Introduction

Governance includes faculty, staff, students, and administrators at De Anza College. The inclusion of all constituent groups and varying viewpoints is essential for effective collaboration in college planning.

The following handbook is a guide to governance. We hope it promotes greater and more effective participation by all stakeholders.

Before detailing the various constituent groups and governance committees, the handbook outlines the core principles that inform governance, including the Mission Statement, Institutional Core Competencies, and College Values.

Rev. 3/19/12 G.T.F.

Our Mission

De Anza College provides an academically rich, multicultural learning environment that challenges students of every background to develop their intellect, character and abilities; to realize their goals; and to be socially responsible leaders in their communities, the nation and the world. The college engages students in creative work that demonstrates the knowledge, skills and attitudes contained within the college's

[Institutional Core Competencies:](#)

- Communication and expression
- Information literacy
- Physical/mental wellness and personal responsibility
- Civic capacity for global, cultural, social and environmental justice
- Critical thinking

Revised 11/5/15

Institutional Core Competencies

The Institutional Core Competency statements are a promise to the communities that support De Anza College that students graduating with an A.A. or A.S. degree, or who will transfer to a four-year college or university, will be able to demonstrate the knowledge, skills and attitudes contained within all of the five competency areas, based on general education and discipline-specific courses at the lower division level. Students who earn a certificate, or have taken courses for personal educational development, will be expected to demonstrate the knowledge, skills and attitudes specified within one (or more) of the five competency areas.

COMMUNICATION AND EXPRESSION

Students will communicate clearly, express themselves creatively, interpret thoughtfully and logically, and engage actively in dialogue and discussion, while paying attention to audience, situation and (inter) cultural context. Communication and expression may be written or oral, verbal or nonverbal, informational or artistic.

INFORMATION LITERACY

Students will recognize when information is needed and locate, critically evaluate, synthesize and communicate information in various formats. They will use appropriate resources and technologies while understanding the social, legal and ethical issues for information and its use.

PHYSICAL/MENTAL WELLNESS AND PERSONAL RESPONSIBILITY Students will recognize lifestyles that promote physical and mental well-being, engage in self-reflection and ethical decision-making, explore career choices and life goals, practice effective individual and collaborative work habits, and demonstrate a commitment to ongoing learning.

CIVIC CAPACITY FOR GLOBAL, CULTURAL, SOCIAL & ENVIRONMENTAL JUSTICE Students will recognize their role as local, national and global citizens. They will participate in a democratic process, respect social and cultural diversity, appreciate the complexity of the physical world, and understand the significance of both environmental sustainability and social justice.

CRITICAL THINKING

Students will analyze arguments, create and test models, solve problems, evaluate ideas, estimate and predict outcomes based on underlying principles relative to a particular discipline, interpret literary, artistic, and scientific works, utilize symbols and symbolic systems, apply qualitative and quantitative analysis, verify the reasonableness of conclusions, explore alternatives, empathize with differing perspectives, and adapt ideas and methods to new situations.

De Anza values and is committed to:

INTEGRITY

We embrace honesty, credibility, courage in naming that which seems unnamable, clear communication, and acting on our stated values. The college's ability to fulfill its mission depends on a college community in which everyone feels included, respected and safe.

INNOVATION

In all of our many roles, we will continuously and purposefully reflect in order to innovate and improve. We work to ensure our physical space is welcoming, conducive to learning and environmentally sustainable. We are committed to being innovative in our daily work, curriculum and use of technology. We work with our students to be creative and flexible in their thinking, to imagine and invent, and contribute to a world which will demand of them skills and competencies that are not yet in view.

EQUITY

We welcome students of all ages and backgrounds and connect with them, in their range of unique circumstances, to help them fulfill their dreams. We strive to design classes and services to the needs of those we serve. We value and embrace the intellectual contributions of a diverse spectrum of people and cultures. We strive for a diverse workforce that honors the contributions of all who work here.

DEVELOPING THE HUMAN CAPACITY OF ALL STUDENTS

We will provide support in six key factors of student success. Our students will be:

- *Directed*, with a goal and the knowledge of how to achieve it.
- *Focused*, staying on track to achieve that goal.
- *Nurtured*, feeling that we want to, and do, help them to succeed.
- *Engaged*, actively participating in class and extracurricular activities.
- *Connected*, feeling that they are part of the college community.
- *Valued*, with their skills, talents and abilities recognized, and with opportunities to contribute on campus and feel that their contributions are appreciated.*

INSTITUTIONAL CORE COMPETENCIES

Our students will be able to demonstrate knowledge, skills and attitudes in the following five areas:

- Communication and Expression
- Information Literacy
- Physical/Mental Wellness and Personal Responsibility
- Global, Cultural, Social, and Environmental Awareness
- Critical Thinking

CIVIC ENGAGEMENT FOR SOCIAL JUSTICE

We provide students with opportunities to enhance their potential for purposeful and productive lives. As a public institution, we contribute to the development of our local, state, national and global communities. We view our students and ourselves as agents of

