**Telephone:** 408.864.5636
**Email:** equityoffice@deanza.edu
**Website:** deanza.edu/equityoffice

EUPHRAT MUSEUM OF ART

The Euphrat Museum of Art, located at the front of the Visual & Performing Arts Center, presents engaging exhibitions and educational materials that provide a resource of visual ideas and a platform for communication. It is a forum of ideas about art expressed through one-of-a-kind exhibitions and events. Nationally recognized, the Euphrat program:

- Highlights the heritage of different cultures
- Enhances understanding of art fundamentals, art history and esthetics
- Augments college instruction in multiple disciplines

The Euphrat hosts an annual De Anza Student Art Show. Students participate in all aspects of museum operations, including the Euphrat’s Arts and Schools Program that provides art classes to elementary and middle-school students in the community.

Receptions for the artists are free and open to the public. Call the Euphrat to schedule a group tour.

The Euphrat is a part of De Anza’s Community Education Division (see page 9).

**Location:** Euphrat Museum of Art, VPAC
**Telephone:** 408.864.5464
**Website:** deanza.edu/euphrat

FINANCIAL AID AND SCHOLARSHIPS

Financial aid is available through the college for students who need financial support to pursue their education. The college provides assistance in the form of grants, scholarships, loans and part-time jobs, as well as the De Anza College Promise program. Except for scholarships and the De Anza College Promise, all programs require that a student show financial need in order to qualify.
APPLICATION PROCEDURE
Most students should use the Free Application for Federal Student Aid (FAFSA), available at fafsa.gov. Carefully follow the directions provided. Undocumented students should use the California Dream Act application available at dream.csac.ca.gov, instead of the FAFSA. Applications for each new academic year are available on Oct. 1. Deadlines for the various programs vary considerably. Generally, financial assistance is provided as long as funds are available. Students are encouraged to call or visit the Financial Aid office for more information and to check the website frequently for updates.

ABILITY TO BENEFIT
Ability-to-benefit options for establishing general student eligibility for federal student aid have been eliminated for students who first enroll in a program of study on or after July 1, 2012. All students seeking federal financial aid will need to have a high school diploma or GED, or have been home-schooled in order to meet the academic qualifications for general eligibility.

FINANCIAL AID PROGRAMS
The following programs are offered:

De Anza College Promise
Get your degree – or transfer – free! The De Anza College promise provides free tuition and fees for two years, plus $1,000 toward books and materials, for first-time college students who are planning to attend full time starting in fall 2019. Students can apply by filing the Free Application for Federal Student Aid or the California Dream Act application and listing De Anza College on the application. Students must be California residents (or eligible for nonresident tuition exemption) and maintain full-time status to remain eligible for this program. Learn more at deanza.edu/promise.

Grants
■ Supplemental Educational Opportunity Grants (SEOG)
■ Pell Grants
■ Extended Opportunity Program Grant (EOPG)
■ Cal Grants B and C
■ Student Success Completion Grant

Loans
■ Federal Direct Loan
■ Direct Plus Parent Loans

Part-Time Jobs
■ Federal Work Study Program

Waivers
■ California College Promise (formerly the Board of Governors’ Fee Waiver)

Scholarships
Students may apply to a variety of scholarships using the AcademicWorks program in MyPortal. AcademicWorks provides personalized scholarship recommendations. Amounts and qualifications vary with each scholarship. Scholarships are offered through the college, district and outside organizations.

AB 540 Students
Students admitted under AB 540 are eligible to apply for the California College Promise, Cal Grants and many private scholarships.

Location: Baldwin Winery Building
VoiceMail: 408.864.8718
Email: financialaid@deanza.edu
Website: deanza.edu/financialaid/apply

FOOD PANTRY
Students experiencing food insecurity can get free food from the Food Pantry program operated by the Office of Outreach in RSS 127 and satellite locations around campus. The Outreach office also helps students apply for CalFresh benefits and coordinates emergency food vouchers, a mobile food pantry and a mobile farmer’s market.

Location: RSS 127
Telephone: 408.864.8327
Website: deanza.edu/outreach/food_pantry

HEALTH SERVICES
Student Health Services provides a variety of confidential, free and low-cost services. Free services include first aid, blood pressure checks, TB testing, flu shots, over-the-counter medicines, smoking cessation, pregnancy tests, condoms and health education information. Short-term psychological and personal counseling services are also provided free of charge. Services at reduced cost include well-woman exams, physical exams, birth control, emergency contraception and immunizations.

Location: Campus Center, Lower Level
Telephone: 408.864.8732
Website: deanza.edu/healthservices

HOUSING
De Anza does not operate any housing facilities, but the Office of College Life maintains a webpage that provides information about off-campus rental listings and room-sharing services. The college does not assume responsibility for any housing facilities. See deanza.edu/housing.

Students who are experiencing housing insecurity or homelessness can find information about resources available to them at deanza.edu/resources.

INTERNATIONAL STUDENT PROGRAMS
The Office of International Student Programs (ISP) addresses the needs of De Anza’s international (F-1 visa) students and helps them adjust to their lives in the United States. Prospective and degree-seeking international students are encouraged to contact the office, visit the campus and view ISP’s website.

ISP has a professional, multilingual staff who are well-informed about educational development, personal and financial planning, cross-cultural issues, immigration rules and regulations, and community programs and resources. The international student counselors assist international students in designing their educational plans and prepare students for their transfer to a four-year university to continue their undergraduate education.

Each quarter, ISP organizes an orientation program for all new international students, covering a wide range of topics, including assessment, health issues, academic skills, personal safety, banking and transportation. ISP also conducts numerous workshops throughout the academic year on a broad range of topics such as employment, transfers to four-year universities and F-1 immigration rules. To help international students in their adjustment to life in the Bay Area and the United States, ISP organizes a selection of social and cultural programs and activities. To protect international students from the high costs of medical care in the U.S., all F-1 students are required to purchase and subscribe to the international student health insurance selected by the Foothill-De Anza Community College District.

Location: RSS, Second Floor
Telephone: 408.864.8226

Website: deanza.edu/international
LEARNING COMMUNITIES

Learning Communities provide students with the opportunity to connect more closely with classmates, instructors and advisers. By actively participating in a program, students have access to fun, friendly environments with proven success rates. Success, support and friends are hallmarks of these programs.

Website: deanza.edu/learning-communities

AFRICAN AMERICAN/AFRICAN ANCESTRY PROGRAM

This program is designed to provide perspectives that enable students to see themselves within a positive historical and cultural context. It seeks to educate the whole student – body, mind and spirit – through the construction of knowledge and critical thought. Students receive supportive services and take courses with a perspective from across the African Diaspora.

Location: LCW 102
Telephone: 408.864.8780
Website: link.deanza.edu/aaaa

FIRST YEAR EXPERIENCE (FYE)

FYE is an academic support program for first-time students who are also the first in their families to attend college. FYE integrates multiple fields of study with community engagement, and provides students with practical insight on how to have a successful college experience.

Students enrolled in FYE will have:

- Common readings and assignments in all classes
- Academic and personal support from a counselor
- Fun while learning and building community

Location: LCW 102
Telephone: 408.864.8470
Email: fye@deanza.edu
Website: deanza.edu/fye

HUMANITIES MELLON SCHOLARS

The Humanities Mellon Scholars program is designed to expose a diverse population of students to the humanities – which can help students develop essential skills for innovation, critical thinking and problem solving. Participants can take classes together, earn a Certificate of Achievement in Humanities and get ready for transfer in two years. They're also eligible for paid internships and other financial help, workshops, social events and guaranteed admission for up to 20 students to the University of San Francisco.

Email: camminfalk@foothill.edu
Website: deanza.edu/honors

IMPACT AAPI

IMPACT AAPI works to support and challenge Asian American and Pacific Islander students and to close the gaps in academic achievement and transfer by focusing on students from backgrounds that are historically underrepresented in higher education. The program was initially funded through an Asian American and Native American Pacific Islander-Serving Institutions (AANAPISI) grant from the U.S. Department of Education.

Location: LCW 102
Email: impactaapi@deanza.edu
Website: deanza.edu/impact-aapi

LEARNING IN COMMUNITIES (LINC)

LinC (Learning in Communities) uses a nationally recognized interdisciplinary approach to learning, designed for student success, that links two or more classes together with common themes, content and materials. The community of students and faculty work collaboratively, creating a friendly, supportive atmosphere. LinC courses are open to all De Anza students.

When students enroll in LinC, they:

- Have some common readings and assignments in the linked courses
- Have academic and personal support from a counselor dedicated to LinC
- Learn more and earn more units with less stress and more fun

LinC courses are identified in the schedule of classes with the letter D at the end of the course number.

Email: linc@deanza.edu
Website: deanza.edu/linc

MATH PERFORMANCE SUCCESS (MPS)

The MPS program has award-winning success rates in working with students who have experienced challenges with math. Through a dynamic community of learners, teachers and counselors, students discover effective ways to improve in algebra and statistics.

MPS provides support through a team approach:

- Specialized instruction in a supportive environment
- Academic counseling in and out of class
- Free tutoring in and out of class
- Extra class time

De Anza also offers STEM Jumpstart, designed to help students complete Precalculus and pursue majors in science, technology, engineering or math. STEM Jumpstart includes mentorship, field trips, workshops and the following courses.
MEN OF COLOR COMMUNITY (MC²)
The Men of Color Community (MC²) helps students build community and lasting connections through peer mentoring and tutoring, workshops and special events. The program also offers academic advising, transfer assistance and help in maintaining priority enrollment. Students learn the skills to succeed in college and beyond.

Location: RSS 127
Telephone: 408.864.5780
Email: mc2@deanza.edu
Website: deanza.edu/mc2

PUENTE
Puente is an award-winning national program that helps students reach their dreams, including transfer to four-year colleges and universities, by providing them with three main areas of service in a supportive and stimulating environment.

- English instruction – Puente students take three consecutive writing classes that provide a supportive and stimulating environment with an emphasis on developing writing skills through an exploration of the Mexican American/Latino experience.
- Counseling – Students work with a counselor to identify their goals, develop an academic educational plan and explore career options. Students visit four-year institutions including University of California campuses and attend an annual Puente conference.
- Mentors – Puente students are matched with an academically and professionally successful mentor from the community. The network of trained Puente mentors provides many resources for Puente students, their families, their colleges and the community.

Location: LCW 102
Telephone: 408.864.8552
Email: deanzapuente@deanza.edu
Website: deanza.edu/puente

READING, ENGLISH, ATHLETICS, COUNSELING & HUMANITIES (REACH)
REACH is a supportive network of instructors, counselors and coaches dedicated to student-athlete success. Student-athletes work in a team environment taking linked classes in reading, writing, humanities and counseling.

Contact: Dawnis Guevara, REACH Coordinator
Telephone: 408.864.8555
Email: reach@deanza.edu
Website: deanza.edu/reach

VASCONCELLOS INSTITUTE FOR DEMOCRACY IN ACTION (VIDA)
Students participating in VIDA become leaders in their communities, engaging in experience-based learning in the classroom, workplace environments and other communities and interacting with people from diverse backgrounds. Students also have the option of earning a leadership certificate. More information is available on page 7 and online.

Location: East Cottage
Contact: Cynthia Kaufman, Faculty Director
Telephone: 408.864.8739
Email: vida@deanza.edu
Website: deanza.edu/vida

LIBRARY SERVICES
The renovated Library and Library West Computer Lab contain resources for students including books, e-books, periodicals and DVDs. The building has wireless access, 162 computer workstations, 11 group study rooms, and a laptop and graphic calculator checkout program.

Electronic resources are available 24 hours a day, seven days a week. Using the library website as a starting point, users can access e-books, scholarly articles, streaming videos and other materials. Databases such as EBSCOHost Academic Search Premier, Films on Demand, Proquest Research Library, Literature Resource Center, Lexis-Nexis and Encyclopedia Britannica are available from off campus.

The Library offers a series of online classes, which can be found in the course listings.

Two computer labs are located in the Learning Center complex. The Library West Computer Lab, in the basement of Learning Center West, has 98 computer workstations. The Library Computer Lab on the first floor of the Library has 48 workstations. In both of these labs, students can check email, access the internet and prepare projects using Microsoft Office software. Both labs also have workstations with assistive technology for accessibility. Viewing stations for watching DVDs are available.

Location: Library and Learning Center West
Circulation: 408.864.8761
Reference: 408.864.8739
Computer Lab: 408.864.8850
Website: deanza.edu/library

OCCUPATIONAL TRAINING INSTITUTE (OTI)
The Foothill-De Anza Community College District’s Occupational Training Institute (OTI) offers career training for students who are eligible through CalWORKs (TANF/Welfare to Work), Workforce Innovation & Opportunity Act (WIOA), Trade Adjustment Assistance (TAA) and Computer Technical Support (CompTechS). Services are designed to prepare students with the specific skills needed for the local job market.

OTI offers students a wide selection of Career Training programs such as accounting, business, computer information systems, computer science, enterprise security, health technology, network administration, paralegal studies, design and manufacturing (CNC) and many other career programs.

CALWORKS
OTI supports CalWORKS students by assisting with enrollment into transfer or Career Training programs, on-campus paid work-study, advocacy and liaison with the referring county and supportive services. Students who participate in CalWORKS are eligible for reimbursement for college fees, academic, career and personal counseling, development of an approved individualized education plan; as well as help with purchasing required textbooks, child care, priority registration and referrals to various community services such as health care, housing, clothing, food and a free computer for school work.
WIOA/TAA
Depending on the referring or contracting agency’s policies and approved funding, students may be approved for payment of college fees, textbooks, supplies, parking fees or other unanticipated costs. All WIOA/TAA students are eligible for a free computer for school work. If a student is referred to OTI by a contracting agency such as the Workforce Board, the agency is responsible for paying OTI’s administrative fee of $693.23 per quarter, subject to change by state or district action. Students who are not referred by a contracting agency will be responsible for paying OTI’s administrative fees.

COMPTECHS
CompTechS provides a unique opportunity for students who are interested in exploring careers in the tech industry. Students are trained on professional skills related to all aspects of a working environment. Through hands-on instruction, students learn how to refurbish donated computers that are then made available to needy students at no cost. Students may also have opportunities to apply for internships at Silicon Valley companies.

Location: SEM 1
Telephone: 408.864.8869
Website: deanza.edu/oti

ONLINE EDUCATION CENTER
De Anza College offers a wide variety of online courses for students for academic credit, upgrading skills or changing careers. These courses are academically equivalent to and carry the same credits as on-campus courses.

Numerous courses meet General Education (GE) and transfer requirements. Students may complete most lower division GE requirements for the A.A. degree or to transfer to a four-year institution. Programs are designed for individuals who may have limited time to attend on-campus classes on a regular basis and prefer the flexibility and convenience that online courses offer. For specific information on services provided to students with disabilities, please contact the Disability Support Services office on campus.

Online courses are delivered through the online course management system. Instructor and student interaction is facilitated online and, for some courses, through optional face-to-face meetings. In addition to using the course platform and instructional media, all courses include readings in assigned texts and supplemental materials, homework assignments and interaction with De Anza faculty and other students. Instructors are available to answer questions online, by telephone or in person at the De Anza College campus.

Access to an individual email account is a requirement to participate in most online classes. All online courses provide online course syllabi. Students are encouraged to take advantage of online access to library publications and materials and the many support services available to students. Students can also use the new free online tutoring service through their online courses.

Some courses include required on-campus meetings and provide students with opportunities to participate in classroom discussions with the instructor and other students. Examinations and tests may be required on campus. Other courses are designed with online or proctored examinations, which enable students outside the area to complete course requirements without coming to campus. Most of the coursework may be completed at home or at work, online or in one of the open computer labs on campus.

The Online Education Center provides support services to faculty and students. Successful students enrolled in online courses are highly motivated, self-disciplined, possess good study skills and enjoy instruction that appeals to a variety of learning styles.

De Anza College has transfer agreements with four-year institutions that welcome and encourage students to transfer and complete B.A. or B.S. degrees online through programs.

De Anza offers certificates of achievement in three subjects – Business Administration, Entrepreneurship and Network Basics – for which students can earn all required units by taking online courses. Some online courses may require on-campus participation in certain activities as detailed in the schedule of classes.

Location: MLC 210

OUTREACH AND RELATIONS WITH SCHOOLS
The Office of Outreach and Relations with Schools works to attract a diverse student population to De Anza College through a collaborative relationship with high schools, school districts and communities throughout Santa Clara County. Its goal is to promote college access and success for all students, with emphasis on underserved and underrepresented student groups.

Outreach counselors and staff provide information about De Anza programs and services and serve as a point of contact for schools, students and parents, to support the successful transition of prospective students from high school to college. The office also works with all divisions and programs on campus to coordinate institutional outreach efforts, meet enrollment targets and connect new students to programs and services.

The Outreach office serves prospective students and their families through a wide range of activities, including:

- Outreach to area high schools – including college fairs, career and college nights, presentations, info tables, student ambassadors, application workshops, orientation and educational planning
- Annual high school partners conference at De Anza
- Annual high school student conferences at De Anza
- The annual New Student and Family Open House, which draws thousands of prospective students and family members to campus every spring
- Guided tours of the De Anza campus
- The Men of Color Community – a Learning Community that provides peer support, mentoring, tutoring, academic advising and other services
- Counseling, academic advising and follow-up for all new students who don’t have access to counselors through another program
- Support and follow-up services for students participating in the De Anza College Promise
- The Food Pantry and related programs that provide free food, emergency vouchers and other assistance to students who are struggling with food insecurity
■ Referring students to campus and community resources as appropriate, including students who are experiencing housing insecurity or homelessness

Location: RSS 127
Telephone: 408.864.8327

PLANETARIUM

The De Anza College Planetarium hosts a variety of star and laser light shows during fall, winter and spring quarter each year. Daytime field trips can be reserved for school-age groups from October to July. The Planetarium is also available for private rentals. Visit the Planetarium website for more information.

The Planetarium is part of De Anza’s Community Education Division (see page 9.)

Location: North end of Parking Lot E
Telephone: 408.864.8814
Fax: 408.864.5643
Email: planetarium@deanza.edu
Website: deanza.edu/planetarium

POLICE (FOOTHILL-DE ANZA COMMUNITY COLLEGE DISTRICT)

The Foothill-De Anza Community College District Police Department exists to serve and protect a social and academic environment that sustains moral and intellectual growth. The department emphasizes being as proactive as possible in anticipating and preventing unsafe conditions, protecting facilities and property, and protecting individuals from the imprudent or illegal acts of others. Its operational philosophy of peacekeeping and protecting the campus is a service that best exists when it has the support and involvement of the total campus community.

Emergency Car Service
This service, provided when the department is adequately staffed and not attending to priority security needs, includes dead-battery jumps or help if students lock themselves out of their car. This service is not available for vehicles with power locks and windows, or side air bags, or vehicles parked off campus.

Security Escorts
Escorts are provided by district police for anyone wishing to be escorted to their car at any time of the day or night. During working hours, please call district police five minutes in advance.

Lost and Found
All items should be turned in or claimed at the district police substation.

Location: Campus Center 175, Lower Level
Telephone: 650.949.7313
Website: fhdapolice.org
Emergency: 9-1-1
Emergency from cell phone: 408.924.8000

Police services are available every day of the week and on holidays from 6 a.m. to midnight.

SCIENCE RESOURCE CENTER

The Science Resource Center is located in the Science Pavilion. The resources are used by the Biology, Chemistry, Health Technology, Math, Medical Laboratory Technician, Nutrition and Health students and instructors to supplement class, laboratory and individual study. Students can also sign up to use one of the group study/meeting rooms.

The center supports the principle that learning doesn’t have to stop once a student leaves the classroom; the scientific experience can continue at a time more convenient to the student. While learning is often thought to be a process of the mind, it is heavily influenced by the learner’s environment – the variety of stimuli, the social aspect of the setting, the spatial context, and even the amount of ambient light and sound have all been seen to affect the learning experience. The Science Resource Center, a LEED-certified building, is well suited to the learning experience.

The center maintains an extensive collection of models, histology slides, charts and reference books as well as a comprehensive library of CD-ROMs for 21 computers available for student use.

The center is open for all registered De Anza College students.

Location: SC3 101
Telephone: 408.864.8921

SMARTPASS (FORMERLY ECO PASS)

The SmartPass program is a partnership between the De Anza College Associated Student Body (DASB) and the Santa Clara Valley Transit Authority (VTA). Students with the SmartPass get unlimited rides on all VTA buses and light rail within Santa Clara County for the duration of each quarter, provided they are enrolled in classes. The SmartPass is not transferable to others and is funded through a mandatory quarterly fee, established by the DASB. Please visit the College Life office or website for more information about the SmartPass.

Website: deanza.edu/smartpass

STEWARSHIP RESOURCE CENTER

The Stewardship Resource Center (SRC) is operated by the Biological, Health and Environmental Sciences Division’s Environmental Studies Department. The SRC provides tutorial and classroom support for Environmental Studies and Environmental Sciences courses as well as students who are interested in learning about the stewardship of California and the environment.

Location: Kirsch Center 224 (southeast corner of campus)
Telephone: 408.864.5322

STUDENT SUCCESS CENTER (SSC)

Tutoring and many other types of academic support are available within the Student Success Center, part of the Equity and Engagement Division. The SSC supports classroom instruction by helping students at all levels become better learners and gain the confidence and skills to achieve their greatest possible academic success. The programs are facilitated by trained peer tutors, instructors and staff. Qualifying students are encouraged to serve as peer tutors.

Current locations, hours, phone contacts, staff, activities and program information can be found online.

Website: deanza.edu/studentsuccess
ACADEMIC SKILLS CENTER
The Academic Skills Center offers workshops and study skills support to enhance college success for all De Anza students. Workshop topics include a variety of student life, study, reading, writing and grammar skills.

Location: ATC 302

GENERAL SUBJECTS TUTORING CENTER
The General Subjects Tutoring Center provides individual, group and drop-in peer tutoring in Business, Social Sciences and Humanities. Students who need assistance should apply for tutoring early in the quarter.

Location: ATC 304

LISTENING AND SPEAKING CENTER (LSC)
The Listening and Speaking Center provides a supportive environment to practice language and communication skills while making friends from all over the world. Activities and services include workshops, world languages tutoring, the Language Exchange Program, ESL software and recording rooms. Through these programs students improve conversation skills, listening ability, pronunciation and vocabulary, and build the confidence to achieve academic and professional goals.

Location: ATC 313

MATH, SCIENCE AND TECHNOLOGY RESOURCE CENTER (MSTRC)
The MSTRC provides a variety of resources that enable students to develop the skills and abilities necessary to succeed in their math and science courses. Trained tutors provide weekly, drop-in and group tutoring in math and science. The MSTRC also provides study skills and topic-specific workshops for math and science courses.

Location: S43

WRITING AND READING CENTER (WRC)
The WRC empowers students at all levels to develop their writing and reading skills by providing drop-in, individual and group tutoring. Other academic support includes workshops and directed learning activities.

Location: ATC 309

STUDENT SUCCESS AND RETENTION SERVICES (SSRS)
The Student Success and Retention Services (SSRS) program, part of the Equity and Engagement Division, is an academic enrichment and support center. Several programs support first-generation college students and students with historically low retention, matriculation and transfer rates. The center provides a community of peers, instructors and staff who foster a nurturing environment and encourage the retention and success necessary to enable achievement of a student’s educational objectives. The SSRS Center serves as an umbrella for the African American/African Ancestry Program, First Year Experience, IMPACT AAPI, Puente and Summer Bridge Academy.

Program participants receive educational planning and academic advising, a student study and computer center, peer mentoring and free tutoring, campus tours to four-year universities, scholarship and financial aid information, as well as various academic enrichment workshops.

Location: LCW 102

Telephone: 408.864.8470
Website: deanza.edu/ssrs

TRANSFER CENTER
The Transfer Center, located in the Registration & Student Services Building, assists students whose goal is transferring to a four-year university. The Transfer Center offers the following resources and support services to assist students in researching options, making sound choices and planning a smooth transition between institutions:

- Information about articulation agreements, guaranteed admission programs and impacted majors
- Printed materials from Universities of California, California State Universities and many colleges and universities.
- Easy access to computers for transfer research.
- ASSIST articulation agreements (online)
- Visits from University of California, California State University, and selected private university representatives to provide transfer advising.

Location: SEM 3

Telephone: 408.864.8723
Website: deanza.edu/transfercenter

VETERAN SERVICES
The De Anza College Veteran Services Office assists veterans, service members, spouses and other family members with the process of applying for and receiving VA Educational Benefits. De Anza certifies Chapter 33 (Post-9/11 GI Bill); Chapter 30 (Montgomery GI Bill); Chapter 1606 (Reserve GI Bill); Chapter 32 (VEAP); Chapter 35 (Dependent’s Education Assistance); Chapter 31 (Vocational Rehabilitation) and tuition assistance programs.

Under federal regulations, students receiving VA benefits must maintain both satisfactory attendance and grade point average. Students will be notified that they are making unsatisfactory progress if their GPA falls below 2.0 for one quarter and they have been placed on probation. Students will have their VA benefits suspended if their GPA remains below 2.0 for a second consecutive quarter, or if their records show more than two quarters in which they are on probation with a cumulative GPA below 2.0.

STUDENT FEES

Full-time resident students enrolled in 12 units pay $31 per unit. Each quarter this will average $372 for enrollment fees, plus an average of $75 in other fees. The nonresident tuition fee is $177 per unit. The foreign student tuition fee is $177 per unit plus an enrollment fee of $31 per unit.

There are additional mandatory fees for the Campus Center, the SmartPass and Health Services. There are also fees for students who use campus parking or take lab courses, and a voluntary fee for De Anza Associated Student Body activities. International F-1 Visa students are required to purchase comprehensive health insurance for $484 each quarter.

All fees are listed at deanza.edu/cashier/fees and are subject to change. Payment and refund policies are also listed online. Tuition and fees may be refunded under certain circumstances. Please direct questions to the Cashier’s Office by email to deanzacashier@deanza.edu.

Fees are subject to change by California legislative action.

TEXTBOOKS AND SUPPLIES

Students are responsible for purchasing textbooks and supplies including course syllabi, bibliographies and other printed materials in excess of five pages. Some courses require the purchase of additional supplies. The De Anza Bookstore sells all course texts and other items, and provides rental textbooks.

For a very limited number of courses, there will be an access fee. These fees, shown in the Class Listings, reflect the actual cost for materials, which is usually lower than if students purchased the same items separately. Unless there is an issue of health or safety, students can either pay the fees to the Bookstore or provide their own materials of equal quality. A list of materials will be provided by the instructor upon request.

ESTIMATED ANNUAL COST OF ATTENDING DE ANZA COLLEGE

It is important for students to make financial plans for their education. The following cost estimates are calculated for a student attending De Anza College full time and enrolled in 12 units for three quarters or nine months. Costs are higher for out-of-state or nonresident students and students living on their own.

FINANCIAL PLANNING AND COLLEGE COSTS
ACADEMIC FREEDOM
(BOARD POLICY 4190)

Academic freedom encompasses the freedom to study, teach and express ideas and viewpoints, including unpopular and controversial ones, without censorship, political restraint or retribution. Academic freedom allows for the free exchange of ideas in the conscientious pursuit of truth. This freedom exists in all service areas, including but not limited to teaching, librarianship, counseling, coordinating and all faculty-student interactions. Academic freedom is the bedrock principle of all institutions of learning and must be extended to all faculty regardless of their status as full-time, part-time, or probationary.

Faculty members have the principal right and responsibility to determine the content, pedagogy, methods of instruction, the selection, planning and presentation of course materials, and the fair and equitable methods of assessment in their assignment in accordance with the approved curriculum and course outline and the educational mission of the district, and in accordance with state laws and regulations. These rights and responsibilities include, but are not limited to, the faculty member’s choice of textbooks and other course materials, assignments and assessment methods, teaching practices, grading and evaluation of student work, and teaching methods and practices.

ACADEMIC INTEGRITY

De Anza College is committed to excellence in the pursuit of learning and academic achievement by its students. To further this goal, the college is committed to providing academic standards that are fair and equitable to all students in an atmosphere that fosters integrity on the part of student, staff and faculty alike. The student’s responsibility is to perform to the best of his or her potential in all academic endeavors. This responsibility also includes abiding by the rules and regulations set forth by individual faculty members related to preparation and completion of assignments and examinations. The submission of work that is not the product of a student’s personal effort, or work which in some way circumvents the given rules and regulations, will not be tolerated. It is the responsibility of the faculty to clearly define the requirements and rules applicable to their courses for all students.

Approval is subject to the following conditions:

- Two academic years must have elapsed since the completion of the courses to be excluded.
- Since the last quarter to be considered for academic renewal, students must have completed at least
  - 15 units with a 3.0 GPA, or
  - 30 units with a 2.5 GPA, or
  - 45 units with a 2.0 GPA.
- All work to be disregarded in the specific quarters will not be applied toward unit requirements or calculated into the GPA.
- Although none of the units completed in the affected quarters will be counted toward a degree, courses completed with grades of C, CR or better may be used to satisfy major or general education requirements.
- Students may petition for academic renewal only once.
- Student transcripts reflect all work including that disregarded through academic renewal to ensure a true, complete academic history.
- Students cannot use academic renewal to qualify for honors at graduation.
ADA ACCOMODATION: REQUESTING AND RECEIVING

The board of trustees of the Foothill-De Anza Community College District upholds that improving access to educational and employment opportunities for people with disabilities must be a priority. The board has directed the administration to take the necessary actions to implement the requirements of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act.

The district shall not discriminate against a qualified individual with a disability because of the disability, with regard to employment or the provision of district programs, services and activities.

Students who are otherwise qualified may request accommodation related to their disability, provided the accommodation does not impose an undue hardship on the district. The procedures for requesting accommodation are available from the president's office, the Disabled Student Services (DSS) program, the office of the ADA coordinator and the district Human Resources office. The ADA coordinator for De Anza College is the dean of Student Development and EOPS, who can be contacted at 408.864.8218.

ADMISSION AND REGISTRATION POLICIES

RESIDENCY REQUIREMENTS

California Residents

Students who have established California residency for at least one year prior to the term in which they wish to enroll and have met residency conditions required by state regulations may enroll as California residents for tuition purposes.

Nonresidents

California residents and residents of other states or territories, who have not resided in the state for one year prior to the term in which they wish to enroll, must pay nonresident tuition when attending De Anza.

Students holding various visas, or undocumented or out-of-status immigrants, may not establish residency and must pay nonresident tuition when enrolling at De Anza. Other nonresidents may be able to establish residency if they meet the requirements of California Education Code § 68062. Still others may be exempted from paying nonresident fees through AB 540 eligibility (§ 68130.5), which allows certain nonresident students who have attended a California high school for three years and earned a diploma or equivalent to be charged resident fees. (Students with nonstudent visas or who are out of status or undocumented should call the Admissions and Records office at 408.864.8722 to determine residency and discuss other attendance eligibility requirements.)

Students who are attending another college on an F visa, but wish to take a class at De Anza, must submit an official letter from the host college that issued their I-20 form. This letter should state the student's standing, confirm their full-time status and provide authorization for the student to take specific De Anza classes.

Students seeking residency eligibility based on military active duty status, military dependent status or other military considerations, should contact the Veteran Services office at 408.864.8230 for specific eligibility criteria.

The Foothill-De Anza District uses OpenCCC as its admissions application. This application is very strict about meeting state residency requirements and many applicants are initially given nonresident status based on application answers. Applicants who believe they meet residency requirements need to complete a Residency Reclassification form and provide state-approved documentation for review within two weeks of a new quarter.

ADMISSION REQUIREMENTS

De Anza College admits anyone with a high school diploma, general education diploma (GED) or proficiency certificate, or who is at least 18 years old. High school students may attend De Anza as concurrently enrolled students if they have completed their sophomore year and have submitted a permission form signed by their high school principal and parent or guardian. High school students who do not provide required documents will be dropped from their courses.

CLASSIFICATION OF STUDENTS

Students who have completed fewer than 45 quarter units of college credit are considered freshmen. Students who have completed 45 or more quarter units of college credit, and have not earned a degree, are considered sophomores.

REPEATING COURSES

California law limits the number of times you may take the same class at a community college. (See Title 5 § 55024, 55040, 55042, 55045 and 58161.)

You may repeat a course for which you have earned a substandard grade (such as F, D or NP) or a W. However, you may not enroll in the same course more than a total of three times, including times when you received a substandard grade or W. If you get a W or substandard grade in the same course twice, you will not be able to enroll in the course again until you contact the Admissions and Records office and obtain clearance for taking the course a third time.

If you repeat a course because of a W or substandard grade, the second grade will replace the first in calculating your GPA, but the initial course and grade will remain on the permanent record. If you take the class for a third time, your GPA will include the third grade and not the first two grades. If you do not successfully complete the course on the third attempt, you must take the course at another college outside the district (not Foothill), or choose another course if one is available that meets their transfer or graduation requirements.

Most courses cannot be repeated if you receive a grade of C or better, unless you show documented proof that you must repeat the course due to a significant lapse of time (at least three years), a legal requirement for employment or licensing, a disability requiring accommodation or other extenuating circumstances.

However, a small number of courses are designated as “repeatable” under separate conditions listed in the course description. Courses that are designated as “repeatable” are subject to a limit of six enrollments, including any times that resulted in a substandard grade or W, unless otherwise specified.

Only these types of courses are designated as “repeatable” (see Title 5 § 55041).

Courses for which repetition is necessary to meet major requirements of CSU or UC to complete a bachelor's degree

Intercollegiate athletics

Specific courses designated as Special Education that meet criteria set forth in Title 5

Terms of repeatability for these courses are clearly stated in the course descriptions.
Active Participatory Course Limitations (Course Families)

There are also limits on certain “families” of related courses that involve active participation – such as physical education, visual arts or performing arts – and these “family” limits apply to classes at both De Anza and Foothill College. (See Title 5 § 55000.)

Under state rules, each of these courses is nonrepeatable and can only be taken one time. In addition, you may not enroll more than six times in courses within a designated family, regardless of whether they are offered at De Anza or Foothill. This limit includes any times when you receive a substandard grade (D, F, NP or NC) or a W.

If you enroll in a De Anza course that is equivalent to a Foothill course within a course family, you may not take the Foothill course at any time, and vice versa.

For more information on repeating courses, see link.deanza.edu/repeat-limits

EXCESSIVE DROPS

Under state legislation approved in 2011, students may no longer enroll in the same course more than three times without successful completion. This includes enrollments leading to substandard grades or withdrawals. Students who have enrolled in the same course twice without passing should see a counselor for assistance or seek tutoring. Students may petition to enroll in the same course a fourth time, but approval will be highly selective, and any additional enrollments in the same course will not be approved.

EVENING AND WEEKEND CLASSES

De Anza offers a wide range of evening and weekend courses, as well as online classes. Certain services are available on a limited basis on Saturdays. Check the De Anza website at deanza.edu and the class listings for more information.

HIGH SCHOOL ADMISSIONS (CONCURRENT ENROLLMENT)

Beginning with the summer session, students who have completed their sophomore year of high school may apply to De Anza as special part-time students. California regulations restrict high school students to enrolling in classes that are enrichment, vocational or otherwise not available at their high schools. High school students may not enroll in Basic Skills (200 level and higher), ESL, guidance, noncredit or other restricted courses.

There is no enrollment fee for current high school students who qualify as part-time by taking 10 or fewer units during any regular quarter (six or fewer in the summer). However, students may still incur costs for textbooks and other fees. Students who want to take more than 10 units in a quarter, or more than six units in summer, should contact the Admissions and Records office. High school students will be considered full-time – and will be charged all fees – if they enroll in 12 or more units (seven or more in summer) at De Anza College, Foothill College or both colleges combined. For additional information visit deanza.edu/outreach/concurrent_students.

There are new regulations for students who have not earned a high school diploma. These students are no longer eligible for federal financial aid. De Anza recommends that students who are close to earning a high school diploma or GED complete those requirements, wherever possible, so that they may apply and be considered for financial aid when they attend De Anza.

Before enrolling in English or math courses, or any course that has an English or Math prerequisite, high school students must complete the assessment process to be placed in the right course for their skill level. More information about this requirement can be found at deanza.edu/outreach/concurrent_students.

High school students attending De Anza are held to the same requirements, standards and policies as other college students, and should be aware of the Student Code of Conduct. They also receive the same protections under the Family Educational Rights and Privacy Act as other students, and their records cannot be released to family members without their consent.

Because De Anza offers courses at a college level, students and their families should be aware that course content may be adult in nature. De Anza also recommends that parents be aware of the “open” campus environment and discuss safety and accountability issues with their student prior to enrollment.

All coursework earned at De Anza is to be reported to any transfer college or university to which the high school student applies. Transcripts will not be automatically mailed to the student or the student’s high school. Grade information can be accessed through MyPortal. Official transcripts may be requested through MyPortal or by ordering from De Anza’s authorized transcript provider. For more information visit deanza.edu/admissions/order-transcripts.

HIGH SCHOOL COMPLETION

Many high schools recommend that students 18 years or older without a high school diploma complete their high school requirements by taking college courses. Students choosing to earn a diploma in this way should obtain a statement from their host high school principal or counselor indicating:

■ The necessary subjects to meet graduation requirements and the number of quarter credits in each
■ A list of De Anza courses that may satisfy these high school requirements
■ The total number of quarter units required, including electives
■ Approval to use De Anza credit to meet high school requirements

The California Department of Education recommends that college credit equal twice the number of units earned in high school; for example, two college units equal four high school semester periods.

Once De Anza courses have been completed, students should request that an official transcript be sent to the high school. Students may also enroll in additional courses not required for the diploma.

There are new regulations for students who have not earned a high school diploma. These students are no longer eligible for federal financial aid effective July 2012. Wherever possible, De Anza recommends that students who are close to earning a high school diploma or GED complete those requirements so that they may apply and be considered for financial aid when they attend De Anza.
SERVICE AREAS
The Foothill-De Anza Community College District operates two colleges: De Anza in Cupertino and Foothill in Los Altos Hills. De Anza College serves the Fremont Union High School District, which includes Cupertino, Monte Vista and parts of Los Altos, San Jose, Saratoga and Sunnyvale. Foothill College primarily serves the communities of Los Altos, Los Altos Hills, Mountain View and Palo Alto. These cities are in the Palo Alto Unified School District and the Mountain View-Los Altos Union High School District.

SUMMER SESSION
De Anza offers day and evening summer courses in sessions of varying lengths. Summer courses are comparable in academic standards, content and earn similar credits as classes offered during regular quarters. Summer enrollment enables students to complete prerequisites or accelerate their progress. It also allows high school students who have completed their sophomore year to take enrichment or vocational courses, or enhance their college applications by completing college-level work. All regular term attendance and academic policies apply to summer sessions.

ADVANCED PLACEMENT EXAMINATIONS (AP EXAMS)
Some AP exams with qualifying scores are accepted at De Anza College for granting credit or course placement. Official exam scores should be submitted electronically from the College Board to De Anza College. For more information, contact the evaluations staff in the Admissions and Records Office.

Location: RSS, First Floor

Telephone: 408.864.5300
Email: evaluationsda@deanza.edu

ANTI-DISCRIMINATION
De Anza College is committed to equal opportunity regardless of age, gender, marital status, disability, race, color, sexual orientation, religion, national origin or other similar factors for admission to the college, enrollment in classes, student services, financial aid and employment in accordance with the provisions of Title VI of the 1964 Civil Rights Act, Title IX of the Educational Amendments of 1972 (45CFR 86), Section 504 of the Rehabilitation Act of 1973 (P.L. 93-112), and the Americans With Disabilities Act as amended (ADAAA) in 2008. The lack of English language skills will not be a barrier to admission and participation in vocational education programs.

ANTI-DISCRIMINACION
De Anza College se compromete a brindar la igualdad de oportunidad a todo individuo que solicite ingreso a la universidad, que desee inscribirse en clases, que solicite servicios estudiantiles, ayuda financiera o empleo, sin importar la edad, el sexo, el estado civil, la incapacidad, la raza, el color de la piel, la preferencia sexual, la religión, la nación, género, o factores similares, según lo establecido por Title VI del Acta de Derechos Civiles de 1964, Title IX de la Enmienda a la Educación de 1972 (45CFR 86), Sección 504, 1990. El hecho de que un individuo no pueda manejar el inglés con facilidad no será un obstáculo para ser admitido a la universidad ni para participar en los programas de educación vocacional.

Todo individuo que desee información tocante a estas leyes o pólizas o que desee presentar una queja debido a supuestas violaciones de Title VI del Acta de los Derechos Civiles de 1964, Title IX de la Enmienda a la Educación de 1973 (45CFR 86), y Sección 504 del Acta de Rehabilitación de 1973, debe ponerse en contacto con Michelle LeBlu-Burns, decana de Desarrollo Estudiantil y EOPS, o con su designado, marcando el 408.864.8828. Todo individuo que desee información sobre el Acta de Americanos Deshabilitados de 1990, o que desee presentar una queja debido a supuestas violaciones de dicha acta, debe ponerse en contacto con Jim Haynes, decano de Educación Especial y Tecnologías Especiales, o con su designado, marcando el 408.864.8854.

Toda queja será revisada según los términos que dicte la ley con respecto a Title VI y Title IX. A todas las personas involucradas en el asunto se les informará lo que provee la ley y cuáles son sus derechos legales. Si no existen conductas normales a cuales recurra, o si estos conductos no cumplen con los requisitos legales, se tomará la acción necesaria para solucionar el problema. La oficina mantendrá récords de todas las quejas que se presenten debido a violaciones de Title VI y Title IX y reportará al Comité Asesor Para La Fomentación De Diversidad Entre Profesores y Empleados sobre la naturaleza de tales quejas y de cómo avanza su resolución.

Todo estudiante que desee entablar una demanda por violaciones a sus derechos civiles y que desee hacerlo fuera del ámbito universitario, debe dirigirse a: Office of Civil Rights, United States Department of Education, 50 United Nations Plaza, Room 239, San Francisco, Ca. 94102.

CHÍNH SÁCH CHỐNG PHÁN BỘI ĐỐI XƯƠNG

Mọi khiếu nại đều được xử lý nhanh chóng, quyết định và Báo cáo của hội đồng quản lý Đại Học và những nhân viên cơ quan liên quan được thông báo cho những người thụ hưởng và những người quan tâm đến vấn đề. Nếu những hướng giải quyết thông thường không khả dụng hoặc không đáp ứng được những đòi hỏi về pháp luật, thì biện pháp khác sẽ được áp dụng. Vấn đề sẽ được giữ bí mật của mọi khiếu nại dù trước khiếu nại và Đạo Luật và việc cố gắng giải quyết.

Any person seeking information concerning these laws and policies or filing a complaint because of alleged violations of Title VI of the 1964 Civil Rights Act, Title IX of the Educational Amendments of 1972 (45CRF 86), or Sec. 504 of the Rehabilitation Act of 1973 should contact the dean of Student Development and EOPS at 408.864.8218 or the dean of Counseling and Disability Support Programs and Services at 408.564.8945. Any person seeking information concerning or filing a complaint because of alleged violations of the Americans with Disabilities Act of 1990 should contact the dean of Student Development and EOPS at 408.864.8218, or the dean's designee.

All complaints will be reviewed in terms of Title VI and Title IX law, and the people involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated. The office will maintain a record of all Title VI and Title IX complaints, and will report to college administration the general nature of such complaints and progress toward their resolution.

Students wishing to pursue a civil rights complaint beyond the college level should direct their inquiries to: Office of Civil Rights, United States Department of Education, 50 United Nations Plaza, Room 239, San Francisco, CA 94102.

**APPEAL REVIEW COMMITTEE**

The Appeal Review Committee is responsible for ensuring consistent, fair and equitable handling of student petitions for exceptions to academic and registration rules. The committee handles evaluation, enforcement, interpretation and granting exceptions for cause. Under committee rules, each case must stand on its own merit. Visit link.deanza.edu/arc for more information.

**ATTENDANCE**

Instructors determine individual class attendance policies, which are distributed to students at the beginning of each quarter. State guidelines also recommend that absences in excess of one week’s class meetings may be considered excessive. Faculty may drop students for excessive absences, which will contribute to the total allowable enrollments in a course. (See "Excessive Drops" on page 21.)

**ASSESSMENT CENTER**

The Assessment Center oversees student assessment and placement for the English, English as a Second Language (ESL) and Math course sequences. The center also administers exams for placement into Chemistry 1A, Biology 6A and Biology 40A. Students can view their placements on MyPortal. For more information visit deanza.edu/assessment.

**AUDITING CLASSES**

Students who have satisfactorily completed a class for the maximum allowable times at De Anza or Foothill College may be able to audit. Instructor and division dean approval is required. Audit requests cannot be processed until the third week of class or later. A $10 per unit fee is assessed for audited classes. Course audit request forms are available at deanza.edu/admissions/forms. Course audits may not be approved to override repetition rules.

**CATALOG RIGHTS**

The college catalog serves as an agreement between the college and students. Students should be aware of published requirements, regulations and guidelines. De Anza students may follow the degree, certificate and general education requirements in effect for the catalog year in which they first enroll, or any subsequent catalog, providing they are continuously enrolled. Students may choose one catalog year for meeting general education requirements and another catalog year for meeting major requirements. It is recommended, however, that students choose the most recent catalog year for completing major requirements.

De Anza reserves the right to change catalog rights by modifying program requirements based on legal mandates and accreditation standards.

**COMPUTER AND NETWORK USE**

**Rights and Responsibilities (Board Policy 3250)**

Foothill-De Anza Community College District owns and operates a variety of computer and communication systems, including voicemail, electronic mail (email), telephone and access to the internet, which are provided for the use of the district faculty, administrators, staff and students in support of the programs of the colleges and district. Hereinafter, this system and all of its component parts shall be referred to as the “district network.” This network establishes a communications platform that often substitutes for in-person meetings regarding district business.

The Computer and Network Use: Rights and Responsibilities Policy applies to all members of the district community using the district network including faculty, administrators, staff, students, independent contractors and authorized guests. The policy covers use of computer equipment and communication systems at any district facility in computer labs, classrooms, offices, libraries and the use of the district servers and networks from any location. If any provision of this policy is found to be legally invalid it shall not affect other provisions of the policy as long as they can be effective without the invalid provision.

**Ownership Rights**

The policy is based upon and shall be interpreted according to the following fundamental principle: the entire district network, and all hardware and software components within it, is the sole property of the district, which sets the terms and conditions of its use consistent with the law. Except as provided in board policy or collective bargaining agreements pertaining to intellectual property rights, employees and students have no rights of ownership to these systems or to the information they contain by virtue of their use of all or any portion of the district network.

**Privacy Interests**

The district recognizes the privacy interests of faculty and staff and their rights to freedom of speech, participatory governance and academic freedom as well as their rights to engage in protected union and concerted activity. However, both the nature of
electronic communication and the public character of district business make electronic communication less private than many users anticipate. In addition the district network can be subject to authorized and unauthorized access by both internal and external users. For these reasons, there are virtually no online activities or services that guarantee an absolute right of privacy, and therefore the district network is not to be relied upon as confidential or private. Nonetheless, the district seeks to afford email communication privacy protections comparable to those it traditionally affords paper mail and telephone communications.

District Rights
System administrators may access user files or suspend services they manage without notice

- To protect the integrity of computer systems
- Under time-dependent, critical operational circumstances
- As required by and consistent with the law
- When it is reasonable to believe that violations of law or district policy or procedures have occurred

For example, system administrators, following organizational guidelines, may access or examine individual files or accounts based on suspicion that they have been corrupted or damaged or subject to unauthorized use or misuse. In such cases of access without notice, data or information acquired may be used to initiate or extend an investigation related to the initial cause or as required by law or board policy. Such data or information may also be used as grounds for appropriate personnel action.

User Rights
While the district monitors electronic usage as part of its normal network operating procedures, the district does not routinely inspect or monitor users' computer hardware or files, email or telephone messages, nor disclose information created or stored in such media without the user’s consent. The district shall attempt to notify users before accessing computer hardware and files or prior to suspending service. In the event that the district acts without user consent, under its district rights specified above, the district shall do so with the least perusal of contents and the least action necessary to resolve the immediate situation. When the district accesses files without user consent, it shall notify the user as soon as possible of its access and provide the reason for its action.

User Responsibilities
The board recognizes that computers and networks can provide access to resources on and off campus, as well as the ability to communicate with other users worldwide. Such open access is a privilege and requires that individual users act responsibly. Users must respect the rights of other users, respect the integrity of the systems and related physical resources and observe all relevant law, regulations and contractual obligations.

For district employees, the intended uses of the district network are those which are reasonable and necessary for the pursuit of job duties; for students, the intended uses are those which are reasonable and necessary for the pursuit of instructional activities. Although personal use is not an intended use, the district recognizes that the network will be used for incidental personal activities provided that such use is within reason and provided that such usage is ordinarily on an employee’s own time, is occasional, and does not interfere with or burden the district’s operation.

“Unauthorized uses” include prohibited uses and any other use for a prohibited purpose, including illegal activities, messages which may constitute discrimination or harassment under state or federal law, or anything that interferes with the intended use. These types of prohibited uses and purposes are further defined in Administrative Procedure 3250.

All users of the district network must read, understand and comply with this policy as well as Administrative Procedure 3250, and any additional guidelines established by the district. Such guidelines will be reviewed by the district and may become subject to board approval as a district policy or procedure. By using any part of the district network, users agree that they will comply with this policy.

Copies of this policy can be found in the policies section of the college catalog, student handbooks, faculty handbooks, new classified employee handbook and the handbook for new administrators. Copies of this policy are also available in the district Human Resources Office, the office of the dean of Student Development and EOPS (De Anza), the office of the dean of Student Affairs and Activities (Foothill), and on the district’s website at fhda.edu.

Enforcement of the Policy
The board directs the chancellor or designee to enforce all existing federal and state law and district and college policies, including not only those laws and regulations that are specific to computers and networks but also those that apply generally to personal conduct. Violations of this policy will be dealt with in the same manner as violations of other district policies or standards of behavior and may result in disciplinary action, subject to applicable due process requirements.

Users who believe this policy has been misinterpreted or misapplied may file a complaint in accordance with the complaint procedures found in Administrative Procedure 3250. Students who do not observe the requirements of this policy may be in violation of the Student Code of Conduct and subject to student discipline.

This policy and Administrative Procedure 3250 shall be distributed to all new and existing employees. Nothing in this policy should be construed to interfere with First Amendment rights or with the academic freedom of faculty as outlined in Board Policy 4190.

Both the Board Policy Manual and Administrative Procedures Appendix may be found at www.boarddocs.com/ca/fhda/Board.nsf/Public.

MISUSE OF COMPUTER INFORMATION
(ADMINISTRATIVE PROCEDURE 3250)
This administrative procedure implements Board Policy 3250.

Abuse of computing, networking or information resources contained in or part of the district network may result in the loss of computing privileges. Additionally, abuse can be prosecuted under applicable statutes. Users may be held accountable for their conduct under any applicable district or college policies, procedures or collective bargaining agreements. Complaints alleging abuse of the district network will be directed to those responsible for taking appropriate disciplinary action. Illegal reproduction of material protected by U.S. copyright law is subject to civil damages and criminal penalties including fines and imprisonment.

Examples of behaviors constituting abuse which violate district Board Policy 3250 include, but are not limited to, the following activities.

System Abuse

- Using a computer account that one is not authorized to use
- Obtaining a password for a computer account that one is not authorized to have
Using the district network to gain unauthorized access to any computer systems

- Knowingly performing an act which will interfere with the normal operation of computers, terminals, peripherals or networks
- Knowingly running or installing on any computer system or network, or giving to another user, a program intended to damage or to place excessive load on a computer system or network including programs known as computer viruses, Trojan horses and worms.
- Knowingly or carelessly allowing someone else to use their account who engages in any misuse in violation of Board Policy 3250 or Administrative Procedure 3250
- Forging email messages
- Attempting to circumvent data protection schemes or uncover or exploit security loopholes
- Masking the identity of an account or machine
- Deliberately wasting computing resources
- Downloading, displaying, uploading or transmitting obscenity or pornography, as legally defined
- Attempting without district authorization to monitor or tamper with another user’s electronic communications, or changing, or deleting another user’s files or software without the explicit agreement of the owner, or any activity which is illegal under California computer crime laws
- Personal use which is excessive or interferes with the user’s or others' performance of job duties, or otherwise burdens the intended use of the network
- Illegal downloading or distribution of copyright-protected materials, including but not limited to music and videos

**Harassment**

- Using the telephone, email or voice mail to harass or threaten others
- Knowingly downloading, displaying or transmitting by use of the district network, communications, pictures, drawings or depictions that contain ethnic slurs, racial epithets or anything that may be construed as harassment or disparagement of others based on their race, national origin, sex, sexual orientation, age, disability, religious or political belief
- Knowingly downloading, displaying or transmitting by use of the district network sexually explicit images, messages, pictures, or cartoons when done to harass or for the purposes of harassment
- Knowingly downloading, displaying or transmitting by use of the district network sexually harassing images or text in a public computer facility or location that can potentially be in view of other individuals
- Posting on electronic bulletin boards material that violates existing laws or the colleges’ codes of conduct
- Using the district network to publish false or defamatory information about another person

**Commercial Use**

- Using the district network for any commercial activity, without written authorization from the district. “Commercial activity” means activity for financial remuneration or designed to lead to financial remuneration

**Copyright**

- Violating terms of applicable software licensing agreements or copyright laws
- Publishing copyrighted material without the consent of the owner on district websites in violation of copyright laws

**Exceptions**

Activities by technical staff, as authorized by appropriate district or college officials, to take action for security, enforcement, technical support, troubleshooting or performance testing purposes will not be considered abuse of the network.

Although personal use is not an intended use, the district recognizes that the network will be used for incidental personal activities and will take no disciplinary action provided that such use is within reason and provided that such usage is ordinarily on an employee's own time, is occasional and does not interfere with or burden the district’s operation. Likewise, the district will not purposefully surveil or punish reasonable use of the network for union business-related communication between employees and their unions.

**Complaints**

A user who asserts that the district or district personnel have violated this policy shall file a complaint with their immediate supervisor with a copy to the vice chancellor of Human Resources, and a copy to the employee’s bargaining unit. The supervisor shall notify the supervisor of the alleged violator to discuss the complaint. The supervisor of the complainant shall initiate an investigation if necessary and determine an appropriate remedy or resolution in consultation with the vice chancellor of Human Resources. In cases where the supervisor is part of the complaint, the complaint shall be filed with the next level of supervision for investigation and resolution or remedy. The complainant shall be informed in writing of the initiation of the investigation, and of its outcome as appropriate, with copies to the vice chancellor of Human Resources and the employee's bargaining unit. Complainants dissatisfied with the resolution or remedy have full recourse to relevant contractual protections and legal action.
COPYRIGHTED MATERIALS
De Anza College students are prohibited from using the Foothill-De Anza Community College district network to illegally download or share music, video and all other copyrighted intellectual property. De Anza College supports the Higher Education Opportunity Act and the Digital Millennium Copyright Act including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the district network who have violated the law.

Be aware that illegal forms of downloading and file-sharing as well as the unauthorized distribution of copyrighted materials, including unauthorized peer-to-peer file sharing, are violations of the law and may subject students not only to academic sanctions from the college but also criminal and civil penalties, including a lawsuit against students by the Recording Industry Association of America (RIAA).

In addition to being illegal, file sharing drains the district network’s bandwidth, which slows computer connections for students and employees who are using the network for legitimate academic purposes and ultimately costs the college money.

CONTINUOUS ENROLLMENT
For the purpose of determining the catalog year used to evaluate degree or certificate eligibility requirements, students must be continuously enrolled in for-credit courses since the first term of enrollment. Continuous enrollment is equal to at least two quarters each academic year at De Anza or Foothill College. A single W in a term qualifies as enrollment in that term.

COURSE OFFERINGS (GUIDELINES FOR)
To carry out its mission in the Foothill-De Anza Community College District, each college shall ensure that students in college-approved, two-year degree A.A./A.S. programs will be able to obtain the degree in two years providing they adhere to the prescribed pattern and sequence of courses and are ready to begin college-level work upon entry. Courses that meet major requirements shall be listed in curriculum sheets distributed by each college. Each college obligated under the policy shall meet to ensure those courses are offered at one or both of the two colleges with appropriate frequency.

Minimum class size guidelines apply to all lecture, lecture-lab and laboratory classes. A minimum class size of 20 is generally required. Special circumstances, however, may necessitate the continuation of a class below the 20-student minimum. The key factor in making a decision to continue will be based upon program needs. Such cases may include second- or third-quarter or second-year sequential courses, courses required for an identified major or career subject area, combined courses meeting at the same hour with the same instructor, and one-of-a-kind offerings needed for graduation or transfer. Exceptions to minimum class size guidelines may also be based on

- Limited classroom or laboratory facilities
- Statutory and state regulations mandating class size, independent study and special projects
- Other circumstances that warrant exception may be made by the Office of Instruction.

Class size of all sections is monitored by the Office of Instruction throughout the registration process. In consultation with the appropriate division dean, low-enrolled classes will be identified and an appraisal made of the enrollment pattern. When warranted, sections may be cancelled early in the registration process to foster improved enrollment in remaining sections.

CREDIT BY EXAMINATION (CBE)
Students seeking credit by examination must first successfully complete 15 units at De Anza. Following this, students may file for credit by examination during any regular quarter for courses in which they are especially qualified through previous training or experience, and for which prior AP or college credit has been awarded. Students may obtain the appropriate forms from their counselor.

Additional requirements for credit by examination include

- Students must be enrolled in the courses and the instructor has outlined successful completion requirements.
- No course may be challenged after meeting twice the number of meetings per week.
- Students may not request CBE for courses for which they have already earned a grade.
- CBE units may not be used to meet the 24 residency units required to earn a De Anza degree.
- No more than 45 CBE units may be earned.
- Students who successfully challenge a course through credit by examination may not subsequently challenge a course normally preceding it (for example, challenging Chemistry 1B and then challenging Chemistry 1A).
- When transferring to another college or university, accepting credit by examination requirements or units is at the discretion of the transfer institution.

Challenge is limited to those courses recommended by the divisions and approved by the vice president of Instruction. Special limitations exist for challenging courses in sequence. The examination may include oral, written, or skill tests, or a combination and will be sufficiently comprehensive to assess the student’s knowledge and skills commensurate with a student successfully completing the course.

The credit by examination grade will be noted on the student’s transcript at the end of the quarter. Students who do not successfully challenge may not remain enrolled in the course.

The following courses are challengeable.

Applied Technologies
AUTO 50A and 50B, AUTO 51A and 51B (Must pass A and B classes to receive credit.)
DMT 80

Biological, Health and Environmental Sciences
HTEC 50, 60A, 73
NURS 50

Business and Computer Science
ACCT 1A, 1AH
CIS 2, 31, 50, 66, 67A, 67B, 74, 75A
(CIS classes that have lab hours are not challengeable.)

Creative Arts
ARTS 53
F/TV 20
Intercultural/International Studies
The World Languages Department does not give credit by examination for any foreign language class.

Students can place at the appropriate level in the foreign language curriculum, depending on their language proficiency level.

Language Arts
JOUR 61A

Physical Science/Math/Engineering
None

Social Sciences and Humanities
ADMJ 1, 95
PARA 94, 95
POLI 10, 95

A special no-credit challenge exam is available to meet the California State/Local Government portion of the CSU United States History, Constitution and American Ideals requirement.

CRIME STATISTICS (CLERY ACT)

In accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act), codified at 20 U.S.C. § 1092(f), De Anza College provides a crime statistics report. The most current information is available on De Anza’s Campus Security webpage at deanza.edu/police/clerystatistics. The full Clery Act Annual Security Report may be obtained through the Foothill-De Anza Police Department at fhdapolice.org.

DASB CARD POLICIES

The DASB Card is the property of the De Anza Associated Student Body (DASB) and entitles the holder to access and service privileges, as long as the student is current in paying quarterly DASB membership fees. Access and privileges may be denied if the student is delinquent in paying fees.

The initial DASB Card is free with the payment of the quarterly membership fee. Subsequent or replacement cards will cost $5 and are subject to the DASB’s replacement card policies.

To avoid paying a replacement fee, students are encouraged to retain the card for future use when not continuously enrolled or when leaving campus for the summer. Students will not be charged a replacement fee if they leave campus and aren't enrolled for three quarters or more.

The DASB Card serves as an official identification card for access at numerous labs and the library as well as events and services on campus. Therefore, the card should be carried at all times while students are on campus or attending college events.

The DASB Card shall not be transferred, altered or tampered with in any way except as authorized by De Anza College officials. Strict penalties may apply for unauthorized actions.

With the exception of the Foothill-De Anza district police, college departments may not hold the DASB Card for any reason. Recovered cards should be returned to the Office of College Life immediately.

If the DASB Card is lost, stolen or damaged, the Office of College Life should be notified immediately. The replacement fee will be waived if the card is stolen and a police report is provided to the Office of College Life. To be considered stolen, the card must be taken as a result of a burglary, theft, mugging or other crime. It won't be considered stolen if it is simply reported as lost property or if the student can’t find it and thinks it was stolen.

DASB card policies are subject to change.

DRUG AND ALCOHOL POLICY

The unlawful possession, use or distribution of any illicit drug or alcohol by students or employees on college property or at college-sponsored activities or events is prohibited. Violation may constitute criminal conduct which could result in criminal prosecution under state and federal law. It is the policy of the college to impose appropriate disciplinary sanctions on students and employees for the unlawful possession, use or distribution of illicit drugs or alcohol. Appropriate disciplinary sanctions may include suspension or expulsion for students or suspension or termination for employees, and may also include requiring the completion of a rehabilitation program.

The standards of conduct for students and the applicable sanctions for violating the standards are contained in the Foothill-De Anza Community College District Board Policy on Student Rights and Responsibilities and in Administrative Procedures 5510 and 5520.

Individuals who elect to become students at De Anza College are afforded certain rights and privileges outlined in the college’s Student Rights and Responsibilities Policy (see district Board Policy 5500 and Administrative Procedure 5500) and, at the same time, assume certain obligations for their personal conduct as set forth in the college’s Student Code of Conduct (Administrative Procedure 5510) and Due Process and Discipline Procedures (Administrative Procedure 5520). For additional information, refer to the Student Rights and Responsibilities Policy, which can be obtained from the offices of the college president, vice president of Instruction, vice president of Student Services, dean of Student Development or the Office of College Life.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children’s education records. These rights transfer to students when they reach the age of 18 or attend a school beyond the high school level. Students to whom the rights have transferred are “eligible students.”

- Eligible students have the right to inspect and review the student’s education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

- Students have the right to request that a school correct records that they believe to be inaccurate or misleading. If the school decides not to amend the record, the student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the student has the right to place a statement with the record setting forth his or her view about the contested information.

- Generally, schools must have written permission from the student in order to release any information from a student’s education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
  - School officials with legitimate educational interest
  - Other schools to which a student is transferring
  - Specified officials for audit or evaluation purposes
  - Appropriate parties in connection with financial aid to a student
  - Organizations conducting certain studies for or on behalf of the school
  - Accrediting organizations
  - To comply with a judicial order or lawfully issued subpoena
  - Appropriate officials in cases of health and safety emergencies
  - State and local authorities, within a juvenile justice system, pursuant to specific state law

Schools may disclose, without consent, “directory information” such as a student’s name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell students about directory information and allow students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook or newspaper article) is left to the discretion of each school.

The Foothill-De Anza district’s Administrative Procedure 5050 also identifies the college registrar as the “Records Officer” required by FERPA. Current and former students can review their education records by completing or filing a request in the Admissions and Records Office. Such records will be made immediately available when possible or within 15 days of written request. If the review results in a dispute, the college registrar will initiate an informal proceeding in an attempt to resolve the matter. If the dispute continues, a grievance may be filed with the vice president of Student Services.

FINAL EXAMINATIONS

Final examinations are to be given in all courses. Students are responsible for taking final examinations at the scheduled time. Exam schedules are published online. Two hours will be scheduled for examinations.

Final examinations for courses shorter in length than one quarter will be given at the class meeting.

Students who miss a final examination for a legitimate reason should communicate with their instructor at once to arrange for an “I” grade. Final examinations normally will not be given in advance of the scheduled time.

FINAL EXAMINATIONS, ACTIVITIES PRECEDING

Student activities will not be scheduled during the three days preceding final examinations. However, classes and instruction continue as usual. A portion of the final examination may be scheduled during this period to allow additional time if needed.

GRADING SYSTEM

Grades are earned in each course and are recorded on the student’s permanent record. Evaluation of student achievement will be made in relation to the attainment of the specific objectives of the course. At the beginning of a course, the instructor will explain these objectives and the basis upon which grades are determined.

Dean’s List Policy

Full-time students (those taking 12 or more quarter units) must have a quarterly GPA of 3.3 or higher.

Grade Changes

Title 5 of the California State Administrative Code states, “The determination of the student’s grade by the instructor shall be
final in the absence of mistake, fraud, bad faith or incompetency.” If students believe corrections should be made within the above restriction, they should first talk to their instructors. Corrections must be initiated within two years of completing any course in which a grade is being disputed.

Grade definitions are as follows:

### Evaluative Symbols

</tbody>
</table>

**FW Failing**  
This grade indicates that a student has stopped participating in a course after the last day to officially withdraw, without achieving a final passing grade, and the student has not received college authorization to withdraw under extenuating circumstances.

**P Pass** (at least satisfactory – units awarded not counted in GPA). This grade is assigned to those courses in which student achievement is evaluated on a Pass-No Pass basis rather than a letter grade (A, B, C, etc.). P-NP courses are so designated in the Announcement of Courses section of the catalog.

**NP No Pass** (less than satisfactory, or failing—units not counted in GPA). Not attaining course objectives. (Does not affect grade point average at De Anza.)

### Non-Evaluative Symbols

(Not to be used in calculating GPA)

**I Incomplete**. This indicates incomplete academic work for unforeseeable, emergency and justifiable reasons at the end of the term. At least 75% of the class must have been completed to qualify for Incomplete status.

**IP In Progress**. The IP symbol denotes that the student is registered for this course, and the grading period is not complete. In Progress work will not appear on a student's transcript until the term has officially begun. It will remain on the transcript until the student has either officially withdrawn (W) or a grade has been assigned.

**RD Report Delayed**. The RD symbol may be assigned by the Office of Admissions and Records only. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible.

**W** A W is assigned when a student drops a class after the first two weeks of a regular 12-week term, or if the term is shorter, after 20% of the course duration has passed. A W will be assigned whenever a student drops a class after 20-75% of the term has passed. While a W will not be used in calculating GPA, it will be used as a factor in probation and dismissal procedures. (See section on “Progress Probation.”) A W is also used to calculate enrollment limits. In other words, students may not enroll in the same course more than three times, including times when W or substandard grades are received.

**EW Excused Withdrawal**. An EW is assigned when a student is permitted to withdraw from a course due to specific events beyond the student’s control, which affect their ability to complete the course. An EW can only be awarded if a student files a petition form providing documentation to prove a “verifiable reason.” A list of examples is included on the petition form and on the Admissions and Records website. In the absence of the petition and documentation, a grade will be assigned to the student record. The EW symbol may be assigned at any time after the deadline to drop a course without receiving a W. An EW is not counted in progress probation and dismissal calculations. It is not counted toward the permitted number of withdrawals or as an enrollment attempt.

**MW Military Withdrawal**. An MW is assigned when a student who is a member of an active or reserve U.S. military service receives orders compelling them to withdraw from a course. Upon verification of such orders, an MW will be assigned at any time after the deadline to drop a course without receiving a W. An MW is not counted in progress probation and dismissal calculations. It is not counted toward the permitted number of withdrawals or as an enrollment attempt.

### P-NP Courses

De Anza College uses the P-NP grade for courses authorized by the Board of Trustees and state regulations under Title 5. Students must request the P/NP option within the first 30% of the course, either online or through the Admissions and Records Office.

- Some courses are P/NP only and a letter grade cannot be assigned.
- Check the course description for information on grade type for the course. Letter grades are not available in these courses.
- Other courses may allow the P-NP option. Students should be aware that some transfer schools may not accept P-NP as an option, and once the P-NP option has been chosen, it cannot be reversed per state regulations.
- No more than 30 quarter Pass (P) units can be applied toward De Anza College degrees.

For a major or area of emphasis, each course toward the unit requirement of this subdivision must be completed with a grade of C or better.

For General Education requirements, “satisfactorily completed” means either credit earned on a “pass-no pass” basis or a grade point average of 2.0 or better in community college.

Units earned in P-NP will not be calculated in the GPA; however, NP shall be considered when determining Academic Progress, probation and dismissal procedures. (See section on Progress Probation)
De Anza College shall take all steps necessary to provide a positive educational and employment environment that encourages equal educational opportunities. The college will actively seek to educate staff and students on the deleterious effects of expressions of hatred or contempt based on race, color, national or ethnic origin, age, gender, religion, sexual orientation, marital status, or physical or psychological disability; and will promote equality and mutual respect and understanding among all groups and individuals.

De Anza College will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate, harass another student through words or actions. Such behavior includes direct physical contact, such as hitting or shoving; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyberbullying by any means including email, text and social networks or media.

NONSMOKING POLICY
The goal of the Foothill-De Anza district is to provide a safe learning and working environment for students and employees. Smoking is prohibited in all indoor and outdoor campus locations, with the exception of designated parking lots. This includes e-cigarettes.

In addition, the district does not allow use of marijuana or cannabis products on campus. These are prohibited under federal law.

Smoking is prohibited in district vehicles. “No Smoking” signs shall be conspicuously posted at building entrances and in employee lounges, rest rooms, locker rooms, dressing areas, cafeterias, lunchrooms, and stadium and sports facilities. In addition, designated parking lot areas for smoking areas will be clearly marked. Those rules are based on California Government Code Section 7596 and district Board Policy 3217. Noncompliance will result in fines.

OFF-CAMPUS ACTIVITIES AND TRIPS
Certain educational programs require off-campus attendance for scheduled field trips and excursions. Unless the course syllabus or the instructor state otherwise, students are responsible for arranging their own transportation. Under state regulations (Title 5, § 55220(h)), each student making a field trip or excursion shall be deemed to have waived all claims against the district for injury, accident, illness or death occurring during, or by reason of, the field trip or excursion by completing the required Student Field Trip/Excursion Agreement Voluntary Assumption of Risk Form.

OPEN CLASSES
It is the policy of the Foothill-De Anza district that every course—unless specifically exempted by statute—will be open to any student who has been admitted to the college and meets the class prerequisites. This policy applies to courses which must report the class average daily attendance for state aid purposes. See Title 5 of the California Code of Regulations.

PARKING REGULATIONS
All parking requires a paid fee or permit. Visitors, students and staff are required to observe all campus parking and traffic regulations enforced year-round by the Foothill-De Anza district police. Failure to comply may subject violators to municipal citations.

Staff parking areas are identified by signs and yellow striping for stalls. Student parking areas are identified by white striping for stalls. Disabled parking areas are marked with signs and blue striped stalls.

College quarterly and annual decals are available online and from the cashier’s office. One-day permits can be purchased from machines in the parking lots. Daily parking permits cost $3. Permit machines take credit cards and cash; no change is provided.

The maximum speed limit is 25 miles per hour on perimeter roads and 10 miles per hour within parking lots. No person shall operate a bicycle, moped or skateboard upon any pedestrian walkway, ramp or patio located within the college campus.
PHOTOGRAPHY AND VIDEO RECORDING

During public events on campus, the college may take photographs or video recordings that may appear in informational or promotional materials, including the college website, social media, printed collateral and advertising. If you prefer not to have your image recorded or used, please notify the photographer or videographer.

PREREQUISITES

Prerequisites, corequisites and advisories are intended to guide students into courses in which they will have the greatest chance for academic success.

- **Prerequisite** means a condition that a student is required to meet in order to demonstrate current readiness for a course or educational program.
- **Corequisite** means a course that a student is required to simultaneously take in order to enroll in a course or educational program.
- **Advisory or recommended preparation** means a condition that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Challenging Prerequisites

Students may challenge prerequisites and corequisites if they can demonstrate that

- They have the knowledge or ability to succeed in the course without the prerequisite or corequisite.
- The prerequisite or corequisite has been established in an arbitrary manner.
- The prerequisite is discriminatory or is applied in a discriminatory manner.
- The prerequisite course is not reasonably available.

To challenge a prerequisite, contact the Evaluations Department for the appropriate next steps at evaluations@deanza.edu.

PRIORITY ENROLLMENT

De Anza follows state and local requirements for priority enrollment. These are intended to help new students get started by following important steps for success and to reward continuing students who are making steady progress toward their goals.

To qualify for priority enrollment, students must follow these steps:

1. Declare a major on their application – not "Undecided."
2. Select a goal of transfer, degree or certificate.
3. Complete the assessment process. Most students can be assessed on the basis of their U.S. high school transcripts and GPA. De Anza also has a Guided Self-Placement tool for students who did not attend a U.S. high school in recent years. Advanced Placement exam results and completion of college-level coursework may also be considered. Learn more at deanza.edu/assessment.
4. Complete orientation. Orientation provides important information students need to succeed in college. The requirement may be fulfilled either through an orientation workshop or the online orientation. See link.deanza.edu/orientation for details.
5. Create an educational plan through DegreeWorks. New students develop an abbreviated educational plan for their first one or two quarters. Continuing students should have a comprehensive educational plan for three or more quarters. Learn more at link.deanza.edu/edplan. A student’s major and educational goal may be changed through MyPortal.

In order to receive priority enrollment, students cannot have completed more than 150 quarter units in degree-applicable courses. W and I grades are not included. Pre-collegiate English, ESL and Math classes do not count toward the 150 units.

Priority Enrollment Order

In accordance with state and local regulations, students will be assigned registration dates in the following order.

1. **Veterans, Foster Youth, DSPS, EOPS, CalWorks and Tribal TANF students** who have completed orientation, assessment and an educational plan.
2. **Student athletes** who have
   - Selected an educational goal of transfer, degree or certificate
   - Declared a major and have not been on probation for two consecutive terms
   - Completed orientation, assessment and an educational plan
3. **Continuing students** who have
   - Selected an educational goal of transfer, degree or certificate
   - Declared a major and have not been on probation for two consecutive terms
   - Completed orientation, assessment and an educational plan
4. New college students who have
   ■ Completed assessment, orientation and an educational plan
   ■ Selected an educational goal of transfer, degree or certificate
   ■ Declared a major
5. New college students who have
   ■ Selected an educational goal of transfer, degree or certificate
   ■ Declared a major and have not been on probation for two consecutive terms but have not completed assessment, orientation or an educational plan
6. Returning students and new transfer students who have
   ■ Selected an educational goal of transfer, degree or certificate
   ■ Declared a major and have not been on probation for two consecutive terms
7. All other college students, including continuing students who have not declared a major or who have not selected an educational goal of transfer, degree or certificate
8. Concurrently enrolled high school students
   The most current information on priority enrollment is available at link.deanza.edu/priority.

PROBATION AND DISMISSAL

Academic probation occurs when a student has attempted a total of 18 quarter units and earned a cumulative GPA of less than 2.0. Students will be placed on academic probation each quarter (excluding summer) as long as their cumulative GPA is below 2.0. Students will advance to the next level of academic probation in each consecutive enrolled quarter in which they do not earn a cumulative GPA of 2.0.

Progress probation occurs when a student has enrolled in at least 18 quarter units, as shown by the official academic record, and has received entries of F, W, I, NP or NC for 50% or more of those units.

A student who is on academic probation is subject to dismissal if the student’s cumulative GPA falls below 2.0 for all units attempted in each of five consecutive quarters.

A student who is on progress probation is subject to dismissal if the student receives an F, W, I, NP or NC for 50% or more of the units enrolled in at least five consecutive quarters.

State regulations that took effect in fall 2016 may affect a student’s eligibility for the California College Promise. Visit deanza.edu/financialaid/types/waivers to learn more. Information about De Anza’s probation policy can be found at deanza.edu/counseling/probation.

Academic Reinstatement (Readmission After Dismissal)
The board of trustees for the Foothill-De Anza district has established procedures under state law for students to petition for reinstatement to De Anza College. Students must submit a new application for admission and meet with a counselor to review their academic goals and other matters relevant to a successful educational experience. If a counselor recommends approval, the petition must be submitted to the Appeal Review Committee. Students who petition for reinstatement must describe their educational goals, the courses they wish to take in a specific quarter and the factors that have changed which now cause them to expect success.

Important Note:
The De Anza College Probation/Dismissal system might not accurately reflect the correct academic probation status for students who have enrolled at both Foothill College and De Anza. Students who are enrolled within the current quarter at both colleges or have an academic history with both colleges, should contact a counselor at De Anza for assistance regarding their probation or dismissal status at De Anza.

If at any time students attend both Foothill and De Anza in the Foothill-De Anza district, it is their responsibility to keep track of their grades to ensure that they remain in good standing at each college. Although students may be in good standing at Foothill College, if at De Anza they fall below the required academic performance, the above probation and dismissal procedures will apply to them at De Anza.

REVISION OF REGULATIONS
Any regulations adopted by the faculty and administration of the college shall have the same force as a printed regulation in the catalog and shall supersede, upon public announcement, by posting on official bulletin boards and by announcement, any ruling on the same subject that may appear in the catalog or other official bulletins of the college.

SEXUAL ASSAULT INCLUDING RAPE

De Anza College will not tolerate any form of sexual assault, including rape, on college property or at any college-sponsored event. The college realizes that these situations may or may not be deemed criminal offenses and therefore may have to be handled both internally through college administrative action and externally by the appropriate law enforcement agency. Within the college, allegations of sexual assault or rape will be fully investigated by the college administration. Disciplinary sanctions may include suspension or expulsion for students or suspension or termination for employees.

The standards of conduct for students and the applicable sanctions for violating those standards are outlined in the policies and procedures of the Foothill-De Anza Community College District, including

■ Administrative Procedure 5510: Student Code of Conduct
■ Administrative Procedure 5520: Student Due Process and Discipline
■ Administrative Procedure 5500: Student Rights and Responsibilities
■ Board Policy 4630: Sexual Assault Policy
Decisions regarding discipline of employees will be made in accordance with applicable legal and contractual provisions and procedures.

When a victim of rape or any other sexual assault chooses to go to contact a counselor or the offices of Psychological Services or Health Services, the strictest confidentiality will be maintained. If the victim decides to report the incident to the appropriate law enforcement agency, the college will make every effort to ensure that it will be handled in the most private and confidential manner as possible.

**SEXUAL HARASSMENT**

Members of a college community—students, faculty, staff and visitors—must be able to study and work in an atmosphere of mutual respect and trust. It is the policy of the Foothill-De Anza Community College District to provide an educational, employment and business environment free of unwelcome sexual advances, requests for sexual favors, and other conduct or communications constituting sexual harassment as defined or prohibited by federal and state law.

Sexual harassment may include, but is not limited to

- Conduct of a sexual nature that is explicitly or implicitly made a term or condition of an individual’s employment or education
- A decision based on the submission to or rejection of a sexual advance
- Verbal or physical conduct of a sexual nature that interferes with an individual’s performance or creates an intimidating work or educational environment

Immediate action shall be taken against anyone determined to be in violation of this policy. Anyone who believes they have been a victim of sexual harassment may file a complaint within one year of the date on which they knew or should have known of the facts of the sexual harassment incident.

Complaints of sexual harassment shall be handled according to the district's policies and procedures, including Administrative Procedure 4640: Procedures to Resolve Complaints Regarding Harassment and Discrimination. Such complaints can be directed to the dean of Student Development and EOPS at 408.864.8218 or the Title IX coordinator at 408.864.8945.

**STUDENT GRIEVANCE PROCEDURES**

De Anza College strives to treat all students fairly, but as in any complex organization, conflicts and misunderstandings may arise from time to time. As a student, you have certain rights under the rules and regulations of the college, the Foothill-De Anza Community College District and the state of California.

If you feel that your rights have been violated by the college, you have the right to seek a resolution. The district board of trustees established Administrative Procedure 5530: Student Grievances to provide an avenue for relief. De Anza’s student grievance procedures are summarized in the following steps.

**Step 1:** First try to solve the problem informally with the instructor or staff member. You must confer with the others involved and try to resolve the problem.

**Step 2:** If you are unable to resolve the issue after Step 1, you must meet with the manager of the other person involved in the dispute—either the division dean for a faculty member or the supervisor for a college administrator or classified professional staff member.

**Step 3:** If the situation is still unresolved, you must confer with the vice president who oversees the division dean or supervisor, or with the vice president’s designee.

**Step 4:** If you still aren’t satisfied, you may consult with the dean of Student Development or designate, and if they advise that your complaint is appropriate for the grievance process, you may file a formal grievance form. You will need to provide the specific rule or law that you feel was violated, as well as the details of the situation and copies of any pertinent documents. Don’t delay: You must file no more than 30 days after learning of the event or the latest of a series of events that form the basis of the grievance. In addition, you must file within a year after the alleged violation occurred, regardless of when you learned of it. You may only file a grievance if you are a current student or if you were a student no more than 30 days before filing.

**Step 5:** Pick up a Student Grievance form from the Office of Student Development, the Office of College Life or the vice president of Student Services. You can receive assistance with completing the form from any faculty or staff member.

**Step 6:** File your completed Student Grievance form with the Office of Student Development in Campus Center Room 165. Please do not return the completed Grievance form to any other office. You will receive acknowledgement that your grievance was received, usually within two weeks.

**Step 7:** The Grievance Review Board will review your grievance and decide if it meets the standards for filing and for further consideration. The Office of Student Development will contact you if the board agrees to schedule a hearing.

**Step 8:** The nature of the hearing will differ according to the circumstances and the discretion of the grievance officer. You and the others involved can be accompanied by, or represented by, any other individual who is not an attorney. You may purchase a copy of the official record of the hearing.

**Step 9:** The Grievance Review Board will try to decide—within 14 days after the hearing—the outcome of your grievance and whether you are entitled to any relief. The board will forward its recommendation to the dean of Student Development, who will forward it to the college president.

**Step 10:** The president or the president’s designee will have the final decision regarding the outcome of your grievance. If any violation is determined to be the result of a district rule, or some other factor outside the college’s control, the president or the president’s designee will recommend appropriate action to the district chancellor or trustees. The president’s office will notify you in writing of the outcome.

---

* Foothill-De Anza Administrative Procedures: Investigation and Resolution of Complaints Regarding Harassment and Discrimination. Procedures to Resolve Student Complaints of Sexual Harassment and Discrimination, and the district’s Unlawful Discrimination Complaint forms are available in the president’s office, the office of the vice president for Student Services, the district human resources office, and the district chancellor’s office. Detailed information regarding the sexual harassment, mutual respect, and ADA policies are located at the following campus locations: the president’s office, the office of the vice president for Student Services and the office of the dean of Student Development in Student Services.
STUDENT RIGHT-TO-KNOW AND CAMPUS SECURITY ACT

The following information on completion and transfer rates is provided in accordance with the federal Student Right-to-Know and Campus Security Act.

- Completion rate: 62.38 percent
- Transfer rate: 6.95 percent

These rates are based on tracking a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students over a three-year period beginning in fall 2014. The rates do not represent the success rates of the entire student population at the college nor do they account for student outcomes occurring after this three-year tracking period.

For this cohort, the completion rate indicates those students who attained a certificate or degree or who became “transfer prepared” during the period from fall 2014 to spring 2017. Students who completed 90 transferable units with a GPA of 2.0 or better are considered “transfer prepared.” The transfer rate indicates those students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming “transfer prepared” during a five-semester period from spring 2015 to spring 2017.

Also in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, De Anza College provides a crime statistics report. See “Crime Statistics (Clergy Act)” on page 27. Current information is available at deanza.edu/police/clerystatistics.

STUDENT RIGHTS AND RESPONSIBILITIES CONCERNING HEALTH

De Anza students have the right to a healthy, safe and drug-free environment. They also have personal responsibilities with regard to their own health and safety and the health and safety of the college community.

To promote an optimum personal and physical environment for individual development and learning, students will

- Not attend college if they have a contagious condition (such as TB, measles or hepatitis)
- Not attend college if they are under the influence of alcohol or illicit drugs
- Have a physical exam on file if they are an intercollegiate athlete, or is in an allied health program
- Notify the Admissions and Records Office if they will be absent for a week or more due to an illness
- Observe sound personal hygiene habits
- Have current TB results on file as required by the Allied Health Programs, the Child Development Center, the International Student Program and the Nursing Program
- Obtain a physician's note and cooperate openly and honestly with college officials about medical problems that may threaten the health or welfare of themselves or others
- Follow safety regulations and use safety equipment and protective devices as required
- Follow all college infectious disease policies

SUBSTANDARD WORK: ALLEVIATION FOR GPA

When a student receives a substandard grade (D+, D, D-, F, NC or NP) at De Anza, they may petition to have that grade excluded from their GPA after subsequently completing an equivalent course at another regionally accredited college or university. The student’s academic transcript will be annotated to reflect exclusion of the previously recorded coursework with the substandard grade, for purposes of GPA calculation and for all considerations associated with awarding certificates and degrees. Replacement with a grade of Pass/No Pass is not permitted, as it does not improve the student’s GPA. All grades remain on the academic transcript, and some transfer institutions may require recalculation of the GPA to include both the substandard grade and the subsequent grade.

When submitting this petition, the student must

- Attach a copy of their transcript, and either the course outline of record or the course catalog description to confirm course equivalency
- Make sure that an official (sealed) transcript from the other regionally accredited institution is submitted to De Anza’s Admissions and Records Office before the petition is filed
- Complete the petition form by providing the student’s information, the De Anza College course identifier, the date the De Anza course was completed and the initial grade, as well as the equivalent course identifier, date repeated and grade earned upon repetition
- Obtain a counselor’s approval for the petition if the course is clearly equivalent in ASSIST or C-ID
- Obtain approval from a De Anza faculty member in the relevant discipline and the division dean, after meeting with a counselor, if the course is not in ASSIST or C-ID
TEXTBOOK AFFORDABILITY AND ACCESSIBILITY OPTIONS

De Anza recognizes that the cost of textbooks and other materials can have a direct impact on students’ ability to achieve their educational goals. Instructors are working to provide more free and low-cost options for textbooks and other required materials. Students can learn more about these options by visiting deanza.edu/save-on-books.

While the college makes every reasonable effort to determine that the information listed in the online schedule is accurate, textbook editions and ISBNs are subject to change without notice by either the instructor or publisher. The De Anza College Bookstore is not responsible for subsequent textbook changes if the student purchases them from another source. Students should review the class listings at deanza.edu/schedule.

TITLE IX*

De Anza is committed to creating and sustaining a safe educational and working environment free of
- Sex discrimination
- Sexual harassment
- Sexual violence
- Domestic violence
- Dating and acquaintance violence and stalking

Title IX of the federal Education Amendments of 1972 prohibits sex (gender-based) discrimination and harassment in educational programs and activities at institutions that receive federal financial funding, including for employment, academic, educational, extracurricular and athletic activities.

This federal law
- Protects all people regardless of their gender or gender identity from sex discrimination, including sexual harassment and sexual violence, which are forms of discrimination
- Requires institutions to take necessary steps to prevent sexual assault on their campuses, and to respond promptly and effectively when an assault is reported

Visit deanza.edu/titleix for complete information, resources and contacts, including
- Health Services
- Psychological Services
- Campus police

To File a Complaint

Contact: Title IX Coordinator
Location: RSS 202
Telephone: 408.864.8945
Email: dactitleIX@deanza.edu

TRANSCRIPTS

Students can order transcripts in writing from the Admissions office, or by ordering through MyPortal or the website of De Anza’s authorized transcript provider. Transcripts will be sent electronically or mailed in hard copy, depending on the arrangement with the receiving institution. Students are entitled to two free transcripts if they submit the request in writing, indicating that the request is not a rush order and that it should be counted as a free copy. All other orders will be subject to published fees. See deanza.edu/admissions/order-transcripts for more information.

TRANSFER CREDIT FROM OTHER COLLEGES

Students transferring from another regionally accredited institution may request to use credit from that school to meet De Anza requirements. Official transcripts should be sent directly from the transfer institution to the Admissions and Records office. Students may also deliver a sealed, official transcript to the Admissions and Records Office, along with a request for transcript evaluation. Only lower-division (freshman- and sophomore-level) transfer credit can be evaluated. Upon review, eligible transfer credit will be applied to the student’s De Anza record. Transfer review is not immediate and varies depending on the volume of official transcripts received.

Students who want prior coursework used as a prerequisite for a De Anza course must submit a prerequisite clearance form, along with an unofficial copy of their transcript, to the Admissions and Records Office for review. This transcript will not be evaluated for other transfer credit, but for prerequisite clearance only. Prerequisite clearance forms are available at deanza.edu/admissions/evaluations/prerequisites.

Non-Regionally Accredited Colleges

Students may receive up to 18 quarter units of elective credit for coursework completed at a college accredited by other associations recognized by the Council of Postsecondary Accreditation (COPA). This credit is not transferable to meet bachelor’s degree requirements. Official transcripts should be mailed or submitted to the Admissions and Records Office.

Transfer credit will be denied in cases in which transfer work is completed at an institution that is not accredited by a regional institutional accrediting organization.

Students who have attended any foreign institution should first meet with a counselor or adviser to review their coursework since foreign transfer credit has several limitations.

UNITS (CREDIT UNITS)

A unit is the standard measurement of college and university work. One unit equals one hour of classroom work in most classes, predominantly those in lecture or lecture-discussion formats. Students should expect two hours of outside preparation for each one hour spent in class. Laboratory classes have three hours of work per week per unit. (Specialized performance classes such as athletics, drama and music require more than three hours per week per unit.) Quarter units are equal to two-thirds of a semester unit. Conversely, a semester unit is equal to one and a half quarter units.

* Foothill-De Anza’s Administrative Procedures: Investigation and Resolution of Complaints Regarding Harassment and Discrimination, Procedures to Resolve Student Complaints of Sexual Harassment and Discrimination, and the district’s Unlawful Discrimination Complaint forms are available in the President’s Office, the Office of the Vice President for Student Services, the District Human Resources Office, and the district Chancellor’s Office. Detailed information regarding the sexual harassment, mutual respect, and ADA policies are located at the following campus locations: Counseling Division, Health Services Office, Office of College Life, Learning Center Reference Desk, division offices, and Staff and Organizational Development.
UNIT LOAD LIMITATIONS

Twelve units is the minimum number of units required for classification as a full-time student. A normal class load will be 12-17 units.

New students may not exceed a maximum of 21.5 units during their first quarter of enrollment at De Anza without the approval of the dean of Counseling.

