Earth Summit: Campaigners decry final document
Pathway for a sustainable future' declared, but Greenpeace says summit was failure of epic proportions

The Future We Want: Rio+20 Outcome Document
I. Our common vision
II. Renewing political commitment
III. Green economy in the context of sustainable development and poverty eradication
IV. Institutional framework for sustainable development
V. Framework for action and follow-up
IV. Means of implementation

Do what you (we) can at the local level
@ De Anza we have done A LOT since 1992
That was the year Julie Phillips founded CEAG, the College Environmental Advisory Group, which help to implement a recycling program.
Since then, we established the Sustainability Management Plan based on EMS ISO 14001 in 2007 through the ES62 A-D courses and CEAG
We, like the world, have our challenges and could do more. But . . .
WHAT WE WE’VE DONE

- Two LEED Platinum buildings (2nd one this summer)
- Compostable food service utensil & organic offerings
- Parking lots with solar panels
- Green-certified cleaning products
- Single-stream compostable recycling waste management, compacted to reduce pick up frequency
- Eco Pass program
- Institute of Community and Civic Engagement
- Kirsch Center – ES & ESCI classes - YOU!