De Anza College Governance

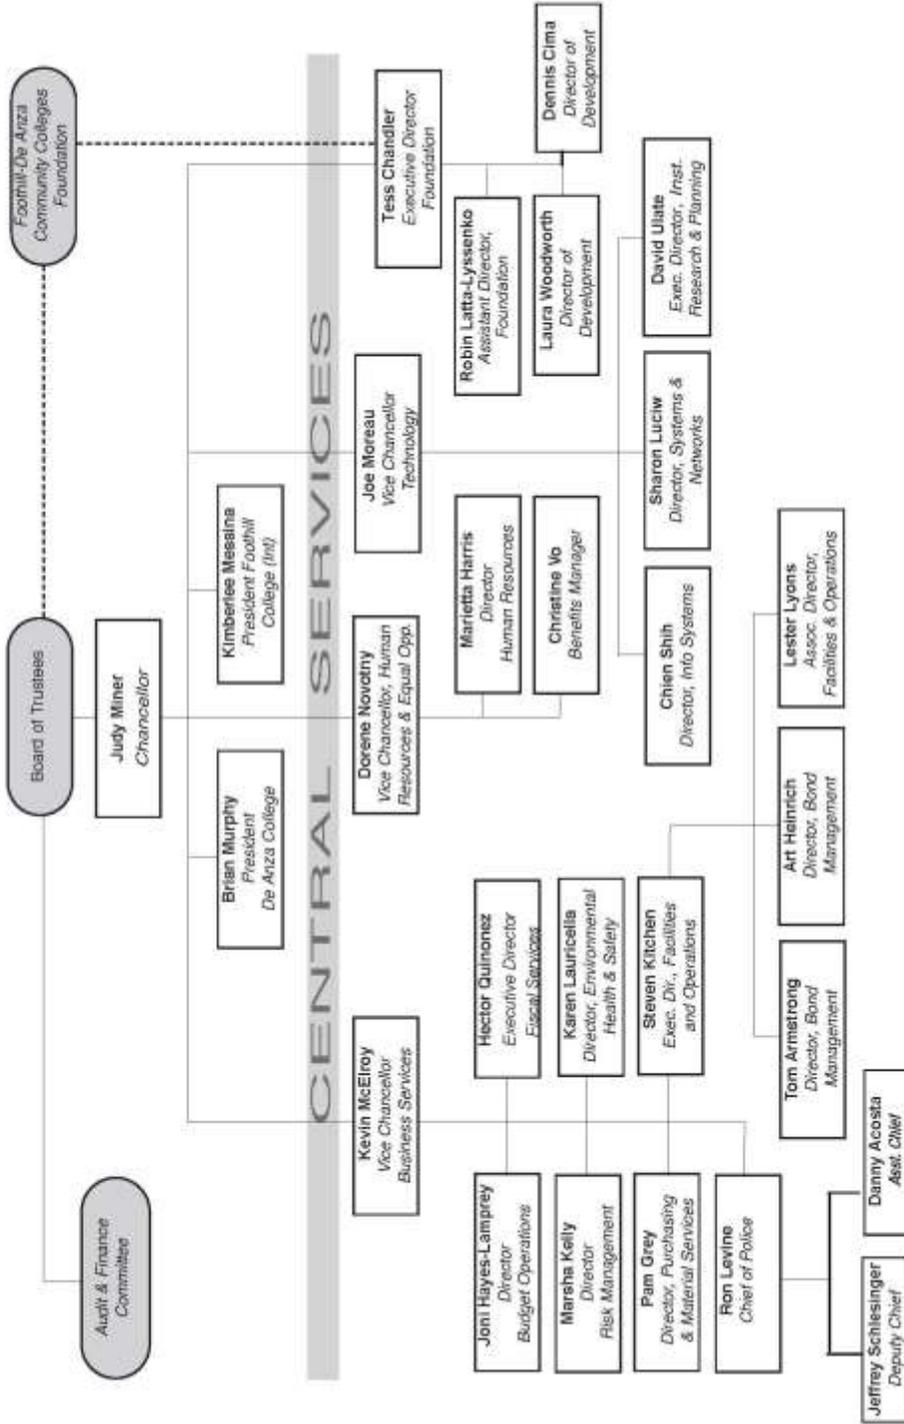

change, responsible for building the world in which all people are able to realize their dreams in ways that are environmentally sustainable and in alignment with the United Nations' Declaration of Human Rights. **

