## **De Anza College Student Health Services** Part 2: TB Screening Questionnaire

Name \_\_\_\_\_\_ Student ID: \_\_\_\_\_\_

Assessment Date: Risk Factors Identified: \_\_\_\_\_

Please answer the following questions	Yes	No
Have you ever had a positive (+) TB skin test or TB blood test? If so, what year?		
Have you ever had or received BCG vaccine?		
Have you ever had a severe reaction to a TB skin or blood test?		
Have you ever had a <mark>chest x-ray</mark> for positive TB test?		
Have you ever taken medication for TB?		
Have you received vaccination against chicken pox (Varicella), Measles, Mumps and Rubella (MMR) or taken the Flu mist nasal spray over the last 4 to 6 weeks?		
Are you taking <b>any</b> prescription and over the counter medication(s)? If yes, please list them below:		
Have you ever had an allergic reaction to injection or medication(s)? If yes, please describe:		
Do you think you could be pregnant or are you pregnant?		
Do you have the following symptoms (Tuberculosis Symptom Check)	Yes	No
Productive cough lasting for 3 weeks of longer with or without sputum production?		
Weight loss without dieting?		
Persistent fever/chills?		
Night sweats?		
Loss of appetite?		
Coughing out blood?		
Tire easily?		
Chest pain?		
Other symptoms? If yes, please describe:		
What country were you born in?		I
What countries have you lived in and/or travelled to?		

I have received information about the TB test. I had a chance to ask guestions which were answered to my satisfaction. I have been informed and agree that it is necessary for me to return to De Anza Student Health Services within 48 to 72 hours to have my TB skin test read. I understand the risks and benefits of the TB skin test and request the test be given to me.

If I do not return, the test will be null and void and a **NO SHOW Fee** will be charge into my account.

I understand that if I am symptomatic for TB or if the TB test is positive, results may be communicated to the health provider with whom I will follow-up if medical care is needed. I agree that I need to obtain chest x-ray clearance within two (2) weeks if I test positive (+) for the PPD skin test.

I understand that if I fail to obtain the chest-x ray clearance within 2 weeks and prove that I am not contagious, I will NOT be allowed to return from my classes and attending campus, and a HOLD will be placed on my records through De Anza College.