Continuing students may enroll in more than 21.5 units (including physical education and labs) if they have met the following conditions:

- Completed a minimum of 18 units in the preceding quarter at De Anza
- Have not withdrawn from more than one class in the preceding quarter and
- Completed the preceding quarter with at least a 3.0 GPA

Students meeting the above criteria who wish to enroll in more than 21.5 units must petition through their counselor. Petitions will not be considered before the first day of classes. Students who do not meet the criteria may petition the dean of Counseling for an exception to this policy.

Summer Sessions

During summer sessions, students may enroll in a maximum of 15 units including physical education classes and labs associated with courses.

- To exceed the 15-unit limit, students must meet with a counselor to complete the special petition form.
- Students must have completed a minimum of 18 units in the preceding quarter, not withdraw from more than one class, and have at least a 3.0 GPA to be eligible for a unit overload.

UNSATISFACTORY WORK

When a student persistently neglects class assignments or has excessive absences, the instructor may drop the student from the class or assign a nonpassing grade. Students may also be assigned a nonpassing grade for violating De Anza’s published Academic Integrity policies.
DEGREE AND CAREER PROGRAMS

De Anza College offers a wide variety of two-year transfer and career programs leading to an Associate in Arts or Associate in Science degree. In addition, Certificates of Achievement and Certificates of Achievement-Advanced are awarded upon the satisfactory completion of certain programs that require less than two years of full-time study. Programs may be studied on a full- or part-time basis during the day or evening, or on weekends.

ASSOCIATE DEGREE PROGRAMS

(Associate in Arts and Associate in Science)

While many students seek an associate degree in preparation for immediate entry into the job market, earning an associate degree also serves as excellent preparation for transfer to a four-year college or university. By earning an associate degree, students demonstrate to potential employers, transfer institutions and society that they have specialized knowledge in a particular area of study. Completing a degree also signals that students have gained critical and analytical thinking ability, information literacy, written and oral communication skills, and the ability to consider issues with cultural, global, social and environmental awareness.

Students are strongly advised to meet with a counselor early to decide which degree best suits their academic needs and for assistance in planning their course of study.

ASSOCIATE DEGREE REQUIREMENTS

(Associate in Arts and Associate in Science)

- To receive an associate degree, a minimum of 90 quarter units of college credit in prescribed courses is required.

- Prescribed courses must be from a curriculum in effect and published in the catalog during the student’s first quarter of enrollment or any subsequent quarter as long as continuous enrollment is maintained. A continuously enrolled student is defined as one who attended De Anza or Foothill College for at least one semester or two quarters each academic year. (For the purpose of continuous enrollment, an academic year is defined as fall through summer.) A single W grade in a term qualifies the student as having attended that term.

- A minimum of 24 quarter units must be earned at De Anza College. A maximum of 22 quarter units from another college or university may be applied toward the major.

- Students must demonstrate proficiency in reading, written expression and mathematics.

- General education requirements for the A.A./A.S. must be completed as outlined in this catalog. A minimum of 32-43 quarter units are required from Areas A-E. General education requirements can be selected from one catalog year; and major requirements can be selected from a different catalog year, as long as the rule of continuous enrollment is followed.

- Students must complete all major courses with a C grade or higher.

- Permission to continue in medical assisting and nursing is subject to the approval of the program faculty. A mandatory review of a student’s academic standing takes place if grades fall below C in courses or in performance situations.

TRANSFER AND DEGREE PROGRAMS

Associate Degrees for Transfer

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (A.A.-T.) or the Associate in Science for Transfer (A.S.-T.) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (A.A.-T. or A.S.-T.) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units (90 quarter units) of CSU-transferable coursework with a minimum GPA of 2.0. While a minimum GPA of 2.0 is required for admission, some majors may require a higher GPA. Students transferring to a CSU campus that does not accept the A.A.-T. or A.S.-T. will be required to complete no more than 90 quarter units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Associate in Arts-Transfer (A.A.-T. degree)

Similar to the A.A. degree, the A.A.-T. degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in academic areas such as the liberal arts, social sciences
and related fields other than science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the CSU General Education/Breadth requirements or the Intersegmental General Education Breadth Requirements (IGETC). Students who plan to complete this degree and who wish to transfer to a non-local CSU, UC or other college or university are advised to meet with a counselor for assistance in developing their educational plan.

**Associate in Science-Transfer (A.S.-T. degree)**
Similar to the A.S. degree, the A.S.-T. degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in the areas of science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the CSU General Education/Breadth requirements or the Intersegmental General Education Breadth Requirements (IGETC). Students who plan to complete this degree and who wish to transfer to a non-local CSU, UC or other college or university are advised to meet with a counselor for assistance in developing their educational plan.

**Note:** For more information and a list of available A.A.-T./A.S.-T. degrees go to deanza.edu/articulation/apply-adt

---

**RETURNING TO DE ANZA COLLEGE FOR A SUBSEQUENT ASSOCIATE DEGREE**

Students returning for additional degrees who do not qualify for continuous enrollment must meet the current A.A./A.S. degree GE pattern requirements and the current major requirements in effect during the academic year in which they return.

**General Education Reciprocity**
De Anza has entered into a mutual General Education Reciprocity agreement with other community colleges to accept the GE courses of these colleges “as completed.” In addition to De Anza, participating institutions include Cabrillo, Chabot, Evergreen Valley, Foothill, Gavilan, Hartnell, Las Positas, Mission, Monterey Peninsula, Ohlone, San José City and West Valley colleges. Other community colleges do not participate in the agreement at this time.

The reciprocity agreement means that any of the participating colleges will accept “as completed” the GE coursework and graduation proficiencies of those students who obtain an official certificate of completion of associate degree GE requirements from one of the participating colleges. When using reciprocity to satisfy GE, the other degree requirements (such as prerequisites, major and electives units, and GPA) as specified by the college issuing the degree must still be met.

To obtain an official certificate of completion of De Anza’s GE pattern, students should:
- Provide official transcripts from other colleges to the Admissions and Records Office
- Meet with a counselor and provide verification that De Anza’s GE requirements have been completed to the evaluators in the Admissions and Records Office

Official reciprocity certification will be completed by the counselor, verified by the evaluations officer or articulation officer, and mailed to the community college of transfer. Students will be given a copy of the certification. De Anza will honor the certification presented from another participating college only if it is transmitted in the same manner as an official transcript from that college.

**CERTIFICATE PROGRAMS**
Certificate of Achievement and Certificate of Achievement-Advanced programs are designed for students interested in programs of instruction with a high degree of specialization. Programs vary in length and generally require less than two years of full-time study to complete. If the student prefers, they may also be completed on a part-time basis. Students are encouraged to check with the departments and counselors for help with planning their courses. Successful completion of these certificates requiring a minimum of 18 quarter units is notated on official college transcripts. There is no limit on the number of certificates a student can earn.

Many certificates have been designed on the ladder concept, so that courses taken to meet the lower-unit Certificate of Achievement requirements meet part of the higher-unit Certificate of Achievement-Advanced requirements; and those Certificate of Achievement-Advanced courses can be applied to the corresponding associate degree requirements.
CERTIFICATE REQUIREMENTS

Students must complete the prescribed number of courses in the major for each certificate.

Certificate of Achievement
Required units range from 18 to 26. Each major course must be completed with a minimum C grade or higher. Up to six units may be applied from another college or university.

Certificate of Achievement-Advanced
Required units typically range from a minimum of 27 to 45.

- Each major course must be completed with a minimum C grade or higher.
- A maximum of 18 quarter units may be applied from another college or university.
- Mathematics proficiency is required in addition to major courses. This may be met by completing MATH 212 or higher level mathematics.
- English proficiency is required in addition to major courses. Eligibility for EWRT 1A or EWRT 1AH or ESL 5. This proficiency may be demonstrated by completing EWRT 211 and READ 211, or LART 211 (or earlier EWRT/READ/LART courses that were prerequisites to EWRT 1A or EWRT 1AH); or completing ESL 272 and 273, earlier ESL courses that were prerequisites to ESL 5.

Skills Certificate Programs
Some academic departments also offer Skills Certificates. These certificates are issued by the department and are not notated on official college transcripts. All required courses must be completed with a C grade or higher.

CAREER TECHNICAL EDUCATION (CTE) PROGRAM ADVISORY COMMITTEES

In accordance with guidelines established by the California Community Colleges System Office, each De Anza Career Technical Education (CTE) program is represented by an advisory committee. These advisory committees are composed of business and industry leaders, as well as college faculty and administrators. They meet at least once annually to discuss course offerings and determine how to keep programs current with trends in the regional and global economies.

The advisory committees provide input by:
- Advising on industry trends and employment needs
- Reviewing current course content
- Evaluating program graduates' performance
- Determining facilities and equipment needs
- Recommending new courses and content
- Initiating new certificate and degree programs

The recommendations of the CTE program advisory committees are implemented on a continuous basis. In addition to the program advisory committees, other college bodies make recommendations and decisions regarding implementation of new CTE certificate and degree programs. These bodies include the De Anza College Curriculum Committee and the Foothill and De Anza Colleges' Joint Academic Senate.

Certificate of Achievement-Advanced 27+
Associate Degree (including GE) min. of 90
Associate Degree for Transfer (including GE) min. of 90
Skills Certificate* Units vary

* Skills Certificates are awarded by the department and are not notated on official transcripts.

Certificates and degrees are subject to change.
Check with the department for the most current information.
Students who plan to transfer to a four-year college or university to earn a bachelor’s degree can complete their freshman-and sophomore-level coursework at De Anza. Each baccalaureate institution has a pattern of lower-division general education or breadth requirements and specific major requirements that should be fulfilled before transferring. De Anza offers numerous lower-division courses. In addition, students may make up any high school grade or subject deficiencies that are required for entrance to universities. Please see a counselor or academic adviser for rules and restrictions.

Students should acquaint themselves with the current catalog of their transfer college or university for information about admissions qualifications and application procedures, as these vary by institution and are subject to change. It is recommended that students work closely with a De Anza counselor or academic adviser to identify appropriate coursework to fulfill lower-division general education and major requirements. With careful planning, students planning to transfer may also complete the graduation requirements to earn a De Anza Associate in Arts or Associate in Science degree.

1-199: Transferable to campuses of the University of California. (See information on UC transfer limitations for approved De Anza courses on page 122.)

All courses numbered 200 and above are non-degree applicable.

There are exceptions to this numbering system. Consult the course listings in this catalog and schedule of classes to determine which De Anza courses 1-199 are not degree-applicable and which De Anza courses 50-99 may have University of California transfer status pending.

Courses considered “transferable” may not necessarily meet specific requirements at four-year institutions. Students should consult with a counselor or academic adviser to determine transfer credits and to develop an educational plan for transfer. Although students are strongly encouraged to work with a counselor or academic adviser, the final responsibility for the selection of appropriate transferable courses rests with the student.

**COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)**

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by De Anza or another California community college are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. The C-ID designation can be used to identify comparable courses at different community colleges. For example, students who complete COMM 16 (C-ID COMM 130) at De Anza can be assured that the course will be accepted in lieu of a course bearing the C-ID COMM 130 designation at another community college.

The C-ID numbering system is useful for students attending more than one community college and is applied to the transferable courses that students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor or academic adviser to determine how C-ID designated courses fit into their educational plans for transfer.

**ARTICULATION AGREEMENTS**

Articulation refers to the process of evaluating courses, or a sequence of courses, to determine whether coursework offered at a “sending” institution (such as De Anza College) will meet specific course requirements at a “receiving” institution (such as CSU, UC or independent universities) for the purposes of fulfilling requirements for admission, general education, lower-division major preparation or elective credit. Successful completion of articulated De Anza courses assures students that identified courses listed on an articulation agreement will be credited toward bachelor’s degree requirements upon transfer to a college or university.

De Anza has established articulation agreements with CSU, UC and various independent and out-of-state universities. Courses approved for credit at such institutions are listed on these articulation agreements. Department course-to-course, general education and major preparation agreements for UC and CSU campuses are available online at:

- assist.org
- deanza.edu/articulation/agreements

**ASSIST (STATEWIDE ARTICULATION WEBSITE)**

The assist.org website is the official statewide repository for articulation information for California public colleges and universities. It is the primary website to use to identify which specific De Anza courses fulfill general education or major preparation requirements at UC or CSU campuses. Listings of course equivalencies assist students in selecting appropriate courses to prepare for transfer. Selection criteria for impacted and selective programs or majors, transfer credit limitations and important links to UC and CSU websites are also available at assist.org.
The UC considers an applicant to be a transfer student if the applicant has enrolled in a regular session at a college or university after high school. Students who meet this definition cannot disregard their college records and apply as freshmen. A student who takes a class or two during the summer term immediately following high school graduation is not considered a transfer student.

While at De Anza and prior to applying to the UC, students are advised to research campus catalogs and websites, contact UC campus admissions offices, and consult with a counselor or academic adviser to confirm appropriate course selection for admission.

The following information was taken from the UC Quick Reference for Counselors guide. De Anza is not responsible for any changes the UC may make to this information after publication of this catalog. The University of California (UC) campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara and Santa Cruz all share the same minimum admission requirements. However, each campus is unique. The academic programs that are offered, size of the student body, housing options, undergraduate research opportunities and physical environment are among the factors that contribute to the distinctive character of each campus. Transfer admission requirements vary by campus and by major as well. Academic preparation and grade point average are reviewed by campuses and programs as part of the selection process. These criteria vary from year to year and from campus to campus, based on the number and qualifications of applicants. Comprehensive UC transfer information is available at admission.universityofcalifornia.edu/transfer/.

- Two transferable college courses (4-5 quarter units or 3 semester units each) in English composition
- One transferable college course (4-5 quarter units or 3 semester units each) in mathematical concepts and quantitative reasoning
- Four transferable college courses (4-5 quarter units or 3 semester units each) chosen from at least two of the following subject areas: arts and humanities, social and behavioral sciences, and physical and biological sciences

The above seven courses may be completed with a Pass/Credit/ Satisfactory grade if such designations are equivalent to a letter grade of C (2.0) or better. Additionally, AP exams with scores of 3, 4 or 5 can also be used. Please note: Only one of the two English composition/literature courses required can be met with an exam score.

If a student meets the Intersegmental General Education Transfer Curriculum (IGETC) prior to transferring, he or she may meet the seven-course pattern requirement. All UC campuses recommend that students complete math and English as early as possible, though some highly recommend or require completion by the end of the fall term, one year prior to enrolling at UC.

Lower-Division Transfers

Some UC campuses may admit a limited number of transfer students before they reach junior standing.

To learn if a UC campus will accept applications from lower-division transfers, visit admission.universityofcalifornia.edu/how-to-apply/check-majors/index.
In addition to satisfying UC admission requirements, transfer students must fulfill additional requirements before graduating. Some, such as the American history and institutions requirement and the entry-level writing requirement, are UC-wide. Other requirements – such as major preparation and general education – vary by campus and by major.

**Nonresidents**
The minimum admission requirements for nonresidents are very similar to those for residents. Transfer students who are not California residents may consult with the admissions office at a UC campus to confirm admission requirements. In all cases, however, nonresidents must have a grade point average of 2.8 or higher in all transferable college coursework.

**TRANSFER TO THE CALIFORNIA STATE UNIVERSITY**
The California State University (CSU) system gives priority admission consideration to California community college students who meet the CSU upper-division transfer admission requirements. However, the highest admission priority is given to California community college students who have earned an Associate Degree for Transfer (ADT). California community college students will be considered as having achieved junior class level standing once they have completed an ADT or at least 90 quarter (60 semester) CSU-transferable level units that meet their lower-division major requirements.

While at De Anza and prior to applying to the CSU, students are advised to research campus catalogs and websites, contact CSU campus admissions offices, and consult with a counselor or academic adviser to confirm appropriate course selection for admission. For more information about a specific CSU campus, consult the university’s general catalog. Comprehensive information about the CSU system and campuses is posted online at www2.calstate.edu/apply/transfer.

The following information was obtained from the CSU Admission Handbook. De Anza is not responsible for any changes CSU may make to this information after publication of this catalog.

**Upper-Division Transfer Admission Requirements**
To qualify for admission as an upper-division transfer, applicants must complete 90 or more quarter CSU-transferable units (60 or more semester units) and have met the following requirements:

- **Completed at least 45 quarter units (30 semester units) of general education courses.** Applicants may visit www.assist.org for a full listing of courses at each California community college that meet CSU general education requirements.
- **Completed transferable courses (CSU GE Category A) with grades of C or better in written communication, oral communication and critical thinking.**
- **Completed one transferable course with a grade of C or better in mathematics or quantitative reasoning (CSU GE Area B4).**
- **Achieved a cumulative grade point average of 2.0 or better in all CSU-transferable college units attempted.**
- **Be in good standing (eligible to re-enroll) at the last college or university attended.**

**Lower-Division Transfer Admission Requirements**
An applicant who completes fewer than 90 quarter units (60 semester units) of college credit is considered a lower-division transfer student. Due to enrollment pressures, most CSU campuses do not admit lower-division transfers so that more upper-division transfers can be accommodated.

Having fewer than 90 quarter units (60 semester units) at the point of transfer may affect eligibility for registration priority at CSU campuses and may affect the student’s financial aid status.

California resident transfer applicants with fewer than 90 quarter units (60 semester units) must:

- **Have a cumulative grade point average of 2.0 (C) or better in all transferable units attempted.**
- **Have completed, with a grade of C- or better, a course in written communication and a course in mathematics or quantitative reasoning at a level satisfying CSU General Education Breadth Areas A2 and B4 requirements, respectively.**
- **Be in good standing at the last institution attended.**

- **Meet one of the following eligibility standards:**
  - **Transfer Based on Current Admission Criteria**
    - Meet the freshman admission requirements in effect for the term for which application is filed;
    - OR –
  - **Transfer Based on High School Eligibility**
    - Was eligible as a freshman at the time of high school graduation and has been in continuous attendance in an accredited college since high school graduation;
    - OR –
  - **Transfer Based on Making Up Missing Subjects:**
    - Had a qualifyable eligibility index at the time of high school graduation (combination of GPA and test scores if needed), has made up any missing college preparatory subject requirements with a grade of C- or better, and has been in continuous attendance in an accredited college since high school graduation.
    - One baccalaureate level course of at least 4 quarter units (3 semester units) is usually considered equivalent to one year of high school study.
    - (NOTE: Due to enrollment pressures, most CSU campuses do not admit lower-division transfers. Some campuses may require lower-division transfer students to complete specific college coursework, such as the four basic skills courses, as part of their admission criteria.)

Many CSU campuses have impacted majors while several CSU campuses are impacted in all majors. Students interested in an impacted major or campus must apply for admission during the initial application filing period. Applications for admission to impacted majors and campuses are not accepted after the initial filing period. Consideration for admission to any impacted major or campus is contingent on first meeting the regular admission requirements for the CSU. As a result of impaction, completion of the minimum eligibility requirements may not be sufficient for admission. Supplementary admission
criteria are used to screen all applicants for admission to impacted majors.

**Associate Degrees for Transfer (ADT) to the CSU**

The Student Transfer Achievement Reform Act (SB 1440) established an Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T) for community college students. The AA-T and AS-T degrees are designed to provide a clear pathway to a CSU degree major. For information on meeting the requirements for an AA-T or AS-T degree, students should consult with a counselor or academic advisor.

To view a current list of De Anza AA-T and AS-T degrees, visit:
- deanza.edu/academics/degrees-and-certificates
- deanza.edu/articulation/apply-adt
- www2.calstate.edu/apply/transfer/Pages/ccc-associate-degree-for-transfer.aspx
- adegreewithaguarantee.com

**TRANSFER TO PRIVATE AND OUT-OF-STATE UNIVERSITIES**

Private (or independent) and out-of-state universities have transfer admission, general education and major requirements that are specific to each campus. De Anza has articulation agreements with select independent colleges and universities located in California and out-of-state. This information is available at deanza.edu/articulation/agreements.

To view information, resources and tools for transfer to private colleges and universities in California, visit californiacolleges.edu/#/college-options-in-california. Transfer admission requirements and transfer credit policies for out-of-state colleges and universities are generally listed in college catalogs and on university admission websites. To ensure a smooth transfer process, students are advised to contact the school where they wish to transfer.

**GUARANTEED ADMISSION**

A Transfer Admission Guarantee (TAG) – also referred to as a Transfer Admission Agreements (TAA) – is a commitment that select colleges and universities provide to De Anza students who fulfill specific admission, GPA and course requirements. A TAG serves as a contract between a student and a transfer college or university. Students who complete a TAG and meet the contractual requirements are guaranteed admission to the university.

Students may prepare for a TAG by working with a counselor or academic adviser early in their academic career to develop an education plan for transfer. With a TAG in place, students have the benefit of knowing that each course completed has been agreed upon and that any loss of credit will be minimized by the participating transfer institution. The following institutions participate in a guaranteed admission program with De Anza. However, these agreements are subject to change without notice:

**University of California**
- UC Davis
- UC Irvine
- UC Merced
- UC Riverside
- UC Santa Barbara
- UC Santa Cruz

**Private Colleges and Universities**
- Arizona State University
- Santa Clara University
- University of the Pacific

**Historically Black Colleges and Universities (HBCUs)**

Participating HBCUs provide guaranteed transfer to De Anza and California community college students who complete certain academic requirements. For a current list of participating HBCUs, visit cccco.edu/HBCU/Transfer.aspx.

Students may visit deanza.edu/articulation to view information about TAG eligibility, requirements and deadlines and are encouraged to meet with a counselor or academic adviser to learn how to initiate and fulfill a TAG.

**EFFECTIVE TRANSFER PLANNING STRATEGIES**

**Determine transfer goals early**

Deciding on a college and a major early enables students to focus on planning and meeting specific transfer goals. Students are encouraged to start researching transfer options early in their college career and to consider several colleges and alternative majors in their planning to maximize the chances for successful transfer.

**Be competitive – Be “transfer ready”**

Do not wait until the last quarter to take math and English

Complete transferable math and English requirements as early as possible. Remember to consider any prerequisites and prerequisite advisories associated with each course, and utilize tutoring support services on campus, as needed.

**Conduct research on prospective transfer institutions**

A successful transfer requires planning early and understanding what is required to transfer, including:
- minimum transfer admission requirements
- lower-division major requirements
- competitive GPA for the major and campus
- application process and deadlines

Information regarding transfer is subject to change so it is important for students to check university websites and other available resources periodically for updates and changes to transfer admission and major requirements.

**Develop an education plan for transfer**

Consult with a counselor or academic adviser to identify required coursework and include in an education plan for transfer.

**Complete general education (GE) requirements**

To be as competitive as possible, complete all or as many lower-division GE courses as possible prior to transfer. Students pursuing high-unit majors are generally advised to focus on completing major preparation coursework while meeting the minimum admission requirements for transfer. For students who plan to complete CSU GE or IGETC (see pages 47 and 49), remember to request GE certification from De Anza’s Admissions and Records office.

**Complete major preparation requirements prior to transfer**

Due to the increasingly competitive nature of the transfer admissions process, many majors require completion of lower-division major preparation courses prior to transfer. This is especially true for high-unit majors (e.g. science and engineering). Visit assist.org for lower-division major requirements for transfer to the CSU and UC campuses.
Develop relationships with instructors, counselors, and academic advisers
This is especially helpful as applications for admission and scholarships may require letters of recommendation.

Keep course syllabi
Students should retain the course syllabi for all completed classes and select course materials (such as writing samples and final exams) in case a transfer institution requests such documentation.

Check and update your email on a regular basis
Most colleges use email as their primary means of communication with students. It is important to make sure that colleges and universities have the most current email address on file and to check messages often to ensure compliance with any requests, requirements, and deadlines.

Keep on top of deadlines!
GENERAL EDUCATION REQUIREMENTS 2019-2020

Effective Fall 2019 through Summer 2020

De Anza College offers two associate degrees, the Associate in Arts (A.A.) and the Associate in Science (A.S.). In order to obtain either degree, you must complete between 32 and 43 quarter units of General Education (GE) and additional unit requirements for your major. The number of units required for a major will vary from program to program. To qualify for the associate degree, you must complete a total of 90 quarter units comprising De Anza’s General Education, major and, if necessary, elective courses of your choice. The associate degree is not required for transfer. However, with careful planning, you may qualify for an associate degree while meeting requirements for transfer admission. Review the following pages for listings of courses that satisfy De Anza’s GE, Intersegmental General Education Transfer Curriculum (IGETC) and California State University (CSU) GE Breadth requirements.

The General Education subject areas for De Anza College’s associate degree requirements are listed under the left column below. If you are planning to transfer to the University of California or California State University, you may want to complete the requirements listed under the IGETC or CSU GE Breadth. See pages 48-52 for approved course lists. De Anza College requirements for CSU GE certification differ from the requirements identified by the CSU and from the information published on assist.org. In order to qualify for certification of CSU GE at De Anza College, students must complete the CSU GE requirements as stated in this catalog or at deanza.edu/articulation.

Transfer students with high-unit majors (such as sciences or engineering) should focus on completing requirements for the major and minimum admissions requirements rather than completing IGETC or CSU GE Breadth requirements.

Completion of IGETC and CSU GE Breadth requirements is not required for transfer. Students who plan to transfer may instead choose to complete the specific General Education breadth requirements of the transfer institution of their choice.

Please see the following websites for more information: assist.org or deanza.edu/articulation

2O19-2O2O DE ANZA COLLEGE CATALOG


Transfer to All Campuses - California State University (CSU)
CSU General Education/Breadth Requirements for 2019-2020
Effective: Fall 2019 through Summer 2020

Student Name: De Anza College's requirements for the certification of CSU GE differ from the requirements identified by the California State University and the information published on assist.org. Students must complete the CSU GE requirements stated in the De Anza College Catalog and Schedule of Classes in order to qualify for CSU GE certification by De Anza College. There is no catalog year or rule of continuing attendance for CSU GE certification. A course is certifiable if, and only if, it was on the CSU GE requirement list at the time the course was taken. Transfer credit limitations may apply, see assist.org for more information. Upon enrolling in final course requirements and receiving conditional admission to the university, students must submit a request for certification to the De Anza College Admissions and Records Office. G.E. Certification Request Forms are available at the Admissions and Records Office and online at deanza.edu/admissions/forms.

Use the columns located to the right to track units in-progress/planned and completed: I/P/P = In-Progress/Planned  C = Completed

- Courses may be added to CSUGE mid-academic year. These will be highlighted and identified in bold print, followed by the effective start term in parentheses.
- Visit deanza.edu/articulation and assist.org for updates during the spring 2020 term.
- In addition to ICS, courses with asterisks meet ICS requirement in Area C, D or E.
- Courses listed in two areas can be counted in only one area.

DE ANZA COLLEGE CATALOG 2019-2020

49
**AREA D: SOCIAL SCIENCES**

Select 3 courses from at least 2 disciplines. One ICS course must be taken in Area C, D or E.

The U.S. History, Constitution, and American Ideals (AI) is a CSU graduation requirement, and it is strongly recommended that it be completed before transfer. This requirement may be fulfilled by completing 2 courses: POLI 1 or 1H and one of the following U.S. History courses (HIST 17A, 17AH, or 17B, 17BH, or 17C, 17CH). These courses may be used as part of the 12-15 quarter units required in Area D.

No more than 2 units of DANC/KNES/P E/PEA activity courses may apply.

**CSU/UC Graduation Requirement - NOT PART OF IGETC**

(CSU) The U.S. History, Constitution, and American Ideals (AI) is a CSU graduation requirement, and it is strongly recommended that it be completed before transfer. This requirement may be fulfilled by completing 2 courses: POLI 1 or 1H and one of the following U.S. History courses: (HIST 17A, 17AH or 17B, 17BH or 17C, 17CH). These courses may be used as part of the 12-15 quarter units required in **Area 4**, however, each CSU campus has the discretion whether to allow courses completed in **Area 4** to also satisfy the AI graduation requirement.

(UC) The American History & Institutions (AH&I) is a UC graduation requirement that may be met through examination or enrollment in specific courses. Each campus decides how its students may meet the requirement. Most transfer students fulfill this requirement through satisfactory completion of a one-year course in U.S. history or a half-year course in U.S. history and a half-year course in American government in high school. (UC Santa Barbara requires students to complete a college-level course). One, or a combination, of the following courses may fulfill this requirement: POLI 1, 1H, (HIST 17A, 17AH), (HIST 17B, 17BH), (HIST 17C, 17CH). Please check UC campus catalogs for more information, including other course options that may be available.

**AREA 5: PHYSICAL AND BIOLOGICAL SCIENCES**

At least 2 courses, including 1 Physical Science and 1 Biological Science; at least 1 must include a laboratory.

Courses with a laboratory are underlined.

**AREA 6: LANGUAGE OTHER THAN ENGLISH (UC Requirement Only)**

Students must demonstrate proficiency equivalent to two years of high school study in the same language. If requirement was met in high school, official transcripts must be on file at the De Anza College Admissions and Records Office. For more information on this requirement go to: deanza.edu/articulation/ge-uc-transfer.

Complete one of the following with a grade of “C” or better: FREN 2, 3, 4, 5, 6, GERM 2, 3, 4, 5, 6, HNDI 2, 3, ITAL 2, 3, JAPN 2, 3, 4, 5, 6, KORE 2, 2H, 3, 3H, MAND 2, 3, 4, 5, 6, PERS 2, 3, RUSS 2, 3, SIGN 2, 3, SPAN 2, 3, 4, 5, 6, VIET 2, 3, 4, 5, 6

**TOTAL UNITS FOR AREAS 1 - 6 (47-61 Quarter Units):**

- Courses may be added to IGETC mid-academic year. These will be highlighted and identified in bold print, followed by the effective start term in parentheses.
- Courses listed in more than one area can count in only one area.
- Indicates that transfer credit may be limited. See assist.org for more information.
- International Baccalaureate (IB) Exam does not fulfill the laboratory requirement in Area 5.
CERTIFICATE AND A.A./A.S. DEGREE PROGRAMS

Individual department curriculum sheets for certificate and degree programs are available in the Counseling and Advising Center and at deanza.edu/academics/degrees-and-certificates.html. Division offices often have the information available as well.

Students transferring to another college should complete as many of that college’s requirements as possible. Articulation agreements between De Anza and California public four-year institutions are available on the web at assist.org. Students should also contact a counselor or adviser for program planning from the catalog of the desired transfer institution and maintain regular contact prior to transfer.

Although care has been taken to ensure the accuracy of the information that follows, there may be unintended errors and changes or deletions without notification.

GENERAL REQUIREMENTS

To Earn a Certificate or Degree
1. Complete the course requirements listed.

Skills Certificate
Skills Certificates are issued by the individual departments and are not notated on official college transcripts. Contact the department directly for assistance and to apply.

Skills Certificate Requirements
Completion of all major courses with a C grade or higher.

Note: Each course must be completed at De Anza College.

Certificates of Achievement and Achievement-Advanced
Certificates of Achievement and Achievement-Advanced are awarded by the college and notated on official transcripts. Visit the Counseling and Advising Center to apply for these and for academic planning assistance.

Certificate of Achievement Requirements
Completion of all major courses with a C grade or higher.

Note: A maximum of six quarter units may be transferred from other academic institutions.

Certificate of Achievement-Advanced Requirements
1. Completion of all major courses with a C grade or higher.

2. Demonstrated proficiency in English and mathematics as evidenced by eligibility for EWRT 1A or EWRT 1AH or ESL 5 and eligibility for MATH 114.

Note: A maximum of 18 quarter units may be transferred from other academic institutions.

Associate Degree Requirements (A.A./A.S.)
1. Completion of all General Education (GE) requirements (32-43 quarter units) for the A.A./A.S. degree. GE units must be completed with a minimum 2.0 GPA (C average).

2. Completion of all major courses with a C grade or higher. Major courses can also be used to satisfy GE requirements (except for Liberal Arts degrees).

Note: A maximum of 22 quarter units from other academic institutions may be applied toward the major.

3. Completion of a minimum of 90 degree-applicable quarter units (GE and major units included). All De Anza courses must be completed with a minimum 2.0 GPA (C average). All De Anza courses combined with courses transferred from other academic institutions must be completed with a minimum 2.0 GPA (C average).

Note: A minimum of 24 quarter units must be earned at De Anza College.

Associate Degree for Transfer Requirements (A.A.-T./A.S.-T.)
1. Completion of all major courses with a C grade or higher. Major courses may be used to satisfy GE requirements.

2. Completion of either the California State University General Education-Breadth pattern (CSUGE) or the Intersegmental General Education Transfer Curriculum (IGETC) pattern in full; students transferring to CSU using IGETC must complete Area 1C.

3. Completion of a minimum of 90 CSU-transferable quarter units with a minimum overall GPA of 2.0 in all CSU-transferable units.

Note: While a minimum 2.0 GPA is required for admission to CSU, many majors or campuses require a higher GPA. Please consult with a counselor or academic adviser.

Note: A minimum of 18 degree-applicable quarter units must be earned at De Anza College.
ACCOUNTING

Accounting
Certificate of Achievement
In this program Business students gain accounting knowledge needed for an entry-level accounting position.

Program Learning Outcomes - upon completion, students will be able to:
• Demonstrate knowledge of double-entry accounting within financial and cost accounting systems for various business organizations.
• Prepare financial statements and report and analyze these statements to evaluate the financial structure of a firm and describe fundamental business concepts, while identifying ethical issues in accounting.

1. Meet the requirements for this certificate level.
2. Complete the following.

ACCT 1A             Financial Accounting I          5
or ACCT 1AH          Financial Accounting I - HONORS

ACCT 1B             Financial Accounting II         5
or ACCT 1BH          Financial Accounting II - HONORS

ACCT 1C             Managerial Accounting           5
or ACCT 1CH          Managerial Accounting - HONORS

ACCT 88             Excel Spreadsheets for Accounting 2

Complete a minimum of nine units: 9

ACCT 51A             Intermediate Accounting (5)
ACCT 51B             Intermediate Accounting (5)
ACCT 52              Advanced Accounting (5)
ACCT 58              Auditing (5)
ACCT 64              Payroll and Business Tax Accounting (4)
ACCT 66              Cost Accounting (5)
ACCT 67              Individual Income Taxation (5)
ACCT 68              Advanced Tax Accounting (5)
ACCT 73              Fraud Detection and Deterrence (5)
ACCT 74              Accounting Ethics (5)
ACCT 75              Accounting for Government and Nonprofit Entities (5)

ADMINISTRATION OF JUSTICE
Associate in Science in Administration of Justice for Transfer
A.S.-T. Degree
The Administration of Justice major consists of courses appropriate for an Associate in Science in Administration of Justice for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). Potential careers students may enter upon completion of this program include law enforcement, probation, parole or security. The Associate in Science in Administration of Justice for Transfer is intended for students who plan to complete a bachelor’s degree in Administration of Justice at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:
• Identify the responsibilities of each component of the criminal justice system.
• Analyze the issues and theories of ethical standards and unethical conduct that are unique to the criminal justice field.
• Construct a professional report of a crime utilizing report criteria.

2. Complete the following:

ADMJ 1 Introduction to Administration of Justice 4
also listed as POLI 10
ADMJ 3 Concepts of Criminal Law (CP 2) 4
also listed as PARA 3 and POLI 13

Complete three courses: 12

Cyber Forensics and Investigations
Certificate of Achievement-Advanced

Cyber crime detection, investigations and network security skills are increasingly in demand by firms and government agencies that are engaged in the collection and evaluation of evidence. By completing the Cyber Forensics and Investigations Certificate of Achievement-Advance program, students will acquire skills to protect data and intellectual property, develop protective solutions, conduct network intrusion investigations and detect violations by criminal, destructive and terrorist perpetrators. This certificate program will meet the needs of students who are seeking employment within the criminal justice system outside of the traditional law enforcement careers. In addition, this specialized knowledge will provide professional law enforcement and private investigative personnel with specialized skills to facilitate career advancement.

Program Learning Outcomes - upon completion, students will be able to:
• Identify the responsibilities of each component of the criminal justice system in relation to laws, investigations and rules of evidence.
• Describe cyber network components and application of technologies.
• Obtain skills to detect, retrieve digital data from and protect cyber systems from intrusion, data theft and corruption.
• Prepare to investigate illicit activities and deter intrusions within computer network systems.
• Prepare students for cyber security, hacking forensic investigator or examiner credentials.

Certificate of Achievement-Advanced

1. Meet the requirements for this certificate level.
2. Complete the following.

ADMJ 1 Introduction to Administration of Justice  
also listed as POLI 10 4
ADMJ 3 Concepts of Criminal Law (CP 2)  
also listed as PARA 3 and POLI 13 4
ADMJ 90A Legal Aspects of Evidence (CP 4)

ANTH 1L
**Art History**

**Certificate of Achievement-Advanced**

**A.A. Degree**

Completion of the Art History Certificate of Achievement-Advanced and A.A. degree provides students with a broad overview of the discipline of Art History from a global perspective. The program emphasizes visual literacy and research skills necessary for critical inquiry and analysis of art works, as well as knowledge of the technical processes of studio art relevant to the field of Art History.

**Program Learning Outcomes - upon completion, students will be able to:**

- Analyze artworks on the basis of social, cultural, political, economic and ethnic contexts and issues relevant to women's and gender studies.
- Demonstrate critical thinking and visual literacy skills through oral and written communication, including those used to analyze, evaluate and synthesize primary and secondary sources.
- Analyze artistic traditions through a cross-cultural perspective and in a global context.
- Apply technical processes of studio art in written assignments in the field of Art History.

**Certificate of Achievement-Advanced**

1. Meet the requirements for this certificate level.
2. Complete the following.

**Ceramics**

**A.A. Degree**

This degree provides foundation-level art and fundamental ceramics instruction. In the ceramics courses, students gain the experience necessary for entry-level positions and skills needed for ceramics study.

**Program Learning Outcomes - upon completion, students will be able to:**

- Demonstrate competency in hand and wheel forming techniques.
- Develop expertise in clay selection for different types of expression and surface embellishment.
- Demonstrate competency in advanced technical skills associated with ring techniques.
- Demonstrate loading and ring kilns for different temperature aesthetics and function.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

**Museum Studies**

**Skills Certificate**
Skills Certificates are issued by the individual departments and are not notated on official college transcripts. Please contact the department directly for assistance and to apply for Skills Certificates.

This Skills Certificate provides a foundation-level art and museum studies education. The Museum Studies courses emphasize the skills and knowledge necessary for entry-level employment in the museum and gallery field. A required internship provides practical experience, along with courses that include all aspects of design, installation and viewing of art exhibits in a museum and gallery environment.

**Program Learning Outcomes - upon completion, students will be able to:**
- Compare and contrast gallery and museum art exhibits in terms of history, culture and aesthetics.
- Demonstrate a working knowledge of gallery design, processes and procedures.
- Apply internship experience skills to art gallery or museum work environments.

1. Meet the requirements for this certificate level.
2. Complete the following.

**ARTS 1A** Introduction to the Visual Arts 4
**ARTS 4A** Beginning Drawing 4
**ARTS 4B** Intermediate Drawing 4
**ARTS 4C** Life Drawing 4
**ARTS 8** Two-Dimensional Design 4
**ARTS 12** Design and Color 4

**Complete one course:**
**ARTS 1A** Introduction to the Visual Arts (4)

**Painting**

**A.A. Degree**
This A.A. degree provides a comprehensive foundation in the areas of design, color theory, multiple painting processes, and professional software and hardware used by artists and designers. Students gain the skills and experience necessary to demonstrate a complete understanding of aesthetics, techniques and philosophy in the creative process.

**Program Learning Outcomes - upon completion, students will be able to:**
- Critically analyze and assess diverse historical and contemporary works of art, architecture and design.
- Create art that engages and builds on historical and contemporary practices, theories and materials.
- Translate concepts and visual experience into images and tactile forms.
- Present finished artwork for peer, professional or academic review.
- Evaluate and critique artwork and receive criticism from others.
- Express artistic concepts and intents in written and oral formats.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

**ARTS 4A** Beginning Drawing 4
**ARTS 4B** Intermediate Drawing 4
**ARTS 4C** Life Drawing 4
**ARTS 8** Two-Dimensional Design 4
**ARTS 12** Design and Color 4

**Sculpture**

**A.A. Degree**
This degree offers a comprehensive foundation in three-dimensional design, sculpture and furniture design. Students acquire the knowledge and technical skills which are applicable to the other fields of study, including studio art production, product design, museum work, architectural design and model making.

**Program Learning Outcomes - upon completion, students will be able to:**
- Explore and develop individual ideas by drawing and creating original works of art while incorporating advanced sculpture techniques.
- Create a body of work or develop a portfolio which is reflective of their coursework in preparation for further studies.
- Demonstrate advanced critical thinking and problem solving skills during each phase of the sculpture making process.
• Use specific tools expertly in working with a variety of sculpture materials and techniques.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following:

### Spatial Art

**A.A. Degree**

The Spatial Art Degree will help De Anza students smoothly transfer to San José State University's third-year Spatial Art Program. The acquired knowledge may be transferred into areas such as teaching, studio art production, product design, museum work, architectural design and model making.

Program Learning Outcomes - upon completion, students will be able to:

- Demonstrate competency in hand- and wheel-forming techniques.
- Develop expertise in clay selection for different types of expression and surface embellishment.
- Demonstrate competency in advanced technical skills associated with ring techniques.
- Demonstrate loading and ring kilns for different temperature aesthetics and function.
- Emphasize idea development, visual investigation and the sculpture making process on an advanced level.
- Practice critical thinking and problem solving skills.
- Employ materials appropriate to advanced sculptural work.
- Apply knowledge of safe and proper use of all shop tools.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following:

### AUTOMOTIVE TECHNICIAN

An evening, in-service program for practicing apprentices and technicians, auto enthusiasts and students seeking to enter the automotive technician workforce.

**Automotive General Service Technician Certificate of Achievement**

This Certificate of Achievement prepares a student for employment as an entry-level technician performing vehicle inspections, new car preparation and general automotive maintenance.

Program Learning Outcomes - upon completion, students will be able to:

- Perform basic engine service, cooling system maintenance and battery testing.
- Perform tire service including balancing, disc and drum brake service, and basic front and rear suspension service.
**Certificate of Achievement**
1. Meet the requirements for this certificate level.
2. Complete the following.

Automotive Powertrain Technology

Certificate of Achievement

This Certificate of Achievement helps prepare students for an entry-level position in the automotive repair industry in automotive transmission and differential.

Program Learning Outcomes - upon completion, students will be able to:
• Demonstrate knowledge of the overall operation of an automotive transmission and differential.

1. Meet the requirements for this certificate level.
2. Complete the following.

Automotive Powertrain Technology

Certificate of Achievement-Advanced

A.S. Degree

This Certificate of Achievement-Advanced and A.S. degree prepares students with advanced skills for an entry-level position in automotive transmission and differential repair.

Program Learning Outcomes - upon completion, students will be able to:
• Demonstrate knowledge of the overall operation of an automotive transmission and differential.
• Identify the basic electrical circuits and diagnose automotive electrical systems.
• Apply the basic principles of physics as they work in the automotive industry.

1. Meet the requirements for this certificate level.
2. Complete the following.

Smog Technician

Certificate of Achievement

This Certificate of Achievement prepares students for an entry-level position in the automotive repair industry performing California state smog inspections.

Program Learning Outcomes - upon completion, students will be able to:
• Perform a complete California state smog inspection.

1. Meet the requirements for this certificate level.
2. Complete the following.

Automotive Powertrain Technology

Certificate of Achievement-Advanced

A.S. Degree

An entry-level program for full-time day students

Advanced Automotive Technology

Certificate of Achievement

This Certificate of Achievement prepares students for an entry-level position in the automotive repair industry in advanced automotive electrical and environmental concepts.

Program Learning Outcomes - upon completion, students will be able to:
• Demonstrate understanding of general advanced automotive electrical/environmental concepts as they relate to automotive service, diagnosis and repair.

1. Meet the requirements for this certificate level.
2. Complete the following.

<table>

Automotive Technology

Certificate of Achievement-Advanced (Options A - C)
Complete the course requirements for the certificate option of your choice.

Option A: Automotive Machining and Engine Repair
This Certificate of Achievement-Advanced prepares students for an entry-level position in the automotive repair industry in engine diagnostics.

Program Learning Outcomes - upon completion, students will be able to:

- Demonstrate an application of four-stroke engine theory, basic safe machining practices, estimates and repair orders and engine assembly.
- Identify basic electrical circuits and diagnose automotive electrical circuit systems.
- Apply the basic principles of physics as they work in the automotive industry.
- Demonstrate knowledge of the job procurement process and hazardous materials handling in the automotive industry.

1. Meet the requirements for this certificate level.
2. Complete the following.

Option C: Automotive Chassis and Powertrain
This Certificate of Achievement-Advanced prepares students for an entry-level position in the automotive repair industry.

Program Learning Outcomes - upon completion, students will be able to:

- Perform undercar inspections and repair suspension, steering, hydraulic and active braking systems.
- Demonstrate overall operation of an automotive transmission and differential as it relates to service, diagnosis and repair.
- Identify basic electrical circuits and diagnose automotive electrical circuit systems.
- Apply the basic principles of physics as they work in the automotive industry.
- Use written and oral communication skills to write repair orders and speak with customers.

1. Meet the requirements for this certificate level.
2. Complete the following.

Major
Complete the Cert. of Achievement-Advanced requirements,
Option A, B or C 44-50
GE General Education (32-43 units)
Electives Elective courses required when major units plus GE units total is less than 90
Total Units Required .................................... 90

Recommended
One year of automotive educational experience (high school, ROP or De Anza's AUTO 50 series).

**BIOLOGICAL SCIENCES**

**Biological Sciences**

**A.S. Degree**
The purpose of the Biological Sciences A.S. Degree is to provide a lower-division science foundation for those interested in pursuing a bachelor's degree in Biology or Biological Sciences. This major prepares students for transfer to any University of California or California State University campus. A major in Biological Sciences prepares students for advanced academic work and for careers in civil service, industry or teaching. It also provides a background for professional training in such fields as biotechnology, public health, nutrition, laboratory and field research, medicine, dentistry, pharmacy and veterinary medicine.

Program Learning Outcomes - upon completion, students will be able to:
- Design and complete a biological research project applying scientific methods.
- Correlate structure and function in biological systems.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

**BUSINESS ADMINISTRATION**

**Associate in Science in Business Administration for Transfer**

**A.S.-T. Degree**
The Business Administration major consists of courses appropriate for an Associate in Science in Business Administration for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). Potential careers students may enter upon completion of this program include: payroll administrator, warehouse associate, accounts receivable administrator, accounts payable administrator, retail sales, customer service, executive assistant or contracts administrator. The Associate in Science in Business Administration for Transfer is intended for students who plan to complete a bachelor's degree in Business Administration at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.
Program Learning Outcomes - upon completion, students will be able to:

- Explain the interactions among the primary functions within business (such as marketing, management, operations, human resources, accounting, finance and business law) to achieve organizational goals.

2. Complete the following.

It is highly recommended that students take BUS 10 before other Major Requirements.

**ACCT 1B** Financial Accounting II 5
or **ACCT 1BH** Financial Accounting II - HONORS 5
**ACCT 1C** Managerial Accounting 5
or **ACCT 1CH** Managerial Accounting - HONORS 5
**BUS 18** Business Law I 5
**ECON 1** Principles of Macroeconomics 4
or **ECON 1H** Principles of Macroeconomics - HONORS 4
**ECON 2** Principles of Microeconomics 4
or **ECON 2H** Principles of Microeconomics - HONORS 4

**Complete one course:** 5

- **MATH 10** Introductory Statistics (5)
  or **MATH 10H** Introductory Statistics - HONORS (5)
- **MATH 11** Finite Mathematics (5)
- **MATH 12** Introductory Calculus for Business and Social Science (5)

**Complete two courses:** 9.5

- **BUS 10** Introduction to Business (5)
- **CIS 3** Business Information Systems (4.5)
  or **CIS 4** Computer Literacy (4.5)

**Major Transfer GE**
- **CSUGE or IGETC for CSU pattern (47-61 units)**

**Electives**
- CSU-transferrable elective courses required when the major units plus transfer GE units total is less than 90

**Total Units Required** 23-25

The Certificate of Achievement in Business Administration can be earned by taking all required courses online. Some online courses may require on-campus participation in meetings, class events or exams, as detailed in the quarterly class listings.

Business Administration

**Certificate of Achievement**

The Business Administration Certificate of Achievement introduces the fundamental concepts and practices of business. Students obtain a basic understanding of the operation, methods and purpose of each of the major functional areas within business: management, human resources, operations, marketing, accounting and finance. Students also learn business law fundamentals.

Program Learning Outcomes - upon completion, students will be able to:

- Distinguish and explain the primary functions within business such as management, human resources, business law, operations, marketing, accounting and finance.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

**ACCT 1A** Financial Accounting I 5
or **ACCT 1AH** Financial Accounting I - HONORS 5
**BUS 10** Introduction to Business 5
**BUS 18** Business Law I 5

**Complete two courses:** 8-10

- **BUS 21** Business and Society (5)
- **BUS 54** Business Mathematics (5)
- **BUS 55** Introduction to Entrepreneurship (5)
- **BUS 56** Human Relations in the Workplace (5)
- **BUS 57** Human Resource Management (4)
- **BUS 58** The Business Plan (4)
- **BUS 60** International Business Management (5)
- **BUS 65** Leadership (5)
- **BUS 70** Principles of E-Commerce (5)
- **BUS 87** Introduction to Selling (4)
- **BUS 89** Advertising (5)
- **BUS 90** Principles of Marketing (5)
- **BUS 96** Principles of Management (5)
- **CIS 3** Business Information Systems (4.5)

**Total Units Required** 23-25

Business Administration

**A.A. Degree**

The A.A. degree in Business Administration is a general business degree for those who want to pursue any of the numerous career possibilities in the field of business such as customer service/support representative, warehouse/distribution supervisor, payroll clerk/administrator, accounts receivable clerk, collections analyst, executive assistant or contracts administrator. This degree provides students with an understanding of basic business practices, including operations, methods and purpose, and an introduction to the major functional areas within business.

Program Learning Outcomes - upon completion, students will be able to:

- Explain the interactions among the primary functions within business (such as marketing, management, operations, human resources, accounting, finance and business law) to achieve organizational goals.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

**ACCT 1A** Financial Accounting I 5
or **ACCT 1AH** Financial Accounting I - HONORS 5
**ACCT 1B** Financial Accounting II 5
or **ACCT 1BH** Financial Accounting II - HONORS 5
**ACCT 1C** Managerial Accounting 5
or **ACCT 1CH** Managerial Accounting - HONORS 5
**BUS 10** Introduction to Business 5
**BUS 18** Business Law I 5
**BUS 56** Human Relations in the Workplace 5
**BUS 60** International Business Management 5
**BUS 90** Principles of Marketing (5)
**BUS 96** Principles of Management (5)
**CIS 3** Business Information Systems 4.5
**Major**

**Business Administration** 49.5

**GE**

General Education (32-43 units)

**Electives**

Elective courses required when major units plus GE units total is less than 90

Total Units Required ....................................90

**Recommended**

BUS 21, 54, 55, 57, 58, 65, 70, 85, 87, 89, 91, 94
COMM 70, 70H
ECON 1, 1H, 2, 2H
ESL 6
EWRT 1B, 1BH, 2, 2H
MATH 10, 10H

**Business Information Worker**

**Certificate of Achievement**

The Business Information Worker (BIW) Certificate of Achievement is designed to prepare students for entry-level office and administrative support in a variety of job positions, including general office clerks, retail salespersons, customer service representatives, receptionists and information clerks.

**Program Learning Outcomes - upon completion, students will be able to:**

• Use computer input devices to properly and efficiently create and edit documents in word processing and spreadsheet programs, and in electronic communications systems such as email.

• Work effectively, respectfully, ethically and professionally with people of diverse ethnic and cultural backgrounds, and diverse social affiliations and personalities, filling a variety of organizational roles.

• Communicate effectively and professionally in business situations through writing, speaking and electronic media.

1. Meet the requirements for this certificate level.
2. Complete the following.

BUS 54 Business Mathematics 5
BUS 56 Human Relations in the Workplace 5
BUS 85 Business Communication 3
CIS 3 Business Information Systems 4.5
CIS 4 Computer Literacy 4.5
CIS 99 Office Software Applications 4.5

Total Units Required ....................................26.5

**Entrepreneurship**

**Certificate of Achievement**

Students pursuing the Certificate of Achievement in Entrepreneurship are taught the fundamentals of small business administration and business planning. The certificate is designed to prepare students for the challenges they are likely to encounter in starting and maintaining a small business.

**Program Learning Outcomes - upon completion, students will be able to:**

• Critically evaluate business plans and describe the processes required to start, operate and measure the results of a small business.

1. Meet the requirements for this certificate level.
2. Complete the following.

BUS 55 Introduction to Entrepreneurship 5
BUS 58 The Business Plan 4

**Complete three courses:** 15
BUS 60 International Business Management (5)
BUS 65 Leadership (5)
BUS 70 Principles of E-Commerce (5)
BUS 90 Principles of Marketing (5)
BUS 94 Promoting Your Business with Social Media (5)

Total Units Required ....................................24

**Management Information Systems Support**

**Certificate of Achievement**

The Certificate of Achievement in MIS Support prepares students for employment within business as an MIS Support Specialist. Students will be introduced to the primary functions of a business, professional conduct, and concepts in software programming, business information systems and computer support. The courses incorporated in this certificate program are also transferrable toward a Bachelor of Science degree in Business Administration, with a concentration in Management Information Systems.

**Program Learning Outcomes - upon completion, students will be able to:**

• Communicate effectively with business professionals, understand fundamental programming concepts, and track computer systems problems related to a variety of technical areas, such as software applications, database management systems, web sites and computer security.

1. Meet the requirements for this certificate level.
2. Complete the following.

BUS 10 Introduction to Business 5
BUS 56 Human Relations in the Workplace 5
CIS 3 Business Information Systems 4.5

**Complete one course:** 4.5
CIS 36A Introduction to Computer Programming Using Java (4.5)
CIS 40 Introduction to Programming in Python (4.5)

**Complete one course:** 4.5-5
BUS 70 Principles of E-Commerce (5)
BUS 94 Promoting Your Business with Social Media (5)
CIS 64A Database Management Systems (4.5)
CIS 108 Personal Computer Security Basics (4.5)

Total Units Required ....................................23.5-24

▼ The Certificate of Achievement in Entrepreneurship can be earned by taking all required courses online. Some online courses may require on-campus participation in meetings, class events or exams, as detailed in the quarterly class listings.
Certification Requirements

In order to obtain a Child Development Certificate of Achievement, students must complete each of the following requirements:

- Complete a minimum of 90 units
- No more than 80 units can be transferred
- A minimum GPA of 2.0 is required
- Completing a minimum of 18 units in Child Development courses

Program Learning Outcomes - upon completion, students will be able to:

- Synthesize child development research with principles and practices for early childhood teaching to create early learning environments that are respectful, supportive and challenging for all children, from infancy through childhood.
- Design inclusive, culturally and linguistically appropriate learning environments, based on child development, child observations, family information and knowledge of culturally diverse child rearing practices.
- Incorporate strategies for building respectful, reciprocal family and community relationships in order to support families with their children’s development and learning.
- Assess children’s learning through observation, documentation and interpretation, using results to guide curriculum and teaching strategies.
- Recommend developmentally appropriate and culturally relevant approaches to teaching and learning that include respectful, supportive relationships with children and families, and curriculum that support foundational skills and concepts in language, math, science, art, and social relationships.
- Demonstrate practices that maintain standards of health, nutrition and safety in group care early childhood settings.
- Apply ethical standards of behavior accepted by the profession of early childhood education.

2. Complete the following.

**CD 10H**  Child Growth and Development (Middle Childhood and Adolescence)  
(also listed as PSYC 10H)  
4

**CD 12**  Child, Family and Community Interrelationships  
4

**CD 50**  Principles and Practices of Teaching Young Children  
4

**CD 51A**  Basic Student Teaching Practicum  
5

**CD 52**  Observation and Assessment of Children  
4

**CD 54**  Curriculum for Early Childhood Programs  
4

**CD 64**  Health, Safety, and Nutrition for the Young Child  
4

**CD 68**  Teaching in a Diverse Society  
4

*CD 50, 51A, 52, 54, 64 and 68 must be taken fall 2013 or later to apply.

**Total Units Required**: 90
Child Development Certificate of Achievement-Advanced

This vocational training program prepares future early childhood workers and educators to work with diverse children in early childhood settings. The program includes academic instruction, job skills training, field experiences and civic and community engagement skills. Students learn to integrate developmentally appropriate practices and apply them to curriculum design for teaching young children. They also learn how to build culturally responsive partnerships with children and families. The Certificate of Achievement-Advanced is designed to meet the Child Development course requirements for a Child Development Teacher Permit. The permit also requires 24 quarter units (equivalent of 16 semester units) of General Education courses.

Program Learning Outcomes - upon completion, students will be able to:

• Recognize the importance of community engagement and their role as local, national, and global advocates for children, families, and the community.
• Integrate developmentally appropriate practices and apply them to curriculum design for teaching young children.
• Demonstrate skills in building culturally responsive partnerships with children and families.

1. Meet the requirements for this certificate level.
2. Complete the following.

Current Infant and Child CPR/First Aid Certificate required.

CD 10G Child Development (The Early Years) 4
also listed as PSYC 10G
CD 12 Child, Family and Community Interrelationships 4
CD 50 Principles and Practices of Teaching Young Children 4

Complete a minimum of nine units: 9
CD 10H Child Growth and Development (Middle Childhood and Adolescence) (4)
also listed as PSYC 10H
CD 52 Observation and Assessment of Children (4)
CD 53 Creative Art for the Young Child (3)
CD 54 Curriculum for Early Childhood Programs (4)
CD 55 Literacy Development and Activities for the Young Child (3)

Child Development
A.A. Degree
The A.A. degree vocational training program prepares future early childhood workers and educators to work with diverse children in early childhood settings. The program prepares students for entry-level careers or entrance into a bachelor’s degree program in Child Development studies. The degree program focuses on integrating developmentally appropriate knowledge and practice, and developing professional competencies and job skills. Students learn how to build partnerships with local, national and international resource organizations in order to advocate effectively for the needs of children and families. The degree fulfills the Child Development course requirements to qualify for the Child Development Permit Site Supervisor on the California Child Development Matrix. Students who wish to qualify as a site supervisor must also take CD 59G “Supervision and Administration of Child Development Programs (Management Systems)”, CD 59H “Supervision and Administration of Child Development Programs (Leadership Skills)” and CD 67 “Supervision and Administration of Child Development Programs (Adult Supervision)”.

Program Learning Outcomes - upon completion, students will be able to:
- Demonstrate the ability to work in a variety of settings with children and families with a commitment to uphold ethical standards.
- Build partnerships with local, national and international resource organizations in order to advocate effectively for the needs of children and families.
- Integrate developmentally appropriate practices and their application to teaching young children.
- Demonstrate skills in building relationships with children and families.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

Current Infant and Child CPR/First Aid Certificate required.

Early Childhood Mental Health Certificate of Achievement
De Anza College’s Child Development and Education Department developed the Early Childhood Mental Health Certificate of Achievement to train mental health professionals at the entry and advanced level, ECE educators at the beginning and advanced level, and professionals working in early education, mental health and community services settings or programs. Certificate requirements include student participation in field experiences with community-based, early childhood mental health programs. Students develop skills to work with both children and their families. The Certificate of Achievement is designed to meet Child Development course requirements for a Child Development Master Teacher level as specialization units. The Child Development Master Teacher permit requires 36 quarter units (equivalent to 24 semester units) ECE/CD including core courses. The permit also requires 24 quarter units (equivalent to 16 semester units) of General Education courses plus 3 quarter units (equivalent to 2 semester units) of adult supervision.

Program Learning Outcomes - upon completion, students will be able to:
- Demonstrate the ability to work in a variety of settings with children and families with a commitment to uphold ethical standards.
• Recognize the importance of community engagement and their role as local, national and global advocates for children, families and the community.
• Integrate early childhood mental health practices to support the development of social and emotional skills in young children.
• Demonstrate skills in building relationships with children and families.

1. Meet the requirements for this certificate level.
2. Complete the following.

**Early Intervention/Special Education Assistant**

**Certificate of Achievement-Advanced**

This vocational training program prepares future early childhood workers and educators to work with children with disabilities and special needs in public and private early intervention, special education and educational settings that serve typical and atypical developing young children and their families. Students are taught practical skills in early intervention and early childhood special education from a culturally responsive perspective. Students learn to integrate early intervention/special education practices and apply them to teaching young children with special needs. Certificate requirements include student participation in field experiences with community-based, inclusive educational programs. The Certificate of Achievement-Advancement prepares students for two career paths: early intervention assistant and early childhood teacher. It is the equivalent of the Teacher level permit on the California Child Development Matrix. The Teacher level permit also requires 24 quarter units (equivalent of 16 semester units) of General Education courses.

**Program Learning Outcomes - upon completion, students will be able to:**
• Demonstrate the ability to work in a variety of settings with children and families with a commitment to uphold ethical standards.
• Recognize the importance of community engagement and their role as local, national and global advocates for children, families and the community.
• Integrate early intervention/special education practices and their application to teaching young children with special needs.
• Demonstrate skills in building relationships with children and families.

1. Meet the requirements for this certificate level.

**Trauma Informed Care**

**Skills Certificate**

De Anza College’s Child Development and Education developed the Trauma Informed Care Skills Certificate to train early childhood practitioners working in early education and in Family, Friends and Neighbors programs. Certificate requirements include student participation in field experiences with community based programs. Students develop skills to work with both children and families who have experienced trauma. The Skills Certificate is designed to meet Child Development course requirements for a Child Development Master Teacher as specialization units. The Child Development Master Teacher permit requires 36 quarter units (equivalent to 24 semester units) in Early Childhood Education/Child
Development including core courses. The certificate is also aligned with the Infant-Family and Early Childhood Mental Health professional endorsement: Reflective Practice Facilitator I and Transdisciplinary Infant-Family and Early Childhood Mental Health Practitioner.

Program Learning Outcomes - upon completion, students will be able to:
- Increase knowledge of trauma in Early Childhood Education, understand the key universal trauma-informed strategies and apply strategies in a wide range of early childhood settings.

1. Meet the requirements for this certificate level.
2. Complete the following.

Communication Studies Certificate of Achievement
Students earning the communication studies certificate of achievement learn the fundamentals of the discipline, which includes public speaking, group communication, interpersonal communication, organizational communication, mass communication, argumentation and critical thinking. This program helps students communicate effectively in their academic and work environments.

Program Learning Outcomes - upon completion, students will be able to:
- Design and relate messages clearly and confidently.
- Use a range of speaking, listening and collaboration skills.
- Think and engage critically in a wide range of discourse.
- Use communication for academic and career advancement.

1. Meet the requirements for this certificate level.

Communication Studies

A.A. Degree

De Anza's A.A. degree in Communication Studies provides a foundational understanding of the discipline and a breadth of coursework that can transfer toward a bachelor's degree in Communication Studies. Students develop knowledge and skills in expressing ideas verbally and non-verbally; learn to interpret, advocate and critically debate ideas; work productively in teams and groups; examine the role of culture in communication; and demonstrate the communication skills necessary to engage in personal, professional, civic and social relationships.

In addition to core coursework, students are required to declare a specialty area that allows them to make interdisciplinary connections and explore specific areas of interest. Contact a full-time Communication Studies instructor to create a specialty area of study (minimum 12 units) at least two quarters prior to completing your course of study. Your specialty area description with signed approval from the Communication Studies Department must accompany your application for the A.A. degree.

Program Learning Outcomes - upon completion, students will be able to:

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

Complete one course:

Total Units Required: 19-20

Note: Up to four units from COMM 77 and 78 series courses may apply.

*High demand courses with limited quarterly offerings. Students should plan accordingly to ensure timely program completion.
**Computer Information Systems**

**Associate in Science in Computer Science for Transfer**

**A.S.-T. Degree**

The Computer Science major consists of courses appropriate for an Associate in Science in Computer Science for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). It is a starting point for students who are preparing for careers in software engineering, network administration and data base management, where scientific and technical skills are in great demand. It also provides a foundation for majors in physical science, math and engineering. The Associate in Science in Computer Science for Transfer is intended for students who plan to complete a bachelor's degree in Computer Science at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

**Program Learning Outcomes - upon completion, students will be able to:**

- Create, design, implement and debug solutions for computing systems of different levels of complexity using an object orientated language.
- Create, design, implement and debug solutions for low-level systems using assembly language.

2. Complete the following.

**Database Design**

**Database Design for Developers (Oracle)**

**Certificate of Achievement**

The Database Design for Developers Certificate of Achievement includes database management system fundamentals, SQL, PL/SQL and performance tuning. Students become proficient in organizing essential information and abstract relationships into a database. They also learn to update, maintain and repair databases and improve database performance. Database skills are applied by software engineers, business analysts, database architects, database administrators, database designers and reporting analysts.

**Program Learning Outcomes - upon completion, students will be able to:**

- Prepare and review a database design that includes logical and system representations.
- Design, code and debug SQL and PL/SQL programs.
- Apply performance tuning techniques to large-scale database applications.
- Create, design and debug intermediate level programs with basic C programming language.
- Create a database that is optimized to meet defined technical requirements.

1. Meet the requirements for this certificate level.
2. Complete the following.

Enterprise Security

Enterprise Security Professional
Certificate of Achievement
This Certificate of Achievement prepares students to become Enterprise Security Technicians in a networking environment. In this program, students learn network security basics, emergency response planning, internet protocols, and more advanced-level security policies and procedures, network monitoring, and risk analysis and assessment based on network security.

Program Learning Outcomes - upon completion, students will be able to:
• Describe network components, protocols, architectures and the application of current communication and networking technologies.
• Define properties of all modern network types.
• Detect and stop security breaches in network and application layers.
• Help organizations increase awareness of security policies and procedures.

1. Meet the requirements for this certificate level.
2. Complete the following.

Prerequisite/Corequisite: 4.5
CIS 108  Personal Computer Security Basics 4.5

Requirements: 18
CIS 18A  Introduction to Unix/Linux 4.5
CIS 56  Network Security 4.5
CIS 102  Ethical Hacking 4.5
CIS 170F  Windows Administration 4.5

Complete one course: 5
CIS 66*  Introduction to Data Communication and Networking (5)
CIS 75A*  Internet Concepts and TCP/IP Protocols (5)

Complete one course: 4.5
CIS 104  Digital Forensics and Hacking Investigation (4.5)
CIS 105  Cloud Security Fundamentals (4.5)
Total Units Required,
Incl. Prerequisite ......................................32

*Based on previous experience or knowledge, students may substitute another CIS course of equal or greater unit value with departmental approval.

Enterprise Security Professional
A.A. Degree
The A.A. degree program offers students the opportunity to study information security principles and theories that focus on asset protection. In this program, students learn network security basics, security policies and procedures, network monitoring and risk analysis and assessment based on network security. Students in this program can pursue either a general course of study or a concentration in information security. Graduates find employment in general public or private management, federal or local government civil service, military service, law enforcement and private security.
Network Administration

Certificate of Achievement

This Certificate of Achievement offers studies in overseeing and maintaining Windows systems as part of a network enterprise. Students become proficient in running administrative processes on a Windows operating system. Focus is placed on organization, security and upkeep decisions as part of a larger business environment.

Program Learning Outcomes - upon completion, students will be able to:

- Identify computer hardware and networking components in the context of micro computers and various types of network operating systems, architectures and protocols.
- Develop and present a business improvement plan using the business decision making model and utilizing software applications in word processing, spreadsheets, or databases.

1. Meet the requirements for this certificate level.
2. Complete the following.

Programming/Network Programming

Business Programming

Certificate of Achievement-Advanced

A.A. Degree

The Business Programming Certificate of Achievement-Advanced and A.A. degree programs create programming-savvy entrepreneurs who can make decisions about finances and technology, and who understand how to run an enterprise from both the technology and business perspectives. This programs teach skills combined from business and programming that enable a more in-depth
view into the technology necessary to run a business in the 21st century.

Program Learning Outcomes - upon completion, students will be able to:
• Analyze business requirements and architect, design and develop distributed business applications that meet these requirements to the level of user interfaces, algorithms, design patterns, security and storage strategies.

Certificate of Achievement-Advanced
1. Meet the requirements for this certificate level.
2. Complete the following.

ACCT 1A    Financial Accounting I 5
or ACCT 1AH    Financial Accounting I - HONORS 5
BUS 10    Introduction to Business 5
CIS 14A    Visual Basic .NET Programming I 4.5
CIS 22A    Beginning Programming Methodologies in C++ 4.5
CIS 22B    Intermediate Programming Methodologies in C++ 4.5
or CIS 22BH    Intermediate Programming Methodologies in C++ - HONORS 4.5
CIS 28    Object Orientated Analysis and Design 4.5
CIS 64A    Database Management Systems 4.5

Complete one course: 3-4.5
CIS 56    Network Security (4.5)
CIS 75D    Enterprise Security Policy Management (3)

Complete one course: 4.5
CIS 22C    Data Abstraction and Structures (4.5)
or CIS 22CH    Data Abstraction and Structures - HONORS (4.5)
CIS 29    Advanced C++ Programming (4.5)
CIS 63    Systems Design (4.5)

Complete one course: 4-5
ACCT 86    Computer Accounting Systems (5)
CIS 3    Business Information Systems (4.5)
CIS 67A    Local Area Networks (4)
CIS 95A    Project Management - A Practicum (5)
CIS 95F    Managing Cloud Projects (4)

Total Units Required ................................. 44-46.5

A.A. Degree
Major    Complete the Cert. of Achievement-Advanced requirements 44-46.5
GE    General Education (32-43 units)
Electives    Elective courses required when major units plus GE units total is less than 90

Total Units Required ................................. 90

Check with the CIS department about the recommended sequence for completing the above courses.

Network Basics
Certificate of Achievement
The Network Basics Certificate of Achievement prepares students for entry-level employment as a computer support or network technician. Students are introduced to programming, networking and Internet protocols. This certificate program also gives students a foundation for further study in either network administration or programming.

Program Learning Outcomes - upon completion, students will be able to:
• Create algorithms to solve introductory-level problems using C programming language through the stages of coding, documenting, debugging, reading and testing with various tools.
• Identify networking components and protocols in the context of architectures and technologies for LAN, WAN and Internet networks.

1. Meet the requirements for this certificate level.
2. Complete the following.

CIS 22A    Beginning Programming Methodologies in C++ 4.5
CIS 66    Introduction to Data Communication and Networking 5
CIS 67A    Local Area Networks 4
CIS 75A    Internet Concepts and TCP/IP Protocols 5

Total Units Required ................................. 18.5

Network Programming
Certificate of Achievement-Advanced
A.A. Degree
The Certificate of Achievement-Advanced and A.A. degree give students a foundation for either employment or further study in the field of network programming. The curriculum offers students an introduction to computer programming, networking and Internet protocols. Advanced topics include data structures, advanced computer programming, Internet programming with TCP/IP and UNIX/LINUX utilities and shell features for file manipulation and communication.

Program Learning Outcomes - upon completion, students will be able to:
• Design solutions for advanced network problems creating distributed programs using Transmission Control Protocol and Internet Protocol.
• Create algorithms and code, document, debug and test advanced-level C programs using multiple source and header files.
• Use UNIX/LINUX utilities and shell features for file manipulation and communication.

Certificate of Achievement-Advanced
1. Meet the requirements for this certificate level.
2. Complete the following.

CIS 22A    Beginning Programming Methodologies in C++ 4.5
CIS 66    Introduction to Data Communication and Networking 5
CIS 67A    Local Area Networks 4
CIS 75A    Internet Concepts and TCP/IP Protocols 5

Total Units Required ................................. 18.5

The Certificate of Achievement in Network Basics can be earned by taking all required courses online. Some online courses may require on-campus participation in meetings, class events or exams, as detailed in the quarterly class listings.

**Programming in Java**

**Certificate of Achievement**

This Certificate of Achievement gives students the knowledge and skills necessary to develop for client/server, web and mobile environments. Organizations running networks on private and public clouds, which pass information among desktop, server and mobile devices, count on Java as a general-purpose, object-oriented solution to fulfill the development requirement of applications. The flexible nature of the language is driving the demand for trained Java programmers.

Program Learning Outcomes - upon completion, students will be able to:

- Read, analyze and debug code using Core Java.
- Design solutions using object-oriented programming constructs and advanced concepts in the Java Development Kit.
- Design Java programs for the Android platform.
- Create, design and debug advanced-level programs with Java language.

1. Meet the requirements for this certificate level.
2. Complete the following.

Total Units Required .................................... 22.5

**Programming in Perl**

**Certificate of Achievement**

The Programming in Perl Certificate of Achievement certifies that the student can create Perl programs. Perl is a continuously developing language, designed for practical management of...
important server systems. Perl programming is a key skill used in server processing, web host processing and integrating multiple subsystems. Students develop basic knowledge of Perl, which enables them to match interfaces of web protocol subsystems, the operating system and database subsystems.

**Program Learning Outcomes - upon completion, students will be able to:**

- Read, analyze and explain intermediate-level C programs.
- Design solutions for intermediate-level problems using appropriate design methodology incorporating intermediate programming constructs.
- Create algorithms and code, document, debug and test intermediate-level C programs.
- Use the UNIX/LINUX Operating System utilities and shell features for basic file manipulation, networking and communication.
- Design, code, document, analyze, debug and test advanced-level Perl programs that include object-oriented Perl modules and access to database, TCP/IP and system processes.

1. Meet the requirements for this certificate level.
2. Complete the following.

**Systems Programming Certificate of Achievement-Advanced A.A. Degree**

Students pursuing the Systems Programming Certificate of Achievement-Advanced or A.A. degree learn computer programming fundamentals of both low-level and high-level languages and gain computing experience on both Windows and Linux platforms.

**Program Learning Outcomes - upon completion, students will be able to:**

- Create a design, implement and debug solutions for computing systems of different levels of complexity using C and C++.
- Create, design, implement and debug solutions for embedded systems such as 8086/IA32 processor using Assembly Language.
- Use UNIX/LINUX utilities and shell features for file manipulation and communication.

**Certificate of Achievement-Advanced**

1. Meet the requirements for this certificate level.
2. Complete the following.

Check with the CIS department about the recommended sequence for completing the above courses.

UNIX/LINUX Operating System
Certificate of Achievement
Students pursuing the UNIX/LINUX Operating System Certificate of Achievement learn the fundamentals of the UNIX/LINUX OS, ranging from text file manipulation, job control and communication to implementation of shell scripts to automate tasks.

Program Learning Outcomes - upon completion, students will be able to:
- Use UNIX/LINUX utilities and shell features for file manipulation, job control and communication.
- Create algorithms and code, document, debug and test shell scripts that interact with the UNIX/LINUX Operating System.

1. Meet the requirements for this certificate level.
2. Complete the following.

CIS 18A  Introduction to Unix/Linux  4.5
CIS 18B  Advanced Unix/Linux  4.5
CIS 18C  Bash Scripting  4.5
CIS 22A  Beginning Programming Methodologies in C++  4.5
CIS 22B  Intermediate Programming Methodologies in C++  4.5
CIS 22BH  Intermediate Programming Methodologies in C++ - HONORS  4.5

Total Units Required .......................... 22.5

Visual Basic Programming
Certificate of Achievement
The Visual Basic Certificate of Achievement prepares students for entry-level positions such as: Visual Basic developer, .NET developer and web database developer. Additionally, students will enhance their skills in working with spreadsheets and databases. These skills can be applied to degrees in MIS, web development or any associated area.

Program Learning Outcomes - upon completion, students will be able to:
- Develop and present a plan for improving a business using the business decision making model utilizing hardware and software applications such as word processing, spreadsheets or databases.
- Design, create and debug an application incorporating class modules, bas modules, multiple forms and database updating.
- Design, create and debug a Web application using ASP.NET 3.5.

1. Meet the requirements for this certificate level.
2. Complete the following.

ACCT 86  Computer Accounting Systems  5
CIS 3  Business Information Systems  4.5
CIS 14A  Visual Basic .NET Programming I  4.5
CIS 14B  Visual Basic .NET Programming II  4.5

Total Units Required .......................... 18.5

Web Development
Certificate of Achievement
The Certificate of Achievement in Web Development certifies that the student can create web pages and client side programming for web pages.

Program Learning Outcomes - upon completion, students will be able to:
- Create algorithms and code, document, debug and test introductory-level programs in a high-level programming language.
- Create web pages using Extensible Hypertext Markup Language (XHTML), Cascading Style Sheets (CSS), JavaScript and the Document Object Model (DOM), and demonstrate how they interact together within a web document.

1. Meet the requirements for this certificate level.
2. Complete the following.

Complete one course:  4.5
CIS 5  Swift Programming (4.5)
CIS 14A  Visual Basic .NET Programming I (4.5)
CIS 22A  Beginning Programming Methodologies in C++ (4.5)
CIS 40  Introduction to Programming in Python (4.5)

Complete four courses:  16.5-18
CIS 18A  Introduction to Unix/Linux (4.5)
CIS 55  iOS Development (4.5)
CIS 89A  Web Page Development (4.5)
CIS 89C  Client-Side Programming with JavaScript (4.5)
CIS 89D  Rich Internet Application Development (4.5)
CIS 97  FLASH Animation (3)
CIS 98  Digital Image Editing Software (Photoshop) (4.5)

Total Units Required .......................... 21-22.5
DESIGN AND MANUFACTURING TECHNOLOGIES

Computer Aided Design – Mechanical Certification of Achievement

Students pursuing De Anza College’s Computer Aided Design - Mechanical Certification of Achievement will receive an education in the fundamentals of CAD that combines the use of two types of design graphic software packages. Students will learn substantive job skills in Creo and SolidWorks CAD systems that will make them employable in industrial and mechanical engineering and design.

Program Learning Outcomes - upon completion, students will be able to:
• Solve basic and complex drafting and design application problems using industry standard two-dimensional and three-dimensional software and feature-based parametric design software.
• Apply the fundamentals of computer-aided drafting and design to disciplines such as architectural, mechanical and industrial design and engineering.
• Utilize industry standard microcomputer CAD software and the hardware, operating systems and peripherals used to facilitate it.
• Create engineering notes and scaled drawings using ASME or International Standards Organization (ISO) specifications.
• Satisfy a prospective employer with quality technical expertise in the use of two CAD tools (SolidWorks and Creo) at a level commensurate with entry- to mid-level usage in industry design and engineering.

1. Meet the requirements for this certificate level.
2. Complete the following.

DMT 52 Geometric Dimensioning and Tolerancing: CAD Applications 2

Complete one course from the series:
DMT 60A - 60E series SolidWorks (Beginning) (4)

Complete one course from the series:
DMT 61A - 61E series SolidWorks (Intermediate) (4)

Complete one course from the series:
DMT 65A - 65E series Creo Parametric (Beginning) (4)

Complete one course from the series:
DMT 66A - 66E series Creo Parametric (Intermediate) (4)

Total Units Required 18

CNC Machinist Certification of Achievement

The Computer Numerical Control (CNC) Machinist Certificate of Achievement teaches students the fundamentals of conventional and CNC machine tools. Students learn how to set up safely and operate manual mills and lathes and construct word address programs for the setup and operation of CNC mills. Upon completion, students are prepared for employment in manufacturing facilities as setup persons, machine operators and production workers. This certificate is part of a career ladder. Students may also choose to complete a Certificate of Achievement-Advanced or A.S. degree.

Program Learning Outcomes - upon completion, students will be able to:
• Setup and operate conventional and CNC machines safely.
• Construct and inspect machined projects using conventional and CNC equipment.
• Construct word address programs to machine projects.

1. Meet the requirements for this certificate level.
2. Complete the following.

DMT 80 Introduction to Machining and CNC Processes 5
DMT 84A Introduction to CNC Programming and Operation; Mill 5
DMT 84B CNC Programming and Operation; Intermediate Mill 5
DMT 90 Print Reading and Machine Shop Calculations 4.5

Total Units Required 19.5

CNC Machinist Certification of Achievement-Advanced A.S. Degree

The CNC Machinist Certificate of Achievement-Advanced and A.S. degree teaches students the fundamentals of CNC machine tools. Students learn safe setup, editing and operation of CNC equipment, including vertical and horizontal mills, lathes and rotary multi-axis components. Students are taught to dimension and inspect parts using various inspection methods and to analyze materials and processes used in manufacturing. Upon completion, students are prepared for employment in manufacturing facilities as CNC setup persons and machine operators.

Program Learning Outcomes - upon completion, students will be able to:
• Construct and inspect machined projects using CNC equipment with word address programs.
• Apply geometric dimensioning and tolerance standards to inspect drawings and inspect parts using a coordinate measuring machine.
• Differentiate and analyze the materials and processes used in manufacturing.
• Produce tool paths with constructed and imported geometry using Mastercam.
• Apply advanced machining skills by independently contracting projects.

Certificate of Achievement-Advanced

1. Meet the requirements for this certificate level.
2. Complete the following.

DMT 80 Introduction to Machining and CNC Processes 5
DMT 84A Introduction to CNC Programming and Operation; Mill 5
DMT 84B  CNC Programming and Operation;  
Intermediate Mill  5
DMT 84C  CNC Lathes-Horizontal Mill-4th Axis  
Rotary-Programming Operations  5
DMT 90  Print Reading and Machine Shop  
Calculations  4.5
DMT 92  Applied GD&T (ASME Y14.5m);  
Coordinate Measuring Machines (CMM)  4
DMT 95  Manufacturing Materials and Processes  4

Complete one course from the series:  5
DMT 87D - 87E series  
CAD/CAM Programming Using Mastercam (5)

Complete one course from the series:  5
DMT 87J - 87K series  
CAD/CAM Based CNC Surface Contouring Programming Using Mastercam (5)

Complete one course from the series:  5
DMT 87N - 87Q series  
CAD/CAM Based CNC 4 and 5 Axis Mill/Lathe Programming Using Mastercam (5)

Complete one course from the series:  5
DMT 89A - 89E series  
CAM Based CNC Multi-Axis Programming Using NX (5)

Complete one course:  2
DMT 77A  Special Projects in Manufacturing and 
CNC/Mastercam Certification Level 1 (2)
DMT 77B  Special Projects in Manufacturing and 
CNC/Mastercam Certification Level 2 (2)
DMT 77C  Special Projects in Manufacturing and 
CNC/Mastercam Certification Level 3 (2)

Total Units Required ....................................54.5

A.S. Degree

Major  Complete the Cert. of Achievement-Advanced requirements  54.5
GE  General Education (32-43 units)
Electives  Elective courses required when major units plus GE units total is less than 90

CNC Programming – CAD/CAM

Certificate of Achievement  
The CNC Programming - CAD/CAM Certificate of Achievement teaches students 2D, 3D, lathe and multi-axis machine tool programming. Students learn to construct geometry, select tools and produce and verify tool paths. Upon completion, students are prepared for employment as entry-level programmers in prototype and production manufacturing facilities. This certificate is part of a career ladder. Students may also choose to complete a Certificate of Achievement-Advanced or A.S. degree in CNC Machinist.

Program Learning Outcomes - upon completion, students will be able to:

• Design and construct 2D, 3D, lathe, horizontal and multi-axis part geometry.

CNC Research and Development Machinist

Certificate of Achievement-Advanced  

A.S. Degree  
The Certificate of Achievement-Advanced and A.S. degree teaches students the fundamentals of conventional and CNC machine tools. Students learn to set up safely and operate manual mills, lathes, surface grinders and CNC equipment, including vertical and horizontal mills, lathes and rotary multi-axis components. They also learn to produce word address programs with CAD/CAM software. Students are taught to dimension and inspect parts using various inspection methods and to analyze materials and processes used in manufacturing. Upon completion, students are prepared for employment working closely with engineers in a research and development environment.

Program Learning Outcomes - upon completion, students will be able to:

• Construct and inspect machined projects using conventional and CNC equipment using word address programs.

CNC Programming – CAD/CAM

Certificate of Achievement

The CNC Programming - CAD/CAM Certificate of Achievement teaches students 2D, 3D, lathe and multi-axis machine tool programming. Students learn to construct geometry, select tools and produce and verify tool paths. Upon completion, students are prepared for employment as entry-level programmers in prototype and production manufacturing facilities. This certificate is part of a career ladder. Students may also choose to complete a Certificate of Achievement-Advanced or A.S. degree in CNC Machinist.
DMT 80  Introduction to Machining and CNC Processes 5

Product Model Making
Certificate of Achievement-Advanced
A.S. Degree
Students in the Certificate of Achievement-Advanced and A.S. degree are taught the fundamentals of Product Model Making. Students learn the safe setup of CNC equipment, how to design and construct three-dimensional objects using CAD/CAM software and how to analyze materials and processes used in prototype model making. Upon completion, students are prepared for employment working in design-stage product development and prototype and model making environments.

Program Learning Outcomes - upon completion, students will be able to:
  • Construct and inspect machined projects using conventional and CNC equipment that uses word address programs.
  • Design and construct three-dimensional objects.
  • Create part geometry using SolidWorks or Creo/Pro Engineer CAD software.
  • Differentiate and analyze the materials and processes used in manufacturing.
  • Produce tool paths with constructed and imported geometry using Mastercam.

Certificate of Achievement-Advanced
1. Meet the requirements for this certificate level.
2. Complete the following.

ARTS 10A  Three-Dimensional Design 4
ARTS 10B  Intermediate Three-Dimensional Design 4
DMT 80  Introduction to Machining and CNC Processes 5
DMT 84A  Introduction to CNC Programming and Operation; Mill 5
DMT 84B  CNC Programming and Operation; Intermediate Mill 5
DMT 95  Manufacturing Materials and Processes 4

Complete one course from either series: 5
DMT 60A - 60E series
    SolidWorks (Beginning) (4)
DMT 65A - 65E series
    Creo Parametric (Beginning) (4)

Complete one course from the series: 5
DMT 87D - 87E series
    CAD/CAM Programming Using Mastercam (5)

Complete one course from the series: 5
DMT 87J - 87K series
    CAD/CAM Based CNC Surface Contouring Programming Using Mastercam (5)

Complete one course from the series: 5
DMT 87N - 87Q series
    CAD/CAM Based CNC 4 and 5 Axis Mill/Lathe Programming Using Mastercam (5)

Total Units Required ..............................................46

A.S. Degree
Major  Complete the Cert. of Achievement-Advanced requirements 46

Quality Control Technician
Certificate of Achievement
The Quality Control Technician Certificate of Achievement prepares students in the fundamentals of machining techniques, dimensional metrology, interpretation of multi-view engineering prints and applied geometric inspection dimensioning and tolerancing (ASME Y14.5m). Students also learn the correct operation of coordinate measuring machines (CMM) and the principles of manufacturing quality.
control and associated standards. Students in the Quality Control Technician program are instructed on how to inspect parts using various inspection methods; interpret drawings used in manufacturing; and record, analyze and document findings using various quality assurance procedures. Program students also learn the safe setup and operation of CMM and related measuring instruments. Upon completion of the certificate requirements, students are prepared for employment in manufacturing facilities as quality control inspectors and technicians.

Program Learning Outcomes - upon completion, students will be able to:
• Analyze, construct and inspect assigned machined projects using the introductory principles of machining.
• Demonstrate the ability to interpret multi-view drawings and prints.
• Demonstrate the ability to utilize common gauges, measurement instruments and calibration tools.
• Apply geometric dimensioning and tolerancing standards to interpret drawings and inspect manufactured parts.
• Demonstrate basic operation of the coordinate measuring machine (CMM) to inspect manufactured parts.
• Demonstrate a working knowledge of calibration systems, inspection methodology, statistical process control indices and quality sampling techniques.

1. Meet the requirements for this certificate level.
2. Complete the following.

DMT 80 Introduction to Machining and CNC Processes 5
DMT 90 Print Reading and Machine Shop Calculations 4.5
DMT 91 Dimensional Metrology 4.5
DMT 92 Applied GD&T (ASME Y14.5m); Coordinate Measuring Machines (CMM) 4
DMT 93 Introduction to Quality Assurance 4

Associate in Arts in Economics for Transfer
A.A.-T. Degree

The Economics major consists of courses appropriate for an Associate in Arts in Economics for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in Economics for Transfer is intended for students who plan to complete a bachelor's degree in Economics at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:
• Develop a critical way of thinking with the goal of optimal decision-making in everyday life.
• Demonstrate the ability to analyze and understand the current economic situation using diverse economic theories and how they impact society's well-being.

2. Complete the following.

ECON 1 Principles of Macroeconomics 4
or ECON 1H Principles of Macroeconomics - HONORS 4
ECON 2 Principles of Microeconomics 4
or ECON 2H Principles of Microeconomics - HONORS 4
MATH 10 Introductory Statistics 5
or MATH 10H Introductory Statistics - HONORS 5

Complete one option: 5-10
Option 1:
MATH 1A Calculus (5)
or MATH 1AH Calculus - HONORS (5)
MATH 1B Calculus (5)
or MATH 1BH Calculus - HONORS (5)

Option 2:
MATH 12 Introductory Calculus for Business and Social Science (5)

Complete one option: 5-10
Option 1:
ACCT 1A Financial Accounting I (5)
or ACCT 1AH Financial Accounting I - HONORS (5)
ACCT 1B Financial Accounting II (5)
or ACCT 1BH Financial Accounting II - HONORS (5)

Option 2:
ACCT 1C Managerial Accounting (5)
or ACCT 1CH Managerial Accounting - HONORS (5)

Option 3:
MATH 1B Calculus (5)
or MATH 1BH Calculus - HONORS (5)
MATH 1C Calculus (5)
or MATH 1CH Calculus - HONORS (5)

Option 4:
MATH 11 Finite Mathematics (5)

Complete four-10 units: 4-10
ECON 3 Environmental Economics (4)
or ECON 3H Environmental Economics - HONORS (4)
ECON 4 Economics of Public Issues (4)
ECON 5 Behavioral Economics (4)
MATH 1C* Calculus (5)
or MATH 1CH* Calculus - HONORS (5)
MATH 1D* Calculus (5)
or MATH 1DH* Calculus - HONORS (5)
MATH 2B Linear Algebra (5)
or MATH 2BH Linear Algebra - HONORS (5)
Students taking MATH 1C/1CH must take MATH 1D/1DH to meet this requirement.

ENGLISH

Associate in Arts in English for Transfer
A.A.-T. Degree

The English major consists of courses appropriate for an Associate in Arts in English for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in English for Transfer is intended for students who plan to complete a bachelor's degree in English at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:

• Demonstrate awareness of diverse social, critical, historical and cultural perspectives by reading and responding to a range of literary texts.
• Analyze texts representing a wide range of genres including poetry, drama, fiction and film.
• Identify and make relevant connections between texts of various historical periods.
• Write well developed and effectively organized essays including in-class essays, interpretive arguments and essays incorporating research.
• Synthesize historical, formal and critical ideas in interpreting a text.