De Anza Decision Making Model DRAFT rev. 2/23/12

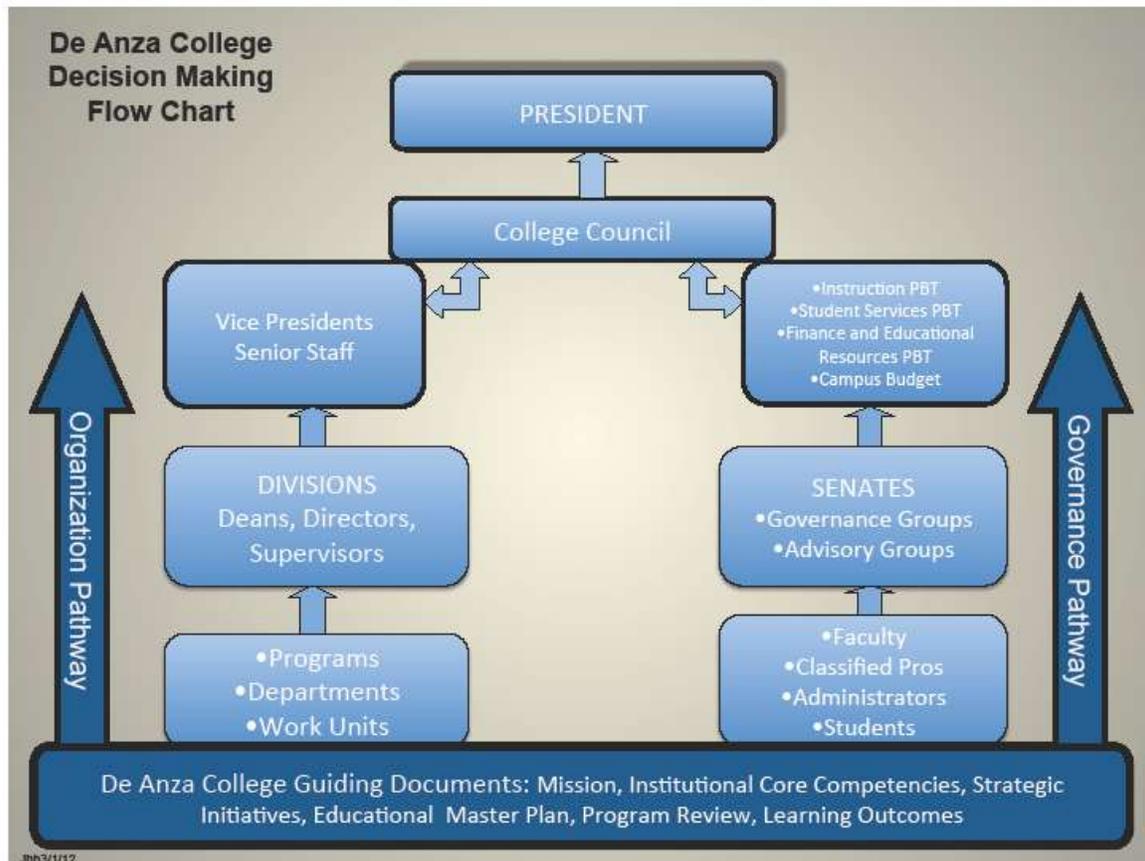

Basics of Decision-making at De Anza College

De Anza College has two primary pathways for making decisions: the **organizational pathway** and the **governance pathway**. Through the **organizational pathway**, programs, departments and work units are organized into divisions that comprise the three major houses of Instruction, Student Services, and Finance and Educational Resources. In general, areas of the programs are led by department heads, the divisions are led by deans or directors, and the three major houses of the college are led by the vice presidents. The college and district guiding documents, including learning outcomes assessment cycles, Program Review, and the Six-Year Planning and Assessment Cycle, inform the organizational pathway. Recommendations and advice are given directly to the **president** through his senior staff.

In the **governance pathway**, all constituent members of the college community (students, faculty, classified professionals and administrators) are represented by their respective organizations. These organizations are represented on the three Planning and Budgeting Teams (PBTs): Instructional (IPBT), Student Services (SSPBT), Finance and Educational Resources (FERPBT), and the College Budget Committee. The college and district guiding documents, including learning outcomes assessment cycles, Program Review, and the Six-Year Planning and Assessment Cycle, inform the governance pathway. The PBTs and the College Budget Committee give recommendations and advice to the College Council. Recommendations and advice are given directly to the **president** through the College Council.

After receiving recommendations and advice from these pathways, the **president** makes the final decisions.

De Anza College Governance

Governance Group Descriptions

1. Academic Senate

<http://www.deanza.edu/gov/academicsenate/index.html>

2. Mission

As authorized under Title 5 of the California Administrative Code Section 53201 (Subchapter A), we, the members of the faculty of De Anza College, are uniting to form the De Anza College Academic Senate. We are inspired by a common desire to assist in vigorously promoting the quality of community college education by whatever words and actions that are appropriate and necessary.

We also believe that the Academic Senate is essential for realizing the fullest educational and professional potential of each member of the faculty, and for furthering the aims and goals of De Anza College. Toward these endeavors we pledge our mutual support and cooperation.

3. Charge

With regard to academic and professional matters, the Foothill-De Anza Board of Trustees either jointly develops and agrees or relies primarily upon the recommendations of the Academic Senate.

Therefore, it shall be the responsibility of the Academic Senate to be primarily concerned with and to make recommendations to the appropriate college and district administrators and management teams, the Board of Trustees, and state educational agencies on such local and statewide community college educational issues as:

- Curriculum, degree and certificate requirements, grading policies, educational program development
- Standards regarding student preparation and success
- Governance structures of the college
- Accreditation
- Faculty professional development activities
- Policies for program review, processes for institutional planning and budget development
- Other academic and professional matters as mutually agreed upon between the Board and the Academic Senate

In addition to the above, numerous other specific responsibilities are charged to the Academic Senate by State of California law and regulations.

Other charges include:

- The Executive Committee is charged with communicating with the faculty at large through newsletters, period electronic mail messages addressed to all faculty, and through two representative senators from each of 13 segments of the college.

- Maintain meeting records for Academic Senate and subcommittees and post for public viewing on the Academic Senate website.
- Promote the best interests of the college as a whole as well as the faculty as a constituent group of the college.

4. Executive Committee Structure

- Senators are given an orientation session

7. Meeting schedule

The Academic Senate meets Mondays during the fall, winter, and spring academic terms, except the first Monday. The last Monday is held as a tentative date and meetings are called or not depending on the circumstances of a given quarter.

1. Administrative Management Association

<http://www.fhda.edu/ama/>

2. Mission

The general purpose for which the Administrative Management Association is formed is to unify all elements of management in the district and on the campuses in order to consolidate common goals and objectives of persons identified as managers.

3. Charge

A. With respect to students, the community college administrator has the responsibility:

- To provide and protect student access to the educational resources of the community college.
- To protect human dignity and individual freedom, and assure that students are respected as individuals, as learners and as independent decision-makers.
- To invite students to participate in the established shared governance processes.
- To protect students from disparagement, embarrassment or capricious judgment.
- To keep foremost in mind at all times that the college exists to serve students.

B. With respect to colleagues and staff, the community college administrator has the responsibility:

- To develop a climate of trust and mutual support through the established shared governance processes.
- To foster openness by encouraging and maintaining two-way communication.
- To encourage, support and abide by written policies and procedures and to communicate clearly to all staff members the conditions of employment, work expectations and evaluation procedures.
- To provide opportunities for professional growth.
- To provide due process with opportunity for appeal and review of employee evaluation.
- To challenge unethical behavior in a timely manner.

C. With respect to the governing board, the community college administrative board member has the responsibility:

- To keep the board informed so that it can act in the best interests of the district and public.
- To act in the best interest of the district.
- To be guided by the principles and policies established by the board.
- To represent the board in official statements only when formally designated to do so.

D. With respect to the profession, the community college administrator has the responsibility:

- To improve performance through participation in professional activities.
- To be informed about developments in education in general and in the community college in particular.

- To encourage and assist new professionals toward growth and effectiveness.

E. With respect to the community, the community college administrator has the responsibility:

- To remain continuously informed of the characteristics, preferences and educational needs of the local community.
- To be sensitive to individuals from different ethnic, cultural, and socioeconomic backgrounds.
- To encourage and stimulate communications with community groups.

- 2:30-4 p.m.

DRAFT (REVISED 2/27/12)

Glossary

Section I: Advisory Groups, Councils and Committees

Administrative Management Association (AMA)

AMA is a “meet and confer” association that represents administrators in the district.

