4. Instagram (4%, 9)

Student Unemployment and Food and Housing Insecurity

Student Feedback - June 2020

Student 1

"I have to finish my homework in the parking lot sometimes. It's scary sometimes but I have no choice. I don't know how you can support me."

Student 2

"After using the financial aid funds to pay for all the monthly expenses and necessities, I only have around \$80 to pay for food weekly. I just have 1 meal per day. I really need help with food."

Student 3

"The workload has increased while the pandemic and riots have increased and I feel like I can't stay afloat."

Student Feedback - June 2020

Student 4

"It's hard to focus on school-work. Teachers are overwhelming us with work & they're not even addressing the issues in our society at all. How do you focus on school when your world is in chaos?"

Student 5

"I am currently not going to school this fall because I can't afford it through these tough times. I don't qualify for FAFSA because I'm only taking 1 class."

Student 6

"It would be nice to know how clean everything is and maybe a way to thank those helping keep the campus clean."