2. Complete the following.

Complete one option: 5-10

Option 1:
EWRT 1C Literature and Composition (5)
EWRT 2 Critical Reading, Writing and Thinking (5)
or EWRT 2H Critical Reading, Writing and
Thinking - HONORS (5)

Option 2:
EWRT 1B Reading, Writing and Research (5)
or EWRT 1BH Reading, Writing and Research - HONORS (5)

Complete one course if option 1 is selected above or two courses if option 2 is selected above: 4-10

ELIT 10 Introduction to Fiction (4)
or ELIT 10H Introduction to Fiction - HONORS (4)
ELIT 11 Introduction to Poetry (4)
ELIT 12 Introduction to Dramatic Literature (4)
ELIT 17 Introduction to Shakespeare (4)
or ELIT 17H Introduction to Shakespeare - HONORS (4)
EWRT 30 Introduction to Creative Writing (5)
EWRT 40 Fiction Writing (5)
EWRT 41 Poetry Writing (5)

Complete two options: 12-16

Option 1:
ELIT 46A Major British Writers
(Medieval and Renaissance) (4)
or ELIT 46AH Major British Writers
(Medieval and Renaissance) - HONORS (4)
ELIT 46B Major British Writers
(Neo-Classical and Romantic) (4)
or ELIT 46BH Major British Writers
(Neo-Classical and Romantic) - HONORS (4)

Option 2:
ELIT 46B Major British Writers
(Neo-Classical and Romantic) (4)
or ELIT 46BH Major British Writers
(Neo-Classical and Romantic) - HONORS (4)
ELIT 46C Major British Writers
(Victorian and Modern) (4)
or ELIT 46CH Major British Writers
(Victorian and Modern) - HONORS (4)

Option 3:
ELIT 48A Major American Writers
(Colonial to Romantic, 1620-1865) (4)
or ELIT 48AH Major American Writers
(Colonial to Romantic, 1620-1865) - HONORS (4)

### English

**A.A. Degree**

The English major at De Anza College offers students the opportunity to study language, literature, creative writing and composition and to deepen critical thinking, communication skills and aesthetic awareness. The English major also prepares students for further study leading to employment and internships in fields such as education, business, law, editing and writing. The program further prepares students to become effective communicators and broadly literate members of the community.

**Program Learning Outcomes - upon completion, students will be able to:**

- Demonstrate awareness of diverse social, critical, historical and cultural perspectives by reading and responding to a range of literary texts.
- Analyze texts representing a wide range of genres including poetry, drama, fiction and film.
- Identify and make relevant connections between texts of various historical periods.
- Write well-developed and effectively organized essays including in-class essays, interpretive arguments and essays incorporating research.
- Synthesize historical, formal and critical ideas in interpreting a text.

**Prerequisite:**

**EWRT 1A** Composition and Reading (5)
or **EWRT 1AH** Composition and Reading - HONORS (5)

1. Meet the A.A./A.S. degree requirements.

ENVIRONMENTAL STUDIES

Energy Management and Building Science  
Certificate of Achievement

The Certificate of Achievement in Energy Management and Building Science will prepare students for new and emerging career opportunities in energy management technology, building energy audit, facilities management, building design and sustainability and renewable energy systems. Completion of the Certificate of Achievement provides an intermediate level of analysis in energy efficiency principles and prepares students for careers in managing and monitoring energy efficient buildings. The certificate curriculum is aligned with professional certifications offered by the International Facilities Management Association (IFMA), including Facilities Management Professional (FMP) and Sustainable Facilities Professional (SFP). Students will also be well prepared for the certification test for Renewable (Solar) Energy Professional offered by the North American Board of Certified Energy Practitioners (NABCEP).

Program Learning Outcomes - upon completion, students will be able to:
- Investigate and analyze energy use and its relationship to non-renewable energy extraction, production, distribution, consumption and greenhouse gas emissions.
- Apply an understanding of energy management and building science principles, techniques and strategies, the laws of thermodynamics and the sustainable use of resources supporting the built environment.
- Demonstrate knowledge of the above objectives and strategically conceptualize and implement efficient and sustainable energy management policies, procedures and systems in residential and commercial buildings.

1. Complete the Certificate of Achievement requirements. 19
2. Meet the requirements for this certificate level.
3. Complete the following.

1. Meet the requirements for this certificate level.
2. Complete the following.

ES 4  Energy, the Environment, and Society  4
ES 58  Introduction to Green Building  1
ES 64  California’s Approach to Global Warming/Global Climate Change  2

Energy Management and Building Science
A.S. Degree
The A.S. degree in Energy Management and Building Science will prepare students for new and emerging career opportunities in energy management technology, building energy audit, facilities management, building design and sustainability and renewable energy systems. Completion of the degree program provides students with a skilled knowledge of energy efficiency principles and prepares them for careers in managing and monitoring energy efficient buildings. The program curriculum is aligned with professional certifications offered by the International Facilities Management Association (IFMA), including Facilities Management Professional (FMP) and Sustainable Facilities Professional (SFP). Students will also be well prepared for the certification test for Renewable (Solar) Energy Professional offered by the North American Board of Certified Energy Practitioners (NABCEP).

Program Learning Outcomes - upon completion, students will be able to:
• Investigate and analyze energy use and its relationship to non-renewable energy extraction, production, distribution, consumption and greenhouse gas emissions.
• Apply an understanding of energy management and building science principles, techniques and strategies, the laws of thermodynamics and the sustainable use of resources supporting the built environment.
• Demonstrate knowledge of the above objectives and strategically conceptualize and implement efficient and sustainable energy management policies, procedures and systems in residential and commercial buildings.
• Engage with key stakeholders in energy management and building science occupations including the public, government agencies, public industry, manufacturing and non profits to enhance, improve and advocate for global, cultural, social and environmental health and well being.

1. Complete the Certificate of Achievement and the Certificate of Achievement-Advanced requirements. 32
2. Meet the A.A./A.S. degree requirements.

Environmental Resource Management and Pollution Prevention
Certificate of Achievement
In this career-oriented program, students are trained in the interrelated fields of environmental resource management (sustainable multiple-use management of our fundamental environmental resources – air, water, land, food and extracted materials) and pollution prevention. The training received is multidisciplinary, covering the areas of law and regulation, public health, economics and science and technology, and includes coursework covering a variety of practical management tools that employers look for. Upon completion, students are prepared for employment as entry-level environmental management or pollution prevention specialists in a wide range of positions and settings, including working for business, government and nonprofit organizations. This certificate is the first step in a career ladder whereby students can optionally choose to later complete a Certificate of Achievement-Advanced and finally an A.A. degree.

Program Learning Outcomes - upon completion, students will be able to:
• Identify fundamental environmental management/pollution prevention issues and apply sustainable solutions.

1. Meet the requirements for this certificate level.
2. Complete the following.

Complete 18 units: 18

2019-2020 DE ANZA COLLEGE CATALOG
Environmental Resource Management and Pollution Prevention

**Certificate of Achievement-Advanced**

In this career-oriented program, students are trained in the interrelated fields of environmental resource management (sustainable multiple-use management of our fundamental environmental resources – air, water, land, food and extracted materials) and pollution prevention. The training received is multidisciplinary, covering the areas of law and regulation, public health, economics and science and technology, and includes coursework covering a variety of practical management tools that employers look for. Upon completion, students are prepared for employment as environmental management or pollution prevention specialists in a wide range of positions and settings, including working for business, government and nonprofit organizations. This certificate is the middle step in a career ladder with the first step being a Certificate of Achievement and the last (optional) step being an A.A. degree.

**Program Learning Outcomes - upon completion, students will be able to:**

- Identify both fundamental and advanced environmental management/pollution prevention issues and apply sustainable solutions.

1. Complete the Certificate of Achievement requirements. 19
2. Meet the requirements for this certificate level.
3. Complete the following.

**Facility and Sustainable Building Management**

**Certificate of Achievement**

**Certificate of Achievement-Advanced**

**A.S. Degree**

The interdisciplinary Facility and Sustainable Building Management certificates and degree align with the requirements set by the facility management industry for qualified facility management professionals. Students will be educated and provided on-the-job work experience. Students will understand the cross-functional aspects of a successful facility manager and will be further educated on the roles facility managers play, the basics of building operations and maintenance, building sustainability and work management within the facility manager job function. The International Facility Management Association (IFMA) estimates the average age of practicing facility managers is more than 49 years old. IFMA also forecasts that 30 to 50 percent of practicing facility managers will retire within the next 10 years. This indicates a pending employment gap and a need for younger, well-educated and qualified facility management professionals. IFMA has turned to California community colleges to help fill this gap. The Facility and Sustainable Building Management certificates and degrees will prepare students for careers in building sustainability, space planning, environmental health...
and safety, energy efficiency, sustainable landscaping, real estate, property management, human resources and other business-related job functions such as marketing, sales and accounting.

Certificate of Achievement
Program Learning Outcomes - upon completion, students will be able to:
- Assess the roles and responsibilities of Facility Managers and understand the technical and business skills required in the Facility Management profession.
- Analyze and understand the basics of building management and energy efficiency systems.
- Demonstrate the ability to track internal and external customer relationships in facility management.

1. Complete the Certificate of Achievement and the Certificate of Achievement-Advanced requirements. 37
2. Meet the A.A./A.S. degree requirements.
3. Complete the following.

Certificate of Achievement-Advanced
Program Learning Outcomes - upon completion, students will be able to:
- Assess the roles and responsibilities of Facility Managers and understand the technical and business skills required in the Facility Management profession.
- Analyze and understand the basics of building automation and sustainable building systems.
- Understand the cross-functional nature of the successful facility manager and be able to identify internal and external stakeholders.

1. Meet the requirements for this certificate level.
2. Complete the following.

FILM/TV

Associate in Science in Film, Television, and Electronic Media for Transfer

A.S.-T. Degree

The Film, Television, and Electronic Media major consists of courses appropriate for an Associate in Science in Film, Television, and Electronic Media for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline, and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Science in Film, Television, and Electronic Media for Transfer is intended for students who plan to complete a bachelor’s degree in Film, Television, and Electronic Media at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.
Program Learning Outcomes - upon completion, students will be able to:

- Demonstrate media literacy as a key part of the development of critical thinking skills.
- Analyze film, television and electronic media through the application of diverse critical approaches and within the context of technology, business, cultural production, entertainment medium and art form.
- Describe and analyze the history, issues and impact of film, television and electronic media in a global context.
- Demonstrate preproduction skills in the design and creation of content for film, television and electronic media with a focus on screenwriting, location scouting, casting, scheduling and budgeting.
- Demonstrate basic operational and craft skills for film, television and electronic media production and postproduction technologies and workflow.
- Demonstrate professionalism and understanding of workforce protocol in communication and behavior.

2. Complete the following.

Film/TV: Animation
A.A. Degree
The Film/TV: Animation A.A. degree provides a foundation for students interested in pursuing a career in the film, TV, game or Internet animation industries. Students are exposed to professional pre-production and production animation methods including storyboard design, character design, 2D hand drawn, 2D digital animation, 3D stop-motion and 3D computer animation. Students select electives that will help build skills for such specific career goals as 2D and 3D animators, illustrators, storyboard artists, visual development artists and background artists.

Program Learning Outcomes - upon completion, students will be able to:
1. Apply basic animation principles to 2D and 3D characters and objects.
2. Apply principles of cinematic design to storyboards and environments.
3. Apply screenwriting fundamentals and sound design skills for creative storytelling.
4. Apply interdisciplinary skills to animation pre-production and production.
5. Identify and examine the history of the development of animation and contemporary practices in animation.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following,

**ARTS 4A** Beginning Drawing 4
**ARTS 4C** Life Drawing 4
**F/TV 20** Beginning Video Production 4
**F/TV 66A** Basic Techniques of Animation: Stop Motion 3
**F/TV 67A** Principles of Animation: 2D Media 4
**F/TV 68A** Sound for Animation 3
**F/TV 70A** The Storyboard and Visual Development for Animation 3
**F/TV 71G** Introduction to 3D Computer Animation: Modeling 4
**F/TV 71H** Introduction to 3D Computer Animation: Character Motion 4
**F/TV 75G** History of Animation (1900-Present) 4

Complete one course: 3-4
**ARTS 54** Visual Technology II (4)
**PHTG 58A** Photographic Photoshop I (3)

Complete one course: 4
**F/TV 6A** Screenwriting Fundamentals for Film/Video I (4)
**F/TV 72G** Animated Film Pre-Production Workshop (4)

Complete a minimum of four units below or from above (not already taken): 4
**ARTS 8** Two-Dimensional Design (4)
**ARTS 10A** Three-Dimensional Design (4)
**ARTS 12** Design and Color (4)
**ARTS 15A** Acrylic Painting I (4)
**ARTS 16A** Oil Painting I (4)
**ARTS 85** Graphic Design: Motion Graphics (4)
**F/TV 1** Introduction to Cinematic Arts (4)
**F/TV 1H** Introduction to Cinematic Arts - HONORS (4)
**F/TV 2A** History of Cinema (1895-1950) (4)
**F/TV 2AH** History of Cinema (1895-1950) - HONORS (4)
**F/TV 2B** History of Cinema (1950-Present) (4)
**F/TV 2BH** History of Cinema (1950-Present) - HONORS (4)

**F/TV 27** Nonlinear Editing 4

Film/TV: Production
Certificate of Achievement
The Film/TV: Production Certificate of Achievement provides a solid introduction to production for students interested in pursuing a career in the film or television industry or a bachelor’s degree in Film, Television and Electronic Media. Students are exposed to various facets of professional film and/or television production, including producing, screenwriting, directing, cinematography, editing and sound design.

Program Learning Outcomes – upon completion, students will be able to:
1. Develop pre-production skills including screenwriting, location scouting, scheduling and budgeting.
2. Utilize narrative techniques and visual storytelling to communicate a message.
3. Operate a film/video camera, sound and lighting equipment on a remote or studio shoot.
4. Use and apply principles of editing and post-production techniques.
5. Understand film and television’s greater role in the current global media context.

1. Meet the requirements for this certificate level.
2. Complete the following,
Film/TV: Production
Certificate of Achievement—Advanced
A.A. Degree
The Film/TV: Production Certificate of Achievement-Advanced and A.A. degree provides a more highly developed introduction to production for students interested in pursuing a career in the film or television industry or a bachelor’s degree in Film, Television and Electronic Media. Students are exposed to various facets of professional film and television production, including producing, screenwriting, directing, cinematography, editing and sound design.

Program Learning Outcomes – upon completion, students will be able to:
• Develop pre-production skills including screenwriting, location scouting, scheduling and budgeting.
• Apply dramatic skills to cast, evaluate and direct talent.
• Utilize narrative techniques and visual storytelling to communicate.
• Operate a film camera, sound and lighting equipment in a remote or studio shoot.
• Use and apply principles of editing and post-production techniques.
• Develop a distribution plan for a film or video.
• Understand film and television’s greater role in the current global media context.

Certificate of Achievement—Advanced
1. Meet the requirements for this certificate level.
2. Complete the following.
   F/TV 1  Introduction to Cinematic Arts 4
   or F/TV 1H  Introduction to Cinematic Arts - HONORS 4
   F/TV 6A  Screenwriting Fundamentals for Film/Video I 4
   or F/TV 6AH  Screenwriting Fundamentals for Film/Video I - HONORS 4

Film/TV: Screenwriting

A.A. Degree

The Film/TV: Screenwriting A.A. degree provides a foundation for students interested in pursuing a career in screenwriting for film or pursuing a bachelor's degree in Film/Television. Students are exposed to the craft and business of screenwriting. In order to fulfill the major requirements, students take each course in the screenwriting series, courses in cinema studies and media theory and basic production courses.

Program Learning Outcomes - upon completion, students will be able to:

- Apply the principles of cinematic story, character and theme to screenwriting.
- Write both short and feature-length screenplays with good technique and craft.
- Execute the step-by-step process of screenwriting from concept and idea to completed screenplay.
- Apply all aspects of story and character to oral pitches.
- Understand the business of screenwriting and how to best position themselves for success.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

F/TV 1 Introduction to Cinematic Arts 4
or F/TV 1H Introduction to Cinematic Arts - HONORS 4
F/TV 2A History of Cinema (1895-1950) 4
or F/TV 2AH History of Cinema (1895-1950) - HONORS 4

Global Studies

Skills Certificate

Skills Certificates are issued by the individual departments and are not notated on official college transcripts. Please contact the department directly for assistance and to apply for Skills Certificates.

The Global Studies Skills Certificate is designed to enable students to meet the demands of living and working in a global society. This certificate provides an interdisciplinary approach to understanding the interdependence and interconnectedness of people from around the globe. By taking a variety of courses with a common, global focus, students gain the analytical skills to discuss political, economic and cultural elements of our global society from several perspectives. Students also gain the knowledge and skills necessary to work more effectively with people from a variety of backgrounds and cultures.

Program Learning Outcomes - upon completion, students will be able to:

- Integrate information about the environment, cultures, histories, politics, arts and economics of people around the world and explain their interdependence and interconnectedness.
- Demonstrate cultural competence through the ability to interact effectively in international and multicultural settings based on an integrated understanding of global issues and perspectives.

Global Studies
Certificate of Achievement-Advanced

A.A. Degree
The Global Studies Certificate of Achievement-Advanced and A.A. degree is an interdisciplinary program that prepares students to be well-versed in world history, global issues and perspectives, geography and cultural competence as well as proficient in a foreign language. Elective options direct students to a course of study focused on world history, international business, globalization issues, language and culture and the arts and humanities in the global environment. Students can take electives within one area of study, or mix electives from the various areas. The program prepares students for careers as citizens of the world and to navigate and communicate in a global environment.

Program Learning Outcomes - upon completion, students will be able to:
• Integrate information about the environment, cultures, histories, politics, arts and economics of people around the world and explain their interdependence and interconnectedness.
• Demonstrate cultural competence through the ability to interact effectively in international and multicultural settings based on an integrated understanding of global issues and perspectives.
• Demonstrate proficiency in a foreign language.

Certificate of Achievement-Advanced
1. Complete the Skills Certificate requirements. 21
2. Meet the requirements for this certificate level.
3. Complete the following.

One year (three quarters) of college-level world language 15
World Languages offered:
French, German, Hindi, Italian, Japanese, Korean, Mandarin, Persian, Russian, Spanish, Vietnamese
Total Units Required .................................36

A.A. Degree
1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

ANTH 2 Cultural Anthropology 4
or ANTH 2H Cultural Anthropology - HONORS
ECON 1 Principles of Macroeconomics 4
or ECON 1H Principles of Macroeconomics - HONORS
ES 1 Introduction to Environmental Studies 4
GEO 10 World Regional Geography 4

GRAPHIC AND INTERACTIVE DESIGN

Graphic Design
Certificate of Achievement
Certificate of Achievement-Advanced
A.A. Degree

The Graphic and Interactive Design program emphasizes the elements and principles of design in combination with the use of computers, software and other design peripherals to produce graphic design projects. Focus is placed on the creative integration and selection of type styles and images as they relate to the printed page, film/video output, web-based design, user interface design and multimedia applications. The Graphic and Interactive Design program is designed to prepare students for the workforce.

Program Learning Outcomes - upon completion, students will be able to:
• Demonstrate awareness of the computer as an effective and important mode of visual communication used by artists and designers today.

2019-2020 DE ANZA COLLEGE CATALOG
• Demonstrate the creative potential of art and design software.
• Analyze and interpret the elements and principles of graphic design as applied to the practice of visual communication and current graphic production techniques.
• Demonstrate an understanding of the design process.
• Analyze styles in typographic design, type selection and type specification in relation to new computer technology and the World Wide Web.
• Demonstrate an understanding of the range of business practices currently used by artists and designers in the visual communications industry.

Certificate of Achievement

HISTORY

Associate in Arts in History for Transfer

A.A.-T. Degree
The History major consists of courses appropriate for an Associate in Arts in History for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in History for Transfer is intended for students who plan to complete a bachelor’s degree in History at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:

- Demonstrate and apply historical knowledge to support defensible statements of meaning and evaluation about a time period's developments.
- Use secondary and primary sources to construct historical analyses of the human condition within the context of various cultures, civilizations and time periods.

2. Complete the following.

HIST 17A History of the United States to Early National Era 4

HUMANITIES

Humanities Certificate of Achievement

The Humanities Program educates students in the ways of thinking and acting from a global and interdisciplinary perspective by fostering engagement with the diverse, dynamic and interconnected products of human thought and creativity. The study of Humanities allows students to develop a foundational understanding of personal and community values, cultural views, religious beliefs and aesthetic practices and theories and how these shape the way we view the world and ourselves. The Certificate of Achievement in Humanities demonstrates the student’s solid background in the critical and empathetic thinking skills that mark the deliberate thought processes and formation of complex questions without definitive answers that are the hallmark of the Humanities. This certificate allows students to acquire lifelong practices that foster true knowledge as distinct from an aggregate of information and facts. These skills and competencies are applicable across disciplines and will enrich a wide variety of majors and professional careers.

Program Learning Outcomes - upon completion, students will be able to:
• Synthesize critical, empathetic, creative, cooperative and independent thinking skills.
• Demonstrate the ability, both orally and in writing, to analyze meaning within various modes of cultural production in relation to their political, economic, social and religious context.
• Formulate knowledge of the deep connections between and within the complexities of diverse historical periods and cultural traditions as a framework for a dynamic understanding of the contemporary world.
• Develop the practice of thinking through moral and ethical problems and examining one’s own assumptions.
• Deepen sources of wisdom through a complex understanding of how others have dealt with failures, successes, adversities and triumphs.
• Cultivate the capacity for personal, as well as social change.

1. Meet the requirements for this certificate level.
2. Complete the following.

INTERCULTURAL STUDIES

Intercultural Studies Certificate of Achievement-Advanced A.A. Degree

The Certificate of Achievement-Advanced and A.A. degree is an interdisciplinary program that provides both focused study of one or more ethnic groups and coursework that examines the social constructs and dynamics that govern our interactions with others. Students pursuing the Certificate of Achievement-Advanced or A.A. in Intercultural Studies gain the knowledge and skills necessary for increasing their cultural sensitivity, cultural competence and social equity. This program enables them to work with confidence and increased effectiveness in a wide variety of international and multicultural settings.

Program Learning Outcomes - upon completion, students will be able to:
• Critically analyze social and political phenomena based on social constructs of race, class, ethnicity, gender, sexuality and identity to express cultural competence in local and global contexts.
• Articulate the values, experiences and contributions of historically marginalized populations.
• Demonstrate ability to interact in the workplace, community and other social contexts with sensitivity to individual and group-dynamic issues arising from political, economic and cultural experiences and positions.

JOURNALISM

Associate in Arts in Journalism for Transfer
A.A.-T. Degree
The Journalism major consists of courses appropriate for an Associate in Arts in Journalism for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). Jobs in the field include journalist, multimedia producer, editor, writer, publication designer, copy editor, social media
specialist, content producer, newsletter editor, public relations representative, publicist, sportswriter and photojournalist. The Associate in Arts in Journalism for Transfer is intended for students who plan to complete a bachelor’s degree in Journalism at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:

• Demonstrate competency in the basics of journalistic writing, including grammar, punctuation, story structure and journalistic styles.
• Demonstrate competency in research, information gathering and critical analysis of information using techniques such as observation, researching sources and interviewing.
• Compile a portfolio of print, electronic and/or multimedia projects that tell journalistic stories.
• Apply media literacy skills to explain the communication process and detect media bias.
• Identify and apply the steps appropriate to gain employment in a mass communications industry.

2. Complete the following.

Journalism
A.A. Degree
The Journalism A.A. degree prepares students to transfer to a four-year university in journalism, mass communications, public relations, advertising or related disciplines and offers students sufficient training to obtain an internship at a media outlet in print or electronic journalism or within the field of new media.

Program Learning Outcomes - upon completion, students will be able to:

• Demonstrate competency in the basics of journalistic writing, including grammar, punctuation, story structure and journalistic styles.
• Demonstrate competency in research, information gathering and critical analysis of information using techniques such as observation, researching sources and interviewing.
• Compile a portfolio of print, electronic and/or multimedia projects that tell journalistic stories.
• Apply media literacy skills to explain the communication process and detect media bias.
• Summarize steps appropriate to gain employment in a mass communications industry.

Prerequisite: 5
EWRT 1A Composition and Reading (5)
or EWRT 1AH Composition and Reading - HONORS (5)

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

KINESIOLOGY

Associate in Arts in Kinesiology for Transfer
A.A.-T. Degree
The Kinesiology major consists of courses appropriate for an Associate in Arts in Kinesiology for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in Kinesiology for Transfer is intended for students who plan to complete a bachelor's degree in Kinesiology at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:
• Display increasing confidence in the ability to use a range of speaking, listening and collaboration skills.
• Apply fitness concepts to individuals seeking training programs.
• Analyze, evaluate and respond to requests for individualized fitness programs by weighing research, examining evidence and critical reasoning.
• Display competence in a variety of sports and activities.

2. Complete the following.

BIOL 40A Human Anatomy and Physiology 5
BIOL 40B Human Anatomy and Physiology 5
BIOL 40C Human Anatomy and Physiology 5
KNES 45 Introduction to Kinesiology 5

Complete a minimum of one unit from three different movement activity areas below: 3
• Aquatics
• Combatives
• Dance
• Fitness
• Individual and Dual Sports
• Team Sports

2019-2020 DE ANZA COLLEGE CATALOG 107
LEADERSHIP AND SOCIAL CHANGE

Leadership and Social Change
Certificate of Achievement

The Leadership and Social Change Certificate of Achievement prepares students to be community leaders, agents of change in the workplace and responsible participants in civic life in general. Students completing this certificate are prepared to work as an entry-level union organizer or staff person at a nonprofit organization. Students who plan to pursue a transfer degree can use the skills obtained to analyze the social forces at work in, and to take leadership in, their areas of work or study. Contact the Vasconcellos Institute for Democracy in Action (VIDA) at deanza.edu/vida for more information on earning this certificate.

Program Learning Outcomes - upon completion, students will be able to:

- Analyze the social processes that foster inequality and disempowerment, and those that challenge inequality and lead to empowerment.
- Analyze the ways that social processes are amenable to transformation through strategic planning and constituent mobilization.
- Apply leadership skills, such as meeting facilitation, strategic planning, consensus-building and generating buy-in from stakeholders, with the aim of fostering social justice and empowerment.

1. Meet the requirements for this certificate level.
2. Complete the following.

LIBERAL ARTS

Liberal Arts
A.A. Degree

Designed primarily for students who plan on transferring to the University of California or California State University, the associate degree in Liberal Arts represents the completion of a broad area of study with an emphasis in one of the following four areas: Arts and Letters; Business and Computer Information Systems; Science, Math and Engineering; or Social and Behavioral Sciences. The degree allows the student to develop a broad set of essential life and work competencies such as communication, critical thinking, problem solving, quantitative reasoning and multicultural skills. Students complete a minimum of 27 units from one of the four emphasis areas, the A.A. degree General Education requirements and the A.A. /A.S. degree requirements noted in the campus catalog. Courses used for the 27 unit emphasis area requirement may not be used to satisfy the General Education requirements. Note: Students are limited to earning one Liberal Arts degree.

Program Learning Outcomes - upon completion, students will be able to:
• Demonstrate the use of effective language and speech communication skills.
• Analyze and solve problems by using thoughtful and logical reasoning skills.
• Recognize and value the complexities of living in a multicultural world by demonstrating an appreciation of diversity in its many forms.
• Display behaviors that promote the mental and physical well-being of self and others.
• Identify basic and foundational theories, concepts and practices in the comprehensive area of emphasis.

MANAGEMENT

Management
Certificate of Achievement
In the Certificate of Achievement in Management, students learn the fundamentals of general business administration, management, human resources and leadership, among other areas of study. Students develop practical knowledge and skills for formal management roles or other positions of influence. Successful students will also be prepared for higher-level job responsibilities and be able to communicate more effectively.

De Anza College’s Management program is built on the ladder concept, whereby students can complete a Certificate of Achievement on their way to the A.A. degree.

Program Learning Outcomes - upon completion, students will be able to:
• Identify management issues and apply solutions and leadership styles.
1. Meet the requirements for this certificate level.
2. Complete the following.

Complete one course:
BUS 10 Introduction to Business 5
BUS 57 Human Resource Management 4
BUS 65 Leadership 5
BUS 96 Principles of Management 5

Total Units Required ....................................24

Management
A.A. Degree
The A.A. degree in Management prepares students for a career managing and leading employees in positions such as service manager, retail sales manager, customer service supervisor, office manager, human resources coordinator, employee benefits associate, construction project manager, hotel/hospitality supervisor or management trainee. Students learn the fundamentals of general business administration, with an emphasis on management, leadership and human resource management.

Program Learning Outcomes - upon completion, students will be able to:
• Analyze management issues, develop solutions and compare leadership styles for a given organizational environment.
1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

**MANDARIN**

**Mandarin Certificate of Achievement**

The Certificate of Achievement in Mandarin is designed to open employment opportunities for local students because of the large number of Bay Area companies conducting business and trade with China, Taiwan, Singapore and other Asian countries where Mandarin is widely used. The electronics industry in particular seeks to employ people who know Mandarin. For students planning to continue their undergraduate or graduate education in business, electronics, or law, this certificate will complement their studies. From a cultural standpoint, Mandarin study is valuable in California, with its rich diversity of cultural traditions represented by many Mandarin-speaking immigrants. Many Mandarin courses can also satisfy GE requirements for an associate degree and transfer GE requirements.

**Program Learning Outcomes - upon completion, students will be able to:**

1. Demonstrate a working command of essential vocabulary, recognize and reproduce between 600-800 Chinese characters, use proper language structures when providing or requesting information orally and in writing, and use the appropriate level of respect and language style in varying situations.
2. Demonstrate a solid understanding of the social protocols and contributions of Mandarin-speaking cultures by analyzing and comparing them to other cultures.

**MATHEMATICS**

**Associate in Science in Mathematics for Transfer**

**A.S.-T. Degree**

The role of mathematics is vital and growing, providing solutions to problems in a wide range of sciences – social, biological, physical, behavioral and management. As a whole, mathematics is necessary for understanding and expressing ideas in science, engineering and human affairs. Mathematics is integrally related to computer science and statistics, which have proven invaluable to advancing research and modern industrial technology. The curriculum for the Associate in Science in Mathematics for Transfer academically prepares the student to transfer into the CSU system to complete a baccalaureate degree in a similar major. The Mathematics major consists of courses appropriate for an Associate in Science in Mathematics for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Science in Mathematics for Transfer is intended for students who plan to complete a bachelor’s degree in Mathematics at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

**Program Learning Outcomes - upon completion, students will be able to:**

2. Complete the following.

- MATH 1A Calculus 5
- or MATH 1AH Calculus - HONORS 5
- MATH 1B Calculus 5
- or MATH 1BH Calculus - HONORS 5
- MATH 1C Calculus 5
- or MATH 1CH Calculus - HONORS 5
- MATH 1D Calculus 5
- or MATH 1DH Calculus - HONORS 5
- MATH 2A Differential Equations 5
- or MATH 2AH Differential Equations - HONORS 5
- MATH 2B Linear Algebra 5
- or MATH 2BH Linear Algebra - HONORS 5

**Major** 30

**Transfer GE** CSUGE or IGETC for CSU pattern (47-61 units)

**Electives** CSU-transferable elective courses required when the major units plus transfer GE units total is less than 90

**Total Units Required** 90
Clinical Laboratory Assistant
Certificate of Achievement

The Clinical Laboratory Assistant Certificate of Achievement is available to students who have successfully completed the four required courses of study. The Certificate of Achievement is a 12-month course of study that prepares students for a career as a Clinical Laboratory Assistant through classroom study. Graduates of the certificate program have a recognized skill set for jobs as a laboratory assistant and opportunity for advancement.

Program Learning Outcomes - upon completion, students will be able to:

1. Meet the requirements for this certificate level.
2. Complete the following.

HTEC 80  Clinical Hematology Laboratory 1.5
HTEC 80A Clinical Hematology Lecture 4.5
HTEC 83  Clinical Microbiology Laboratory 1.5
HTEC 83A  Clinical Microbiology Lecture 4.5
HTEC 84  Clinical Immunology/Immunohematology Laboratory 1.5
HTEC 84A  Clinical Immunology/Immunohematology Lecture 4.5
HTEC 85A  Clinical Chemistry I Laboratory 1.5
HTEC 85C  Clinical Chemistry I Lecture 4.5

Total Units Required ........................................ 24

Medical Laboratory Technology (MLT)
Certificate of Achievement-Advanced

Note: To receive the Medical Laboratory Technology Certificate of Achievement-Advanced, students must have an A.A./A.S. degree or higher.

The Medical Laboratory Technician (MLT) Certificate of Achievement-Advanced is available to students who have an associate or higher degree from an accredited U.S. institution or the evaluated equivalent from foreign study. The Certificate of Achievement-Advanced is a 15-month course of study (including one summer) that prepares students for a career as a MLT through classroom study and supervised clinical training. The MLT program provides students with a quality education that complies with the established standards and guidelines of an accredited laboratory training program. Graduates of the certificate program are eligible to sit for a state approved national MLT certification examination.

Program Learning Outcomes - upon completion, students will be able to:

1. Meet the requirements for this certificate level.
2. Complete the following prerequisite and requirements with a “C” grade or better.

Prerequisite:
State of California Phlebotomy Certification

Complete the following:

BIOL 26  Introductory Microbiology 6
CHEM 30A  Introduction to General, Organic and Biochemistry I 5
CHEM 30B  Introduction to General, Organic and Biochemistry II 5

Complete one option: 15-18

Option 1:
BIOL 6A  Form and Function in the Biological World (6)
or BIOL 6AH Form and Function in the Biological World - HONORS (6)
BIOL 6B  Cell and Molecular Biology (6)
BIOL 6C  Ecology and Evolution (6)
or BIOL 6CH Ecology and Evolution - HONORS (6)

Option 2:
BIOL 40A  Human Anatomy and Physiology (5)
BIOL 40B  Human Anatomy and Physiology (5)
BIOL 40C  Human Anatomy and Physiology (5)

Prerequisite Units Required .................. 31-34

Requirements: 57

HTEC 80A  Clinical Hematology Lecture 4.5
HTEC 80  Clinical Hematology Laboratory 1.5
HTEC 81A  Clinical Urinalysis Lecture 1.5
HTEC 81  Clinical Urinalysis Laboratory 0.75
HTEC 82A  Clinical Coagulation Lecture 1.5
HTEC 82  Clinical Coagulation Laboratory 0.75
HTEC 83A  Clinical Microbiology Lecture 4.5
HTEC 83  Clinical Microbiology Laboratory 1.5
HTEC 84A  Clinical Immunology/Immunohematology Lecture 4.5
HTEC 84  Clinical Immunology/Immunohematology Laboratory 1.5
HTEC 85C  Clinical Chemistry I Lecture 4.5
HTEC 85A  Clinical Chemistry I Lecture 1.5
HTEC 180  Clinical Hematology/Urinalysis/Coagulation Practicum 6
HTEC 183  Clinical Microbiology Practicum 6
HTEC 184  Clinical Immunology/Immunohematology Practicum 4.5
HTEC 185  Clinical Chemistry Practicum 6

Total Units Required, Incl. Prerequisites ...................... 88-91

Medical Laboratory Technology
A.A. Degree

The A.A. degree in Medical Laboratory Technology is a 24-month course of study (including summers) that prepares students for a career as a medical laboratory technician through classroom study and supervised clinical training. The MLT Program provides students with a quality education that complies with the established standards and guidelines of an accredited laboratory training program. Graduates of the degree program are eligible to sit for a state-approved national MLT certification examination.
Program Learning Outcomes - upon completion, students will be able to:

- Pass a state approved national medical laboratory certification exam.

For the major, complete the same prerequisites and requirements listed for the Medical Laboratory Technology Certificate of Achievement-Advanced (see above) and meet De Anza’s A.A./A.S. degree requirements.

MUSIC

Music
A.A. Degree

This A.A. degree program provides a foundation in music for students interested in a career in the musical entertainment industry or pursuing a bachelor’s degree in Music. Students are encouraged to take private instruction (not provided by the college) each term along with classes in their specialization.

Program Learning Outcomes - upon completion, students will be able to:

- Demonstrate, through successful public performance, a synthesis of technique, memory, musicality and stage presence in both group and solo presentations.
- Demonstrate proficiency equivalent to national lower-division curriculum standards in music literacy for all historical periods, ear training and keyboard harmony.
- Distinguish musical cultures, historical periods, forms and composers from each other while demonstrating an understanding of the roles of music in human culture.
- Produce, notate and perform music using contemporary technologies.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

MUSI 3A Comprehensive Musicianship (First Quarter) 4
MUSI 3B Comprehensive Musicianship (Second Quarter) 4
MUSI 3C Comprehensive Musicianship (Third Quarter) 4
MUSI 4A Comprehensive Musicianship II (First Quarter) 4
MUSI 4B Comprehensive Musicianship II (Second Quarter) 4
MUSI 4C Comprehensive Musicianship II (Third Quarter) 4

Advisory: MUSI 10A or qualifying score on the Music placement examination. Music placement examination offered upon request or during the first day of class in MUSI 3A.

Note: MUSI 3A and 4A offered Fall quarter only; MUSI 3B and 4B offered Winter quarter only; MUSI 3C and 4C offered Spring quarter only.

Complete one course: 4
MUSI 1A Music Appreciation: Music in Western Cultures (4)
MUSI 1B Music Appreciation: Jazz Styles (4)
MUSI 1C Music Appreciation: World Music in America (4)
MUSI 1D Music Appreciation: Rock - From Roots to Rap (4)

Complete a minimum of 12 units: 12
MUSI 15A Guitar Ensemble I (2)
MUSI 15B Guitar Ensemble II (2)
MUSI 20 De Anza Chorale (2)
MUSI 21 Vintage Singers (2)
MUSI 22 Early Music Study and Performance (2)
MUSI 31 Chamber Orchestra (2)
MUSI 34 Jazz Ensemble (2)
MUSI 41 series MUSI 41V, 41W Rehearsal and Performance (1.5-2)
MUSI 42 Concert Band (2)
MUSI 45 Jazz Combos (2)

Complete a minimum of six units: 6
MUSI 5A Modal Counterpoint (3)
MUSI 8 Intermediate Electronic Music (3)
MUSI 9A Jazz Piano I (1.5)
MUSI 9B Jazz Piano II (1.5)
MUSI 9C Jazz Piano III (1.5)
MUSI 12A Class Piano I (1.5)
MUSI 12B Class Piano II (1.5)
MUSI 12C Class Piano III (1.5)
MUSI 13A Beginning Singing I (1.5)
MUSI 13B Beginning Singing II (1.5)
MUSI 13C Beginning Singing III (1.5)
MUSI 14A Classical Guitar I (1.5)
MUSI 14B Classical Guitar II (1.5)
MUSI 14C Classical Guitar III (1.5)
MUSI 14D Classical Guitar IV (1.5)
MUSI 16A Beginning Acoustic Guitar (1.5)
MUSI 16B Jazz, Blues and Popular Guitar (1.5)
MUSI 18A Intermediate Piano I (1.5)
MUSI 18B Intermediate Piano II (1.5)
MUSI 18C Intermediate Piano III (1.5)
MUSI 25 Applied Music (1)
MUSI 44A Composition and Arranging - Level I (1.5)
MUSI 48A Jazz Improvisation I (1.5)
MUSI 48B Jazz Improvisation II (1.5)
MUSI 48C Jazz Improvisation III (1.5)
MUSI 51 Introduction to Electronic Music (3)
MUSI 53 Music Business (3)
MUSI 58A Beginning African and African-Influenced Percussion and Rhythms (1.5)
MUSI 58B Intermediate African and African-Influenced Percussion and Rhythms (1.5)
MUSI 77 series MUSI 77, 77X, 77Y Special Projects in Music (1-3)

Major 46
GE General Education (32-43 units)
Electives 46

Elective courses required when major units plus GE units total is less than 90

Total Units Required ..............................................90
LVN Transition to RN

A.S. Degree

Admission to the program is limited. The Licensed Vocational Nurse (LVN) Transition to Registered Nurse (RN) Program is a minimum of three quarters in length, not including summer. LVN Transition to RN students enter the Registered Nursing program as advanced placement students as determined by the director of the Nursing Program. Prior clinical experience in an acute setting will influence the student’s placement in the program. The majority of courses are held in the daytime. Current California LVN license and IV certification is required.

Graduates of this program are eligible to take the California State Board Examination for licensing (NCLEX-RN). Students are admitted throughout the year as advanced placements. Once admitted, the program is at least three quarters in length (not including prerequisites).

Program Learning Outcomes - upon completion, students will be able to:
• Take the professional licensure exam for Registered Nurse (NCLEX).
• Provide competent nursing care as a novice RN in multiple health care settings.

Admission Criteria

Admission to the program is limited and based on the following:
• Completion of all prerequisites with the minimum grade requirements specified below.
• Completion of a Nursing Program application.
• Current California Vocational Nurse License.
• Intravenous Certification.
• Evidence of good health.
• Background check and drug testing prior to entry into the program. Clinical sites may limit student participation depending on findings, which may prevent the student from completing the graduation requirements.
• A minimum 75% academic record calculation using the Chancellor’s Formula (see the Nursing Program web site).
• Passing result on the Admission Assessment Exam.
• Social Security card allowing employment in the U.S.

Prerequisite: 9
These two prerequisites or their equivalents must be completed with a “C” grade or better:

MATH 109 Intermediate Algebra for Statistics 5
or MATH 114 College Math Preparation Level 3: Intermediate Algebra
or MATH 130 Intermediate Algebra for Precalculus

Complete MATH 109 or MATH 114 or MATH 130, its equivalent or higher level mathematics, or get a qualifying score for MATH 109 or MATH 114 or MATH 130 on De Anza’s mathematics assessment test.

Complete one course: 4
ANTH 2 Cultural Anthropology (4)
or ANTH 2H Cultural Anthropology - HONORS (4)
SOC 1 Introduction to Sociology (4)

These nine prerequisites or their equivalents must be completed with a “C” grade or better: 33
BIOL 26* Introductory Microbiology 6
BIOL 40A* Human Anatomy and Physiology 5
BIOL 40B* Human Anatomy and Physiology 5
BIOL 40C* Human Anatomy and Physiology 5
BIOL 45* Introduction to Human Nutrition 4
PSYC 1 General Psychology 4
PSYC 14 Developmental Aspects of Psychology 4

Complete one course: 5
ESL 5^ Advanced Composition and Reading (5)
EWRT 1A Composition and Reading (5)
or EWRT 1AH Composition and Reading - HONORS (5)

Complete one course: 5
COMM 1 Public Speaking (5)
or COMM 1H Public Speaking - HONORS (5)
COMM 10 Fundamentals of Oral Communication (5)
or COMM 10H Fundamentals of Oral Communication - HONORS (5)

^Course must be completed within seven years of nursing program admission screening.

Recommended
NURS 152, 154

Fewer or more major courses from the RN curriculum may be required at the discretion of the Director of Nursing depending on the student’s previous education and experience.

Nursing A.S. Degree General Education Requirements

Complete with a minimum 2.0 GPA:
• One course from GE Area C1 - Arts (4 units)
• One course from GE Area C2 - Humanities (4 units)
• One unit from GE Area E in PE or PEA activities
• One Intercultural Studies course taken in Area C or D

Note: A.S. Degree General Education Areas A, B and D are satisfied through completion of the prerequisites and major courses.
See the Nursing Program web page at deanza.edu/nursing for application guidelines and materials.

**Registered Nurse (RN)**  
**A.S. Degree**

Admission to the program is limited. The RN Program starts every quarter except summer quarter and it is six quarters in length. Nursing classes are generally not offered in the summer. The majority of courses are held in the daytime.

The Associate Degree Nursing program is approved by the California Board of Registered Nursing. The RN graduate is eligible to take the California State Board Examination for licensing (NCLEX-RN). Students are admitted to this program during the fall, winter and spring quarters. Once admitted, the program is six quarters in length (not including prerequisites).

**Program Learning Outcomes** - upon completion, students will be able to:

- Take the professional licensure exam for Registered Nurse (NCLEX).
- Provide competent nursing care as a novice RN in multiple health care settings.

**Admission Criteria**

Admission to the program is limited and based on the following:

- Completion of all prerequisites with the minimum grade requirements specified below.
- Completion of a nursing program application.
- Evidence of good health.
- Background check and drug test (two times each): once each prior to entry into the program and once each prior to beginning Quarter 4 of the program. Clinical sites may limit student participation depending on findings, which may prevent the student from completing the graduation requirements.
- A minimum 75% academic record calculation using the Chancellor's Formula (see the Nursing Program web site).
- Passing result on the Admission Assessment Exam.
- Social Security card allowing employment in the U.S.

**Prerequisite/Corequisite:**

The 11 prerequisites in this section will be used for screening and admission into the RN program.

These two prerequisites must be completed with a “C” grade or better:

- NURS 50 Career Opportunities in Nursing  
  (must be completed at De Anza)  
  (2)
- MATH 109 or MATH 114 Intermediate Algebra for Statistics  
  (or MATH 130 Intermediate Algebra for Precalculus)  
  (5)

Complete MATH 109 or MATH 114 or MATH 130, its equivalent or higher level mathematics, or get a qualifying score for MATH 109 or MATH 114 or MATH 130 on De Anza's mathematics assessment test.

These nine prerequisites or their equivalents must be completed with a “C” grade or better:

- BIOL 26* Introductory Microbiology  
  (6)
- BIOL 40A* Human Anatomy and Physiology  
  (5)
- BIOL 40B* Human Anatomy and Physiology  
  (5)
- BIOL 40C* Human Anatomy and Physiology  
  (5)
- BIOL 45* Introduction to Human Nutrition  
  (4)
- PSYC 1 General Psychology  
  (4)
- PSYC 14 Developmental Aspects of Psychology  
  (4)
- ESL 5^ Advanced Composition and Reading (5)
- EWRT 1A Composition and Reading (5)
  or EWRT 1AH Composition and Reading - HONORS (5)

**Prerequisite Units Required**  
54

**Requirements:**

Admitted students complete the major courses and the Nursing General Education requirements to earn the degree.

**Major Requirements:**  
59

Complete with a “C” grade or better:

- NURS 81 Fundamental Nursing  
  (Non-Acute/Sub-Acute Care)  
  (4)
- NURS 81L Fundamental Nursing  
  (Non-Acute/Sub-Acute Care Clinical)  
  (5)
- NURS 81P Pharmacology I  
  (1.5)
- NURS 82 Acute Fundamentals/Medical Surgical I  
  (4)
- NURS 82L Acute Fundamentals/Medical Surgical I  
  (Clinical)  
  (5)
- NURS 82P Pharmacology II  
  (1.5)
- NURS 83 Perinatal Nursing  
  (2)
- NURS 83L Perinatal Nursing (Clinical)  
  (2.5)
- NURS 83A Pediatric Nursing  
  (2)
- NURS 83AL Pediatric Nursing (Clinical)  
  (2.5)
- NURS 83P Pharmacology III  
  (1.5)
- NURS 83PL Pharmacology III Laboratory  
  (0.5)
- NURS 84 Medical/Surgical II (Care of the Older Adult)  
  (4)
- NURS 84L Medical/Surgical II (Care of the Older Adult) - Clinical  
  (5)
- NURS 84C Critical Thinking in Nursing  
  (2)
- NURS 85 Advanced Medical-Surgical Concepts  
  (2)
- NURS 85L Advanced Medical-Surgical Clinical  
  (2.5)
- NURS 85A Psychiatric/Mental Health Nursing (Theory)  
  (2)
- NURS 85AL Psychiatric/Mental Health Nursing (Clinical)  
  (2.5)

2019-2020 DE ANZA COLLEGE CATALOG
Nursing A.S. Degree General Education Requirements Complete with a minimum 2.0 GPA:
• One course from GE Area C1 - Arts (4 units)
• One course from GE Area C2 - Humanities (4 units)
• One unit from GE Area E in PE or PEA activities
• One Intercultural Studies course taken in Area C or D

Note: A.S. Degree General Education Areas A, B and D are satisfied through completion of the prerequisites and major courses.

Recommended
NURS 151, 152, 153, 154

Program Learning Outcomes - upon completion, students will be able to:
• Evaluate, critique and analyze legal and factual information.
• Synthesize and analyze legal and factual information through effective written and oral communication.
• Compare and contrast the American and California legal systems within a global legal environment.
• Research legally relevant facts from diverse source materials.
• Assess the quality of information and utilize appropriate informational resources to evaluate a legal issue.

Certificate of Achievement-Advanced
For a Certificate of Achievement-Advanced, students must have an A.A./A.S. degree or higher, complete the required 48 units listed below for the Paralegal Studies A.A. degree and meet the requirements for this certificate level.

A.A. Degree
1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

Complete a minimum of 12 units:
PARA 67 Law Office Management for Paralegals 2
PARA 86 Legal Analysis 4
PARA 88 The Paralegal and Professional Responsibility 2
PARA 92A Partnerships and Corporations 4
PARA 94 Introduction to California Law 4
PARA 95 Overview of American Law also listed as ADMJ 95 and POLI 95 4
PARA 96A Introduction to Legal Research and Writing 4
PARA 97A Civil Litigation Procedures 4
PARA 97B Advanced Civil Litigation Procedures 4

Paralegal graduates cannot give legal advice, appear in court, or otherwise engage in the unauthorized practice of law. The practice of law by non-attorneys is strictly prohibited by law.
**PHILOSOPHY**

**Associate in Arts in Philosophy for Transfer**

**A.A.-T. Degree**

The Philosophy major consists of courses appropriate for an Associate in Arts in Philosophy for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline, and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in Philosophy for Transfer is intended for students who plan to complete a bachelor's degree in Philosophy at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

**Program Learning Outcomes - upon completion, students will be able to:**

- Analyze and evaluate a broad range of figures, texts, ideas, theories, and problems within philosophy.
- Apply philosophical methods to the development and defense of original critical theses.

2. Complete the following:

**Complete two courses:**

- PHIL 1 Introduction to Philosophy (4)
- PHIL 7 Deductive Logic (4)
- PHIL 8 Ethics (4)

**Complete two courses below or from above (not already taken):**

- PHIL 20A History of Western Philosophy - Ancient Greece (4)
- PHIL 20B History of Western Philosophy - 1400-1800 (4)
- PHIL 20C History of Western Philosophy - 1800-the Present (4)

**Complete two courses below or from above (not already taken):**

- PHIL 2 Social and Political Philosophy (4)
- PHIL 24 Philosophy of Religion (4)
- PHIL 30 Introduction to Existentialism (4)

**Complete one course below or from above (not already taken):**

- PHIL 3 Critical Thinking and Writing (5)
- PHIL 4 Critical Thinking (4)
- PHIL 11 Asian Philosophy (4)
- PHIL 49 Women and Philosophy (4)

**Transfer GE**

CSUGE or IGETC for CSU pattern (47-61 units)

**Electives**

CSU-transferable elective courses required when the major units plus transfer GE units total is less than 90

**Total Units Required ....................................90**
# PHOTOGRAPHIC ARTS
## (FILM AND DIGITAL)

### Photographic Arts (Film and Digital)
#### A.A. Degree

This A.A. degree provides a comprehensive foundation in contemporary and traditional methods of photography. Digital imaging, traditional processing and printing, alternative processes, lighting, history and the visual language of photography are studied. Emphasis is on personal expression through creative process and technical excellence.

**Program Learning Outcomes - upon completion, students will be able to:**
- Demonstrate accomplished skill in both dry (digital) and wet (analog) darkroom methods.
- Create photographs that visually communicate ideas and concepts while engaging in the practices, theories and materials of the medium.
- Critically analyze and assess diverse historical and contemporary photographic works.
- Present finished photographic works for peer, professional or academic review.
- Evaluate and critique photographic artwork and receive criticism from others.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following, starting with PHTG 1 and PHTG 4 first.

**POLITICAL SCIENCE**

### Associate in Arts in Political Science for Transfer
#### A.A.-T. Degree

The Political Science major consists of courses appropriate for an Associate in Arts in Political Science for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in Political Science for Transfer is intended for students who plan to complete a bachelor's degree in Political Science at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.
Program Learning Outcomes - upon completion, students will be able to:

• Evaluate how political decisions are shaped by institutions and processes.
• Assess the impact of political decisions on individuals and groups.
• Demonstrate the capacity to critically analyze and apply political values.
• Demonstrate the capacity to participate effectively in the political process.

2. Complete the following.

POLI 1 American Government and Politics 5
or POLI 1H American Government and Politics - HONORS

Complete three courses: 12-13

PROFESSIONAL PHOTOGRAPHY (FILM AND DIGITAL)

Professional Photography (Film and Digital)
Certificate of Achievement
This Certificate of Achievement provides a foundation in the basics of photography including digital imaging, traditional processing and printing, and lighting. It also recognizes the importance of personal expression and the use of photography as a visual language. Students wishing to work in the industry, transfer, or complete an A.A. degree in Professional Photography should consider completing this certificate.

Program Learning Outcomes - upon completion, students will be able to:

• Demonstrate basic skills in both wet and dry darkroom methods as well as beginning lighting techniques.
• Create photographs that visually communicate ideas and concepts while engaging the practices, theories and materials of the medium.
• Evaluate and critique imagery and receive criticism from others.

1. Meet the requirements for this certificate level.
2. Complete the following, starting with PHTG 1 and PHTG 4 first.

PHTG 1 Basic Photography 3
PHTG 4 Introduction to Digital Photography 3
PHTG 5 Intermediate Digital Photography 3
PHTG 57A Commercial Lighting I 3
PHTG 58A Photographic Photoshop I 3

Complete one course: 3

PHTG 2 Intermediate Photography (3)
PHTG 3 Advanced Photography (3)
PHTG 54 Experimental Photography (3)
PHTG 57B Commercial Lighting II (3)
PHTG 58B Photographic Photoshop II (3)

Total Units Required ....................................18

Professional Photography (Film and Digital)
A.A. Degree
This A.A. degree program provides a comprehensive foundation in contemporary and traditional methods of photography. Digital imaging, processing and printing, lighting, history, business practices and the visual language of photography are studied. Emphasis is on the photography techniques appropriate for those entering the industry today.

Total Units Required ....................................90
Program Learning Outcomes - upon completion, students will be able to:

• Demonstrate advanced skills in both dry (digital) and wet (analog) darkroom methods as well as commercial studio techniques.
• Create photographs that visually communicate ideas and concepts while engaging the practices, theories and materials of the medium.
• Critically analyze and assess diverse historical and contemporary photographic works.
• Present commercially viable photographic works for peer, professional or academic review.
• Demonstrate understanding of basic business principles and relevant industry practices.
• Communicate effectively in written and oral formats.

1. Meet the A.A./A.S. degree requirements.
2. Complete the following, starting with PHTG 1 and PHTG 4 first.

PSYCHOLOGY

Associate in Arts in Psychology for Transfer

A.A.-T. Degree

The Psychology major consists of courses appropriate for an Associate in Arts in Psychology for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline, and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in Psychology for Transfer is intended for students who plan to complete a bachelor's degree in Psychology at a CSU campus. Students completing
Program Learning Outcomes - upon completion, students will be able to:

- Apply the scientific method to the study of behavior and mental processes.
- Understand historical and contemporary perspectives of psychology and be able to apply these theories to real-world experiences.
- Prepare to apply psychological concepts and theories to local and global issues affecting all beings as well as the environment.

2. Complete the following:

   MATH 10 Introductory Statistics (5) 4-5
   or MATH 10H Introductory Statistics - HONORS (5)
   or PSYC 15 Basic Statistics and Research Methods in Social and Behavioral Sciences (4) also listed as SOC 15
   PSYC 1 General Psychology 4
   PSYC 2 Experimental Methods in Psychology and Behavioral Science 6

   Complete one course: 4-5
   BIOL 10 Introductory Biology (5)
   or BIOL 10H Introductory Biology - HONORS (5)
   BIOL 11 Human Biology (5)
   PSYC 24 Introduction to Psychobiology (4)

   Complete one course below or from above (not already taken): 4
   PSYC 8 Introduction to Social Psychology (4)
   PSYC 14 Developmental Aspects of Psychology (4)

   Complete two courses below or from above (not already taken): 8-10
   ANTH 2 Cultural Anthropology (4)
   or ANTH 2H Cultural Anthropology - HONORS (4)

JOUR 21A News Writing and Reporting 3
JOUR 21B Feature Writing and Reporting 3
JOUR 61A Student News Media Production I 3
JOUR 80 Introduction to Public Relations 4

Complete three courses:

BUS 10 Introduction to Business (5)
BUS 89 Advertising (5)
COMM 70 Effective Organizational Communication (5)
or COMM 70H Effective Organizational Communication - HONORS (5)
EWRT 1B Reading, Writing and Research (5)
or EWRT 1BH Reading, Writing and Research - HONORS (5)
EWRT 2 Critical Reading, Writing and Thinking (5)
or EWRT 2H Critical Reading, Writing and Thinking - HONORS (5)
JOUR 61B Student News Media Production II (3)
JOUR 61C Editorial Leadership for Student News Media (3)

Total Units Required ........................................... 38-42

REAL ESTATE

Real Estate

Certificate of Achievement

A.A. Degree

The Certificate of Achievement and A.A. degree in Real Estate provide the student with a thorough understanding of the California residential real estate market from a buyer’s, seller’s and real estate professional’s perspective. In addition, students completing the program meet the minimum requirements to sit for the California Real Estate Sales License exam.

Program Learning Outcomes - upon completion, students will be able to:
- Demonstrate knowledge of how real property is described, acquired, appraised, financed, encumbered and leased and how title to real property is held in California.
- Demonstrate knowledge of the risks, returns, legal issues and ethical issues involved in the purchase, holding and sale of California real estate.
- Qualify to take the California Department of Real Estate salesperson examination.

Certificate of Achievement

1. Meet the requirements for this certificate level.
2. Complete the following.

REST 50 Real Estate Principles 4
REST 51 Real Estate Practices 4
REST 52A Legal Aspects of Real Estate 4
REST 53 Real Estate Finance 4
REST 61 Real Estate Investments 4

Complete a minimum of five units:

ACCT 1A Financial Accounting I (5)
or ACCT 1AH Financial Accounting I - HONORS (5)
ACCT 1B Financial Accounting II (5)
or ACCT 1BH Financial Accounting II - HONORS (5)
ACCT 1C Managerial Accounting (5)
or ACCT 1CH Managerial Accounting - HONORS (5)
BUS 10 Introduction to Business (5)
BUS 18 Business Law I (5)
BUS 21 Business and Society (5)
BUS 58 The Business Plan (4)
BUS 90 Principles of Marketing (5)
BUS 94 Promoting Your Business with Social Media (5)

Total Units Required ........................................... 25

A.A. Degree

1. Meet the A.A./A.S. degree requirements.
2. Complete the following.

REST 50 Real Estate Principles 4
REST 51 Real Estate Practices 4
REST 52A Legal Aspects of Real Estate 4
REST 53 Real Estate Finance 4
REST 61 Real Estate Investments 4

Complete a minimum of 25 units:

ACCT 1A Financial Accounting I (5)
or ACCT 1AH Financial Accounting I - HONORS (5)
ACCT 1B Financial Accounting II (5)
or ACCT 1BH Financial Accounting II - HONORS (5)
ACCT 1C Managerial Accounting (5)
or ACCT 1CH Managerial Accounting - HONORS (5)
BUS 10 Introduction to Business (5)
BUS 18 Business Law I (5)
BUS 21 Business and Society (5)

BUS 90 Principles of Marketing (5)
BUS 94 Promoting Your Business with Social Media (5)
SOCIOLOGY

Associate in Arts in Sociology for Transfer
A.A.-T. Degree
The Sociology major consists of courses appropriate for an Associate in Arts in Sociology for Transfer degree, which provides a foundational understanding of the discipline, a breadth of coursework in the discipline and preparation for transfer to any CSU that accepts the Transfer Model Curriculum (TMC). The Associate in Arts in Sociology for Transfer is intended for students who plan to complete a bachelor's degree in Sociology at a CSU campus. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept this degree will be required to complete no more than 60 (semester) units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with a counselor for more information on university admission and transfer requirements.

Program Learning Outcomes - upon completion, students will be able to:
• Apply the sociological imagination to analyze and evaluate real world situations and problems.
• Demonstrate the above capacity (first outcome) in written or oral communication.

2. Complete the following.

SOC 1 Introduction to Sociology 4

Complete two courses:
SOC 14 The Process of Social Research (4)
SOC 15 Basic Statistics and Research Methods in Social and Behavioral Sciences (4)
SOC 20 Social Problems (4)

Complete three courses below or from above (not already taken):

PSYC 8 Introduction to Social Psychology (4)
SOC 28 Sociology of Gender (4)
SOC 29 Sociology of Structural Racism in the United States (4)
or ICS 4 Race, Ethnicity and Inequality (4)
SOC 35 Marriage, Family, and Intimate Relationships (4)

Complete one course below or from above (not already taken):

GEO 10 World Regional Geography (4)
PSYC 1 General Psychology (4)
SOC 51 Women in Crime (4)
SOC 54 Youth and the Law (4)
SOC 73 Crime and Criminology (4)

Total Units Required ....................................90

For more program information see the California Department of Real Estate Web site at dre.ca.gov.

TRANSFER STUDIES

CSUGE

Certificate of Achievement-Advanced
This Certificate of Achievement-Advanced is designed for students planning to transfer to the California State University (CSU). It offers a program of study that meets the CSU lower division General Education requirements. Though completion of lower division General Education is not usually required to transfer, and not recommended for certain majors, most students should make completion of all or most of CSU GE requirements a priority, along with completion of their lower-division major coursework. Students are advised to meet with a counselor or academic adviser to discuss transfer requirements, including General Education, lower division major preparation, minimum and competitive GPAs, and the transfer admission process.

To earn this advanced certificate, students must meet all CSU GE Breadth requirements found at deanza.edu/articulation/ge-requirements. Courses on this advanced certificate are approved for a specific academic year, so requirements listed in catalogs for other years do not apply. Courses must be on the approved list during the year in which they were taken. For approved courses by academic year, see assist.org. This advanced certificate will be noted on the student's transcript.

Important: The Certificate of Achievement-Advanced differs from the CSU GE "certification form" required by most CSU campuses to verify completion of lower division General Education work. Not all criteria required for the advanced certificate applies to the CSU GE "certification." Upon enrolling in final course requirements and receiving conditional admission to the university, students must submit a request for certification to the De Anza College Admissions and Records Office. CSU GE certification request forms are available at the Admissions and Records Office and online at deanza.edu/counseling/forms.
Program Learning Outcomes - upon completion, students will be able to:

- Communicate effectively both verbally and in writing.
- Critically analyze and problem-solve using applicable techniques, incorporating the appropriate use of logic, mathematical and quantitative reasoning concepts, scientific theories, data, and the scientific method, while considering value systems and ethics associated with human inquiry.
- Critically examine the interrelationship between the self and the creative arts and of the humanities in a variety of cultural and historical perspectives, through the study of the arts, history, literature, philosophy and foreign languages.
- Critically analyze issues in their contemporary and historical settings and in a variety of cultural contexts, while exploring the principles, methodologies, value systems and ethics employed in social scientific inquiry.

1. Meet the requirements for this certificate level.
2. Complete the following.

See CSU GE pattern found at deanza.edu/articulation/ge-requirements.

Note: This is an exception to the Certificate of Achievement-Advanced Requirements. The requirements are stated within the description.

Total Units Required ....................................58

IGETC Certificate of Achievement-Advanced

This Certificate of Achievement-Advanced is designed for students planning to transfer to either the University of California (UC) or the California State University (CSU) systems. It offers a program of study that meets the Intersegmental General Education Transfer Curriculum (IGETC) requirements. Though completion of lower division General Education is not usually required to transfer*, and not recommended for certain majors, most students should make completion of all or most of IGETC a priority, along with completion of their lower-division major coursework. Students are advised to meet with a counselor or academic adviser to discuss transfer requirements, including General Education, lower division major preparation, minimum and competitive GPAs, and the transfer admission process.

To earn this advanced certificate, students must complete a minimum of 47-61 units, depending on the Option selected, distributed among five to six areas outlined in the IGETC pattern found at deanza.edu/articulation/ge-requirements, with a C grade or higher in each course (or with a Pass if the course was taken on a Pass/No Pass basis and the Pass is equal to a C or higher grade). Courses on this advanced certificate are approved for a specific academic year, so requirements listed in catalogs for other years do not apply. Courses completed for this advanced certificate must be on the approved list during the year in which they were taken.

Important: The Certificate of Achievement-Advanced differs from the IGETC “certification form” required by most UC and CSU campuses to verify completion of lower division General Education work. Not all criteria required for the advanced certificate applies to this IGETC “certification.”

Upon enrolling in final course requirements and receiving conditional admission to the university, students must submit a request for certification to the De Anza College Admissions and Records Office. IGETC certification request forms are available at the Admissions and Records Office and online at deanza.edu/counseling/forms.

*A college or specific program may specify full IGETC certification is required for admission under certain conditions. Students should meet with a De Anza counselor or academic adviser to determine if IGETC is the best option to meet their specific transfer goals.

(For UC Option) Demonstrate proficiency in a language other than English and knowledge of the associated history and culture, at the level achieved through two years of high school study.

Program Learning Outcomes - upon completion, students will be able to:

- Communicate effectively both verbally and in writing.
- Critically analyze and problem-solve using applicable techniques, incorporating the appropriate use of logic, mathematical and quantitative reasoning concepts, scientific theories, data, and the scientific method, while considering value systems and ethics associated with human inquiry.
- Critically examine the interrelationship between the self and the creative arts and of the humanities in a variety of cultural and historical perspectives, through the study of the arts, history, literature, philosophy and foreign languages.
- Critically analyze issues in their contemporary and historical settings and in a variety of cultural contexts, while exploring the principles, methodologies, value systems and ethics employed in social scientific inquiry.

1. Meet the requirements for this certificate level.
2. Complete the following.

See IGETC pattern found at deanza.edu/articulation/ge-requirements.

Note: This is an exception to the Certificate of Achievement-Advanced Requirements. The requirements are stated within the description.

Total Units Required .........................47-61

WOMEN’S STUDIES

Women’s Studies

Certificate of Achievement

The Certificate of Achievement in Women’s Studies prepares students to be well-informed community leaders, agents of change in the workplace, and responsible participants in civic life in general, especially in spaces and circumstances that directly impact women and members of the LGBTQ community. Students completing this certificate are prepared to transfer their credits to universities that emphasize Women’s Studies and civic engagement, work as an entry-level community organizer or as a staff person at a nonprofit organization that serves women or members of the LGBTQ community. Students who plan to pursue a transfer degree can use the skills...
obtained to analyze the social forces at work in, and to take leadership in, their areas of work or study. Campuses that offer a baccalaureate major or related majors include University of California, Santa Barbara; University of California, Berkeley; and University of California, Riverside.

Program Learning Outcomes - upon completion, students will be able to:
• Analyze the social processes that foster inequality and disempowerment for women, women of color, and members of the LGBTQ community, as well as those social processes that challenge inequality and lead to empowerment of those same populations.
• Analyze the ways that social processes are amenable to transformation through strategic planning and constituent mobilization.
• Apply leadership skills, such as group facilitation, strategic planning, consensus-building and generating buy-in from community stakeholders, with the aim of fostering social justice and empowerment, particularly for women and members of the LGBTQ community.

1. Meet the requirements for this certificate level.
2. Complete the following.

| CIS | Student may receive credit for either (CIS 22A and 22B) or CIS 27, but not both.  
Student may receive credit for either (CIS 36A and 36B) or CIS 35A, but not both | |
| COUN | COUN 5, CLP 70, 75, EDMC 1 and HUMA 20 combined: maximum credit, 4.5 quarter units | |
| ESCI | ESCI 19, 20, 21 and 30 combined: maximum credit, one course | |
| F/TV | F/TV 2A, 2AH, 2AW and 2AWH combined: maximum credit, one course | |
| F/TV 2B, 2BH, 2BW and 2BWH combined: maximum credit, one course | |
| FREN | FREN 2 corresponds to two years of high school study | |
| GERM | GERM 2 corresponds to two years of high school study | |
| HUMA | HUMA 20, CLP 70, 75, COUN 5 and EDMC 1 combined: maximum credit, 4.5 quarter units | |
| ITAL | ITAL 2 corresponds to two years of high school study | |
| JAPN | JAPN 2 corresponds to two years of high school study | |
| JOUR | JOUR 21A and 21B - Any or all of these courses combined: maximum credit, one course | |
| KINES | Any or all of these KINES Activity courses combined: maximum credit, 6 quarter units  
See full course list with limitations at [ASSIST.org](http://www.ASSIST.org) | |
| KORE | KORE 2 corresponds to two years of high school study | |
| MAND | MAND 2 corresponds to two years of high school study | |
| MATH | MATH 1A, 1AH and 12 combined: maximum credit, one course | |
| MATH 10, 10H, 17, 23, PSYC 15 and SOC 15 combined: maximum credit, one course | |
| MATH 17 Students must complete both Statway courses.  
Maximum credit limitation: 6 quarter units / 4 semester units;  
UC transferable for students applying to UC for fall 2016 and later | |
| MATH 41, 41H, 42, 42H, 43 and 43H combined: maximum credit, 7.5 quarter units / 5 semester units | |
| MUSI | No credit for MUSI 10A if taken after MUSI 3A | |
| PARA | PARA 25, ADMJ 3, 11 and 25 combined: maximum credit, one course | |
| PERS | PERS 2 corresponds to two years of high school study | |
| PE/PEA | Any or all PE Activity courses combined: maximum credit, 6 quarter units | |
| PE/PEA | Any or all PE Theory courses combined: maximum credit, 12 quarter units | |
| PHYS | No credit for PHYS 10 if taken after PHYS 2A or 4A | |
| PSYC | PSYC 15, 10, 10H, 17, 23 and SOC 15 combined: maximum credit, one course | |
| RUSS | RUSS 2 corresponds to two years of high school study | |
| SIGN | SIGN 2 corresponds to two years of high school study | |
| SOC | SOC 15, 10, 10H, 23, 57 and PSYC 15 combined: maximum credit, one course | |
| SPAN | SPAN 2 corresponds to two years of high school study | |
| VIET | VIET 2 corresponds to two years of high school study | |
| Variable Topics Courses | These courses are also called “Independent Studies,” “Special Topics,” “Field Work,” etc. Credit for variable topics courses is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty.  
Information about internships may also be presented for review, but credit for internships rarely transfers to UC. UC does not grant credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice (Criminology) or Library Departments because of credit restrictions in these areas. | |
| Honors Course Credit Limitation | Duplicate credit will not be awarded for both the honors and regular versions of a course. Credit will only be awarded to the first course completed with a grade of “C” or better. | |
CREDIT COURSE REPETITION, REPEATABILITY AND FAMILIES

REPETITION VS. REPEATABILITY

Repetition occurs when a student who has previously received a grade in a particular credit course re-enrolls in that same course and receives another grade (CCR § 55023). Title 5 regulations specify the circumstances under which a student may repeat a course (CCR § 55040-45, 55253 and 56029).

Repeatability occurs when a student repeats a specific credit course, designated by the Foothill-De Anza Community College District as repeatable (CCR § 55041). These specific, repeatable courses have limitations on how many times a student can repeat the course (see course description). Per Title 5 regulations, the maximum number of times a student can repeat a credit course in a quarter system is six times, even if the student receives a substandard grade or a W during one or more of the enrollments, unless otherwise specified.

CREDIT COURSE REPETITION

Credit course repetition is regulated by state guidelines as described in Title 5 of the California Code of Regulations (CCR § 55040). Students are limited to a maximum of three enrollments in a course unless otherwise specified in the course description. Students may only petition to repeat a course beyond the maximum allowed enrollments under the following conditions:

■ Alleviating substandard work (CCR § 55042)
■ A significant lapse of time (three years) since the last time the student was enrolled in the course (CCR § 55043)
■ Legally mandated training for employment or licensure (CCR § 55000)
■ Extenuating circumstances (CCR § 55045)
■ Students with disabilities who require a disability-related accommodation (CCR § 56029)

CREDIT COURSE REPETITION
(with standard grade)

Students may only repeat a course, when a standard grade (A, B, C, P or CR) was received if the course specifies repeatability (see course description).

CREDIT COURSE REPEATABILITY

De Anza College only designates the following types of credit courses to be repeatable per Title 5 (CCR § 55041):

■ Courses for which repetition is necessary to meet the major requirements of CSU or UC for completion of a bachelor’s Degree
■ Intercollegiate athletics
■ Specific courses designated as Special Education and meet the criteria set forth in Title 5

These courses clearly state the terms of the course repeatability in their course descriptions.

ACTIVE PARTICIPATORY COURSE LIMITATIONS
(Course Families)

Per the California Community College Board of Governors, a student may not have more than six enrollments in any active participatory courses that are related in content. This limitation also applies to students who receive a substandard grade (D, F, NP or NC) or withdrew from a course with a W for one or more of the enrollments (CCR § 55000).

Active participatory courses included in this restriction are courses in physical education, visual arts and performing arts offered within the Foothill-De Anza Community College District.

Both Foothill and De Anza colleges have created “Course Families” within the District to address this limitation. These families include courses from Foothill and De Anza that have been determined to have related or contain similar content, and therefore, can only be taken in any combination for no more than six enrollments.

Prior to fall 2013, students were able to repeat active participatory courses. However, as of fall 2013, all active participatory courses are non-repeatable and can only be taken one time subject to the limitations set forth in Title 5 (CCR § 55040(c).

This limitation does not contain a grandfather clause. Therefore, if a student has reached the maximum times of enrollment within a family, then he or she cannot enroll in any course within the family again within the Foothill-De Anza Community College District.

Additionally, if a student enrolls in a De Anza course that is equivalent to a Foothill course, within a course family, they may not take the Foothill course at any time, and vice-versa.

For example: ARTS 4B at De Anza is equivalent to ART 4B at Foothill. If a student has taken or plans on taking ARTS 4B at De Anza, then that student cannot have taken or plan on taking ART 4B at Foothill.

For more information on course repetition, repeatability and families, please visit deanza.edu/apply-and-register/register/repeat_limits.
**ACCT 1A** Financial Accounting I 5 Units
(Not open to students with credit in ACCT 1AH.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Five hours lecture (60 hours total per quarter).
The primary objective of this course is to help students learn how accounting meets the information needs of various users by developing and communicating information that is used in decision-making. Accordingly, the expected student outcome is the demonstration that the student can read, analyze and interpret external financial statements.

**ACCT 1AH** Financial Accounting I - HONORS 5 Units
(Not open to students with credit in ACCT 1A.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Five hours lecture (60 hours total per quarter).
The primary objective of this course is to help students learn how accounting meets the information needs of various users by developing and communicating information that is used in decision-making. Accordingly, the expected student outcome is the demonstration that the student can read, analyze and interpret external financial statements. As an honors course, the students will be expected to complete extra assignments to gain deeper insight in accounting.

**ACCT 1B** Financial Accounting II 5 Units
(Not open to students with credit in ACCT 1B.)
Prerequisite: ACCT 1A or ACCT 1AH.
Five hours lecture (60 hours total per quarter).
The primary objective of this course is to help students learn how accounting meets the information needs of various users by developing and communicating information that is used in decision-making. Accordingly, the expected student outcome is the demonstration that the student can read, analyze and interpret external financial statements, including corporate and partnership financial statements.

**ACCT 1BH** Financial Accounting II - HONORS 5 Units
(Not open to students with credit in ACCT 1B.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: ACCT 1A or ACCT 1AH.
Five hours lecture (60 hours total per quarter).
The primary objective of this course is to help students learn how accounting meets the information needs of various users by developing and communicating information that is used in decision-making. Accordingly, the expected student outcome is the demonstration that the student can read, analyze and interpret external financial statements. As an honors course, the students will be expected to complete extra assignments to gain deeper insight in accounting.

**ACCT 1C** Managerial Accounting 5 Units
(Not open to students with credit in ACCT 1CH.)
Prerequisite: ACCT 1B or ACCT 1BH.
Five hours lecture (60 hours total per quarter).
Study the role of management accounting information in organizations for operational control, product and customer costing and performance measurement.

**ACCT 1CH** Managerial Accounting - HONORS 5 Units
(Not open to students with credit in ACCT 1C.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: ACCT 1B or ACCT 1BH.
Five hours lecture (60 hours total per quarter).
Study the role of management accounting information in organizations for operational control, product and customer costing and performance measurement. As an honors course, the students will be expected to complete extra assignments to gain deeper insight in Accounting.

**ACCT 51A** Intermediate Accounting 5 Units
Prerequisite: ACCT 1B or ACCT 1BH.
Five hours lecture (60 hours total per quarter).
Principles, control, and theory of accounting for assets, financial statements, cash and cash flows, receivables, inventories, plant and equipment, intangible assets.

**ACCT 51B** Intermediate Accounting 5 Units
Prerequisite: ACCT 1B or ACCT 1BH.
Advisory: ACCT 51A.
Five hours lecture (60 hours total per quarter).
Principles, control, and theory of accounting for liabilities and equities, corporations, accounting changes, pensions and leases, price level and fair-value accounting.

**ACCT 52** Advanced Accounting 5 Units
Prerequisite: ACCT 1B or ACCT 1BH.
Advisory: ACCT 51B.
Five hours lecture (60 hours total per quarter).
Principles, control, and theory of accounting for liabilities and equities, corporations, accounting changes, pensions and leases, price level and fair-value accounting. The primary objective of this course is to help students learn how accounting meets the information needs of various users by developing and communicating information that is used in decision-making. Accordingly, the expected student outcome is the demonstration that the student can read, analyze and interpret external financial statements. As an honors course, the students will be expected to complete extra assignments to gain deeper insight in accounting.

**ACCT 55** Auditing 5 Units
Prerequisite: ACCT 1B or ACCT 1BH.
Advisory: ACCT 51B.
Five hours lecture (60 hours total per quarter).
Study of environment, principle, and practices of financial statement audit. Topics include Generally Accepted Accounting Standards (GAAS), Sarbanes-Oxley Act 2002 regulatory requirements, internal controls and audit risk, audit planning, procedures, evidence, documentation and reports.

**ACCT 64** Payroll and Business Tax Accounting 4 Units
Prerequisite: ACCT 1A or ACCT 1AH.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 212 or equivalent.
Four hours lecture (48 hours total per quarter).

**ACCT 66** Cost Accounting 5 Units
Prerequisite: ACCT 1B or ACCT 1BH.
Advisory: ACCT 1C or ACCT 1CH.
Five hours lecture (60 hours total per quarter).
Procedures, practices, and fundamentals used by accountants when costing products or services, evaluating and measuring performances, and reporting results to users of accounting information.

**ACCT 67** Individual Income Taxation 5 Units
(Formerly ACCT 67A.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 210 or equivalent; ACCT 1A or ACCT 1AH (may be taken concurrently).
Five hours lecture (60 hours total per quarter).
A study of current federal and California state income tax law and the procedures for preparing an individual's tax return.

**ACCT 68** Advanced Tax Accounting 5 Units
Prerequisite: ACCT 1A or ACCT 1AH.
Five hours lecture (60 hours total per quarter).
A study of current federal income tax law as it relates to corporations, partnerships, estates, trusts, and gift taxes. California tax law differences will be highlighted.

**ACCT 72** Intermediate Accounting 5 Units
Prerequisite: ACCT 51B.
Five hours lecture (60 hours total per quarter).
The principles and methodology of fraud detection and deterrence as it relates to occupational fraud are covered in this course. Includes such topics as skimming, cash larceny, check tampering, register disbursement schemes, billing schemes, payroll and expense reimbursement schemes, non-cash misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, risk assessment and interviewing witnesses.

**ACCT 73** Advanced Accounting 5 Units
Prerequisite: ACCT 72 or ACCT 1BH.
Five hours lecture (60 hours total per quarter).
A study of current federal income tax law as it relates to corporations, partnerships, estates, trusts, and gift taxes. California tax law differences will be highlighted.

**ACCT 74** Accounting Ethics 5 Units
Prerequisite: ACCT 1A or ACCT 1AH.
Five hours lecture (60 hours total per quarter).
A study of professional ethics for accounting from a business perspective in context of financial statement fraud and similar business fraud. Topics include nature of accounting, ethical behavior in accounting, regulatory licensing, ethical theory, rules of the code of conduct, ethics of tax accounting and ethics of the auditing function.

**ACCT 75** Accounting for Government and Nonprofit Entities 5 Units
Prerequisite: ACCT 1B or ACCT 1BH.
Advisory: ACCT 1C or ACCT 1CH.
Five hours lecture (60 hours total per quarter).
A study of professional ethics for accounting from a business perspective in context of financial statement fraud and similar business fraud. Topics include nature of accounting, ethical behavior in accounting, regulatory licensing, ethical theory, rules of the code of conduct, ethics of tax accounting and ethics of the auditing function.
universities and hospitals, and certain nonprofit organizations. The course will emphasize the importance to governmental agencies of properly discharging their responsibilities to taxpayers. These responsibilities include the proper accounting for and budgeting of tax and related revenues and expenditures. The course will also emphasize the importance to nonprofit entities of meeting the financial reporting and management needs of various stakeholders such as donors, service providers and recipients, community members, and regulatory agencies. Funds, fund accounting, and the newest GASB and FASB pronouncements relating to accounting for governmental and nonprofit entities are also presented.

**ACCT 86  Computer Accounting Systems  5 Units**  
Prerequisite: ACCT 1A or ACCT 1AH.  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as CIS 86. Students may enroll in either department, but not both, for credit.)  
Five hours lecture (60 hours total per quarter).  
Fundamentals of computerized accounting using integrated general ledger software packages and electronic spreadsheet software. Conversion of a manual system to a computer system.

**ACCT 87AH  Computerized Accounting Programs I  2 Units (Peachtree - Windows)**  
Prerequisite: ACCT 1A or ACCT 1AH.  
Two hours lecture (24 hours total per quarter).  
Introduction to computerized accounting for service industry. Applications include general ledger setup, accounts payable, accounts receivable and payroll. Course will take advantage of new accounting software being used in industry.

**ACCT 87AI  Computerized Accounting Programs I  2 Units (Quickbooks)**  
Prerequisite: ACCT 1A or ACCT 1AH.  
Two hours lecture (24 hours total per quarter).  
Introduction to computerized accounting for service industry. Applications include general ledger setup, accounts payable, accounts receivable and payroll. Course will take advantage of new accounting software being used in industry.

**ACCT 87AJ  Computerized Accounting Programs I  2 Units (Microsoft Dynamics GP)**  
Prerequisite: ACCT 1A or ACCT 1AH.  
Two hours lecture (24 hours total per quarter).  
Introduction to computerized accounting for service industry. Applications include general ledger setup, accounts payable, accounts receivable and payroll. Course will take advantage of new accounting software being used in industry.

**ACCT 88  Excel Spreadsheets for Accounting  2 Units**  
Prerequisite: ACCT 1A or ACCT 1AH.  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 212 or equivalent; basic knowledge of Excel is highly recommended.  
Two hours lecture (24 hours total per quarter).  

**ACCT 105  Basic Financial Accounting Procedures  1 Unit**  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; ACCT 1A or ACCT 1AH.  
One hour lecture (12 hours total per quarter).  
Procedural aspects of accounting; including the accounting equation, analysis of business transactions, debit and credit rules, and aspects of the accounting cycle.

**Advisory:**  
EWRT 211 and READ 211 (or LART 211), ESL 272 and 273.

**Administration of Justice**

**ADMJ 1  Introduction to Administration of Justice  4 Units**  
Advisory: EWRT 1A or READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as POLI 10. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
An introduction to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement; theoretical explanations of crime, response to crime, components of the system and current challenges to the system. Examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principles and approaches. Although justice structure and process is examined in a cross-cultural context, an emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies.

**ADMJ 3  Concepts of Criminal Law (CP 2)  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as PARA 3 and POLI 13. Students may enroll in only one department for credit.)  
Four hours lecture (48 hours total per quarter).  
Historical development, philosophy of law and constitutional provisions; definitions, classification of crime, and their application to the system of administration of justice; legal research, study of case law, methodology, and concepts of law as a social force in a multicultural, multietnic society.

**ADMJ 5  Community Relations  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Four hours lecture (48 hours total per quarter).  
An examination of the complex, dynamic relationship between communities and the justice system by addressing crime and conflict with an emphasis on the challenges and prospects of administering justice within a diverse multicultural population. Topics covered may include crime prevention, restorative justice, conflict resolution, and ethics.

**ADMJ 6  Crime, Correction and Society  4 Unit(s)**  
(Formerly ADMJ 50.)  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Four hours lecture (48 hours total per quarter).  
A legal and sociological approach to understanding the fundamental ideas which have shaped correctional theories and practices. An in-depth study of adult sentencing, prisons, and jails subsystem including institutions by type and function, probation, parole, and community-based programs. A comprehensive examination of current correctional practices, punishment, rehabilitation, and community treatment programs with an emphasis on issues concerning race, ethnicity, and gender. This is a C-ID course.

**ADMJ 11  Federal Courts and Constitutional Law  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as PARA 11 and POLI 11. Students may enroll in only one department for credit.)  
Four hours lecture (48 hours total per quarter).  
Federal court procedure and the impact of U.S. Constitutional law on federal and state law. Read and analyze the Constitution. Effect of U.S. Supreme Court cases on current constitutional interpretation.

**ADMJ 25  Law and Social Change  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as PARA 25. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
Exploration of the use of law as an instrument for social change. Examination of the relationship between law and social change in cross-cultural settings. Analysis of legislation, case law, the process of conflict resolution and legal institutions as they relate to social change.

**ADMJ 29  Cultural Pluralism and American Law  4 Units**  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
(Also listed as ICS 29. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
An interdisciplinary study of marginalized peoples and their relationship to the law. Examines the legal perspective on cultural diversity in the United States by examining groups based on race, ethnicity, gender, class, religious background, disability, and sexual orientation. Analyzes how these groups interact with mainstream society through American law, concentrating on both historical and contemporary state and federal legislation and court rulings. Analyzes how the courts play a role in determining the status of minority groups. Analyzes the effect of law on cultural pluralism and cultural diversity in the United States.

**ADMJ 51  Women in Crime  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as SOC 51. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
An examination of the changing role of women in crime with emphasis on gender and cultural based differences related to victims, offenders and criminal justice professionals.

**ADMJ 53  Criminal Law II  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Four hours lecture (48 hours total per quarter).  
An advanced course in criminal law emphasizing substantive California statutory criminal codes.

**ADMJ 54  Youth and the Law  4 Units**  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
(Also listed as PARA 54 and SOC 54. Students may enroll in only one department for credit.)  
Four hours lecture (48 hours total per quarter).  
A legal and sociological approach to understanding the causes of juvenile delinquency; an examination of race, culture, and gender in juvenile delinquency; community responses to delinquency; organization, functions, and jurisdiction of both social and legal agencies; processing and detention; case disposition; statutes and court procedures.
ADMJ 55 Alcohol, Narcotics and Drug Abuse 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Designed to equip public service workers and the community with knowledge of the issues involved in drug abuse, including the history and classification of drugs and the problems facing society and the governing of illegal drug use.

ADMJ 56 Practical Writing for Administration of Justice 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Designed to acquaint the student with the basic principles, techniques and applications required to complete an effective, professional investigative report within the criminal justice system. Ethical standards and critical thinking, as they relate to report writing, will be examined.

ADMJ 61 Criminal Investigation 4 Units
Prerequisite: ADMJ 3 or PARA 3 or POLI 13 (may be taken concurrently) or ADMJ 75 or PARA 75 or POLI 75 (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Fundamentals of crime investigation; techniques of crime scene search and recording; collection and preservation of physical evidence; use of scientific aids; modus operandi processes; sources of information; interviewing techniques.

ADMJ 62 Sexual Assault, Police and Community Response 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PSYC 63. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Social and psychological aspects of sexual assault, the perpetrators and the victims; practical application of the police investigation, the criminal justice process, and social service intervention.

ADMJ 64 Administration of Justice Internship 1 Unit
ADMJ 64X 2 Units
ADMJ 64Y 3 Units
ADMJ 64Z 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory per unit of supervised internship in an authorized office or agency (36 hours total for each unit of credit per quarter).
Program of work experience and study in law enforcement, corrections/probation, private security or human services under the supervision of the instructor and agency personnel.

ADMJ 66 Administration of Justice Field Trips 1 Unit
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
A survey of current conditions in law enforcement, probation, and corrections and visits to adult or juvenile detention and correctional facilities in Northern California.

ADMJ 70 Crime and Criminality 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as SOC 70. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Introduction to major types of crime and criminal behavior, examining demographics and measurement of crime, theories of causation and victimization, crime prevention and crime control.

ADMJ 74A Interviewing, Interrogation and Crisis Intervention 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PARA 74A and PSYC 74A. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Theories, principles and strategies of tactical and interpersonal communication necessary to interview victims, witnesses, and suspects; crisis intervention strategies for victims and witnesses of crime; communication with individuals from diverse backgrounds with consideration to race, ethnicity, gender, age and special needs.

ADMJ 75 Principles and Procedures of the Justice System 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PARA 75 and POLI 75. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Procedures followed by law enforcement and courts in criminal cases; constitutional principles governing those procedures.

ADMJ 76 Correctional Investigation 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
History and development of probation and parole systems, including current practices at the federal, state and local levels. Investigation techniques needed for preparation of pre-sentence investigation reports, use of these reports in the courts, probation and parole supervision, and correctional institutions.

ADMJ 84 Forensic Science 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
A discussion on the techniques used by forensic scientists in identification, collection, comparison and analysis of different types of physical evidence from crime scenes. Intended for the non-science major seeking a law enforcement career but it is useful to all students interested in the field of forensic science. Emphasis will be given to trace evidence, DNA evidence, bloodstain patterns, firearms, tool marks, fingerprints, questioned documents, drugs, arson, explosives, computer forensics and courtroom expert witness testimony.

ADMJ 90A Legal Aspects of Evidence (CP 4) 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PARA 90A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
The origin, development, and content of the rules of evidence; kinds of degrees of evidence and rules governing admissibility of evidence.

ADMJ 95 Overview of American Law 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PARA 95 and POLI 95. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Overview of the major substantive areas of American law: contracts, constitutional law, corporations, criminal law, family law, property, torts, wills and estates.