Campus Center Advisory Board

The Campus Center Advisory Board makes recommendations to the Campus Center administrative staff concerning major policy issues, facility renovations, the financial condition of the Campus Center, planned major facility and day-to-day operations changes.

Campus Facilities

The Campus Facilities Group Reviews program and service proposals to determine the impact on current and proposed facilities, and make long-term recommendations for physical plant facilities including buildings, grounds and custodial care.

College Environmental Advisory Group

CEAG is a committee that monitors and makes recommendations to appropriate individuals and groups regarding college and district policies relating to environmentally sound practices. CEAG embraces and fosters principles of sustainability as core values.

College Planning Committee (CPC)

The College Planning Committee (CPC) is a subcommittee of the College Council. Its purpose is to systematically review all aspects of the six-year planning cycle including calendar, mission, and governance.

Curriculum Committee

The Curriculum Committee strives to ensure that De Anza’s curriculum is academically sound, comprehensive, responsive to the evolving needs and multiple perspectives of the community, and in compliance with Title 5, Section 55002 and all other applicable regulations and requirements.

Developmental & Readiness Education (DARE)

DARE is a task force charged with the development of a campus-wide plan to streamline and structure the flow of students from the point of entry, through student support and academic courses, to their final objectives. Future objectives will be identified by the taskforce itself, by grant objectives (including Title III and BSI) and through future planning retreats.

Diversity Advisory Council

The Diversity Advisory Council promotes a climate of respect and appreciation for diversity and inclusiveness in all aspects of the college.

Multicultural Staff Association (MSA)

The Multicultural Staff Association (MSA) functions in an advocacy role for multicultural issues that include equity in hiring, student equity and campus/district diversity.

Student Learning Outcomes Steering Committee (SLO)

The SLO Steering Committee ensures that the De Anza College has established and institutionalized cyclical learning outcomes and assessment cycle processes and procedures that implemented throughout the college.

Technology Task Force (Tech Task Force)

Tech Task Force is an advisory group to De Anza's College Council regarding technology products and solutions.

Section II: Budget Terms*

A Budgets

This is the cost of the full-time contracted salaries and benefits, and certain other items such as leases, utilities, etc.

Automatic Budget Reallocation (ABR)

This is an acronym for "automatic budget reallocation." The theory is that you can budget in a broad category like a 4000 ABR, and when money is spent from a specific object code i.e. 4010 it will first deduct from that code. If there is no money available in 4010 it will pull money automatically from the 4000 ABR pool. The financial reports show a negative budget amount if the ABR does not have enough money. ABRs are used for all major budget categories such as 1100, 2000, 4000, etc.

B Budgets

This represents discretionary funding for the college. It is used for supplies, casual hourly employees and all other operating expenses such as repairs, postage, etc., that are the college's obligation. It is distinguished from A budgets, which represent the contracted salaries of faculty and classified staff and other agreed upon expenses such as facilities rental, utilities, negotiated release time, etc. The amount of the B budget is set through an historic formula that allocates money to the campus. This amount is then augmented by the income that the campus generates. This campus-generated income includes instructional materials, parking fines, sale of catalogues and schedules, registration enrollment fees, transcript fees and a host of other minor fees/revenues. We have used another term for the capital outlay budgets, the C budgets, but the C budget has become the same as the B budget in Fund 14 since there is no separate allocation for Fund 14 capital budgets. Other parts of the capital budget get a little confusing because the state allocates restricted money to the district for instructional equipment and scheduled maintenance. The amount of money varies year to year as determined by the state budget process. These instructional equipment funds and scheduled maintenance funds are recorded and spent in Fund 21 and Fund 76 respectively, because they are restricted by the state for specific purposes.

Base Apportionment ("The Base")

The total unrestricted general funding amount from the state. It includes "foundation" funding for essential operations (this amount depends on the number and size of colleges and centers in the district) plus a fixed amount per FTES up to the district's CAP.

Budget Transfers

These are for transferring money from one account to another. The appropriate budgeter must sign off on it. You cannot transfer from A budget to B budget or between funds (i.e. categorical project to the General Fund 14).

Campus Center Use Fee Fund 28

Revenue for this fund is generated by a mandatory fee for use of the Campus Center. The proceeds are used for payment of the bonds and COPS, which financed the construction of the building.

CAP

The number of resident FTES the state funds the district to teach each year. In a “non-growth” year, the goal is always to serve exactly this number of FTES to maximize funding from the state while minimizing expenses.

If over CAP, the district is serving the extra students for “free”; that is, the district does not get funding for the FTES beyond the CAP, unless, as in some years, the state makes growth funding available (this year growth funding is 2.1 percent).

If under CAP, the district is serving fewer students than the state is prepared to fund. This year (2010-2011) the district is projecting that we will be under CAP by about 4 percent. The state doesn't take back the funding promised for this year, but next year our CAP will be reduced, resulting in a corresponding drop in the funding for next year. If under CAP, we also miss out on any additional growth funds available.

Capital Projects Fund 76

This fund is used for state money directed toward major building projects, instructional equipment allocations and state scheduled maintenance projects.

Categorical Fund 21

This fund handles all the local, state and federal grants that are received by the college. Large grant programs would include Matriculation, NASA, EOPS, VTEA, Health Services and many other smaller programs.

Child Development Fund 26

This fund is established for the operation of the Child Development Center. The revenue comes from parent fees, as well as local, state and federal grants.

De Anza Associated Student Body (DASB) Fund 148

This fund records all the student body revenue from card sales, fund-raisers and flea markets. The revenues are used for the operations of the DASB, the clubs and support of the college.

Deficit Factor

Each year the state promises to fund the district with a certain dollar amount of BASE apportionment. Later, the state can impose a “deficit factor” which is essentially a percentage

decrease in the promised funding. So, if a 1 percent deficit factor is imposed, our BASE would be reduced, and, in effect, we would only get \$4,257 (99 percent of \$4,300) per FTES instead of \$4,300. A deficit factor doesn't change the CAP. The district still serves the same number of students but gets less for doing it. Deficit factors are typically announced mid-year, after the budgeting has occurred. As a "just in case" measure, our district sometimes builds a deficit factor into our budget, and, if it doesn't materialize, then this amount drops as a surplus to the bottom line.

