

10-9-2023

Vote for 3 - Faculty Representatives --[Campus Facilities Committee](#)

Emily Garbe

I have been a member of the De Anza community for over 12 years. I have over 30 years of management experience in finance, accounting, marketing, and technology in Fortune 100 companies as well as startup ventures. In the area of facility management, I have served as a board member of an HOA of a community in Cupertino for eight years, overseeing various projects and challenges, ranging from parking, building renovation, water conserving landscaping, solar panel installations, and financial planning and budgeting.

I served on De Anza Facility Committee last year (academic year 22-23) and would like to continue to serve on the committee this academic year (23-24). As a member of a minority group, I understand the needs of students to have the space to ensure their social development and support on campus, as well as the access to facilities for their pursuit of academic study and career growth.

Dawnis Guevara

I have been working at De Anza College since 1999 in the Physical Education and Athletics Department. Over the years I have served on many hiring committees, tenure review committees, campus-wide committees, curriculum committee, and Academic Senate. I have been the REACH Program coordinator for the past eight years, working closely with the Office of Equity, Social Justice and Multicultural Education to enhance the experiences for all of our students. I would love to be a part of this committee, to help in determining conditions of facilities and recommend improvements that best serve the campus and students. I believe diversity of various disciplines and expertise is crucial for ensuring a balanced perspective and comprehensive approach to addressing issues within the academic community.

Andrew Stoddard

1)I believe I would be a valuable part of De Anza's Campus Facilities Committee. I teach on campus five days a week and walked the grounds twice a day. I've worked for the college just shy of 15 years. In that time, I have supported campus facility's in many ways. Helping on projects not related to my main job and at no cost to the college, in hopes to keep spending down and to make De Anza a better place. A small list of item's made from scratch in our department, but not limited to.

- *Food Service-Oven door and Sandwich prep station fabrication*
- *Facility's-Custom toilet paper roll holder fabrication and production*
- *MLC Quad-Curb rails*
- *Main Quad/Water fountain-In ground vent panel*
- *Pool-Water polo net clamps*
- *PE Gym-Floor panels*
- *Hot water pump service and repairs*

2) Diversity is an important part of life in all aspects, especially in shared governance committees. Ideas, discussions and decisions should be viewed through a lens from a number of different perspectives. An equitable foundation that supports ethnic, gender and socioeconomic backgrounds is crucial for student's success. I believe this structure yields the best results for a well-rounded community and is an essential part of pedagogical skills.

Bill Wishart

No statement available.

Ivan Kojnok

My name is Ivan Kojnok. I am in the second year of the tenure process here at DeAnza College. Prior to that I was a shop foreman in a well established independent import vehicle service facility, prior to that I was a shop foreman at a Mazda dealership. I came to DeAnza after having nearly 30 years in the field to teach students and share my years of experience in the automotive industry. I also have experience in construction management as I was involved in finishing a 9000 square foot home where I was doing some of the work and overseeing the work of contractors.

I would like very much to serve on the facilities committee. I feel that representation from every department is essential and an important part of diversity on campus. Having this will be good to help form decisions which are well suited to all departments on campus to best serve our students. Bill Wishart who was serving on the Facilities committee last year has other obligations to attend to and I would be more than happy to serve. Thank you.