Animation
(See Film and Television Production for course listings.)

Anthropology

ANTH 1 Physical Anthropology 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ANTH 1H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introduction to biological aspects of humans. A bio-cultural and an evolutionary approach is used to understand human variation and human evolution. Issues and topics will include, human variation and its adaptive significance, biological and behavioral evolution of humans, comparative primate anatomy and behavior, evolutionary theory, and the impact of cultural, technological and environmental change on human biology and behavior.

ANTH 1H Physical Anthropology - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ANTH 1.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introduction to biological aspects of humans. A bio-cultural and an evolutionary approach is used to understand human variation and human evolution. Issues and topics will include, human variation and its adaptive significance, biological and behavioral evolution of humans, comparative primate anatomy and behavior, evolutionary theory, and the impact of cultural, technological and environmental change on human biology and behavior. As an honors course, the students will be expected to complete extra assignments to gain deeper insight into anthropology.

ANTH 1L Physical Anthropology Laboratory 1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: ANTH 1 or ANTH 1H (either course may be taken concurrently).
Three hours laboratory (36 hours total per quarter).
Laboratory course in which the students apply and practice the scientific methods, techniques and procedures used by physical anthropologists to understand human evolution, non-human primates and human variation. Students gain practical experience and a deeper understanding by participating in lab exercises, activities and experiments that explore human evolution, osteology, forensics, genetics, modern human variation, primate anatomy and behavior.

ANTH 2 Cultural Anthropology 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ANTH 2H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The anthropological approach to the study of human behavior from a cross-cultural, comparative perspective. An exploration into the languages, subsistence, economics, sociopolitical systems, religions, and world views of diverse world cultures. An assessment of the dynamics of culture change and future prospects for humanity.
ANTH 2H Cultural Anthropology - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ANTH 2.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The anthropological approach to the study of human behavior from a cross-cultural, comparative perspective. An exploration into the languages, subsistence, economics, sociopolitical systems, religions, and world views of diverse world cultures. An assessment of the dynamics of culture change and future prospects for humanity. As an honors course, the students will be expected to complete extra assignments to gain deeper insight into anthropology.

ANTH 3 Introduction to Archaeology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introduction to the field of archaeology within the discipline of anthropology including discussion of scientific methods, the history of archaeology, field and laboratory methods used in the analysis of archaeological data, and theories used to interpret the past. This course explores how archaeologists recover, analyze material and reconstruct ancient cultures and societies. Archaeological ethics and real-world issues concerning looting, collecting, preservation, and the role of indigenous peoples will be examined.

ANTH 4 World Prehistory 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Worldwide patterns of cultural transformation, from the earliest foraging societies to the development of agrarian states. The prehistoric interpretation of these changes based upon the comparison of archaeological evidence from Africa, Asia, Europe, the Middle East, the Americas, and Oceania.

ANTH 5 Magic, Science, and Religion 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introduction to the analysis of systems of observation, deduction, reasoning, belief, and practical action across human culture past and present. Issues and topics include symbol, myth, and narrative; ritual and altered states of consciousness; specialist practitioners; healing, illness, and death; and relations between religion, science, politics, intercultural encounter, and historical change.

ANTH 6 Linguistic Anthropology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A cross-cultural investigation into the relationship between language and culture: language as a human attribute; language structure, historical origins, diversification, and change; gender and cultural variations in language usage; comparative analysis and classification of world languages; the origins and development of writing; microelectronic and the advent of the information age; globalization and language.

ANTH 7 Introduction to Forensic Anthropology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to forensic anthropology which is an applied field of physical anthropology. A comparative and holistic approach is used to interpret human skeletal remains and determine the age, sex, race, time of death, trauma, pathology, for the purpose of identification. Focus on varying areas in which forensic anthropology is used, such as in crime scene investigation, missing person identification, human rights, and humanitarian investigations.

ANTH 12 Introduction to Applied Anthropology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the field of museum studies or museology with a special emphasis on anthropology museums. Explores the meaning and function of museums and their changing role in the twenty-first century. Experience the curatorial role in an anthropology museum with hands-on experience in acquisition, conservation, identification, cataloging, exhibition, and interpretation of anthropological material.

ARTS 1A Introduction to the Visual Arts 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of visual imagery throughout the world, for the purpose of refining visual literacy skills. Works of art will be studied by means of formal analysis and medium, the social experiences of artists, the function of works of art in their original environment, and comparison of works from different cultures. Primary emphasis will be on paintings, graphic works, and sculpture.

ARTS 1B Architecture Past and Present 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of architecture throughout the world, for the purpose of refining visual literacy skills. Works of architecture will be studied comparatively with regard to form and function, and numerous architectural concepts will be examined.

ARTS 2A History of Art: Europe from Prehistory Through Early Christianity 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the discipline of art history through analysis of images, objects, and works of architecture produced from the prehistoric period of European history through approximately the year 600 CE, including discussion of Stone Age, Mesopotamian, Egyptian, Greek, Etruscan, Roman, and Byzantine cultures.

ARTS 2B History of Art: Europe During the Middle Ages and the Renaissance 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the discipline of art history through analysis of images, objects, and works of architecture produced from approximately 600 through 1600 CE, including discussion of Islamic and European cultures during the Middle Ages, and the art of the Renaissance (including Maniramer) in both northern and southern Europe.

ARTS 2C History of Art: Europe from the Baroque Period Through Impressionism 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the discipline of art history through analysis of images, objects, and works of architecture produced in Europe from c. 1600 through the 1880s, including discussion of both northern and southern European cultures.

ARTS 2D History of Art: Europe and the United States from Post-Impressionism to the Present 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the discipline of Art History through analysis of images, objects, and works of architecture produced from the 1880s to the present, including discussion of numerous European and American cultural groups.

ARTS 2F History of Art: Multicultural Arts in the United States 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 5. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A cross-cultural introduction to American art history which includes interdisciplinary study of diverse art forms generated by artists of color, including African Americans, Asian Americans, Native Americans, Latinas/o/Chicanas/o, and Americans of non-European heritage. Significant attention will be given to topics considered important by each ethnicity or group, as well as issues related to racism, gender, social class and contemporary social/political awareness. Traditions, values, and cultural expressions of diverse societies and their contributions to American visual culture are explored.

ARTS 2G History of Art: Arts of Asia 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as INTL 19. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A general introduction to art through major Asian artistic traditions. Focuses upon paintings, sculptures, ceramics, and architecture and their religious, cultural, historical, and social contexts. Examines arts from China, Japan, India, India, Central Asia, Himalayas, and Southeast Asia and assesses the contributions of Asian art in a global context.
ARTS 2H History of Art: Native Arts of Mesoamerica and the Andes 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as INTL 21. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A general introduction to the visual arts of the indigenous cultures of Mesoamerica, an area extending from northern Mexico through Central America, and the Andean region of South America. This course covers diverse art forms, including architecture and various media which emphasizes discussion of paintings, sculpture, and works of art history through analysis of art in the 20th century to the present day. Topics addressing the religious, cultural, social, economic and political contexts of the art will be explored. Compares indigenous arts of the Americas to other world art traditions and assesses the contributions of indigenous cultures in a global context.

ARTS 2J History of Art: Arts of Africa, Oceania and Native North America 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as INTL 22. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A general introduction to some of the many indigenous art traditions around the world, with emphasis placed upon traditional arts created for use in small-scale communities from the Americas, South Pacific region and Africa. Diverse art forms covered will include sculpture, painting, performance, ceramics, textiles and architecture from antiquity through the colonial period to the present. Topics addressing the religious, cultural, social, economic and political contexts of the art, as well as the impact of colonialism and representations of indigenous art in museums, will be explored. Compares arts from indigenous peoples to other world art traditions and assesses the contributions of indigenous arts in a global context.

ARTS 2L History of Art: Visual Arts of Islam 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as INTL 24. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An exploration of the visual arts of Islam in a global context, including comparative analysis of the arts from diverse regions of the Islamic world. Examines artistic traditions of calligraphy, miniature painting, textiles, decorative arts and architecture from the beginnings of the Islamic faith to the present, and Islamic contributions to world art history. Includes interdisciplinary analysis of Islamic visual arts, emphasizing the cultural and religious contexts, as well as issues related to gender and social class. The impact of colonialism in the Islamic world and Orientalism in Europe and America are briefly explored.

ARTS 3C Women and Art 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as WMST 3C. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A history of women in relation to society and the visual arts from prehistory to the present. Social perceptions and obstacles relevant to women artists will be discussed, and students will engage in cross-cultural comparison of works produced in western and non-western cultures made by women, and in which women serve as subject matter.

ARTS 3T American Art: Public and Private 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the discipline of Art History through analysis of art in the United States which emphasizes discussion of paintings, sculpture, and works of architecture produced for both public and private purposes, from the seventeenth century to the present day.

ARTS 3E Today's Art Scene 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Focuses on the issues and challenges facing today's working artists. Topics include: the roots of international contemporary art, technological influences on current art practices, and the essential components for assembling a dynamic portfolio presentation.

ARTS 4A Beginning Drawing 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; ARTS 8.
Three hours lecture, three hours laboratory (72 hours total per quarter).
(This course is included in the Drawing Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introductory course exploring the basic elements and principles of observational drawing, using traditional and experimental media.

ARTS 4B Intermediate Drawing 4 Units
Prerequisite: ARTS 4A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; ARTS 4B, 4D and 8.
Three hours lecture, three hours laboratory (72 hours total per quarter).
(This course is included in the Drawing Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An intermediate level drawing course focusing on the creative interpretation of subject matter utilizing a variety of experimental, as well as traditional, techniques and media.

ARTS 4C Life Drawing 4 Units
Prerequisite: ARTS 4A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; ARTS 4B, 4D and 8.
Three hours lecture, three hours laboratory (72 hours total per quarter).
(This course is included in the Drawing Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
A beginning drawing course focusing on the representation and interpretation of the human figure; with attention to drawing from life.

ARTS 4D Representational Drawing 4 Units
Prerequisite: ARTS 4A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; ARTS 8.
Three hours lecture, three hours laboratory (72 hours total per quarter).
(This course is included in the Drawing Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An intermediate level drawing course concentrating on observation and depiction of volume and perspective in a variety of drawing media.

ARTS 5 Two-Dimensional Design 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
A foundation course in the use of fundamental design elements and principles for two-dimensional art.

ARTS 10A Three-Dimensional Design 4 Units
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Introduction to design elements and principles as they apply to three-dimensional space and form. Idea explorations in various media including wire, clay, plaster, paper, wood, metals and found objects.

ARTS 10B Intermediate Three-Dimensional Design 4 Units
Prerequisite: ARTS 10A.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Further exploration and continuation of three-dimensional design focusing on individual projects. Use of various materials including wood, metals, plastic sheet and resin. Introduction of mold making and casting.

ARTS 12 Design and Color 4 Units
Prerequisite: ARTS 8.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
A fundamental course exploring theory and color in the visual arts.

ARTS 14A Watercolor Painting I 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
(This course is included in the Painting Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
A comprehensive introduction to transparent watercolor painting with emphasis on basic techniques.

ARTS 14B Watercolor Painting II 4 Units
Prerequisite: ARTS 14A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
(This course is included in the Painting Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
A continuation of ARTS 14A with further emphasis on basic transparent watercolor painting techniques that relate to the unusual characteristics of the medium, including the use of watercolor pencils.

<tr>
<td>ARTS 16A</td>
<td>Oil Painting I</td>
<td>4</td>
<td>Prerequisite: ARTS 4A. Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Painting Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. An introductory oil painting course exploring the application of the medium as it relates to the production of artwork through the translation of visual information. Preparation, concept and craft are fundamental as applied to aesthetic concerns.</td>
</tr>
<tr>
<td>ARTS 16B</td>
<td>Oil Painting II</td>
<td>4</td>
<td>Prerequisite: ARTS 16A. Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Painting Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. A continuation of ARTS 16A with further emphasis on basic techniques that relate to the unusual characteristics of the medium. Conceptual studies, color theory and aesthetics are primary concerns. Surfaces other than canvas will be required.</td>
</tr>
<tr>
<td>ARTS 16C</td>
<td>Oil Painting III</td>
<td>4</td>
<td>Prerequisite: ARTS 16C. Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Painting Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. A continuation of ARTS 16B with emphasis on processes rather than techniques. Primary concerns include shaped canvases, glazing techniques, ideas, expression, and aesthetics relating to the oil medium.</td>
</tr>
<tr>
<td>ARTS 18A</td>
<td>Ceramics</td>
<td>4</td>
<td>Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Construction Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. An introduction to ceramics materials, concepts, and processes including basic design principles, creative development, hand-building, throwing, glaze techniques, firing and ceramic terminology. Aesthetics and creative development of clay objects examining historical, contemporary, and personal modes of expression across cultures will be covered.</td>
</tr>
<tr>
<td>ARTS 18B</td>
<td>Ceramics (Beginning Wheel Throwing)</td>
<td>4</td>
<td>Prerequisite: ARTS 18A. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Construction Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Beginning techniques of throwing on the potter's wheel. Forming, shaping, trimming and decorating basic wheel thrown pieces. Use of stoneware firing techniques and processes in Ceramics (ARTS 18A).</td>
</tr>
<tr>
<td>ARTS 18C</td>
<td>Ceramics (Intermediate Wheel Throwing)</td>
<td>4</td>
<td>Prerequisite: ARTS 18B. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Construction Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Advanced techniques of throwing on the potter's wheel. Forming, shaping, trimming and ceramic kiln firing. Processes and development of intermediate wheel thrown pieces. Builds upon throwing techniques and processes in ARTS 18B, Ceramics (Beginning Wheel Throwing).</td>
</tr>
<tr>
<td>ARTS 18D</td>
<td>Ceramics Hand Building</td>
<td>4</td>
<td>Prerequisite: ARTS 18A. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Construction Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Advanced techniques of throwing on the potter’s wheel. Introduction to combined forms and developing the vessel as an aesthetic object. Development of shapes, function and individual expression with clay.</td>
</tr>
<tr>
<td>ARTS 18E</td>
<td>Ceramics (Advanced Wheel Throwing)</td>
<td>4</td>
<td>Prerequisite: ARTS 18C. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Construction Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. History and development of firing techniques, glaze, kilns and clay-bodies, for the Raku ceramic process.</td>
</tr>
<tr>
<td>ARTS 18F</td>
<td>Ceramics Surface Building</td>
<td>4</td>
<td>Prerequisite: ARTS 18D. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Surface Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Advanced techniques of throwing on the potter’s wheel. Introduction to combined forms and developing the vessel as an aesthetic object. Development of shapes, function and individual expression with clay.</td>
</tr>
<tr>
<td>ARTS 19H</td>
<td>Ceramics Raku</td>
<td>4</td>
<td>Prerequisite: ARTS 18A. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Surface Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Historical development, firing techniques, glaze, kilns and clay-bodies, for the Raku ceramic process.</td>
</tr>
<tr>
<td>ARTS 19J</td>
<td>Ceramics Techniques</td>
<td>4</td>
<td>Prerequisite: ARTS 18B. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Surface Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Surface treatments and refinement used in the production of stoneware, earthenware and porcelain.</td>
</tr>
<tr>
<td>ARTS 19K</td>
<td>Ceramics Decoration</td>
<td>4</td>
<td>Prerequisite: ARTS 18A. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Ceramic Surface Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Survey of earthenware as a ceramic material. Use of surface decoration, glazes and ceramic kiln firing.</td>
</tr>
<tr>
<td>ARTS 20</td>
<td>Ceramics Individual Laboratory</td>
<td>2</td>
<td>Prerequisite: ARTS 18D or ARTS 18E. Six hours laboratory (72 hours total per quarter). This course is included in the Ceramic Construction Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Supervised use of ceramic studio equipment for independent skill development; hand building, wheel throwing and kiln firing.</td>
</tr>
<tr>
<td>ARTS 37A</td>
<td>Sculpture</td>
<td>4</td>
<td>Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent; ARTS 10A. Three hours lecture, three hours laboratory (72 hours total per quarter). This course is included in the Sculpture Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information. Beginning sculpture, with an emphasis on idea development, visual investigation and the sculpture making process, including construction, carving, casting and mixed media.</td>
</tr>
</tbody>
</table>
ARTS 37B  Intermediate Sculpture  4 Units  
Prerequisite: ARTS 37A.  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
(This course is included in the Sculpture Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Intermediate sculpture with emphasis on further formulation of idea development, visual investigation and its making process. Additional materials and processes will be examined.

ARTS 37C  Advanced Sculpture  4 Units  
Prerequisite: ARTS 37B.  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
(This course is included in the Sculpture Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Advanced sculpture with an emphasis on idea development, visual investigation and the sculpture making process. Additional materials and processes will be examined and demonstrated.

ARTS 53  Introduction to Visual Technology  4 Units  
(Formerly ARTS 53A.)  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; ARTS 8.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
A survey course for artists and designers, using digital software as a medium of artistic expression. An introduction of fundamental concepts, practices, and theories of digital art production. Student projects will explore the creative and artistic potential of introductory software and experience how each one relates to today's artistic and digital media environment. Topics will include the integration of traditional design, color, and compositional principles with contemporary digital tools. Introductory use of Adobe Illustrator and Adobe InDesign.

ARTS 54  Visual Technology II  4 Units  
(Formerly ARTS 53B.)  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; ARTS 53.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Introductory use of art and design software for the computer. Emphasis on the creative process and the computer as a tool used by artists and designers today. Software used are Adobe Photoshop and Adobe After Effects.

ARTS 55A  Graphic Design-Communication I  4 Units  
Prerequisite: ARTS 53 or ARTS 54 or instructor approval.  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
The analysis and interpretation of the elements and principles of design as applied to the practice of graphic design and visual communication. Emphasis on the design process from visualization to production. Software used includes Adobe Photoshop, Adobe Illustrator and Adobe InDesign.

ARTS 55B  Graphic Design-Communication II  4 Units  
Prerequisite: ARTS 55A or instructor approval.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Continuation of the analysis and interpretation of the elements and principles of design as applied to the practice of graphic design and visual communication. Emphasis on the design process from visualization to production. Software used includes Adobe Photoshop, Adobe Illustrator and Adobe InDesign.

ARTS 55C  Graphic Design-Communication III: Production Techniques  4 Units  
Prerequisite: ARTS 55B or instructor approval.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Intermediate course in the preparation of art for reproduction on the printed page. Emphasis on computer procedures as well as computer production alternatives used by professionals in the field of graphic design. Software used includes Adobe Photoshop, Adobe Illustrator, Adobe Indesign and Adobe Flash.

ARTS 56  Graphic Design: Page Layout for Digital Publishing  4 Units  
Prerequisite: ARTS 53.  
Advisory: ARTS 55A.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Analysis and interpretation of the elements and principles of design as applied to the practice of publication design. Emphasis on the design process as it relates to the use of the computer to create type and image in electronic publishing. Primary software presented is Adobe InDesign. Other programs used are Adobe Photoshop and Adobe Illustrator.

ARTS 57  Graphic Design-Communication: Typography  4 Units  
Advisory: ARTS 53.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Interpretation of the elements and principles of design as applied to the use of typography in graphic design. Emphasis on the integration and selection of letter forms and type styles as they relate to the production for the printed page, multimedia design and the World Wide Web. Software used includes Adobe Photoshop, Adobe Illustrator and Adobe InDesign.

ARTS 58A  Furniture Design  4 Units  
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent; ARTS 10A.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
(This course is included in the Industrial Design Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Beginning furniture design with emphasis on developing basic skills in design, construction and craftsmanship.

ARTS 58B  Intermediate Furniture Design  4 Units  
Prerequisite: ARTS 58A.  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
(This course is included in the Industrial Design Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Intermediate furniture design, with an emphasis on a broader range of skills in design, construction and craftsmanship.

ARTS 58C  Advanced Furniture Design  4 Units  
Prerequisite: ARTS 58B.  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
(This course is included in the Industrial Design Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Advanced furniture design, with an emphasis on individual projects and further development on skills in design, construction and craftsmanship.

ARTS 63  Business Practices for Graphic Designers  4 Units  
Prerequisite: ARTS 55A.  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Introduction to the range of business practices used by artists and designers in the visual communications industry. Emphasis will be placed on legal rights and issues as they relate to the professional artist/client relationship. Topics will include pricing and marketing, salaries and trade customs, standard contracts, and current art and design technology issues. Students will create portfolio materials for self promotion.

ARTS 65  Graphic Design: UI/UX and the World Wide Web  4 Units  
Prerequisite: ARTS 53 or ARTS 54.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
Hands-on Web page design fundamentals with an emphasis on the creative integration of type and image as related to the World Wide Web. Topics will include: navigation software, site content and organization, site layout, scanning and importing imagery, file formats, grids, white space, visual hierarchy, corporate identity/branding and typography issues. The primary software programs used are Adobe Photoshop CS and Adobe Illustrator CS.

ARTS 70  Viewing Bay Area Art Museums and Galleries  1 Unit  
Prerequisite: ARTS 4A, 8, 10A and 71.  
Three hours laboratory (36 hours total per quarter).  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.  
This course is included in the Arts - Professional Practice Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Directed to develop skills in an art gallery/museum viewing and critical analysis of content of exhibits, collections and/or lectures.

ARTS 71  Gallery and Exhibition Design  4 Units  
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; ARTS 4A or ARTS 8.  
Three hours lecture, three hours laboratory (72 hours total per quarter).  
(This course is included in the Arts - Professional Practice Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
The practical experience in all aspects of exhibition design and installation of art exhibits in galleries and museums. Emphasis on design theory and the evaluation of content of exhibits, collections and/or lectures.

ARTS 72  Internship in Art  1 Unit  
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; ARTS 1A, 4A, 8, 10A and 71.  
Three hours laboratory (36 hours total per quarter).  
(This course is included in the Arts - Professional Practice Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Directed professional experience in art museums/galleries, art businesses, and art in schools programs in the Bay Area that emphasize the application of skills and knowledge obtained in Gallery and Exhibition Design (ARTS 71), Beginning Drawing (ARTS 4A), Two-Dimensional Design (ARTS 8), and Three-Dimensional Design (ARTS 10A).
A selective study of the automobile’s chassis and drive line systems. Knowledge and skills necessary for basic repair, maintenance, and troubleshooting of today’s chassis and drive line systems. Can be used to fulfill the prerequisite to the Automotive Technology Program.

APRN 51B Applications of Automotive Principles - Chassis Systems 2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
One and one-half hours lecture, two and one-half hours laboratory (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to suspension, steering, braking, and drive line components.

APRN 53A Automotive Mechanisms 4 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Three hours lecture, three hours laboratory (72 hours total per quarter).
The application of physical principles to the operation of mechanical and hydraulic systems, using an applied physics technique.

APRN 60 Automotive Electrical Systems 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

APRN 60A Electrical Schematic Diagnosis 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Theory of operation for electrical, electronic, and electromechanical accessory systems. Understanding and using wiring diagrams, schematics, and other diagnostic information to troubleshoot electrical, electronic, and electromechanical systems. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

APRN 60B Automotive Electronics 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Application of computer control principles to automotive systems. Operation of automotive electronic control systems, including commonly used sensors, actuators, and displays. Introduction to diagnostic methods and test equipment for automotive electronic control systems. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

APRN 60C Automotive Ignition, Fuel and Emission Systems 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).

APRN 60D Ignition Analysis and Oscilloscope Diagnosis 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Ignition system principles of operation and diagnosis. Use of electronic test equipment in ignition system diagnosis. Preparation for Automotive Service Excellence (ASE) certification examinations in Areas A6, A8, and L1.

APRN 60E Automotive Fuel Injection 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprenticeship Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.

**APRN 60F No-Start Diagnosis** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Principles of troubleshooting procedures and techniques to analyze and repair of “no-start” problems in the fuel, ignition, and electrical systems of an automobile. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

**APRN 60G Advanced Scan Tool Diagnosis** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).

**APRN 60H Advanced Drivability and Onboard Diagnostics** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).

**APRN 60J Advanced Lab Scope and Waveform Diagnosis** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).

**APRN 60N Hybrid Vehicle Safety and Maintenance** 2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Two hours lecture (24 hours total per quarter).
Explores the use of hybrid electric power for vehicle transportation. Topics will include safety, maintenance of hybrid propulsion and internal combustion systems, drivability, and storage battery technology. Various designs of hybrid vehicles and their integrated systems from multiple manufacturers will be discussed. This course also fulfills the Toyota Technician Education Network training requirement for the T-256 course. This course is suitable for students interested in alternative fuels or power and energy technology.

**APRN 61A Automotive Brake Systems** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Operation of automotive brake systems. Repair, maintenance and troubleshooting.

**APRN 61B Electronically Controlled Brake Systems** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Computer controlled automotive brake systems, including service, maintenance, troubleshooting and repair procedures.

**APRN 62A Automotive Suspension, Steering and Alignment** 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).
Operation of automotive suspension, steering and alignment systems. Overview of maintenance, repair and troubleshooting procedures.

**APRN 62B Advanced Wheel Alignment** 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).
Advanced study of wheel alignment systems. Emphasis is placed on diagnostic inspection and repair procedures.

**APRN 63 Automatic Transmissions and Transaxles** 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).

**APRN 63A Advanced Manual Drive Train** 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).
Details of operation and repair of automotive manual drive train components. The design operation and repair of four wheel and all wheel drive components, as well as the theory and practical application of the diagnosis of noise and vibrations in the drive train based on frequency calculation and measurement. Service and repair procedures, product problem discussions and demonstrations. Preparation for Automotive Service Excellence (ASE) certification examination in Area A3.

**APRN 63D Transmission Diagnostic and Repair Techniques** 4 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Four and one-half hours lecture (54 hours total per quarter).
Diagnostic and repair techniques for automatic transmissions and transaxles. Emphasis on development of diagnostic procedures and repair techniques. Preparation for Automotive Service Excellence (ASE) certification examinations in Areas A2 and A3.

**APRN 64 Automotive Machining and Engine Repair** 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).
Repair and rebuilding of engine cylinder heads and block components, engine assembly and testing. Includes theory, diagnosis, disassembly, cleaning, inspection and failure analysis. Preparation for Automotive Service Excellence (ASE) examinations for Areas A1 and M1, M2 and M3.

**APRN 64HP High Performance Engine Repair** 9 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Nine hours lecture (108 hours total per quarter).
Precision and performance engine preparation. Includes selection and matching of engine and valve train components for maximum efficiency and output.

**APRN 65P Smog Inspector - Level 1 Training** 7 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Corequisite: APRN 65W.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Seven hours lecture (84 hours total per quarter).
Two and one-half hours lecture (30 hours total per quarter).
Automotive technician training program for California's Smog inspection program. Course content is mandated by the Bureau of Automotive Repair (BAR).

**APRN 65W Smog Inspector - Level 2 Training** 2 1/2 Units
Prerequisite: Open only to apprentices in the Automotive Technologies Apprentice Program (an approved program by the Division of Apprenticeship Standards).
Corequisite: APRN 65P.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Two and one-half hours lecture (30 hours total per quarter).
Automotive technician training program for California's Smog Inspection Program. Meets one of the Bureau of Automotive Repair (BAR) requirement for obtaining Smog Inspector License.
AUTO 50A  Introduction to Automotive Principles 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 50A (may be taken concurrently).
Four and one-half hours lecture (48 hours total per quarter).
A selective study of the automobile’s engine systems. Knowledge and skills that are necessary for basic repair, maintenance, and troubleshooting of today’s engine systems. This course may be used to fulfill the prerequisite to the Automotive Technology Program.

AUTO 50B  Applied Automotive Principles 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 50A (may be taken concurrently).
One and one-half hours lecture, and two one-half hours laboratory (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to the engine and its supporting systems.

AUTO 51A  Introduction to Automotive Principles - Chassis Systems 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 51A (may be taken concurrently).
Four hours lecture (48 hours total per quarter).
A selective study of the automobile’s chassis and drive line systems. Knowledge and skills necessary for basic repair, maintenance, and troubleshooting of today’s chassis and drive line systems. Can be used to fulfill the prerequisite to the Automotive Technology Program.

AUTO 51B  Applications of Automotive Principles - Chassis Systems 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 51A (may be taken concurrently).
One and one-half hours lecture, two and one-half hours laboratory (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to suspension, steering, braking, and drive line components.

AUTO 52A  Automotive Mechanisms 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Three hours lecture, three hours laboratory (72 hours total per quarter).
The application of physical principles to the operation of mechanical and hydraulic systems, using an applied physics technique.

AUTO 53A  Automotive Electromechanical Systems 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
One and one-half hours lecture, and two and one-half hours laboratory (48 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 53B  Automotive Electromechanical Systems 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Nine hours lecture (108 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 54A  Automotive Ignition, Fuel and Exhaust Systems 8 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Nine hours lecture, nine hours laboratory (162 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to the engine and its supporting systems.

AUTO 54B  Automotive Ignition, Fuel and Exhaust Systems 8 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 54A (may be taken concurrently).
Nine hours lecture (162 hours total per quarter).
Theory of operation for electrical, electronic, and electromechanical accessory systems. Understanding and using wiring diagrams, schematics, and other diagnostic information to troubleshoot electrical, electronic, and electromechanical systems. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 55A  Automotive Air Conditioning 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four and one-half hours lecture (54 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 56A  Automotive Air Conditioning 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four and one-half hours lecture (54 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 56B  Automotive Air Conditioning 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four and one-half hours lecture (54 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 57A  Automotive Fault Diagnosis 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture (24 hours total per quarter).
Career research in the automotive industry: job search, applications, and resumes, employer-employee relationships, job interviews.

AUTO 58A  Automotive Mechanics 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 58A (may be taken concurrently).
Four hours lecture (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to the engine and its supporting systems.

AUTO 58B  Automotive Mechanics 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 58A (may be taken concurrently).
Four and one-half hours lecture (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to suspension, steering, braking, and drive line components.

AUTO 58C  Automotive Mechanics 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 58A (may be taken concurrently).
Four and one-half hours lecture (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to suspension, steering, braking, and drive line components.

AUTO 59A  Automotive Direct and Indirect Ignition Systems 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 59A (may be taken concurrently).
Four and one-half hours lecture (48 hours total per quarter).
Basic experiences in automotive repair and maintenance as related to suspension, steering, braking, and drive line components.

AUTO 60A  Automotive Electrical Systems 9 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 50A and AUTO 50B.
Nine hours lecture (108 hours total per quarter).
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 60B  Automotive Electrical Systems 9 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 50A and AUTO 50B.
Four and one-half hours lecture (54 hours total per quarter).
Application of computer control principles to automotive systems. Operation of automotive, electronic and electromechanical control systems, including commonly used sensors, actuators, and displays. Introduction to diagnostic methods and test equipment for automotive electronic control systems. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 60C  Automotive Ignition, Fuel, and Emission Systems 9 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 50A, 50B, 60 and 60A.
Nine hours lecture (108 hours total per quarter).
AUTO 60D Ignition Analysis and Oscilloscope 4 1/2 Units
Diagnosis
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A, 50B, 60A, 60B and 60C.
Four and one-half hours lecture (54 hours total per quarter).
Ignition system principles of operation and diagnosis. Use of electronic test equipment in ignition system diagnosis. Preparation for Automotive Service Excellence (ASE) certification examinations in Areas A6, A8, and L1.

AUTO 60E Automotive Fuel Injection 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A, 50B, 60A, 60B, 60C and 60D.
Four and one-half hours lecture (54 hours total per quarter).

AUTO 60F No-Start Diagnosis 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A, 50B, 60A, 60B, 60C, 60D and 60E.
Four and one-half hours lecture (54 hours total per quarter).
Principles of troubleshooting procedures and techniques to analyze and repair of “no-start” one-half hours lecture (54 hours total per quarter). Systematic approach to diagnosis of component malfunction for an entire system. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 60G Advanced Scan Tool Diagnosis 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A, 50B, 60A, 60B, 60C, 60D and 60E.
Four and one-half hours lecture (54 hours total per quarter).

AUTO 60H Advanced Drivability and Onboard Diagnostics 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A, 50B, 60A, 60B, 60C, 60D and 60E.
Four and one-half hours lecture (54 hours total per quarter).

AUTO 60J Advanced Lab Scope and Waveform Diagnosis 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A, 50B, 60A, 60C, 60D, 60E, 60F and 60G.
Four and one-half hours lecture (54 hours total per quarter).
Diagnosis of automotive electronic systems using a laboratory oscilloscope and a power graphing meter. Related use of other basic test equipment, including a digital multi-meter (DMM) and scan tool. Advanced waveform analysis. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 60K Automotive Body Electrical Systems 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 60A and AUTO 60B.
Four and one-half hours lecture (54 hours total per quarter).

AUTO 60N Hybrid Vehicle Safety and Maintenance 2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 60A and 60B.
Two hours lecture (24 hours total per quarter).
Explores the use of hybrid electric power for vehicle transportation. Topics will include safety, maintenance of hybrid propulsion and internal combustion systems, drivability, and storage battery technology. Various designs of hybrid vehicles and their integrated systems from multiple manufacturers will be discussed. This course also fulfills the Toyota Technician Education Network training requirement for the T-256 course. This course is suitable for students interested in alternative fuels or energy technology.

AUTO 61A Automotive Brake Systems 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 51A and AUTO 51B.
Four and one-half hours lecture (54 hours total per quarter).
Operation of automotive brake systems. Repair, maintenance and troubleshooting.

AUTO 61B Electronically Controlled Brake Systems 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 61A.
Four and one-half hours lecture (54 hours total per quarter).
Computer controlled automotive brake systems, including service, maintenance, troubleshooting and repair procedures.

AUTO 62A Automotive Suspension, Steering and Alignment 9 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 51A and AUTO 51B.
Nine hours lecture (108 hours total per quarter).
Operation of automotive suspension, steering and alignment systems. Overview of maintenance, repair and troubleshooting procedures.

AUTO 62B Advanced Wheel Alignment 9 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 62A.
Nine hours lecture (108 hours total per quarter).
Advanced study of wheel alignment systems. Emphasis is placed on diagnostic inspection and repair procedures.

AUTO 63 Automatic Transmissions and Transaxles 9 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A and AUTO 50B.
Nine hours lecture (108 hours total per quarter).

AUTO 63A Advanced Manual Drive Train 9 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A and AUTO 50B.
Nine hours lecture (108 hours total per quarter).
Details of operation and repair of automotive manual drive train components. The design operation and repair of four wheel and all wheel drive components, as well as the theoretical and practical application of the diagnosis of noise and vibrations in the drive train based on frequency calculation and measurement. Service and repair procedures, product problem discussions and demonstrations. Preparation for Automotive Service Excellence (ASE) certification examination in Area A3.

AUTO 63D Transmission Diagnostic and Repair Techniques 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A and AUTO 50B.
Four and one-half hours lecture (54 hours total per quarter).
Diagnostic and repair techniques for automatic transmissions and transaxles. Emphasis on development of diagnostic procedures and repair techniques. Preparation for Automotive Service Excellence (ASE) certification examinations in Areas A2 and A3.

AUTO 64 Automotive Machining and Engine Repair 9 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 50A and 50B.
Nine hours lecture (108 hours total per quarter).
Repair and rebuilding of engine cylinder heads and block components, engine assembly and testing. Includes theory, diagnosis, disassembly, cleaning, inspection and failure analysis. Preparation for Automotive Service Excellence (ASE) examination for Areas A1, M1, M2 and M3.

AUTO 64P High Performance Engine Preparation 9 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent; AUTO 64.
Nine hours lecture (108 hours total per quarter).
Precision and performance engine preparation. Includes selection and matching of engine and valve train components for maximum efficiency and output.

AUTO 65P Smog Inspector - Level 1 Training 7 Units
Corequisite: AUTO 65W.
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent.
Seven hours lecture (84 hours total per quarter).
Automotive technician training program for California's Smog Inspection program. Course content is mandated by the Bureau of Automotive Repair (BAR).

AUTO 65W Smog Inspector - Level 2 Training 2 1/2 Units
Corequisite: AUTO 65P.
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent.
Two and one-half hours lecture (30 hours total per quarter).
Automotive technician training program for California's Smog Inspection Program. Meets one of the Bureau of Automotive Repair (BAR) requirement for obtaining Smog Inspector License.

AUTO 66 Automotive Air Conditioning 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273;
MATH 212 or equivalent.
Four and one-half hours lecture (54 hours total per quarter).
AUTO 67A Hybrid Electric Vehicles 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 60A, 60B and 60G.
Four and one-half hours lecture (54 hours total per quarter).

AUTO 67B Plug-In Electric Vehicle Technology 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 67A.
Four and one-half hours lecture (54 hours total per quarter). Understanding the functions of plug-in electric vehicles and hybrid extended-range electric vehicles. Operating characteristics of high voltage onboard charging systems, charging stations, photovoltaic systems, and electrical grid charging. Operation of onboard smart charging systems. Economics of electric transportation, utility company systems, and existing options such as off-peak charging. Understanding the use of electric vehicles as applicable to the extended electric vehicle transportation. Utilization of applicable diagnostic and service equipment. Electric vehicle theory of operation. Advantages of an electric drive train. Electric vehicle history and current status of plug-in electric vehicle technologies. Career possibilities in the electric transportation industry. Safety procedures and maintenance of plug-in electric vehicles.

AUTO 67G Gaseous Fuels 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four and one-half hours lecture (54 hours total per quarter). Gaseous fuels include propane, compressed natural gas, liquefied natural gas and hydrogen. Propane has been used as an engine fuel for over 80-years. After gasoline and diesel, it is the third most popular fuel. It is used to power over four million vehicles. Compressed natural gas and liquefied natural gas are being used in many fleet applications and have a large pipeline distribution system. Hydrogen is used in a fuel cell to create electricity and expels water. Two major automobile manufacturers have introduced hydrogen powered cars. As a society we are moving towards having humans have less of an impact on our environment and the gaseous fuel are a big part of the movement.

AUTO 67J Introduction to Automotive and Light Truck Diesel Systems 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four and one-half hours lecture (54 hours total per quarter). As of January 2010, California state law required light duty diesel powered vehicles to be included in the smog check program. Diesel’s higher efficiency is moving these vehicles’ highway mileage to over 40 miles per gallon. Chevrolet and Jeep are all planning diesel powered vehicles into their 2010 car line-up. This course consist of lectures and laboratory demonstrations. Providing our students with the necessary skills to maintain and repair light duty diesel vehicles. Diesel training will give students new abilities that are required to be successful in their careers in the automotive industry.

AUTO 69Y Smog Check Update 1 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; current CA Smog Check License.
One and one-half hours lecture (18 hours total per quarter). Legally mandated course by the California Bureau of Automotive Repair (BAR) to obtain a renewal Smog Check License every two years. This applies to all State Licensed Smog Check Techs. The latest Smog Check Program changes and updates will be covered. The State Smog Check License renewal examination will be given at the end of the course.

AUTO 91A Automotive Brake Systems 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 50A and AUTO 50B.
Four hours lecture, six hours laboratory (120 hours total per quarter). Repair, maintenance and troubleshooting of automotive braking systems.

AUTO 92A Automotive Steering and Suspension 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 51A and AUTO 51B.
Four hours lecture, six hours laboratory (120 hours total per quarter). Repair, maintenance and troubleshooting of suspension and steering systems.

AUTO 92B Automotive Alignment 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Service and repair procedures.

AUTO 92C Automotive Electronic Chassis Controls 2 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
One and one-half hours lecture, one and one-half hours laboratory (36 hours total per quarter). Computer controlled automotive suspension and steering systems, including repair, maintenance troubleshooting, and service procedures.

AUTO 93A Automotive Final Drive Train 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Components of the final drive train including design features and service techniques.

AUTO 93B Standard Transaxles 2 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
One and one-half hours lecture, one and one-half hours laboratory (36 hours total per quarter). Standard transaxles: power flow, service requirements and repair procedures.

AUTO 93C Automatic Transmissions 2 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Operation of automatic transmissions including torque converters, hydraulic control, planetary gear train, clutch and band operation. Inspection and repair procedures for automatic transmissions.

AUTO 93D Automatic Transaxles 2 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
One and one-half hours lecture, one and one-half hours laboratory (36 hours total per quarter). A detailed study of automatic transaxles. Power flow, service requirements and repair procedures will be covered.

AUTO 93E Diagnostic Techniques 1 1/2 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
One hour lecture, one and one-half hours laboratory (30 hours total per quarter). Diagnostic techniques for problem-solving in the automotive and light-duty truck powertrain.

AUTO 93F Automatic Transmission Service 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Operation of rear axles, transfer cases, clutches, automatic and standard transmissions, and transaxles. Diagnostic, inspection and repair procedures for these powertrain components.

AUTO 94A Principles of Four Stroke Cycle Gas and Diesel Engines 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Shop operations specific to engine repair and rebuilding including safety and hazardous waste management. Emphasis on theory, diagnosis, disassembly, cleaning, inspection and failure analysis.

AUTO 94B Automotive Machining and Engine Service 6 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Reconditioning cylinder heads and related valve train components including crack detection, repair, testing and assembly. Resurfacing cylinder heads.

AUTO 94C Automotive Machining and Engine Service 6 Units
Prerequisite: AUTO 94A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter). Reconditioning engine short block assemblies and components including balancing, assembly and testing.
AUTO 94D Automotive Machining and Engine Service 6 Units
Prerequisite: AUTO 94A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter).
Precision and performance engine preparation with emphasis on improvements in volumetric efficiency. Includes selection and matching of components for maximum efficiency within mandated emissions requirements.

AUTO 94E Automotive Machining and Engine Service 6 Units
Prerequisite: AUTO 94C.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter).
Complete automotive machine shop practice including engine repair, assembly, testing and installation. Researching service and installation procedures and parts and labor estimating.

AUTO 94F Automotive Machining and Engine Service 6 Units
Prerequisite: AUTO 94C.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, six hours laboratory (120 hours total per quarter).
Practice and skill development with emphasis on precision and productivity in rebuilding, servicing and installing engines. Research and prepare equipment operation and maintenance instructions.

AUTO 99A Automotive Electricity, Battery and Cranking Systems 7 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, nine hours laboratory (156 hours total per quarter).
Automotive electricity including the electron theory, fundamentals of circuit construction and interpretation, principles of magnetism as applied to electric motors, relays and coils. Diagnosis, troubleshooting and servicing of automotive battery and cranking systems including system repair procedures. Developing skills in the use of test equipment including the DVOM and electrical load testing tools for the analysis and diagnosis of these types of electrical systems.

AUTO 99B Automotive Charging, Ignition and Accessory Systems 7 Units
Prerequisite: Approved Automotive Technology Course Sequence Contract.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, nine hours laboratory (156 hours total per quarter).
The fundamentals of automotive electronic devices as they apply to the automotive charging and ignition systems. Emphasis on diagnosis of these systems using test instruments including the oscilloscope. Introduction to automotive accessory systems including wiring and repair techniques. Skill development in the understanding of the electrical wiring diagram networks as provided by manufacturers.

AUTO 99C Introduction to Engine Performance Systems 7 Units
Prerequisite: AUTO 99A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, nine hours laboratory (156 hours total per quarter).
Electronically controlled engine performance systems. Fundamentals of automotive microprocessors and automotive onboard computers. Testing techniques for system input and output devices. Diagnosis, troubleshooting, and repairing the automotive fuel supply system including carburetion and feedback carburetion. Diagnosis, troubleshooting, and repair techniques for no-start conditions. Procedure development for analyzing and repairing common problems of fuel, ignition, electrical and basic engine mechanical systems which affect engine performance of the automobile.

AUTO 99D Intermediate Engine Performance Systems 7 Units
Prerequisite: AUTO 99A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, nine hours laboratory (156 hours total per quarter).
Electronically controlled engine performance systems. Diagnosing, troubleshooting and repairing the automotive fuel-injection systems of domestic automobiles. Testing techniques for system input and output devices using automotive scanners and oscilloscopes.

AUTO 99E Basic Engine Performance Diagnostic Procedures 7 Units
Prerequisite: AUTO 99C.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, nine hours laboratory (156 hours total per quarter).
Automotive technician training program to include each system which aids in increasing fuel economy and in the reduction of emissions and pollutants from the automobile. Diagnosing and troubleshooting the systems controlling automotive performance and drive-ability.

AUTO 99F Intermediate Engine Performance Diagnostic Procedures 7 Units
Prerequisite: AUTO 99C.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture, nine hours laboratory (156 hours total per quarter).
Performance tuning of automotive gasoline engines. Emphasis on reference material dealing with repair procedures, specifications, and efficient tune-up procedures. Intermediate level for usage of computer scanners and oscilloscopes. Diagnosing, troubleshooting and repairing the systems designed for the control of engine temperature.

AUTO 350A Introduction to Automotive Principles 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Four hours lecture (48 hours total per quarter).
No limit on repeatability for 0 unit courses.
Pass-No Pass (P-NP) course.
A selective study of the automobile's engine systems. Knowledge and skills that are necessary for basic repair, maintenance, and troubleshooting of today's engine systems. This course may be used to fulfill the prerequisite to the Automotive Technology Program.

AUTO 350B Applied Automotive Principles 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 350A (may be taken concurrently).
One and one-half hours lecture, two and one-half hours laboratory (48 hours total per quarter).
No limit on repeatability for 0 unit courses.
Pass-No Pass (P-NP) course.
Basic experiences in automotive repair and maintenance as related to the engine and its supporting systems.

AUTO 351A Introduction to Automotive Principles - Chassis Systems 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 351A (may be taken concurrently).
One and one-half hours lecture, two and one-half hours laboratory (48 hours total per quarter).
No limit on repeatability for 0 unit courses.
Pass-No Pass (P-NP) course.
A selective study of the automobile's chassis and drive line systems. Knowledge and skills necessary for basic repair, maintenance, and troubleshooting of today's chassis and drive line systems. Can be used to fulfill the prerequisite to the Automotive Technology Program.

AUTO 351B Applications of Automotive Principles - Chassis Systems 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 351A (may be taken concurrently).
One and one-half hours lecture, two and one-half hours laboratory (48 hours total per quarter).
No limit on repeatability for 0 unit courses.
Pass-No Pass (P-NP) course.
Basic experiences in automotive repair and maintenance as related to suspension, steering, braking, and drive line components.

AUTO 360 Automotive Electrical Systems 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 360A and AUTO 360B.
Nine hours lecture (108 hours total per quarter).
No limit on repeatability for 0 unit courses.
Pass-No Pass (P-NP) course.
Principles of electricity, electronics, cranking and charging systems. Testing, diagnosis and repair of these systems.

AUTO 360A Electrical Schematic Diagnosis 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 360.
Four and one-half hours lecture (54 hours total per quarter).
No limit on repeatability for 0 unit courses.
Pass-No Pass (P-NP) course.
Theory of operation for electrical, electronic, and electromechanical accessory systems. Understanding and using wiring diagrams, schematics, and other diagnostic information to troubleshoot electrical, electronic, and electromechanical systems. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 360B Automotive Electronics 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 350A, 350B, 360A, 360B, 360C, 360D and 360E.
Four and one-half hours lecture (54 hours total per quarter).
Pass-No Pass (P-NP) course.
Principles of troubleshooting procedures and techniques to analyze and repair "no-start" problems in the fuel, ignition, and electrical systems of an automobile. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 360F No-Start Diagnosis 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 350A, 350B, 360A, 360B, 360C, 360D and 360E.
Four and one-half hours lecture (54 hours total per quarter).
Pass-No Pass (P-NP) course.
Principles of troubleshooting procedures and techniques to analyze and repair "no-start" problems in the fuel, ignition, and electrical systems of an automobile. Preparation for Automotive Service Excellence (ASE) examination in Areas A6, A8, and L1.

AUTO 360G Advanced Scan Tool Diagnosis 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 350A, 350B, 360A, 360B, 360C, 360D and 360E.
Four and one-half hours lecture (54 hours total per quarter).
Pass-No Pass (P-NP) course.

AUTO 361A Automotive Brake Systems 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 361A and AUTO 351B.
Four and one-half hours lecture (54 hours total per quarter).
Pass-No Pass (P-NP) course.
Operation of automotive brake systems. Repair, maintenance and troubleshooting.

AUTO 361B Electronically Controlled Brake Systems 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 361A.
Four and one-half hours lecture (54 hours total per quarter).
Pass-No Pass (P-NP) course.
Computer controlled automotive brake systems, including service, maintenance, troubleshooting and repair procedures.

AUTO 362A Automotive Suspension, Steering 0 Units and Alignment
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; AUTO 351A and AUTO 351B.
Nine hours lecture (108 hours total per quarter).
Pass-No Pass (P-NP) course.
Operation of automotive suspension, steering and alignment systems. Overview of maintenance, service and troubleshooting procedures.

AUTO 365P Smog inspector - Level 1 Training 0 Units
(This is a noncredit CTE course, which can lead to and only be applied to a non-transcriptable certificate.)
Corequisite: AUTO 350W.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent.
Seven hours lecture (84 hours total per quarter).
BIOL 10 Introductory Biology 5 Units  
(Not open to students who have completed BIOL 6A, 6AH, 6B, 6C, 6CH, 10H or equivalent.)(See general education pages for the requirements this course meets.)  
Advisory: EWRT 1A or EWT 1AH or ESL 5.

BIOL 10H Introductory Biology - HONORS 5 Units  
(Not open to students with credit in BIOL 6A, 6AH, 6B, 6C, 6CH, 10H or equivalent.)  
(Admission into this course requires consent of the Honors Program Coordinator.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.

BIOL 11 Human Biology 5 Units  
(Not open to students who have completed BIOL 6A, 6AH, 6B, 6C, 6CH or equivalent.)  
(See general education pages for the requirements this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.

BIOL 13 Marine Biology 5 Units  
(See general education pages for the requirements this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.

BIOL 15 California Ecology 5 Units  
(See general education pages for the requirements this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.

BIOL 26 Introductory Microbiology 6 Units  
(See general education pages for the requirements this course meets.)  
Prerequisite: BIOL 40A, 40B and 40C or (BIOL 6A or 6AH, 6B and 6C or 6CH), or equivalent, all with a grade of C or better.

BIOL 40A Human Anatomy and Physiology 5 Units  
Prerequisite: Successful score on the BIOL 40A Placement Test; or CHEM 1A, 25 or 30A with a grade of C or better.

BIOL 40B Human Anatomy and Physiology 5 Units  
Prerequisite: BIOL 40A with a grade of C or better.

BIOL 45 Introduction to Human Nutrition 4 Units  
Prerequisite: (BIOL 40A, 40B and 40C) or (BIOL 6A or 6AH, 6B and 6C or 6CH), or equivalent, all with a grade of C or better.

BIOL 40C Human Anatomy and Physiology 5 Units  
(See general education pages for the requirements this course meets.)  
Prerequisite: BIOL 40B, with a grade of C or better.

BIOL 54H Applied Human Anatomy and Physiology: Support, Movement, and Integration 1 1/2 Units  
(Not open to students with credit in BIOL 6A, 6AH, 6B, 6C or 6CH; or BIOL 40A, 40B or 40C; or equivalent.)  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.

BIOL 54I Applied Human Anatomy and Physiology: Coordination and Transport 1 1/2 Units  
(Not open to students with credit in BIOL 6A, 6AH, 6B, 6C or 6CH; or BIOL 40A, 40B or 40C; or equivalent.)  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.

BIOL 54J Applied Human Anatomy and Physiology: Absorption, Excretion, and Reproduction 1 1/2 Units  
(Not open to students with credit in BIOL 6A, 6AH, 6B, 6C or 6CH; or BIOL 40A, 40B or 40C; or equivalent.)  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.

BIOL 77X 2 Units  
Individual research in experimental methods and the biological sciences. Specific projects determined in consultation with the instructor.

BIOL 86X 2 Units  
Special Projects in Experimental Biology 1 Unit  
Prerequisite: Consent of instructor and division dean.

BIOL 86Y 3 Units  
Prerequisite: Consent of instructor and division dean.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
BUS 60  International Business Management  5 Units  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Five hours lecture (60 hours total per quarter).  
International Business and its functions in a diverse global economy. Understanding cross-border trade and investment; distance, time zone and language issues; national differences in government regulation, culture, and business systems.

BUS 65  Leadership  5 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Five hours lecture (60 hours total per quarter).  
Develop effectiveness in leadership situations and understand the complex challenges of leadership. Adapt leadership techniques to build successful relationships in a culturally diverse world.

BUS 70  Principles of E-Commerce  5 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Five hours lecture (60 hours total per quarter).  
Theory and practice of effectively conducting and managing business over the Internet. Insights into e-commerce models, strategy, technology, auctions, and marketing. Students are expected to complete computer assignments.

BUS 73  International Marketing  5 Units  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Five hours lecture (60 hours total per quarter).  
An introduction to the marketing practices that organizations employ when operating across national borders, with a focus on foreign marketing environments, people, and cultures and their influences on the total marketing process.

BUS 85  Business Communication  3 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Three hours lecture (36 hours total per quarter).  
Application of writing skills to business communications; public relations functions of business correspondence.

BUS 94  Promoting Your Business with Social Media  5 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Five hours lecture (60 hours total per quarter).  
Fundamentals of marketing; product planning and development; pricing strategies; and marketing channels.

BUS 95  Business Law I  5 Units  
Advisory: EWRT 1A or EWRT 1AH or ESL 5; BUS 10.  
Five hours lecture (60 hours total per quarter).  
An introduction to the American legal system with a focus on laws applicable to business. Topics include sources of law, law and ethics, the structure of the federal and state court systems, the litigation process, alternative dispute resolution methods, contracts, torts, agency law, intellectual property law, criminal law and process, legal research methods, and forms of business organization.

BUS 96  Principles of Management  5 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Five hours lecture (60 hours total per quarter).  
A practical study of the operations and essential skills required in small and start-up businesses. Emphasis on the opportunities and problems faced by entrepreneurs in obtaining, managing and financing an independent business. This course will prepare students for developing business plans.

BUS 97  Introduction to Entrepreneurship  5 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 210 or equivalent.  
Five hours lecture (60 hours total per quarter).  
A practical study of the operations and essential skills required in small and start-up businesses. Emphasis on the opportunities and problems faced by entrepreneurs in obtaining, managing and financing an independent business. This course will prepare students for developing business plans.

BUS 98  Human Relations in the Workplace  5 Units  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Five hours lecture (60 hours total per quarter).  
Human relations behavior in organizations emphasizing personal and interpersonal relationships. Examination of motivation, communication skills, leadership skills, emotional and physical wellness, diversity, and ethical behavior for promoting effectiveness on the job.

BUS 99  Introduction to Business  5 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Five hours lecture (60 hours total per quarter).  
An overview of the forces within the business environment (i.e., globalization, economics, government, technology and society), and an introduction to the key functional areas within the firm, such as marketing, operations, accounting, finance, management and human resources.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
Chemistry

CHEM 1A General Chemistry 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: CHEM 25 or CHEM 30A or satisfactory score on the Chemistry Placement Test: MATH 114 or equivalent.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture, six hours laboratory (108 hours total per quarter).
An introduction to the structure and reactivity of matter at the molecular level. Application of critical reasoning to modern chemical theory and structured numerical problem-solving. Development of molecular structure from rudimentary quantum mechanics, including an introduction to ionic and covalent bonding. Chemical problem solving involving both formula and reaction stoichiometry employing the unit analysis method. An introduction to thermochemistry and a discussion of the first law of thermodynamics. Note: This course is part of the Honors Program.

CHEM 1AH General Chemistry - HONORS 5 Units
(Not open to students with credit in CHEM 1AH.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: CHEM 25 or CHEM 30A or satisfactory score on the Chemistry Placement Test: MATH 114 or equivalent.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture, six hours laboratory (108 hours total per quarter).
An introduction to the structure and reactivity of matter at the molecular level. Application of critical reasoning to modern chemical theory and structured numerical problem-solving. Development of molecular structure from rudimentary quantum mechanics, including an introduction to ionic and covalent bonding. Chemical problem solving involving both formula and reaction stoichiometry employing the unit analysis method. An introduction to thermochemistry and a discussion of the first law of thermodynamics. Note: This course is part of the Honors Program.

CHEM 1B General Chemistry 5 Units
(Not open to students with credit in CHEM 1B.)
Prerequisite: CHEM 1A or CHEM 1AH with a grade of C or better.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, four hours laboratory (108 hours total per quarter).
Continuation of an introduction to the principles of chemistry. Investigation of intermolecular forces and their effects on chemical and physical properties. Investigation of reversible reactions from the standpoints of kinetics, thermodynamics, and equilibrium. Investigation and application of gas laws and kinetic molecular theory.

CHEM 1BH General Chemistry - HONORS 5 Units
(Not open to students with credit in CHEM 1BH.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: CHEM 1A or CHEM 1AH with a grade of C or better.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture, six hours laboratory (108 hours total per quarter).
Continuation of an introduction to the principles of chemistry. Investigation of intermolecular forces and their effects on chemical and physical properties. Investigation of reversible reactions from the standpoints of kinetics, thermodynamics, and equilibrium. Investigation and application of gas laws and kinetic molecular theory. Note: This course is part of the Honors Program.
CHEM 30A  Introduction to General, Organic and Biochemistry I  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 114 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture, three hours laboratory (84 hours total per quarter).
This is a two-part class to be taken in sequence by students entering allied health fields. The focus of the first part of this class is an introduction to general chemistry. This course begins with a discussion of various measurement tools. This will be followed by a discussion of energy and matter which will be followed by a discussion of the discovery of an atom. The next set of topics will cover an introduction to elements, compounds, and types of bonding in compounds followed by various types of chemical reactions and stoichiometric calculations based on chemical reactions. Properties of gases and solutions will be discussed. This course concludes with a discussion of acid-base chemistry and nuclear chemistry.

CHEM 30B  Introduction to General, Organic and Biochemistry II  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: CHEM 1A, 25 or 30A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture, three hours laboratory (84 hours total per quarter).
This class is for students entering the allied health fields. The focus of the second part of Introduction to General, Organic, and Biochemistry is organic and biochemistry. The topics covered in organic chemistry are: hydrocarbons, alcohols, thiols, ethers, carboxylic acids, esters, amines, and amides. Various physical and chemical properties of these organic substances will be studied along with nomenclature and structural features. The topics included in biochemistry are: carbohydrates, fatty acids and lipids, proteins, nucleic acids and DNA. Various physical and chemical properties of these biological molecules will be studied. A brief introduction to metabolism will also be discussed.

CHEM 77  Special Projects in Chemistry  1 Unit
CHEM 77X  2 Units
CHEM 77Y  3 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual research in the chemical sciences. Specific projects determined in consultation with the instructor. Outside reading and written report required.

Child Development

C D 10G  Child Development (The Early Years)  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PSYC 10G. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An introductory course that examines the major physical, psychosocial and cognitive/developmental milestones for children, both typical and atypical, from conception through middle childhood. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages. (This course meets NAECY Standards 1 and 3; NBPTS Standards 1 and 4; and CEC Standards 1, 2 and 3.)

C D 10H  Child Growth and Development (Middle Childhood and Adolescence)  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as PSYC 10H. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An introductory course that examines the major physical, psychosocial and cognitive/developmental milestones for children, both typical and atypical, from school age through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages. (This course meets NAECY Standards 1 and 3; NBPTS Standards 1 and 4; and CEC Standards 1, 2 and 3.)

C D 12  Child, Family and Community Interrelationships  4 Units
(Same general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
An introduction to the study of the developing person in a societal context including the interrelationships of family, schools and community. Emphasis is on the influence of socialization and socialization impact development, as well as historical and socio-cultural factors. The processes of socialization and identity development will be highlighted, showing the importance of respectful, reciprocal relationships that support and empower families. (Applicable standards to this course: National Association for the Education Young Children Standards; Standard 2 Building Family and Community Relationships, Standard 4 Using developmentally effective approaches, and Standard 5 Becoming a Professional; National Board for Professional Teaching Standards Early Childhood Generalist Standard 2 Equity, Fairness and Diversity, Standard 7 Family, Community and Community Partnerships, and Standard 9 Professional Practice; California Child/Division for Early Childhood Standard 9 Professional and Ethical Practice and Standard 10 Collaboration; California Early Childhood Competencies: Culture, Diversity & Equity, Family & Community Engagement, Professionalism.)

C D 50  Principles and Practices of Teaching Young Children  4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
The underlying theoretical principles of developmentally appropriate practices applied to programs, environments, and teaching strategies, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and intellectual development for young children.
Includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics, and professional identity. (Applicable standards for this course: National Association Education Of Young Children Standards 1, 3, 6; NBPTS Standard 1 Promoting Child Development and Learning: 1a, 1b, and 1c; Standard 4 Using Developmentally Effective Approaches 4a, 4b, 4c and 4d; Standard 6 Becoming a Professional 6a, 6b, 6c, 6d and 6e; National Association Education of Young Children (NBPTS) Standard 4A Promoting Child Development and Learning: Standard IX Reflective Practice: Council for Exceptional (CEC)/Division for Early Childhood Special Education (DEC) Standard 3 Individual learning differences; Standard 5 Learning environments and social interactions; Standard 9 Professional and ethical practice.)

C D 51A  Basic Student Teaching Practicum  5 Units
Prerequisites: C D 10G, 12, 50 and 54.
Two and one-half hours lecture, eight hours laboratory (126 hours total per quarter).
A demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences for young children. (This course meets the NAECY Standards 1, 2, 3, 4, and 5; and NBPTS Standards 1 through 9.)

C D 51B  Advanced Student Teaching Practicum  5 Units
Prerequisite: C D 51A.
Two and one-half hours lecture, eight hours laboratory (126 hours total per quarter).
A demonstration of advanced developmentally appropriate early childhood teaching competencies under guided supervision. Students will build on the basic teaching skills in a classroom experience to make more advanced connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences for young children. (This course meets the NAECY Standards 1, 2, 3, 4, and 5; and NBPTS Standards 1 through 9.)

C D 52  Observation and Assessment of Children  4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
The appropriate use of assessment and observational strategies to understand and document development and behavior. Recording strategies, rating systems, portfolios, and multiple assessment tools are explored. (This course meets NAECY Standards 1a, 1b, 2a, 2c, 3a, 3b, 3c, 3d, 6b, 6c, 7a, 9a, 9b, 9c, 9d, 9e, and 9f; NBPTS Standards 3 and 4; DEC Standard 8 Assessment; CA Early Childhood Educator Competency Focus 1: Observation, Screening, Assessment and Documentation; CEC/Infant Family Early Childhood Mental Health Competencies Areas: B and E.)

C D 53  Creative Art for the Young Child  3 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture (36 hours total per quarter).
An overview of creative activities for children from infancy through the school years. Emphasis is on design, presentation and assessment of developmentally appropriate activities that use sensory, child centered materials to enhance imagination, creative thinking, problem solving, divergent thinking and self-expression in young children. Special attention is given to creating a climate that supports creative exploration and the role of the teacher in promoting growth and development of creativity in each child. (This course meets NAECY Standards 1a, 1b, 1c, 2a, 2b, 3a, 4d, 4e; NBPTS Standards II, III, IV, VI; and CEC/DE/SC Standards CC1-10, CC4-52; EC4-S1; CC7, S10, S11, S13; EC7-52.)
C D 54  Curriculum for Early Childhood Programs  4 Units
Prerequisite: C D 10G or PSYC 10G (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Curriculum development with emphasis on planning curriculum that is emergent, developmentally and individually appropriate and inclusive for all young children through age six. Students will examine the teacher’s role in supporting development by using observation and assessment strategies and emphasizing the essential role of play. Curricular areas included to be explored are: language and literacy, social and emotional learning, sensory learning, art and creativity, and math and science. (This course meets NAEYC Standards 1 and 4; and NBPTS Standards 4, 5, and 6.)

C D 55  Literacy Development and Activities  3 Units for the Young Child
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture (36 hours total per quarter).
Theory and practical application of language acquisition and the process of language development in young children. Introduction to methods and materials that enhance emergent language and literacy for infants through school-age children in a culturally diverse society. (This course meets NAEYC Standards: 1a, 1b, 1c, 3a, 3b, 3c; 4b, 4c, 4d; NBPTS Standards 1-10 for ECE-Middle Years; DEC/CEC standards 1-8; and CA ECE Standards 1, 2, 5, and 8.)

C D 56  Understanding and Working with  3 Units English Learners
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture (36 hours total per quarter).

C D 57  Self-Assessment for Teachers of  5 Units Young Children Using Reflective Practice: Field Experience
Prerequisite: C D 10G or PSYC 10G.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture, ten hours laboratory (144 hours total quarter).
An examination of the use of self-assessment and reflective practice techniques for individualized teacher preparation with emphasis on specific types of environments, interactions that support the development of children’s social-emotional, cognitive, and early academic skills. Student will use field placement to practice and develop skills. (This course meets NAEYC Standards 1, 2, 3, 4 and 5; NBPTS Standards 1 and 4; CEC Standards 2, 4, 5, 7, 9 and 10 and ECE Competencies Standards 1, 3, 4 and 7.)

C D 58  Infant/Toddler Development  5 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Study of physical, cognitive, language, social and emotional development from preconception to age three, with emphasis on cultural diversity, the role of family and relationships in development. Application of theoretical frameworks to interpret behavior and the interaction between heredity and environment. Program planning and Indicators for Family Service Plan planning based on careful examination of the classroom needs of children, parents and the program. Emphasis is on the role of teachers supervising other adults while simultaneously addressing the role of parents and volunteers in early childhood classrooms. Emphasis is on the identification and referral process.

C D 59G  Supervision and Administration of  4 Units Child Development Programs (Management Systems)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
An introduction to the administration of early childhood programs. Covers program types, budget, management, regulations, laws, development and implementation of policies and procedures. Examines administrative tools, philosophies, and techniques needed to organize, open, and operate an early care and education program. (This course meets NAEYC Standard 6 and California ECE Competencies: Administration & Supervision.)

C D 59H  Supervision and Administration of  4 Units Child Development Programs (Leadership Skills)
Prerequisite: A minimum of 12 units of Child Development course work, which includes C D 10G.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
A study of the methods and principles of supervision and management as they apply to administration of programs in early childhood settings. Emphasis is on personnel management, supervision styles and skills, interpersonal communication, ethical and professional standards and an awareness of the sociopolitical context of early childhood programs. (This course meets NAEYC Standard 6.)
C D 69 Early Childhood Education Principles and Practices (Cross-Cultural Emphasis) 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
The underlying principles of early education, in which national, state, and local practices will be examined in contrast to options presented through ethnographic data of diverse cultures.
(Applicable standards for this course: NAEYC Standard 4 Teaching and Learning; 4a Connecting With Children and Families; 4b Using Developmentally Effective Approaches; Standard 5 Becoming a Professional 5a-5e)

C D 70 Seminar in Parenting the Preschool Child 1 Unit
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. One hour lecture (12 hours total per quarter).
A seminar for parents, teachers and other adults interested in the parenting of children, primarily (but not exclusively) two to five years old. Students will explore and examine the ways to strengthen families. Students will also learn about optimal environments to support the healthy growth and development of children and parents.
(This course meets NAEYC Standard 2; NBPTS Standard 7; and DEC/CCE Standard 3.)

C D 71 Constructive Guidance and Positive Discipline in Early Childhood 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
Explores the principles and techniques that promote high self-esteem and positive behaviors in young children.
(This course meets NAEYC Standards 1a, 1c, 2a, 2b, 2c, 3a, 3b, 4a, 4b, 4c, 4d, 5c, 6b, 6e, SS3, SS5, SS6, DEC/CCE Standards CC3-K3, EC5-S1, CC6-K3; NBPTS Standard 2; and EIA Reflective Practice 2, 3, 8, 9.)

C D 72 Partnerships with Families in Early Childhood Education 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
An examination of the key principles and effective approaches in family support practice; strategies to communicate and involve families in early childhood education. This course meets NAEYC Standard 2; NBPTS Generalist Standard VII; CEC/DEC Standard 10; and CA Early Childhood Competencies: Family and Community Engagement, and Relationships, Interaction and Guidance.

C D 73 Early Childhood Mental Health 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
Examination of mental health milestones at each stage of a child’s development. Overview of psychological theory in infant/early childhood mental health. Assessment and screening to identify early childhood mental health challenges. Implementation of mental health interventions and strategies. An exploration of how early experiences in the first five-years of life can impact the physical and psychological development and well-being of children throughout the lifespan.

C D 74 Early Childhood Mental Health Seminar and Fieldwork 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Two hours lecture, three hours laboratory (60 hours total per quarter).
Provides an overview of different approaches to early identification and intervention with children and their families and will help students develop basic support skills for use in dealing with high-risk families, including those with exceptional emotional, social, or physical needs.
(This course meets National Association for the Education of Young Children (NAEYC) Standard 3, Standard 4b; National Board for Professional Teaching Standards (NBPTS) Early Childhood/Generalist Standard I, III, VI, IX; and Council for Exceptional Children (CEC) Special Education Content Standards, Standards 4, 5 and 8.)

C D 75 Social Emotional Development in Early Childhood 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
Social emotional development and how peer, family, gender, teachers and society influence this development. The impact of variations in development on learning and life outcomes.
(This course meets National Association for the Education of Young Children (NAEYC) Standards 1a, 1b, 1c, 2b, 4a; Council for Exceptional Children/Division for Early Childhood Standards CC2-K1; National Board for Professional Teaching Standards 1 and 4; the California Early Start Early Intervention Administrator competencies; and the California Personnel Competencies in Infant-Family and Early Childhood Mental Health.)

C D 76 Trauma and Early Childhood Development 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Four and one-half hours lecture (54 hours total per quarter).
Provides an overview of trauma-informed care in early childhood education, including the impact of trauma on the developing child, protective and resiliency factors, and the benefits and opportunities of partnering families. It explores the impacts of early childhood traumatic experiences on physical, cognitive, and psychological development throughout the lifespan.
(This course meets NAEYC Standard 1: Promoting Child Development and Learning & Standard 3: Observing, Documenting and Assessing to Support Young Children and Families.)
(This course is aligned with California Early Childhood Educator Competencies 1, 2, 3. This course is aligned with California Center for Infant-Family and Early Childhood Mental Health-Reflective Practice Facilitator I.)

C D 77 Special Projects in Child Development 1/2 Unit
C D 77W 1 Unit
C D 77X 2 Units
C D 77T 3 Units
Prerequisite: Consent of instructor and division dean.
Advisory: EWR 1A or EWR 1AH or ESL 5.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Offers an in-depth exploration of a special topic, issue or trend in the early childhood education field. It involves researching of a topic of interest to the student. Research may include a review of the literature, interviews and other fieldwork such as exploring community resources or investigating a common teaching practice for effectiveness. Meets the variable needs of students, the early childhood industry and community, and responds to a current issue, technique, or field.
(This course meets NAEYC Standard 4c, Understanding Content Knowledge in ECE and Standard 5, Becoming a Professional; NBPTS Standards IX, Reflective Practice; and DEC-CCE Standard 9 Professional & Ethical Practice; ECE Competencies Professionalism.)

C D 79 Implementation of Trauma Informed Care and Field Experience 4 1/2 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
An introduction to trauma informed care, approaches for implementation including the assessment tools of the program. This course will focus on trauma informed practices for administrators, teachers and parents. Students will use field placement to practice and develop skills.

C D 80 Design, Program Development, and Daily Operation of Family Child Care 3 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
An overview of family childcare as a business and as a program for children. Starting your own childcare business, budget and contracts, licensing and safety requirements will be addressed. Relevant program issues such as designing indoor/outdoor environments, daily schedule, curriculum, child guidance, accommodations for all children and parent partnerships will be presented. (This course meets NAEYC Standards 1, 2, 3, 4, and 5; NBPTS Standards 1, 2, 3, 4 and 5; CCA Standards 1, 2, 6, 7, 8, 9, 11 and 12.)

C D 90 Facilitating Inclusion in Early Childhood Education 3 Units
Prerequisite: C D 10G (or PSYC 10G) and C D 40.
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273. Three hours lecture (36 hours total per quarter).
Expands upon a student’s ability to work effectively with all children in early childhood programs and more specifically with infants, toddlers and preschoolers with disabilities and other special needs in inclusive environments. Focus will include theories, research, and practical applications of best practices from both the fields of Early Childhood Education and Early Intervention/Early Childhood Special Education. Students will learn to design practical and effective intervention strategies for individual children with special needs within the context of natural environments and will learn to work in collaboration with IFSP/IEP teams.
(This course meets NAEYC Standards 1a, 1c, 2b, 3a, 3b, 3d, 4b; CEC/DEC Standards CC3-K4, CC5, CC4-S1-6, EC4-S1-3, CC5-K3, CC6-S1-5; and NBPTS Standards 2 and 4; California Early Childhood Educator Competencies: Competency Area 7; Performance Areas: 1-4; California Interagency Coordination Council in Early Intervention, Early Intervention Assistant level competencies.)

C D 101W Current Issues in Child Development 1 Unit
C D 101X 2 Units
C D 101Y 3 Units
C D 101Z 4 Units
Advisory: EWR 211 and READ 211 (or LART 211), or ESL 272 and 273.
One hour lecture for each unit of credit (12 hours total for each unit of credit per quarter).
In-service workshop for teachers, aides, and parent volunteers to increase awareness of current issues in the field of education.

2019-2020 DE ANZA COLLEGE CATALOG 149
Communication Studies (formerly Speech Communications)

**COMM 1 Public Speaking**  
(Formerly SPCH 1)  
5 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in COMM 1H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Five hours lecture (60 hours total per quarter).  
Theory and techniques of public speaking in a democratic society. An introduction to a variety of perspectives and approaches used to research, assess, organize, present, and evaluate public presentations. Students will develop and apply effective research strategies.  

**COMM 7 Interpersonal Communication**  
4 Units  
(Formerly SPCH 7)  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in ICS 7 or ICS 7H or COMM 7H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
(Also listed as ICS 7. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
Study of interpersonal communication in domestic and global contexts. Examines how differing cultures, languages, and social patterns influence the way members of groups relate among themselves and with members of other ethnic and cultural groups. Emphasizes development of interpersonal skills for communicating effectively across cultures and encourages appreciation of diverse cultural voices.  

**COMM 8 Argumentation and Critical Inquiry in Oral Communication**  
5 Units  
(Formerly SPCH 8.)  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in COMM 8H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5; COMM 1, 1H, 10 or 10H.  
Five hours lecture (60 hours total per quarter).  
Principles and methods of critical inquiry, advocacy, and debate. Students will critically evaluate research sources and evidence; identify fallacies in reasoning and language; advance reasoned positions with consideration to ethical and equitable practices; and defend and refute arguments through analysis, presentation, and evaluation of arguments.  

**COMM 9 Argumentation: Analysis of Oral and Written Communication**  
5 Units  
(Formerly SPCH 9.)  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in COMM 9H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Prerequisite: EWRT 1A or EWRT 1AH.  
Advisory: COMM 1, 1H or 10.  
Five hours lecture (60 hours total per quarter).  
Critical reading, writing, and thinking. Research strategies, documentation, critical analysis, and synthesis in the process of evaluating and constructing oral and written arguments will be applied.  

**COMM 10 Fundamentals of Oral Communication**  
5 Units  
(Formerly SPCH 10.)  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in COMM 10H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Advisory: COMM 1, 1H or 10.  
Five hours lecture (60 hours total per quarter).  
An introduction to the basic principles and methods of oral communication with emphasis on improving speaking and listening skills in the multicultural contexts of interpersonal, small group, and public communication. Students will develop and apply effective research strategies.  

**COMM 11 Critical Decision-Making in Groups**  
5 Units  
(Formerly SPCH 11.)  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in COMM 11H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5; COMM 1, 1H, 10 or 10H.  
Five hours lecture (60 hours total per quarter).  
Study in communication and critical decision making in the context of effective group problem solving with an emphasis on principles of sound reasoning to make a well-reasoned decision. This course explores theory, application, and evaluation of
group communication processes, including problem solving, conflict management, decision making, and leadership, with the goal of understanding different points of view in an increasingly diverse and interconnected global society.

COMM 15H Critical Decision-Making in Groups 5 Units
(Formerly SPCH 15H)
(Advisory: EWRT 1A or EWRT 1AH or ESL 5; COMM 1, 1H, 10 or 10H. Five hours lecture (60 hours total per quarter).

A study in communication and critical decision making in the context of effective group problem solving with an emphasis on principles of sound reasoning to make a well-reasoned decision. This course explores theory, application, and evaluation of group communication processes, including problem solving, conflict management, decision making, and leadership, with the goal of understanding different points of view in an increasingly diverse and interconnected global society. As an honors course students will be expected to complete additional assignments to gain deeper insight in critical decision making and group problem solving.

COMM 16 Interpersonal Communication 5 Units
(Formerly SPCH 16)
(Advisory: EWRT 1A or EWRT 1AH or ESL 5; COMM 1, 1H, 10 or 10H. Five hours lecture (60 hours total per quarter).

A study of interpersonal communication principles with an emphasis on developing the self concept through listening, verbal and nonverbal communication, language and cultural knowledge as a means of maintaining effective relationships in an increasingly diverse and interconnected global society.

COMM 78Z  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in COMM 78.)

Prerequisite: CIS 18A.

CIS 18B Advanced Unix/Linux 4 1/2 Units
(Formerly CIS 18A)
(Advisory: CIS 14A, 22A, 36A or 40. Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).

Expanded coverage of regular expressions and grep. Advanced topics in Unix/Linux include egrep, find, sed, awk, file archiving, compression, and conversion, hard disk control, makefile, basic shell scripts and installation of a Linux distribution.

CIS 18C Bash Scripting 4 1/2 Units
(Formerly CIS 18B)

Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).

Programming in bash shell, Korn shell, Bourne shell, tc shell and C shell.
CIS 21JA Introduction to x86 Processor 4 1/2 Units
Assembly Language and Computer Architecture
Prerequisite: CIS 22B, 22BH or 26A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Introduction to the syntax and semantics of the x86 processor assembly language, standard instruction set, selected macros and directives, x86 architecture.
CIS 21JB Advanced x86 Processor Assembly 4 1/2 Units
Prerequisite: CIS 21JA.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273: MATH 210 or equivalent.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Coverage of theory and application of advanced assembly programming techniques, with emphasis on multi-module programs, interrupt level programming, recursive and re-entrant techniques, floating point processing, interface with the C and high level language.
CIS 22A Beginning Programming Methodologies in C++
(Students may receive credit for either CIS 22A and CIS 22B/22BH or CIS 27.)
4 1/2 Units
Prerequisite: CIS 22A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). The fundamental constructs of programming and introduces the concept of object oriented programming is covered in the course. Its primary objective is to teach problem solving using the C++ programming language. Emphasis will be placed on structured procedural programming with an introduction to object-oriented programming. Designed primarily for computer science and related transfer majors.
CIS 22B Intermediate Programming Methodologies in C++
(Not open to students with credit in CIS 22BH.)
(Students may receive credit for either CIS 22A and CIS 22B/22BH or CIS 27.)
4 1/2 Units
Prerequisite: CIS 22A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). A systematic approach to the design, construction and management of computer programs, emphasizing design, programming style, documentation, testing and debugging techniques. Strings, multidimensional arrays, structures, and classes. Pointers: their use in arrays, parameters and dynamic allocation. Introduction to linked lists. Software engineering and computer science students are the targeted group.
CIS 22BH Intermediate Programming Methodologies in C++ - HONORS
(Admission into this course requires consent of the Honors Program Coordinator.)
(Not open to students with credit in CIS 22BH.)
4 1/2 Units
Prerequisite: CIS 22A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Advanced topics in C++ including: namespace, string and stringstream classes, cast operators, multiple inheritance, exception handling, compilation concepts, libraries, templates, the Standard Template Library and programming style.
CIS 23A Programming in C for C/Java Programmers
(Students may receive credit for either CIS 22A and CIS 22B/22BH or CIS 27, but not both.)
4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273: MATH 210 or equivalent.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Emphasis on foundation technologies in C# that enable you to write server side programs in C#. Concepts include inner classes, collections, exceptions, file I/O, reflection, cloning, and multi-threading.
CIS 30A Advanced C++ Programming
Prerequisite: (CIS 22B or CIS 22BH) or CIS 27 or equivalent.
Advisory: MATH 212 or equivalent.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Advanced topics in C++ including: namespaces, string and stringstream classes, cast operators, multiple inheritance, exception handling, compilation concepts, libraries, templates, the Standard Template Library and programming style.
CIS 30B Advanced C# Programming
Prerequisite: CIS 30A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Emphasis on foundation technologies in C# that enable you to write server side programs in C#. Concepts include inner classes, collections, exceptions, file I/O, reflection, cloning, and multi-threading.
CIS 31 Operating System Concepts
5 Units
Advisory: CIS 21JA and (CIS 22B or CIS 22BH).
Five hours lecture (60 hours total per quarter). Concepts and use of operating systems: multiprogramming and multiprocessing systems; processor interrupts, processes and threads, mutual exclusion, indefinite postponement, deadlocks; scheduling considerations and security management.
CIS 33A Programming in Perl
4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273: CIS 22B or CIS 26A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). A complete coverage of the core Perl language. Topics covered will include: basic loops and control structures, the elemental data types and operators, subroutines and variable scooping, regular expressions and text parsing, manipulation of files, advanced list traversal with grep and map, references, built-in functions, core modules, and advanced input/output including random-access files and formatting.
CIS 33B Advanced Perl Programming
4 1/2 Units
Advisory: CIS 33A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter). Exploration of advanced topics from the core Perl distribution and essential non-core modules. Topics include reference-based data structures, object-oriented
programming, connecting to SQL-based relational databases, non-relational database and file structures, process creation and management, and TCP/IP Client/Server programming.

CIS 35A  
Java Programming  
4 1/2 Units  
(Students may receive credit for either CIS 36A and 36B) or CIS 35A, but not both.)  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 114 or equivalent.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Introduction to Java programming, computing context, primitive types, flow of control constructs, operators, file I/O, objects and classes, inheritance, interfaces, packages, data structures and exceptions.

CIS 35B  
Advanced Java Programming  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 35A.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Emphasis on foundation technologies in Java that enable you to write server side programs in Java. Concepts include inner classes, exceptions, file I/O, reflections, cloning, multi-threading, Java FX, Web Programming with Java Server Pages, Servlets, JavaServer Faces and JavaBeans.

CIS 36A  
Introduction to Computer Programming Using Java  
4 1/2 Units  
(Formerly CIS 61A.)  
(Students may receive credit for either CIS 36A and 36B) or CIS 35A, but not both.)  
Prerequisite: CIS 35A.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
A systematic approach to the design, construction and management of computer programs, emphasizing design, programming style, documentation, testing and debugging techniques. Strings, multi-dimensional arrays and Classes. References: their use in arrays, parameters and containment. Introduction to linked lists.

CIS 40  
Introduction to Programming in Python  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 114 or equivalent.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
A hands-on introduction to computation through programming and problem solving. Using the popular Python programming language, students will learn software engineering concepts and basic programming constructs while creating graphical applications.

CIS 41A  
Python Programming  
4 1/2 Units  
Prerequisite: CIS 22A or 36A or 40.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
A comprehensive introduction to the Python language. Topics covered include: primitive and collection data types, operators and statements, loops and branching, functions and variable scoping, modules and packages, object oriented programming, file handling, regular expressions and exception handling.

CIS 41B  
Advanced Python Programming  
4 1/2 Units  
Prerequisite: CIS 41A.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
A Python course designed for the professionals. The course picks up where CIS 41A, Python Programming, left off, covering some topics in more detail, and adding more advanced topics. Regular expressions and classes are covered extensively along with with network programming (FTP, Web client and server), graphical programming, database access, and Python extensions.

CIS 50  
Introduction to Computers, Data Processing, and Applications  
3 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Three hours lecture (36 hours total per quarter).  
Computer information systems (IS) basic terms and concepts. Important IS trends. Using systems development to build information systems. Survey of functions and components of an information system including applications software, systems software, telecommunications, networks, the Internet and Web, social and organization issues.

CIS 55  
iOS Development  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 22A or CIS 36A.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Introduction to native object-oriented programming language Swift and basic design patterns for doing develop and design on devices running iOS. Understand core APIs to construct powerful applications.

CIS 56  
Network Security  
4 1/2 Units  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 108.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Provides broad-based knowledge and hands-on experience with many facets of network security. The course includes website and database attacks/defense, identified vulnerability exploits, layered security approaches, and Active Directory security policy settings. Includes cryptography, hashing, access controls, physical, applications, data defenses, auditing and security protocols. Also, the course can help prepare students to pass the CompTIA Security+ Certification exam.

CIS 57  
Web Site Administration  
4 1/2 Units  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 66 and 89A.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Introduction to establishing, configuring, managing and controlling access to Internet servers.

CIS 63  
Systems Design  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Current tools of structured systems analysis and design: data flow diagrams, structure charts, HIPO charts, VTOCs, data structure/dictionaries, decision trees and tables, pseudo code.

CIS 64A  
Database Management Systems  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 3 or CIS 4.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Rudiments of database design, implementation and use. Basic understanding of various data modeling techniques. Overview and comparison of database management systems. Emphasis on relational databases; introduction to SQL.

CIS 64B  
Introduction to SQL  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 64A.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Introduction to Oracle SQL (Structured Query Language), DML (Data Manipulation Language) processing techniques, DDL (Data Definition Language) techniques, selecting and sorting data, joins, SQL functions, Oracle objects, Oracle data processing concepts to maintain large database systems.

CIS 64C  
Introduction to PL/SQL  
4 1/2 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 64B.  
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).  
Oracle PL/SQL features cover data definition and data manipulation using expressions, control structures, and Oracle objects. Error handling, pre-defined packages, triggers, transactions and advanced PL/SQL features.

CIS 64D  
Database Tuning  
3 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 64C.  
Three hours lecture (36 hours total per quarter).  
Emphasis on importance of Performance Tuning, techniques for tuning several Oracle components, optimizing database for high volume transactions and Data Warehouses.

CIS 64E  
Introduction to Large Scale Processing Systems  
4 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Three hours lecture (48 hours total per quarter).  
Addresses fundamental challenges in the design, implementation, and deployment of large-scale distributed systems. Concepts covered include concurrency, synchronization, connection establishment, event handling, inter process communication, storage management, and service registration, discovery, and lookup. It also covers issues related to distributed objects such as life cycle management, mobility, security, naming, location, evolution, and autonomy.

CIS 64F  
Introduction to Big Data and Analytics  
4 Units  
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.  
Four hours lecture (48 hours total per quarter).  
Introduction to Big-Data deluge, management of unstructured and structured data and design of large scale database systems. Concepts covered include Map-reduce parallel processing algorithms, Real-time analytics, classification, and predictive analytics, attributes of Big-Data and related issues. Introduction to large scale file systems and operations and parallel processing algorithms.

CIS 66  
Introduction to Data Communication and Networking  
5 Units  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 3 or CIS 93.  
Five hours lecture (60 hours total per quarter).  
Concepts of communication, data communications, and networks. Overview of connectivity options, common protocols, local and wide area networks.
CIS 67A Local Area Networks 4 Units
Advisory: CIS 66.
Four hours lecture (48 hours total per quarter).
Fundamental concepts of Local Area Network architecture and protocols. Emphasis on basic concepts needed to design, configure, and implement Local Area Networks. Emphasis on the evolution of Fast Traditional Ethernet, Fast Ethernet, Gigabit Ethernet, Ten-Gigabit Ethernet, ATM, and wireless LANs.

CIS 67B Introduction to Wide Area Networking 4 Units
Advisory: CIS 67A.
Four hours lecture (48 hours total per quarter).

CIS 73 Unix/Linux Systems Programming 4 1/2 Units
Prerequisite: CIS 18A and CIS 26B (or CIS 26BH).
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Coverage of systems programming in the Unix/Linux/Posix environments, with emphasis on low-level Unix/Linux/Posix system calls from C programs and Shell scripts. Discussion of differences in major Unix/Linux/Posix environments.

CIS 74 Software Quality Assurance 4 1/2 Units
Advisory: CIS 40 and CIS 89A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Software testing basics – equivalence classes, boundary values, edge cases, corner cases, positive vs. negative tests, verification vs. validation, black-box testing, white-box testing, gray-box testing, smoke testing, alpha vs. beta testing, requirements documents and traceability matrices; justification for testing software; types of testing – accessibility, functional, security, performance, visual; breaking software and defect reporting; test-driven development; test case management (TCM) tools; and automating tests for web applications.

CIS 75A Internet Concepts and TCP/IP Protocols 5 Units
Prerequisite: CIS 66.
Advisory: CIS 22A, 26A, 36A or 40; EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
The architecture and underlying protocols of the Internet. The Internet will be examined as a layered product. Layers discussed will include mid-level packet delivery and address computation and high-level client/server applications using the TCP/IP Protocol Suite.

CIS 75B Internet Programming with TCP/IP 4 1/2 Units
Prerequisite: CIS 26B or CIS 26BH.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 75A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Writing client/server applications using the TCP/IP protocol suite. All server classes – “well known”, iterative, concurrent, and polling - will be explored and used. Typical Internet programming problems will be addressed including resource availability, machine addressing, and differences in data representation between communicating computers.

CIS 75D Enterprise Security Policy Management 3 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 75A or equivalent experience.
Two hours lecture, three hours laboratory (60 hours total per quarter).
Concepts of how to secure an enterprise by creating a security policy and developing procedures to maintain that security policy. Perform risk analysis and assessment on enterprise security. System Administrators, IT Managers, and Analysts would benefit from this course, as well as Technologists wanting to broaden their impact.

CIS 75E Enterprise Emergency Response 2 Units
Prerequisite: CIS 26B or CIS 26BH.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture (24 hours total per quarter).
An exploration of how to plan for emergency response, recover from a disaster and how to mitigate risks. System Administrators, IT managers and Analysts would benefit from this course as well as Technologists wanting to broaden their impact.

CIS 77X Special Projects in Computer Information Systems 1 Unit
Prerequisite: Consent of instructor and division dean.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter). (Hours to be individually arranged.) Design, implement, and document a special computer programming project.

CIS 77Y Managing Technology Projects 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Introduction to the theory and practice of the design and management of technology projects, including planning, performing, and monitoring of projects. Subjects explored are estimating costs and schedules, analyzing client expectations, guiding diverse groups of people toward a common goal, while earning a profit. Use of common software packages for project management.

CIS 82W Current Topics in Computer Information Systems 1 Unit

CIS 82X 2 Units
CIS 82Y 3 Units
CIS 82Z 4 Units
Credit course - Does not apply to De Anza Associate degree.
Prerequisite/Advisory: None.
One hour lecture for each unit of credit (12 hours total for each unit of credit per quarter).
A planned program of exposure to fundamental concepts and applications of selected Computer Information Systems topics. Concepts and theories as applied to the specific topic.