Educational Trust Fund

A district fund established that rewards the college's productivity.

Enterprise Fund 148

This fund is established for the Bookstore, Food Services and maintenance of the Campus Center Building. It is designed to be self-sufficient so that revenues from the operations cover the costs of sales, labor and maintenance.

Expenses Transfers

This is used to transfer the expense for a specific transaction from one account to another. Specific detail of the expense must accompany the transfer (i.e. a copy of the MER). The budgeter of the account where the expense will be charged must sign the transfer.

50 Percent Law

Fifty percent of all Unrestricted General Fund expenses must be spent on the direct cost of instruction (Ed. Code Section 84362). This provision drives some of the decisions on budget cuts. Currently, the district is trying to keep our percent spent on direct instruction about the same as in past, slightly above the 50 percent required. Upcoming cuts can't come exclusively from cutting classes since that would put us below the required 50 percent.

Financial Aid Fund 37, 38, 39

These funds are used for federal and state financial aid programs, such as Pell Grants, SEOG, Perkins, etc.

Float

When a regular full-time employee resigns or retires from a position, the dollars freed up while the position is vacant are called float dollars. The district has an automatic procedure in place where those dollars are moved from the budget account to a campus-wide salary lapse account as B budget. Classified float is the equivalent of the actual rate the incumbent was being paid at the time he or she left the position. These float dollars can normally be used to hire casual hourly replacements while the position is vacant. Certificated non-teaching positions also generate float in the same manner. In these cases, float dollars are converted into hourly teaching dollars until the position is refilled. Float can also be used for other discretionary purposes within the college besides salary backfilling.

Faculty Obligation Number (FON – also used in enrollment management)

Created when AB1725 passed, the FON is the number of full-time faculty that the district must employ. It changes as our CAP changes. The state calculates the FON proportioned to the CAP

increase and informs the district as to what this number is each year. If we don't match or go over the FON, the state withholds funding from the district. The rationale for the withholding is to offset any savings the district would get by employing part-time faculty instead of hiring full-time faculty. The FON represents "true" full-time faculty, not FTEF, which includes part-time faculty load bundled together. Meeting the FON requirement explains why full-time faculty are sometimes hired during program reductions and employee layoffs.

General Fund – Fund 14

This is the general operating fund of the district. Basically everything happens here unless the state designates a fund to be set up for a special purpose. This is the fund that receives the state apportionment and property taxes for income and pays most of the expenses of the teaching and support staff in addition to all the operating expenses like the B budget and utilities, etc.

Growth Mode

This is an operating mode in which the district wants to get additional funding from the state by serving more students than in the prior year. In the years that the state builds growth money into its budget, serving extra students is not a risk, as long as the district doesn't grow more than the percent allowed. In this mode, because the district is not as concerned about high productivity (full classes) as about enrolling as many students as possible, classes are allowed to "make" below the minimum enrollment number, which is typically 20 students per class. The district is now in an atypical Growth Mode, offering more classes because we are under CAP. The long-term impact of being under CAP and having our BASE permanently drop is worth the one or two quarters of expense to run some classes under 20.

Lottery

This is the most misunderstood aspect of school finance. The bottom line is that we receive about \$3.1 million dollars each year from lottery revenues. This represents about 2.8% of our total income. The funds are discretionary and become part of the general Fund 14 revenue sources.

Parking – Fund 25

This fund is established to receive revenue from the sale of parking decals and permits. The fees are then used to make payments on the loan that was used to build the parking garage at De Anza, for the parking security officers and for other parking lot maintenance costs.

Productivity Mode

This is an operating mode in which the district is on track to meet the CAP, so it tries to serve the students we have as efficiently as possible, that is, with as few salary dollars as possible. In this mode, fewer sections are offered to get more students to enroll in each one, and classes below the minimum enrollment number of 20 are cancelled. Efforts are made via e-mails to get the students from cancelled classes to enroll in other open sections.

Professional Development Leaves (PDL) Backfill

We also receive funds to backfill Professional Development Leaves (PDL) granted to certificated staff, and Staff Development Leaves (SDL) granted to classified staff. In these cases, the calculation on PDL and SDL backfill is slightly different than float. Classified SDL backfill is calculated at the part-time hourly rate equivalent to Step A of the salary range of the incumbent.

This amount of money would be enough to hire casual hourly replacements. Certificated non-teaching and teaching PDL backfill is calculated at the part-time hourly rate (about 70% of the full-time rate).

Revenue and Cap

The base revenue we receive from the state is based on the FTES we generate. Generally, the more FTES we generate the more money we receive from the state. However, the state limits the growth in community colleges by a variety of formulas. In our case, we are generally limited to (capped at) a 1% growth rate. We are at cap now, so any funding for growth above the 1% allocated growth cannot be guaranteed from year to year. It is through this method that we receive more than 85% of our annual revenue each year (over \$93 million dollars district-wide).

Self-Support – Fund 15

This is technically a sub-fund of the general fund, but programs are set up here to be self-sustaining. That is, they generally have a source of revenue like the Community Development Program and are expected to pay for all their own expenses. The Reprographics Department is another example of a self-sustaining department that relies primarily on charge-backs from the college to operate.

Special Education/DSPS – Fund 22

This fund is set up for the special education programs of the college. It receives restricted income from the state for the programs as well as general apportionment funding generated by special education students in regular classes.

Workload Reduction

This occurs when, as part of a funding reduction, the state makes proportional reductions in the district's CAP to hold funding per FTES constant. In this case, the workload of the district is reduced and there will likely be fewer Article 7 assignments and perhaps program reductions. Still, this is the "better" option in budget cutting times: the number of students the district serves drops by the same percentage that state funding drops. The worse option is that the state cuts our budget and keeps the CAP the same, which means the district must serve the same number of students with less money.

Work Study Fund 23

This fund is used to channel federal financial aid dollars to qualified students on financial aid.

