**— Note to Students —**

The software provided by MSDNAA may not be given or shared with anyone else.

The MSDNAA software tools and technologies may only be used for non-commercial purposes.

Microsoft Windows may only be installed to facilitate the use of other MSDNAA software and technologies such as Microsoft Visual Studio for instructional purposes. Windows clients may not be used only as a terminal for accessing a remote server. Windows Server may not be used to host an e-mail server even if the email software was purchased separately.

Students may keep any software that they have downloaded during the quarter(s) that they were enrolled in a qualifying CIS class but they may not download any additional MSDNAA software after the term has ended unless they continue to take qualifying CIS classes.

## Software Available Through the MSDNAA

Below is a brief list of the software that is available through the MSDNAA for download for you to use in conjunction with your CIS Classes that you are enrolled in at De Anza College. A complete list of software is available on the ELMS website. If you can not find what you are looking for, please contact the ELMS Administrator to have that software package added to the software listing provided it is available. Please note that Microsoft Office 2007, which includes Word, Excel, and PowerPoint, is NOT available through the MSDNAA agreement.

	<b>Microsoft Visual Studio 2008</b>		<b>Microsoft Windows XP Professional</b>
	<b>SQL Server 2008 Enterprise</b>		<b>Microsoft Windows Vista Business</b>
	<b>Expression Studio 2</b>		<b>Microsoft Windows 7</b>
	<b>Microsoft Access 2007</b>		<b>Windows Server 2008</b>
	<b>Microsoft Project 2007</b>		<b>Windows Server 2003</b>
	<b>Microsoft Visio 2007</b>		<b>Exchange Server 2007</b>
	<b>Virtual PC 2007</b>		<b>Virtual PC for Mac 7</b>