CIS 83 Managing Computer Information Systems Laboratory 1/2 Unit
Corequisite: CIS 82W, 82X, 82Y or 82Z.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Use of the computer laboratory facilities in conjunction with a computer information systems programming course.

CIS 89A Web Page Development 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Fundamentals of Web page design and creation: designing, encoding, and maintaining pages on the World Wide Web using HTML and CSS.

CIS 89C Client-Side Programming with JavaScript 4 1/2 Units
Advisory: CIS 22A and CIS 89A.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Fundamentals of client-side programming for Web pages requiring data collection or other user interaction. Students will create Web pages that execute on the client (personal system) using JavaScript.

CIS 89D Rich Internet Application Development 4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 89C.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Design and develop applications that deliver the same features and functions normally associated with desktop applications using technologies like HTML5.

CIS 95A Project Management - A Practicum 5 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Focus is placed on the role of a Project Manager; selecting a project; selecting a team; documentation and tracking of a project using Project Manager Book of Knowledge (PMBOK) Theory.

CIS 95B Project Planning and Control - A Practicum 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 95A or equivalent.
Four hours lecture (48 hours total per quarter).
Create a project scope statement that will act as a basis for creating a project plan. Build a project plan that integrates time, resources and communication with cost and quality of work. Plan controls to proactively mitigate risks.

CIS 95C Risk Assessment and Mitigation - A Practicum 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), experience. or ESL 272 and 273; CIS 95A or equivalent.
Four hours lecture (48 hours total per quarter).
Focus on responding to uncertain events or conditions for a positive or negative effect on project objectives. Implement techniques for planning for risks and learn to change project plans to reduce the probability and/or impact of the risk.

CIS 95D Managing Outsourcing - A Practicum 3 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 95A or equivalent.
Three hours lecture (36 hours total per quarter).
Learn to acquire goods and services from an outer organization using procurement and solicitation processes. Perform contract administration till completion and settlement of contract.

CIS 95E CAPM and PMP Exam Preparation 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; CIS 95A or equivalent.
Four hours lecture (48 hours total per quarter).
Prepares the student for attempting the Project Management Professional (PMP) or Certified Associate in Project Management (CAPM) examination provided by Project Management Institute (PMI). Topics include management of integration, scope, time, cost, quality, human resources, communications, risk and procurement.

CIS 95F Managing Cloud Projects 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Establish the Cloud strategy within a business context and focus on governance issues and business processes; the administration of Cloud services; support,
monitoring, and billing; documenting a Cloud strategy, which optimizes expense structure, improves security, and supports conformance; standards and protocols for the Cloud; and management of devices that connect to the Cloud.

CIS 95G Agile Project Management - A Practicum
4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Learn how to apply Agile principles and the Scrum framework to create software-intensive products and acquire the practical knowledge and skills to initiate, plan, manage and execute Agile software development projects.

CIS 97 FLASH Animation
3 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Three hours lecture (36 hours total per quarter).
Application of animation and video support for production of dynamic website development. The course provides hands-on experience to design video and animation used within a website. Flash Animation is an industry standard software program for business development, educational content delivery, video platform delivery as well as media and news streaming on the web.

CIS 98 Digital Image Editing Software (Photoshop)
4 1/2 Units
(Photoshop)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Digital imaging principles to produce graphics for websites. Hands-on experience with the equipment and tools to set up files, manage documents, and perform image processing.

CIS 99 Office Software Applications
4 1/2 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Introduces concepts and hands-on projects using four common office productivity software programs including word processing, spreadsheet, database and presentation software.

CIS 102 Ethical Hacking
4 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 66 and CIS 108.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Students will scan, test, hack and secure systems. Implement perimeter defenses, scan and attack virtual networks. Other topics include intrusion detection, social engineering, footprinting, DDoS attacks, buffer overflows, SQL injection, privilege escalation, trojans, backdoors, and wireless hacking. Legal restrictions and ethical guidelines emphasized. This course also helps prepare students to pass the Certified Ethical Hacker (CEH) exam.

CIS 104 Digital Forensics and Hacking Investigation
4 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 108.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Introduction to computer cyber crime and hacking investigation processes. Topics include computer forensics tools, hacking investigation tools, data recovery, information gathering techniques, computer data preservation techniques, and computer cyber crime investigation techniques. System administrators, security professionals, IT staff, and law enforcement personnel, would benefit from taking this course. Also, this course can help prepare students to pass computer forensics certification examinations, such as the EC-Council Computer Hacking Forensic Investigator (CHFI) or the Certified Forensic Computer Examiner (CFCE) credential.

CIS 105 Cloud Security Fundamentals
4 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 56.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
An exploration of how to secure a cloud environment. The history of cloud computing and how cloud computing is being used today will be learned. Various cloud environments such as Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS) and understand both native and hybrid environments will also be explored. Topics including network security, host security, Identity and Access Management (IAM), cryptography and data protection, access Controls, patch management, as well as credential and key management will be examined. Cloud security operations including logging, incident response in the cloud, as well as preventative and self-correcting security controls using labs exercises will be investigated. This hands-on course is designed to prepare students for modern day infrastructure environments.

CIS 108 Personal Computer Security Basics
4 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 4.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
A beginner’s computer security course for small office or home users. Learn to stop hackers, worms, viruses, spyware, web bugs, identity theft, and other cyber threats. Learn vulnerabilities found in web browsers, e-mail, and operating systems. Protect against online purchase dangers, install firewalls, manage cookies, restrict ports, evaluate wireless networks and examine encryption. The course includes numerous hands-on exercises to demonstrate security concepts.

CIS 170F Windows Administration
4 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; CIS 4.
Four hours lecture, one and one-half hours laboratory (66 hours total per quarter).
Provides knowledge and skills to setup, configure, use, and support the Microsoft Windows server and workstation operating systems. Windows features including installing, upgrading, configuring and troubleshooting will be covered. Concepts on how to configure Windows security, file sharing, storage, DHCP, DNS, Active Directory, network connectivity and subsystems. Additional topics include learning how to use Windows built-in applications.

Counseling

COUN 5 Introduction to College
1 Unit
(Formerly COUN 50.)
Advisory: Counseling Division orientation workshop.
One hour lecture (12 hours total per quarter).
An introduction to De Anza College that includes information about programs, services, policies, degrees, certificates, transfer requirements, and college culture. Focus will be on strategies needed for academic success and development of a preliminary Comprehensive Educational Plan.

COUN 80X Special Topics in Counseling
1 Unit
COUN 80Z
3 Units
COUN 80Z
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
One hour lecture for each unit of credit (12 hours total for each unit of credit per quarter).
Selected counseling topics with a focus on academic and personal development.

Dance

DANC 22 Body Awareness and Conditioning for Dancers
1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Three hours laboratory (36 hours total per quarter).
This course is included in the Ballet and Conditioning Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

DANC 22K Theory and Technique of Ballet I
1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 200 and READ 200 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
This course is included in the Ballet and Conditioning Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

DANC 22L Theory and Technique of Ballet II
1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 22K.
Advisory: EWRT 200 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
This course is included in the Ballet and Conditioning Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

DANC 22M Theory and Technique of Ballet III
1 Unit
(formerly DANC 52M.)
(See general education pages for the requirements this course meets.)
Prerequisite: DANC 22L.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
This course is included in the Ballet and Conditioning Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

Study and practice of the discipline and creative art of classical ballet, focusing on the development of elementary movement theory and techniques, including ballet barre and elementary center floor exercises.

2019-2020 DE ANZA COLLEGE CATALOG 155
DANC 23A Theory and Technique of Contemporary (Modern) Dance I 1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Introduction to the discipline and creative art of contemporary modern dance.
Study of practice and technique of contemporary modern dance focusing on
practice, theory, and movement explorations in time and space in two
contemporary dance techniques (i.e. Limon, Graham, Dunham, etc.).

DANC 23B Theory and Technique of Contemporary (Modern) Dance II 1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 23A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Study and practice of the discipline of creative art of contemporary dance focusing
on practice, theory, and movement explorations in time and space in two
contemporary dance techniques (i.e. Limon, Graham, Dunham, etc.).

DANC 23C Theory and Technique of Contemporary (Modern) Dance III 1 Unit
(Formerly DANC 53C.)
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 23B.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Study and practice of the discipline of creative art of contemporary dance focusing
on practice, theory, and movement explorations in time and space in two
contemporary dance techniques (i.e. Limon, Graham, Dunham, etc.).

DANC 23L Theory and Technique of Hip-Hop I 1 Unit
(Popular American Dance)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional hip-hop dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 23M Theory and Technique of Hip-Hop II 1 Unit
(Popular American Dance II)
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 23L.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional hip-hop dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 23N Theory and Technique of Hip-Hop III 1 Unit
(Popular American Dance III)
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 23M.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional hip-hop dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 24A Theory and Technique of Social Dance I 1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional social dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 24B Theory and Technique of Social Dance II 1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 24A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Introduction to the discipline and creative art of social dance in a ballroom context.
Developing a working vocabulary of traditional social dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 24C Theory and Technique of Social Dance III 1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 24B.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Introduction to the discipline and creative art of social dance in a ballroom context.
Developing a working vocabulary of traditional social dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 25A Theory and Technique of Salsa Dance I 1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional salsa dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 25B Theory and Technique of Salsa Dance II 1 Unit
(Formerly DANC 65B.)
(See general education pages for the requirement this course meets.)
Prerequisite: DANC 25A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional salsa dance movements
and an understanding of the cultural and historical contexts that produced the specific dance styles.

DANC 27A Ballet Workshop (Student Productions) 2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Six hours laboratory (72 hours per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional ballet techniques of production and performance.

DANC 27B Contemporary Modern Dance Workshop 2 Units
(Formerly DANC 42B.)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Six hours laboratory (72 hours per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional contemporary dance techniques of production and performance.

DANC 27C Popular Dance (Jazz, Hip-Hop) Workshop (Student Productions) 2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Six hours laboratory (72 hours per quarter).
(See course descriptions, page for more information.)
Development of a working vocabulary of traditional contemporary dance techniques of production and performance.

DMT 70A Introduction to Computer Aided Design Using AutoCAD 4 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, six hours laboratory (96 hours total per quarter).
Introduction-level computer-aided design and drafting using AutoCAD software. Emphasis on 2D drawings and dimensioning.

DMT 70B Introduction to Computer Aided Design Using AutoCAD 4 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, six hours laboratory (96 hours total per quarter).
Introduction-level computer-aided design and drafting using AutoCAD software. Emphasis on 2D drawings and dimensioning.

DMT 70C Introduction to Computer Aided Design Using AutoCAD 4 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, six hours laboratory (96 hours total per quarter).
Introduction-level computer-aided design and drafting using AutoCAD software. Emphasis on 2D drawings and dimensioning.

DMT 70D Introduction to Computer Aided Design Using AutoCAD 4 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, six hours laboratory (96 hours total per quarter).
Introduction-level computer-aided design and drafting using AutoCAD software. Emphasis on 2D drawings and dimensioning.

DMT 70E Introduction to Computer Aided Design Using AutoCAD 4 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, six hours laboratory (96 hours total per quarter).
Introduction-level computer-aided design and drafting using AutoCAD software. Emphasis on 2D drawings and dimensioning.

DMT 70F Introduction to Computer Aided Design Using AutoCAD Inventor 4 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, six hours laboratory (96 hours total per quarter).
Introduction-level computer-aided design and drafting using AutoCAD Inventor. Emphasis on 2D drawings and dimensioning.

DMT 70G Special Projects in Manufacturing and CNC/Mastercam Certification Level 1 2 Units
(Formerly MCNC 80D.)
Prerequisite: Consent of instructor and division dean.
Projects advancing student’s knowledge and experience in computer numerical control and conventional machining, selected areas of Design and Manufacturing Technologies. Project type and design will be determined through consultation with the instructor based on the National Institute for Metalworking Skills certification program. Upon successful completion of the course the student will have the opportunity to earn multiple Level 1 NIMS certifications.

DMT 70H Special Projects in Manufacturing and CNC/Mastercam Certification Level 2 2 Units
(Formerly MCNC 80E.)
Prerequisite: Consent of instructor and division dean.
Projects advancing student’s knowledge and experience in computer numerical control and conventional machining, selected areas of Design and Manufacturing Technologies. Project type and design will be determined through consultation with the instructor based on the National Institute for Metalworking Skills certification program. Upon successful completion of the course the student will have the opportunity to earn multiple Level 2 NIMS certifications.

DMT 70I Special Projects in Manufacturing and CNC/Mastercam Certification Level 3 2 Units
(Formerly MCNC 80F.)
Prerequisite: Consent of instructor and division dean.
Projects advancing student’s knowledge and experience in computer numerical control and conventional machining, selected areas of Design and Manufacturing Technologies. Project type and design will be determined through consultation with the instructor based on the National Institute for Metalworking Skills certification program. Upon successful completion of the course the student will have the opportunity to earn multiple Level 3 NIMS certifications.

DMT 71A Special Projects In Manufacturing and CNC/Mastercam Certification Level 1 2 Units
(Formerly MCNC 80A.)
Prerequisite: Consent of instructor and division dean.
Six hours laboratory (72 hours total per quarter).
Projects advancing student’s knowledge and experience in computer numerical control machining using Mastercam CAD/CAM software, a selected area of Design and Manufacturing Technology. Project type and design will be determined through consultation with the instructor based on Mill Design and Toolpaths. Upon successful completion of the course the student will have the opportunity to earn an Associate Level Certificate from Mastercam.

DMT 71B Special Projects in Manufacturing and CNC/Mastercam Certification Level 2 2 Units
(Formerly MCNC 80B.)
Prerequisite: Consent of instructor and division dean.
Six hours laboratory (72 hours total per quarter).
Projects advancing student’s knowledge and experience in computer numerical control machining using Mastercam CAD/CAM software, a selected area of Design and Manufacturing Technology. Project type and design will be determined through consultation with the instructor based on Mill Design and Toolpaths. Upon successful completion of the course the student will have the opportunity to earn an Associate Level Certificate from Mastercam.

DMT 71C Special Projects in Manufacturing and CNC/Mastercam Certification Level 3 2 Units
(Formerly MCNC 80C.)
Prerequisite: Consent of instructor and division dean.
Six hours laboratory (72 hours total per quarter).
Projects advancing student’s knowledge and experience in computer numerical control machining using Mastercam CAD/CAM software, a selected area of Design and Manufacturing Technologies. Project type and design will be determined through consultation with the instructor based on Mill Design and Toolpaths. Upon successful completion of the course the student will have the opportunity to earn an Associate Level Certificate from Mastercam.
DMT 82  Advanced Conventional Machine Tools, Tool Design, Abrasive Machining
(Formerly MCNC 77.)
Prerequisite: DMT 80 with a grade of C or better or equivalent.
Three hours lecture, six hours laboratory (108 hours total per quarter).
Advanced machining and abrasive machining practices using conventional machine tools and surface grinders. Introduction to fixture design including location, clamping methods and computation of fits and allowances.

DMT 84A  Introduction to CNC Programming and Mill Operation; Mill
(Formerly MCNC 75A.)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent; DMT 80 or experience in machining processes.
Three hours lecture, six hours laboratory (108 hours total per quarter). Introduction to mill tool path programming using G & M code format. CNC systems and components including machine controller functions and operations. Program entry, editing, and verification. Calculation for mill cutter compensation. Precision inspection techniques. Basic mill setups, including cutting tool selection, and work holding.

DMT 84B  CNC Programming and Operation; Intermediate Mill
(Formerly MCNC 75B.)
Prerequisite: DMT 84A or equivalent with a grade of C or better.
Three hours lecture, six hours laboratory (108 hours total per quarter).
Intermediate CNC Mill tool path programming using word address format, including coordinate system, cutter compensation and canned cycles. Intermediate mill programming using sub programs, alternate work coordinate systems and macros. Program entry, editing, and back plotting. Machine controller functions and operations. Single point threading and Unified thread form classes and measurement. Indexable tool insert selection.

DMT 84C  CNC Lathes-Horizontal Mill-4th Axis Rotary-Programming Operations
(Formerly MCNC 75C.)
Prerequisite: DMT 84A or equivalent work experience.
Three hours lecture, six hours laboratory (108 hours total per quarter).
CNC lathe tool path programming using G&M code format, including tool orientation, compensation and canned cycles. Programming for CNC horizontal machining centers and 4th axis rotary tables. Horizontal machining center and lathe controller functions, setup and operations. Fixture design for mills and lathes; base plate layout, supporting, locating, and clamping practices.

DMT 87D  CAD/CAM Programming Using Mastercam
(Formerly MCNC 76D.)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent; basic understanding of mills and lathe operations.
Three hours lecture, six hours laboratory (108 hours total per quarter).
Introduction to Mastercam three axis mill programming. Create part geometry, define tools and tool paths, using post-processors to produce word-address format programs.

DMT 87J  CAD/CAM Based CNC Surface Contouring Programming Using Mastercam
(Formerly MCNC 76J.)
Prerequisite: Any DMT 87A-E course.
Three hours lecture, six hours laboratory (108 hours total per quarter).
CAD/CAM programming for continuous 3-axis contouring on machining centers using wireframe, splines, surface and solid modeling. Rough, finish and high speed machining. Editing, post-processing and verification of completed programs.

DMT 87N  CAD/CAM Based CNC 4 and 5 Axis Mill/Lathe Programming Using Mastercam
(Formerly MCNC 76N.)
Prerequisite: Any DMT 87A-E course.
Three hours lecture, six hours laboratory (108 hours total per quarter).
Advanced Mastercam multiaxis toolpaths for horizontal milling machines, vertical milling machines with rotary 4th axis, five axis indexing machining centers and CNC lathe with live tooling. Tooling, process, fixture design, work holding techniques and toolpath applications with rotary axis.

DMT 89A  CAM Based CNC Multi-Axis Programming Using NX
(Formerly MCNC 78A.)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Three hours lecture, six hours laboratory (108 hours total per quarter).
NX is an advanced fixed-axis and multi-axis milling course designed for CNC programmers who machine simple or complex parts with fixed and variable tool capabilities. Students will learn how to create fixed and variable axis tool paths. NX workflows for machining contoured parts, high-speed machining methods, milling holes and threads, and milling turbine blade type parts will be introduced.

DMT 90  Print Reading and Machine Shop Calculations
(Formerly MCNC 60.)
Advisory: E WRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Four and one-half hours lecture (54 hours total per quarter).
Interpretation of multi-view engineering blue prints, visualization techniques, auxiliary and section views. Appraisal of revision columns, title blocks and bill of materials. Introduction to geometric dimensioning and tolerancing (GD&T) using ANSI and ISO standards. Review of calculations used to solve common problems found in print interpretation and inspection.

DMT 91  Dimensional Metrology
(Formerly MCNC 72.)
Advisory: E WRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Four and one-half hours lecture (54 hours total per quarter).
Applications and capabilities of semi-precision and precision measuring tools, including scaled, vernier and digital instruments, used in manufacturing environments to inspect production and prototype parts. Introduction to the use of the optical comparator and CMM (coordinate measuring machine)

DMT 92  Applied GD&T (ASME Y14.5m); Coordinate Measuring Machines (CMM)
(Formerly MCNC 74.)
Advisory: E WRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent; experience in blueprint reading.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Interpretation of specifications and inspection procedures related to current ASME Y14.5-Geometric Dimensioning and Tolerancing (GD&T) standards. Applications and capabilities of precision measuring tools, including the computer-aided Coordinate Measuring Machine (CMM), used in manufacturing environments to inspect discrete complex parts. Machine and inspected part set-up for measuring form, orientation, and position call outs.

DMT 93  Introduction to Quality Assurance
(Formerly MCNC 64.)
Advisory: E WRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Applied materials and process analysis. Materials and process selection techniques. The role of metals, polymers, ceramics and composites in the casting, molding, forging, forming, machining, joining, heat and surface treatment processes.

DMT 95  Manufacturing Materials and Processes
(Formerly MCNC 68.)
Advisory: E WRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Introduction to the measurement and statistical processes and inspection methods used by quality control technicians. Evaluation and design of equipment calibration systems and programs. Investigation of different continuous improvement techniques and programs, including Total Quality Management (TQM) and Statistical Process Control (SPC). Review of quality audit systems as well as failure analysis and troubleshooting tools.

DMT 101  CAD Technology Laboratory Creo Parametric (Beginning)
(Formerly CDI 101Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced introductory projects and computer based training on Creo software. Instruction is in the use of CAD technology using projects from other Creo courses. Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in Creo software.

DMT 102  CAD Technology Laboratory SolidWorks (Beginning)
(Formerly CDI 102Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced introductory projects and computer based training on SolidWorks software. Instruction is in the use of CAD technology using projects from other SolidWorks courses. Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in SolidWorks software.

DMT 103  CAD Technology Laboratory Creo Parametric (Intermediate)
(Formerly CDI 103Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced intermediate projects and computer based training on Creo software. Instruction is in the use of CAD technology using projects from other Creo courses. Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in Creo software.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
DMT 104 CAD Technology Laboratory
SolidWorks (Intermediate) 2 Units
(Formerly CDI 104Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced intermediate projects and computer based training on SolidWorks software.
Instruction is in the use of CAD technology using projects from other SolidWorks courses.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in SolidWorks software.

DMT 105 CAD Technology Laboratory
Parametric (Advanced) 2 Units
(Formerly CDI 105Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced advanced projects and computer based training on Creo software.
Instruction is in the use of CAD technology using advanced extended projects based on other Creo courses.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in Creo software.

DMT 106 CAD Technology Laboratory
SolidWorks (Advanced) 2 Units
(Formerly CDI 106Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced advanced projects and computer based training on SolidWorks software.
Instruction is in the use of CAD technology using projects from other SolidWorks courses.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in SolidWorks software.

DMT 107 CAD Technology Laboratory
Creo Parametric (Surfaces) 2 Units
(Formerly CDI 107Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced advanced projects and computer based training on Creo software.
Instruction is in the use of CAD technology using projects from other Creo courses.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in Creo software.

DMT 108 CAD Technology Laboratory
SolidWorks (Surfaces) 2 Units
(Formerly CDI 108Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced projects and computer based training on SolidWorks software.
Instruction is in the use of CAD technology using projects from other SolidWorks courses.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in SolidWorks software.

DMT 109 CAD Technology Laboratory Creo Parametric (Sheetmetal) 2 Units
(Formerly CDI 109Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced projects and computer based training on Creo software.
Instruction is in the use of CAD technology using projects from other Creo courses.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in Creo software.

DMT 110 CAD Technology Laboratory Geometric Dimensioning and Tolerancing 2 Units
(Formerly CDI 110Z.)
Requisite/Advisory: None.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Self-paced projects and computer based training on CAD software.
Instruction is in the use of CAD technology to create models and drawings complying with ANSI Y14.5 Geometric Dimensioning and Tolerancing.
Learning assistance is provided in a designated De Anza center by an approved De Anza instructor who is trained in CAD software.

DMT 201 Manufacturing and CNC Technology Laboratory/Conventional Machining 1 2 Units
(Formerly MCNC 201.)
Credit course - Does not apply to De Anza Associate degree.
Corequisite: DMT 201 students must also be enrolled in DMT 80.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Use of Design and Manufacturing Technology labs for additional/advanced projects in DMT 80. Introduction to Machining and CNC Processes. Projects will vary based on the students skill level and the direction of the instructor.

DMT 202 Manufacturing and CNC Technology Laboratory/CNC Machining 1 2 Units
(Formerly MCNC 202.)
Credit course - Does not apply to De Anza Associate degree.
Corequisite: DMT 202 students must also be enrolled in DMT 84A.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Use of Design and Manufacturing Technology labs for additional/advanced projects in DMT 84A. Introduction to Computer-Aided Numerical Control (CNC) Programming and Operation. Mills. Projects will vary based on the students skill level and the direction of the instructor.

DMT 203 Manufacturing and CNC Technology Laboratory/CNC Machining 2 2 Units
(Formerly MCNC 203.)
Credit course - Does not apply to De Anza Associate degree.
Corequisite: DMT 203 students must also be enrolled in DMT 84B.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Use of Design and Manufacturing Technology labs for additional/advanced projects in DMT 84B. Computer-Aided Numerical Control (CNC) Programming and Operation; Lathe Introduction, Advanced Mills. Projects will vary based on the students skill level and the direction of the instructor.

DMT 204 Manufacturing and CNC Technology Laboratory/CNC Programming 1 2 Units
(Formerly MCNC 204.)
Credit course - Does not apply to De Anza Associate degree.
Corequisite: DMT 204 students must also be enrolled in any DMT 87A-E course.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Use of Design and Manufacturing Technology labs for additional/advanced projects in DMT 84C. Computer-Aided Numerical Control (CNC) Lathes and Horizontal Machining Centers; Programming and Operation, 4th Axis Rotary, Fixture Design. Projects will vary based on the students skill level and the direction of the instructor.

DMT 205 Manufacturing and CNC Technology Laboratory/CAD CAM Programming 1 2 Units
(Formerly MCNC 205.)
Credit course - Does not apply to De Anza Associate degree.
Corequisite: DMT 205 students must also be enrolled in any DMT 87A-E course.
Six hours laboratory (72 hours total per quarter).
Pass-No Pass (P-NP) course.
Use of Design and Manufacturing Technology labs for additional/advanced projects in DMT 87A-E. CAD/CAM Based Computer Numerical Control Programming Using Mastercam. Projects will vary based on the students skill level and the direction of the instructor.

Drama

(See Dance and/or Theatre Arts course listings.)

Economics

ECON 1 Principles of Macroeconomics 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ECON 1H.)
Prerequisite: MATH 212 or equivalent.
Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 114 or equivalent.
Four hours lecture (48 hours total per quarter).
An introduction to macroeconomics focusing on aggregate economic analysis. Topics covered will include market systems, aggregate measures of economic activity including national income accounting, macroeconomic equilibrium, money and the banking system, money and the price level, classical macro theory, Keynesian macro theory, monetary and fiscal policy, international trade and economic growth.

ECON 1H Principles of Macroeconomics - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ECON 1.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 212 or equivalent.
Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 114 or equivalent.
Four hours lecture (48 hours total per quarter).
An introduction to macroeconomics focusing on aggregate economic analysis. Topics covered will include market systems, aggregate measures of economic activity including national income accounting, macroeconomic equilibrium, money and the banking system, money and the price level, classical macro theory, Keynesian macro theory, monetary and fiscal policy, international trade and economic growth.

ECON 2 Principles of Microeconomics 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ECON 2H.)
Prerequisite: MATH 212 or equivalent.
Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 114 or equivalent.

2019-2020 DE ANZA COLLEGE CATALOG
Four hours lecture (48 hours total per quarter).
An introductory course focusing on choices of individual economic decision-makers. Examines fundamental microeconomic issues; the allocation of resources and the production function, pricing of output and factors of production; the distribution of wealth and income; consumer motivations and behavior; the nature and behavior of business firms and markets under various degrees of competition and market failure.

ECON 2H Principles of Microeconomics - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ECON 2.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 212 or equivalent.
Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 114 or equivalent.
Four hours lecture (48 hours total per quarter).
An introductory course focusing on choices of individual economic decision-makers. Examines fundamental microeconomic issues; the allocation of resources and the production function, pricing of output and factors of production; the distribution of wealth and income; consumer motivations and behavior; the nature and behavior of business firms and markets under various degrees of competition and market failure.

EDUC 1 Introduction to Elementary  3 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ECON 3H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 212 or equivalent.
Four hours lecture (48 hours total per quarter).
An introduction to the basic principles of economics and their application to problems of environmental quality and natural resource utilization. Topics covered will include market failures, sustainable resource allocation, environmental degradation, pollution, and a rationale of government involvement in the market-based economy. Emphasis is on sustainability and the importance of including the environmental impact into the cost-benefit analysis of economic activities.

ECON 3 Environmental Economics - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ECON 3.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 212 or equivalent.
Four hours lecture (48 hours total per quarter).
An introduction to the basic principles of economics and their application to problems of environmental quality and natural resource utilization. Topics covered will include market failures, sustainable resource allocation, environmental degradation, pollution, and a rationale of government involvement in the market-based economy. Emphasis is on sustainability and the importance of including the environmental impact into the cost-benefit analysis of economic activities. As an honors course students will be expected to complete extra assignments to gain deeper insight in environmental economics.

ECON 4 Economics of Public Issues
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hour total per quarter).
An introduction to the economics of various public policy issues. Contemporary issues that affect governmental policies will be evaluated and analyzed by the student. Topics to be discussed include the minimum wage, rent control, drug prohibition, health care, Social Security, international trade, organ markets, impact of sports stadiums, discrimination and freedom of association, education, fiscal and monetary policy, property rights and the environment, and antitrust policy.

ECON 5 Behavioral Economics
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; ECON 1, 1H, 2 or 2H.
Four hours lecture (48 hours total per quarter).
An introduction to the basic principles of conventional economics focusing on purely rational decision making contrasted to the more realistic behavioral economic model based on scientific studies of actual outcomes. Topics covered include the structure of the brain, loss-avoidance, emotions, experiences, social norms, framing, endowment effect, fairness, ethics, morals, trust, satisfying, status, herding, anchors, animal spirits, irrational exuberance, why smart people make investment mistakes, blurring social and financial arrangements, value of nudging people to make superior decisions, charitable donations, and happiness (money isn’t everything).

Education

EDUC 1 Introduction to Elementary Education in a Diverse Society  3 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture, three hours laboratory (60 hours total per quarter).
An examination of principles and practices of elementary education in today’s society including observations and supervised participation in the elementary school setting.
EDAC 232 Workplace Culture 1 Unit
EDAC 232R 2 Units
EDAC 232S 3 Units
EDAC 232T 4 Units
EDAC 232U 5 Units
EDAC 232V 6 Units
EDAC 232W 7 Units
EDAC 232X 8 Units
EDAC 232Y 9 Units
EDAC 232Z 10 Units

(Formerly SPED 232, 232R-Z respectively.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
(Repeatable as needed to meet the Student Educational Contract [Title 5, section 56029].)
Pass-No Pass (P-NP) course.
Specifically designed for students with verified intellectual disabilities. It includes the development of workforce skills in support of entry-level employment and the goals identified in the Student Educational Contract. This course also addresses the core competency of personal responsibility.

EDAC 233 Professional Conduct 1 Unit
EDAC 233R 2 Units
EDAC 233S 3 Units
EDAC 233T 4 Units
EDAC 233U 5 Units
EDAC 233V 6 Units
EDAC 233W 7 Units
EDAC 233X 8 Units
EDAC 233Y 9 Units
EDAC 233Z 10 Units

(Formerly SPED 233, 233R-Z respectively.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
(Repeatable as needed to meet the Student Educational Contract [Title 5, section 56029].)
Pass-No Pass (P-NP) course.
Specifically designed for students with verified intellectual disabilities. It includes identification of the different aspects of workplace culture including employer expectations, professional conduct and attitudes necessary to be successful on a job. Core competency of physical/mental wellness and personal responsibility will be addressed. Individualized instruction and training used to meet the goals identified in the Student Educational Contract.

EDAC 234 Civic Responsibility 1 Unit
EDAC 234R 2 Units
EDAC 234S 3 Units
EDAC 234T 4 Units
EDAC 234U 5 Units
EDAC 234V 6 Units
EDAC 234W 7 Units
EDAC 234X 8 Units
EDAC 234Y 9 Units
EDAC 234Z 10 Units

(Formerly SPED 234, 234R-Z respectively.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
(Repeatable as needed to meet the Student Educational Contract [Title 5, section 56029].)
Pass-No Pass (P-NP) course.
Specifically designed for students with verified intellectual disabilities and focuses on the exploration of legal, social and environmental issues from the perspective of adults with disabilities. Students will explore legal, social, and environmental issues: where and how to access information and participate in the community through advocacy, volunteerism, and work. Students will receive individualized instruction and training to meet the skill level identified in the Student Educational Contract. This course represents the core competencies of information literacy, and social and environmental awareness.

EDAC 235 Transition to Campus 1 Unit
EDAC 235R 2 Units
EDAC 235S 3 Units
EDAC 235T 4 Units
EDAC 235U 5 Units
EDAC 235V 6 Units
EDAC 235W 7 Units
EDAC 235X 8 Units
EDAC 235Y 9 Units
EDAC 235Z 10 Units

(Formerly SPED 235, 235R-Z respectively.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
(Repeatable as needed to meet the Student Educational Contract [Title 5, section 56029].)
Pass-No Pass (P-NP) course.
Specifically designed for students with verified intellectual disabilities. This course focuses on campus culture and the expectations and rules for all students on a college campus. Students will learn how to access campus information and services. This course represents the core competencies of personal responsibility with an emphasis upon respect for diversity. Students will explore the steps necessary to meet career choices and life goals and explore the requirements, coursework, and strategies to obtain a certificate or degree. Individualized instruction and training to meet the skills identified in the Student Educational Contract.

EDAC 240 Assistive Technology Access Evaluation 1/2 Unit
EDAC 240Y 1 Unit

(Formerly SPED 240.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Computer and technology access evaluation for students with physical disabilities, sensory impairments and/or learning disabilities. Appropriate access requirements will be individually determined in order to enable students to utilize computer technology.

EDAC 245 Assistive Technology Access (Windows) 2 Units
EDAC 245Y 2 Units

(Formerly SPED 245.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
One hour lecture, three hours laboratory (48 hours total per quarter).
Development of basic skills in the use of computer access technologies to enhance the disabled student’s ability to access and use computer technology in the context of word processing and other relevant applications.

EDAC 290X Assistive Technology Access Practice 1/2 Unit
EDAC 290Y 1 Unit

(Formerly SPED 290X and SPED 290Y respectively.)
Credit course - Does not apply to De Anza Associate degree.
Prerequisite: EDAC 240.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individualized development of skills in the analysis and use of assistive technology in an adapted computer laboratory.

EDAC 304 Soft Skills 0 Units
EDAC 304R 0 Units

Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Two hours lecture (24 hours total per quarter).
(No limit on repeatability for 0 unit courses.)
Effective soft skills, communication skills, and problem solving skills will be examined and identified. Students will practice such skills in collaborative projects, role-playing activities, and in real-life situations.

EDAC 307 Notetaking Technologies and Strategies 0 Units
EDAC 307R 0 Units

Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Two hours lecture (24 hours total per quarter).
(No limit on repeatability for 0 unit courses.)
A review of digital notetaking technologies and related strategies that enhance learning and retention of information, and support students’ specific learning styles.

EDAC 312 Basic English Skills for Students with Disabilities 0 Units
EDAC 312R 0 Units

Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Two hours lecture (24 hours total per quarter).
(No limit on repeatability for 0 unit courses.)
Basic reading and writing skills for students with disabilities. This course is to prepare students for college level reading and writing courses.
EDAC 313  Basic Math Skills for Students with Disabilities  0 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter).
(No limit on repetitiveness for 0 unit courses.)
Basic math functions such as addition, subtraction, multiplication, and division. Students will also be introduced to decimals, fractions, and proportions.

Engineering
ENGR 10  Introduction to Engineering  4 1/2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 210 or equivalent.
Three hours lecture, five hours laboratory (96 hours total per quarter).
An introduction to engineering design through a variety of team projects, including experimentation, data analysis, and development of computer skills. Exposure to several engineering disciplines through project design and problem solving for the purpose of providing information to assist students in a choice of major.
ENGR 35  Statics  4 Units
Prerequisite: ENGR 10, MATH 1B or MATH 1BH, and PHYS 4A.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Principles of statics as applied to particles and rigid bodies in two and three dimensions. Vector solutions for concentrated and distributed loads. Determination of centroids and moments of inertia and the effects of dry friction. Programming computer solutions.
ENGR 37  Introduction to Circuit Analysis  5 Units
Prerequisite: MATH 1D or MATH 1DH; PHYS 4B (may be taken concurrently).
Five hours lecture (60 hours total per quarter).
ENGR 77  Special Projects in Engineering  1 Unit
ENGR 77X  2 Units
ENGR 77Y  3 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Individual special reading, writing, or study projects in Engineering as determined in consultation with the instructor.
ENGR 78X  Special Projects in Electrical Engineering  1 Unit
ENGR 78Y  2 Units
ENGR 78Z  3 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing, or study projects in electrical engineering as determined in consultation with the instructor.
ENGR 79X  Special Projects in Mechanical Engineering  1 Unit
ENGR 79Y  2 Units
ENGR 79Z  3 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing, or study projects in mechanical engineering as determined in consultation with the instructor.

English as a Second Language
ESL 6  Critical Reading and Research for Writing  5 Units
(See general education pages for the requirement this course meets.)
(Restricted to students whose native language is not English.)
Prerequisite: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).
Development of analytical, integrative, and research skills in reading and writing. Academic writing (interpretative, analytical, argumentative) based largely on the reading of diverse literature and texts. Library and outside research leading to analysis, comparison, and synthesis in documented research paper.

ESL 200  High Beginning English as a Second Language  10 Units
Credit course - Does not apply to De Anza Associate degree.
Prerequisite: Qualifying score on the English as a Second Language Placement Test.
Ten hours lecture (120 hours total per quarter).
Development of English listening, speaking, reading and writing skills at the high-beginning level with an emphasis on explicit, direct grammar instruction. Practice in listening to basic forms of conversational English and speaking with comprehension in pronunciation. Development of basic reading comprehension and vocabulary. Practice in writing simple and basic compound sentences, short narratives, explanations, and descriptions.

ESL 234  Low Intermediate English as a Second Language  10 Units
Credit course - Does not apply to De Anza Associate degree.
(Restricted to students whose native language is not English.)
Prerequisite: Qualifying score on the English as a Second Language Placement Test or ESL 200 with a grade of C or better.
Ten hours lecture (120 hours total per quarter).
Development of English speaking, listening, reading and writing skills at the low intermediate level. Emphasis on explicit grammar instruction, writing a group of topic-related sentences, vocabulary building, pronunciation and discussion of multicultural topics.

ESL 244  Intermediate English as a Second Language  10 Units
Credit course - Does not apply to De Anza Associate degree.
(Restricted to students whose native language is not English.)
Prerequisite: Qualifying score on the English as a Second Language Placement Test or ESL 234 with a grade of C or better.
Ten hours lecture (120 hours total per quarter).
Development of English speaking, listening, reading and writing skills with an emphasis on explicit, direct grammar instruction. Vocabulary-building and writing are emphasized. Pronunciation practice and discussion of cross-cultural topics are also included.

ESL 251  High Intermediate Listening and Speaking  3 Units
Credit course - Does not apply to De Anza Associate degree.
(Restricted to students whose native language is not English.)
Prerequisite: ESL 244 or a qualifying score on the English as a Second Language Placement Test.
Advisory: ESL 251 students may also take ESL 252 and 253 concurrently.
Three hours lecture (36 hours total per quarter).
English speaking and listening practice in a variety of contexts. Development of vocabulary appropriate in both formal and informal situations.

ESL 252  High Intermediate Reading  3 Units
Credit course - Does not apply to De Anza Associate degree.
(Restricted to students whose native language is not English.)
Prerequisite: ESL 244 or a qualifying score on the English as a Second Language Placement Test.
Advisory: ESL 252 students may also take ESL 251 and 253 concurrently.
Three hours lecture (36 hours total per quarter).
Development of high intermediate English reading comprehension and vocabulary building skills in extended written materials.

ESL 253  High Intermediate Grammar and Writing  4 Units
Credit course - Does not apply to De Anza Associate degree.
(Restricted to students whose native language is not English.)
Prerequisite: ESL 244 or a qualifying score on the English as a Second Language Placement Test.
Advisory: ESL 253 students may also enroll in ESL 251 and 252 concurrently.
Four hours lecture (48 hours total per quarter).
Develop skills in using level-specific grammar and sentence structure in writing. Write organized and well-developed descriptive, narrative, and explanatory paragraphs.

ESL 254  American Language and Culture Through Media as Related to Child Development  2 Units
Credit course - Does not apply to De Anza Associate degree.
Corequisites: Students must also enroll in any Child Development course.
Two hours lecture (24 hours total per quarter).
Pass-No Pass (P-NP) course.
Develop an understanding of American culture, language, common idioms and slang through viewing and discussing American films and television related to child development.

2019-2020 DE ANZA COLLEGE CATALOG  163
ESL 260  Accent Reduction  (for Non-Native Speakers)  4 Units
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students whose native language is not English.)  
Advisory: ESL 251, 252 and 253.  
Four hours lecture (48 hours total per quarter).  
Pass-No Pass (P-NP) course.  
Emphasis on production of speech that is intelligible and accurate through the study and practice of the English language sound system, stress, linking, reduction, rhythm and intonation patterns.

ESL 261  Low Advanced Listening and Speaking  3 Units
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students whose native language is not English.)  
Prerequisite: A qualifying score on the English as a Second Language Placement Test or ESL 251.  
Three hours lecture (36 hours total per quarter).  
Emphasis on listening comprehension and proficiency in speaking in academic settings; expression of students' ideas using a variety of speaking strategies.

ESL 262  Low Advanced Reading  3 Units
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students whose native language is not English.)  
Prerequisite: ESL 252 and 253; or a qualifying score on the English as a Second Language Placement Test.  
Advisory: ESL 262 students may also enroll in ESL 261 and 263 concurrently.  
Three hours lecture (36 hours total per quarter).  
Development of the low advanced reading comprehension, vocabulary building skills, and improved reading rate in extended written materials.

ESL 263  Low Advanced Grammar and Writing  4 Units
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students whose native language is not English.)  
Prerequisite: ESL 252 and 253; or a qualifying score on the English as a Second Language Placement Test.  
Advisory: ESL 263 students may also enroll in ESL 261 and 262 concurrently.  
Four hours lecture (48 hours total per quarter).  
Develop skills for writing clear, organized, well-developed, multiple paragraph compositions that demonstrate analytical thinking and level-appropriate grammar, sentence structure and vocabulary.

ESL 272  Advanced Reading and Vocabulary  5 Units
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students whose native language is not English.)  
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 262 and 263; or a qualifying score on the English as a Second Language Placement Test.  
Five hours lecture (60 hours total per quarter).  
Development of academic vocabulary, reading and critical thinking skills through extensive readings of college-level material in English.

ESL 273  Introduction to the Essay  5 Units
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students whose native language is not English.)  
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263 with a grade of C or better; or a qualifying score on the English as a Second Language Placement Test.  
Advisory: ESL 273 students may enroll in ESL 272 concurrently.  
Five hours lecture (60 hours total per quarter).  
Principles of essay writing and introduction of the techniques of academic essay writing based on critical reading and thinking.

ESL 274  Grammar and Proofreading for Academic Writing  4 Units
Credit course - Does not apply to De Anza Associate degree.  
(Recommended for students whose native language is not English and students who wish to improve their grammar and proofreading skills.)  
Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.  
Four hours lecture (48 hours total per quarter).  
Focus on helping students become successful academic writers by addressing their individual needs to understand grammatical structures fundamental to college writing and to develop effective proofreading skills.

ESL 280  Developmental Reading for Child Development and Education  1 Unit
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students who are enrolled in the Child Development Department.)  
Corequisite: ESL 280 students must also enroll in C D 100, 104, 12, 50, 51, 54, 56 or 64.  
Advisory: ESL 251, 252 and 253; or a qualifying score on the English as a Second Language Placement Test.  
One hour lecture (12 hours total per quarter).  
Pass-No Pass (P-NP) course.  
Language support for native English speakers taking Child Development courses.  
The focus is on developing reading and vocabulary building strategies to help students successfully understand Child Development content, textbooks, class and group discussions, and writing and interview assignments.

ESL 275  Developmental Reading for Child Development and Education  1 Unit
Credit course - Does not apply to De Anza Associate degree.  
(Restricted to students who are enrolled in the Child Development Department.)  
Corequisite: ESL 280 students must also enroll in C D 100, 104, 12, 50, 51, 54, 56 or 64.  
Advisory: ESL 251, 252 and 253; or a qualifying score on the English as a Second Language Placement Test.  
One hour lecture (12 hours total per quarter).  
Pass-No Pass (P-NP) course.  
Language support for native English speakers taking Child Development courses.  
The focus is on developing reading and vocabulary building strategies to help students successfully understand Child Development content, textbooks, class and group discussions, and writing and interview assignments.
ELIT 22  Mythology and Folklore  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An intercultural survey of prehistoric, historic, and contemporary world mythology
and folklore which examines the relationship between a culture’s myths and folktales
and its art, literature, and social values.

ELIT 24  Asian Pacific American Literature  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ECS 24. Students may enroll in either department, but not both,
for credit.)
Four hours lecture (48 hours total per quarter).
Introduction to Asian Pacific American literature. Through readings in twentieth
and twenty-first century works, students will explore and analyze issues related to
complexities of identity as it relates to class, gender, mixed heritages, and
sexuality; politics and the history of Asian American activism and resistance to
cultural marginalization; and diversity of cultures and experiences within the Asian
Pacific American community.

ELIT 38  Utopian/Dystopian Literature  4 Units
(See general education pages for the requirement this course meets.)
Four hours lecture (48 hours total per quarter).
Critical examination of texts of this genre, with particular attention to contemporary
(postwar) dystopian novels, and with additional readings at instructor’s discretion
from political theory/philosophy, cultural studies, or other sources that foreground
issues or themes implicit in the literary texts.

ELIT 39  Contemporary Literature  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Critical examination of representative, contemporary literary works of the post-WWII
period, with emphasis on more recent works and intercultural offerings. Attention
to key trends, styles, and issues in a global context.

ELIT 40  African American Literature  4 Units
(Formerly ELIT 60.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Examines significant authors, movements, and traditions in African American
literature from the era of slavery to the present. Attention to key trends, styles, and
issues related to race in the United States.

ELIT 41  Ethnic Literature of the United States  4 Units
(Formerly ELIT 41.)
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ELIT 41H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Examines significant authors, movements, and traditions (continuing as well as
emerging) in a diverse range of ethnic literature of the United States.

ELIT 41H  Ethnic Literature of the United States - HONORS  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ELIT 41.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Examines significant authors, movements, and traditions (continuing as well as
emerging) in a diverse range of ethnic literature of the United States. As an honors
course, the students will be expected to complete extra assignments to gain deeper
insight in ethnic literature of the United States.

ELIT 44  International Literature (Fiction)  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works of international fiction,
including works from Africa, Asia, Latin America, Pacific Islands, and Australia,
Literary, cultural, and cross-cultural interpretation, evaluation, and comparison of
short stories and novels.

ELIT 46A  Major British Writers  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ELIT 46AH.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by major writers such as
Chaucer, Shakespeare and Milton.
ELIT 48A Major American Writers (Colonial to Romantic, 1620-1865)  4 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by diverse writers such as
William Bradford, Anne Bradstreet, Jonathan Edwards, Ben Franklin, Thomas
Jefferson, James Fenimore Cooper, Edgar Allan Poe, Nathaniel Hawthorne,
Herman Melville, Frederick Douglass, Harriet Jacobs, Harriet Beecher Stowe,
Elias Boudinot, Chief Seattle, Sojourner Truth, Ralph Waldo Emerson, Margaret
Fuller, Henry David Thoreau.
ELIT 48AH Major American Writers (Colonial to Romantic, 1620-1865) - HONORS
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by diverse writers such as
William Bradford, Anne Bradstreet, Jonathan Edwards, Ben Franklin, Thomas
Jefferson, James Fenimore Cooper, Edgar Allan Poe, Nathaniel Hawthorne, Herman
Melville, Frederick Douglass, Harriet Jacobs, Harriet Beecher Stowe, Elias Boudinot,
Chief Seattle, Sojourner Truth, Ralph Waldo Emerson, Margaret Fuller, Henry David
Thoreau. As an honors course, the students will be expected to complete extra
assignments to gain deeper insight in literature.
ELIT 48B Major American Writers (The Advent of Realism, 1865-1914)  4 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by major writers such as
Walt Whitman, Emily Dickinson, Mark Twain, Henry James, William Dean Howells,
Charlotte Perkins Gilman, Charles Chesnutt, Mary Wilkins Freeman, Kate Chopin,
ELIT 48BH Major American Writers (The Advent of Realism, 1865-1914) - HONORS
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by major writers such as
Walt Whitman, Emily Dickinson, Mark Twain, Henry James, William Dean Howells,
Charlotte Perkins Gilman, Charles Chesnutt, Mary Wilkins Freeman, Kate Chopin,
As an honors course, the students will be expected to complete extra assignments
to gain deeper insight in Literature.
ELIT 48C Major American Writers (The Modern Age, 1914–the Present)  4 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by major writers such as
Faulkner, Hemingway, Hurston, Morrison, Fitzgerald, Hughes, Wright, Ellison,
Williams, Cisneros, Stevens, Sexton, Eliot, Vonnegut, Pynchon, O’Connor, Plath,
Carver, Wilson, and O’Neill.
ELIT 48CH Major American Writers (The Modern Age, 1914–the Present) - HONORS
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Reading and critical analysis of representative works by major writers such as
Faulkner, Hemingway, Hurston, Morrison, Fitzgerald, Hughes, Wright, Ellison,
Williams, Cisneros, Stevens, Sexton, Eliot, Vonnegut, Pynchon, O’Connor, Plath,
Carver, Wilson, and O’Neill. As an honors course, the students will be expected to complete extra assignments to gain deeper insight in English literature.
ELIT 78  Special Topics in Literature  1 Unit
ELIT 78X  2 Units
ELIT 78Y  3 Units
ELIT 78Z  4 Units
Requisite/Advisory: None.
One hour lecture for each unit of credit (12 hours total for each unit of credit per quarter).
Intensive study and analysis of a special topic in literature.

English/Writing

Some courses in the English Department are designed for students with a recommended level of skills and knowledge. De Anza uses a variety of assessment methods including placement tests, high school transcripts and high school GPA – to place students in the best course sequence for them to succeed. Students who have not been assessed or who are unsure of their placement should contact the Assessment Center. Learn more at deanza.edu/assessment

EWRT 1A Composition and Reading  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 211 and READ 211 (or LART 211); or equivalent placement.
Five hours lecture (60 hours total per quarter).
Introduction to university level reading and writing, with an emphasis on analysis.
Close examination of a variety of texts (personal, popular, literary, professional,
academic) from culturally diverse traditions. Practice in common rhetorical strategies
used in academic writing. Composition of clear, well-organized, and well-developed
essays, with varying purposes and differing audiences, from personal to academic.

EWRT 1AH Composition and Reading - HONORS  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Placement based on English Assessment Process, including GPA
multiple measure assessment.
Five hours lecture (60 hours total per quarter).
Integration of reading and writing skills necessary for success in ENGL 1A with an
emphasis on evaluation, analysis, synthesis, questioning, and critical inquiry
of assigned readings, from culturally diverse traditions, and in essays. Immersion in
the reading and writing process with opportunities for instruction on strategies
and skills to succeed in transfer-level curriculum. Composition of well-organized,
clear essays with varying purposes and audiences both in and out of class. This
is the first of a two-course sequence.

EWRT 1AS Intensive Composition and Reading  5 Units
Stretch: First Quarter
(See general education pages for the requirement this course meets.)
Prerequisite: Placement based on English Assessment Process, including GPA
multiple measure assessment.
Five hours lecture (60 hours total per quarter).
Introduction to university level reading and writing, with an emphasis on analysis.
Close examination of a variety of texts (personal, popular, literary, professional,
academic) from culturally diverse traditions. Practice in common rhetorical strategies
used in academic writing. Composition of clear, well-organized, and well-developed
essays, with varying purposes and differing audiences, from personal to academic.
This is the second of a two-course sequence.

EWRT 1AT Intensive Composition and Reading  5 Units
Stretch: Second Quarter
(See general education pages for the requirement this course meets.)
Prerequisite: Placement based on English Assessment Process, including GPA
multiple measure assessment.
Five hours lecture (60 hours total per quarter).
Introduction to university level reading and writing, with an emphasis on analysis.
Close examination of a variety of texts (personal, popular, literary, professional,
academic) from culturally diverse traditions. Practice in common rhetorical strategies
used in academic writing. Composition of clear, well-organized, and well-developed
essays, with varying purposes and differing audiences, from personal to academic.

EWRT 1B Reading, Writing and Research  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 1A and READ 111.
Five hours lecture (60 hours total per quarter).
Development of analytical, integrative skills in reading and writing. Academic
(constructive, analytical, argumentative) writing based largely on reading of literary/
imaginative texts linked by a common theme or issue. Outside research leading to
analysis, comparison, and synthesis in documented research paper.

EWRT 1BH Reading, Writing and Research - HONORS  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Placement based on English Assessment Process, including GPA
multiple measure assessment.
Five hours lecture (60 hours total per quarter).
Development of analytical, integrative skills in reading and writing. Academic
(constructive, analytical, argumentative) writing based largely on reading of literary/
imaginative texts linked by a common theme or issue. Outside research leading to
analysis, comparison, and synthesis in documented research paper. As an honors
course, the students will be expected to complete extra assignments to gain deeper
insight in critical thinking and literature.
EWRT 1C  Literature and Composition  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 1B, 1BH, 2 or 2H.
Five hours lecture (60 hours total per quarter).
Applies the analytical, critical, and synthesis skills developed in EWRT 1A/1AH and
EWRT 1B/1BH, and/or EWRT 2/2H to the ways meaning can be made in diverse
sociocultural, social, and historical contexts in prose, poetry, and drama by reading and
analyzing texts and critical interpretations and by composing critical responses,
analyses, and arguments.

EWRT 2  Critical Reading, Writing and Thinking  5 Units
(See general education pages for the requirement this course meets.)
Not open to students with credit in EWRT 2H.
Prerequisite: EWRT 1A or EWRT 1AH.
Five hours lecture (60 hours total per quarter).
Develops critical thinking skills and the ability to apply these skills to reading and writing. Develops analytical and argumentative academic essays based on reading of
complex texts, and the use of outside research leading to analysis, comparison,
and synthesis and a documented research paper.

EWRT 2H  Critical Reading, Writing and Thinking - HONORS  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 1A or EWRT 1AH.
Five hours lecture (60 hours total per quarter).
Continuation of Literary Magazine I, National Edition (EWRT 65A or EWRT 65AX),
lecture, three hours laboratory for the three unit course (60 hours total per quarter).
Collaborative evaluation and selection of fiction, poetry, photography, drawings, and
other literary and artistic work for student edition of literary magazine. Emphasis on
layout, design, production, publicity, event planning, and magazine distribution along
with soliciting, submission management, manuscript evaluation, and copy editing.

EWRT 65A  Literary Magazine I, National Edition  2 Units
(Formerly EWRT 65B and EWRT 65AX respectively.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Two hours lecture for the two-unit course (24 hours total per quarter); two hours
lecture, three hours laboratory for the three unit course (60 hours total per quarter).
Continuation of Literary Magazine I, Student Edition (EWRT 68A or EWRT 68AX),
with emphasis on genre-specific and specialized work in layout, design, production,
publicity, event planning, and magazine distribution along with soliciting, submission
management, manuscript selection, screening, and copy editing. Collaborative
evaluation of fiction, poetry, photography, drawings, and other literary and artistic
work for student edition of literary magazine.

EWRT 65B  Literary Magazine II, Student Edition  2 Units
Prerequisite: EWRT 65A or EWRT 65AX.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Two hours lecture for the two unit course (24 hours total per quarter); two hours
lecture, three hours laboratory for the three unit course (60 hours total per quarter).
Continuation of Literary Magazine I, Student Edition (EWRT 68A or EWRT 68AX),
with emphasis on genre-specific and specialized work in layout, design, production,
publicity, event planning, and magazine distribution along with soliciting, submission
management, manuscript selection, screening, and copy editing. Collaborative
evaluation of fiction, poetry, photography, drawings, and other literary and artistic
work for student edition of literary magazine.

EWRT 68C  Editorial Leadership Literary Magazine, Student Edition  2 Units
Prerequisite: EWRT 65A or EWRT 65AX.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Two hours lecture for the two unit course (24 hours total per quarter); two hours
lecture, three hours laboratory for the three unit course (60 hours total per quarter).
Continuation of Literary Magazine I, Student Edition (EWRT 68A or EWRT 68AX),
with emphasis on genre-specific and specialized work in layout, design, production,
publicity, event planning, and magazine distribution along with soliciting, submission
management, manuscript selection, screening, and copy editing. Collaborative
evaluation of fiction, poetry, photography, drawings, and other literary and artistic
work for student edition of literary magazine.

EWRT 77  Special Projects in English  1 Unit
Prerequisite: Consent of instructor and division dean.
Pass-No Pass (P-NP) course.
Special reading, writing, or study projects in English as determined in consultation
with the instructor.

EWRT 141  Beginning Poetry Writing  4 Units
Credit course - Does not apply to De Anza Associate degree.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Four hours lecture (48 hours total per quarter).
Continuation of Literary Magazine I, Student Edition (EWRT 68A or EWRT 68AX),
with emphasis on independent and team leadership in magazine organizational
processes including layout, design, production, publicity, event planning, and
magazine distribution along with soliciting, submission management, manuscript
selection, screening, and copy editing. Includes collaborative evaluation of fiction,
poetry, photography, drawings, and other literary and artistic work for student
edition of literary magazine.
Environmental Science

ESCI 1 Environmental Science  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introductory course designed to expose students to environmental science. Human interactions with the environment and their consequences for living and nonliving systems will be examined. Topics will include evolution, ecology, biodiversity, human population dynamics, natural resource use, pollution, environmental degradation, climate change, marine and freshwater resources, and environmental policy. (One-day field trip outside of scheduled class time may be required for this course.)

ESCI 1L Environmental Science Laboratory  1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: ESCI 1 (may be taken concurrently).
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours laboratory (36 hours total per quarter).
An introduction to environmental science as a branch of the sciences including the scientific method and its relation to the scientific field in a laboratory and field setting. Applications of scientific, environmental, ecological and sustainability principles as they relate to human societies will be explored.

ESCI 19 Environmental Biology  5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture, three hours laboratory (84 hours total per quarter).
An introduction to environmental biology as a branch of the environmental sciences and its relation to the scientific field. Review of the principles of environmental biology, ecology and conservation as they relate to natural resource use, the biodiversity crisis, pollution, human population, climate change and the impacts on all cultural, ethnic and gender groups. (Field trip outside of scheduled class time may be required for this course.)

ESCI 21 Practices of Environmental Stewardship  5 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture, three hours laboratory (84 hours total per quarter).
A focus on the California Floristic Province, emphasizing the ways California's biodiversity is sampled and studied. Includes hands-on fieldwork surveying vegetation and animal populations, discussion of societal impacts of biodiversity loss and conservation, and the importance of biodiversity conservation today. (Off-campus field trips may be required.)

ESCI 30 Introduction to Conservation Biology  5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture, three hours laboratory (84 hours total per quarter).
An introduction to biodiversity and conservation biology as a branch of the environmental sciences. This course will focus on species richness, genetic diversity and ecosystem diversity through the exploration of contemporary biodiversity and conservation issues. Adaptive, community-based conservation techniques applied to develop practical problem-solving approaches to the biodiversity crisis including habitat fragmentation and biological monitoring. In addition cultural, economic and philosophical aspects of biodiversity conservation will be explored. (Off-campus field trips will be required.)

ESCI 50 Introduction to Wildlife Science Technology  4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Explores wildlife science practice and technology in the 21st century including the scientific principles of corridor ecology, landscape ecology and connectivity and ecosystem (adaptive) management. Applies the principles (theory) of wildlife science technology to assist in the preservation, protection and restoration of native species and ecosystems.

ESCI 54 Wildlife Science Technician: Data Analysis  3 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture (36 hours total per quarter).
Explores the data analysis techniques (including least cost path analysis), protocol and equipment utilized in wildlife corridor technology. Applies the data analysis techniques utilized in the wildlife corridor discipline to assist in the preservation, protection and restoration of native species and ecosystems.

ESCI 55 Wildlife Science Technician: Corridor Design  3 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture (36 hours total per quarter).
Examines the process of wildlife science corridor (connectivity) design in the 21st century, incorporating the principles and challenges of corridor ecology, ecosystem (adaptive) management and the urban-wildlife interface. Applies the principles of wildlife corridor design to assist in the preservation, protection and restoration of native landscape, species and ecosystems.

ESCI 56 Wildlife Science Technician: Plant Survey Techniques  3 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture (36 hours total per quarter).
 Examines the plant survey techniques and plant community ecology principles utilized in wildlife science corridor and landscape design, preservation or restoration. Applies these plant survey techniques to assist in the preservation, protection and restoration of native species and ecosystems.

ESCI 57 Wildlife Science Technician: Wildlife Monitoring  2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Six hours laboratory (72 hours total per quarter).
Wildlife monitoring field studies lab course exploring wildlife movement and wildlife corridors locally. Applies the principles of wildlife science technology to assist in the preservation, protection and restoration of native species and ecosystems.

ESCI 58 Wildlife Science Technician: Wildlife Monitoring and Landscape Linkages for California  2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Six hours laboratory (72 hours total per quarter).
Wildlife monitoring and landscape linkages field studies lab course exploring wildlife movement, habitat utilization, data collection and analysis and in the Central Coast Region of California as part of the first large scale statewide landscape connectivity study conducted by the Wildlife Science Technician (WST) Program, Environmental Studies Department, De Anza College, entitled: Safe Passage for Coyote Valley; A Wildlife Linkage for the Highway 101 Corridor, A User's Guide to Protecting Highway Crossings for Wildlife While Connecting California's Students with Science and Nature. Applies the wildlife tracking principles and techniques as well as relevant state and federal legislation and policy to an actual statewide corridor case study to assist in the preservation, protection and restoration of native species, ecosystems and landscape connectivity statewide.

ESCI 60 Restoration Ecology  5 Units
(Formerly ESCI 20.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture, three hours laboratory (84 hours total per quarter).
An introduction to ecological restoration. Includes review of ecological theories as necessary for restoration based projects. The Cheeseman Environmental Studies serves as a laboratory for students project based, experiential learning.

ESCI 77 Special Projects in Environmental Science  1 Unit
ESCI 77X  2 Units
ESCI 77Y  3 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Individual research in environmental science. Specific projects determined in consultation with the instructor. Outside reading and written report required.

Environmental Studies

E S 1 Introduction to Environmental Studies  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introductory study of environmental issues, their underlying causes and potential solutions from an interdisciplinary perspective, considering science, history, culture, philosophy and ethics, law and regulation, politics, economics, and management practices. Topics include current environmental issues related to nature/wildlife preservation, natural resource use and conservation, pollution control and prevention, and energy use and climate change. Students learn how their personal and career choices and actions can protect nature, preserve natural resources, prevent pollution, reduce energy demands and decrease climate change impacts for the benefit of current and future generations. (One field trip may be required outside of class time.)

E S 2 Introduction to Sustainability  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to sustainability through environmental, social, and economic evaluation. Students will learn the influence of societal resource use, distribution, and waste on earth. Climate change, power dynamics, and leadership are observed and evaluated. Students will consider their personal and career choices and actions that can protect nature, preserve natural resources, prevent pollution, reduce energy demands and decrease climate change impacts for the benefit of current and future generations. (One field trip may be required outside of class time.)

E S 3 Imagery of the Environment  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the academic discipline of Environmental Studies through historical and contemporary analysis of nature-based imagery. What those representations indicate about past and present environmental changes will be

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.

2019-2020 DE ANZA COLLEGE CATALOG
discussed. Roles of the artist as naturalist, scientist and conservationist will be explored, as well as visual representation by a diverse range of cultural groups.

(One field trip outside of class time may be required.)

E S 4 Energy, the Environment, and Society 4 Units
(Same general education pages for the requirement this course meets.)

Advisory: EWRT 1A or EWRT 1AH or ESL 5.

Four hours lecture (48 hours total per quarter).

Energy plays a dominant role in our modern global industrialized society. Rapid growth of human populations worldwide, combined with increases in fossil fuel related energy to support human activities have caused social, environmental, health and safety, political and economic ramifications. Damage to land, sea, and air, nuclear and oil spills, global political strife, greenhouse gas emissions, species extinction and habitat degradation, and economic inflation are all associated with our need to have abundant amounts of energy in our lives. Many issues facing the world we live in are the result of the extraction, production, transmission, distribution and consumption of energy. Energy and its negative impacts know no social, economic, cultural, racial, religious, political, geographic or environmental boundaries. This course examines how our environment, products, and technologies respond to life and the planet. (Field trip outside of scheduled class time may be required for this course.)

E S 5 Introduction to Environmental Law 4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.

Four hours lecture (48 hours total per quarter).

An introduction to environmental law and associated regulation in the U.S. and California, addressing the areas of air quality, water quality, waste management, hazardous materials management, natural resources management and preservation, global warming/climate change, and land use, along with environmental equity/justice concerns.

E S 50 Introduction to Environmental Resource Management and Pollution Prevention 3 Units
(Same general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Three hours lecture (36 hours total per quarter).

An introduction to the interrelated fields of Environmental Resource Management (ERM) and Pollution Prevention (P2), surveying the areas of environmental law and regulation, environmental health, pollution control and prevention, and efficient/sustainable use of our environmental resources (air, water, land, etc.). Includes overviews of: 1) U.S. and California environmental laws and the governmental regulatory agencies that implement those laws 2) Environmentally-related human health issues and the associated field of Environmental Health, 3) Pollution control technologies, 4) Pollution prevention approaches and techniques (such as Design for Environment Protection, Green Building, Energy Management, Water Conservation, etc.) and 4) Environmental management tools, including Environmental Management Systems (such as ISO 14001) and Environmental Performance Reports. Explores associated job and career opportunities in the ERM and P2 fields.

E S 51A Sustainable Energy Systems 4 Units
Prerequisite: E S 70 (may be taken concurrently) and E S 79 (may be taken concurrently).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Three hours lecture, three hours laboratory (72 hours total per quarter).

Examines Energy Management Technology and the importance and applications of building performance, control and monitoring using the Kirsch Center for Environmental Studies and other campus-wide buildings in a lab setting. An understanding of electric power, the electric power industry and the economics of distributed energy resources is provided in the course. The essential characteristics of traditional and renewable energy systems such as wind, solar and fuel cells will also be examined.

E S 51B Energy Efficient Buildings 3 Units
Prerequisite: E S 71 (may be taken concurrently).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours lecture, three hours laboratory (80 hours total per quarter).

A general introduction to Energy Efficient Buildings. An emphasis on residential and small commercial buildings is presented in this course. Specific topics to be covered include: energy use in buildings, bioclimatic design, indoor environmental quality, heat transfer concepts, load and energy calculations, HVAC systems and equipment, and natural daylighting. A hands-on lab component will accompany the lecture presentations.

E S 51C Building Automation Systems 2 Units
(Formerly E S 78B.)

Prerequisite: E S 78 (may be taken concurrently).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

One hour lecture, three hours laboratory (48 hours total per quarter).

Examines detailed strategies and principles for building operation systems and controls. Course covers building automation systems including IP based solutions and looks at the financial return on investment of implementing a building management and control system. The Kirsch Center for Environmental Studies and other campus-wide buildings as a learning laboratory will be utilized.

E S 56 Environmental Management Tools: Energy, Chemicals and Waste 4 Units
Prerequisite: E S 61A (may be taken concurrently).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

One hour lecture (12 hours total per quarter).

An introduction to environmental law and resource management, focusing on: 1) energy and chemical production and use and 2) prevention and management of solid and hazardous waste. Examines the scientific, legal, technical and practical management aspects involved in protecting and sustainably using/managing such resources. Explores associated job and career opportunities in these areas.

E S 58 Introduction to Green Building 1 Unit
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

One hour lecture (12 hours total per quarter).

An overview of the strategies to implement a green building project within an organization. Strategies include green building policies, best practices and guidelines including LEED (Leadership in Energy and Environmental Design), passive solar design, use of sustainable materials and energy efficiency in buildings, as well as an assessment of the impact of construction and buildings on society, economics, the environment.

E S 60 Environmental Resource Management and Pollution Prevention: Air, Water and Land 4 Units
Prerequisite: E S 71 (may be taken concurrently).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; E S 50.

Four hours lecture (48 hours total per quarter).

Explores environmental protection (pollution control and prevention) and resource management, focusing on: 1) energy and chemical production and use and 2) prevention and management of solid and hazardous waste. Examines the scientific, legal, technical and practical management aspects involved in: 1) producing and using energy and chemicals/chemical products, 2) recovering resources from waste materials and 3) disposing of non-recoverable waste materials. Explores associated job and career opportunities in these areas.

E S 61A Environmental Resource Management and Pollution Prevention: Air, Water and Land 4 Units
Prerequisite: E S 51A.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Three hours laboratory (36 hours total per quarter).

Laboratory class focused on using environmental sampling, monitoring and assessment devices and equipment and analytical tools to detect and quantify environmental contaminants present in air, water and soil, as well as assess the overall quality of those basic environmental resources.

E S 61B Environmental Resource Management and Pollution Prevention: Energy, Chemicals and Waste 4 Units
Prerequisite: E S 61A (may be taken concurrently).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; E S 50.

Four hours lecture (48 hours total per quarter).

Explores environmental protection (pollution control and prevention) and resource management, focusing on: 1) energy and chemical production and use and 2) prevention and management of solid and hazardous waste. Examines the scientific, legal, technical and practical management aspects involved in protecting and sustainably using/managing such resources. Explores associated job and career opportunities in these areas.

E S 62A Environmental Management Systems and Environmental Performance Reporting 4 Units
Prerequisites: E S 50.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

One hour lecture, three hours laboratory (48 hours total per quarter).

Examines: 1) Environmental Management Systems (systematic approaches, such as ISO 14001 and EMAS, used to achieve both regulatory compliance and ‘beyond compliance’ environmental improvement within businesses and other organizations), and 2) Environmental Performance Reporting (involving publicly available reports issued by businesses and other organizations showing their environmental performance based on established metrics). Also includes an examination of Green Business Certification programs. Explores associated job and career opportunities in these areas.

E S 62B Environmental Management Tools: CEQA and Environmental Impact Reports 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Four hours lecture (48 hours total per quarter).

Examines the "CEQA process" with particular emphasis on Environmental Impact Reports (EIRs) which are used as a means to identify, assess, mitigate (as feasible) and then publicly disclose the significant environmental effects of certain proposed projects (both public and private) as required under the California Environmental Quality Act (CEQA). Case studies involving local projects are presented along with examination of corresponding CEQA documents, including EIRs. Explores job and career opportunities associated with CEQA/Environmental Impact Assessment and Reporting.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
E S 83 | Energy Management Return on Investment | 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. Two hours lecture (24 hours total per quarter).

An overview of utility rate changes and exploration of building energy benchmarking tools such as Energy Star Portfolio Manager and LBNL's Energy IQ. Methods for estimating costs, and calculating the financial benefits of recommended energy efficiency and renewable energy projects and determining the return on investment and cost benefits of energy efficiency changes in commercial and residential buildings will be analyzed.

E S 84 | Residential Solar Design and Installation | 1 Unit
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. One hour lecture (12 hours total per quarter).

Analysis of the key factors in designing and installing a residential solar system. Residential solar installation trends, emerging technologies and strategies, how to size the system, evaluation of modules and inverters, shading analysis, rebates and tax incentives, economic payback, buy vs. lease options, performance monitoring and how to install a complete residential solar systems will be covered. Students will spend three hours to become OSHA 10 solar safety certified to install residential solar energy systems.

E S 85A | California Native Plants and Animals | 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. Two hours lecture (24 hours total per quarter).

Environmental education and interpretive methods focusing on the native plants and animals of California with an emphasis on local cases and endangered species. Interpretive techniques utilized in environmental education will be reviewed. Prepares students to lead tours of the Cheeseman Environmental Study Area (ESA), outdoor lab. Teaching environmental education and interpretive techniques to various ethnic, cultural and socioeconomic groups will be explored. (Field project required.)

E S 85B | Environmental Education Interpretive Training | 2 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. One hour lecture, three hours laboratory (48 hours total per quarter).

Interpretive techniques of environmental education and environmental outreach, utilizing the Cheeseman Environmental Study Area, the Kricher Center, De Anza College campus and open space sites, parks and refuges in Santa Clara County. Students will refine the techniques required for leading tours and interpreting California native plant and animal communities in the Santa Clara County outdoor settings. Students will conduct 2-4 lead tours at the Cheeseman Environmental Studies Area or at local elementary schools. Strategies for teaching environmental education and nature-based learning with various cultural, ethnic and socio-economic groups will also be explored. (Off-campus field trips are required for this course.)

E S 93 | Sustainability Across the Curriculum | 1 Unit
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. One hour lecture (12 hours total per quarter).

An overview of strategies needed to implement sustainability courses across the curriculum in academic institutions utilizing the seven central themes of Agenda 21. The critical role of education and education outreach in communicating the link between human and planetary health and in building a sustainable society will be examined.

E S 95 | Introduction to Environmental Careers | 1 Unit
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. One hour lecture (12 hours total per quarter).

Learn about saving the planet through environmental careers, including ecosystem management, restoration ecology, corridors ecology, environmental justice, energy management technology, environmental stewardship, environmental education, watershed management, environmental law, pollution prevention and more. Opportunities for internships and employment in business, industry, public agencies, academia and nonprofit agencies will be explored. Students will prepare an academic plan for their two- or four-year degree, certificate or workplace.

Film and Television Production

F/TV 1 | Introduction to Cinematic Arts | 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in F/TV 1H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

An introduction to the close analysis of film and television texts. The course will examine broad questions of form and content, aesthetics and meaning, and history and culture. Using a wide variety of media, filmmakers and film movements, the course explores the diverse possibilities presented by the cinematic art form. Topics include modes of production, narrative and non-narrative forms, visual design, editing, sound, genre, ideology and critical analysis.

F/TV 1H | Introduction to Cinematic Arts HONORS | 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in F/TV 1.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.

Four hours lecture (48 hours total per quarter).

An introduction to the close analysis of film and television texts. The course will examine broad questions of form and content, aesthetics and meaning, and history and culture. Using a wide variety of media, filmmakers and film movements, the course explores the diverse possibilities presented by the cinematic art form. Topics include modes of production, narrative and non-narrative forms, visual design, editing, sound, genre, ideology and critical analysis.

F/TV 2A | History of Cinema (1895-1950) | 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in F/TV 2AH or F/TV 2AWH.)
(Not open to students with credit in F/TV 2A, 2AH, 2AW or 2AWH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture for the four unit course (48 hours total per quarter); four and one-half hours lecture for the four and one-half unit course (54 hours total per quarter).

A survey of the international development of the motion picture picture to 1950 as a distinct form of artistic expression, through classic films, notable artists, and key events; an investigation of the aesthetic, technological, economic, and social factors that contributed to the evolution of film; an examination of the value systems reflected in and shaped by these works from diverse cultures. Expanded topics in historiography, such as problems and approaches to historical film research and analysis will be covered in F/TV 2AW.

F/TV 2AH | History of Cinema (1895-1950) HONORS | 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in F/TV 2AH or F/TV 2AW.)
(Admission into this course requires consent of the Honors Program Coordinator)
(Students may enroll in either F/TV 2AH or F/TV 2AWH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture for the four unit course (48 hours total per quarter); four and one-half hours lecture for the four and one-half unit course (54 hours total per quarter).

A survey of the international development of the motion picture picture to 1950 as a distinct form of artistic expression, through classic films, notable artists, and key events; an investigation of the aesthetic, technological, economic, and social factors that contributed to the evolution of film; an examination of the value systems reflected in and shaped by these works from diverse cultures. F/TV 2AWH will cover expanded topics in historiography, such as problems and approaches to historical film research and analysis. As an honors course, students will be expected to complete extra assignments to gain deeper insight into the history of cinematic arts.

F/TV 2B | History of Cinema (1950-Present) | 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in F/TV 2BH or F/TV 2BWH.)
(Students may enroll in either F/TV 2B or F/TV 2BH, but not both for credit.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture for the four unit course (48 hours total per quarter); four and one-half hours lecture for the four and one-half unit course (54 hours total per quarter).

A survey of the international development of the motion picture picture to 1950 as a distinct form of artistic expression, through classic films, notable artists, and key events; an investigation of the aesthetic, technological, economic, and social factors that contributed to the evolution of cinematic arts; an examination of the value systems reflected in and shaped by these works from diverse cultures. Expanded topics in historiography, such as problems and approaches to historical film research and analysis will be covered in F/TV 2BW.

F/TV 2BH | History of Cinema (1950-Present) HONORS | 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in F/TV 2BH or F/TV 2BWH.)
(Admission into this course requires consent of the Honors Program Coordinator)
(Students may enroll in either F/TV 2BH or F/TV 2BWH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture for the four unit course (48 hours total per quarter); four and one-half hours lecture for the four and one-half unit course (54 hours total per quarter).

</table>

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
**F/TV 43** Film Artists 4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Analysis of the works of specific film artists, such as directors Alfred Hitchcock or Spike Lee; or analysis of the works of artists practicing a specific film craft, such as screenwriting, acting, cinematography or editing. The topic studied changes each quarter (see subtitle in quarterly schedule of classes).

**F/TV 44A** 16mm/35mm Film Production I 4 Units
(Formerly F/TV 52A.)
Prerequisite: F/TV 22.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Pre-production, laboratory procedures, interior and exterior lighting techniques, color cinematography for 16mm and 35mm film production. Emphasis on individual student projects.

**F/TV 44B** 16mm/35mm Film Production II 4 Units
(Formerly F/TV 52B.)
Prerequisite: F/TV 44A.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Advanced production and post-production techniques including sync sound production and editing, music editing, and preparing for the final mix in 16mm and 35mm film production. Emphasis on individual student projects.

**F/TV 45** History of Experimental Film/Video 4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of various experimental styles and practices in film and video, addressing the artists and historical developments of these media formats. The course situates experimental film and video work within the larger contexts of artistic traditions as well as networks of production and reception.

**F/TV 56A** Introduction to Visual Effects and Color Grading 4 Units
Prerequisite: F/TV 20.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Overview of finishing steps in modern, digital post-production. Film and television-based usage of Adobe After Effects in practical applications such as titling and composite work will be covered along with color grading in DaVinci Resolve.

**F/TV 57A** Nonfiction Workshop I: The Documentary 4 Units
Prerequisite: F/TV 20.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Nonfiction concepts, principles, and techniques as related to the production of a documentary work. Examination of the historical roots of nonfiction film and television with emphasis on production work in documentary formats.

**F/TV 57B** Nonfiction Workshop II: The Documentary 4 Units
Prerequisite: F/TV 57A.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Advanced techniques in nonfiction film and television, including cinematography, sound, lighting, post-production editing, and directing. Analysis of the modern film and television documentary with emphasis on production of a completed documentary video.

**F/TV 58S** Film/Television Production Workshop 1 Unit
**F/TV 58T** 2 Units
**F/TV 58U** 3 Units
**F/TV 58V** 4 Units
Prerequisite: F/TV 20.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
A production workshop in which the student works independently, or with a crew, to produce a film or video to refine skills in camera, lighting, directing, post-production, and other related skills. The number of units is dependent on the production.

**F/TV 59** Role of the Media Producer 4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5; F/TV 57A.
Four hours lecture (48 hours total per quarter).
Roles and responsibilities of the media producer. Skills and knowledge required in developing a production proposal; including development, audience analysis, location scouting, production schedule, budgeting and distribution.

**F/TV 60B** Screenwriting Fundamentals for Film/Video II 4 Units
Prerequisite: F/TV 60A.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Second level course in screenwriting; examination of structure and characterization in dramatic narrative; consideration of approach and structure in nonfiction; emphasis on development and writing of original short and feature-length screenplays.
### Professional Portfolio Development

<table>

<td>History of Animation (1900- Present)</td>
<td>4</td>
<td>(See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). An international survey of the historical development of the animated film, from its origins to a contemporary art form, with emphasis on the contributions of Fleischer, Disney, Warner Bros., Zegreb, Studio Ghibli, and National Film Board of Canada, as well as many important independent artists; an investigation of the aesthetic, technological, economic, and social factors that contributed to the form; an examination of the value systems reflected in and shaped by works from diverse cultures.</td>
</tr>
<tr>
<td>F/TV 75K</td>
<td>Japanese Animation</td>
<td>4</td>
<td>Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). An examination of the post-1960's evolution of animated films in Japan, a national cinema famed for its range of subject matter and outstanding graphics. Provides a critical methodology for analysis of exemplary and influential works by distinguished artists, writing collectives and production studios from aesthetic, sociopolitical, economic and technological perspectives.</td>
</tr>
<tr>
<td>F/TV 78W</td>
<td>Special Topics in Film Studies</td>
<td>1</td>
<td>Prerequisite: F/TV 66A or F/TV 67A; and F/TV 71G. One hour lecture for each unit of credit (12 hours total for each unit of credit per quarter). Concentrated investigation of an influential film artist, studio, national cinema, genre, movement or historical period. The topic studied is different for each section of this course and may include Bay Area film festivals or events (see course note in quarterly schedule of classes).</td>
</tr>
<tr>
<td>F/TV 92</td>
<td>Special Topics: Industry Professionals and Practices</td>
<td>1</td>
<td>Requisite/Advisory: None. One hour lecture (12 hours total per quarter). An investigation into techniques and procedures utilized by industry professionals in some specific aspect of media production. Topics will vary by quarter and will be determined by the guest artist or faculty member.</td>
</tr>
<tr>
<td>F/TV 98G</td>
<td>Fiction Workshop (The Writer, Producer, Director)</td>
<td>3</td>
<td>Prerequisite: F/TV 20. Two hours lecture, three hours laboratory (60 hours total per quarter). Advanced workshop in writing, producing or directing of complex scenes or multiple scene works of narrative/dramatic film or video. Emphasis will be placed on working as a team in a class-wide collaborative project.</td>
</tr>
<tr>
<td>F/TV 98H</td>
<td>Fiction Workshop (The Technical Crew)</td>
<td>3</td>
<td>Prerequisite: F/TV 20. Two hours lecture, three hours laboratory (60 hours total per quarter). Advanced workshop in cinematography, lighting, art direction, sound recording, and other craft skills essential to the production of narrative/dramatic film and video projects. Emphasis will be placed on working as a team in a class-wide collaborative project.</td>
</tr>
<tr>
<td>F/TV 98J</td>
<td>Fiction Workshop (Editing/Post Production)</td>
<td>3</td>
<td>Prerequisite: F/TV 27. Two hours lecture, three hours laboratory (60 hours total per quarter). Advanced workshop in the post-production phase including elements of picture and sound editing and sound design for narrative/dramatic film and video projects. Emphasis will be placed on working as a team in a class-wide collaborative project.</td>

<tbody>
<tr>
<td>GEO 1</td>
<td>Physical Geography</td>
<td>4</td>
<td>(See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5; MATH 210 or equivalent. Four hours lecture (48 hours total per quarter). An introduction to the basic physical elements of geography and the diverse physical environments in which we live. Topics include the global patterns of weather and climate, landforms, soils and vegetation along with human modification of natural environments. The geographic tools used to explore these topics include maps, GPS, remote sensing and Geographic Information Systems (GIS).</td>
</tr>
</tbody>
</table>
Five hours lecture (60 hours total per quarter).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(See general education pages for the requirement this course meets.)

GERM 3 Elementary German (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: GERM 2 (equivalent to two years of high school German) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

Further development of material presented in GERM 1 and 2. Completion of introduction to the language and cultures of the German-speaking countries. Basic speaking, listening, reading and writing of German will be introduced and practiced within a cultural framework. Emphasis will be on language as an expression of culture. Language laboratory practice to reinforce pronunciation, grammar and syntax.

GERM 4 Intermediate German (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: GERM 3 (equivalent to three years of high school German) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

Language laboratory practice to reinforce pronunciation, grammar and syntax.

Development of reading, writing, speaking and listening skills at the first intermediate level. Reading and discussing texts dealing with the literature, arts, history, geography and culture of the German-speaking world. Review and expansion of the linguistic functions and grammatical structures of first-year German.

GERM 5 Intermediate German (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: GERM 4 (equivalent to four years of high school German) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

Continuation of GERM 4. Read and discuss texts dealing with geography, history, literature, social, and cultural practices of the German-speaking world. Review the linguistic functions and grammatical structures of intermediate German. Speaking, listening, reading, and writing of second-quarter intermediate level of German will be introduced and practiced within a cultural framework.

GERM 6 Intermediate German (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: GERM 5 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

Continuation of GERM 5. Read, discuss and analyze texts dealing with arts, geography, history, literature, social and cultural practices of the German-speaking world. Review the linguistic functions and grammatical structures of intermediate German. Speaking, listening, reading, and writing of third-quarter high intermediate level of German will be introduced and practiced within a cultural framework.

Guidance (GUID)
(See Learning Strategies for course listings.)

Health

HLTH 21 Contemporary Health Concerns 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

Development of understanding and attitudes relative to personal, family, community, and global health needs. Attention given to mental health, drug abuse, infectious and degenerative diseases, family health, nutrition, exercise, the life cycle, and ecological conditions of health significance. Study of common lifestyle behaviors will emphasize self-help and preventable aspects of medical care.

HLTH 57A First Aid for the Community, Home, Wilderness, and Disasters 1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: Must have current certificate from the American Red Cross for Cardiopulmonary Resuscitation and Automated External Defibrillation (CPR/AED) for Professional Rescuers and Health Care Providers or the American Heart Association equivalent.
One and one-half hours (18 hours total per quarter).

Designed for certification in American Red Cross First Aid. Students will gain the knowledge and skills necessary to recognize and provide basic care for injuries and sudden illnesses until advanced medical personnel take over. Adaptations for delayed help situations such as a wilderness environment or after an earthquake. Upon successful completion of the course, each participant will receive an American Red Cross certification in Standard First Aid (valid for three years).

HLTH 57D CPR/AED for the Professional Rescuer - Recertification 2/1 Unit
Prerequisite: Must have current certificate from the American Red Cross for Cardiopulmonary Resuscitation and Automated External Defibrillation (CPR/AED) for Professional Rescuers and Health Care Providers or the American Heart Association equivalent.
One and one-half hours (18 hours total per quarter).

Designed to recertify the trained candidate in CPR/AED for Professional Rescuers and Health Care Providers. The course meets Cal-OSHA standards for basic requirements.
Health Technologies

HTEC 50 Introduction to Health Technologies 2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Two hours lecture (24 hours total per quarter).
Pass-No Pass (P-NP) course.
Survey of health technology programs with an emphasis on the professions; designed to assist in identifying personal strengths and weaknesses related to health technology professions; assist students in health technology professions to learn basic principles of human behavior.

HTEC 60A Basic Medical Terminology 3 Units
Advisory: HTEC 50 (may be taken concurrently).
Three hours lecture (36 hours total per quarter).
Orientation to medical terminology; basic structure of medical terms and their components-prefixes, suffixes and roots with emphasis on analysis, definition, spelling and pronunciation.

HTEC 60G Advanced Medical Terminology I 2 Units
Prerequisite: HTEC 60A.
Two hours lecture (24 hours total per quarter).
Application of medical terminology to the following body systems: digestive, urinary, reproductive, nervous, integumentary, sensory organs, and radiology.

HTEC 60H Advanced Medical Terminology II 2 Units
Prerequisite: HTEC 60A.
Two hours lecture (24 hours total per quarter).
Application of medical terminology to the following body systems: cardiovascular, respiratory, blood and lymphatics, musculoskeletal, endocrine, oncology, pharmacology, psychiatry.

HTEC 61 Medical Communications 1 1/2 Units
Corequisite: HTEC 61 students must also enroll in HTEC 101C.
Advisory: HTEC 60A.
One hour lecture, two hours laboratory (36 hours total per quarter).
Application of medical terminology; abbreviations, symbols, numbers, keyboarding appropriate formats in medical communications; medical chart notes, history and physicals, consultations and operative reports.

HTEC 64A Clinical Laboratory Procedures I 1 1/2 Units
Prerequisite: HTEC 60A.
One hour lecture, two hours laboratory (36 hours total per quarter).
Introduction to the clinical laboratory: infection control, bloodborne pathogen standard, safety standards, laboratory requisition, specimen requirements, patient preparation, patient identification, specimen identification, venipuncture and skin puncture equipment.

HTEC 64B Clinical Laboratory Procedures II 3 Units
Prerequisite: HTEC 64A and HTEC 101A (may be taken concurrently). Students who have successfully passed HTEC 101A must enroll in either HTEC 101L or HTEC 101LM concurrently.
Three hours lecture (36 hours total per quarter).
Addresses blood collection procedures and includes: safety, infection collection, circulatory system, pre-analytical considerations, blood collection equipment and supplies, blood collection procedures for venipuncture and skin puncture, special collections, specimen processing and handling, quality assurance, and legal issues.

HTEC 68 Medical Reception Externship 2 Units
Prerequisite: HTEC 50, 60A, 61, 71, 72, 73, 75, 101C and 101D.
Advisory: CIS 4 and HLTH 57A.
Six hours laboratory (72 hours total per quarter).
Practical medical reception experience in medical clinics.

HTEC 71 Medical Office Reception 2 Units
Advisory: HTEC 60A.
Two hours lecture (24 hours total per quarter).
Duties of the medical receptionist with emphasis on oral communications, appointment scheduling, and telephone technique.

HTEC 72 Medical Office Financial Procedures 1 1/2 Units
Corequisite: HTEC 72 students must also enroll in HTEC 101D.
Advisory: HTEC 60A.
One hour lecture, two hours laboratory (36 hours total per quarter).
Fee determination, billing, diagnostic and procedural coding, commercial and government health insurance programs, health insurance specialist as a career.

HTEC 73 Medical Law and Ethics 3 Units
Advisory: HTEC 60A.
Three hours lecture (36 hours total per quarter).
Medical ethics, medical practice acts, legal relationship of patient and physician, legal responsibilities of the health technology team member, professional liability, physician's civic duties and arbitration.

HTEC 74A Medical Transcription with Editing I 1 1/2 Units
(Formerly HTEC 74).
Prerequisite: HTEC 61.
Corequisite: HTEC 74A students must also enroll in HTEC 101H.
One hour lecture, one and one-half hours laboratory (30 hours total per quarter).

HTEC 74B Medical Transcription with Editing II 1 1/2 Units
Prerequisite: HTEC 74A.
Corequisite: HTEC 74B students must also enroll in HTEC 101J.
One hour lecture, one and one-half hours laboratory (30 hours total per quarter).
Development of basic medical transcription skills for a facility using actual dictation from Gastroenterology and Orthopedics specialties; along with the basic skills for speech recognition editing.

HTEC 74C Medical Transcription with Editing III 1 1/2 Units
Prerequisite: HTEC 74B.
Corequisite: HTEC 74C students must also enroll in HTEC 101K.
One hour lecture, one and one-half hours laboratory (30 hours total per quarter).
Development of Advanced Transcriptional skills for a facility using actual dictation from Oncology, Pulmonology, Ophthalmology and Urology specialties; along with the basic skills for speech recognition editing.