Section III: Collective Bargaining Units

Faculty Association (FA)

FA is a locally governed, independent association incorporated in 1977 by the faculty in this district to represent themselves pursuant to the California Public Employees Relations Act of 1976. FA and the Foothill-De Anza Board of Trustees collectively bargain decisions on salary, hours of work, academic calendar, hiring practices, class size and other terms and conditions of employment at Foothill and De Anza colleges.

Association of Classified Employees (ACE)

ACE is the exclusive bargaining representative for all classified workers holding those positions listed in Appendix E and all classified hourly workers holding those positions listed in Appendix E.1 of the ACE Agreement.

California School Employees Association (CSEA)

CSEA is the bargaining group that represents workers in the skilled trades and crafts.

Teamsters

Teamsters Local 287 is the exclusive bargaining unit for all supervisory positions in the district.

Section IV: Enrollment Management Terms

Census

Students are counted about the third week of the quarter, known as “census week.” Full-Time Equivalent Student (FTES) is defined as 12 hours/week = 525 weekly student contact hours (WSCH).

Faculty Obligation Number (FON also used in budget terms)

Created when AB1725 passed, the FON is the number of full-time faculty that the district must employ. It changes as our CAP changes. The state calculates the FON proportioned to the CAP increase and informs the district as to what this number is each year. If we don't match or go over the FON, the state withholds funding from the district. The rationale for the withholding is to offset any savings the district would get by employing part-time faculty instead of hiring full-time faculty. The FON represents “true” full-time faculty, not FTEF, which includes part-time faculty load bundled together. Meeting the FON requirement explains why full-time faculty is sometimes hired during program reductions and employee layoffs.

Full-Time Equivalent Faculty (FTEF)

Full-Time Equivalent Faculty, a load of 100% (range of 95% to 105%) taught by one instructor (full-time) or several instructors (part-time).

Full Time Equivalent Student (FTES) Computation

In a quarter environment, during census week, to compute FTES you would do the following calculation:

1. There are 175 days of instruction in an academic year (the state defines this). This results in 35 weeks of instruction in an academic year (excluding summer quarter). $175/5 \text{ days per week} = 35 \text{ weeks per year}$. There are 11.67 weeks in a quarter ($35 \text{ weeks per year} / 3 \text{ quarters}$)
2. Multiply the number of hours a class meets per week (WSCH) for that quarter by 11.67 to project for the year.
3. Divide this by 525 to obtain the FTES.

Full-Time Faculty Obligation (FTFO)

There is a state regulation that requires community college districts to hire a minimum number of full-time (FT) faculty each year. The district's FTFO is 516 (2010-11).

Load

The class “productivity” would be calculated as follows:

1. Assume that an Accounting 1A load factor equals .0830 for 1 quarter or .25 for the year (three quarters). (That is, the instructor would have to teach 4 of these classes per quarter, for three quarters to make up his or her full load for the year.)
2. If there were 140 hours of enrollment for that class for that quarter, / by .25 (quarter load factor of .0830 x 3 quarters) load factor for that class, the productivity = 560 WSCH/FTEF.

The financial impact on the district for changes in WSCH/FTE is enormous. For example, if the WSCH/FTE drops by 10 points from 530 to 520, the district revenue would be reduced by \$600,000.

Productivity

The term refers to the efficiency with which we use our resources. It is figured by dividing the quarterly WSCH by the quarterly FTEF. Because FTEF is also an annualized term, productivity can also be figured by dividing the WSCH by 3 times the Load Factor. The district budgets for a productivity of 530.

Workload Reduction

This occurs when, as part of a funding reduction, the state makes proportional reductions in the district’s CAP to hold funding per FTES constant. In this case, the workload of the district is reduced and there will likely be fewer Article 7 assignments and perhaps program reductions. Still, this is the “better” option in budget cutting times: the number of students the district serves drops by the same percentage that state funding drops. The worse option is that the state cuts our budget and keeps the CAP the same, which means the district must serve the same number of students with less money.

WSCH Definition (Commonly pronounced as “wish”)

WSCH is an acronym for weekly student contact hours. These types of calculations on an individual class roll up to the collegewide totals, where we convert to FTES and report to the state. We are paid on the basis of FTES by the state, so you will hear many references to “WSCH producing classes” because it drives so much of our district income.

WSCH Computation

For an Accounting 1A class that meets 4 hours per week (4 unit class), and there are 35 enrollees at census date, the FTES would be computed as follows:

1. 35 enrollees multiplied by 4 hours per week = 140 hours of enrollment in the census week, which computes to 140 WSCH.

Section V: Institutional Planning and Governance Groups

Campus Budget Team

The Campus Budget Team recommends to College Council the adequate allocation of resources in support of the college as set forth by College Council; to support prudent budget management; and to identify unfunded and under-funded activities and needs.

College Council

The College Council is the governance body at De Anza that represents all stakeholders at the college (campus representative groups, advisory groups, constituent groups, and bargaining units) and provides recommendations to the college President.

Finance & Educational Resources Planning & Budget Team (FERPBT)

The FERPBT provides leadership and coordination for the development and implementation of finance and educational resource planning and budget processes that support institutional strategic goals and priorities and the college's Educational Master Plan.

Instructional Planning & Budget Team (IPBT)

The IPBT provides leadership and coordination for the development and implementation of instructional planning and budget processes that support institutional strategic goals and priorities and the college's Educational Master Plan.

Student Services Planning & Budget (SSPBT)

The SSPBT provides leadership and coordination for the development and implementation of Student Services planning and budget processes that support institutional strategic goals and priorities and the college's Educational Master Plan.

Academic Senate

The Academic Senate represents full and part-time faculty in the formation of college and district policies on academic and professional matters. It exercises primary reliance on curriculum, general education and program specific degree and certificate requirements, grading policies, standards regarding student preparation and success, and policies for faculty professional development. Joint development (with the Board) areas include degree and certificate units, educational program development, governance structures, accreditation, policies for program review, and processes for institutional planning and budget development.

