#### About the Survey

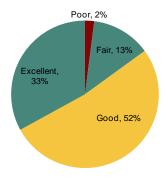

The CCSSE is administered in the spring quarter to credit students and gathers information about their overall college experience. De Anza College previously participated in 2007 and 2009.

The survey focuses on educational practices and student behaviors associated with higher levels of learning, persistence and completion.

All faculty members teaching in the spring were included in a pool from which a random sample of course sections were chosen to administer the survey. This resulted in 1,236 valid responses.

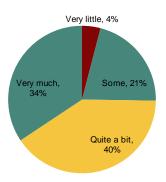

#### Student Responses

How would you evaluate your entire educational experience at De Anza?

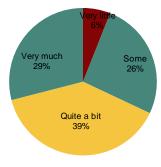

85% of students stated that they had a good or excellent experience at De Anza. This rate dropped slightly from 89% in 2009 but remained the same as reported in 2007.

# How much does De Anza encourage you to spend significant amounts of time studying?

74% of students stated they are very much or quite a bit encouraged to spend significant amounts of time studying, up from 70% in 2009 and 71% in 2007.

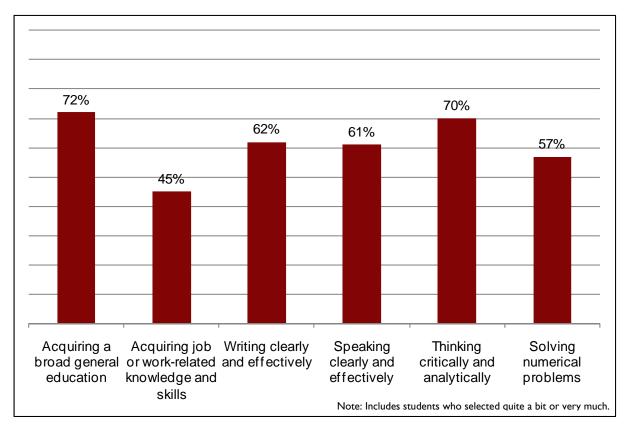

How much does De Anza provide you the support you need to be successful?

68% of respondents stated that De Anza provided quite a bit or very much of the support they needed to help them be successful. This rate remained consistent from 2009 and is up from 61% in 2007.

#### Instruction

# How much has your experience at De Anza contributed to your knowledge, skills and personal development in these areas?

• Over 60% of respondents selected quite a bit or very much in each area with the exception of acquiring job or work-related skills (45%) and solving numerical problems (57%).

#### How much has your coursework at De Anza emphasized these mental activities?

	Very	Some	Quite a	Very much	Total
	little	bit	very much	Total

	14%	42%	28%	16%	100%
Received prompt feedback (written or oral) from instructors on your performance	118	464	45 I	218	1,251
	9%	37%	36%	17%	100%

• 58% of respondents worked with other students on projects <u>during</u> class often or very often while 28% worked with classmates <u>outside</u> of class often or very often.

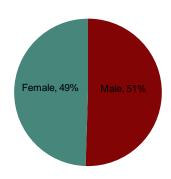

How much time did you spend preparing for class (studying, reading, writing, rehearsing, homework, etc.) in a typical 7-day week?

• 68% of respondents spend 1-10 hours preparing for class per week, up from 66% in 2009 but down from 69% in 2007.

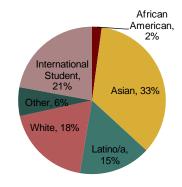

# Respondent Characteristics

# Gender of Respondents

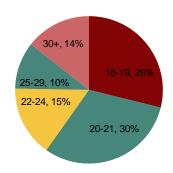

The distribution by gender was equal to our total student population.

# **Ethnicity of Respondents**

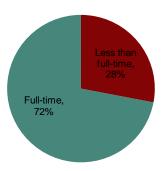

The respondents comprised a higher rate of Asian students (33% vs. 38%) and a smaller percent of White students (18% vs. 26%) than the total student population. International students comprised a higher percent of the respondents than the student population (21% vs. 7%).

# Age of Respondents

The age of survey respondents was representative of our student population with the exception of students aged 20-21 which was higher than our student population (30% vs. 20%).

#### **Enrollment Status of Respondents**

The respondents were comprised of a smaller percent of part-time students (28% vs. 56%) than the total student population and a higher percent of full-time students (72% vs. 44%).