HTEC 75 Electronic Health Records 1 1/2 Units
Advisory: HTEC 60A and HTEC 72.
One hour lecture, two hours laboratory (36 hours total per quarter).
Credits: Electronic Health Records (EHR) documentation through industry-standard software, basic technology used in EHR implementation, setup EHR software using clinical and administrative tools, create new documentation in EHR, importing documents in a patient's chart, creating templates for procedures and diagnoses.

HTEC 76A Advanced Medical Coding I 1 1/2 Units
Prerequisite: HTEC 72.
One hour lecture, one and one-half hours laboratory (30 hours total per quarter).
Introduces the advance concepts and guidelines from (AHA) American Hospital Association, (AHIMA) American Health Information Association, and (AMA) American Medical Association: ICD-9-CM Coding System.

HTEC 76B Advanced Medical Coding II 1 1/2 Units
Prerequisite: HTEC 76A.
One hour lecture, one and one-half hours laboratory (30 hours total per quarter).

HTEC 77 Special Projects in Health Technology 1 Unit
HTEC 77X 2 Units
HTEC 77Y 3 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual advanced projects in health technology.

HTEC 80 Clinical Hematology Laboratory 1 1/2 Units
Corequisite: HTEC 80 students must also enroll in HTEC 80A.
Four and one-half hours laboratory (54 hours total per quarter).
Introduces the various techniques and safety procedures used in the clinical hematology laboratory. The students will prepare and stain blood slides, perform microhematocrits, hemoglobin analysis, ESR, and Sickle Cell Screening. Students will perform manual WBC's and platelet counts using a hemacytometer. Students will evaluate printouts from the automated hematology analyzer. Students will determine the morphology and identification of common human blood cells. Special stains (Reticulocyte, giemasa and Kleihauer-Betke) will be done. Correlating test results with disease states will be accomplished. Successful completion of this course and HTEC 80A, HTEC 81A, HTEC 81B, HTEC 82A and HTEC 82B is required to enroll in Clinical Hematology/Urinalysis/Coagulation Practicum, HTEC 180. This course must be successfully completed in order to qualify for the clinical externship and take the exam.

HTEC 80A Clinical Hematology Lecture 4 1/2 Units
Corequisite: HTEC 80A students must also enroll in HTEC 80.
Four and one-half hours lecture (54 hours total per quarter).
Presents the origin of the various types of blood cells with emphasis on the red and white blood cells. Human hematological disorders and classifications based on clinical laboratory findings will also be covered. Case studies will be presented. This course must be successfully completed in order to qualify for the clinical externship and take the exam.

HTEC 81 Clinical Urinalysis Laboratory 3/4 Unit
Corequisite: HTEC 81 students must also enroll in HTEC 81A.
Two and one-quarter hours laboratory (27 hours total per quarter).
Teaches the student the various properties and constituents of urine via "hands-on" learning. Emphasis is placed on the interpretation and handling of urine specimens and their accompanying requisitions. The students will be taught to examine urine physically, chemically, and microscopically and compare clinical values as related to the physiology of the urinary system in health and disease. Correlating test results to disease states will be accomplished. Successful completion of this course and
HTEC 81A, HTEC 80A, HTEC 80, HTEC 82A, and HTEC 82 is required to enroll in HTEC 180, Clinical Hematology/Urinalysis/Coagulation Practicum. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 81A Clinical Urinalysis Lecture** 1 1/2 Units
Corequisite: HTEC 81A students must also enroll in HTEC 81.
One and one-half hours lecture (18 hours total per quarter).
Introduces the student to the microscopic examination of urine. Includes the study of urine concentration and dilution, high and low specific gravity, and urine sediments, and the control of the observation. Correlating test results with disease states will be accomplished. Successful completion of this course and HTEC 83A is required to enroll in Clinical Microbiology Practicum (HTEC 183).

**HTEC 82 Clinical Coagulation Laboratory** 3/4 Unit
Corequisite: HTEC 82 students must also enroll in HTEC 82A.
Two and one-half hours laboratory (27 hours total per quarter).
Introduces the student to coagulation laboratory. Emphasizes the laboratory techniques used to determine clotting and fibrinolysis pathways. Normal and abnormal cases will be studied. Correlating test results with disease states will be accomplished. Successful completion of this course and HTEC 83C are required to enroll in Clinical Microbiology Practicum (HTEC 183).

**HTEC 83A Clinical Microbiology Lecture** 4 1/2 Units
Corequisite: HTEC 83A students must also enroll in HTEC 83.
One and one-half hours lecture (18 hours total per quarter).
Introduces the student to the microscopic examination of microbiology. Includes the study of clinical microbiology, with emphasis on the characteristics of clinically significant microorganisms and their biochemical profile, media for isolation, and identification methods. The student will be introduced to identification methods, the student will be introduced to identification methods, techniques used in microbiology. Emphasizes the morphology and identification of common pathogens of human disease. Correlating test results with disease states will be accomplished. Successful completion of this course and HTEC 83A is required to enroll in Clinical Microbiology Practicum (HTEC 183).

**HTEC 84A Clinical Microbiology Laboratory** 1 1/2 Units
Corequisite: HTEC 84A students must also enroll in HTEC 84.
One and one-half hours laboratory (18 hours total per quarter).
Introduces the student to the principles of antigen and antibody reactions included in blood grouping and typing. Includes the study of blood grouping and typing, compatibility testing and serological procedures by pedestrian methods in a student lab environment. Introduces serohematoimmunohematology and procedures and techniques to measure analytes quantitatively and qualitatively. Correlating test results with disease states will be accomplished. Successful completion of this course and HTEC 84A is required prior to enrollment in Clinical Immunology/Hematology Practicum (HTEC 184). This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 84 Clinical Immunology/Immunohematology Laboratory** 1 1/2 Units
Corequisite: HTEC 84A students must also enroll in HTEC 84A.
Four and one-half hours laboratory (54 hours total per quarter).
Introduces the student to the principles of antigen and antibody reactions included in blood grouping and typing. Compatibility testing and serological procedures. Introduces serohematology and immunohematology and procedures and techniques to measure analytes quantitatively and qualitatively. Correlating test results with disease states will be accomplished. Successful completion of this course and HTEC 84A is required prior to enrollment in Clinical Immunology/Hematology Practicum, HTEC 184. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 85A Clinical Chemistry I Laboratory** 1 1/2 Units
Corequisite: HTEC 85A students must also enroll in HTEC 85C.
Four and one-half hours laboratory (54 hours total per quarter).
Teaches the general laboratory principles and specific basic instrumentation methodologies used in basic clinical chemistry analysis. After review of laboratory math, and a reintroduction to quality control and quality assurance, the student will be introduced to variables of the pre-analytical phase, characteristics important to quality laboratory technique and safety. Correlating test results with disease states will be accomplished. Successful completion of this course, HTEC 85B, HTEC 85C and HTEC 85D are required to enroll in Clinical Chemistry Practicum, HTEC 185. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 85B Clinical Chemistry II Laboratory** 1 1/2 Units
Corequisite: HTEC 85B students must also enroll in HTEC 85D.
Four and one-half hours laboratory (54 hours total per quarter).
Teaches the general laboratory principles and specific basic instrumentation methodologies used in basic clinical chemistry analysis. After review of laboratory math, and a reintroduction to quality control and quality assurance, the student will be introduced to variables of the pre-analytical phase, characteristics important to quality laboratory technique and safety. Correlating test results with disease states will be accomplished. Successful completion of this course, HTEC 85B, HTEC 85C and HTEC 85D are required to enroll in Clinical Chemistry Practicum, HTEC 185. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 85C Clinical Chemistry I Lecture** 4 1/2 Units
Corequisite: HTEC 85C students must also enroll in HTEC 85A.
Four and one-half hours lecture (54 hours total per quarter).
Teaches the general laboratory principles and specific basic instrumentation methodologies used in basic clinical chemistry analysis. After review of laboratory math, and a reintroduction to quality control and quality assurance, the student will be introduced to variables of the pre-analytical phase, characteristics important to quality laboratory technique and safety. Correlating test results with disease states will be accomplished. Successful completion of this course, HTEC 85B, HTEC 85C and HTEC 85D are required to enroll in Clinical Chemistry Practicum, HTEC 185. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 85D Clinical Chemistry II Lecture** 4 1/2 Units
Corequisite: HTEC 85D students must also enroll in HTEC 85B.
Four and one-half hours lecture (54 hours total per quarter).
Teaches the general laboratory principles and specific basic instrumentation methodologies used in basic clinical chemistry analysis. After review of laboratory math, and a reintroduction to quality control and quality assurance, the student will be introduced to variables of the pre-analytical phase, characteristics important to quality laboratory technique and safety. Correlating test results with disease states will be accomplished. Successful completion of this course, HTEC 85B, HTEC 85C and HTEC 85D are required to enroll in Clinical Chemistry Practicum, HTEC 185. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 90G Basic Patient Care** 1 1/2 Units
Corequisite: HTEC 90G students must also enroll in HTEC 101B.
Advisory: HTEC 60A.
One hour lecture, two hours laboratory (36 hours total per quarter).
Medical asepsis, nutrition and diet therapy, vital signs, preparation of examining room and patient, various procedures in the medical office.

**HTEC 90H Medical Office Sterile Technique** 1 1/2 Units
Corequisite: HTEC 90H students must also enroll in HTEC 101E.
Advisory: HTEC 60A and HTEC 90G.
One hour lecture, two hours laboratory (36 hours total per quarter).
Local application of heat and cold, medical office instruments, sterilization and disinfection of equipment and instruments, application of sterile gloves, assisting with minor office surgery, and bandaging.

**HTEC 91 Medical Office Diagnostic Tests** 3 Units
Corequisite: HTEC 91 students must also enroll in HTEC 101F.
Advisory: HTEC 60A.
Three hours lecture (36 hours total per quarter).
To learn drug legislation and standards, dosage calculation, drug preparations and information regarding drugs and how they affect various system of the body.

**HTEC 92 Administration of Medications** 1 1/2 Units
Corequisite: HTEC 92.
One hour lecture, two hours laboratory (36 hours total per quarter).
Pertinent anatomy and physiology, choice of equipment, proper technique, hazards and complications, post-treatment and test patient care and satisfactory completion of course, HTEC 81A, HTEC 81B, HTEC 81C, HTEC 82A, and HTEC 82 is required to enroll in Clinical Hematology/Urinalysis/Coagulation Practicum. This course must be successfully completed in order to qualify for the clinical externship and take the licensing exam.

**HTEC 93 Medical Assisting Externship** 3 Units
Corequisite: HTEC 93.
Nine hours laboratory (108 hours total per quarter).
Clinical medical assisting practical experience in medical facilities.

**HTEC 95B Phlebotomy Technician I Externship** 3 Units
Corequisite: HLTH 57A; HTEC 50, 60A, 64A, 64B, 73 and 101A.
Nine hours laboratory (108 hours total per quarter).
Phlebotomy Technician I practical experience in medical facilities.

<td>6</td>
<td>Prerequisite: HTEC 80, 80A, 81, 81A, 82 and 82A. Eighteen hours laboratory (216 hours total per quarter).</td>
<td>Provides entry-level clinical laboratory practice/experience in the department of hematology, urinalysis and coagulation. Emphasis is placed on technique, accuracy and precision. Different instrumentation will be introduced as well as bench/ manual methods. Competence will be evaluated based on final clinical evaluations. This practicum will be conducted at a clinical affiliate site that will be facilitated by the MLT (Medical Laboratory Technician) Program Director. This course must be successfully completed in order to take the national exam and qualify for a California state license.</td>
</tr>
<tr>
<td>HTEC 183</td>
<td>Clinical Microbiology Practicum</td>
<td>6</td>
<td>Prerequisite: HTEC 83 and HTEC 83A. Eighteen hours laboratory (216 hours total per quarter).</td>
<td>Provides entry-level clinical laboratory practice/experience in the department of microbiology. Emphasis is placed on technique, accuracy and precision. Different instrumentation will be introduced as well as bench/ manual methods. Competence will be evaluated based on final clinical evaluations. This practicum will take place at a clinical affiliate site that will be facilitated by the MLT (Medical Laboratory Technician) Program Director. This course must be successfully completed in order to take the national exam and qualify for a California state license.</td>
</tr>
</tbody>
</table>
HTEC 184  Clinical Immunology/Immunohematology Practicum  4 1/2 Units
Prerequisite: HTEC 84 and HTEC 84A.
Thirteen and one-half hours laboratory (162 hours total per quarter).
Provides entry-level clinical laboratory practice/experience in the department of serology and blood banking. Emphasis is placed on technique, accuracy, and precision. Different instrumentation will be introduced as well as bench/manual methods. Competence will be evaluated based on final clinical evaluations. This practicum will take place at a clinical affiliate site that will be facilitated by the MLT (Medical Laboratory Technician) Program Director. This course must be successfully completed in order to take the national exam and qualify for a California license.

HTEC 185  Clinical Chemistry Practicum  6 Units
Prerequisite: HTEC 85B and HTEC 85D.
Eighteen hours laboratory (216 hours total per quarter).
Provides entry-level clinical laboratory practice/experience in the department of general and special chemistry. Emphasis is placed on technique, accuracy, and precision. Different instrumentation will be introduced as well as bench/manual methods. Competence will be evaluated based on final clinical evaluations. This practicum will be conducted at a clinical affiliate site that will be facilitated by the MLT (Medical Laboratory Technician) Program Director. This course must be successfully completed in order to take the national exam and qualify for a California license.

Hindi

HNDI 1  Elementary Hindi (First Quarter)  5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to the language and cultures of the Hindi-speaking countries and communities. Basic speaking, listening, reading and writing of Hindi will be introduced and practiced within a cultural framework. The emphasis will be on language as an expression of culture.

HNDI 2  Elementary Hindi (Second Quarter)  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: HNDI 1 (equivalent to one year of high school Hindi) or equivalent.
Five hours lecture (60 hours total per quarter).
Further development of material presented in HNDI 1. Continuation of introduction to the language and culture of the Hindi-speaking states. Basic speaking, listening, reading and writing of Hindi will be introduced and practiced within a cultural framework. The emphasis will be on language as an expression of culture.

HNDI 3  Elementary Hindi (Third Quarter)  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: HNDI 2 (equivalent to two years of high school Hindi) or equivalent.
Five hours lecture (60 hours total per quarter).
Further development of material presented in HNDI 1 and HNDI 2. Completion of introduction to the language and culture of the Hindi-speaking states and communities. Basic speaking, listening, reading and writing of Hindi will be introduced and practiced within a cultural framework. The emphasis will be on language as an expression of culture.

History

HIST 2  Introduction to California Studies  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (60 hours total per quarter).
Interdisciplinary introduction to California as a region of the earth and of the mind: landscapes, environments and biosystems, peoples and culture, human communities and history, arts and literature, technological systems.

HIST 3A  World History from Prehistory to 750 CE  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 3AH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with late prehistoric times and covering 750 Common Era (CE), focusing on the world’s ancient peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania.

HIST 3A  World History from Prehistory to 750 CE  4 Units - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 3AH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with late prehistoric times and covering 750 Common Era (CE), focusing on the world’s ancient peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania.

HIST 3B  World History from 750 CE to 1750 CE  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 3BH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with 750 Common Era (CE) and covering to 1750 CE, focusing on the convergence of, or increasing encounters between the world’s peoples, cultures, and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into world history between 750 CE and 1750 CE.

HIST 3A  World History from Prehistory to 750 CE - HONORS  4 Units
(See general education pages for the requirement this course meets.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with late prehistoric times and covering 750 Common Era (CE), focusing on the world’s ancient peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania.

HIST 3B  World History from 750 CE to 1750 CE - HONORS
(See general education pages for the requirement this course meets.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with 750 Common Era (CE) and covering to 1750 CE, focusing on the convergence of, or increasing encounters between the world’s peoples, cultures, and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into world history between 750 CE and 1750 CE.

HIST 3C  World History from 1750 CE to the Present  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 3CH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with 1750 Common Era (CE) and covering to the present, focusing on recent and current interactions between the world’s peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania.

HIST 3CH  World History from 1750 CE to the Present - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 3CH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with 1750 Common Era (CE) and covering to the present, focusing on recent and current interactions between the world’s peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania. HIST 3A  World History from Prehistory to 750 CE  4 Units
(Not open to students with credit in HIST 3AH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with late prehistoric times and covering 750 Common Era (CE), focusing on the world’s ancient peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania.

HIST 3AH  World History from Prehistory to 750 CE - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 3AH.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Beginning with late prehistoric times and covering 750 Common Era (CE), focusing on the world’s ancient peoples, cultures and civilizations. Interdisciplinary, multi-perspective view of world history, using a thematic approach and offering a balanced, representative and inclusive sampling of the world’s cultures from Africa, the Americas, Asia, Europe and Oceania.

HIST 6A  History of Western Civilization: Pre-History to 750 CE  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 6AH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The development of Western Civilization from the fourth millennium B.C.E. to the eighth century CE.

HIST 6AH  History of Western Civilization: Pre-History to 750 CE - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 6AH.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The development of Western civilization from the fourth millennium B.C.E. to the eighth century CE. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into the history of Western civilization from the ancient period through late antiquity (750 CE).
HIST 6B | History of Western Civilization: 4 Units
750 CE to 1750 CE
(Not open to students with credit in HIST 6BH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The development of Western Civilization from the early Middle Ages to the early Modern Era (1750 CE), which includes late Medieval, the Renaissance, Reformation, and the Enlightenment.

HIST 6BH | History of Western Civilization: 4 Units
750 CE to 1750 CE – HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 6B.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The development of Western Civilization from the early Middle Ages to the early Modern Era (1750 CE), which includes late Medieval, the Renaissance, Reformation, and the Enlightenment. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into the history of Western civilization from the early Middle Ages to the early Modern Era (1750 CE).

HIST 6C | History of Western Civilization: 4 Units
1750 CE to Present
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 6C.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The development of Western Civilization from the early modern period (1750 CE) to the present, with an emphasis on the French Revolution, industrialization, nationalism, European imperialism, both world wars, environmentalism and the economic growth of Europe during and after the Cold War era.

HIST 6CH | History of Western Civilization: 4 Units
1750 CE to Present - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 6C.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The development of Western Civilization from the early modern period (1750 CE) to the present, with an emphasis on the French Revolution, industrialization, nationalism, European imperialism, both world wars, environmentalism and the economic growth of Europe during and after the Cold War era. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into the history of Western civilization from the early modern period (1750 CE) to the present.

HIST 7A | Colonial Latin American History 4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 38A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Colonial Latin America and its role in the Atlantic world (to 1825) including the independence movements. Themes cover social, intellectual and cultural developments, impact of poverty, race and gender relations and popular culture.

HIST 7B | Modern Latin American History 4 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 38B. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Latin American history from post-colonialism to the present (1810 to the present), focuses on understanding the region as a diverse geographic, political and social reality. Special attention will be given to contributions of various peoples and cultures, human communities in arts and literature.

HIST 9 | Women in American History 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 9H or WMST 9 or WMST 9H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A critical examination of the social, economic, cultural and political history of American women from the colonial times to the present. Emphasis on the movements which enhanced women's political and economic rights, the social roles which defined women primarily by their gender, and the legal realities that women faced. Significant moral, political, and economic issues will be assessed.

HIST 9H | Women in American History - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 9 or WMST 9 or WMST 9H.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A critical examination of the social, economic, cultural and political history of American women from the colonial times to the present. Emphasis on the movements which enhanced women's political and economic rights, the social roles which defined women primarily by their gender, and the legal realities that women faced. Significant moral, political, and economic issues will be assessed.

HIST 10 | History of California 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 10H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
California history from Native American cultures to the present. Emphasis is placed on introducing students to the discipline of history through cultural, social, economic, political, and environmental resource issues. Practice in critical analysis of primary and secondary sources.

HIST 10H | History of California - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 10.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
California history from Native American cultures to the present. Emphasis is placed on introducing students to the discipline of history through cultural, social, economic, political, and environmental resource issues. Practice in critical analysis of primary and secondary sources. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into California history.

HIST 16A | History of Africa to 1800 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 16A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
History of Africa from the Paleolithic period to 1800; an interdisciplinary survey of the emergence and development of African civilizations that focuses on geographical, environmental economic, social, cultural and political issues.

HIST 16B | History of Africa from 1800 to the Present 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 16B. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A survey of African history in the 19th, 20th, and 21st centuries; an examination of the implications of European expansion into Africa; an analysis of the “Scramble for Africa”; the emergence of independent African nations and the growth of African nationalism.

HIST 17A | History of the United States to Early National Era 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 17A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A survey of the social, cultural, political, economic and intellectual development of the Colonial Era with emphasis on the era of the American Revolution, the development of the Constitution, and the role of the major ethnic, social and gender groups in the American experience.

HIST 17AH | History of the United States to Early National Era - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 17A.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of the social, cultural, political, economic and intellectual development of the Colonial Era with emphasis on the era of the American Revolution, the development of the Constitution, and the role of the major ethnic, social and gender groups in the American experience. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into American history from the colonial period to the early national era.

HIST 17B | History of the United States from 1800 to 1900 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 17AH.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
U.S. civilization from 1800 to 1900. A survey of United States history (political, economic, intellectual, and social development).
HIST 17BH History of the United States from 1800 to 1900 - HONORS 4 Units (See general education pages for the requirement this course meets.) (Not open to students with credit in HIST 17B.) (Admission into this course requires consent of the Honors Program Coordinator.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). U.S. civilization from 1800 to 1900. A survey of United States history (political, economic, intellectual, and social development). As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into American history between 1800 and 1900.

HIST 17C History of the United States from 1900 to the Present 4 Units (See general education pages for the requirement this course meets.) (Not open to students with credit in HIST 17C.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). American civilization from 1900 to the present. A survey of United States history (political, economic, intellectual, and social development).

HIST 17CH History of the United States from 1900 to the Present - HONORS 4 Units (See general education pages for the requirement this course meets.) (Not open to students with credit in HIST 17C.) (Admission into this course requires consent of the Honors Program Coordinator.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). American civilization from 1900 to the present. A survey of United States history (political, economic, intellectual, and social development). As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into American history between 1900 and the present.

HIST 18A African American History to 1865 4 Units (See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. (Also listed as ICS 18A. Students may enroll in either department, but not both, for credit.) Four hours lecture (48 hours total per quarter). An examination of the history of Black/African Americans from their kidnapping from Africa to their enslavement in the Americas until the end of the institution of slavery after the Civil War. The major events in the development of the United States by emphasizing the role of people of African descent in the political, social and economic life of the United States will be analyzed.

HIST 18B African American History Since 1865 4 Units (See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). (Also listed as ICS 18B. Students may enroll in either department, but not both, for credit.) An examination of the history of the Black/African American in the United States since the ending of the American Civil War. The major events, policies, themes, experiences, and Black/African American people that shaped the history of the United States will be analyzed. This course will help students understand the role of Black/African Americans in the political, social and economic life of the United States from Reconstruction to the Jim Crow era, to the modern Civil Rights Movement to the Black Power Movement to the Black Lives Matter movement against police brutality and the prison industrial complex impacting Black/African Americans today. How institutions, policies, social norms, and laws have historically, and currently, oppressed/oppress Black/African Americans will also be examined.

HIST 19A History of Asian Civilization: China and Japan (to the 19th Century) 4 Units (See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. (Also listed as INTL 19A. Students may enroll in either department, but not both, for credit.) Four hours lecture (48 hours total per quarter). An introductory history exploring the development of Chinese and Japanese civilizations from their origins through the 18th century.

HIST 19B History of Asian Civilization: China and Japan (19th - 21st Centuries) 4 Units (See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. (Also listed as INTL 19B. Students may enroll in either department, but not both, for credit.) Four hours lecture (48 hours total per quarter). An introductory history exploring modern China and Japan from the 19th to the 21st centuries.

HIST 28 Social Environmental History 4 Units (See general education pages for the requirement this course meets.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. (Also listed as ICS 28. Students may enroll in either department, but not both, for credit.) Four hours lecture (48 hours total per quarter). An historical survey of human societies and their influence on the environments in which they developed. An examination of rapidly decreasing world resources, pollution, and the environment in general are examined in a historical context through a chronological approach, beginning with the ancient civilizations, the spreading of humanity across the globe, the cultural, social, and environmental implications, and ending with a discussion of contemporary environmental issues as they affect modern society.

HIST 51X Topics in California Political and Diplomatic History 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). Examination of topics relating to California’s political and diplomatic history from the time of the early Spanish explorations through the present, looking at Spanish, Mexican or United States rule.

HIST 52X Topics in History of Transportation in California 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). Topics relating to California’s sites and monuments through a historical perspective of various eras and major architects who created or influenced them. Consideration of the political, socioeconomic, geographical and environmental conditions providing the historical and cultural context in which these styles evolved.

HIST 54X Special Topics: Significant Californians 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). Work and achievements of specific Californians will be studied in relation to how they affected the trends, social climate, history, and development of California.

HIST 55A Racial and Ethnic Communities in California’s History 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). Examination of topics relating to California’s racial and ethnic communities throughout its history from the time of the indigenous people until the present day.

HIST 55B California’s Agricultural Heritage 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). Examination of topics relating to California’s agricultural heritage from animal husbandry introduced by Spanish explorers in the 18th century, to farm labor organizing of the late 20th century and the proliferation of millions of acres dedicated to viticulture today.

HIST 55C Historical Surveys of California’s Environments 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). Examination of topics relating to California’s environmental challenges throughout its history from the time of the indigenous people until the present day.

HIST 107X Community History 2 Units Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture (24 hours total per quarter). An overview and appreciation of one or more California communities tracing evolution of land use and development and looking at the influence of Native Americans and various cultures to the present.

Human Development

HUMA 10 Human Sexuality 4 Units (See general education pages for the requirement this course meets.) (Not open to students with credit in HUMA 10H.) Advisory: EWRT 1A or EWRT 1AH or ESL 5. Four hours lecture (48 hours total per quarter). The comprehensive study of the biological, psychological and socio-cultural aspects of human sexuality. An exploration into values and attitudes and their relationship to behaviors and behavioral changes. Includes an assessment of various cultural mores and current safe sex practices.
HUMA 10H Human Sexuality - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HUMA 10.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The comprehensive study of the biological, psychological and socio-cultural aspects of human sexuality. An exploration into values and attitudes and their relationship to behaviors and behavioral changes. Includes an assessment of various cultural mores and current practices. As an honors course the students will complete extra assignments to gain deeper insight in Human Development.

HUMA 20 Life Skills for Higher Education 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
A multitude of life skills and strategies for success, with emphasis on attaining professional, personal and academic goals in a diverse society will be addressed. Topics covered include creative and realistic goal setting, academic and life management, cultural relevant learning styles, college and community resources, library and internet use, time management, and techniques to reduce math and science anxiety. Evaluation and application of academic study methods to achieve subject mastery. Development of critical thinking skills, and application of reading, writing, note taking and test taking methods to improve personal strategies. Exploration of personal lifestyle and health factors, including the causes and management of stress, as it relates to academic success. Assessment of academic and career goals, selection of majors, and development of education plans.

HUMA 30 Understanding and Managing Stress 4 Units
(Formerly HUMA 50.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The study of stress as the interaction between the individual and the environment, viewed from psychological, sociological, and physiological perspectives, including gender, physical and psychological disabilities, sexual orientation, multicultural, holistic health, and grief concerns.

Humanities

HUMI 1 Creative Minds 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HUMI 1H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the study of creativity in human life; its sources, development, social purpose, and role in culture change. Students analyze creativity as a central source of meaning and purpose in their lives as well as a development of their unique combination of human intelligences. Lives of creative people from all over the world are examined and contextualized. This course builds commitment to civic and moral responsibility for diverse, equitable, healthy and sustainable communities. Students engage themselves as members of larger social fabrics and develop the abilities and motivation to take informed action for change.

HUMI 1H Creative Minds - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HUMI 1.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the study of creativity in human life, its sources, development, social purpose, and role in culture change. Students analyze creativity as a central source of meaning and purpose in their lives as well as a development of their unique combination of human intelligences. Lives of creative people from all over the world are examined and contextualized. This course builds commitment to civic and moral responsibility for diverse, equitable, healthy and sustainable communities. Students engage themselves as members of larger social fabrics and develop the abilities and motivation to take informed action for change.

HUMI 2 But is it Art? Questions and Criticism 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A cross-cultural, interdisciplinary introduction to aesthetics - theories about what art is, its functions and value, and the ways we experience it. Examines historical and contemporary views on visual and performing arts. Explores distinctions between "fine" and popular art, and varieties of deviant or shocking art. Primary focus will be on the visual arts and how they enrich our lives.

HUMI 5 Storytelling in American Culture 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Explores how stories are told among different ethnic groups within the United States. This course will critically examine how collective memories are selected, organized, transformed, contested, and retold as origin myths, multicultural histories, family lore, heroic epics, trickster tales, traumatic experiences, slave narratives, immigrant testimonies, spectacular events, war memorials, celebrity biographies, malicious rumors, urban legends, animated fairy-tales, knowledge and science fiction films.

HUMI 6 Popular Culture 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Utilizes the methods of the humanities in a critical analysis of popular culture. This inquiry is framed in multicultural, historical and political contexts and will evaluate how popular culture is created and sustained by mass media and techniques of mass production, marketing and distribution. Students examine how social meaning is constructed by the “texts” of popular culture in a constantly changing era of globalization of information and economies.

HUMI 7 The Arts and the Human Spirit 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Explores the expression of spiritual and religious thought and aspiration in the arts. Examines religious art in various media in particular, and analyzes the roles of creativity and spirituality in the arts in general. Critical, reflective and experiential in approach.

HUMI 9 Introduction to Comparative Religion - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HUMI 9H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinarian examination and comparison of the religious dimensions of human life: history, terminology, emotional experiences, concepts, attitudes, images, material expressions, conflicts, myths, metaphors, symbols, perceptions of nature and the natural environment and rituals relating to the particular social context of each tradition. Emphasis will be placed on the numerous practices and perspectives of women and men throughout time and from different cultures regarding their sense of the sacred.

HUMI 9H Introduction to Comparative Religion - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HUMI 9.)
(Admission into this course requires consent of the Honors Program Coordinator)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinarian examination and comparison of the religious dimensions of human life: history, terminology, emotional experiences, concepts, attitudes, images, material expressions, conflicts, myths, metaphors, symbols, perceptions of nature and the natural environment and rituals relating to the particular social context of each tradition. Emphasis will be placed on the numerous practices and perspectives of women and men throughout time and from different cultures regarding their sense of the sacred. As participants in an honors course, students will be expected to complete additional assignments of greater depth and breadth, in order to gain increased insight into the field of Comparative Religion.

HUMI 10 Global Religious Perspectives: Judaism, Christianity and Islam 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An historically grounded and contemporary focused examination of the religious elements and experiences that contributed to the formation of the western worldview. Ancient and current perspectives from Africa, the Americas, Asia, Europe, the Middle-East and Oceania will be important, while Judaism, Christianity, and Islam will be the central focus.

HUMI 13 Introduction to Korean Popular Culture 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as INTL 13. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An interdisciplinarian introduction to contemporary Korean popular culture which explores modern Korean society across a wide range of themes such as identity, gender/sexuality, love/marriage, family and social value systems. Examines multi-levels of the socio-construction of modern Korean society through TV drama (soap opera), film and pop music. Also, it explores the unique patterns of Korean culture and Korean cultural issues related to contemporary Asian societies and global issues. No Korean language or studies experience necessary.

HUMI 15 Discussion on the Arts 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary and multicultural introduction to the relationships between the arts and human experience. Painting, sculpture, architecture, music, dance, drama, literature, film and photography will be explored to provide a forum for discussion on how the arts affect humanity, reflect the human spirit, touch the soul,
and stimulate humankind's creativity. Focus will be on enhancing each student's ability to experience the uniqueness of each art form and to develop a depth of understanding of its expression and relevance.

**HUMI 16**  
**Arts, Ideas and Values**  
4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
Interdisciplinary introduction to artistic cultural studies. A critical analysis of the dynamic process through which contemporary cultural values and social constructions of gender, ethnicity, sexual orientation, social class, religion and globalization shape and have been shaped by artistic expression. Special emphasis is placed on art as a tool for social change.

**HUMI 18**  
**History as Mystery: A Critique of Western Perspectives in a Global Context**  
4 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in HUMI 18H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
As history reveals, it also conceals; so, what do historical narratives conceal? What kind of historical scripts might emerge from our descendants based on our current-cultural artifacts? This is an interdisciplinary discussion that identifies, examines, analyzes and critiques fundamental western concepts from aesthetics, history, philosophy, religion and science as representative of a perspective from an historical or cross-cultural context. Emphasis will be placed on how the past, present, and future have the potential to inform one another and are framed by perspective.

**ICS 10**  
**An Introduction to African**  
4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1AH or EWRT 1AH or ESL 5.  
Four hours lecture (24 hours total per quarter).  
A practicum in peer mentoring, including a focus on interpersonal communication, assessment of student needs, and the implementation of appropriate strategies to improve student success.

**ICS 4**  
**Race, Ethnicity and Inequality**  
4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An interdisciplinary examination of major concepts and controversies in the study of racial and ethnic difference in the United States. Exploration of race and ethnicity as historical and contemporary categories of identification in the context of social inequality. Social movements and policy debates on racial equity will be analyzed.

**ICS 5**  
**History of Art: Multicultural Arts**  
4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
(Also listed as ARTS 2F. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
A cross-cultural introduction to American art history which includes interdisciplinary analysis of diverse art forms generated by artists of color, including African Americans, Asian Americans, Native Americans, Latinas/os/Chicanas/os, and Americans of European descent. Significant attention will be given to topics considered important by each ethnicity or group, as well as issues related to racism, gender, social class and contemporary social/political awareness. Traditions, values, and cultural expressions of diverse societies and their contributions to American visual culture are explored.

**ICS 7**  
**Intercultural Communication I**  
4 Units  
(See general education pages for the requirement this course meets.)  
(Admission into this course requires consent of the Honors Program Coordinator.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
(Also listed as COMM 7H. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
Study of intercultural communication in domestic and global contexts. Examines how differing cultural scripts influence the way members of groups relate among themselves and with members of other ethnic and cultural groups. Emphasizes development of interpersonal skills for communicating effectively across cultures and encourages appreciation of diverse cultural voices.

**ICS 7H**  
**Intercultural Communication II - HONORS**  
4 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in ICS 7 or COMM 7H.)  
(Admission into this course requires consent of the Honors Program Coordinator.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
(Also listed as COMM 7. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
Study of intercultural communication in domestic and global contexts. Examines how differing cultural scripts influence the way members of groups relate among themselves and with members of other ethnic and cultural groups. Emphasizes development of interpersonal skills for communicating effectively across cultures and encourages appreciation of diverse cultural voices. As an honors course students will be expected to complete additional assignments to gain deeper insight into Intercultural Studies with an emphasis on interdisciplinary connections with Communication Studies.

**ICS 9**  
**Race and Ethnicity: Belonging and Exclusion in the U.S.**  
4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
An examination of race and ethnicity as systematized practices of social classification used to determine belonging and exclusion of groups in the U.S. The thematic emphasis is placed on citizenship and immigration, with historical and contemporary comparisons. Application of theories, concepts, and frameworks towards analysis of race and ethnicity in local contexts.

**ICS 10**  
**An Introduction to African American Studies**  
4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An introduction to the field of African American Studies through history, literature, philosophy, the arts, and culture. Additionally, the course will examine the sociopolitical, economic, and philosophical perspectives on the experience of people of African ancestry in the United States. The values, experience, and cultural contributions of Black and/or African American individuals in the United States will be identified, examined, and authenticated.
ICS 11 Sankofa: The Roots of the African American Experience 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary course inspired by Haile Gerima’s compelling motion picture, “Sankofa.” The word “sankofa” means “it is not taboo to go back and reclaim what has been lost.” This course will build upon this concept of, returning to the source in order to strengthen the present state of the African Diaspora. Emphasis will be placed on the historical, and psychocultural understanding of people of African descent throughout the Diaspora.

ICS 12 An Introduction to African American Literature 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Surveys African American literature in all genres from the mid-eighteenth century to the present. Emphasizes the cultural, historical and social contexts of African American oral and literary expression. Studies writers such as Phillis Wheatley, Zora Neale Hurston, Langston Hughes, Richard Wright, Alice Walker and Toni Morrison.

ICS 16A History of Africa to 1800 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 16A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
History of Africa from the Paleolithic period to 1800; an interdisciplinary survey of the emergence and development of African civilizations that focuses on geographical, environmental economic, social, cultural and political issues.

ICS 16B History of Africa from 1800 to the Present 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 16B. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A study of African history in the 19th, 20th, and 21st centuries; an examination of the implications of European expansion into Africa; an analysis of the “Scramble for Africa”; the emergence of independent African nations and the growth of African nationalism.

ICS 17 Critical Consciousness and Social Change 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ICS 17H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of issues related to social change including the development of ways of thinking that promote social change. Students will read classical and contemporary authors on movements for social change, strategies for organizing, and the development of consciousness.

ICS 17H Critical Consciousness and Social Change - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ICS 17 or PHIL 17 or PHIL 17H.)
(Admission into the course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as PHIL 17H. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An exploration of issues related to social change including the development of ways of thinking that promote social change. Students will read classical and contemporary authors on movements for social change, strategies for organizing, and the development of consciousness. As an honors course the students will be expected to complete extra assignments to gain deeper insight into the subject matter.

ICS 18A African American History to 1865 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 18A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An examination of the history of Black/African Americans from their kidnapping from Africa to their enslavement in the Americas until the end of the institution of slavery after the Civil War. The major events in the development of the United States by emphasizing the role of people of African descent in the political, social and economic life of the United States will be analyzed.

ICS 18B African American History Since 1865 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 18B. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An examination of the history of the Black/African American in the United States since the ending of the American Civil War. The major events, policies, themes, experiences, and Black/African American people that shaped the history of the United States will be analyzed. This course will help students understand the role of Black/African Americans in the political, social, and economic life of the United States from Reconstruction to the Jim Crow era, to the modern Civil Rights Movement to the Black Power Movement to the Black Lives Matter movement against police brutality and the prison industrial complex as impacting Black/African Americans today. How institutions, policies, social norms, and laws have historically, and currently oppressed/oppress Black/African Americans will also be examined.

ICS 19 Justice, Nature and the Geographies of Identity 4 Units
(Formerly ICS 57.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of natural, cultural, social, and political transformations through the lens of social and environmental justice. Analyzes contemporary social issues through local examples. Engages students in community-focused problem solving and personal reflection.

ICS 20 Asian American Experiences Past to Present 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to Asian American Studies and an exploration of Asian American experiences from the 19th century. Experiences of Chinese Americans, Vietnamese Americans, Filipino Americans, Indian Americans, Japanese Americans, Korean American, as well as other Asian American groups will be examined. Issues such as how Asian Americans respond to social inequity, the challenges of making a living, and the changing perspectives from immigrant to American-born generations will be highlighted.

ICS 21 Introduction to Pacific Islander History and Culture 4 Units
(Formerly ICS 90.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary introduction to and survey of the Pacific Islander/Asian American communities. An examination of intergroup (e.g. Native Hawaiian, Samoan American, Tongan, Filipina/o American, Native American, Chamorro, Fijian, Fijian, Maori, Tahitian, Melanesia, Micronesia, Polynesian, etc.) and intra-group challenges within today’s ethnic communities.

ICS 22 Contemporary Asian American Communities 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to Asian American Studies and exploration of the experiences of various Asian cultural groups in America. The commonalities and uniqueness of Chinese Americans, Vietnamese Americans, Filipino Americans, Indian Americans, Japanese Americans, Korean Americans, as well as other Asian American groups, will be examined. New perspectives on such issues as historical legacies, stereotypes and profiling, cultural identity, generational change, occupational challenges, community advocacy, and empowerment will be gained.

ICS 24 Asian Pacific American Literature 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ELIT 24. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Introduction to Asian Pacific American literature. Through readings in twentieth and twenty-first century works, students will explore and analyze issues related to a histories of identity as it relates to class, gender, mixed heritages, and sexuality; politics and the history of Asian American activism and resistance to cultural marginalization; and diversity of cultures and experiences within the Asian Pacific American community.

ICS 25 Grassroots Democracy: Race, Politics and the American Promise 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as POLI 15. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical learning for students of social justice, this course will examine race, culture and contradictions in the ideal of the American Dream through a comparative analysis of American experiences of migration. Particular emphasis will be on the historical complex impacts of Black/African immigrants, African Americans, Mexican Americans, and Asian Americans. The course will also discuss the contemporary social and cultural implications of the migration process. Using a multidisciplinary social science approach, attention will be given to issues of race,
ethnictiy, gender, class, and ecology as well as the role of the state (policy) to the process of migration and immigration.

ICS 26  Introduction to Lesbian, Gay, Bisexual, Transgender and Queer Studies  4 Units
(Formerly ICS 96.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary, multi-perspective, critical analysis and comparative study of the broad range of contemporary lesbian, gay, bisexual, transgender and queer issues in various contexts, including biomedicine, sociological, political, economic, racial and sexual. This course will explore the relationship between LGBTQ individuals and the social and political constructs of gender, sexuality, citizenship, and identity as they relate to social and political institutions and national ideologies. The value of language, and cultural contributions of LGBTQ individuals in the United States will be identified, examined, and authenticated.

ICS 27  Grassroots Democracy: Leadership and Power  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ICS 27H or POLI 17 or POLI 17H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as POLI 17. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical training for students of social justice, this course is a multidisciplinary exploration of social change and popular democratic action with a focus on the meaning and development of political power in modern democracies. Topics to be explored include: gender and race sensitive approaches to leadership style, institutional and mass forums for civic engagement, mass recruitment and mobilization, consciousness development, democratic ethics, and strategic and tactical action.

ICS 27H  Grassroots Democracy: Leadership and Power - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ICS 27 or POLI 17 or POLI 17H.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as POLI 17H. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical training for students of social justice, this course is a multidisciplinary exploration of social change and popular democratic action with a focus on the meaning and development of political power in modern democracies. Topics to be explored include: gender and race sensitive approaches to leadership style, institutional and mass forums for civic engagement, mass recruitment and mobilization, consciousness development, democratic ethics, and strategic and tactical action. As an honors course the students will be expected to complete extra assignments to gain deeper insight into the issues raised in this class.

ICS 28  Social Environmental History  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 28. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An historical survey of human societies and their influence on the environments in which they developed. An examination of rapidly decreasing world resources, pollution, and the environment in general are examined in a historical context through a chronological approach, beginning with the ancient civilizations, the spreading of humanity across the globe, the cultural, social, and environmental implications, and ending with a discussion of contemporary environmental issues as they affect modern society.

ICS 29  Cultural Pluralism and American Law and Justice  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ADMJ 29. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An interdisciplinary study of marginalized peoples and their relationship to the law. Examines the legal perspective on cultural diversity in the United States by examining groups based on race, ethnicity, gender, class, religious background, disability, and sexual orientation. Analyzes how these groups interact with mainstream society through American law, concentrating on both historical and contemporary state and federal legislation and court rulings. Analyzes how the courts play a role in determining the status of minority groups. Analyzes the effect of law on cultural pluralism and cultural diversity in the United States.

ICS 30  Introduction to Chicano/a and Latino/a Studies  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of the Chicano/a and Latino/a experience with emphasis on the cultural and historical development, the socioeconomic and political status of their contemporary communities.

ICS 31  Chicano/a Culture  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Survey of the origins and development of Chicano/a with emphasis on the religious, philosophies, and lifestyles of the Chicano/a.

ICS 32  Chicano/a and Latino/a History  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A history of the Chicano/a and Latino/a people, surveying pre-Columbian origins, with emphasis on the period since 1848 in the United States Southwest.

ICS 33  The Chicano/a and Latino/a and the Arts  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Survey and analysis of contemporary Chicano/a and Latino/a art, film, theater, music, and literature, and their relationship to the Chicano and Latino experiences.

ICS 35  Chicano/a, Latino/a Literature  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of Chicano/a, Latino/a literature in its various forms, with emphasis on contemporary authors, from the 1940s to the present.

ICS 36  Grassroots Democracy: Social Movements Since the 1960s  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as POLI 16. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical learning for students of social justice, this course is a comparative survey of protest movements since the 1960s. An introductory, comparative, and interdisciplinary study of Mexican American, African American, Asian American, and white working class social and political struggles from 1960 to the present. The course traces the development of protest movements in response to race, gender, economic and political inequality in the context of U.S. politics and history. The course critically examines the internal and external factors contributing to the rise and fall of social and political movements with special attention to the conjuncture of ecology, gender, race, ethnicity, culture, class, and sexual orientation in contemporary U.S. politics.

ICS 37  Ancient Peoples of Mesoamerica  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introductory survey of the development of pre-contact Mesoamerican indigenous societies, concluding with the Spanish invasion, conquest and colonization of the Aztecs, Maya and Zapotec peoples. A course of study commencing with the earliest known evidence of human occupation in Mesoamerica, progressing through the development of agriculturally-based societies.

ICS 38A  Colonial Latin American History  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 7A. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Colonial Latin America and its role in the Atlantic world (to 1825) including the independence movements. Themes cover individual social, intellectual and cultural developments, impact of poverty, race and gender relations and popular culture.

ICS 38B  Modern Latin American History  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 7B. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Latin American history from post-colonialism to the present (1810 to the present). Focuses on understanding the region as a diverse geographic, political and social reality. Special attention will be given to contributions of various peoples and cultures, human communities in arts and literature.

ICS 41  Native American Contemporary Society  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of contemporary Native American perspectives about economic, political, and cultural changes impacting tribal cultures in the 20th and 21st centuries with emphasis on issues of identity, the role of the federal government, gaming and self-determination.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
ICS 42  California Native Americans  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
History of Native Americans, including their pre-historic pasts, cultures and histories from their perspectives. Course includes examination of oral traditions, traditions, up to and inclusive of contemporary American Indian issues. Special focus on selected California Native American tribal communities.

ICS 43  Native American History  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A study of Native American history from an indigenous perspective, from pre-Columbian contact to present. Examines Native American societies with attention to the impact of contact upon indigenous cultures and societies in the United States, focusing on American Indian continuity and change in Americas as a result of historical and contemporary social conditions and the continued relationship with the federal government. Emphasis is placed upon the struggles for legal, political, and cultural sovereignty.

ICS 44  Native American Religious Traditions  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A study of Native American religious and spiritual beliefs and practices, including an examination of spirit beings, prophecies, and renewals of the Indian way through their land-based religions, symbols, and ceremonies. Tribal religions are reviewed, including focus on traditional beliefs and practices, religious movements, the effect of foreign influences and philosophies, and the continual struggle for religious freedom. Change and continuity of American Indian values and tribalism are examined as reflected through present-day spiritual issues in Indian America.

ICS 45  Survey of Native American Arts  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of pre-contact, traditional, and contemporary styles and forms of Native American arts, viewed from within the context of tribal culture and tradition. Consideration is given to the influence and impact of introduced methods, techniques, and resources on the production of art and how it led to the development of contemporary Native artistic expression.

ICS 46  Native American Literature  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A study of oral traditions and historical and contemporary literature written by Native Americans. An understanding and insight from the stories, poetry and plays penned by American Indians will be developed.

ICS 47  Introduction to Disability Studies  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Overview of all major categories and characteristics of disabilities. Physical, sensory, developmental, and learning disabilities discussed. Interdisciplinary study of disability rights and justice movements and resulting policies and legislation that form framework of disability laws in the United States. Cultural/experiential aspects of disabilities from the perspectives of disabled individuals explored through readings and guest speakers. Contrasts disabled with non-disabled culture including cross-cultural perspectives of the disabled experience. Emphasis placed on recognition of strengths and abilities to provide strategies for instruction and accommodations.

ICS 55  Civic Leadership for Community Empowerment  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introduction to intercultural studies through principles of civic leadership. Explores community empowerment as idea and practice in areas of public service, non-profit work, and electoral politics. Examines political economy of community development through historical study of disenfranchised ethnic, racial, and immigrant groups in the U.S. such as Asian Americans and Latinos, the two largest ethnic and racial minority populations in Silicon Valley. Analyzes contemporary social issues through local examples in Silicon Valley. Engages students in community-focused problem solving, personal reflection, and interpersonal and organizational leadership development.

ICS 77  Special Projects in Intercultural Studies  1 Unit

ICS 77X  2 Units
ICS 77Y  3 Units
ICS 77Z  4 Units
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Specific reading, writing or study projects within the discipline of Intercultural Studies.

ICS 78  Special Group Projects in Intercultural Studies  1/2 Unit

ICS 78W  1 Unit
ICS 78X  2 Units
ICS 78Y  3 Units
ICS 78Z  4 Units
Prerequisite: Consent of instructor and division dean.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Special group projects that incorporate the theory and practice of issues within the field of Intercultural Studies.

ICS 80  Community Based Learning in Intercultural Studies - Beginning  1/2 Unit
ICS 80W  1 Unit
ICS 80X  2 Units
ICS 80Y  3 Units
ICS 80Z  4 Units
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Introductory level practical work with a community, business or civic institution and reflection on that activity.

ICS 81  Community Based Learning in Intercultural Studies - Intermediate  1/2 Unit
ICS 81W  1 Unit
ICS 81X  2 Units
ICS 81Y  3 Units
ICS 81Z  4 Units
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Intermediate level practical work with a community, business, or civic institution and reflection at an intermediate level on that activity.

ICS 82  Community Based Learning in Intercultural Studies - Advanced  1/2 Unit
ICS 82W  1 Unit
ICS 82X  2 Units
ICS 82Y  3 Units
ICS 82Z  4 Units
Requisite/Advisory: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Advanced level practical work with a community, business, or civic institution and advanced level reflection on that activity.

International Studies

INTL 5  Global Issues  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to current global issues, with emphasis on events that impact all of our lives. The role of culture and technology in world affairs, the processes of economic development and globalization, the environmental impacts of human activities, and people's experiences of war and peace will be analyzed. Consideration of various points of view on processes of interdependent changes in our lives at global, regional, national, and local levels will be encouraged.

INTL 8  Sociology of Globalization and Social Change  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Also listed as SOC 5. Students may enroll in either department, but not both, for credit.
Four hours lecture (48 hours total per quarter).
An introduction to the sociological study of globalization and other forms of social change. Macrosociological analysis of economic, political, military, cultural, technological, and environmental aspects of globalization; history of globalization, European colonialism and decolonization processes; impact of multinational corporations and global political and financial institutions, and social movements from cross-cultural and global perspectives.

INTL 10  History of Art: Arts of Asia  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Also listed as ARTS 2G. Students may enroll in either department, but not both, for credit.
Four hours lecture (48 hours total per quarter).
A general introduction to art through major Asian artistic traditions. Focuses upon paintings, sculptures, ceramics, and architecture and their religious, cultural,
historical, and social contexts. Examines arts from China, Japan, India, Central Asia, Himalayas, and Southeast Asia and assesses the contributions of Asian art in a global context.

INTL 11 Vietnamese Literature (from Tradition to Asian American Identity) 4 Units

(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the humanities through a global perspective on Vietnamese and Vietnamese American literature. Exploration of oral tradition, folk literature, traditional elite literature, modern prose, exile writings by the first immigrant generation to the Vietnamese American expressions focusing on several major themes in literature: war and representations of Southeast Asians, migration experience, impacts of migration. Students develop a historical and aesthetic understanding of Vietnamese and Vietnamese American creative expressions, with emphasis on native development and international influences.

INTL 13 Introduction to Korean Popular Culture 4 Units

(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Also listed as HUMI 13. Students may enroll in either department, but not both, for credit.
Four hours lecture (48 hours total per quarter).
An interdisciplinary introduction to contemporary Korean popular culture which explores modern Korean society across a wide range of themes such as identity, gender/sexuality, love/marriage, family and social value systems. Examines multiple levels of the socio-construction of modern Korean society through TV drama (soap opera), film and pop music. Also, it explores the unique patterns of Korean culture and Korean cultural issues related to contemporary Asian societies and global issues. No Korean language or studies experience necessary.

INTL 16 Multicultural Voices in Germany 4 Units

(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary introduction to contemporary multicultural Germany through the lenses of literature, film, and music. A critical analysis of how filmmakers, writers, and other artists from Afro-German, Turkish-German, and other backgrounds are creating new modes of representation that engage with issues of marginalization, ethnicity, citizenship, cultural and linguistic hybridity, gender, post-colonialism, and national identity in the unique German cultural and political context. Course conducted in English.

INTL 19A History of Asian Civilization: China and Japan (to the 19th Century) 4 Units

(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Also listed as HIST 19A. Students may enroll in either department, but not both, for credit.
Four hours lecture (48 hours total per quarter).
An introductory history exploring the development of Chinese and Japanese civilizations from their origins through the 18th century.

INTL 19B History of Asian Civilization: China and Japan (19th - 21st Centuries) 4 Units

(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Also listed as HIST 19B. Students may enroll in either department, but not both, for credit.
Four hours lecture (48 hours total per quarter).
An introductory history exploring modern China and Japan from the 19th to the 21st centuries.

INTERNET

(See Computer Information Systems, Learning Center and/or Library course listings.)

Italian

ITAL 1 Elementary Italian (First Quarter) 5 Units

(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
An introduction to a broad range of issues, concepts, and approaches fundamental to the study of peace and conflict predominantly from the disciplines of political science, sociology, anthropology, psychology, political economy, religion, economics, and history. Students examine and acquire knowledge and skills related to: the role of domestic and international norms and the underlying political, economic, and social systemic structures that undergird institutions and states; the impact of religious, philosophical, social, and cultural influences; and the processes and sources of both personal and social change as they relate to framing, cultivating, and sustaining peace, culminating in the examination and identification of factors that attend conflict and violence with the intention of applying this understanding toward the prevention, deescalation, and transformation of conflicts.

ITAL 2 Elementary Italian (Second Quarter) 5 Units

(See general education pages for the requirement this course meets.)
Prerequisite: ITAL 1 (equivalent to one year of high school Italian) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of language proficiency acquired in ITAL 1. Continuation of introduction to the language and cultures of the Italian-speaking countries and communities. Basic speaking, listening, reading, and writing skills at the first level of elementary Italian are developed within the framework of language as a fundamental expression of culture. Italian is the primary language of instruction. Language practice and/or assignments, online and/or at home, are an integral part of instruction supporting the development of language skills in the area of pronunciation, structure, and communicative skills.
JAPN 1 Elementary Japanese (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: JAPN 1 (equivalent to one year of high school Japanese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
An introduction to the language and the culture of Japan. Emphasis will be on language as the primary expression of culture and a medium of communication.
Four language skills (listening, speaking, reading and writing) as well as sociocultural knowledge which plays an important role in communicating in the target language, will be developed. Japanese will be the major language of instruction. Oral practice based on an understanding of the language structure will be emphasized. Mastering of two of the Japanese syllabic writing systems, hiragana and katakana, and 29 kanji (Chinese characters) is required.

JAPN 2 Elementary Japanese (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: JAPN 1 (equivalent to two years of high school Japanese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
A continuation of the introduction to the Japanese language and culture, with the further development of materials presented in JAPN 1. Emphasis will be on acquisition of second-quarter beginner level of four language skills (listening, speaking, reading and writing) as well as sociocultural knowledge which plays an important role in communicating in the target language. Japanese is the major language of instruction. Oral practice based on an understanding of the language structure will also be emphasized. Additional to practicing two of the Japanese syllabic writing systems, hiragana and katakana, and 29 kanji, 57 more kanji, Sino-Japanese characters will be introduced.

JAPN 3 Elementary Japanese (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: JAPN 2 (equivalent to two years of high school Japanese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
A continuation of the introduction to the Japanese language and culture with further development of materials presented in JAPN 1 and JAPN 2. Emphasis will be on acquisition of the third-quarter high beginner level of four language skills (listening, speaking, reading and writing) as well as sociocultural knowledge which plays an important role in communicating in the target language. Oral practice based on an understanding of the language structure will also be emphasized. Fifty-nine more kanji, Sino-Japanese characters will be introduced. Students are expected to integrate three writing systems in order to demonstrate authentic writing skills.

JAPN 4 Intermediate Japanese (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: JAPN 3 (equivalent to three years of high school Japanese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
The first-quarter of intermediate Japanese. Introduces the Japanese language and culture with the further development of materials presented in JAPN 3. The emphasis will be on acquisition of the first-quarter low intermediate level of four language skills (listening, speaking, reading and writing) as well as the sociocultural knowledge which plays an important role in communicating in the target language. Oral practice is based on an understanding of the language structures which will also be emphasized. Sixty-four more kanji, Sino-Japanese characters will be introduced. Students will develop intermediate level reading strategies and writing skills integrating hiragana, katakana, and kanji.

JAPN 5 Intermediate Japanese (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: JAPN 4 (equivalent to four years of high school Japanese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
The second-quarter of intermediate Japanese. Introduces the Japanese language and culture with the further development of materials presented in JAPN 4. The emphasis will be on acquisition of the second-quarter intermediate level of four language skills (listening, speaking, reading, and writing) as well as the sociocultural knowledge which plays an important role in communicating in the target language. Oral practice is based on an understanding of the language structures which will also be emphasized. Sixty-two more kanji, Sino-Japanese characters will be introduced. Students will develop intermediate level reading strategies and writing skills integrating hiragana, katakana, and kanji.

JAPN 6 Intermediate Japanese (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: JAPN 5 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
The third-quarter of intermediate Japanese. Introduces the Japanese language and culture with further development of materials presented in JAPN 5. The emphasis will be on acquisition of the high intermediate level of four language skills (listening, speaking, reading and writing) as well as the sociocultural knowledge which plays an important role in communicating in the target language. Oral practice based on an understanding of the language structures should also be emphasized. Forty-six more kanji, Sino-Japanese characters will be introduced. Students will develop high intermediate level reading strategies and writing skills integrating hiragana, katakana, and kanji.

JOURNALISM

JOUR 2 Media and Its Impact On Society 4 Units
(See general education pages for the requirement this course meets.)
Prerequisite: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of the mass media’s cultural and industrial functions in society. Introduction to methods of studying how media systems developed historically and how they are evolving in the U.S. and globally, as well as how people use and make meaning with media as part of everyday life. Methods and theories to understand media’s social, economic and political impact, considering media production, forms, reception, and influence. Ethical and legal implications of media including print, film, recorded music, TV, video gaming and online media. Interplay of media and gender, ethnic and minority communities.

JOUR 21A News Writing and Reporting 3 Units
Prerequisite: EWRT 1A or EWRT 1AH or ESL 5.
Three hours lecture (36 hours total per quarter).
Instruction and practice in reporting and the fundamentals of news writing for media, with analysis of typical news stories. Concentration on the language and style of news writing; organization and structure of news stories; the lead and the basic story types. Practical writing experience.

JOUR 21B Feature Writing and Reporting 3 Units
Prerequisite: EWRT 1A or EWRT 1AH or ESL 5.
Advisory: JOUR 21A.
Three hours lecture (36 hours total per quarter).
Fundamentals in feature writing for newspapers, magazines, and other media with instruction and practice in profile, human interest, enterprise news, and opinion features. Practical experience in interviewing, writing special story types and revising.

JOUR 61A Student News Media Production I 3 Units
(Formerly JOUR 61.)
Prerequisite: EWRT 1A or EWRT 1AH or ESL 5; F/TV 20.
Nine hours laboratory (108 hours total per quarter).
Practical experience in creating basic news and feature content as members of the college newspaper, magazine or online media staff.

JOUR 61B Student News Media Production II 3 Units
Prerequisite: JOUR 61A.
Nine hours laboratory (108 hours total per quarter).
Practical experience in creating longer and complex news, feature and visual content as a member of the college newspaper, magazine or online media staff.

JOUR 61C Editorial Leadership for Student News Media 3 Units
Prerequisite: JOUR 61A.
Nine hours laboratory (108 hours total per quarter).
Practical experience in planning, assigning, editing and placing print, video and/or web content as members of the college newspaper, magazine or media staff.

JOUR 62A Freelance Reporting for Student Media 1 Unit
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours laboratory (36 hours total per quarter).
Practical experience contributing as a freelance reporter to the college newspaper and/or digital media as a reporter.

JOUR 62B Freelance Photography for Student Media 1 Unit
Advisory: PHTG 4.
Three hours laboratory (36 hours total per quarter).
Practical experience contributing as a freelance photographer to the college newspaper and/or digital media as a reporter.
JOUR 62C  Freelance Video Production for Student Media 1 Unit
Advisory: F/TV 20.
Three hours laboratory (36 hours total per quarter).
Prerequisite: Experience in contributing as a freelance video reporter or producer for the college news media.
JOUR 62D  Freelance Digital Production for Student Media 1 Unit
Requisite/Advisory: None.
Three hours laboratory (36 hours total per quarter).
Practical experience contributing as a freelance digital content producer to the college news media.
JOUR 62E  Freelance Graphic Production for Student Media 1 Unit
Advisory: ARTS 53E.
Three hours laboratory (36 hours total per quarter).
Practical experience contributing as a graphic news producer to the college newspaper and/or digital media as a reporter.
JOUR 62F  Freelance Copy Editing for Student Media 1 Unit
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Three hours laboratory (36 hours total per quarter).
Practical experience contributing as a copy editor for the college newspaper and/or digital media.
JOUR 77W  Special Projects in Journalism 1 Unit
Prerequisite: Consent of instructor and division dean.
Three hours laboratory (36 hours total per quarter).
Special research, writing or study projects in Journalism as determined in consultation with the department chair. Can be used by students producing media content as part of an internship or other special projects.
JOUR 78W  Special Topics in Journalism 1 Unit
Two hours laboratory for the one-half unit course (24 hours total per quarter);
Three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Aquatics Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction into Physical Education through skills and techniques for the intermediate swimmer. Global and historical development of swimming as a fitness and competitive activity will be discussed. Intermediate stroke skills, spring board diving, turns, and water safety will be covered. The student will be expected to swim greater lengths with increased motor skills. American Red Cross stroke standards will be followed but adaptations will be allowed based on physical ability, age, strength and gender. Students will review basic exercise physiology and nutrition appropriate to swimming.
KNES 1C  Intermediate Swimming 1/2 Unit
KNES 1CX  1 Unit
(Formerly P E 26C and P E 26CX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 1B or equivalent swimming skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(Formerly P E 26D and P E 26DX respectively.)
Prerequisite: KNES 1D or permission of instructor.
(See general education pages for the requirement this course meets.)
An introduction into Physical Education through skills and techniques for the advanced swimmer. Global and historical development of swimming as a fitness and competitive activity will be discussed. Advanced stroke skills, endurance swimming, turning and starts, and spring board diving will be covered. The student will perform skills at a greater speed and distance at an advanced motor skill level. American Red Cross stroke standards will be followed but adaptations will be allowed based on physical ability, age, strength and gender. Students will review basic exercise physiology and nutrition appropriate to swimming.
KNES 1D  Advanced Swimming 1 Unit
KNES 1DX  1 Unit
(Formerly P E 6D and P E 6DX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 1C or KNES 1CX, or permission of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(Formerly P E 6G and P E 6GX respectively.)
Prerequisite: KNES 1C or KNES 1CX, or permission of instructor.
(See general education pages for the requirement this course meets.)

KNES 2B  Deep Water Running 1/2 Unit
KNES 2BX  1 Unit
(Formerly P E 6F and P E 6FX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 1C or KNES 1CX, or permission of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(Formerly P E 6F and P E 6FX respectively.)
Prerequisite: KNES 1C or KNES 1CX, or permission of instructor.
(See general education pages for the requirement this course meets.)
An introduction to the discipline of Kinesiology through deep water running including an historical and global examination of deep water running for fitness and rehabilitation. Students will improve fitness through a program of cardiovascular endurance, strength development and flexibility using water based exercise routines and equipment.
K

KNES 5A  Indoor Cycling  1/2 Unit

KNES 5AX  1 Unit

(Formerly P E 3 and P E 3X respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Physical Education through indoor cycling.
Includes an historical examination of indoor cycling/spinning. The cycling program
is an individually paced, noncompetitive, group training program designed for all
riders and all fitness levels. Cycling is an exercise performed on a stationary racing
bicycle and is performed to music. Training is fast paced and is open to anyone
who is interested in losing body fat, improving cycling techniques, and wants to
improve cardio-respiration.

KNES 5B  High Intensity Indoor Cycling  1/2 Unit

KNES 5BX  1 Unit

(Formerly P E 3B and P E 3BX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Kinesiology through indoor cycling. Includes
an historical examination of indoor cycling/spinning. The cycling program
is an individual paced, competitive group training program designed to develop
cardiovascular fitness at higher intensity levels. Using interval training students
will improve aerobic and anaerobic energy systems. Utilizing a variety of equipment
the student will develop core endurance and strength. Students will be able to
assess and design a personal workout program for an indoor program of cycling
which can be modified to outdoor trails.

KNES 6A  Aerobic Power Walking  1/2 Unit

KNES 6AX  1 Unit

(Formerly P E 6H and P E 6HX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Physical Education through aerobic power walking.
Includes an historical and global examination of walking for health and fitness.
Students will improve fitness through a progressive program of walking various
distances, routes and at variable speeds. The importance of strength development,
and flexibility exercises, adaptations of the exercises to individual physical abilities and principles of fitness and nutrition will be discussed.

KNES 7A  Step Aerobics  1/2 Unit

KNES 7AX  1 Unit

(Formerly P E 6S and P E 6SX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Physical Education through cardiovascular/aerobic exercise utilizing a step system to promote cardiorespiratory endurance through a variety of movements. Students will learn fundamental patterns and routines with popular music accompaniment. Global and historical review of the evolution of aerobic exercise, exercise trends for men, women and athletes will be discussed. Students will review and apply basic exercise physiology, nutrition and wellness concepts related to cardiovascular exercise, strength development and flexibility relative to age, gender, or physical limitations.

KNES 7D  Latin Infused Aerobics  1/2 Unit

KNES 7DX  1 Unit

(Formerly P E 6Z and P E 6ZX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to Physical Education through the study of Latin Infused Aerobic exercise. Includes an historical examination of the Latin influence on exercise. A fusion of Latin and international movement and aerobic moves is the focus of this course. Routines will feature aerobic and fitness interval training with a combination of fast and slow rhythms that tone and sculpt the body. Basic exercise physiology, nutrition, flexibility, strength, and mental concepts to improve one’s physical condition, including variables which occur due to age, gender, and physical conditions will be covered.

KNES 7G  Aerobic Exercise Hi-Low Impact  1/2 Unit

KNES 7GX  1 Unit

(Formerly P E 6R and P E 6RX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Physical Education using hi-lo aerobic exercise to promote cardiorespiratory endurance through a variety of movements. Students will learn fundamental patterns and routines with popular music accompaniment. Global and historical review of aerobic exercise trends for men, women and athletes will be discussed. Students will review and apply basic exercise physiology, nutrition and wellness concepts related to cardiovascular exercise, strength development and flexibility depending on age, gender, and physical limitations.

KNES 7H  Aerobic Exercise Low Impact  1/2 Unit

(Formerly P E 6Q.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory (24 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Physical Education through aerobic exercise utilizing low impact techniques. Students will learn fundamental patterns and routines with popular music accompaniment. A global and historical review of the evolution of aerobic exercise, exercise trends for men, women and athletes will be covered. Students will review and apply basic exercise physiology, nutrition and wellness concepts related to cardiovascular exercise, strength development and flexibility.

KNES 9A  Interactive Cardiovascular Fitness and Activity Tracking 1  1/2 Unit

KNES 9AX  1 Unit

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Kinesiology through an introduction to online fitness. Technology to verify performance via self-reported cardiovascular exercise, assignments, testing and discussion will be utilized. Students will learn to improve fitness through the use of cardiovascular exercise. Basic exercise physiology, nutritional concepts and various components of fitness will be discussed. Students are required to have a tracking application installed on a GPS-enabled device or a fitness tracking device.

KNES 9B  Interactive Cardiovascular Fitness and Activity Tracking 2  1/2 Unit

KNES 9BX  1 Unit

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of kinesiology into the online fitness setting. This is an intermediate level online fitness course that will utilize technology to verify performance via self-reported cardiovascular exercise, assignments, testing and discussion. Students will learn to improve fitness through the use of cardiovascular exercise. Basic exercise physiology, nutritional concepts and various components of fitness will be discussed. Students are required to have an instructor-approved tracking application installed on a GPS-enabled device or a fitness tracking device.

KNES 11A  Cardio Kick  1/2 Unit

KNES 11AX  1 Unit

(Formerly P E 6K and P E 6KX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).

(This course is included in the Cardiovascular Fitness Family of activity courses. Please
see Course Repetition, Repeatability and Families page for more information.)

An introduction to the discipline of Kinesiology through the activity of cardio kick. Dynamic kickboxing techniques are used to provide a level of conditioning for both the aerobic and anaerobic systems. The freestyle interval format combines boxing and kicking drills specific to martial arts and kickboxing integrating the element of mind/body, readiness, visualization, and reaction. Students will participate in a safe, modifiable, program to improve overall fitness, agility, balance, strength, and endurance. An historical examination of kickbox for fitness and its roots in the sports of kickboxing, boxing, and martial arts will be included.
KNES 11B  Cardio Kick 2  1/2 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 11A or KNES 11AX.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the discipline of kickboxing.
Dynamic kickboxing techniques are used to provide a level of conditioning for both
the aerobic and anaerobic systems at an intermediate level. The freestyle interval
format combines boxing and kicking drills specific to martial arts and kickboxing
integrating the element of mind/body, readiness, visualization, and reaction at
an intermediate level. Students will participate in a safe, modifiable, program to improve
overall fitness, agility, balance, strength, and endurance at an intermediate level.
An historical examination of kickbox for fitness and its roots in the sports of
kickboxing, boxing, and martial arts will be included.

KNES 11AX  1 Unit
(Formerly P E 2K and P E 2KX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 11A or KNES 11AX.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the discipline of kickboxing.
Dynamic kickboxing techniques are used to provide a level of conditioning for both
the aerobic and anaerobic systems at an intermediate level. The freestyle interval
format combines boxing and kicking drills specific to martial arts and kickboxing
integrating the element of mind/body, readiness, visualization, and reaction at
an intermediate level. Students will participate in a safe, modifiable, program to improve
overall fitness, agility, balance, strength, and endurance at an intermediate level.
An historical examination of kickbox for fitness and its roots in the sports of
kickboxing, boxing, and martial arts will be included.

KNES 12A  Aikido  1/2 Unit
(Formerly P E 2L and P E 2LX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 12A or KNES 12AX, or technical proficiency suitable to the
course level.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Further examination of the discipline of Physical Education through the study of martial arts
in the form of Aikido. Includes a global and historical examination, key philosophical
concepts of the Aikido tradition and the evolution of Aikido to its present form.
Students will practice simple Aikido techniques for the mind, body and spirit that
can easily be incorporated into daily life. Rotation movements, mindfulness, breath
awareness, and relaxation techniques will be covered. Basic exercise physiology,
nutrition, strength development, flexibility and meditation techniques as related to
Aikido and health will be incorporated.

KNES 12B  Intermediate Aikido  1/2 Unit
KNES 12BX  1 Unit
(Formerly P E 2L and P E 2LX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 12A or KNES 12AX, or technical proficiency suitable to the
course level.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Further examination of the discipline of Physical Education through the study of martial arts
in the form of Aikido. Includes a global and historical examination, key philosophical
concepts of the Aikido tradition and the evolution of Aikido to its present form.
Students will practice simple Aikido techniques for the mind, body and spirit that
can easily be incorporated into daily life. Rotation movements, mindfulness, breath
awareness, and relaxation techniques will be covered. Basic exercise physiology,
nutrition, strength development, flexibility and meditation techniques as related to
Aikido and health will be incorporated.

KNES 12D  Beginning Karate  1/2 Unit
KNES 12DX  1 Unit
(Formerly P E 2A and P E 2AX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the discipline of karate.
Includes, a global and historical examination of the sport, rules, equipment, and
etiquette. Students will analyze and demonstrate the application of traditional
Japanese Shotokan karate techniques including blocking, punching, kicking
striking and stances. Students will strive to understand and apply basic exercise
physiology, nutrition, flexibility and strength concepts in an effort to improve their
physical condition. Considerations for the variables that occur due to age, gender
and physical conditions will be covered.

KNES 12E  Intermediate Karate  1/2 Unit
KNES 12EX  1 Unit
(Formerly P E 2B and P E 2BX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 12D or KNES 12DX, or approval of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of physical education through the discipline of karate.
Includes a global and historical examination of the sport, rules, equipment, and
etiquette of the sport. Intermediate karate skills and techniques of Japanese
karate will be covered including blocking, punching, kicking, stances and individual
evasion movement, and group interaction. Students will strive to understand and
apply basic exercise physiology, nutrition, flexibility, and strength concepts in an
effort to improve their physical condition in order to train at a more advanced level,
while considering the variables that occur due to age, gender, and physical conditions.

KNES 12G  Self-Defense  1/2 Unit
(Formerly P E 3G.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory (24 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology, through personal self-defense.
The course includes a historical and global examination of self-defense. It will
provide the student with a sense of awareness and practical applications that will
maximize the student’s strength, endurance, and skill relative to gender, body build
and ability to react to various situations. Recognition of potential problems, attack
prevention/avoidance, escape strategies, counterattack, kidnapping, and sexual
violence will be discussed. Basic exercise physiology, nutrition, fundamentals of
strength development, and flexibility.

KNES 12H  Tai Chi  1/2 Unit
KNES 12HX  1 Unit
(Formerly P E 2Q and P E 2QX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for the one unit course (36 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through Tai Chi exercises
including well-known short forms consisting of 24 postures. Principles of unity,
centering, balance, alignment, breath and mind intent, “yin and yang” relationships
and the development of Chi. Benefits of Tai Chi exercise relative to age, gender and
environmental conditions. Basic exercise physiology, nutrition, fundamentals of
strength development, flexibility and meditation concepts as related to Tai Chi
and “health and wellness.” A global and historical examination of the Taoist philosophy
and the development of various forms of Tai Chi.

KNES 12J  Intermediate Tai Chi  1/2 Unit
KNES 12JX  1 Unit
(Formerly P E 2R and P E 2RX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 12H or KNES 12HX, or comparable level, or permission
of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Combatives Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Further examination of Physical Education through the ancient exercise of Tai Chi.
Students will participate in the advanced level of Tai Chi Chi exercises
including well-known short forms consisting of 24 or 36 postures. Complete and
polish movements of the 24 Tai Chi set, self-defense applications, “push-hands,”
and sparring will be performed. Review and embody principles of unity, centering,
balance, alignment, breath and mind intent, “yin and yang” relationships and the
development of Tai Chi. Benefits of Tai Chi exercise relative to age, gender and
environmental conditions will be studied. The course will
incorporate basic exercise physiology, nutrition, strength development, flexibility
and meditation techniques as related to Tai Chi and health.

KNES 15A  Cross Training  1/2 Unit
KNES 15AX  1 Unit
(Formerly P E 6B and P E 6BX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Cross Training Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education including a historical examination
of cross training. Cardiovascular fitness will be increased through circuit and interval training. Agility, speed, strength, and flexibility will be enhanced through the utilization of a variety of fitness equipment. Strength, cardiovascular,
flexibility, and body composition assessments will be included in course activities.
Students will participate indoors as well as outdoors.
KNES 15C  Total Fitness  1/2 Unit  
(Formerly P E 8 and P E 8X respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
(Formerly P E 6 and P E 6X respectively.)
An introduction to the discipline of Kinesiology through total fitness, including
an historical and global examination of total fitness and conditioning. Students
will improve fitness through a program of cardiovascular exercise, agility, speed,
flexibility, and resistance training using both indoor and outdoor facilities. Fitness
assessments will occur throughout the term.

KNES 15E  Cardiovascular and Strength Training  1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
(Formerly P E 9, 9X and 9Y respectively.)
An introduction to the discipline of Kinesiology through cardiovascular and
strength training. Includes rules, equipment, facilities, technique, safety and
practice of techniques; basic introduction to the discipline of Kinesiology through
an historical and global examination of how cardiovascular and strength training
has changed due to the influence of individuals and their countries. Students will
review and apply basic exercise physiology, nutrition, and flexibility concepts
to improve their physical condition.

KNES 15F  High Intensity Interval Training - HIIT  1/2 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
An introduction to the field of kinesiology through the practice of high intensity
interval training. Fitness training will focus on heart rate based interval training.
Resting heart rate, aerobic peak and reserve rates will be measured for
elevated fitness training. Basic concepts of physiology, cardiovascular, muscular strength
and endurance, and nutritional concepts will be discussed.

KNES 16A  Fit Camp  1/2 Unit
KNES 16AX  1 Unit
KNES 16AY  1/2 Units
(Formerly P E 6U, 6UX, and 6UY respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Four and one-half hours laboratory for the one and one-half unit course (54 hours
total per quarter).
(See general education pages for the requirement this course meets.)
(Formerly P E 6D and P E 6DX respectively.)
An introduction to the discipline of Kinesiology through fit camp. A historical
examination of fit camp for fitness which includes a look at the U.S. Military boot
camp regimen. The student will strive for ultimate fitness through a program of
aerobic conditioning, including circuit and intervals, balance, agility, speed,
strength, and flexibility training both indoors and outdoors. Strength, cardiovascular
fitness, flexibility, and body composition assessments will occur throughout the term.

KNES 17A  Pyrometric Conditioning  1 Unit
KNES 17AX  1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
An introduction to the discipline of kinesiology through pyrometric conditioning,
including an historical and global examination of pyrometric exercise and
conditioning. This introductory course is designed to promote physiological
development of strength and power through a series of leaping, bounding and
hopping exercises to effectively improve coordination and agility.

KNES 19A  Strength Development  1 Unit
(Formerly P E 4 and P E 4X respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Two hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Please see Course Repetition, Repeatability and Families page for more information.
An introduction to the discipline of Kinesiology through strength training, including
equipment, safety and techniques of strength development, with a brief historical
examination of how strength training has changed due to the influence of individuals,
and their style of lifting. The development of skill and adaptations based on the
physical ability, age and gender of the individual student will be encouraged. Students
will review and apply basic exercise physiology, nutrition, flexibility and strength
concepts to improve their physical condition.

KNES 19B  Strength Development  2/2 Unit
KNES 19BX  1 Unit
(See general education pages for the requirement this course meets.)
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Please see Course Repetition, Repeatability and Families page for more information.
An introduction to the discipline of kinesiology through strength training at an
intermediate level. Includes technique, safety and techniques of strength development,
with a brief historical examination of how strength training has changed due to
the influence of individuals, and their style of lifting. The development of skill and
adaptations based on the physical ability, age and gender of the individual student
will be encouraged. Students will review and apply basic exercise physiology,
nutrition, flexibility and strength concepts to improve their physical condition.

KNES 19D  Resistance Training  1 Unit
KNES 19DX  1 Unit
(Formerly P E 4Y and P E 4YX respectively.)
(See general education pages for the requirement this course meets.)
Please see Course Repetition, Repeatability and Families page for more information.
An introduction to Physical Education through the training for muscular endurance.
Includes safety, technique, and training and the role in total fitness will be examined.
Basic exercise physiology, nutrition, flexibility, strength and mental concepts to improve one's
physical condition, including variables which occur due to age, gender, and physical
conditions will be covered.

KNES 19E  Body Sculpting  1/2 Unit
KNES 19EX  1 Unit
(See general education pages for the requirement this course meets.)
(Formerly P E 6D and P E 6DX respectively.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
(Formerly P E 6V and P E 6VX respectively.)
An introduction to the discipline of Kinesiology through core conditioning.
Sculpting is an integrated approach that focuses on developing the muscles of the entire body.
The student will achieve ultimate fitness by focusing on a program of strength,
balance, agility and flexibility. Concentration will be on muscles of the entire body.
Resistance training, medicine balls, stability balls, and the body bar will be used in
conjunction with proper breathing, posture and muscle awareness.

KNES 19G  Core Conditioning  1 Unit
KNES 19GX  1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Please see Course Repetition, Repeatability and Families page for more information.
An introduction to the discipline of Physical Education through core conditioning
which focuses on developing the muscles of the core. The focus of this course,
sculpting the student will achieve ultimate fitness by focusing on a program of strength,
balance, agility and flexibility. Concentration will be on muscles of the entire body.
Resistance training, medicine balls, stability balls, and the body bar will be used in
conjunction with proper breathing, posture and muscle awareness.

KNES 20A  Circuit Training  1/2 Unit
KNES 20AX  1 Unit
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(See general education pages for the requirement this course meets.)
Please see Course Repetition, Repeatability and Families page for more information.
An introduction to the discipline of kinesiology through beginning level circuit

192
2019-2020 DE ANZA COLLEGE CATALOG
KNES 22A  Hatha Yoga  1/2 Unit
 KNES 22AX  1 Unit
(Formerly P E 2 Y and P E 2YX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Physical Meditation Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the study of yoga, including
an historical examination and key philosophical concepts of the yoga tradition
and the evolution of yoga throughout the ages. Students will practice simple
yoga poses for the mind, body, mindfulness, breath awareness and relaxation
techniques will be covered.

KNES 22B  Yoga for Relaxation  1/2 Unit
 KNES 22BX  1 Unit
(Formerly P E 2 G and P E 2GX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Physical Meditation Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through the study of yoga
for relaxation. Includes a global and historical examination and key philosophical
concepts of the yoga tradition. Students will practice yoga techniques to relax
the mind and the body. Includes breath awareness and stress reduction techniques.
Basic exercise physiology, nutrition, strength development, and flexibility will be covered.

KNES 22C  Power Yoga  1/2 Unit
 KNES 22CX  1 Unit
(Formerly P E 2D and 2DX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Physical Meditation Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the study of yoga
including, basic exercise physiology concepts, and nutrition.
A brief examination of the evolution of the various forms of stretching
including active isolated stretching techniques will be included. With
an emphasis upon exercise physiology, neurological reflexes, hydration, muscular
strength and endurance, wellness concepts related to total fitness, age, gender,
disabilities and/or genetics will be covered.

KNES 22D  Flow Yoga  1/2 Unit
 KNES 22DX  1 Unit
(Formerly P E 2 E and P E 2EX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Physical Meditation Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
Introduction to physical education through flow yoga. Includes an historical
examination and key philosophical concepts of the yoga tradition, as well as the
evolution of yoga throughout the ages. Designed to introduce students to the flow
element of yoga which emphasizes a mind-body connection from pose to pose,
breathing techniques, flexibility and relaxation. Basic exercise physiology, nutrition,
flexibility, strength, and mental concepts to improve one's physical condition,
including variables which occur due to age, gender, and physical conditions will be covered.

KNES 22E  Yoga/Pilates Combo  1/2 Unit
 KNES 22EX  1 Unit
(Formerly P E 2 F and P E 2FX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Physical Meditation Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of physical education through the study of
the mind-body connection. Includes a global and historical perspective of mind-body
exercise including Yoga and Pilates. Students will practice breathing techniques
and examine different ways to center and focus the mind and body using both
mat Pilates and Yogic asanas. Basic exercise physiology, nutrition, strength development,
and flexibility will be covered.

KNES 25A  Stretching  1/2 Unit
 KNES 25AX  1 Unit
(Formerly P E 11 and P E 11X respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Flexibility and Stability Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through stretching. Techniques for
improving flexibility including passive and active stretches, partner stretches,
and stretches using stability balls and yoga straps will be included. Emphasis will be
placed upon flexibility, balance, spatial awareness and safety during stretching.
Technique modifications to account for physical limitations will be emphasized.
A brief examination of the evolution of the various forms of stretching
reflecting cultural, gender, and age differences, exercise physiology,nutrition and wellness
concepts related to total fitness, disabilities and/or genetics will be covered.

KNES 25B  Active Isolated Stretching  1/2 Unit
 KNES 25BX  1 Unit
(Formerly P E 11C and P E 11CX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Flexibility and Stability Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through active isolated stretching
for increased flexibility using dynamic and static stretching of
major muscle groups. Technique modifications to account for physical limitations
will be emphasized. A brief examination of the evolution of the various forms
of stretching including active isolated stretching techniques will be included. With
an emphasis upon exercise physiology, neurological reflexes, hydration, muscular
strength and endurance, wellness concepts related to total fitness, age, gender,
disabilities and/or genetics will be covered.

KNES 26A  Basic Pilates Mat Exercise  1/2 Unit
 KNES 26AX  1 Unit
(Formerly P E 2P and P E 2PX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Flexibility and Stability Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to Kinesiology through the study of Pilates. Includes a global
and historical perspective, key philosophical concepts, and the six principles
of Pilates exercise. Students will practice basic Pilates mat techniques to improve
concentration, mind relaxation techniques, core strength and flexibility. Includes
basic exercise physiology concepts, and nutrition.

KNES 26B  Integrated Pilates Mat Exercise  1/2 Unit
 KNES 26BX  1 Unit
(Formerly P E 2T and P E 2TX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 26A or KNES 26AX; or approval of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Flexibility and Stability Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to Kinesiology through integrated Pilates mat exercise. A variety
of equipment will be used to develop core strength and flexibility in this course.
Intermediate to advanced Pilates exercises will be practiced to increase and develop
muscle mass, discipline of the mind, and rhythmic breathing techniques. Includes
basic exercise physiology concepts, and nutrition.

KNES 29A  Fencing Level 1  1/2 Unit
(Formerly P E 14A.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory (24 hours total per quarter).
This course is included in the Individual Sports Family of activity courses.
Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to Physical Education through the sport of fencing. Level 1 of
fencing will teach the student fundamental techniques/skills utilizing the French foil.
The rules and regulations governing fencing will be covered. Exercise physiology,
nutrition and wellness concepts related to total fitness and individual variations
due to age, gender, and/or genetics will be explored. A brief historical examination
of the various styles of this international sport will be included.
KNES 30A  Beginning Golf  1/2 Unit
(Formerly P E 16A.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).
This course is included in the Individual Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

KNES 31B  Intermediate Badminton  1/2 Unit
(Formerly P E 13B and P E 13BX respectively.)
(See general education pages for the requirement this course meets.)
An introduction to the discipline of Physical Education through the sport of badminton. Includes a global and historical examination of the sport, rules, equipment, facilities and etiquette. Basic exercise physiology, nutrition, fundamentals of strength development and flexibility relative to playing at an advanced level will be included. The course will encourage an understanding of how to adapt game strategies and conventional techniques to age, gender, and environmental conditions; personal strengths and weaknesses.

KNES 32A  Beginning Tennis  1/2 Unit
(Formerly P E 13C and P E 13CX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 32B  Advanced Beginning Tennis  1/2 Unit
(Formerly P E 21A and P E 21AX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 31B or KNES 31BX, or consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 32C  Intermediate Tennis  1/2 Unit
(Formerly P E 21C and P E 21CX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 32A or KNES 32AX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 32D  Advanced Intermediate Tennis  1/2 Unit
(Formerly P E 21B and P E 21BX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 32E  Advanced Tennis  1/2 Unit
(Formerly P E 21 and P E 21X respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 32D or KNES 32AX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33C  Advanced Badminton  1/2 Unit
(Formerly P E 13C and P E 13CX respectively.)
(See general education pages for the requirement this course meets.)
An introduction to the discipline of Physical Education through the sport of badminton. Includes a global and historical examination of the sport, rules, equipment, facilities and etiquette. Basic exercise physiology, nutrition, fundamentals of strength development and flexibility relative to playing at an intermediate level will be included. The course will encourage an understanding of how to adapt game strategies and conventional techniques to age, gender, and environmental conditions; personal strengths and weaknesses.

KNES 33D  Advanced Beginning Tennis  1/2 Unit
(Formerly P E 21A and P E 21AX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 31B or KNES 31BX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33E  Advanced Intermediate Tennis  1/2 Unit
(Formerly P E 21B and P E 21BX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33F  Advanced Tennis  1/2 Unit
(Formerly P E 21 and P E 21X respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 33D or KNES 33AX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33G  Advanced Badminton  1/2 Unit
(Formerly P E 13C and P E 13CX respectively.)
(See general education pages for the requirement this course meets.)
An introduction to the discipline of Physical Education through the sport of badminton. Includes a global and historical examination of the sport, rules, equipment, facilities and etiquette. Basic exercise physiology, nutrition, fundamentals of strength development and flexibility relative to playing at an advanced level will be included. The course will encourage an understanding of how to adapt game strategies and conventional techniques to age, gender, and environmental conditions; personal strengths and weaknesses.

KNES 33H  Advanced Beginning Tennis  1/2 Unit
(Formerly P E 21A and P E 21AX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 31B or KNES 31BX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33I  Advanced Intermediate Tennis  1/2 Unit
(Formerly P E 21B and P E 21BX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33J  Advanced Tennis  1/2 Unit
(Formerly P E 21 and P E 21X respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 33D or KNES 33AX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33K  Advanced Badminton  1/2 Unit
(Formerly P E 13C and P E 13CX respectively.)
(See general education pages for the requirement this course meets.)
An introduction to the discipline of Physical Education through the sport of badminton. Includes a global and historical examination of the sport, rules, equipment, facilities and etiquette. Basic exercise physiology, nutrition, fundamentals of strength development and flexibility relative to playing at an advanced level will be included. The course will encourage an understanding of how to adapt game strategies and conventional techniques to age, gender, and environmental conditions; personal strengths and weaknesses.

KNES 33L  Advanced Beginning Tennis  1/2 Unit
(Formerly P E 21A and P E 21AX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 31B or KNES 31BX, or permission of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33M  Advanced Intermediate Tennis  1/2 Unit
(Formerly P E 21B and P E 21BX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33N  Advanced Tennis  1/2 Unit
(Formerly P E 21 and P E 21X respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 33D or KNES 33AX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (24 hours total per quarter).

KNES 33O  Advanced Badminton  1/2 Unit
(Formerly P E 13C and P E 13CX respectively.)
(See general education pages for the requirement this course meets.)
An introduction to the discipline of Physical Education through the sport of badminton. Includes a global and historical examination of the sport, rules, equipment, facilities and etiquette. Basic exercise physiology, nutrition, fundamentals of strength development and flexibility relative to playing at an advanced level will be included. The course will encourage an understanding of how to adapt game strategies and conventional techniques to age, gender, and environmental conditions; personal strengths and weaknesses.
KNES 32D Advanced Tennis 1/2 Unit

KNES 32DX 1 Unit

(Formerly P E 21D and P E 21DX respectively.)

(See general education pages for the requirement this course meets.)

Prerequisite: KNES 32C or KNES 32CX, or equivalent skills based on instructors evaluation.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Individual Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

Further examination of Physical Education through tennis. Basic exercise physiology, nutrition, fundamentals of strength development and flexibilityrelative to playing at an advanced level will be included. The course will encourage an understanding of how to adapt game strategies and conventional techniques to one's needs and abilities based on age, gender and environmental conditions, personal strengths and weaknesses.