Classified Senate

The De Anza College Classified Senate represents all classified staff who choose to participate, regardless of classification, and who are not management or certificated, as defined by Education Code Section 72400 and Foothill-De Anza Community College District Board Policy 2610.1. Specifically, the De Anza Senate represents all classified staff members who work on the De Anza campus. The function of the Classified Senate is to participate in governance of De Anza College, to provide a centralized means of communication among classified staff and with the rest of the college community, to actively promote professionalism with the Classified Senate, and to enhance staff development.

DASB

The De Anza Associated Student Body (**DASB**) works to provide for both fair and equal representation of students at the college, district, state and federal levels; the availability and accessibility of all services and facilities to our student body populous in promotion of a total educational and recreational experience at De Anza College.

Section VI: Learning Outcome and Assessment Terms

Administrative Unit Outcome (AUO)

The De Anza administration, faculty and staff work in concert to define and assess Administrative Unit Outcomes that are overarching, clear, and assessable statements that identify and define what a client/customer/student will be able to know, do or feel at the successful completion of a specific activity or process. In general, programs that do not directly work with students or play a non-academic role (Grounds, Custodial, Dining Services, Staff Development, Budget Office, Payroll, etc.) will conduct AUO assessment cycles.

Assessment Cycle (AC)

Each outcome (SLO/SSLO/AUO) needs to be assessed on an ongoing, cyclical basis. The AC consists of three Phases.

- **Phase I:** writing of the outcome statement.
- **Phase II:** assessment of the outcome statement using an appropriate assessment method and the collection of data.
- **Phase III:** reflection and enhancement where members of the assessment team reflect on the data collected to first analyze the data as well as reflect on the assessment process itself. The team will then determine if the outcome goal has been satisfied and decide on what enhancements are needed to improve the outcome results including the identification of resources that are indicated.

The term AC will appear at the end of SLO, SSLO, AUO, etc. indicating the complete cycle as opposed to just the outcome statement.

Certificate Level Outcome (CLO)

The De Anza administration, faculty and staff work in concert to define and assess Certificate Level Outcomes that are overarching, clear, and assessable statements that identify and define what a student will be able to know, do or feel at the successful completion of a specific certificate. The CLOs appear in the De Anza catalogue under each certificate.

Degree Level Outcome (DLO)

The De Anza administration, faculty and staff work in concert to define and assess Certificate Level Outcomes that are overarching, clear, and assessable statements that identify and define what a student will be able to know, do or feel at the successful completion of a specific degree. The DLOs appear in the De Anza's catalogue under each degree.

Hybrid Programs

Hybrid Programs offer both curriculum and services to students. Hybrid programs (APE, EDC, Counseling/Matriculation, HOPE, Student Success Center, Learning Resources, Athletics) conduct both SLOAC and SSLOAC.

Institution Learning Outcome (ILO)

Institutional Learning Outcomes are aimed at assessing to what extent the Institutional Core Competencies (ICC) and Institutional Strategic Initiatives are being met.

These are assessed through the process of mapping each program level outcome to one or more ICC or Strategic Initiatives. The ICC are also assessed through direct and indirect methods. The College Planning Committee (CPC) is charged with the oversight of these college-wide assessments.

Programs

Programs are currently defined as any area or department that conducted a Comprehensive Program Review (CPR) in 2008-09.

Program Level Outcome (PLO)

A PLO states what the student should be able to know, do, or feel at the completion of a program, certificate, or degree. These statements for certificates and degrees are included in De Anza's catalogue (see CLO/DLO). Course SLO statements are linked to PLO statements, thus only programs with curriculum have PLOs.

Student Learning Outcome (SLO)

The De Anza faculty defines and assesses Student Learning Outcomes that are overarching, clear, and assessable statements that identify and define what a student is able to do at the successful completion of a specific course, program, activity, or process. These outcomes may involve a combination of knowledge, skills/abilities, and/or attitudes that display behavioral evidence that learning has occurred at a specific level of competency. The ongoing assessment of Student Learning Outcomes is specifically linked to the De Anza College Mission, Institutional Core Competencies, program review, and the planning and budget process, including Strategic and Educational Master Planning efforts. All courses have SLO statements. A SLOAC is not complete until all of a course's SLO have been assessed.

Student (Support) Services Learning Outcome (SSLO)

The De Anza faculty, staff, and administration work in concert to define and assess Student (or in some cases Support) Services Learning Outcomes that are overarching, clear, and assessable statements that identify and define what a student will be able to know, do, or feel at the successful completion of a specific program, activity, or process. In general, programs that directly work with students and/or play an academic support role (Financial Aid, EOPS, Outreach etc.) will conduct AUO assessment cycles.