KNES 32E Beginning Table Tennis 1/2 Unit

KNES 32EX 1 Unit

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Individual Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introduction to the discipline of Physical Education through table tennis. Includes a global and historical examination of the sport, rules, equipment, facilities, etiquette, and basic strokes in beginning level table tennis. Basic exercise physiology, nutrition, flexibility and strength concepts to improve physical condition will be discussed. The skills portion of the course will encourage an understanding of how to adapt the game and conventional techniques to age, gender and physical conditions.

KNES 32F Intermediate Table Tennis 1/2 Unit

KNES 32FX 1 Unit

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Individual Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

Development of consistency, accuracy and control for forehand, backhand strokes, and serve. Introducing elements of changing the dynamics of the game with spins; basic singles and doubles strategies. Includes a global and historical examination of the sport, rules, equipment, facilities, etiquette, in intermediate level table tennis. Basic exercise physiology, nutrition, flexibility and strength concepts to improve physical condition will be discussed. The skills portion of the course will encourage an understanding of how to adapt the game and conventional techniques to age, gender and physical conditions.

KNES 32G Multi-Sport Fitness 1/2 Unit

KNES 32AX 1 Unit

KNES 32AY 1 1/2 Units

(Formerly P E 10, 10X and 10Y respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter);

four and one-half hour laboratory for the one and one-half units course (54 hours total per quarter).

This course is included in the Individual Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introduction to the discipline of Kinesiology through multi-sport fitness. An historical examination of multi-sport training methodology to include triathlon training. The student will strive for maximum improvement through a program of cardiovascular exercise including interval training, strengthening exercises and flexibility training both indoors and outdoors with an emphasis on aquatic fitness. Strength, cardiovascular fitness and flexibility will be monitored and assessed throughout the term.

KNES 36A Team Sport - Basketball Level 1 1/2 Unit

KNES 36AX 1 Unit

(Formerly P E 1H and P E 1HX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introduction to the discipline of Kinesiology through beginning basketball. Activities include individual and team strategies and techniques required for competitive game. A brief historical examination of significant national and international contributions to the development of styles of play will be presented. The impact of culture and gender on amateur and professional levels of competition will also be analyzed. Skills emphasized will enable students to participate in informal basketball (streetball) activities. Students will recognize basketball needs associated with physiology, nutrition, flexibility, and strength concepts in order to improve level of skill. Instructors will motivate and encourage students to practice and adapt skills to physical ability, age, strength, and gender. Major emphasis on tournament format participation.

KNES 37A Soccer Team Sport - Basketball Level 1 1/2 Unit

KNES 37AX 1 Unit

(Formerly P E 33A and P E 33AX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introductory course to enhance skills used in the game of soccer, including a global perspective and the contributions of both male and female soccer experts and players. Emphasis will be placed upon the four major pillars of the game: technical ability, tactical understanding, physical fitness, and the mental approach necessary to compete successfully in match play. Strategies and tactics of the game will also be discussed and performed. There will be an introduction to the laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game. Use of the Internet and other media sources will be encouraged to further understand the world's most popular game.

KNES 37B Soccer Level 2 1/2 Unit

KNES 37BX 1 Unit

(Formerly P E 33D and P E 33DX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introduction to the discipline of Kinesiology through the game of soccer, including a global perspective and the contributions of both male and female soccer experts and players. Emphasis will be placed upon the four major pillars of the game: technical ability, tactical understanding, physical fitness, and the mental approach necessary to compete successfully in match play. Technical skills and small group strategies and tactics will be introduced and performed. There will be a discussion introducing additional laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game. Use of the Internet and other media sources will be encouraged to further understand the world's most popular game.

KNES 37C Soccer Level 3 1/2 Unit

KNES 37CX 1 Unit

(Formerly P E 33E and P E 33EX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introduction to the discipline of physical education through the game of soccer, including a global perspective and the contributions of both male and female soccer experts and players. Emphasis will be placed upon the four major pillars of the game: technical ability, tactical understanding, physical fitness, and the mental approach necessary to compete successfully in match play. Team offensive and defensive strategies and tactics will be introduced and performed. There will be a discussion introducing additional laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game. Use of the Internet and other media sources will be encouraged to further understand the world's most popular game.

KNES 37D Soccer Level 4 1/2 Unit

KNES 37DX 1 Unit

(Formerly P E 33F and P E 33FX respectively.)

(See general education pages for the requirement this course meets.)

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours laboratory for the one-half unit course (24 hours total per quarter); three hours laboratory for the one unit course (36 hours total per quarter).

This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.

An introduction to the discipline of physical education through the game of soccer, including a global perspective and the contributions of both male and female soccer experts and players. Emphasis will be placed upon the four major pillars of the game: technical ability, tactical understanding, physical fitness, and the mental approach necessary to compete successfully in match play. Tactical skills and comprehensive team strategies will be practiced and performed. There will be a discussion introducing additional laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game. Use of the Internet and other media sources will be encouraged to further understand the world's most popular game.
KNES 37E Indoor Soccer 1/2 Unit
(Formerly P E 33L)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory (24 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through the sport of indoor soccer. Includes a global perspective and the contributions of both male and female soccer experts from around the world. Emphasis will be placed on the four major pillars of the game: strategies and tactics of the game will be discussed and performed. There will be an introduction to the laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game.

KNES 38A Futsal Level 1 1/2 Unit
KNES 38AX 1 Unit
(Formerly P E 33J and P E 33JK respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through the sport of futsal. The four major pillars of the game: strategies and tactics of the game will be discussed and performed. There will be an introduction to the laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game. Use of the Internet and other media resources will be encouraged to further understand indoor soccer.

KNES 38B Futsal Level 2 1/2 Unit
KNES 38BX 1 Unit
(Formerly P E 33K and P E 33KK respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 38A or KNES 38AX, or equivalent skills.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
A further introduction to Physical Education through the sport of futsal (advanced beginner level). Focus will be on the advancement in futsal skills, including technical ability, and tactical understanding of the game played indoors on a basketball court. Included is a global perspective of futsal and a historical review of the sport. Advanced beginner level skills and small group (partners) strategies and tactics will be performed. An introduction to the laws of the game pertaining to free kicks, kicks, kick-offs, goal kicks and corner kicks will be discussed.

KNES 39A Volleyball Level 1 1/2 Unit
KNES 39AX 1 Unit
(Formerly P E 19A and P E 19AX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through the sport of volleyball. Includes a global and historical examination of the sport, rules, equipment, facilities, etiquette, safety, and fundamentals of volleyball. Students will develop their volleyball skills and improve upon team play strategies. Students will apply basic exercise physiology, nutrition, flexibility and strength concepts to improve their overall playing level.

KNES 39B Volleyball Level 2 1/2 Unit
KNES 39BX 1 Unit
(Formerly P E 19B and P E 19BX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 39A or KNES 39AX, or consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through the sport of volleyball. Includes a global and historical examination of the sport, rules, equipment, facilities, etiquette, safety, and fundamentals of volleyball. Students will develop their volleyball skills and improve upon team play strategies. Students will apply basic exercise physiology, nutrition, flexibility and strength concepts to improve their overall playing level.

KNES 39C Volleyball Level 3 1/2 Unit
KNES 39CX 1 Unit
(Formerly P E 19C and P E 19CX respectively.)
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 39B or KNES 39BX, or consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Physical Education through the sport of volleyball. Includes a global and historical examination of the sport, rules, equipment, facilities, etiquette, safety, and fundamentals of advanced volleyball. Students will develop their volleyball skills and improve upon team play strategies. Students will apply basic exercise physiology, nutrition, flexibility and strength concepts to improve their overall playing level.
KNES 40B  Flag Football 2  1/2 Unit
KNES 40BX  1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 40A or KNES 40AX.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the game of flag football.
This is designed to give students the opportunity to review and practice the intermediate skills relative to the game of flag football. An introduction to the tactics of flag football will be covered. Basic physiology, nutrition, strength, and flexibility concepts will be discussed.

KNES 40C  Flag Football 3  1/2 Unit
KNES 49CX  1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 40B or KNES 40BX.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the game of flag football. This is designed to give students the opportunity to review and practice the advanced skills relative to the game of flag football. An advanced examination of the tactics of flag football will be covered. Basic physiology, nutrition, strength, and flexibility concepts will be discussed.

KNES 41A  Ultimate Frisbee 1  1/2 Unit
KNES 41AX  1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: Successful completion of KNES 41A, KNES 41AX or skills equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the sport of Ultimate Frisbee. Includes a global perspective and the contributions of both male and female Ultimate Frisbee experts and players. Emphasis will be placed in psychomotor, cognitive, and effective domains of the sport. There will be an introduction to the laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game.

KNES 41B  Ultimate Frisbee 2  1/2 Unit
KNES 41BX  1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 41A or KNES 41BX.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An intermediate exploration into the discipline of Kinesiology through the sport of Ultimate Frisbee. Includes a global perspective and the contributions of both male and female Ultimate Frisbee experts and players. Emphasis will be placed in psychomotor, cognitive, and effective domains of the sport. There will be a comprehensive exploration of the laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game.

KNES 41C  Ultimate Frisbee 3  1/2 Unit
KNES 41CX  1 Unit
(See general education pages for the requirement this course meets.)
Prerequisite: KNES 41B or KNES 41BX.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Team Sports Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An intermediate exploration into the discipline of Kinesiology through the sport of Ultimate Frisbee. Includes a global perspective and the contributions of both male and female Ultimate Frisbee experts and players. Emphasis will be placed in psychomotor, cognitive, and effective domains of the sport. There will be an introduction to the laws of the game, equipment, fair play, flexibility, nutrition, and the nuances of the game.

KNES 42A  Motor Skills Assessment and Development  1/2 Unit
KNES 42AX  1 Unit
(Formerly P E 7A and P E 7AX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Kinesiology Motor Development Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through human motor development. Humans function in a variety of arenas including the physical, cognitive, social and psychosocial. The physical arena will be the main focus of this modular course. Motor development refers to the changes that occur in our ability to ambulate as we proceed through the lifespan.

KNES 42B  Motor Development Training Methodologies  1/2 Unit

KNES 42BX  1 Unit
(Formerly P E 7B and P E 7BX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Kinesiology Motor Development Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the practice of human motor development using the application of physical training methodologies. The focus of this course will examine basic tenets of anaerobic training including the overload principle, training intensity and periodization, includes exercise physiology concepts, nutrition, strength development, flexibility, and the FITT principle.

KNES 42C  High Intensity Motor Training  1/2 Unit
KNES 42CX  1 Unit
(Formerly P E 7C and P E 7CX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Kinesiology Motor Development Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through the practice of human motor development. Emphasis will be placed upon heart rate based Interval training. Peak and reserve rates will provide a backdrop for elevated motor training. Improved health and fitness will be the main focus for students whether novice or elite. Interaction will occur in a collaborative setting.

KNES 42D  Aquatic Motor Development  1/2 Unit
KNES 42DX  1 Unit
(Formerly P E 7D and P E 7DX respectively.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours laboratory for the one-half unit course (24 hours total per quarter);
three hours laboratory for the one unit course (36 hours total per quarter).
(This course is included in the Kinesiology Motor Development Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
An introduction to the discipline of Kinesiology through human motor development. The aquatic arena will be used as the domain of exercise. Competitive swim training, Water Polo, water gait training, interval swimming, long and short course swimming will be introduced.

KNES 45  Introduction to Kinesiology  5 Units
(Formerly P E 30.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
An introduction to the discipline of physical education/kinesiology. The student will study career options, required preparation and training for occupations in teaching, coaching, physical therapy, sports nutrition, sports medicine and other professions stemming from a degree in physical education/kinesiology. Includes an in-depth overview of human movement and performance, foundations and principles of physical education/kinesiology, and the importance of the sub-disciplines in kinesiology. Focus will also be placed on and give the student an understanding of cultural, age and gender differences. Title IX requirements relating to the profession will also be discussed.

KNES 46  Care and Prevention of Athletic Injuries  4 Units
(Formerly P E 35.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; P E 54 (or BIOL 40A and BIOL 40B).
Three hours lecture, three hours laboratory (72 hours total per quarter).
Treatment and preventative procedures in sports medicine. Emphasis on anatomical basis for recognition and evaluation of sports related injuries. Treatment focuses on immediate first aid, preventative techniques, and injury stress test and rehabilitation.

KNES 47  Introduction to Women in Sports  5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).
An introduction to the field of Kinesiology through women in sport. Students will gain an understanding of the journey of women in sport, through a chronological history, analysis and interpretation of people, events, and issues that affect women in sport, in past and present day society. Physiological, sociological, and psychological aspects of female athletes as related to the sport, history, and education will be covered. Students will gain an understanding of the significant events of women in sport from the past to the present and how their significance will possibly determine the future of women in sports.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.

2019-2020 DE ANZA COLLEGE CATALOG 197
KINESIOLOGY and Physical Education

KNES 50A Orientation to Lifetime Fitness 3 Units
(Formerly P E 70A.)
(See general education pages for the requirement this course meets.)
Corequisite: KNES 50A students must also enroll in KNES 9A, 9X, 9B, 9BX or 50AL.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture (36 hours total per quarter).
Introduction to fitness, wellness and lifestyle management. Students will examine current theories of health and fitness with emphasis on how wellness and personal fitness are affected by biology, economics, gender, and age. Each student will perform pre-assessment and post-assessment tests of their own cardiovascular capacity, muscular strength and endurance, flexibility, and body composition. Lifestyle changes will be emphasized and behavior change tools that promote healthy choices will be discussed. Instruction on proper exercise techniques will be demonstrated.

KNES 50AL Lifetime Wellness and Fitness Center Laboratory 1 Unit
(Formerly P E 71.)
(See general education pages for the requirement this course meets.)
Prerequisite: HLTH 51, KNES 50A or KNES 53 (all courses may be taken concurrently).
Three hours laboratory (36 hours total per quarter).
A laboratory designed to improve student’s cardio-respiratory fitness, muscular strength and endurance, flexibility and body composition. Strength and muscular endurance will be developed using Magnum weight equipment. Cardio-respiratory programs will be run on treadmills, cycles, stair steppers, and elliptical trainers.

KNES 51A Fitness and Dietary Wellness 3 Units
(Formerly P E 79.)
(See general education pages for the requirement this course meets.)
Corequisite: KNES 51A students must also enroll in KNES 9A, 9X, 9B, 9BX or 51AL.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture (36 hours total per quarter).
An examination of the effect of exercise, basal metabolic rate and total daily energy expenditure on weight management. The role of cardiovascular exercise, resistance training, body composition and nutrition on an individual’s metabolic rate is assessed. Lifestyle factors and choices, managing stress and motivational strategies for maintaining a healthy body weight is discussed. Students will develop a personal exercise program, assess cardiovascular fitness, muscular strength and endurance, and body composition to improve metabolic rate.

KNES 51B Fitness and Dietary Wellness Laboratory 1 Unit
(Formerly P E 79B.)
(See general education pages for the requirement this course meets.)
Corequisite: KNES 51A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
A laboratory designed for students to utilize exercise as a weight management technique for both weight loss, weight gain, or healthy weight maintenance. Cardio-respiratory fitness and muscular strength and endurance techniques will be emphasized. Exercise programs will focus on improving body composition based on weight management techniques.

KNES 52 Physical Stress Management 3 Units
(Formerly P E 53.)
(See general education pages for the requirement this course meets.)
Corequisite: KNES 51A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture (36 hours total per quarter).
An introduction to the discipline of Kinesiology through the natural techniques that effectively relieve stress related physical problems. Each student will develop and implement a personal stress reduction program. Students will be exposed to information on how lifestyle, gender, age, personality and occupation effects stress and the ability to successfully cope with it. (This course is offered in online and face-to-face environments. Massage Therapy students must take this course in the face-to-face environment. Massage students will not be allowed to repeat this course to obtain a Massage Therapy Program Certificate unless the course was taken more than eight years previously.)

KNES 53 Health and Fitness 4 Units
(Formerly P E 51.)
(See general education pages for the requirement this course meets.)
Corequisite: KNES 51A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Introduction to the disciplines of Physical Education and Health through fitness, wellness and lifestyle management. Concepts of wellness from an interdisciplinary and multicultural perspective. Practices and beliefs that contribute to fitness and healthful living. Exploration of past and current theories of health and fitness with emphasis on determining the role of nutrition, gender, and age. Students will assess their own cardiovascular capacity, muscular strength and endurance, flexibility, body composition, in and out of class.

KNES 54 Introduction to Sport in Society 5 Units
(Formerly P E 72.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).
A course designed for kinesiology, and physical education majors. It looks at current and past sports related cultural and historical issues. Students will be introduced to various topics such as race and gender issues, sports for different populations, and how sports has shaped the American past time. The various levels of participation will be discussed from elementary school and recreational participation, to professional sports.

KNES 55 Introduction to Exercise Science 5 Units
(Formerly P E 85.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).
An introduction to the discipline of Kinesiology through introductory concepts of exercise science. The knowledge base that defines exercise physiology is central to the discipline of kinesiology. Students will develop a basic understanding of how the physiological systems involved in physical activity respond to exercise, physical activity, and how these systems adapt to various modes of exercise training and environmental conditions. Basic concepts of physiology, biology, nutrition, and principles of exercise/fitness for students planning on majoring in Physical Education or Kinesiology and/or completing a certificate program in personal training, massage therapy, or coaching.

KNES 56 Fitness Assessment for Personal Trainers 3 Units
(Formerly P E 85S.)
Prerequisite: KNES 50A and KNES 50AL, or KNES 55.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 210 or equivalent.
Two and one-half hours lecture, one and one-half hours laboratory (48 hours total per quarter).
Basic concepts of fitness assessment for personal trainers. An overview of basic exercise science. Includes measurement of cardiovascular fitness and use of the American College of Sports Medicine metabolic equations. The student will understand body composition using calipers and skinfold equations. Measurements of muscular strength, muscular endurance, and flexibility will be covered. Test results will be analyzed and used for exercise prescription.

KNES 57A Coaching I: The Foundations of Coaching 2 Units
(Formerly P E 88A.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture (24 hours total per quarter).
Introduction and continuing education into the theories, techniques, strategies, and qualifications related to sport and athletic coaching. An in-depth analysis of coaching responsibilities and practical applications associated with youth (Little League, Pop Warner, American Youth Soccer Organization, and YMCA), middle school, high school, community college, and four-year university levels of competition and play. The students will study the issues and requirements associated with possible duties and job responsibilities in relationship to administrative, medical, legal, and practical experiences.

KNES 57B Coaching II: The Fundamentals of Fundraising and Budgeting 2 Units
(Formerly P E 88B.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture (24 hours total per quarter).
Introduction and study of the fundamental strategies and techniques relating to alternative funding, i.e. fundraising for school athletic programs or extra-curricular activities. An in-depth analysis of successful fundraising endeavors with an emphasis on Education Code, District Policy, Legal and Ethical Standards of Operation, conduct, and accounting. Students will take a comprehensive look at the roles and responsibilities of coaches fundraising at all levels of sport competition and organization; youth, elementary and secondary schools, community colleges, college, university, and professional. Emphasis on role of money on programs. An overview of legal and business issues associated with possible coaching income derived from outside sources and fundraising activities. A mandatory review on non-profit organizational structure and accountability.

KINESIOLOGY

KINESIOLllGY Special Projects in Kinesiology 1/2 Unit
KINESIOLllGY 77X 1 Unit
KINESIOLllGY 77Y 1 1/2 Units
(Formerly P E 77, 77X, and 77Y respectively.)
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Individual research in Kinesiology or Massage Therapy. Specific projects determined in consultation with the instructor. Outside reading and written report required. These projects are undertakings that are not in the regular physical education curriculum and require the approval of the division dean.

Korean

KORE 1 Elementary Korean (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to the historical and cultural background of the Korean language. Intensive reading and writing practice of the Korean alphabet, Hangul. Development of language skills orally and in writing for basic and simple information relating to high-frequency situations in familiar contexts, to further understand grammatical and syntactical structures.

2019-2020 DE ANZA COLLEGE CATALOG
### KORE 2 - Elementary Korean (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in KORE 2H.)
Prerequisite: KORE 1 (equivalent to one year of high school Korean) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of materials presented in KORE 1. Intensive oral practice broadening the language functions covered in KORE 1 and adding new ones. Greater emphasis on student generated discussion. More emphasis on cultural and historical background in the use of language. Written practice to further understanding of the underlying grammatical and syntactical structures for an extended range of basic/simple information relating to high-frequency situations.

### KORE 2H - Elementary Korean (Second Quarter) 5 Units - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in KORE 2.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: KORE 1 (equivalent to one year of high school Korean) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of materials presented in KORE 1. Intensive oral practice broadening the language functions covered in KORE 1 and adding new ones. Greater emphasis on student generated discussion. More emphasis on cultural and historical background in the use of language. Written practice to further understanding of the underlying grammatical and syntactical structures for an extended range of basic/simple information relating to high-frequency situations. As an honors course the students will be expected to complete extra assignments to gain deeper insight in the Korean language and culture.

### KORE 3 - Elementary Korean (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in KORE 3H.)
Prerequisite: KORE 2 or KORE 2H (equivalent to two years of high school Korean) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of materials presented in KORE 1 and KORE 2 (or KORE 2H). High beginning level language skills for oral and written communication in targeted language functions, with focus on greater structural accuracy and communicative competence for a more complex abstract range of information relating to high frequency situations. Better understanding of the Korean culture through text and out-of-text authentic materials.

### KORE 3H - Elementary Korean (Third Quarter) 5 Units - HONORS
(See general education pages for the requirement this course meets.)
(Not open to students with credit in KORE 3.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: KORE 2 or KORE 2H (equivalent to two years of high school Korean) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of materials presented in KORE 1 and KORE 2 (or KORE 2H). High beginning level language skills for oral and written communication in targeted language functions, with focus on greater structural accuracy and communicative competence for a more complex abstract range of information relating to high frequency situations. Better understanding of the Korean culture through text and out-of-text authentic materials. As an honors course, the students will be expected to complete extra assignments to gain deeper insight in the Korean language and culture.

### LART 200 - Developing Reading and Writing Connections 10 Units
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Ten hours lecture (120 hours total per quarter).
Pass-No Pass (P-NP) course.
Development of reading and writing abilities to the level necessary to be successful in READ 211 and EWRT 211. Comprehension of assigned readings. Writing focused on a central idea, developed with specific examples, organized according to a relevant progression of ideas and largely free of major grammatical, syntactic, usage and dialect errors.

### LART 211 - Integrated Reading and Writing 10 Units
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Ten hours lecture (120 hours total per quarter).
Pass-No Pass (P-NP) course.
Integration of reading and writing skills necessary for success in college level courses. Emphasis on analysis and criticism of assigned readings and written responses to critical questions about those readings.

### Learning Assistance

#### LRNA 77 - Special Projects in Learning Assistance 1 Unit
Prerequisite: Consent of instructor and division dean. Student must concurrently work as a tutor (for pay or volunteer at the De Anza College Student Success Center or similar organization, as determined by the instructor).
Three hours laboratory (36 hours total per quarter).
Pass-No Pass (P-NP) course.
Special reading, writing, or study projects in Learning Assistance as determined in consultation with the instructor. Student must concurrently work as a tutor (for pay or volunteer) at the De Anza College Student Success Center, or similar organization, as determined by the instructor.

#### LRNA 96 - Introduction to Individual and Group Peer Tutoring 2 Units
Prerequisite: Must be selected to work as a De Anza tutor.
Two hours lecture (24 hours total per quarter).
Pass-No Pass (P-NP) course.
Introduction to the principles and practices of individual and group tutoring. Development of effective communication and leadership skills to facilitate collaborative, dynamic and productive learning.

#### LRNA 97 - Introduction to Peer Tutoring in Writing and Reading 3 Units
Prerequisite: Must be selected to work as a De Anza tutor.
Three hours lecture (36 hours total per quarter).
Required training for De Anza writing and reading tutors. Introduction to the theory and practice of tutoring writing and reading, including strategies and approaches to help students from diverse linguistic backgrounds with different levels of college reading and writing skills. Students read about, observe, discuss, write about and practice the craft of tutoring writing and reading. After an initial orientation, students in the class begin tutoring and reflect on their tutoring experiences as part of the class.

#### LRNA 98 - Tutor Training for Math/Science Tutors 1 Unit
Prerequisite: Must be selected to work as a De Anza tutor.
One hour lecture (12 hours total per quarter).
Pass-No Pass (P-NP) course.
Required training course for De Anza math/science tutors during their first quarter of tutoring. Strategies and communication skills to help peer tutors conduct productive, effective, and fun tutoring sessions. Experience reflecting on instructional and learning theory and practicing theory-based tutoring techniques. Strategies for working with students from diverse backgrounds and with various learning styles. Self-reflection and peer feedback on actual tutoring sessions.
Learning Strategies
(formerly Guidance)

L S 50  Student Success Strategies 4 Units
(Formerly GUID 202.)
Credit course - Does not apply to De Anza Associate degree.
Requisite/Advisory: None.
Four hours lecture (48 hours total per quarter).
Pass-No Pass (P-NP) course.
Optimal learning strategies and accommodative techniques for students with special learning needs. Evaluate and apply successful learning tools in areas such as time management, goal setting, memory, processing information, test taking strategies and learning styles.

L S 207 Educational Diagnostic Center (EDC) 4 Units
(Formerly GUID 207.)
Credit course - Does not apply to De Anza Associate degree.
Advisory: Placement by a counselor.
Four hours lecture (48 hours total per quarter).
Pass-No Pass (P-NP) course.
Basic writing and editing skills for students with specialized learning needs preparing for college level writing activities. Engage in diverse writing formats including structured paragraphs on a variety of topics using compensatory written learning strategies. Practice parts of speech, capitalization, punctuation, sentence structure, and paragraph development.

L S 209 Arithmetic Skills and Strategies 4 Units
(Formerly GUID 209.)
Credit course - Does not apply to De Anza Associate degree.
Advisory: Placement by a counselor.
Four hours lecture (48 hours total per quarter).
Pass-No Pass (P-NP) course.
A transition class for students with special learning needs. The class is designed to improve skills in mathematics by addressing areas of difficulty common to students with disabilities in mathematics. The class moves at a slower pace and includes small group instruction.

L S 211 Algebra Skills I 4 Units
(Formerly GUID 211.)
Credit course - Does not apply to De Anza Associate degree.
Advisory: Placement by a counselor.
Four hours lecture (48 hours total per quarter).
Pass-No Pass (P-NP) course.
A transitional class for students with special learning needs. The course is designed to improve skills in mathematics by addressing areas of difficulty common to students with disabilities in mathematics. The course moves at a slower pace and includes small group instruction. This class also includes alternative learning strategies for mastering algebraic concepts.

Mandarin

MAND 1 Elementary Mandarin (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to the language and cultures of Mandarin-speaking countries and communities. Basic speaking, listening, reading, and writing of Mandarin will be introduced and practiced within a cultural framework. Mandarin will be the primary language of instruction. Emphasis will be on language as an expression of culture and a medium of communication.

MAND 2 Elementary Mandarin (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MAND 1 (equivalent to one year of high school Mandarin) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of material presented in MAND 1. Completion of introduction to the language and cultures of Mandarin-speaking countries and communities. Basic speaking, listening, reading, and writing of Mandarin will be continued and practiced within a cultural framework. Mandarin will be the primary language of instruction. Emphasis will be on language as an expression of culture and a medium of communication.

MAND 3 Elementary Mandarin (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MAND 2 (equivalent to two years of high school Mandarin) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of material presented in MAND 1 and MAND 2. Completion of introduction to the language and cultures of Mandarin-speaking countries and communities. Basic speaking, listening, reading, and writing of Mandarin will be further introduced and practiced within a cultural framework. Mandarin will be the primary language of instruction. Emphasis will be on language as an expression of culture and a medium of communication.

MAND 4 Intermediate Mandarin (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MAND 3 (equivalent to three years of high school Mandarin) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Read and discuss texts dealing with geography, history, social, and cultural practices of the Chinese-speaking world. Review the linguistic functions and grammatical structures of first-year Chinese. Speaking, listening, reading, and writing of the first-quarter low intermediate level of Mandarin will be introduced and practiced within a cultural framework.

MAND 5 Intermediate Mandarin (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MAND 4 (equivalent to four years of high school Mandarin) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Read and discuss texts dealing with geography, history, literature, social, and cultural practices of the Chinese-speaking world. Review the linguistic functions and grammatical structures of second-year Chinese. Speaking, listening, reading, and writing of second-quarter intermediate level of Mandarin will be introduced and practiced within a cultural framework.

MAND 6 Intermediate Mandarin (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MAND 5 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Continuation of MAND 5. Read, discuss and analyze texts dealing with arts, geography, history, literature, social and cultural practices of the Chinese-speaking world. Review the linguistic functions and grammatical structures of intermediate Chinese. Speaking, listening, reading, and writing of third-quarter high intermediate level of Mandarin will be introduced and practiced within a cultural framework.

Library

LIB 1 Library Research Skills 1 Unit
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture (12 hours total per quarter).
Introduces skills needed to locate, evaluate, and cite information. Focuses on the resources of academic libraries including online catalogs, periodical indexes, and instructional web sites. Prepares students to do the basic research necessary to effectively complete written and oral assignments.

LIB 51 Business Resources on the Internet 1 Unit
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture (12 hours total per quarter).
Locate, examine and evaluate business-related information available on the Internet.

LIB 53 Advanced Internet Searching 1 Unit
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture (12 hours total per quarter).
This course is designed to instruct students how to locate, identify, and critically evaluate information sources on the Internet that are not easily accessible.

Linguistics

LING 1 Introduction to Linguistics 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The science of language; an introduction to the study of how language works, such as the basics of linguistic description, including systems of phonetics and phonology, semantics, pragmatics, morphology and syntax. Course may also include the development of spoken and written languages, how people learn language, how language changes, the history of English, American Sign Language, and the study of general linguistic principles as they apply across languages.

200 2019-2020 DE ANZA COLLEGE CATALOG
M 2019-2020 DE ANZA COLLEGE CATALOG

Massage Therapy

De Anza College has discontinued its Massage Therapy degree and certificate program. Massage classes (courses with prefix MASG) will no longer be offered to new students, although students who have already begun the program will have the opportunity to complete their required Massage Therapy Internship courses during winter quarter in 2020.

MASG 50A Introduction to Massage 3 Units
(Formerly P E 54.)
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture, three hours laboratory (60 hours total per quarter).
Introduction to the discipline of Massage Therapy. Includes theory, practical experience, methods, procedures, and contraindications. Students will be exposed to the rich international history of massage and to a variety of techniques from around the world including the contributions of men and women to the field.

MASG 50B Intermediate Massage 4 Units
(Formerly P E 54A.)
Prerequisite: MASG 50A or technical proficiency suitable to the course level or admission by instructor approval; and submission of an FHDA Live Scan receipt to the Program Assistant/Physical Education Division Office before the end of the first week of the quarter.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Further study and practice utilizing the principles of massage therapy.

MASG 50C Sports Massage 3 Units
(Formerly P E 54B.)
Prerequisite: MASG 50A and MASG 50B (may be taken concurrently), or technical proficiency suitable to the course level.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture, three hours laboratory (60 hours total per quarter).
Massage techniques and evaluation procedures for creating a massage specific to the athlete’s condition and sport. Study of the muscles and movements involved in sports activities, with an understanding of common types and areas of injuries related to specific sports.

MASG 50D Advanced Massage Skills 4 Units
(Formerly P E 54C.)
Prerequisite: MASG 50B (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Methods and procedures of advanced soft tissue therapy and related topics including: clinical syndromes and pathologies, lymphatic system massage, various pain patterns, Travel trigger point release, deep tissue massage, bio-mechanical relationships, appropriate primary care referral and the physiological aspects of tissue damage and repair.

MASG 51 Clinical Practicum in Massage Therapy 3 Units
(Formerly P E 54D.)
Prerequisite: MASG 50D or technical proficiency suitable to course level.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
One hour lecture, six hours laboratory (84 hours total per quarter).
Clinical practice in massage therapy including: methods and procedures for office management, appointment scheduling, business development and financial record keeping; professional ethics training, client interviews, treatment design, massage clinical treatments and SOAP note charting experience.

MASG 52 Table Shiatsu 4 Units
(Formerly P E 54E.)
Prerequisite: MASG 50A and MASG 50B (may be taken concurrently), or technical proficiency suitable to the course level.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
This class presents a broad overview of Eastern medical theory. Theory, methods, procedures and practice of Shiatsu, a Japanese method of hands on healing will be introduced.

MASG 53 Introduction to Chair Massage 3 Units
(Formerly P E 54F.)
Prerequisite: MASG 50A or technical proficiency suitable to the course level.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two hours lecture, three hours laboratory (60 hours total per quarter).
An introduction to the practice of chair massage. Includes a global and historical examination of chair massage, with an exploration of a variety of techniques and modalities used throughout the world. The theory behind chair massage will be covered. Students will be given practical experiences, and critiques will be used to correct posture, body mechanics, stroke application and stroke sequence.

MASG 54A Massage Therapy Internship in Adapted Physical Education Laboratory 1 Unit

MASG 54B 2 Units
MASG 54C 3 Units
(Formerly P E 54H, 54J and 54K respectively.)
Prerequisite: MASG 50B or consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Students shall work under the supervision of Adaptive Physical Education instructors. Schedule(s) are determined by agreement between student and Adaptive Physical Education intern supervisor. The student is expected to participate through the end of the assigned quarter.

MASG 55A Massage Therapy Teacher’s Assistant Internship 1 Unit

MASG 55B 2 Units
MASG 55C 3 Units
(Formerly P E 54L, 54M and 54N respectively.)
Prerequisite: Successful completion of MASG 50B and successful completion of the class selected for internship. Student must also receive approval from the instructor of the class in order to participate.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
An internship that provides opportunities for advanced massage therapy students to reinforce and master the massage training gained in classes they have completed. With instructor approval students shall assume the role of a Teacher’s Assistant in a massage lab.

MASG 56A Sports Massage Internship 1 Unit

MASG 56B 2 Units
MASG 56C 3 Units
(Formerly P E 54P, 54Q and 54R respectively.)
Prerequisite: Successful completion of MASG 50C; and permission from a Sports Massage Instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
With instructor approval, students shall assume the role of a Sports Massage Therapist working in the training room, under the supervision of an athletic trainer or with an athletic team, under the supervision of a coach. This hands-on opportunity will provide the student a chance to refine their sports massage skills by working with athletes prior to competition, post competition and on their health maintenance between events.

Mathematics

MATH 1A Calculus 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1AH.)
Prerequisite: MATH 43 or MATH 43H (with a grade of C or better), or appropriate score on Calculus Placement Test within the past calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Fundamentals of differential calculus.

MATH 1AH Calculus - HONORS 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1A.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 43 or MATH 43H (with a grade of C or better), or appropriate score on Calculus Placement Test within the past calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Fundamentals of differential calculus. As an honors course the students will be expected to complete extra assignments to gain deeper insight in calculus.

MATH 1B Calculus 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1BH.)
Prerequisite: MATH 1A or MATH 1AH.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Fundamentals of integral calculus.

MATH 1BH Calculus - HONORS 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1B.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 1A or MATH 1AH.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Fundamentals of integral calculus. As an honors course the students will be expected to complete extra assignments to gain deeper insight in calculus.
MATH 1C  Calculus  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1CH.)
Prerequisite: MATH 1B or MATH 1BH (with a grade of C or better) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Infinite series, lines and surfaces in three dimensions, vectors in two and three dimensions, parametric equations of curves. Derivatives and integrals of vector functions.

MATH 1CH  Calculus - HONORS  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1C.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 1B or MATH 1BH (with a grade of C or better) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Infinite series, lines and surfaces in three dimensions, vectors in two and three dimensions, parametric equations of curves. Derivatives and integrals of vector functions. As an honors course the students will be expected to complete extra assignments to gain deeper insight in calculus.

MATH 1D  Calculus  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1DH.)
Prerequisite: MATH 1C or MATH 1CH (with a grade of C or better) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Partial derivatives, multiple integrals, vector calculus.

MATH 1DH  Calculus - HONORS  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 1D.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 1C or MATH 1CH (with a grade of C or better) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Partial derivatives, multiple integrals, vector calculus. As an honors course the students will be expected to complete extra assignments to gain deeper insight in calculus.

MATH 2A  Differential Equations  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 2A2.)
Prerequisite: MATH 1D or MATH 1DH (with a grade of C or better).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Ordinary differential equations and selected applications.

MATH 2A2  Differential Equations - HONORS  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 2A.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 1D or MATH 1DH (with a grade of C or better).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Ordinary differential equations and selected applications. As an honors course the students will be expected to complete extra assignments to gain deeper insight in differential equations.

MATH 2B  Linear Algebra  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 2B2.)
Prerequisite: MATH 1D or MATH 1DH (with a grade of C or better).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Linear algebra and selected topics of mathematical analysis.

MATH 2B2  Linear Algebra - HONORS  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 2B.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 1D or MATH 1DH (with a grade of C or better).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Linear algebra and selected topics of mathematical analysis. As an honors course the students will be expected to complete extra assignments to gain deeper insight in linear algebra.

MATH 10  Introductory Statistics  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 10H.)
Prerequisite: MATH 114 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to data analysis making use of graphical and numerical techniques to study patterns and departures from patterns. The student studies randomness with an emphasis on understanding variation, collects information in the face of uncertainty, checks distributional assumptions, tests hypotheses, uses probability as a tool for anticipating what the distribution of data may look like under a set of assumptions, and uses appropriate statistical models to draw conclusions from data. The course introduces the student to applications in engineering, business, economics, medicine, education, social sciences, psychology, the sciences, and those pertaining to issues of contemporary interest. The use of technology (computers or graphing calculators) will be required in certain applications. Where appropriate, the contributions to the development of statistics by men and women from diverse cultures will be introduced. This Statistics course is a required lower division course for students majoring or minoring in many disciplines such as data science, nursing, business, and others. As an honors course, the students will be expected to complete extra assignments to gain deeper insight into probability and statistics.

MATH 10H  Introductory Statistics - HONORS  5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in MATH 10.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Prerequisite: MATH 114 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to data analysis making use of graphical and numerical techniques to study patterns and departures from patterns. The student studies randomness with an emphasis on understanding variation, collects information in the face of uncertainty, checks distributional assumptions, tests hypotheses, uses probability as a tool for anticipating what the distribution of data may look like under a set of assumptions, and uses appropriate statistical models to draw conclusions from data. The course introduces the student to applications in engineering, business, economics, medicine, education, social sciences, psychology, the sciences, and those pertaining to issues of contemporary interest. The use of technology (computers or graphing calculators) will be required in certain applications. Where appropriate, the contributions to the development of statistics by men and women from diverse cultures will be introduced. This Statistics course is a required lower division course for students majoring or minoring in many disciplines such as data science, nursing, business, and others. As an honors course, the students will be expected to complete extra assignments to gain deeper insight into probability and statistics.

MATH 11  Finite Mathematics  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Qualifying score on the Math Placement Test within the past calendar year; or MATH 114 or equivalent with a grade of C or better.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Application of linear equations, sets, matrices, linear programming, mathematics of finance and probability to real-life problems. Emphasis on the understanding of the modeling process, and how mathematics is used in real-world applications.

MATH 12  Introductory Calculus for Business and Social Science  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 11, 41 or 41H.
Five hours lecture (60 hours total per quarter).
Introduction to limits, differentiation, and integration of single variable functions. Differentiation of multivariate functions. Applications in business, economics, and social sciences.

MATH 17  Integrated Statistics  2  5 Units
(Formerly MATH 57.)
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 217.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
This is the second quarter of two in the Statway sequence comprised of MATH 217 and MATH 17. This sequence covers concepts and methods of statistics with an emphasis on data analysis. Sequence topics include methods for collecting data, graphical and numerical descriptive statistics, correlation, simple linear regression, basic concepts of probability, probability distributions, confidence intervals, hypothesis tests for means and proportions, chi-square tests, and ANOVA. The course introduces students to applications in engineering, business, economics, medicine, education, the sciences, and those pertaining to issues of contemporary interest. Where appropriate, the contributions to the development of statistics by men and women from diverse cultures will be introduced. This sequence is recommended for students with majors that require no mathematics beyond freshman-level statistics. It is not appropriate for students with majors in natural science, computer science or business, nor for students desiring to attend private universities.

MATH 22  Discrete Mathematics  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 43 or MATH 43H with a grade of C or better, and CIS 22A or CIS 35A with a grade of C or better or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Elements of discrete mathematics with applications to computer science. Topics include methods of proof, mathematical induction, logic, sets, relations, graphs, combinatorics, and Boolean algebra.
MATH 23  Engineering Statistics  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 1C or MATH 1CH (with a grade of C or better).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Engineering statistics provides a comprehensive introduction to probabilistic and statistical modeling for students in engineering, economics, finance and related disciplines in the mathematical sciences. The course exposes students to a variety of applications requiring decision making in the face of uncertainty. Topics covered include the collection and analysis of information, making use of graphical and numerical techniques, discrete, continuous, cumulative, and joint probability distribution functions and use of statistical inference, experimental design, and equa-

ditions.

MATH 31  Precalculus I  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 114 or equivalent placement.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Polynomial, rational, exponential and logarithmic functions, graphs, solving equations, conic sections, systems of equations and inequalities, sequences and series.

MATH 31A Precalculus I (Part 1)  2.5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 114 (with a grade of C or better).
Corequisite: MATH 31A students must also enroll in MATH 231A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Two and one-half hours lecture (30 hours total per quarter).
Linear, quadratic, power, absolute value, piecewise functions, graphs, solving equations and inequalities, solving systems of equations and inequalities.

MATH 31B Precalculus I (Part 2)  2.5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 31A (with a grade of C or better).
Corequisite: MATH 31B students must also enroll in MATH 231B.
Two and one-half hours lecture (30 hours total per quarter).
Polynomial, rational, exponential and logarithmic functions, graphs, solving equations, conic sections.

MATH 32  Precalculus II  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 31 or MATH 31B (with a grade of C or better); or a satisfactory score on College Placement Test.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Preparation for calculus: extending the elementary functions of first quarter precalculus to include the theory of periodic functions; composition of trigonometric functions with other elementary functions; polar co-
ordinates; further exploration of the complex plane; introduction to the algebra of vectors.

MATH 41  Precalculus I: Theory of Functions  5 Units
(See general education pages for the requirement this course meets.)
Not open to students with credit in MATH 41H.
Prerequisite: MATH 114 or equivalent (with a grade of C or better); or a satisfactory score on the College Level Math Placement Test within the last calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Polynomial, rational, exponential and logarithmic functions, graphs, solving equations, conic sections.

MATH 41H Precalculus I: Theory of Functions - HONORS  5 Units
(See general education pages for the requirement this course meets.)
Admission into this course requires consent of the Honors Program Coordinator.
Prerequisite: MATH 114 or equivalent (with a grade of C or better); or a satisfactory score on the College Level Math Placement Test within the last calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Polynomial, rational, exponential and logarithmic functions, graphs, solving equations, conic sections. As an honors course, students will be expected to complete extra assignments to gain deeper insight in precalculus.

MATH 42  Precalculus II: Trigonometric Functions  5 Units
(See general education pages for the requirement this course meets.)
Not open to students with credit in MATH 42H.
Prerequisite: MATH 41 or MATH 41H (with a grade of C or better); or a satisfactory score on the College Level Math Placement Test within the last calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
The theory of trigonometric functions and their applications.

MATH 42H Precalculus II: Trigonometric Functions - HONORS  5 Units
(See general education pages for the requirement this course meets.)
Admission into this course requires consent of the Honors Program Coordinator.
Prerequisite: MATH 41H or MATH 41H (with a grade of C or better); or a satisfactory score on the College Level Math Placement Test within the last calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
The theory of trigonometric functions and their applications. As an honors course, students will be expected to complete extra assignments to gain deeper insight in precalculus.

MATH 43  Precalculus III: Advanced Topics  5 Units
(See general education pages for the requirement this course meets.)
Not open to students with credit in MATH 43H.
Prerequisite: MATH 41H or MATH 42H (both with a grade of C or better); or satisfactory score on the College Readiness Test within the last calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Hyperbolic functions, parametric equations, systems of equations and inequalities, vectors, lines and planes, sequences and series, polar coordinates, mathematical induction, and the binomial theorem.

MATH 43H Precalculus III: Advanced Topics - HONORS  5 Units
(See general education pages for the requirement this course meets.)
Not open to students with credit in MATH 43.
Prerequisite: MATH 41H and MATH 42H (both with a grade of C or better); or a satisfactory score on the College Readiness Test within the last calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Hyperbolic functions, parametric equations, systems of equations and inequalities, vectors, lines and planes, sequences and series, polar coordinates, mathematical induction, and the binomial theorem. As an honors course, students will be expected to complete extra assignments to gain deeper insight in precalculus.

MATH 44 Mathematics in Art, Culture, and Society: A Liberal Arts Math Class  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Qualifying score on the Math Placement Test within the last calendar year; or MATH 114 or equivalent with a grade of C or better.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
A survey of selected topics from contemporary mathematics, including problem solving techniques and connections between mathematics and culture. Includes a selection of introductory topics from symmetry; graph theory; chaos and fractals; topology; number theory; geometry; combinatorics and counting; the mathematics of social choice; data analysis, probability and statistics; consumer mathematics and personal financial management.

MATH 46 Mathematics for Elementary Education  5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: MATH 114 with a grade of C or better, or a qualifying score on Intermediate Algebra Placement Test within the past calendar year.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Designed for prospective elementary and middle school teachers. An introduction to the discipline of mathematics as the use of logical, quantitative, and spatial reasoning in the abstraction, modeling, and problem solving of real-world situations. The main topics in the course include the origins of mathematics, mathematical reasoning and problem solving strategies, theory of sets, rational numbers and proportion, real numbers and decimal notation, and measurement. Through the course students will experience the learning of mathematics in a way that models how they can create an active learning environment for their future students.

MATH 76 Special Projects in Probability and Statistics  1 Unit
Prerequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing or study projects in probability and statistics as determined in consultation with the instructor.
MATH 77  Special Projects in Mathematics  1 Unit
Prequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing, or study projects in mathematics as determined in consultation with the instructor.

MATH 77X  2 Units
MATH 77Y  3 Units

MATH 78  Special Projects in Pure Mathematics  1 Unit
Prequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing, or study projects in pure mathematics as determined in consultation with the instructor.

MATH 79  Special Projects in Applied Mathematics  1 Unit
Prequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing, or study projects in applied mathematics as determined in consultation with the instructor.

MATH 109  Intermediate Algebra for Statistics  5 Units
Prequisite/Advisory: None.
Five hours lecture (60 hours total per quarter).
Applications of linear and exponential functions. Emphasis on the development of models of real world applications and interpretation of their characteristics. Introduction to discrete probability, and data analysis, making use of graphical and numerical techniques.

MATH 110  Intermediate Algebra for Precalculus  5 Units
Prequisite/Advisory: None.
Five hours lecture (60 hours total per quarter).
Applications of exponential, logarithmic, and rational functions. Emphasis on the development of models of real world applications and interpretation of their characteristics.

MATH 114  College Math Preparation Level 3: Intermediate Algebra  5 Units
Prequisite: MATH 212 or equivalent placement.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Application of exponential, logarithmic, and rational functions. Emphasis on the development of models of real-world applications and interpretation of their characteristics.

MATH 201  Pre-Algebra Refresher  1/2 Unit
Credit course - Does not apply to De Anza Associate degree.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Review of content of MATH 210 including basic arithmetic, estimation, variables, linear equations and their graphs. This is a self-paced, computer-based course. A diagnostic will determine areas needing review and students will be required to master the identified topics.

MATH 202  Beginning Algebra Refresher  1/2 Unit
Credit course - Does not apply to De Anza Associate degree.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Review of content of MATH 212 including linear functions, quadratic functions, linear systems and their applications. This is a self-paced, computer-based course. A diagnostic will determine areas needing review and students will be required to master the identified topics.

MATH 203  Intermediate Algebra Refresher  1/2 Unit
Credit course - Does not apply to De Anza Associate degree.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Review of content of MATH 114, including exponential functions, logarithmic functions, rational functions, sequences and series and their applications. This is a self-paced, computer-based course. A diagnostic will determine areas needing review and students will be required to master the identified topics.

MATH 210  College Math Preparation Level 1: Pre-Algebra  5 Units
Credit course - Does not apply to De Anza Associate degree.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Use of basic arithmetic in application problems, estimation, the real number system, variables and linear equations, graphs of linear equations and the Cartesian coordinate system, the concept of function.

MATH 210X  Support for Statistics  2 1/2 Units
Credit course - Does not apply to De Anza Associate degree.
Corequisite: MATH 10 or MATH 10H.
Two and one-half hours lecture (30 hours total per quarter).
Pass-No Pass (P-NP) course.
A review of the core prerequisite skills, competencies, and concepts needed when studying probability and statistics. Intended for students who are concurrently enrolled in Statistics.

MATH 211X  Algebra Support for Finite Mathematics  2 1/2 Units
Credit course - Does not apply to De Anza Associate degree.
Corequisite: MATH 11.
Two and one-half hours lecture (30 hours total per quarter).
Pass-No Pass (P-NP) course.
A review of the core prerequisite skills, competencies, and concepts needed when studying linear functions, exponential and logarithmic functions, and probability and optimization models. Intended for students who are concurrently enrolled in Finite Mathematics.

MATH 212  College Math Preparation Level 2: Beginning Algebra  5 Units
Credit course - Does not apply to De Anza Associate degree.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Application of linear functions, quadratic functions and linear systems to problems. Emphasis on the development of models of real-world applications and interpretation of their characteristics.

MATH 217  Integrated Statistics 1  10 Units
Credit course - Does not apply to De Anza Associate degree.
Prequisite: Qualifying score on the Math Placement Test within last calendar year; or MATH 210 or equivalent with a grade of C or better.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Ten hours lecture (120 hours total per quarter).
This is the first quarter of a two in the Statway sequence comprised of MATH 217 and MATH 17. This sequence covers concepts and methods of statistics with an emphasis on data analysis. Topics include methods for collecting data, graphical and numerical descriptive statistics, correlation, simple linear regression, non-linear models and basic concepts of probability. The course introduces the student to applications in engineering, business, economics, medicine, education, the sciences, and those pertaining to issues of contemporary interest. Where appropriate, the contributions to the development of statistics by men and women from diverse cultures will be introduced. This sequence is recommended for students with majors that require no mathematics beyond freshman-level statistics. It is not appropriate for students with majors in math, science, computer science or business, nor for students desiring to transfer to a private university.

MATH 231  Algebra Support for Precalculus I  2 1/2 Units
Corequisite: MATH 31, 41 or 41H.
Two and one-half hours lecture (30 hours total per quarter).
Pass-No Pass (P-NP) course.
A review of the core prerequisite skills, competencies, and concepts needed when studying polynomial, rational, exponential and logarithmic functions. Intended for majors in business, science, technology, engineering, and mathematics who are concurrently enrolled in Precalculus I.

MATH 231A  Algebra Support for Precalculus I (Part 1)  2 1/2 Units
Corequisite: MATH 31A.
Two and one-half hours lecture (30 hours total per quarter).
Pass-No Pass (P-NP) course.
A review of the core prerequisite skills, competencies, and concepts needed when studying polynomial and rational functions. Intended for majors in business, science, technology, engineering, and mathematics who are concurrently enrolled in Precalculus I.

MATH 231B  Algebra Support for Precalculus I (Part 2)  2 1/2 Units
Corequisite: MATH 31B.
Two and one-half hours lecture (30 hours total per quarter).
Pass-No Pass (P-NP) course.
A review of the core prerequisite skills, competencies, and concepts needed when studying exponential and logarithmic functions. Intended for majors in business, science, technology, engineering, and mathematics who are concurrently enrolled in Precalculus I.
MATH 232 Algebra Support for Precalculus II  2.5 Units
Corequisite: MATH 32 or 42H.
Two and one-half hours lecture (30 hours total per quarter).
Pass-No Pass (P-NP) course.
A review of the core prerequisite skills, competencies, and concepts needed in studying the theory of trigonometric functions and their applications. Intended for majors in business, science, technology, engineering, and mathematics who are concurrently enrolled in Precalculus II.

MATH 241 Academic Excellence in Precalculus I  1 Unit
Credit course - Does not apply to De Anza Associate degree.
Corequisite: MATH 241 students must also enroll in MATH 41 or MATH 41H.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
Critical thinking and skills reinforcement in a precalculus setting: cooperative learning/study techniques, concept development related to polynomial, rational, exponential, logarithmic functions and their graphs, and use of technology.

MATH 242 Academic Excellence in Trigonometry  1 Unit
(Formerly MATH 252.)
Credit course - Does not apply to De Anza Associate degree.
Corequisite: MATH 242 students must also enroll in MATH 42 or MATH 42H.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
Critical thinking and skills reinforcement in a trigonometry setting: cooperative learning/study techniques, concept development, and use of technology.

MATH 243 Academic Excellence in Precalculus III  1 Unit
Credit course - Does not apply to De Anza Associate degree.
Corequisite: MATH 243 students must also enroll in MATH 43 or MATH 43H.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory (36 hours total per quarter).
Critical thinking and skills reinforcement in a precalculus setting: cooperative learning/study techniques; concept development related to conic sections, vectors and polar and three dimensional coordinate systems; systems of equations and inequalities, parametric equations and sequences and series, and mathematical induction and the binomial theorem; and use of technology.

MUSI 1A Music Appreciation: Music in Western Cultures  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Introduction to the discipline of music; methods of understanding music available in modern culture; listening techniques; use of fundamental concepts including form, style, musical media, and textures; acquaintance with and comparison of musical examples from various eras and cultures; roles of music in society.

MUSI 1B Music Appreciation: Jazz Styles  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Introduction to the discipline of music through American Jazz; from its multicultural origins to the present; listening skills and use of fundamental musical elements for distinguished jazz styles; social issues, noted performers, and technological advancements found in jazz.

MUSI 1C Music Appreciation: World Music in America  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
An introduction to music through world music and its influence on current musical trends in the United States. Music of diverse cultures which will include Native Americans, Asia/Pacific Rim, India, Africa, South and Central America, Mexico, and the Caribbean are presented in conjunction with American and European traditions; listening skills for distinguishing musical cultures, instrumentations and artists.

MUSI 1D Music Appreciation: Rock - From Roots to Rap  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
An introduction to music through rock music, tracing its beginnings in the early 1950s to the present. Various rock styles will be related to the historical trends and events of the time period being studied; listening techniques; use of fundamental concepts including form, style, musical media, and textures; acquaintance with and comparison of musical examples from various styles.

MUSI 3A Comprehensive Musicianship (First Quarter)  4 Units
Requisite/Advisory: None.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Basic knowledge such as notation, key signatures, scales, intervals, and rudimentary harmony as well as skill development including sight singing, rhythmic training, ear training, and keyboard work.

MUSI 3B Comprehensive Musicianship (Second Quarter)  4 Units
Prerequisite: MUSI 3A or by audition.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Principles, literacy, and parameters of music including writing elementary four part harmony, sight singing, rhythmic training, ear training, and keyboard work for the student with some basic skills and education in standard notation.

MUSI 3C Comprehensive Musicianship (Third Quarter)  4 Units
Prerequisite: MUSI 3B or by or audition.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Principles, literacy, and parameters of music including writing, sight singing, rhythmic training, ear training, keyboard work, beginning analysis, and simple melody composition.

MUSI 4A Comprehensive Musicianship II (First Quarter)  4 Units
Prerequisite: MUSI 3C or by audition.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Principles, literacy, and parameters of music including writing scores, comprehensive and aural analysis, sight singing, rhythmic training, ear training, and keyboard work including extended pitch vocabulary.

MUSI 4B Comprehensive Musicianship II (Second Quarter)  4 Units
Prerequisite: MUSI 4A or by audition.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Principles, literacy, and parameters of music including writing musical scores, comprehensive and aural analysis, sight singing, rhythmic training, ear training, and keyboard work, exploring chromatic practice and the limits of the tonal system including a review of diatonic practice.
MUSI 4C  Comprehensive Musicianship II  4 Units
(Third Quarter)
Prerequisite: MUSI 4B or by audition.
Three and one-half hours lecture, one and one-half hours laboratory (60 hours total per quarter).
Principles, literacy, and parameters of music including writing, comprehensive and
aural analysis, sight singing, rhythmic training, ear training, and keyboard work
exploring post tonal practice and the influence of non-notated, experimentally
notated, and non Western music on an emerging world wide art music culture.

MUSI 5A  Modal Counterpoint  3 Units
Advisory: MUSI 3A or equivalent.
Three hours lecture, one hour laboratory (48 hours total per quarter).
Modal counterpoint in two, three, and four parts using both the species approach
and the phenomenological approach to assess the efficacy of the species
approach when examining the historical literature and to produce, imitative, and
free counterpoint examples.

MUSI 8  Intermediate Electronic Music  3 Units
Prerequisite: MUSI 51.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Two hours lecture, three hours laboratory (60 hours total per quarter).
Intermediate level electronic music techniques including digital and analog
synthesizer sound design and editing; professional studio and computer music
software including integrated audio/MIDI sequencing software, instrument editors,
software synthesizers; basic audio/MIDI studio configuration; modular synthesis;
basic digital audio recording and editing; basic audio signal processing; introduction
to concepts of music notation software; historical and technological development
of electronic music; roles of electronic music technology in modern music. Some
prior music experience and/or concurrent enrollment in MUSI 10A or MUSI 12A is
recommended, but not required.

MUSI 9A  Jazz Piano I  1 1/2 Units
(Formerly MUSI 5A)
Prerequisite: Ability to play a keyboard instrument and read music.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Class Applied Performance - Jazz and Non-
Western Family of activity courses. Please see Course Repetition, Repeatability
and Families page for more information.)
Development of the ability to play basic jazz piano arrangements from lead sheets
in a variety of jazz styles using knowledge of jazz harmony, jazz piano techniques,
and improvisational skills. Improvisational skill is developed through the application
of provided scale choices and techniques for melodic development.

MUSI 9B  Jazz Piano II  1 1/2 Units
(Formerly MUSI 69B)
Prerequisite: MUSI 9A or by instructor consent.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Class Applied Performance - Jazz and Non-
Western Family of activity courses. Please see Course Repetition, Repeatability
and Families page for more information.)
Development of the ability to play intermediate jazz piano arrangements from lead sheets
in a variety of jazz styles and settings using knowledge of jazz theory, jazz piano
techniques, and improvisational skills. Improvisational skill on the piano is
developed through the application of scales determined through the use of jazz theory
and harmonic analysis, and the application of techniques for melodic development.

MUSI 9C  Jazz Piano III  1 1/2 Units
(Formerly MUSI 69C)
Prerequisite: MUSI 9B or by instructor consent.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Class Applied Performance - Jazz and Non-
Western Family of activity courses. Please see Course Repetition, Repeatability
and Families page for more information.)
Development of the ability to play advanced jazz piano arrangements from lead sheets
in a variety of jazz styles and settings using knowledge of jazz harmony, jazz
piano techniques, and improvisational skills. Improvisational skill on the piano is
developed through the application of basic to advanced scales determined through
the use of jazz theory and harmonic analysis, and the application of idiomatic phrases.

MUSI 10A  Music Fundamentals  3 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Three hours lecture (36 hours total per quarter).
A basic introduction to concepts and skills of music notation, rhythm, major and
minor scales, as well as some sight-reading, key signatures, melody, and triads.
Open to all students. May be appropriate for students with low scores on the
MUSI 3A diagnostic test. Music Fundamentals students with no previous musical
experience may benefit from concurrent enrollment in a beginning instrumental or
vocal performance class.

MUSI 12A  Class Piano I  1 1/2 Units
Advisory: MUSI 10A.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Piano Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Beginning piano for students with no previous instruction, those who need knowledge
of piano for a teaching credential, music majors, and the general student.

MUSI 12B  Class Piano II  1 1/2 Units
Prerequisite: MUSI 12A or consent of instructor.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Piano Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Basic piano for beginning students who read treble and bass clef and understand
music notation.

MUSI 12C  Class Piano III  1 1/2 Units
Prerequisite: MUSI 12B or consent of instructor.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Piano Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Piano performance with emphasis on interpretation, musical form and harmony.

MUSI 13A  Beginning Singing I  1 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263;
an understanding of basic music notation and some possession of basic piano
skills, or concurrent enrollment in MUSI 10A or MUSI 12A.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Voice Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Class instruction for beginners in techniques of solo and group singing. Training in
controlling tonal production, breathing, diction, and musical accuracy.

MUSI 13B  Beginning Singing II  1 1/2 Units
Prerequisite: MUSI 13A or equivalent.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263;
an understanding of basic music notation and some possession of basic piano
skills, or concurrent enrollment in MUSI 10A or MUSI 12A.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Voice Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Continuation of MUSI 13A with emphasis on musicianship, memorization, legato
singing, correction of individual problems, and the rudiments of performance.
Training in controlling tonal production, breathing, diction, and musical accuracy.

MUSI 13C  Beginning Singing III  1 1/2 Units
(Formerly MUSI 53C.)
Prerequisite: MUSI 13B or equivalent.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Voice Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
A continuation of MUSI 13B with emphasis on developing repertoire of art songs
(Italian, German, French, English) and musicianship, memorization, legato singing,
correction of individual problems, and introduction to opera and musical theater.
Includes technique development and the rudiments of performance. Training in
controlling tonal production, breathing, diction, and musical accuracy.

MUSI 14A  Classical Guitar I  1 1/2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Guitar Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Beginning instruction for playing the classical, nylon-stringed guitar, assuming no
prior musical experience. Introduces basic note reading on the first four frets of
the instrument, left and right hand techniques, including free strokes, rest strokes,
arpeggio technique, left-hand development of strength and independence. Chords,
chord progression and basic strumming techniques will also be introduced.

MUSI 14B  Classical Guitar II  1 1/2 Units
Prerequisite: MUSI 14A or equivalent level; admission by instructor consent.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Guitar Class Applied Performance Family of
activity courses. Please see Course Repetition, Repeatability and Families page
for more information.)
Refinement and expansion of classical guitar techniques learned in Classical
Guitar I. Topics include expanded arpeggio techniques, free stroke and rest stroke
development, slurred technique, complex rhythms, multiple-voice music reading,
and repertoire development. Music fundamentals such as major and minor scales
and chord construction will also be covered.

206  2019-2020 DE ANZA COLLEGE CATALOG
### MUSI 14C Classical Guitar III
1 1/2 Units
Prerequisite: MUSI 14B or equivalent level; admission by instructor consent.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Guitar Class Applied Performance Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

Continuation and expansion of skills learned in Classical Guitar II. Development of sight-reading skills, complex rhythms and multiple-voice music in first through third positions using exercises and standard guitar repertoire. Emphasis on proper technique, interpretation, dynamics and tone color.

### MUSI 14D Classical Guitar IV
1 1/2 Units
(Formerly MUSI 54D.)
Prerequisite: MUSI 14C or equivalent level; admission by instructor consent.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Guitar Class Applied Performance Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

Continuation of skills learned in MUSI 14C, with greater emphasis on higher positions and longer/more difficult compositions.

### MUSI 15A Guitar Ensemble I
2 Units
Prerequisite: Enrollment subject to audition; ability to execute proper classical guitar technique and read music.
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, three hours laboratory (48 hours total per quarter).
(Satisfies the Associate’s Degree music ensemble requirement. Any combination of MUSI 15A and MUSI 15B may be taken up to six times for credit.)

Introduction to the performance of music for guitar ensemble, emphasizing sight reading, rhythmical accuracy and ensemble skills. Music from the 15th century to the present will be rehearsed and performed. Topics may include: Music written for guitar ensembles, transcriptions from orchestral scores, transcriptions for guitar duos, trios and quartets, as well as modern music using contemporary rhythmical and melodic concepts and alternative performance techniques (prepared guitar, percussion, extended glissandi).

### MUSI 15B Guitar Ensemble II
2 Units
Prerequisite: MUSI 15A or equivalent. Enrollment subject to audition.
One hour lecture, three hours laboratory (48 hours total per quarter).
(Satisfies the Associate’s Degree music ensemble requirement. Any combination of MUSI 15A and MUSI 15B may be taken up to six times for credit.)

Continuation of Guitar Ensemble I, emphasizing sight-reading at higher positions, greater accuracy at increased tempos and/or rhythms, and ensemble skills. Music from the 15th century to the present will be rehearsed and performed.

### MUSI 16A Beginning Acoustic Guitar
1 1/2 Units
(Formerly MUSI 56A.)
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Guitar Class Applied Performance - Jazz and Non-Western Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

A beginning level course covering basic guitar technique, such as strumming, fingerstyle picking, and open and moveable position chords. Both tablature and music notation are covered. No previous musical experience is required. Ideal for learning folk songs, traditional music, and some other melodic material. Emphasis is on the development of proper technique and the ability to read music.

### MUSI 16B Jazz, Blues and Popular Guitar
1 1/2 Units
(Formerly MUSI 16.)
Prerequisite: MUSI 16A or equivalent skill level; admission by instructor consent.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Class Applied Performance - Jazz and Non-Western Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

An early-intermediate level study of the common practices used in jazz, blues and selected popular music. Guitar styles from the 1940s to the present will be examined through the use of recording and written examples. Chord voicing, scales, right hand picking techniques, and development of solo skills in these styles will be emphasized.

### MUSI 18A Intermediate Piano I
1 1/2 Units
(Formerly MUSI 78A.)
Prerequisite: MUSI 12C or equivalent skill level or admission by audition.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Piano Class Applied Performance Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

A study of the traditional classical piano literature from the Baroque era to present day. Focus will be on the differences in interpretation and style for each of the time periods as well as development of piano technique, specifically required for mastery of compositions from those time periods.

### MUSI 18B Intermediate Piano II
1 1/2 Units
(Formerly MUSI 78B.)
Prerequisite: MUSI 18A or equivalent skill level or admission by audition.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Piano Class Applied Performance Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

Continued study of the traditional classical piano literature from the Baroque era to the present day. Focus will be on the differences in interpretation and style for each of the time periods as well as the development of advanced piano technique specifically required for mastery of compositions from those time periods.

### MUSI 18C Intermediate Piano III
1 1/2 Units
(Formerly MUSI 78C.)
Prerequisite: MUSI 18B or equivalent skill level or admission by audition.
One hour lecture, two hours laboratory (36 hours total per quarter).
(This course is included in the Piano Class Applied Performance Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)

A study the traditional classical piano literature from the Baroque to the present day. Focus will be on the differences in interpretation and style for each of the time periods as well as development of advanced intermediate piano technique specifically required for mastery of compositions from those time periods.

### MUSI 20 De Anza Chorale
2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, three hours laboratory (48 hours total per quarter).
(Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.)

Study and performance of traditional, classical and contemporary choral literature. Cultivation of performance skills in accompanied music. Attendance at all scheduled performances is required. Enrollment is open to all students. An introductory audition will determine placement in the appropriate section of singers.

### MUSI 21 Vintage Singers
2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; concurrent enrollment in MUSI 10A, 10B, 3A, 3B, 3C or 12A is recommended.
One hour lecture, three hours laboratory (48 hours total per quarter).
(Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.)

Study and performance of specialized choral styles from early to modern in an ensemble of limited size. Enrollment subject to audition. Choral experience, previous vocal training, and some music reading ability is necessary. Attendance at all scheduled performances is required.

### MUSI 22 Early Music Study and Performance
2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; concurrent enrollment in MUSI 10A, 10B, 3A, 3B, 3C or 12A is recommended.
One hour lecture, three hours laboratory (48 hours total per quarter).
(Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.)

Study and performance of instrumental and vocal music from the Medieval and Renaissance periods. Cultivation of performance skills aimed at emulating the spirit and vitality of those periods. Attendance at all scheduled performances is required. Enrollment is open to all students. An introductory audition will determine placement in the appropriate section of singers.

### MUSI 25 Applied Music
1 Unit
Prerequisite: Placement by audition; MUSI 3A, 3B, 3C, 4A, 4B or 4C (may be taken concurrently) and MUSI 15A, 15B, 20, 21, 22, 31, 34, 42 or 45 (may be taken concurrently).
Three hours laboratory (36 hours total per quarter).
(Satisfies the Associate’s Degree Music Requirement. May be taken up to six times for credit.)

An individualized study of the appropriate techniques and repertoire for the specific instrument or voice being studied. Emphasis is on the progressive development of skills needed for solo performance. Achievement is evaluated through a juried performance. The laboratory will include activities such as individual one on one music instruction and group meetings, as well as faculty supervised on-campus practice. This course requires technical command of the instrument and basic knowledge of musicianship.

### MUSI 31 Chamber Orchestra
2 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
One hour lecture, three hours laboratory (48 hours total per quarter).
(Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.)

Study, preparation and performance of orchestral literature for chamber orchestra with an emphasis on both early and late 18th century performance practice and then applying that practice, rhetoric and sensibility into music of the 19th, 20th and 21st centuries.

<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUSI 34</td>
<td>Jazz Ensemble</td>
<td>2</td>
<td>Prerequisite: Audition based on the ability to play a traditional big band instrument and read music. One hour lecture, three hours laboratory (48 hours total per quarter). (Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.) Sight-reading, rehearsal, performance and recording of diverse styles of music composed and arranged for standard jazz ensemble. Emphasis on improvising within the ensemble structure is a goal for each individual.</td>
</tr>
<tr>
<td>MUSI 41V</td>
<td>Rehearsal and Performance</td>
<td>1/2</td>
<td>Prerequisite: Placement by audition. One hour lecture, one and one-half hours laboratory for the one and one-half unit course (30 hours total per quarter); one hour lecture, three hours laboratory for the two unit course (48 hours total per quarter). Supervised participation in the various aspects of music rehearsal and/or performance.</td>
</tr>
<tr>
<td>MUSI 41W</td>
<td>Concert Band</td>
<td>2</td>
<td>Prerequisite: Placement by audition based on the ability to play a band instrument and read music at sight. One hour lecture, three hours laboratory (48 hours total per quarter). (Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.) Rehearsal, sight-reading, performance, and recording of wind ensemble literature in a variety of styles and time-periods. Attendance at all scheduled performances is required.</td>
</tr>
<tr>
<td>MUSI 44A</td>
<td>Composition and Arranging - Level I</td>
<td>1/2</td>
<td>Prerequisite: MUSI 3A or MUSI 3B. One hour lecture, two hours laboratory (36 hours total per quarter). The art and technique of writing and arranging music. Solving basic compositional problems, writing melodies and simple harmonies, inventing direct manipulation, variations, and melody developments of different types of pitch sets, creating logical patterns of rhythms, arranging material for different instrumentation, extending and condensening material, creation of original compositions, reading/sight singing of student exercises and original compositions, and analysis of existing published music.</td>
</tr>
<tr>
<td>MUSI 45</td>
<td>Jazz Combos</td>
<td>2</td>
<td>Prerequisite: Placement by audition based on the ability to play an instrument and read music. One hour lecture, three hours laboratory (48 hours total per quarter). (Satisfies the Associate’s Degree music ensemble requirement. May be taken up to six times for credit.) Preparation and performance of music for jazz combo. Ensemble and improvisational performance are emphasized in addition to playing in all jazz rhythmic styles. Student compositions and arrangements are encouraged. Participation at all scheduled performances is required.</td>
</tr>
<tr>
<td>MUSI 48A</td>
<td>Jazz Improvisation I</td>
<td>1/2</td>
<td>Prerequisite: Ability to play an instrument and read music. Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. One hour lecture, two hours laboratory (36 hours total per quarter). (This course is included in the Class Applied Performance - Jazz and Non-Western Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.) Development of improvisational skill in the jazz idiom. Analysis of scales, chords, and forms as applicable to improvisational performance of basic standard jazz songs. Ear training and transcribing solos is included. Participation in final recital is required.</td>
</tr>
<tr>
<td>MUSI 48B</td>
<td>Jazz Improvisation II</td>
<td>1/2</td>
<td>Prerequisite: MUSI 48A or by instructor consent. Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. One hour lecture, two hours laboratory (36 hours total per quarter). (This course is included in the Class Applied Performance - Jazz and Non-Western Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.) Further development of improvisational skill in the jazz idiom. Higher level of difficulty in analysis of scales, chords, and forms applicable to improvisational performance of intermediate level jazz songs. Ear training and transcribing solos included. Participation in a final recital is required.</td>
</tr>
<tr>
<td>MUSI 48C</td>
<td>Jazz Improvisation III</td>
<td>1/2</td>
<td>Prerequisite: MUSI 48B or by instructor consent. Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. One hour lecture, two hours laboratory (36 hours total per quarter). (This course is included in the Class Applied Performance - Jazz and Non-Western Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.) Development of improvisational skill in the jazz idiom. More advanced analysis of scales, chords, and forms applicable to improvisational performance of advanced jazz songs. Ear training and transcribing solos is included. Participation in final recital is required.</td>
</tr>
<tr>
<td>MUSI 51</td>
<td>Introduction to Electronic Music</td>
<td>3</td>
<td>Prerequisite: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Two hours lecture, three hours laboratory (60 hours total per quarter). Introduction to the use of keyboard controllers, hardware and software synthesizers and instruments, and sequencing and audio software to create music projects in a variety of styles; basic studio techniques; introduction to Musical Instrument Digital Interface (MIDI); introduction to basic historical developments in electronic music; creation of music/audio projects using basic electronic music hardware and software. Some prior music experience is recommended but not required.</td>
</tr>
<tr>
<td>MUSI 53</td>
<td>Music Business</td>
<td>3</td>
<td>Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. Three hours lecture (36 hours total per quarter). Introduction to the business aspects of music. Examines the areas of copyright laws, publishing, concert promotion, club and record contracts, agents, managers, unions, and the various careers to be found in music. Emphasis on the commercial music field including music for film, television, sound recording, the record industry, and Internet applications.</td>
</tr>
<tr>
<td>MUSI 56A</td>
<td>Intermediate African and African-Influenced Percussion and Rhythms</td>
<td>1/2</td>
<td>Prerequisite: MUSI 56B or equivalent level. Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263. One hour lecture, two hours laboratory (36 hours total per quarter). (This course is included in the Class Applied Performance - Jazz and Non-Western Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.) Intermediate-level skill development of selected African, Afro-Caribbean and Latin American rhythms applied to hand drums, stick drums and percussion instruments. Each quarter focuses on one particular culture area and its traditional and popular music styles. No musical experience required. Instruments for in-class use provided.</td>
</tr>
<tr>
<td>MUSI 77</td>
<td>Special Projects in Music</td>
<td>1</td>
<td>Prerequisite: Consent of instructor and division dean. Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter). Individual advanced projects in music.</td>
</tr>

**Nursing**

Here are the nursing education options and career paths for students at De Anza College. For specific program requirements, consult the Certificates and Degrees section of the catalog, starting on page 115.

- Registered Nursing Program
- LVN Transition to R.N. Nursing Program

Applications for these licensure programs are available after successfully completing the following:

- Nursing 50 (not required for LVNs)
- Required prerequisites with a GPA of 3.0 or higher
- Admission through the selection process

The curriculum of these programs is designed to prepare individuals for beginning professional nursing practice and to define and understand the legal scope of practice within the licensed nursing discipline. The programs promote success in the ability to practice nursing effectively together as a professional team.

See deanza.edu/nursing for specific policies regarding application and admission. The majority of courses are scheduled in the daytime. Generally, the nursing programs are not scheduled during the summer session. Costs of uniforms, books, malpractice insurance and miscellaneous supplies are estimated at $5000 for the program. In addition, students are responsible for their own transportation to the clinical agencies.

**Registered Nursing (R.N.) Program**

This associate degree program is approved by the California Board of Registered Nursing. Graduates of the R.N. program are eligible to take the California State Board Examination for licensing (NCLEX - R.N.) Students are admitted to this program during the fall, winter and spring quarters. The majority of courses are scheduled in the daytime. Generally, the R.N. program is not scheduled in the summer session. Once admitted, the program (not including prerequisites) is six quarters in length.
NURS 77 Special Projects in Nursing  
1/2 Unit 
Corequisite: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.

NURS 81L Fundamental Nursing (Non-Acute/Sub-Acute Care Clinical)  
5 Units 
Prerequisite: Admission into the De Anza College Nursing Program.
Corequisite: NURS 81L students must also enroll in NURS 81L.
Fifteen hours laboratory (160 hours total per quarter).
Clinical objectives will be met in the campus skills laboratory and in skilled and sub-acute nursing facilities to apply theory concepts. Fundamental nursing care concepts will be introduced. Students will have “hands on” experiences with all basic concepts presented.

NURS 82L Acute Fundamentals/Medical Surgical I  
4 Units  
Prerequisite: NURS 82L students must also enroll in NURS 82L.
Four hours lecture (48 hours total per quarter).
Physical and psychosocial, universal, developmental, and health deviation self-care requisites are addressed by utilization of the nursing process and Orem’s model of self-care. The student will be introduced to principles of fluid and electrolyte theory, and safe administration of medication by parenteral and intravenous routes.

NURS 82 Acute Fundamentals/Medical Surgical I  
4 Units  
Prerequisite: NURS 81, 81L, and 81P (all courses with a grade of C or better).
Corequisite: NURS 82 students must also enroll in NURS 82L.
Four hours lecture (48 hours total per quarter).

NURS 83 Perinatal Nursing  
2 Units  
Prerequisite: NURS 82 and NURS 82L (all courses with a grade of C or better).
Corequisite: NURS 83 students must also enroll in NURS 83L.
Two hours lecture (24 hours total per quarter).
Utilization of the nursing process and incorporation of Orem’s model of self-care in meeting universal, developmental, and health deviation self-care requisites of perinatal client and family. Focus is on the physical and psychosocial needs of the perinatal client, including the needs of the family unit. Critical thinking and problem solving skills will be employed through group exercises and independent study with consideration for the Registered Nurse’s specific scope of practice. Theory and clinical components are to be taken concurrently. Failure of either component requires both courses to be retaken.

NURS 83A Pediatric Nursing (Clinical)  
2 1/2 Units  
Prerequisite: NURS 82 and NURS 82L (all courses with a grade of C or better).
Corequisite: NURS 83A students must also enroll in NURS 83AL.
Two hours lecture (24 hours total per quarter).
Introduction to the nursing care of children. Orem’s model of self-care will be used as a basis to study the health/illness continuum as it applies to children and their families. The nursing process will be integrated throughout the course as a primary tool for delivering nursing care to children. Theory and clinical must be taken concurrently. Failure of either requires both to be retaken. Critical thinking and problem solving skills will be utilized in the application of theoretical concepts with consideration for the Registered Nurse’s specific scope of practice.

NURS 83AL Pediatric Nursing (Clinical)  
2 1/2 Units  
Prerequisite: NURS 82 and NURS 82L (all courses with a grade of C or better).
Corequisite: NURS 83AL students must also enroll in NURS 83AL.
Seven and one-half hours laboratory (70 hours total per quarter).
Pass-No Pass (P-NP) course.
Clinical objectives will be met in the campus skills laboratory, acute care facilities and numerous community agencies to apply theory concepts. Theory and clinical must be taken concurrently. Failure of either requires both to be retaken. Critical thinking and problem solving skills will be utilized in the application of theoretical concepts with consideration for the Registered Nurse’s specific scope of practice.

NURS 83L Perinatal Nursing (Clinical)  
2 1/2 Units  
Prerequisite: NURS 82 and NURS 82L (all courses with a grade of C or better).
Corequisite: NURS 83L students must also enroll in NURS 83L.
Seven and one-half hours laboratory (90 hours total per quarter).
Pass-No Pass (P-NP) course.
Clinical objectives will be achieved through student participation in nursing laboratory exercises, in acute hospital settings and in selected community-based women’s health clinics. Assessment skills will be demonstrated by the instructor and practiced by the student before “hands-on” implementation in the various clinical settings. Theory and clinical components are to be taken concurrently. Failure of either component requires both courses to be retaken.

NURS 83P Pharmacology III  
1 1/2 Units  
(Open to non-nursing students with instructor approval.)
Prerequisite: NURS 82P (with a grade of C or better).
Corequisite: NURS 83P students must also enroll in NURS 83PL.
One and one-half hours lecture (18 hours total per quarter).
Pharmacology III focuses on pharmacology related to the maternal and child population. Legal/ethical issues and safety principles will be stressed as an integral part of nursing practice. Teaching/learning principles with regard to medication administration will be included. Concepts on venipuncture will be presented.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
NURS 83PL Pharmacology III Laboratory 1/2 Unit
Prerequisite: NURS 82P (with a grade of C or better).
Corequisite: NURS 83PL students must also enroll in NURS 83P.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Pharmacology III Laboratory objectives will be met in the campus skills laboratory.
The focus of the course is to provide the student pharmacology skill application with
emphasis on maternal and child population. Practice in venipuncture and
blood withdrawal will also be provided. Concepts of advanced vascular access,
chemotherapy and parental nutritional will be addressed.

NURS 84 Medical/Surgical II 4 Units
(Care of the Older Adult)
Prerequisite: NURS 83, 83A, 83AL, 83L, 83P and 83PL (all courses with a grade of
C or better).
Corequisite: NURS 84 students must also enroll in NURS 84L.
Four hours lecture (48 hours total per quarter).
Utilization of the nursing process within the framework of Orem's model of self-care
in relation to the gerontological client and the client with chronic self-care deficits.
Emphasis is on the study of the older adult who is experiencing the normal process
of aging as well as the older adult experiencing a health deviation. Critical thinking
and problem solving will be employed through group exercises and independent
study with consideration for the Registered Nurse's scope of practice. This course
and its clinical component (NURS 84L) must be taken concurrently. Failure of either
requires both to be retaken.

NURS 84C Critical Thinking in Nursing 2 Units
Prerequisite: NURS 83, 83A, 83AL, 83L, 83P and 83PL (all courses with a grade of
C or better).
Two hours lecture (24 hours total per quarter).
Designed to assist the nurse in developing critical thinking skills to facilitate
decision making and effective clinical judgment. The clinical process will be
utilized as a mechanism in developing coherent and logical thinking through the
use of scenarios, debates, group and written assignments. Critical thinking
and problem solving skills will be employed through group exercises and independent
study with consideration for the Registered Nurse's specific scope of practice.

NURS 84L Medical/Surgical II (Care of the Older Adult) - Clinical 5 Units
Prerequisite: NURS 83, 83A, 83AL, 83L, 83P and 83PL (all courses with a grade of
C or better).
Corequisite: NURS 84L students must also enroll in NURS 84.
Fifteen hours laboratory (180 hours total per quarter).
Utilization of the nursing process within the framework of Orem's model of self-care
in relation to the gerontological client and the client with chronic self-care deficits.
Emphasis is on the clinical nursing care of the older adult who is experiencing the
normal process of aging as well as the older adult experiencing a health deviation.
Clinical objectives are met through experiences in a variety of settings such as
long-term care nursing facilities, medical-surgical units in acute care settings, adult
community centers, and simulated laboratory settings. This course and its theory
component (NURS 84) must be taken concurrently. Failure of either requires both
to be retaken. Critical thinking and problem solving skills will be utilized in the
application of theoretical concepts with consideration for the Registered Nurse's
specific scope of practice

NURS 85 Advanced Medical-Surgical Concepts 2 Units
Prerequisite: NURS 84, 84C and 84L (all courses with a grade of C or better).
Corequisite: NURS 85 students must also enroll in NURS 85L.
Two hours lecture (24 hours total per quarter).
Health deviations presented are encountered in the adult population. Topics
include self-care deficits related to air, water, food, activity and rest, solitude/social
interaction, elimination, prevention of hazards, and normality. Critical thinking
and problem solving skills will be employed through group exercises and independent
study with consideration for the Registered Nurse's specific scope of practice.

NURS 85A Psychiatric/Mental Health Nursing 2 Units
(Theory)
Prerequisite: NURS 84, 84C and 84L (all courses with a grade of C or better).
Corequisite: NURS 85A students must also enroll in NURS 85AL.
Two hours lecture (24 hours total per quarter).
Utilization of the nursing process in learning to meet clients’ self-care deficits,
with an emphasis on the biopsychosocial needs of individuals across the life
span who experience acute or severe psychopathology. Theories of psychiatric/
mental health nursing will be taught in concert with nursing care of individuals
undergoing treatment in a variety of behavioral healthcare settings. Theory and
clinical components must be taken concurrently. Failure of either component
requires both courses to be retaken.

NURS 85AL Psychiatric/Mental Health Nursing 2 1/2 Units
(Clinical)
Prerequisite: NURS 84, 84C and 84L (all courses with a grade of C or better).
Corequisite: NURS 85AL students must also enroll in NURS 85A.
Seven and one-half hours laboratory (90 hours total per quarter).
Pass-No Pass (P-NP) course.
Application of theories of psychiatric/mental health nursing. The nursing process
is used in providing care for individuals undergoing treatment in a variety of
behavioral health settings within the general hospital, including inpatient
acute care, partial hospitalization and outpatient programs. Clinical and theory
(NURS 85A) components must be taken concurrently. Failure of either component
requires both courses to be retaken.

NURS 85L Advanced Medical-Surgical Clinical 2 1/2 Units
Prerequisite: NURS 84, 84C and 84L (all courses with a grade of C or better).
Corequisite: NURS 85L students must also enroll in NURS 85.
Seven and one-half hours laboratory (90 hours total per quarter).
Pass-No Pass (P-NP) course.
Application of concepts learned in the theory class will occur in acute care settings.
Students will be working with clients demonstrating acute health deviations. The
nursing process and Orem's conceptual model will be utilized in caring for unstable
clients on a medical-surgical unit.

NURS 86 Leadership/Management in Nursing 2 Units
Prerequisite: NURS 85, 85A, 85AL and 85L (all courses with a grade of C or better).
Corequisite: NURS 86 students must also enroll in NURS 86L.
Two hours lecture (24 hours total per quarter).
Leadership/Management in Nursing is a quarter long course designed to prepare
the Registered Nursing student to function as a graduate nurse. Focus includes
the managerial/leadership role, interdisciplinary practice, legal challenges of clinical
practice, and trends within the nursing profession.

NURS 86L Leadership/Management Clinical Component 5 Units
Prerequisite: NURS 85, 85A, 85AL and 85L (all courses with a grade of C or better).
Corequisite: NURS 86L students must also enroll in NURS 86.
Fifteen hours laboratory (180 hours total per quarter).
Pass-No Pass (P-NP) course.
The clinical component to the Leadership/Management in Nursing course (to be
taken concurrently). This course, the Prelicensure Preceptorship, is designed to
prepare the student to function as a graduate nurse. Students will provide nursing
practice, and trends within the nursing profession.

NURS 151 Nursing Laboratory Skills for Fundamental (Non-Acute) Nursing 1 Unit
Corequisite: NURS 151 students must also enroll in NURS 81L.
Three hours laboratory (36 hours total per quarter).
Nursing skills practice in a campus laboratory setting.

NURS 152 Nursing Laboratory Skills for Fundamental Acute Nursing 1 Unit
Corequisite: NURS 152 students must also enroll in NURS 82L.
Three hours laboratory (36 hours total per quarter).
Pass-No Pass (P-NP) course.
Nursing skills practice in a campus laboratory setting.

NURS 153 Nursing Laboratory Skills for Pediatric and Perinatal Patients 1 Unit
Corequisite: NURS 153 students must also enroll in NURS 83L or NURS 83AL.
Three hours laboratory (36 hours total per quarter).
Pass-No Pass (P-NP) course.
Nursing skills practice in a campus laboratory setting.

NURS 154 Nursing Laboratory Skills for Care of the Older Adult in an Acute Clinical Setting 1/2 Unit
Corequisite: NURS 154 students must also enroll in NURS 84L.
One and one-half hours laboratory (18 hours total per quarter).
Pass-No Pass (P-NP) course.
Nursing skills practice in a campus laboratory setting.

Nutrition

NUTR 10 Contemporary Nutrition 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Introductory level nutrition. Relationship of nutrients to health and physical fitness.
Physiological, cultural, psychological and economic influences on food choices.
Evaluation of current nutritional issues and controversies.

NUTR 62 Nutrition and Athletic Performance 2 Units
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Two hours lecture (24 hours total per quarter).
Principles of sports nutrition. Diet and nutrition concepts applicable to strength
training, endurance activities and weight control. Use of dietary supplements as
popular ergogenic aids.
Three hours laboratory (36 hours total per quarter).

An examination of the causes of obesity, an evaluation of popular weight control diets and an analysis of effective methods of weight loss.

**Paralegal Program**

**PARA 3** Concepts of Criminal Law (CP 2) 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 3 and POLI 13. Students may enroll in only one department for credit.)

Four hours lecture (48 hours total per quarter).

Historical development, philosophy of law and constitutional provisions; definitions, classification of crime, and their application to the system of administration of justice; legal research, study of case law, methodology, and concepts of law as a social force in a multicultural, multiethnic society.

**PARA 11** Federal Courts and Constitutional Law 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 11 and POLI 11. Students may enroll in only one department for credit.)

Four hours lecture (48 hours total per quarter).

Federal court procedure and the impact of U.S. Constitutional law on federal and state law. Read and analyze the Constitution. Effect of U.S. Supreme Court cases on current constitutional interpretation.

**PARA 25** Law and Social Change 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 25. Students may enroll in either department, but not both, for credit.)

Four hours lecture (48 hours total per quarter).

Exploration of the use of law as an instrument for social change. Examination of the relationship between law and social change in cross-cultural settings. Analysis of legislation, case law, the process of conflict resolution and legal institutions as they relate to social change.

**PARA 40** Youth and the Law 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 54 and SOC 64. Students may enroll in only one department for credit.)

Four hours lecture (48 hours total per quarter).

A legal and sociological approach to understanding the causes of juvenile delinquency; an examination of race, culture, and gender in juvenile delinquency; community responses to delinquency; organization, functions, and jurisdiction of both social and legal agencies; processing and detention; case disposition; statutes and court procedures.

**PARA 64** Paralegal Internship 1 Unit

PARA 64X 2 Units

PARA 64Y 3 Units

PARA 64Z 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Three hours laboratory per unit of supervised internship in an authorized office or agency (96 hours total for each unit of credit per quarter).

Program of work experience and study in law, paralegal, or legal research under the supervision of the instructor and agency personnel.

**PARA 65Z** Current Paralegal Topics 1 Unit

PARA 65X 2 Units

PARA 65Y 3 Units

PARA 65Z 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273;

background or experience appropriate to topic or consent of instructor.

One hour lecture for each unit of credit (12 hours total for each unit of credit per quarter).

Current developments in the substantive law in an area of legal practice; current developments in procedural law in that area of legal practice; current developments in legal forms used in that area of legal practice; role of the paralegal in substantive and procedural law in that area of legal practice.

**PARA 67** Law Office Management for Paralegals 2 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours lecture (24 hours total per quarter).

An examination of the law office environment, its structure and procedural aspects, and the important role the paralegal plays within it.

**PARA 69** Paralegal Field Trips 1 Unit

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Three hours laboratory (36 hours total per quarter).

A survey of current conditions in the paralegal field.

**PARA 74A** Interviewing, Interrogation and Crisis Intervention 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 74A and PSYC 74A. Students may enroll in only one department for credit.)

Four hours lecture (48 hours total per quarter).

Theories, principles and strategies of tactical and interpersonal communication necessary to interview victims, witnesses, and suspects; crisis intervention strategies for victims and witnesses of crime; communication with individuals from diverse backgrounds with consideration to race, ethnicity, gender, age and special needs.

**PARA 75** Principles and Procedures of the Justice System 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 75 and POLI 75. Students may enroll in only one department for credit.)

Four hours lecture (48 hours total per quarter).

Procedures followed by law enforcement and courts in criminal cases; constitutional principles governing those procedures.

**PARA 84** Trial Preparation 4 Units

Prerequisite: PARA 97B.

Advisory: EWRT 1A or EWRT 1AH or ESL 5.

Four hours lecture (48 hours total per quarter).

Role of paralegal in preparing a case for trial including pretrial planning, evidence gathering and case analysis.

**PARA 85** Intellectual Property Law 4 Units

Prerequisite: ADMJ 95 or PARA 95 or POLI 95 (either course may be taken concurrently).

Advisory: EWRT 1A or EWRT 1AH or ESL 5.

Four hours lecture (48 hours total per quarter).

Overview of the law of intellectual property, including trade secrets, trademarks, patents and copyrights and examination of the role of the paralegal in this area.

**PARA 86** Legal Analysis 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Four hours lecture (48 hours total per quarter).

Principles of legal analysis with an emphasis on analysis of case law; detailed examination of written case opinions; methods of interpreting statutory law; development of legal arguments based on case law and statutory law.

**PARA 87** Personal Injury and Tort Litigation 4 Units

Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Four hours lecture (48 hours total per quarter).

Substantive tort law emphasizing concepts applicable to automobile accident cases, product liability cases, premises liability cases and malpractice cases; insurance law affecting personal injury litigation; basic medical terminology in personal injury litigation; procedural rules and practices related to personal injury litigation in California with an emphasis on the role of the paralegal.

**PARA 88** The Paralegal and Professional Responsibility 2 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Two hours lecture (24 hours total per quarter).

An examination of the role of the paralegal in the legal system. Ethical rules and guidelines governing legal professionals will also be examined.

**PARA 89** Landlord Tenant Law 4 Units

Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Four hours lecture (48 hours total per quarter).

California law relating to creation of landlord/tenant relationship; legal rights of landlords; legal rights of tenants; eviction proceedings.

**PARA 90A** Legal Aspects of Evidence (CP 4) 4 Units

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Also listed as ADMJ 90A. Students may enroll in either department, but not both, for credit.)

Four hours lecture (48 hours total per quarter).

The origin, development, and content of the rules of evidence; kinds of degrees of evidence and rules governing admissibility of evidence.

**PARA 91A** California Family Law 4 Units

Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Four hours lecture (48 hours total per quarter).

Substantive and procedural aspects of family law practice in California, with emphasis on dissolution procedures.
PARA 92A Partnerships and Corporations 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PARA 92B Corporate Securities Regulations 4 Units
Prerequisite: PARA 92A or professional experience appropriate to the topic.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

PARA 93 Bankruptcy Law 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PARA 94 Introduction to California Law 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

PARA 95 Overview of American Law 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as ADMJ 95 and POLI 95. Students may enroll in only one department for credit.)

PHIL 1 Introduction to Philosophy 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

PHIL 2 Social and Political Philosophy 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

PHIL 3 Critical Thinking and Writing 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: PHIL 1 or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).

PARA 96A Introduction to Legal Research and Writing 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or PARA 96 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PARA 96B Advanced Legal Research and Writing 4 Units
Advisory: PARA 96A.
Prerequisite: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

PARA 96C Computer Assisted Legal Research and Investigation 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or PARA 96A (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

PARA 97A Civil Litigation Procedures 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PARA 97B Advanced Civil Litigation Procedures 4 Units
Prerequisite: PARA 97A or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PARA 98 Drafting Wills and Trusts 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

PARA 98 Drafting Wills and Trusts 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

PARA 99 California Probate Law and Procedures 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PHIL 4 Critical Thinking 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).

PERS 1 Elementary Persian (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: PERS 2 (equivalent to two years of high school Persian) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

PERS 2 Elementary Persian (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: PERS 1 (equivalent to one year of high school Persian) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

PERS 3 Elementary Persian (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: PERS 2 (equivalent to two years of high school Persian) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

PERS 91 Elementary Persian (Fourth Quarter) 5 Units
Prerequisite: PERS 3 (equivalent to one year of high school Persian) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).

PERS 92A Drafting Wills and Trusts 4 Units
(See general education pages for the requirement this course meets.)
Prerequisite: PERS 91 (equivalent to one year of high school Persian) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

PERS 99 Drafting Wills and Trusts 4 Units
Prerequisite: PARA 94 (may be taken concurrently) or PARA 95 (may be taken concurrently) or professional experience appropriate to the topic.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
PHIL 7 Deductive Logic 4 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in PHIL 7H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
A study of the concepts and methods of deductive logic, developing and using logical symbols, formal proof techniques, and focusing on sentential and predicate logic.

PHIL 7H Deductive Logic - HONORS 4 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in PHIL 7.)  
(Admission into this course requires consent of the Honors Program Coordinator.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
A study of the concepts and methods of deductive logic, developing and using logical symbols, formal proof techniques, and focusing on sentential and predicate logic. As an honors course, students will be expected to complete additional assignments in order to gain further proficiency in formal logical methods.

PHIL 8 Ethics 4 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in PHIL 8H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An introduction to the major philosophers of the Western tradition from 1900 to the present with an emphasis on major philosophers and movements that examine problems of knowledge, reality, truth, value, and human existence, as well as their applications to the sciences and other fields, such as cultural studies.

PHIL 9 Asian Philosophy 4 Units  
(See general education pages for the requirement this course meets.)  
(Not open to students with credit in PHIL 9H.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An introduction to the major themes and figures of Asian philosophical traditions, emphasizing those found in China, India and Japan. Studies may include Confucianism, Mohism, Yangism, Taoism, the Upanishads, Vedanta, Jaina, Buddhism, Zen and Shinto. Classical thought will be primarily emphasized, though some attention will be given to contemporary thinkers.

PHIL 11 History of Western Philosophy - Ancient Greece 4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
Examination of the problems of knowledge, reality, truth, value, agency, morality, and wisdom in Greek philosophy from Thales to Aristotle. Emphasis will be given to topics such as moral reflection, moral reasoning, moral decision making, and action.

PHIL 20 History of Western Philosophy - 1400-1800 4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An introduction to the major philosophers of the Western tradition from the Renaissance through the early modern period. Examination of the problems of knowledge, reality, truth, freedom, agency, morality and value theory in figures from Descartes to Kant, including marginalized figures and groups, such as Elizabeth of Bohemia.

PHIL 20C History of Western Philosophy - 800-the Present 4 Units  
(See general education pages for the requirement this course meets.)  
Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An introduction to the major philosophers of the Western tradition from 1900 to the present with an emphasis on major philosophers and movements that examine problems of knowledge, reality, truth, value, and human existence, as well as their applications to the sciences and other fields, such as cultural studies.

PHIL 24 Philosophy of Religion 4 Units  
(See general education pages for the requirement this course meets.)  
(Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
Two hour lecture to Philosophy of Religion investigating religious experience, belief and life under the scope of philosophy. Analyzes issues including: the cognitive component in religious experience, religion and feminism, religious fundamentalism, arguments for and against theism, and attitudes toward both philosophy and religion in a variety of cultural contexts.

PHIL 30 Introduction to Existentialism 4 Units  
(See general education pages for the requirement this course meets.)  
(Advisory: EWRT 1A or EWRT 1AH or ESL 5.  
Four hours lecture (48 hours total per quarter).  
An examination of central figures, texts, and ideas within existential philosophy. Emphasis will be given to the fundamental ontological assumption held by all existentialists, namely existentialists’ rejection of rationalism and the idea that a metaphysical system can (or should) describe the world as containing determinate essences that confer univocal conceptual identities upon things, situations, and actions.

PHIL 49 Women and Philosophy 4 Units  
(See general education pages for the requirement this course meets.)  
(Also listed as WMST 49. Students may enroll in either department, but not both, for credit.)  
Four hours lecture (48 hours total per quarter).  
An introduction to historical, philosophical, and feminist thought and the philosophy produced by a diverse range of women in philosophy. Investigation of the ways that understandings of the relations between the sexes have influenced the work of philosophers from different cultures.

PHIL 77 Special Projects in Philosophy 1 Unit  
PHIL 77X 2 Units  
PHIL 77Y 3 Units  
(See general education pages for the requirement this course meets.)  
(Admission into this course requires consent of the Honors Program Coordinator.)  
This course is included in the Philosophy - Professional Practices Family of courses. (Not open to students with credit in PHIL 7H.)  
This course is included in the Philosophy - Professional Practices Family of courses. (Not open to students with credit in PHIL 7H.)  
This course is included in the Philosophy - Professional Practices Family of courses. (Not open to students with credit in PHIL 7H.)

PHIL 77Y Prerequisite: Consent of instructor and division dean.  
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).  
Specific reading, writing or study projects within the discipline of Philosophy.

Photography

PHTG 1 Basic Photography 3 Units  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.  
Two hours lecture, three hours laboratory (60 hours total per quarter).  
Introduction to black and white photography. Overview of the 35mm single lens reflex camera and darkroom development of black and white negatives, printing and finishing. Development of critical thinking skills to analyze historical, cultural, conceptual and practical aspects of a medium used worldwide. Preparatory for further work in photography including digital imaging.

PHTG 2 Intermediate Photography 3 Units  
Prerequisite: PHTG 1.  
Two hours lecture, three hours laboratory (60 hours total per quarter).  
This course is included in the Analog Photography Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)  
Intermediate black and white photography. Overview of the medium format camera and its use of the 35mm camera. Demonstration of basic 4x5 camera principles. Introduction to studio portraiture and basic studio practices. Continued development of critical thinking skills to analyze historical, cultural, conceptual and practical aspects of a medium used worldwide. Preparatory for further work in photography including digital imaging.

PHTG 3 Advanced Photography 3 Units  
Prerequisite: PHTG 2 or PHTG 5.  
Two hours lecture, three hours laboratory (60 hours total per quarter).  
(Also listed as WMST 49. Students may enroll in either department, but not both, for credit.)  
Advanced photography for film and/or digital practice. Capture, process, and print technically and well-conceived images. Organize and assemble a strong group of images that are conceptually strong and exhibit a strong personal vision. Refine development of critical thinking skills to analyze historical, cultural, conceptual, and practical aspects of the photographic medium.

PHTG 4 Introduction to Digital Photography 3 Units  
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.  
Two hours lecture, three hours laboratory (60 hours total per quarter).  
An introduction to digital photography and digital imaging processes. Gain proficiency in the use of the digital camera and explore the digital darkroom using Adobe Lightroom. Develop skills in digital print output for both fine art and commercial applications. Gain knowledge of issues in contemporary photography and develop an ability to analyze and discuss photographic imagery. Basic, beginning photography and wet darkroom experience recommended.
PHTG 5  Intermediate Digital Photography  3 Units
Prerequisite: PHTG 4
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263.
Two hours lecture, three hours laboratory (60 hours total per quarter).
(This course is included in the Digital Photography Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Further study of digital photography and digital imaging processes. Gain greater control over the quality of your digital images through shooting RAW, organization and development through Lightroom, and/or image editing with Photoshop. Create a workflow for producing high quality prints. Discuss and analyze current trends in photography.

PHTG 7  Exploring Visual Expression  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
Exploring visual expression through the photographic medium. Understanding of basic principles of perception, light, color, composition and visual awareness. Development of critical thinking skills to express aesthetic, intellectual and emotional concerns. Basic overview of the history of the medium. Instruction on the use of cameras, lenses, and other creative controls of photography.

PHTG 21  Contemporary Trends in Photography  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A comprehensive introduction to contemporary trends, styles and applications of photography starting in 1925. An examination of photography’s broad impact as a cultural, visual and social force including the diversity of 20th and 21st century photographic movements.

PHTG 52  Photography Production Laboratory  2 Units
Prerequisite: PHTG 1 and PHTG 4 (may be taken concurrently).
Six hours laboratory (72 hours total per quarter).
(This course is included in the Photography - Professional Practices Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Supervised use of photographic studio, darkrooms and/or photographic computer lab space.

PHTG 54  Experimental Photography  3 Units
Prerequisite: PHTG 1 (may be taken concurrently).
Two hours lecture, three hours laboratory (60 hours total per quarter).
(This course is included in the Analog Photography Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Introduction to experimental and nontraditional photographic processes through the use of analog and digital photography. View both historical and contemporary approaches to camera and darkroom use in the creation of photographic imagery. Make enlarged negatives, create cyanotype and VanDyke brown prints, tone and Handcolor images, and use digital imaging to emulate these and other traditional processes. Produce an engaging and expressive collection of images.

PHTG 57A  Commercial Lighting I  3 Units
Prerequisite: PHTG 1 or PHTG 4.
Two hours lecture, three hours laboratory (60 hours total per quarter).
(This course is included in the Photography - Professional Practices Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Basic lighting skills. Provide an understanding of the use of artificial light sources and associated equipment in a studio environment. Learn controls of lighting ratios, contrast, texture and form, reflection, and exposure. Produce photographic images relevant to the techniques and production methods covered.

PHTG 57B  Commercial Lighting II  3 Units
Prerequisite: PHTG 57A.
Two hours lecture, three hours laboratory (60 hours total per quarter).
(This course is included in the Photography - Professional Practices Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Intermediate/advanced lighting skills. Learn complex lighting for reflective surfaces, commercial portraits, and exterior and interior architectural shooting. Produce photographic images relevant to the techniques and production methods covered. Gain an understanding of commercial studio organization and operation.

PHTG 58A  Photographic Photoshop I  3 Units
Advisory: EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, three hours laboratory (60 hours total per quarter).
(This course is included in the Digital Photography Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Introduction to digital imaging using the application Photoshop. Overview of Macintosh operating system. Basic understanding of image capture, input, output, and output. Use of specifically photographic methods and controls to create and manage imagery in an all digital environment. The development of critical thinking skills to analyze diverse cultural, intellectual, philosophical, ethical and aesthetic concerns of the photographic medium as a part of new technologies.

PHTG 58B  Photographic Photoshop II  3 Units
Advisory: PHTG 58A; EWRT 200 and READ 200 (or LART 200), or ESL 261, 262 and 263; MATH 210 or equivalent.
Two hours lecture, three hours laboratory (60 hours total per quarter).
(This course is included in the Digital Photography Family of activity courses. Please see Course Repetition, Repeatability and Families page for more information.)
Refinement of digital imaging skills using the application Photoshop. Learn channel mixing, advanced layering, and masking techniques. Understanding of color management, optimization of the toolbox and an introduction to large format printing. Use of specifically photographic methods and controls to create and manage imagery in an all digital environment. Development of critical thinking skills to analyze diverse cultural, intellectual, philosophical, ethical and aesthetic concerns of the digital photograph.

PHTG 60  Using a Digital Camera  2 Units
Requisite/Advisory: None.
One hour lecture, three hours laboratory (48 hours total per quarter).
An online introduction to the fundamentals of digital photography; basic camera types, controls, image formats, storage, and creative controls will be covered. Technical and compositional exercises will provide a solid understanding of the photographic medium.

Physical Education

See the Kinesiology (KINES) listings for additional Physical Education courses.

See the Massage Therapy (MASG) listings for courses formerly listed in the Physical Education department.

All intercollegiate athletics and related techniques courses remain in the Physical Education (PE) department.

Repeatability restrictions: Learn more about Active Participatory Course
Limitations and Course Families at deanza.edu/apply-and-register/register/ repeat_limits

P E 4XX  High-Intensity Strength Development  1 Unit
for Athletes
Prerequisite: Enrollment in intercollegiate athletics.
Three hours laboratory (36 hours total per quarter).
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
Designed for intercollegiate athletic teams. Specificity of rigorous total body strength development is emphasized. A single set, high intensity, three days per week program is utilized. The course is based upon the principles of high-intensity lifting to gain maximum strength throughout the various muscle systems. Concentric and eccentric failure of the muscles is emphasized using free weights and Hammer Strength apparatus.

P E 32B  Women's Badminton Techniques  2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive badminton experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Six hours laboratory (72 hours total per quarter).
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
An introduction to the discipline of physical education through the sport of badminton. Emphasis will be developing the mental, physical, and tactical aspects of badminton play necessary to compete at the tournament and competitive level. Includes a global examination of the sport, rules, equipment, facilities, and etiquette. Basic physiology, nutrition, flexibility, strength and endurance techniques relative to badminton will be discussed.

P E 32F  Defensive Baseball Techniques  2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive baseball experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Six hours laboratory (72 hours total per quarter).
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
An introduction to the discipline of physical education through defensive baseball techniques. Includes a global and historical examination of the skills and techniques of advanced defensive baseball, team interaction, and baseball theory. Through the study of film and use of playbooks the student will learn the various segments of defensive play. Exercise physiology, nutrition, flexibility and strength concepts for conditioning will be covered.

P E 32G  Offensive Baseball Techniques  2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive baseball experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
Six hours laboratory (72 hours total per quarter).

An introduction to the discipline of physical education through offensive baseball techniques. Includes a global and historical examination of the skills and techniques of advanced offensive baseball and the changes that have influenced the modern game. Includes rules, equipment, facilities, and fundamentals of advanced offensive baseball. Students will apply basic exercise physiology, nutrition, flexibility and strength concepts to improve their overall playing level. Skills and techniques of advanced volleyball play. Analysis of movement, team interaction, and volleyball theory.

P E 32NX Offensive Football Techniques 1 Unit
P E 32NH 2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive football experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 32NX and 32NH may be taken up to six times for credit.)
Three hours laboratory for the one unit course (36 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter).

An introduction to the discipline of Physical Education through offensive football techniques. Includes a global and historical examination of the skills and techniques of advanced offensive football and the changes that have influenced the modern game. Through the study of film and use of playbooks the student will learn the various segments of offensive play. Exercise physiology, nutrition, flexibility and strength concepts for conditioning will be covered.

P E 32IX 1 Unit
P E 32I 2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive football experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 32IX and 32I may be taken up to six times for credit.)
Three hours laboratory for the one unit course (36 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter).

An introduction to the discipline of Physical Education through defensive football techniques. Includes a global and historical examination of the skills and techniques of advanced defensive football and the changes that have influenced the modern game. Through the study of film, use of playbooks and teamwork the student will learn the various segments of defensive play. Exercise physiology, nutrition, flexibility and strength concepts for conditioning will be covered.

P E 32JX 1 Unit
P E 32J 2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive water polo experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 32JX and 32J may be taken up to six times for credit.)
Three hours laboratory for the one unit course (36 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of water polo. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Through the intercollegiate competitive experience students will improve their individual water polo skills, increase their ability to employ advanced offensive techniques and increase their knowledge of exercise physiology, exercise nutrition, kinesiological concepts, Competitive water polo experience preferred at the high school, club or collegiate levels.

P E 32K 2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive basketball experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
Six hours laboratory (72 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of basketball. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Skills and techniques of advanced basketball play. Includes analysis of basketball movement, team interaction and basketball theory. Students will gain an understanding of exercise physiology, nutrition, development of muscular strength and endurance and flexibility will be enhanced.

P E 32LX 1 Unit
P E 32L 2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive volleyball experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 32LX and 32L may be taken up to six times for credit.)
P E 32T  Tennis Techniques  2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive tennis experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
Six hours laboratory (72 hours total per quarter).
An introduction to the discipline of physical education through the study of tennis. Includes a brief historical examination of how the game of tennis has changed due to the influence of individual men, women, and children, of various countries, and their styles of play or strategies. Development of consistency, accuracy and ground strokes, serve, volley, footwork, lob and overhead skills within a competitive situation will be emphasized. Introducing elements of changing the dynamics of the game with spins and drop shots or by approaching the net; advanced singles and doubles strategies. Students will review and apply basic exercise physiology, nutrition, flexibility, and strength concepts to improve their physical condition in order to play tennis at a competitive level.

P E 32W  Softball Techniques  2 Units
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive softball experience at the high school, club or collegiate levels and consent of instructor.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. May be taken up to six times for credit.)
Six hours laboratory (72 hours total per quarter).
An introduction to the discipline of Physical Education through softball techniques. Includes a brief historical examination of how the game of softball has changed due to the influence of individual men, women, and children, of various countries, and their styles of play or strategies. Development of consistency, accuracy and ground strokes, serve, volley, footwork, lob and overhead skills within a competitive situation will be emphasized. Introducing elements of changing the dynamics of advanced softball and the changes that have influenced the modern game. Includes analysis of movement, team interaction, and softball theory. Through team practice and scrimmages the student will learn the various segments of offensive and defensive play. Exercise physiology, nutrition, flexibility and strength concepts for conditioning will be covered.

P E 38WY  Intercollegiate Women's Badminton  1 1/2 Units
P E 38W  2 Units
P E 38WY  3 Units
(P E 38W was formerly P E 98A.)
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive experience in badminton, physician's clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association). Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 38W, 38WY and 38W may be taken up to six times for credit.)
Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).
An introduction to the discipline of Physical Education through the sport of badminton. Includes a global examination of the sport, rules, equipment, facilities and etiquette. Emphasis placed on the four major pillars of the game: mental, physical, tactical and technical aspects necessary to successfully compete in matches. Discussion of the rules of the game, equipment technology and fair play will be incorporated into the course. Basic exercise physiology, nutrition, flexibility, muscular strength and endurance techniques relative to badminton will be discussed.

P E 39WY  Intercollegiate Men's Soccer  1 1/2 Units
P E 39W  2 Units
P E 39WY  3 Units
(P E 39W was formerly P E 98C.)
(See general education pages for the requirement this course meets.)
Prerequisite: Competitive experience in men's soccer, physician's clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association). Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 39WX, 39WY and 39W may be taken up to six times for credit.)
Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).
An introduction to the discipline of Physical Education through the sport of soccer. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Emphasis is placed upon the four major pillars of the game: mental, physical, tactical and technical aspects necessary to successfully compete in intercollegiate athletics. The laws of the game, De Anza College code of ethics, and intercollegiate rules will be discussed. Exercise physiology, nutrition, flexibility, muscular strength and endurance techniques relative to soccer at the collegiate level will be discussed.
An introduction to the discipline of Physical Education through the sport of volleyball. Includes a global and historical examination of the sport, rules, equipment, facilities, etiquette, and safety. Emphasis placed on the four major pillars of the game: mental, physical, tactical and technical aspects necessary to successfully compete in games. Discussion of the rules of the game, equipment technology and fair play will be incorporated into the course. Basic exercise physiology, nutrition, flexibility, muscular strength and endurance techniques relative to volleyball will be discussed.

P E 43X  Intercollegiate Cross Country  1 1/2 Units  
(Men and Women)

P E 43Y  2 Units  
P E 43  3 Units  

(P E 43Y was formerly P E 98L.)

(See general education pages for the requirement this course meets.)

Prerequisite: Competitive experience in cross country; physician's clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 43X, 43Y and 43 may be taken up to six times for credit.)

Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).

An introduction to the discipline of physical education through the competitive sport of baseball. Includes a global and historical examination of the skills of competitive baseball and the changes that have influenced the modern game. Includes analysis of offensive and defensive play, team interaction, and baseball theory. Includes a global and historical examination of the sports aspects necessary to successfully compete in games. Discussion of the rules of the game, equipment technology and fair play will be incorporated into the course. Basic exercise physiology, nutrition, flexibility, muscular strength and endurance techniques relative to baseball will be discussed.

P E 44MX  Intercollegiate Men's Basketball  1 1/2 Units  
P E 44MY  2 Units  
P E 44M  3 Units  

(P E 44MX was formerly P E 98H.)

(See general education pages for the requirement this course meets.)

Prerequisite: Competitive experience in men’s basketball; physician’s clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 44MX, 44MY and 44M may be taken up to six times for credit.)

Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of basketball. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Emphasis is placed on the four major pillars of the game: mental, physical, tactical and technical aspects necessary to successfully compete in games. Discussion of the rules of the game, equipment technology and fair play will be incorporated into the course. Basic exercise physiology, nutrition, flexibility, muscular strength and endurance techniques relative to basketball will be discussed.

P E 44WX  Intercollegiate Women's Basketball  1 1/2 Units  
P E 44WY  2 Units  
P E 44W  3 Units  

(P E 44WX was formerly P E 98L.)

(See general education pages for the requirement this course meets.)

Prerequisite: Competitive experience in women’s basketball; physician’s clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 44WX, 44WY and 44W may be taken up to six times for credit.)

Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of track and field. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Through the intercollegiate competitive experience students will improve their individual swimming and diving skills, increase their ability to employ advanced training and increase their knowledge of exercise physiology, exercise nutrition, kinesiological concepts underlying the development of force, power and biomechanics.

P E 45X  Intercollegiate Swimming and Diving  1 1/2 Units  
(Men and Women)

P E 45Y  2 Units  
P E 45  3 Units  

(P E 45Y was formerly P E 98K.)

(See general education pages for the requirement this course meets.)

Prerequisite: Competitive experience in swimming and diving, physician’s clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 45X, 45Y and 45 may be taken up to six times for credit.)

Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of track and field. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Through the intercollegiate competitive experience students will improve their individual swimming and diving skills, increase their ability to employ advanced training and increase their knowledge of exercise physiology, exercise nutrition, kinesiological concepts underlying the development of force, power and biomechanics.

P E 46X  Intercollegiate Track and Field  1 1/2 Units  
(Men and Women)

P E 46Y  2 Units  
P E 46  3 Units  

(See general education pages for the requirement this course meets.)

Prerequisite: Competitive experience in track and field; physician’s clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 46X, 46Y and 46 may be taken up to six times for credit.)

Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of basketball. Includes a global and historical examination of the sport, rules, equipment, facilities, and etiquette. Through the intercollegiate competitive experience students will improve their individual swimming and diving skills, increase their ability to employ advanced training and increase their knowledge of exercise physiology, exercise nutrition, kinesiological concepts underlying the development of force, power and body awareness.

P E 47MX  Intercollegiate Baseball  1 1/2 Units  
P E 47MY  2 Units  
P E 47M  3 Units  

(P E 47MX was formerly P E 98M.)

(See general education pages for the requirement this course meets.)

Prerequisite: Competitive experience in baseball; physician’s clearance and completion of eligibility forms; all second year athletes must fulfill academic requirements per the CCCAA (California Community College Athletics Association).

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

(Satisfies the requirement of an intercollegiate athletics course. Any combination of P E 47MX, 47MY and 47M may be taken up to six times for credit.)

Four and one-half hours laboratory for the one and one-half unit course (54 hours total per quarter); six hours laboratory for the two unit course (72 hours total per quarter); nine hours laboratory for the three unit course (108 hours total per quarter).

An introduction to the discipline of Physical Education through the sport of basketball. Includes a global and historical examination of the skills of competitive baseball and the changes that have influenced the modern game. Includes analysis of offensive and defensive play, team interaction, and baseball theory. Through the intercollegiate competitive experience, student/athletes will improve their individual skills, increase their ability to employ advanced strategies and increase their knowledge of exercise physiology, exercise nutrition, kinesiological concepts underlying the development of force, power and body awareness.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.

All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.
PEA 15Y  1 1/2 Units
A multifaceted course for students with disabilities seeking outdoor experiential education. Includes diverse experiences involving accessible activities including hiking, kayaking, white water rafting, camping, sailing, etc. Using adapted methodologies and wilderness safety, disabled students will experience survival techniques and investigate flora and fauna. Students with disabilities will experience personal fulfillment from being in an outdoor environment. Mental and physical strength will be tested. Adapted skills will be utilized.

PEA 15 Adapted Aerobic Swimming 1/2 Unit
PEA 15X  1 Unit
PEA 15Y  1 1/2 Units
PEA 15Z  2 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
(Repeatable as needed to meet the Student Educational Contract (Title 5, section 56029).)
Adapted to provide reasonable accommodations for students with verified physical disabilities, this course is an introduction to the discipline of Physical Education through aerobic swimming in the context of an individuals physical, intellectual, and/or affective abilities and limitations. Includes rules, equipment, etiquette, safety, nutrition, and techniques related to aerobic swimming has changed due to the influence of individual cultures, and medical research. Students will review and apply basic exercise physiology and aerobic swimming concepts in the context of their own abilities and limitations to develop, maintain, or improve their aerobic swimming technique and endurance.

Physics

PHYS 2A General Introductory Physics 5 Units
(See general education pages for the requirement this course meets.)
Advisory: MATH 1A or MATH 1AH (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; PHYS 50.
Four hours lecture, three hours laboratory (84 hours total per quarter).
An elementary study of the basic physical laws describing the motion of bodies. Includes the study of oscillations, waves, and sound. Applications to everyday physical phenomena in problem solving using verbal logic, critical thinking, and mathematical models. In the laboratory, explore experimental scientific procedures by comparing theoretical models to classic experiments using standard measurement techniques, basic uncertainty analysis, and graphical interpretations of data.

PHYS 2B General Introductory Physics 5 Units
Advisory: PHYS 2A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture, three hours laboratory (84 hours total per quarter).
The laws of mechanics applied to those of electricity and magnetism. An introduction to the physical properties of that fundamental quantity called charge. Includes the study of DC and AC circuits and their elementary applications. Concludes with electromagnetic waves. In the laboratory, learn to construct elementary circuits, measure and analyze their properties with electronic equipment including the oscilloscope, and study the behavior of moving charge in magnetic fields.

PHYS 2C General Introductory Physics 5 Units
Advisory: PHYS 2B.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture, three hours laboratory (84 hours total per quarter).
Study fluids, optics, thermodynamics, and modern physics. In the laboratory, continue to deepen an understanding of scientific procedure by applying theoretical models to classic experiments.

PHYS 4A Physics for Scientists and Engineers: Mechanics 6 Units
(See general education pages for the requirement this course meets.)
Advisory: PHYS 50 with a grade of C or better, or the equivalent (including high school Physics); MATH 1B or MATH 1BH (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture, three hours laboratory (96 hours total per quarter).
A rigorous introduction to the physical laws that describe and explain the motion of bodies. This course requires problem solving using verbal logic, critical analysis, and mathematical models. Students investigate general scientific procedures as a quantitative interplay between experimentation and theory employing statistical methods, graphical techniques, and measurement theory.

PHYS 4B Physics for Scientists and Engineers: Electricity and Magnetism 6 Units
Advisory: PHYS 4A, MATH 1C or MATH 1CH (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture, three hours laboratory (96 hours total per quarter).
An introduction to classical electromagnetism. Includes DC and AC circuits and elementary field theory.

PHYS 4C Physics for Scientists and Engineers: Fluids, Waves, Optics and Thermodynamics 6 Units
Advisory: PHYS 4B; MATH 1D or MATH 1DH (may be taken concurrently).
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture, three hours laboratory (96 hours total per quarter).
Introductory studies in static and dynamic fluids, mechanical and non-mechanical waves, geometrical and physical optics, heat and the laws of thermodynamics.

PHYS 4D Physics for Scientists and Engineers: Modern Physics 6 Units
Advisory: PHYS 4C.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture, three hours laboratory (96 hours total per quarter).
An introduction to special relativity and quantum mechanics. Nuclear physics, elementary particles, and other selected topics are treated as time allows.

PHYS 10 Concepts of Physics 5 Units
(See general education pages for the requirement this course meets.)
Advisory: MATH 114 or equivalent; or a qualifying score on the Intermediate Algebra Placement Test.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
An exploration of the fundamental concepts of physics as applied to everyday phenomena from a limited mathematical perspective emphasizing verbal logic, critical analysis, and rational thought. The history of scientific procedure as an interplay between theory and experimentation will be analyzed. Students will critically evaluate the role of scientific discovery in the success and development of technology.

PHYS 50 Preparatory Physics 4 Units
Advisory: MATH 43 (or MATH 43H) and PHYS 10.
Four hours lecture (48 hours total per quarter).
A study in basic problem solving techniques in mechanics as a preparation for PHYS 4A.

PHYS 77 Special Projects in Physics 1 Unit
PHYS 77X  2 Units
PHYS 77Y  3 Units
(Not open to students with credit in PHYS 4A.)
Advisory: Consent of instructor and division dean.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter).
Pass-No Pass (P-NP) course.
Individual special reading, writing, or study projects in Physics as determined in consultation with the instructor.

Political Science

POLI 1 American Government and Politics 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in POLI 1.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).
Critical examination of the contemporary and historical struggle for the development of democratic political institutions in the United States at the state, local, and national levels. Particular emphasis given to the conflict between disparate socioeconomic groups in the conduct of U.S. political life (e.g., traditional elites versus the historically (and currently) disenfranchised—women, people of color, workers, immigrants, etc.) and the interrelationship among social equity, democracy and sustainable environmental conditions.

POLI 1H American Government and Politics - HONORS 5 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in POLI 1.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture (60 hours total per quarter).
Critical examination of the contemporary and historical struggle for the development of democratic political institutions in the United States at the state, local, and national levels. Particular emphasis given to the conflict between disparate socioeconomic groups in the conduct of U.S. political life (e.g. traditional elites versus the historically (and currently) disenfranchised-- women, people of color, workers, immigrants, etc.) and the interrelationship among social/equity, democracy and sustainable environmental conditions. As an honors course, the students will be expected to complete extra assignments to gain a deeper insight in American Government and Politics.

2019-2020 DE ANZA COLLEGE CATALOG 219
POLI 2  Comparative Politics  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Comparative analysis of different kinds of political systems, including their history, political institutions, society, culture, economy, processes and policies, the environmental conditions in which they operate, and their consequences.

POLI 3  International Relations  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Critical examination of the basic elements of contemporary international relations: scope, terminology, methodology, sovereignty, nationalism, national policies, globalization, power, international and regional political systems. The course will also discuss non-governmental organizations and issues such as human rights and the environment.

POLI 5  Introduction to Political Thought and Theory  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey in the field of political theory including how to interpret, discuss, critique, debate and write about classical and contemporary political thought and theory. Both classic or traditional approaches as well as more current and contemporary paradigms specific to constituent groups traditionally excluded will be examined. Through this course of study, students will learn to think and discuss critically, about both classic and modern issues in politics (e.g., individual versus community rights, freedom, equality and distributional justice, environmental sustainability and generational equity, the “rights” of nature and non-human life, power, sovereignty and the state, etc.).

POLI 10  Introduction to Administration of Justice  4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as ADMJ 1. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An introduction to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, response to crime, components of the system and current challenges to the system. Examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principles and approaches. Although justice structure and process is examined in a cross-cultural context, an emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies.

POLI 11  Federal Courts and Constitutional Law  4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as ADM 11 and PARA 11. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Federal court procedure and the impact of U.S. Constitutional law on federal and state law. Read and apply the Constitution. Effect of U.S. Supreme Court cases on current constitutional interpretation.

POLI 13  Concepts of Criminal Law (CP 2)  4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as ADMJ 3 and PARA 3. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Historical development, philosophy of law and constitutional provisions; definitions, classification of crime, and their application to the system of administration of justice; legal research, study of case law, methodology, and concepts of law as a social force in a multicultural, multiethnic society.

POLI 15  Grassroots Democracy: Race, Politics and the American Promise  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 25. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical learning for students of social justice, this course will examine race, culture and contradictions in the ideal of the American Dream through a comparative analysis of American experiences of migration. Particular emphasis will be on the historical experiences of European immigrants, African Americans, Mexican Americans, and Asian Americans. The course will also discuss the contemporary social and cultural implications of the migration process. Using a multidisciplinary social science approach, attention will be given to issues of race, ethnicity, gender, class, and ecology as well as the role of the state (policy) to the process of migration and immigration.

POLI 16  Grassroots Democracy: Social Movements Since the 1960s  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 36. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical learning for students of social justice, this course is a comparative survey of protest movements since the 1960s. An introductory, comprehensive interdisciplinary study of Mexican American, African American, Asian American, and white working class social and political struggles from 1960 to the present. The course traces the development of protest movements in response to racial, class, gender, ecological and political inequality in the context of U.S. politics and society. The course critically examines the internal and external factors contributing to the rise and fall of social and political movements with special attention to the conjuncture of ecology, gender, race, ethnicity, culture, class, and sexual orientation in contemporary U.S. politics.

POLI 17  Grassroots Democracy: Leadership and Power  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in ICS 27 or ICS 27H or POLI 17H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 27. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical training for students of social justice, this course is a multidisciplinary exploration of social change and popular democratic action with a focus on the meaning and development of political power in modern democracies. Topics to be explored include: gender and race sensitive approaches to leadership style, institutional and mass fora of civic engagement, mass recruitment and mobilization, consciousness development, democratic ethics, and strategic and tactical action.

POLI 17H  Grassroots Democracy: Leadership and Power - HONORS  4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in POLI 17 or ICS 27 or ICS 27H.)
(Admission into this course requires consent of the Honors Program Coordinator.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ICS 27H. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Applied and theoretical training for students of social justice, this course is a multidisciplinary exploration of social change and popular democratic action with a focus on the meaning and development of political power in modern democracies. Topics to be explored include: gender and race sensitive approaches to leadership style, institutional and mass fora of civic engagement, mass recruitment and mobilization, consciousness development, democratic ethics, and strategic and tactical action. As an honors course the students will be expected to complete extra assignments to gain deeper insight into the issues raised in this class.

POLI 60A  Introduction to Community Organizing  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as SOSC 60A. Students may enroll in either course, but not both, or credit.)
Four hours lecture (48 hours total per quarter).
Community organizing efforts by people working together to improve their campuses, neighborhoods, and cities is the focus of this course. The course prepares students at an introductory level to become professional organizers, campus leaders, and effective citizen advocates. The introductory history, theory, and different approaches to grassroots community organizing sometimes using selected case studies as illustration will be explored. Ideas from the current context for organizing, the impact of social change theories, organizing strategies, tools and new methodologies used in community organizing will be analyzed and then applied. (Off campus field trips may be required.)

POLI 60B  Intermediate to Community Organizing  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; POLI 60A or SOSC 60A.
(Also listed as SOSC 60B. Students may enroll in either course, but not both, or credit.)
Four hours lecture (48 hours total per quarter).
Community organizing efforts by people working together to improve their campuses, neighborhoods, and cities is the focus of this course. The course prepares students at an intermediate level to become professional organizers, campus leaders, and effective citizen advocates. The history, theory, and different approaches to grassroots community organizing, sometimes using selected case studies as illustration, will be explored at an intermediate level. Ideas from the current context for organizing, the impact of social change theories, organizing strategies, tools and new methodologies used in community organizing will be analyzed and then applied. (Off campus field trips may be required.)
POLI 60C Advanced to Community Organizing 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; POLI 60B or SOSC 60B.
(Also listed as SOSC 60C. Students may enroll in either course, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Community organizing efforts by people working together to improve their campuses, neighborhoods, and cities is the focus of this course. The course prepares students at an advanced level to become professional organizers, campus leaders, and effective citizen advocates. The history, theory, and different approaches to grassroots community organizing, sometimes using selected case studies as illustration, will be explored at an advanced level. Ideas from the current context for organizing, the impact of social change theories, organizing strategies, tools and new methodologies used in community organizing will be analyzed and then applied. (Off campus field trips may be required.)

POLI 64 Political Science Internship 1 Unit
POLI 64X 2 Units
POLI 64Y 3 Units
POLI 64Z 4 Units
Advisory: POLI 1.
Three hours laboratory per unit of supervised internship in an authorized office or agency (36 hours total for each unit of credit per quarter).
Program of work experience and study in a political office, government agency, or community organization under the supervision of the instructor and office, agency, or organization personnel.

POLI 75 Principles and Procedures of the Justice System 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as ADMJ 75 and PARA 75. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Procedures followed by law enforcement and courts in criminal cases; constitutional principles governing those procedures.

POLI 95 Overview of American Law 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as ADMJ 95 and PARA 95. Students may enroll in only one department for credit.)
Four hours lecture (48 hours total per quarter).
Overview of the major substantive areas of American law: contracts, constitutional law, corporations, criminal law, family law, property, torts, wills and estates.

Psychology

PSYC 1 General Psychology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Factors influencing human behavior including: biological and neurological processes and structures, evolution, genetics, gender, life span development, consciousness, attention, sensation, perception, learning, memory, cognition, intelligence, motivation, emotion, stress, personality, psychopathology, psychotherapy, social and cultural determinants.

PSYC 2 Experimental Methods in Psychology and Behavioral Science 6 Units
(See general education pages for the requirement this course meets.)
Prerequisite: PSYC 1, and PSYC 15, SOC 15, MATH 10 or MATH 10H.
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Five hours lecture, three hours laboratory (96 hours total per quarter).
Experimental methods in psychology and behavioral science. Basic experimental methods applied to learning, and behavior analysis using scientific methodology.

PSYC 3 Human Experimental Psychology (An Introduction to Cognitive Science) 6 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; PSYC 1.
Five hours lecture, three hours laboratory (96 hours total per quarter).
A survey of human experimental psychology and cognitive science with emphasis on research design, methodology and scientific report writing. Research design and methodology will be illustrated and integrated through a selected review of concepts and research in neurophysiology, sensation, perception and memory.

PSYC 4 Abnormal Psychology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A historical overview of abnormal psychology with emphasis on current paradigms and models in psychopathology and therapy including a survey of research methodology, clinical assessment, classification, and diagnosis with special focus on cultural, gender, and age issues in psychopathology and therapy.

PSYC 5 Introduction to Theories of Personality 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5; PSYC 1.
Four hours lecture (48 hours total per quarter).
Survey of major theories and concepts of personality. Topics to include: Freudian, neo-Freudian, interpersonal, dispositional, behavioral and phenomenological theories.

PSYC 6 Introduction to Humanistic Psychology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of humanistic, existential-phenomenological psychology and Eastern thought. A cross-cultural survey of humanistic personality principles including Western European existential phenomenological psychology and the current and historical impact of Eastern thought.

PSYC 8 Introduction to Social Psychology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The scientific study of the way individuals think, feel and behave in social situations. The systematic approach will include cross-cultural and comparative perspectives.

PSYC 9 Psychology of Human Relationships and Normal Adjustment 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A survey of current theoretical and applied psychological knowledge relevant to personal/social interactions and normal psychological adjustment.

PSYC 10G Child Development (The Early Years) 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as C D 10G. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An introductory course that examines the major physical, psychosocial and cognitive/ language developmental milestones for children, both typical and atypical, from conception through middle childhood. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages.
(See general education pages for the requirement this course meets.)

PSYC 10H Child Growth and Development (Middle Childhood and Adolescence) 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
(Also listed as C D 10H. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
An introductory course that examines the major physical, psychosocial and cognitive/ language developmental milestones for children, both typical and atypical, from school age through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages.
(See general education pages for the requirement this course meets.)

PSYC 12 Psychology of Gender 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as WMST 12. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A survey of the psychobiological, cultural, social and intellectual factors influencing the psychology of gender.

PSYC 14 Developmental Aspects of Psychology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Interaction of the biological, social, cognitive and psychological aspects of human development across the life span.
## Reading

Some courses in the English Department are designed for students with a recommended level of skills and knowledge. De Anza uses a variety of assessment methods – including placement tests, high school transcripts and high school GPA – to place students in the best course sequence for them to succeed. Students who have not been assessed or who are unsure of their placement should contact the Assessment Center. Learn more at deanza.edu/assessment

### READING COURSES

| Course Code | Course Title | Units | Prerequisites | Advisory
|-------------|--------------|-------|--------------|----------|
| READ 70     | Reading Across the Disciplines | 1 Unit | Advisory: EWRT 1A or EWRT 1AH or ESL 5 | One hour lecture (12 hours total per quarter).
|             |              |       |              | Improve comprehension of reading materials in a specific content-area course through the application of reading strategies and critical analysis of reading materials specific to course. This course offered in coordination with specific sections of content area courses. |
| READ 71     | Critical Readings in Social Justice | 1 Unit | Requisite/Advisory: None | One hour lecture (12 hours total per quarter).
|             |              |       |              | Examining collegiate reading materials within social justice issues, with a particular emphasis in an examination of the theories and concepts of social justice. Specified reading strategies to critique, analyze and synthesize complex texts will be used. |
| READ 80     | Advanced Reading for College Success | 4 Units | Advisory: EWRT 1A or EWRT 1AH or ESL 5 | Four hours lecture (48 hours total per quarter).
|             |              |       |              | College-level reading techniques and practice to enhance reading efficiency for academic, career, and personal growth. Application of comprehension, analysis, and interpretation skills to a range of challenging readings, including texts and primary-source materials from various cultural perspectives and across disciplines. |
| READ 200    | Reading Fundamentals | 5 Units | Credit course - Does not apply to De Anza Associate degree | Five hours lecture (60 hours total per quarter).
|             |              |       |              | Pass-No Pass (P-NP) course.
|             |              |       |              | An introduction to everyday benefits of reading. A practice in learning and applying reading methods to appropriate reading material and learning strategies for improving reading comprehension and rate. |
| READ 211    | Developmental Reading | 5 Units | Credit course - Does not apply to De Anza Associate degree | Five hours lecture (60 hours total per quarter).
|             |              |       |              | Pass-No Pass (P-NP) course.
|             |              |       |              | Improve ability to read independently and effectively in work, academic, and personal environments. |

### PSYC COURSES

| Course Code | Course Title | Units | Prerequisites | Advisory
|-------------|--------------|-------|--------------|----------|
| PSYC 15     | Basic Statistics and Research | 4 Units | Methods in Social and Behavioral Sciences | (See general education pages for the requirement this course meets.)
| PSYC 24     | Introduction to Psychobiology | 4 Units | (See general education pages for the requirement this course meets.) | Prerequisite: PSYC 1.
| PSYC 51     | Psychology of Wellness | 4 Units | (See general education pages for the requirement this course meets.) | Advisory: EWRT 1A or EWRT 1AH or ESL 5; PSYC 1.
| PSYC 60     | Industrial Organizational Psychology | 4 Units | Advisory: EWRT 1A or EWRT 1AH or ESL 5 | Four hours lecture (48 hours total per quarter).
| PSYC 63     | Sexual Assault, Police and Community Response | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. | Also listed as ADMJ 62. Students may enroll in either department, but not both, for credit.
| PSYC 64     | Psychology Internship | 1 Unit | | Three hours laboratory per unit of supervised internship in an authorized office or agency (36 hours total for each unit of credit per quarter). |
| PSYC 64X    |              | 2 Units | | Program of work experience and study in Psychology or Human Services under the supervision of the instructor and agency personnel. |
| PSYC 64Y    |              | 3 Units | | |
| PSYC 64Z    |              | 4 Units | | |
| PSYC 67     | Introduction to Clinical Psychology | 4 Units | Advisory: EWRT 1A or EWRT 1AH or ESL 5 | Four hours lecture (48 hours total per quarter).
| PSYC 74A    | Interviewing, Interrogation and Crisis Intervention | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273. | Also listed as ADMJ 74A and PAR 74A. Students may enroll in only one department for credit. |
| PSYC 722    |              | 4 Units | | An overview of diagnosis, assessment and treatment methods. An analysis of the major theoretical formulations in the history of clinical psychology, the substrates of behavior and consciousness and on the neural mechanisms and sensory processes associated with learning, language, perception, motivation, emotion, sleep, speech, and sexual behavior. |
| PSYC 76B    |              | 4 Units | | An introduction to everyday benefits of reading. A practice in learning and applying reading methods to appropriate reading material and learning strategies for improving reading comprehension and rate. |

### REST COURSES

| Course Code | Course Title | Units | Prerequisites | Advisory
|-------------|--------------|-------|--------------|----------|
| REST 50     | Real Estate Principles | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent. | Four hours lecture (48 hours total per quarter).
| REST 51     | Real Estate Practices | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; REST 50. | Four hours lecture (48 hours total per quarter).
| REST 52A    | Legal Aspects of Real Estate | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; REST 50. | Four hours lecture (48 hours total per quarter).
| REST 53     | Real Estate Finance | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; REST 50. | Four hours lecture (48 hours total per quarter).
| REST 56     | Real Estate Investments | 4 Units | Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273; MATH 212 or equivalent; REST 50. | Four hours lecture (48 hours total per quarter).
| REST 61     | Real Estate Investments | 4 Units | | Real estate investments including apartments, commercial, and industrial buildings. |
Russian

RUSS 1 Elementary Russian (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to the language and culture of Russia. Basic speaking, listening, reading and writing of Russian will be introduced and practiced within a cultural framework. Emphasis will be on language as an expression of culture, oral practice and conversation based on understanding of the language structure. Language laboratory practice will be part of the regular instruction to reinforce pronunciation, grammar, syntax and simple conversation.

RUSS 2 Elementary Russian (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: RUSS 1 (equivalent to one year of high school Russian) or equivalent. Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of material presented in RUSS 1. Continuation of introduction to the language and culture of the Russian Federation. Elementary speaking, listening, reading, and writing of Russian will be continued and practiced within a cultural framework. Emphasis will be on language as an expression of culture. Language laboratory practice to reinforce pronunciation, grammar, syntax, and simple conversation.

RUSS 3 Elementary Russian (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: RUSS 2 (equivalent to two years of high school Russian) or equivalent. Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of material presented in RUSS 1 and RUSS 2. Completion of introduction to the language and culture of Russia. Elementary speaking, listening, reading, and writing of Russian will be continued and practiced within a cultural framework. Emphasis will be on language as an expression of culture. Language laboratory practice to reinforce pronunciation, grammar, syntax and conversations.

Sign Language

SIGN 1 Elementary American Sign Language (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Development of and practice in elementary American Sign Language (ASL); preparation for acquiring a visual gestural language; finger spelling; vocabulary; modeling and use of basic grammatical structure. Beginning communication skill with emphasis on comprehension. Basic cultural aspects of deafness; historical and linguistic elements of sign language. Taught primarily in American Sign Language.

SIGN 2 Elementary American Sign Language (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: SIGN 1 or equivalent.
Five hours lecture (60 hours total per quarter).
Continuation of elementary American Sign Language (ASL) skills in targeted language functions: finger spelling; vocabulary; modeling and use of grammatical structure. Focus on greater communicative competence. Study of deaf culture and the development and linguistics of American Sign Language. Taught in American Sign Language.

SIGN 3 Elementary American Sign Language (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: SIGN 2 or equivalent.
Five hours lecture (60 hours total per quarter).
Continuation of elementary American Sign Language (ASL) skills in targeted language functions with focus on greater structural accuracy and communicative competence. Study of deaf culture and the development and linguistics of American Sign Language. Taught in American Sign Language.

Skills

SKIL 232 Adjunct Study Skills 1/2 Unit
Credit course - Does not apply to De Anza Associate degree. Requisite/Advisory: None.
One and one-half hours laboratory (18 hours total per quarter). Pass-No Pass (P-NP) course.
Introductory small group collaborative instruction linked to specific content courses and individualized study skills lab modules. Student must be concurrently enrolled in an approved content course. Students learn to develop, execute, and apply targeted courses skills such as time management, textbook reading, note taking, and test taking.

SKIL 233 Adjunct Study Skills Practice 1/2 Unit
Credit course - Does not apply to De Anza Associate degree. Requisite/Advisory: None.
One and one-half hours laboratory (18 hours total per quarter). Pass-No Pass (P-NP) course.
Additional practice in small group collaborative instruction linked to specific content courses and individualized study skills lab modules. Student must be enrolled in an approved content course. Students advance, practice, and apply to targeted courses skills such as time management, textbook reading, note taking, and test taking.

Social Science

SOCSC 80Y Social Sciences - Historical 1 Unit
Requisite: None.
Three hours laboratory for each unit of credit (36 hours total for each unit of credit per quarter). Practical work with a community, business or civic institution and reflection on that activity, which analyzes that work from a historical perspective.
Sociology

SOC 1 Introduction to Sociology 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
The sociological approach to the study of human behavior from a variety of
perspectives. Explores important concepts in sociology, including culture, social
structure, socialization, social institutions, social interaction, social inequality,
interconnection, collective behavior, and social change in human societies.

SOC 28 Sociology of Gender 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Application of sociological perspectives to an understanding of gender.
Focuses on the social construction of gender and on gender as an organizing principle
of social life. Includes investigation of masculinities, femininities and trans identities,
gender socialization, gender inequality, how gender is shaped by race, class, nation
and sexuality, and the family, media, education, economics, politics and religion as
gendered institutions, from a cross-cultural and global perspective.

SOC 29 Sociology of Structural Racism in the United States 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Sociological investigation into the socio-historical development of race and ethnicity
as analytical categories and organizing principles in the U.S. Emphasis on the impact
of racialized public policies and structural practices on past and contemporary
structures in U.S. society. Analysis of socio-legal effects of the Civil Rights Movement,
public policy and its impact on diverse racial and ethnic populations in the U.S.
Demographic implications of race and ethnic relations on major social institutions
in the United States. Historical and sociological assessment of majority, minority
relations with an emphasis on the experiences of African-Americans, Hispanic/
Latino-Americans, Asian-Americans and the indigenous Native American tribes,
and mixed-race populations. Exploration of intersectional relationships between
categories of labor, race, ethnicity, and gender.

SOC 54 Youth and the Law 4 Units
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
A legal and sociological approach to understanding the causes of juvenile
delinquency; an examination of race, culture, and gender in juvenile delinquency;
community responses to delinquency; organization, functions, and jurisdiction of
both social and legal agencies; processing and detention; case disposition;
statutes and court procedures.

SOC 20 Social Problems 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An exploration of sociological perspectives on contemporary social problems.
The social processes through which issues come to be viewed as social problems
and the dynamics through which groups attempt to respond to and solve these
problems will be examined.
Spanish

**SPAN 1**
**Elementary Spanish (First Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
An introduction to the language and cultures of Spanish-speaking world areas. Speaking, listening, reading and writing language skills at the first level of elementary Spanish are developed within the framework of language as a fundamental expression of culture. Language laboratory practice and/or assignments, at home and/or in the language lab, are an integral part of instruction supporting the development of language skills in the areas of pronunciation, structure, syntax, and oral communication.

**SPAN 2**
**Elementary Spanish (Second Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Prerequisite: SPAN 1 (equivalent to one year of high school Spanish) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Development of elementary language skills for oral and written communication using language structures and functions targeted for the second level of elementary Spanish. Spanish is the primary language of instruction. Speaking, listening, reading and writing skills at the second level of elementary Spanish will be developed within the framework of language as a fundamental expression of culture, with continued presentation of the cultures of Spanish-speaking world areas. Language laboratory practice and/or assignments at home and/or in the language lab, are an integral part of instruction supporting the development of language skills in the areas of pronunciation, structure, syntax, and oral communication.

**SPAN 3**
**Elementary Spanish (Third Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Prerequisite: SPAN 2 (equivalent to two years of high school Spanish) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Development of elementary language skills for oral and written communication using language structures and functions targeted for the third level of elementary Spanish. Spanish is the working language. Focus is on greater structural accuracy and communicative competence within the framework of language as a fundamental aspect of culture. Language laboratory practice and/or assignments at home and/or in the language lab are an integral part of instruction, supporting the development of language skills in the areas of pronunciation, structure, syntax, and oral communication.

**SPAN 4**
**Intermediate Spanish (First Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Prerequisite: SPAN 3 (equivalent to three years of high school Spanish) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Reading and discussion of texts dealing with the literature, arts, culture, history and geography of the Spanish-speaking world. Review and expansion of the structures, grammatical features and linguistic functions of elementary Spanish. Development of reading, writing, speaking and listening skills at the first intermediate level within the framework of language as a fundamental expression of culture.

**SPAN 5**
**Intermediate Spanish (Second Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Prerequisite: SPAN 4 (equivalent to four years of high school Spanish) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Reading and discussion of texts dealing with the literature, arts, culture, history and geography of the Spanish-speaking world. Review and expansion of the structures, grammatical features and linguistic functions of SPAN 4. Development of reading, writing, speaking and listening skills at the second intermediate level within the framework of language as a fundamental expression of culture.

**SPAN 6**
**Intermediate Spanish (Third Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Prerequisite: SPAN 5 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Reading and discussion of texts dealing with the literature, arts, culture, history and geography of the Spanish-speaking world. Review and expansion of the structures, grammatical features and linguistic functions of SPAN 5. Development of reading, writing, speaking and listening skills at the third intermediate level within the framework of language as a fundamental expression of culture.

**Special Education**

(See Educational Access for course listings.)

**Speech/Communication**

(See Communication Studies for course listings.)

**Television**

(See Film and Television Production for course listings.)

**Theatre Arts**

**THEA 1**
**Appreciation of Theatre 4 Units**

(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Four hours lecture (48 hours total per quarter).
An introduction to theatre from an audience perspective. Study of elements of dramatic art forms and play production, including dramatic theory, language, space, plot, characterization, technical theatre, acting, directing, playwriting, design, and the relationship with other art forms. Includes drama drawn from diverse cultural and historical perspectives. Attendance at assigned performances required.

**THEA 20A**
**Theory and Technique of Acting (Introduction) 4 Units**

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
Basic theory and techniques of acting. An examination of the actor’s range of choices within the framework of scenarios and improvisation. A beginning analysis of acting styles and methods from diverse cultural and historical perspectives.

**THEA 20B**
**Theory and Technique of Acting (Modern Period) 4 Units**

Prerequisite: THEA 20A.
Three hours lecture, three hours laboratory (72 hours total per quarter).
A continued study of the acting process, including extensive participation in the performance of contemporary dramatic scripts from diverse theatre traditions.

**THEA 20C**
**Theory and Technique of Acting (Classical Period) 4 Units**

Prerequisite: THEA 20A.
Advisory: THEA 20B.
Three hours lecture, three hours laboratory (72 hours total per quarter).
A continuation of acting study including extensive participation in the performance of selected scenes from classical plays of diverse theatre traditions.

**THEA 80A**
**Theory and Technique of Acting for the Camera 4 Units**

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
The basic fundamentals of acting for the camera are explored. Exercises, demonstrations, and improvisations are used to practice the techniques of acting. Scenes are rehearsed, recorded and critiqued.

**THEA 80B**
**Theory and Technique of Advanced Acting for the Camera 4 Units**

Prerequisite: THEA 80A.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Three hours lecture, three hours laboratory (72 hours total per quarter).
A continuation of Acting for the Camera through further exploration of equipment used in media performance: green screen acting, ear promptung, teleprompting and microphone applications in voice recording and voice over. Continued exploration and skill building of techniques used in performance before the camera including but not limited to advanced character development, make-up techniques and special problems in character preparation for feature film.

**Vietnamese Language**

**VIET 1**
**Elementary Vietnamese (First Quarter) 5 Units**

(See general education pages for the requirement this course meets.)
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Introduction to the language and cultures of Vietnam and Vietnamese communities. Basic speaking, listening, reading and writing of Vietnamese will be introduced and practiced within a cultural framework. Vietnamese will be the primary language of instruction. Emphasis will be on language as an expression of culture and a medium of communication.
VIET 2 Elementary Vietnamese (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: VIET 1 (equivalent to one year of high school Vietnamese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of material presented in VIET 1. Continuation of introduction to the language and cultures of Vietnam and Vietnamese communities. Speaking, listening, reading and writing of Vietnamese will be continued and practiced within a cultural framework. Vietnamese will be the primary language of instruction. Emphasis will be on language as an expression of culture and a medium of communication.

VIET 3 Elementary Vietnamese (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: VIET 2 (equivalent to two years of high school Vietnamese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Further development of material presented in VIET 1 and VIET 2. Basic speaking, listening, reading and writing of Vietnamese will be further introduced and practiced within a cultural framework. First introduction to popular sayings, literary texts for a better examination and appreciation of Vietnamese language and culture, life and civilization.

VIET 4 Intermediate Vietnamese (First Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: VIET 3 (equivalent to three years of high school Vietnamese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Reading and discussion of texts dealing with the literature, arts, geography, history and the culture of the Vietnamese-speaking world. Review of the linguistic functions and grammar structures of first-year Vietnamese. Speaking, listening, reading and writing of the first quarter low intermediate level of Vietnamese will be introduced and practiced within a cultural framework.

VIET 5 Intermediate Vietnamese (Second Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: VIET 4 (equivalent to four years of high school Vietnamese) or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Continuation of VIET 4. Review the linguistic functions and further discussion of grammatical features beyond the low intermediate level. Development of reading, writing, speaking and listening skills at the intermediate level needed to spontaneously request and provide a greater range of more sophisticated information. Read and discuss texts dealing with geography, history, literature, social and cultural practices of the Vietnamese-speaking world.

VIET 6 Intermediate Vietnamese (Third Quarter) 5 Units
(See general education pages for the requirement this course meets.)
Prerequisite: VIET 5 or equivalent.
Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.
Five hours lecture (60 hours total per quarter).
Continuation of VIET 5. Complete review of the linguistic functions and the grammar structures of Vietnamese language and further discussion of grammatical features needed to spontaneously and accurately request and provide information, orally and in writing, about a wide variety of topics. Development of reading, writing, speaking and listening skills at the high intermediate level. Analysis and discussion of texts and out-of-texts dealing with the literature, arts, history and culture of the Vietnamese-speaking world.

Women’s Studies

WMST 1 Introduction to Women’s Studies 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An examination of the varying positions of women in society, emphasizing the diverse nature of women’s experiences. Includes investigation of family, work, embodiment, popular culture and social movements. Focuses on power and gender roles and how they vary for women and men of different racial, ethnic, class, national and sexuality groups.

WMST 3C Women and Art 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ARTS 3TC. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A history of women in relation to society and the visual arts from prehistory to the present. Social perceptions and obstacles relevant to women artists will be discussed, and students will engage in cross-cultural comparison of works produced in western and non-western cultures made by women, and in which women serve as subject matter.

WMST 8 Women of Color in the USA 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary, multi perspective and comparative study of the experiences of women of color in the United States. The constructs of race, ethnicity, class, gender and sexuality as they relate to social institutions and national ideologies will be explored. Examination and analysis of the historical, political, and economic influences that have informed the relationships between women of color and white women in the U.S.A, is foundational to this course.

WMST 9 Women in American History 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 9 or HIST 9H or WMST 9H.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 9. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Acritical examination of the social, economic, cultural and political history of American women from the colonial times to the present. Emphasis on the movements which enhanced women’s political and economic rights, the social roles which defined women primarily by their gender, and the legal realities that women faced. Significant moral, political, and economic issues will be assessed.

WMST 9H Women in American History - HONORS 4 Units
(See general education pages for the requirement this course meets.)
(Not open to students with credit in HIST 9 or HIST 9H or WMST 9.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as HIST 9H. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Acritical examination of the social, economic, cultural and political history of American women from the colonial times to the present. Emphasis on the movements which enhanced women’s political and economic rights, the social roles which defined women primarily by their gender, and the legal realities that women faced. Significant moral, political, and economic issues will be assessed. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into women’s history in America.

WMST 12 Psychology of Gender 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as PSYC 12. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
A survey of the psychological, cultural, social and intellectual factors influencing the psychology of gender.

WMST 21 Women in Literature 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as ELIT 21. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Intensive study of representative literary works by or about women including a analysis of different historical, cultural, and critical perspectives.

WMST 22 Asian American Pacific Islander Women 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the study of Asian American Pacific Islander (AAPI) women in American society in historical and sociological perspective. Emphasis is placed on AAPI feminist scholarship; cultural representations; cultural productions; American society in historical and sociological perspective. Emphasis is placed on the experiences of women primarily by their gender, and the legal realities that women faced. Significant moral, political, and economic issues will be assessed. As an honors course, the students will be expected to complete extra assignments, or an additional longer assignment, to gain deeper insight into women’s history in America.

WMST 24 Women and Gender in Global Perspectives 4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A study in the construction and reproduction of gender inks in the globe, as well as ways people resist these processes in diverse societies.
All courses are for unit credit and apply to a De Anza associate degree unless otherwise noted.

WMST 25  Introduction to Black Feminism  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary, multi-perspective, critical analysis and comparative study of Black Feminism. Examines some of the key theories and ideas of Black Feminism and Black Feminist Thought, including womanist theory, theory of intersectionality, and standpoint theory. It will consider how Black women have challenged the intersecting effects of racism, sexism, classism, colonialism, homophobia, media exploitation, and other forms of social violence. Students will read major works, learn to engage in critical dialogue, and articulate their own positions concerning the basic ideas and principles of Black Feminism. The values, experience, and cultural contributions of Black feminist and/or Black womanist individuals in the United States will be identified, examined, and authenticated.

WMST 26  La Mujer: Latina Life and Experience  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An introduction to the study of Latinas in American society in historical and sociological perspective. Emphasis is placed on Latina feminist scholarship and cultural representations, border issues and migration, resistance to patriarchy, labor, and the search for power. This course is designed for all students interested in Women and Gender Studies, as well as those interested in Chicana/o and Latina/o Studies.

WMST 27  Women and Gendered Violence  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
A study in violence against women, in particular, and across gender and sexuality spectrums, and its impact upon U.S. civic life as well as globally.

WMST 28  Sociology of Gender  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as SOC 28. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Application of sociological perspectives to an understanding of gender. Focuses on the social construction of gender and on gender as an organizing principle of social life. Includes investigation of masculinities, femininities and trans identities, gender socialization, gender inequality, how gender is shaped by race, class, nation and sexuality, and the family, media, education, economics, politics and religion as gendered institutions, from a cross-cultural and global perspective.

WMST 29  Masculinities in U.S. Culture and Society  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
An interdisciplinary and intersectional study of masculinities within US culture and society from the post-Civil Rights era to the present. Special attention will be given to how masculinity is constructed along axes of race, sexuality, class, nation and ability.

WMST 31  Women and Popular Culture  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
Four hours lecture (48 hours total per quarter).
Feminist and cultural studies theory to discuss the historical development and contemporary representations of women in popular culture with emphasis on representations of women in film, television, music, advertising, social media, and news media will be used in this course.

WMST 49  Women and Philosophy  4 Units
(See general education pages for the requirement this course meets.)
Advisory: EWRT 1A or EWRT 1AH or ESL 5.
(Also listed as PHIL 49. Students may enroll in either department, but not both, for credit.)
Four hours lecture (48 hours total per quarter).
Examination of feminist theory. “feminism,” feminist thought and the philosophy produced by a diverse range of women in philosophy. Investigation of the ways that understandings of the relations between the sexes have influenced the work of philosophers from different cultures.
FACULTY

ACEVEDO-AVILA, VERONICA 1995
Reading
B.A., University of California, Santa Cruz;
M.A., Santa Clara University

ALANEER, ABEER 2019
Computer Science
B.S., Amman University;
M.S., San José State University

ALEXANDER, ROBERT 2009
Counselor
B.A., San Francisco State University;
M.A., St. Mary’s College

ALTMAN, DANIELLE 2010
Physical Education
B.A., University of Redlands;
M.A., California State University, San Bernardino

ALVES DE LIMA, DIANA 1996
Tutorial/Academic Skills
B.A., University of California, Berkeley;
M.A., Stanford University

ANDERSON, STEPHANIE 2017
Communications
B.A., M.A., San José State University

ANNEN, VICKIE 1997
Biology
B.A., Florida Atlantic University;
M.A., San Francisco State University

APPIO, MICHAEL 2006
Machine Tools
A.A., De Anza College

ARAGÓN, ERICK 2013
Outreach
B.A., San Diego State University;
M.S., Northern Illinois University

ARGYROU, ANNE 2000
Reading
B.A., University of California, Santa Cruz;
M.A., San Francisco State University;
M.Phil., University of Cambridge

AUGENSTEIN, RENEE 1997
Articulation Officer/Transfer Services Coordinator
B.A., University of Redlands;
M.A., Loyola Marymount

BAILM, CHERYL 2015
Mathematics
B.A., University of North Carolina;
Ph.D, Michigan State University, East Lansing

BAJAMONTE, NICHOLAS 2007
Philosophy
B.A., Metro State College of Denver;
M.A., University of California, Riverside

BAMBHANA, DOLI 2002
Mathematics
B.A., M.A., University of California, San Diego;
M.S., University of California, Santa Barbara

BENNETT, MARY 1990
Adaptive Physical Education
A.A., West Valley College;
B.S., M.A., San José State University

BETLACH, MARCY 1996
English as a Second Language
B.A., Washington State University;
M.A., San José State University

BOARD LJEJNISTOLPE, REBECCA 1997
Language Arts
B.A., M.A., California Polytechnic State University

BONILLA, MARYALICE 2006
English
B.A., M.A., California State University, Los Angeles

BOOHER, CHARLES 2016
Philosophy
B.A., California State University, Fullerton;
M.A., University of Chicago;
Ph.D., Syracuse University

BOTSфорD, LYDIA 2007
Accounting
B.A., University of California, Santa Cruz;
MBA, San Clara University

BORDIGNON, GUIDO 2016
Biology
B.S., M.S., Pharm D.; University of Padova;
Ph.D., University of Ca’ Foscari Venice

BOURGOIS, MARY JOY 1990
Child Development
B.A., University of Guam

BOURGOIB, HASSAN 1999
Mathematics
B.S., M.S., California State University, Los Angeles

BRAM, JASON 2010
Biology
B.A., University of California, San Diego;
M.A., California State University, Northridge

BREITER, SALAMANDER 2001
Humanities
B.A., Fairhaven College;
M.A., Western Washington University

BROPHY, MEGAN 2017
Chemistry
B.A., Reed College;
Ph.D., Massachusetts Institute of Technology

CADDGE-MOORE, CATIE 1999
Art History
B.A., State University of New York, Binghamton;
M.A., University of Washington;
Ph.D., University of Victoria

B.A., Holy Names;
M.A., Pacific Oaks;
M.A., Ph.D., Global Ministry University
EMERITI FACULTY AND ADMINISTRATORS

CUNY, ANN WHARTON 1975-1993
P.E./Recreation
A.A., Monterey Peninsula College; B.A., M.S., San José State University; Ph.D., University of Southern California

CUSTODIO, JAMES G. 1972-1995
Counselor
A.A., City College of San Francisco; B.A., M.A., San Francisco State University

DAVIES, DAVID H. 1966-1993
Mathematics
B.A., Western Washington College; M.A.T., San Diego State University

DEAN, SUSAN L. 1991-2007
Mathematics
B.A., University of California, Santa Barbara; M.A., University of California, Santa Clara

DELAS, MARIA 2006-2018
Disability Support Services
B.S., California Polytechnic State University; M.A., Santa Clara University

DICKERSON, ROBERT C. 1988-2014
English/Composition
B.A., University of Texas; M.A., Memphis State University

DIETRICH, GAIR 2001-2018
Director/High Tech Center Training Unit
B.A., San José State University

DOMINGUEZ, ALFRED 2007-2015
Counseling
B.A., University of California, Berkeley; M.A., California State University, East Bay; M.A., San José State University

DOUGHERTY, CHARLES S. 1977-2008
Physical Education
B.A., San José State University; M.A., M.S., San José State University; M.I.S., U.S. Coast Guard; Ph.D., University of Iowa

DOWNEY, DONNA 1990-2001
Chair, Technical Communication Department
B.A., Wheaton College; M.A., Indiana University; Ph.D., Columbia Pacific University

DRESSLER, FRANCES R. 1971-1992
Sociology/Psychology
A.A., College of Sequoia; B.A., Fresno State University; M.A., Syracuse University; Ph.D., United States International University

DREHL, GREGORY 1978-2008
Political Science
B.A., Stanford University; M.A., San Francisco State University; Ed.D., University of San Francisco

DUBARRY, MICHELE 2002-2019
English as a Second Language
B.A., M.A., San Francisco State University

DUNIVIN, J. D. 1964-1999
Sociology
B.A., M.A., San José State University

DUNN, LESTER R. 1966-1998
Physics
B.A., Ull Lake Forest College; M.S., Illinois Institute of Technology

DUREMEDES, JOY 1990-2019
Child Development Center
B.A., University of Guam

EDWARDS, JAMES D. 1965-1999
Political Science
B.A., Occidental College; M.A., Claremont Graduate School
JURKA, LILLIAN U. 1978-1999
Counselor
B.A., University of San Diego;
M.A., Stanford University, English;
M.A. San José State University,
Counseling; San José State University
Certificate, Applied Social Gerontology

KARST, LAURA 2001-2017
French
B.A., University of California, Santa Cruz;
M.A., San José State University

KELLER, INGRID 1963-1992
German
B.A., Pasadena City College;
B.A., Occidental College;
M.A., Stanford University

KENDALL, SHIRLEY 1995-2007
Professional and Workforce Development
B.A., University of Southern California;
M.A., National University

KLANG, ROBERT 1970-1997
English
B.A., M.A., San Francisco State University

KLEIN, CHARLES S. 1989-2017
Mathematics
B.A., Hobart College;
M.A. University of Northern Colorado

KLINE, BEN 2001-2019
B.A., M.A., San José State University
Ph.D., University College, Cork

KLINT, GLORIA (JEAN) 1998-2007
Child Development Center
B.S., University of Utah;
M.A., California State Polytechnic University, Pomona

KODA, ANN Y. 1986-2001
Computer Applications
and Office Systems
B.A., University of California, Berkeley;
M.A., San José State University

KOCHAK-LONG, SANDRA 1976-1989
Special Education
A.A., Riverside City Junior College;
B.S., M.S. San José State University

KRYLOUK, IAROSLAV 2008-2019
Mathematics
Ph.D., University of Saskatchewan

LAMIT, LOUIS G. 1984-2013
Computer Assisted Drafting Program
B.S., Western Michigan University

LASSERRE, YVETTE M. 1991-2001
French
A.A., De Anza College;
B.A., M.A., San José State University

LAU, PHILIP K. C. 1972-2007
Psychology
B.A., San Francisco State University;
M.S.W., University of California, Berkeley

LEAVITT, MURRAY P. 1965-1994
Business
B.A., University of Missouri;
MBA, Long Island University;
M.A., Teacher's College, Columbia University;
Ed.D., University of California, Berkeley

LEE, ELAINE 1991-2017
Speech
B.A., M.A., University of Hawaii

LEE-KL AWEN DER, CYNTHIA 2000-2017
Computer Science
B.A., California State University, Los Angeles;
M.S., University of Southern California

LEE-WHEAT, COLEEN 1990-2017
Dean, Physical Education and Athletics
B.S., University of California, Los Angeles;
M.A., California State University, East Bay

LEE-YEN, ANN 1988-2012
Child Development Center
B.A., Taiwan University;
M.A., University of Oregon

LEIGH, ROBERT J. 1972-2003
Automotive Technology
B.A., M.A., San Francisco State University

LESKINEN, ANNE L. 1985-2011
Mathematics
B.A., M.A., University of Western Ontario

LETSON, ROGER L. 1979-2007
Music
B.M.Ed., M.M., University of Montana

LEWIS, WILLIAM G. 1998-2003
Automotive Technology
B.A., M.A., San José State University;
Journeyman Machinist

LISHA, ZAKI 1974-2013
Film/TV
B.A., University of Southern California;
M.A., San Francisco State University

LINTHICUM, JAMES A. 1965-2004
Physical Education
B.S.Ed., Ohio University;
M.S., University of Colorado

LOGAN, GEORGINA H. 1961-1992
English
B.A., Oberlin College;
M.A., Stanford University

LOPEZ-MORGAN, CHRISTINA A. 1988-2010
Social Sciences
A.A., Los Angeles City College;
B.A., M.A., Pacific Oaks College

LUCAS, JAMES S. 1975-2000
B.A., M.A., San Francisco State University;
Ed.D., University of California, Berkeley

LUOTTO, JAMES A. 1965-2001
English
B.A., M.A., San Francisco State University;
M.A., Stanford University

Physical Therapist Assisting
B.S., University of the State of New York;
M.A., Stanford University

LYNCH, JOHN 2005-2011
Business
B.S., University of Mississippi;
MBA, Harvard University

MACK, ROGER W. 1977-2012
Economics
B.A., M.A., San Francisco State University;
Ph.D. Syracuse University

MAIERO, MARCIA SMITH 1990-2014
Physical Education
B.A., California State University, Chico;
M.S., California State University, East Bay

MANRIQUEZ, NAPOLEON H. 1977-2006
Director, Assessment Center
B.A., San José State University;
M.A., Ph.D. Stanford University

MATHIOS, DIANE 1996-2016
Mathematics
B.A., M.A., University of California, Berkeley
Nelson, Sharon S. 1976-2003
Hope-De Anza Vocational Program
B.A.; Augustana College

Nichols, Barbara A. 1977-1990
Older Adult Services
A.A., Foothill College;
B.A., San José State University;
M.A., Santa Clara University

Nickel, Donald C. 2001-2017
Counselor
B.A.; M.A., San José State University

Nielsen, M. Lance 1975-2006
A.A., Diablo Valley Junior College;
B.S., California State University;
East Bay;
M.A., San José State University

Nengo, Isaiach 2006-2019
Anthropology
B.A., Nairobi University;
M.A., Ph.D., Harvard University

Norris, Marcia 1991-2001
High Tech Center Training Unit
B.A., University of Alabama;
M.A., English, M.A., Education,
San José State University

Nunes, Anthony J. 1966-1992
Physical Education
A.A., College of the Sequoias;
B.S., M.S., California State Polytechnic College

O'Brien, Fay 1967-1993
Acting Executive Head,
Allied Health and Nursing
Diploma, French Hospital,
San Francisco;
A.B., San Francisco State University;
M.A., College of the Holy Names

O'Donnell, Daniel J. 1968-1995
Computer Information Systems
B.S.C., MBA, University of Santa Clara

Ohtake, Motosuke 2006
B.S.C., MBA, University of San Francisco

Okey, Anne W. 1985-1999
Dean, Business and
Computer Science Division
B.A., Cornell University;
M.A., San José State University

Pabon, Tony 1981-1997
Mathematics
A.B., M.S., California State University,
Los Angeles

Parker, Geraldine 1993-2013
Native American Studies
B.A., California State University,
East Bay

Patterson, Norma 1971-1986
Nursing
B.S., University of Oregon;
M.S., University of California

Patton, Marilyn 1991-2013
English/Composition
B.A., Stanford University;
M.A., Ph.D., University of California,
Santa Cruz

Pearce, Kimberly A. 1987-2013
Speech Communication
A.B., Azusa Pacific University;
M.A., San José State University

Pecoraro, Salvatore P. 1968-1997
Art
A.B.Ed., California College of Arts
and Crafts;
M.A., San Francisco State University

Perata, Donald A. 1986-1996
Vice President, Student Services;
Interim Chancellor
B.A., M.A., San José State University

Perry, John W. 1989-2011
Computer Information Systems
B.A., University of Delaware;
M.C.S., Arizona State University

Peterson, Dennis E. 1998-1997
Biological Division,
Biological and Health Sciences (acting)
B.A., M.S., Brigham Young University

Peyrufi, Barbara 2006-2011
Nursing
B.S., California State University,
Dominiguez Hills;
M.S., University of Phoenix

Phillips, Julie 1993-2015
Family Endowed Chair in
Environmental Studies/Instructor
Biology
B.A., California State University;
Chico;
M.A., San José State University

Phillips-Proft, Barbara J. 1964-1993
Counseling, Physical Education
B.S., Wheaton College;
M.A., Colorado State College

Pichon, Ulysses A. 1975-2009
English/Reading
B.A., Xavier University of Louisiana;
M.A., San José State University

Pierce, Diane 2000-2019
Photography
B.A., San Francisco State University;
M.A., Mills College

Pierre, Adrienne 1999-2019
Counseling
B.S., M.A., San José State University

Plum, Kathryn S. 1989-2019
Mathematics
B.S., Montana State University;
M.S.E., M.S.Q.A., San José State University

Poggi, Claudia 1989-2012
English as a Second Language,
Languages and Writing
B.A., City University of New York;
M.A., San Francisco State University;
M.S., University of Hawaii

Poklewski Dabrowska, 1977-2013
M.A., University of Hawaii

Pogue, Charlotte 1985-1999
Dean, Business and
Computer Science Division
B.A., Cornell University;
M.A., San José State University

Quinlan, Louise 1970-1998
Biology
B.A., University of California, Berkeley;
M.A., University of Wisconsin

Quirk, Lillian M. 1964-1988
Art
B.S., Southern Connecticut State College;
M.A., California State University,
Long Beach;
Ed.D., Teacher's College, Columbia University

Raff, Margo I. 1980-2017
Counseling
B.A., University of Florida;
M.A., University of San Francisco

Ramirez, Antonio 2007-2019
Philosophy
B.A., University of California,
Santa Cruz;
M.A., Ph.D., Brown University

Ramirez, Oscar 1973-1993
Vice President, Administrative Services
B.A., M.A., California State University,
Fresno;
Ph.D., United States International University

Ramson, Charles 1992-2019
Psychology
A.A., De Anza College;
B.A., San José State University;
M.A., University of California, Davis;
Ph.D., California Coast University

Rappaport, Steven D. 1974-2007
Philosophy/Economics
B.A., University of California, Berkeley;
M.A., San José State University;
Ph.D., University of Toronto

Rashall, Benita 1977-2008
Physically Limited Counselor/Enabler
B.A., M.S., University of California, Berkeley;
M.A., San José State University;
Ph.D., University of Chicago

Read, James F. 1968-2002
Librarian, Collection Development/
Technical Services
B.A., M.L.S., University of California,
Berkeley;
M.A., San José State University;
Ph.D., Stanford University

Reid, Barbara 1977-1989
Vice President, Instruction
B.A., State University of Iowa;
M.A., Ed.D., University of Northern Colorado

Reiss, Gary 1967-1997
Counseling
B.S., San José State University;
M.A., Stanford University

Rossi, Donald E. 1992-2000
Mathematics
B.A., University of California, Berkeley;
M.A., San José State University

Rojas, Donald E. 1968-2000
Mathematics
A.B., University of California, Berkeley;
M.A., University of California, Berkeley;
Ph.D., University of Chicago

Rowe, James K. 1968-1996
Counselor
B.A., M.A., San José State University

Schaffner, Karl 1989-2017
Mathematics
B.S., University of Alabama;
M.A., Ph.D., University of California,
Santa Cruz

Schroeder, Richard V. 1984-2012
Dean, Physical Education
and Athletics
B.A., University of California, Berkeley;
M.A., San José State University

Schwind, Leslie A. 1967-2003
Automotive Technology
B.A., M.A., San Francisco State University

Scott, Daniel R. 1970-2001
English
B.S., M.A., Brigham Young University

Seckin, Rupinder S. 1985-2014
Mathematics
B.S., University of San Francisco;
M.A., San Francisco State University

Setzio, Paul L. 1981-2017
Music
B.M., M.M., D.M.A., University of Oregon

Sherwood, Rebecca A. 1983
Art
B.S.N., M.N., University of Florida;
D.N.S., Boston University

Skyles, William V. 1962-1989
English
B.A., De Paul University;
M.A., University of Chicago

Smith, Eleanor A. 1968-1989
Counselor
A.A., Green Mountain College;
B.S., University of New Hampshire;
M.S., University of Colorado

Smith, Wendy 1989-2004
Child Development Center
B.S., Pennsylvania State University;
M.Ed., University of Pittsburgh

Solera, Francisco 1985-2011
Mathematics
B.S., University of New Mexico;
M.S., University of Oklahoma

Spencer, Leroy G. 1975-2000
Automotive Technology

Spencer, William A. 1976-2001
Language Arts
B.S., University of Washington;
M.A., San Francisco State University

Spletter, Randolph N. 1989-2011
English/Composition
B.A., Hamilton College;
B.A., University of California,
Santa Cruz;
Ph.D., University of California,
Berkeley

Stann, Susan S. 1969-2007
English as a Second Language
TESOL Certificate - Linguistics,
San José State University;
B.A., M.A., University of Michigan

Stasio, Donna D. 1995-2016
Speech Communication
A.A., Columbia Junior College;
B.A., San Mateo Junior College;
M.A., Washington State University

STEMLER, Ann B. 1977-2004
Biology
B.S., M.S., Ph.D., University of Illinois

Stern, Deborah R. 1966-2008
A.A., San Francisco State University;
B.A., M.A., San Francisco State University

Sterne, Myra B. 1975-1999
Nursing/Health
R.N., B.S.N., Ohio State University;
M.S., San Francisco State University

Stevens, Margaret L. 1992-2016
History
A.A., De Anza College;
B.A., University of California,
Berkeley;
M.A., San José State University

2019-2020 DE ANZA COLLEGE CATALOG
De Anza College, in compliance with federal law, is providing all students and employees with the following statement regarding the unlawful possession, use or distribution of illicit drugs or alcohol on its campus or at any college event. The unlawful possession, use or distribution of any illicit drug or alcohol by students on district property or at district activities or events is prohibited.

The unlawful possession, use or distribution of illicit drugs or alcohol by students or employees on college property or at college events may constitute criminal prosecution under state and/or federal law. Federal penalties are described on the chart on the next page.

De Anza College’s policies and procedures for sexual assault, including rape, and sexual harassment along with information on alcohol and other drugs are located in the “College Policies and Guidelines” section of this catalog.

The use of drugs and alcohol may pose significant health risks including hangovers, blackouts, general fatigue, impaired learning, dependency and death. Drugs known as “designer drugs” are a unique combination of drugs listed below. Ecstasy (MDMA) is the most popular designer drug on college campuses today. The chart describes various drug categories and their risks.

Further detailed information on the state penalties and risks associated with the use of drugs and alcohol may be found at the following campus locations: Counseling and Advising Center, Student Activities Office, Health Services Office, Learning Center reference desk and division offices.

It is the policy of the college to impose appropriate disciplinary sanctions on employees and students for the unlawful possession, use or distribution of illicit drugs or alcohol. Appropriate disciplinary sanctions may include suspension or expulsion for students or suspension or termination for employees. The applicable sanctions for student violations are contained in Administrative Procedures 5510 and 5520 of the Foothill-De Anza Community College District.

HOW TO LOCATE BUILDINGS AND ROOMS

Building numbers are the first digit of room numbers. Example: Room S-73 is located in Building S-7.

**ADM-101,102**
- **101** Classroom
- **102** Articulation and Transfer Services
- **103** Conference Rooms
- **105** Classroom
- **119** Classroom

**A-1** Choral Hall
**A-4** Creative Arts Division Office, Faculty Offices
**A-5** Ceramics/Painting Studio
**A-6** Photography Studio
**A-7** Sculpture Studio
**A-9** Classrooms

**AT - Advanced Technology Center**

**Baldwin Winery**
- Financial Aid, Printing Services, Part-time Faculty Offices

**Hinson Campus Center**
- Upper Level: Dining Rooms, Dining Services, Meeting Rooms: Conference Rooms A and B, Don Bautista Room, El Clemente Room, Fireside Room, Meeting Room 1, Santa Cruz Room, Staff Lounge, Meditation and Prayer Room
- Lower Level: Foothill-De Anza District Police, De Anza Associated Student Body (DASB) Offices, DASB Card Office, Office of College Life, Dean of Student Development, EOPS/CARE, Flea Market Office, Le Café, Health Services, Inter-Club Council (ICC) Office, Student Accounts, Student Council Chambers

**C-1** Child Development Center
**CCH** California History Center
**ECOT-1** Vasoncellios Institute for Democracy in Action (VIDA)
**E-1** Automotive Technology
**E-2** Design and Manufacturing Technologies
**E-3** Classrooms, Faculty Offices
**E-4** Environmental Study Area Lab
**F-1 through 6** Faculty Offices
**F-1.2.3** Faculty Offices
**F-4.6** Faculty Offices
**G-1 through 10** General Purpose Classrooms, Grounds and Custodial Warehouse – Plant Services

**KC – Kirsch Center For Environmental Studies**
- Biological, Health and Environmental Sciences/Workforce Education Division Office, Faculty Offices, Classrooms
**LCW – Learning Center West**
- Audio Visual, Classrooms, Dead and Hard of Hearing Services, Disability Support Services Testing and Tutoring, Library West Computer Lab; Student Success and Retention Services

**Library – (Rear)**
- Community Education – Extended Year Program, Short Courses
  - **L-1** Business, Computer Science and Applied Technologies Division Office, Language Arts Division Office, Social Sciences/ Humanities Division Office
  - **L-2.3** Classrooms/Psychology Lab
  - **L-4** La Voz, Red Wheelbarrow, Classrooms
  - **L-5** Restrooms
  - **L-6.8** Classrooms
  - **L-7** Data Services

**Media and Learning Center (MLC)**
- Online Education, Equity Office, Learning Resources, Multimedia Team, Professional Development

**Mod Quad**
- **MO-1** ETS
- **MO-2** Classroom
- **MO-3** Classroom

**MCC** Intercultural/Internal Studies Division Office and Multicultural Center
**PE-1** Auxiliary Gyms, Physiology Lab
**PE-2** Main Gym
**PE-4** P.E. Division Office, Recreational Sports/Intramural Office, Faculty Offices
**PE-5** Faculty Offices
**PE-6** Fitness and Wellness Center, Locker Rooms, Faculty Offices

**PLT – Planetarium**
- De Anza College Planetarium

**Science Center**
- **SC-1** Lecture Hall, Faculty Offices
- **SC-2** Labs
- **SC-3** Pavilion

**SEM – Seminar**
- CompTechS/Computer Donation Program, Occupational Training Institute (OTI), County Office of Education, Veteran Services

**S-1** Geology/Physics Classrooms, Faculty Offices
**S-2** Restrooms
**S-3** Classrooms/Physical Science/Math/Engineering Division Office, Faculty Offices, Honors Program
**S-4** Classrooms/Math and Science Tutorial Center, Faculty Offices
**S-5** Classrooms, Faculty Offices
**S-6** Restrooms
**S-7** Classrooms, Faculty Offices
**S-8** Nursing/Classrooms
**S-9** Faculty Offices

**RSS – Registration**
- Admissions and Records, Assessment Center (Testing) Bookstore, Cashier, Counseling and Advising Center, DASB Bike Rental Corral, Educational Diagnostic Center, International Student Programs, Matriculation, Outreach and Relations with Schools, Psychological Services, Transcripts, Transfer Center

**VPAC – Visual & Performing Arts Center**
- Art History Classroom, Auditorium/Lecture Hall, Euphrat Museum of Art