Section VII: General Terms

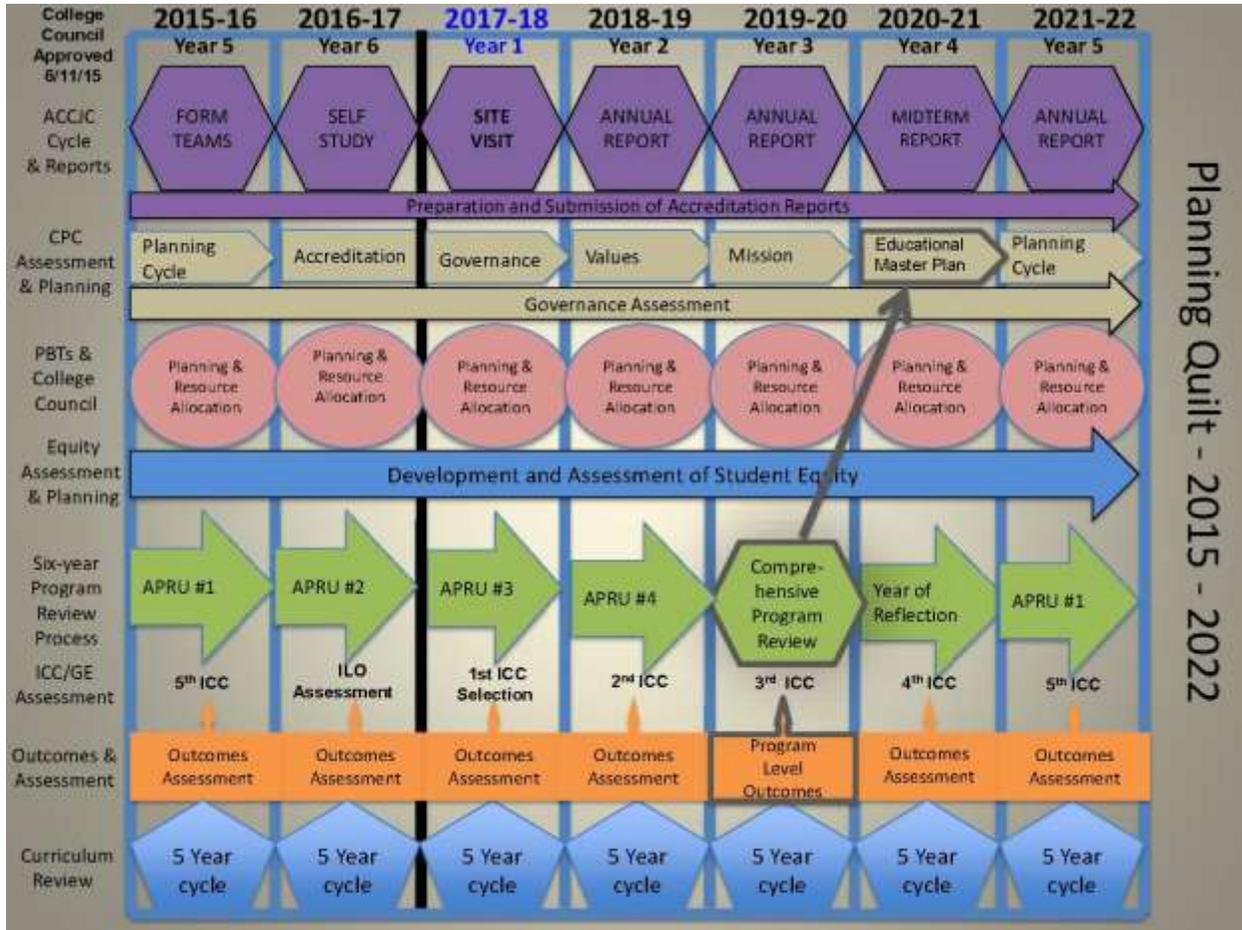

Governance

Governance is the ongoing and integrated process of planning and decision-making. Based on the assumption that the active participation of all constituent groups and consideration of diverse viewpoints are essential for effective college planning, governance at De Anza College includes faculty, staff, students, and administrators.

Governance Year-at-a-Glance

Seven-Year Planning and Assessment Cycle

Effective Committee Member Checklist

Do you...

- know the purpose of the committee?
- know the goals of the committee?
- know the committee composition?
- know the committee's procedures and ground rules?
- know the decision making process of the committee?
- know when the committee meets & have the calendar of meetings for the term or academic year?
- honor confidentiality within the committee and of your constituents, as appropriate?

Are you organized? Do you have all of the following?

- Have a binder or folder – dedicated to the work of this committee?
- Meeting agendas, notices and other materials sent to you with dates and in chronological order?
- Your notes from previous meetings
- Copies of notes that you've sent to your constituency after every committee meeting
- Reference materials

Closing the Loop

- Do you have all the e-mails and phone numbers of everyone in your constituency?
- Have you created a voice mail list of everyone in the group you represent?
- Have you created an e-mail list of everyone in your constituency?
- Have you blocked off time after every committee meeting that is dedicated to getting the committee notes BACK out to your group?

- Do you have a method to connect with your constituency so you can poll members if needed? (via phone or e-mail?)

As a committee member you have committed to...

- Attend every meeting
- Arrive on time or early
- Stay until the end of the meeting
- Listen with respect to all speakers
- Question positions, not people
- Represent your constituency
- Make clear if you are speaking for yourself or for a minority
- Ask Questions, & be concise & on-topic in your comments
- Not be silent if you disagree – voice your concerns
- Pay attention to group dynamics & how they work on a committee as well as what you add both personally and professionally to the group dynamic.

Role of a committee chair...

- Mentor new people
- Create and distribute a binder or folder with all pertinent material
- Set the agenda and keep track of where items are in the process re: information, discussion or action items
- Create a safe environment so all feel comfortable in voicing their concerns
- Know the basic tenets of running an effective meeting (timelines, agendas, facilitation)

Legal Framework/Basis for Governance

Governance Policies

More than 20 years ago, the California Legislature and the Governor approved AB 1725, which directed the California Community College Board of Governors to develop regulations that, among other things:

... ensure faculty, staff, and students (have) the opportunity to express their opinions at the campus level, and to ensure that these opinions are given very reasonable consideration, and the right to participate effectively in district and college governance, and the right of academic senates to assume primary responsibility for making recommendations in the areas of curriculum and academic standards (70900.5).

Upon direction from the Legislature, the California Community College Board of Governors adopted Title 5 regulations to implement AB 1725. For faculty, these regulations are contained in section 51023 and again in section 53201 specifically for Academic Senates. Regulations pertaining to classified staff can be found in section 51023.5 and those pertaining to students are under section 51023.7.

The Board of Governors then directed each community college district Board of Trustees to adopt local policies and procedures to implement these Title 5 regulations. The FHDA Board of Trustees policies supporting the Title 5 regulations are contained in three sections:

- Board Policy 2222: Student Role in Governance
- Board Policy 2223: Role of the Academic Senate in Academic and Professional Matters
- Board Policy 2224: Role of Classified Staff in Governance

At De Anza College, participatory governance is grounded in the inclusion of faculty, staff and students in the decision-making processes. The inclusion of all constituent groups and varying viewpoints promotes effective collaboration in college planning. The Academic and Classified Senates, the Associated Students of De Anza College, and the collective bargaining units are all present at the highest participatory governance group, College Council. Two-way communication between the individual members of College Council and their constituent groups is critical for optimal functioning of the planning structure.
