## MATH 210. 22 - Spring 2017

PRE-ALGEBRA
Classroom: L-76
T Th 4pm-6.15 pm

```
Instructor: Ms. Nirmala Janak
e-mail: janaknirmala@fhda.edu
Office Hours: Tuesdays & Thursdays : 6-6.30pm
    Required Text: Prealgebra, Aufmann & Lockwood (5th edition)
```

Course Objectives: Use of basic arithmetic in application problems, estimation, the real number system, variables and linear equations, graphs of linear equations and the Cartesian coordinate system, the concept of function. (CHAPTERS: 1,2,3,4,5,6,7,8 \& 9) \& Intro of Functions.

## Student Learning Outcomes:

* Demonstrate and apply a systematic and logical approach to solving arithmetic and geometric problems.
* Demonstrate and apply the knowledge and skills required to select the correct introductory formulas, procedures, and concepts from algebra and geometry and use them to solve problems.
* Grading: Your grade in this course will be based on 1 ) QUIZZES, 2 ) THREE MID TERM TESTS and 3) a comprehensive FINAL EXAM, weighted as follows: It is a point system...

ATTENDANCE : 1.Attendance is strongly emphasized.
2. If you are absent more than two times, you will be dropped .
3. For each absence either you contact me through email before the absence why you are absent or bring a note from the Doctor/Parent the reason for your absence, when you attend the class..
4. Since mathematics is cumulative in nature, attendance at all classes is expected.
5. Students should be aware of appropriate drop dates.
6. When you are absent, it is your responsibility to get the notes from other students who attend this same class._ If you miss a quiz or test YOU CANNOT MAKE it UP.
7. Your classmates are your great resource. ${ }^{* * * * *}$ It is strongly suggested that you get the names and email/phone numbers of several students in the class so that you may contact others for any missed assignments, should you be absent.

Note: . It is the student's complete responsibility to drop this class when the student cannot continue the course for any reasons. If a student is absent more than two times (unexcused absences) he/she will be dropped by me.

* Homework : Homework assignments are given on each day of the class. They represent the student's opportunity to learn what was taught, by practicing both mechanical skills and problemsolving techniques. The student is expected to do -and is responsible for- all assigned problems associated with the section(s) of the text covered each class meeting.
* The students are encouraged to ask questions from the HW, at the beginning of next class. Also, students can always meet me one-on-one, during my office hours, after your visit to tutoring.
* Note: 1. Every student MUST bring 1) Text book ; 2) A scientific calculator 3) Writing material; 4) Graph paper; PEN OR PENCIL every day to the class.
* PLEASE Feel free to approach me about any of your problems at any time through email.
* I am email active, so will give u reply in 24 hours.

GRADING: It is a POINT system.

1. QUIZZES: ( 5 points each; 20 quizzes ( $20.5=100$ points)
a) Quizzes are given at the beginning of the class, or after the class. Duration: 10 min .
b)If a student is late to the class, he/she must understand that No extra time is given for the quiz.
c) A total of 20 quizzes are given and no quiz score is dropped, all are counted.
d) And no quizzes are made up, if any student is absent for any quiz for any absence.

## 2. MID-TERM TESTS (3): $(\mathbf{3}$ TIMES $100=300$ points)

a) 3 Mid-terms are given in the quarter.
b) The Mid-term test is given on a THURSDAY at the beginning of the class. Duration is $50 \mathrm{~min}-1$ hour.
c) If a student is late to the class, he/ she must understand that No extra time is given for the TEST.
d) TESTS are NOT made up if any student is absent for any Mid-term test for any reason, excused OR UNEXCUSED
3. FINAL EXAM: ( $\mathbf{1 0 0}$ points)There will be a comprehensive final exam on the last day we meet. A student must take the final exam to pass the course. Before going to the finals even if a student has a passing score, but if he/she does not attend the final exam, he/she will earn only F. So TAKING FINAL EXAM IS MANDATORY. Calculators are allowed on the final exams.

## Additional Information:

1. The instructor reserves the right to change the dates of quizzes, Tests \& the dates of the lessons.
2. Keep all your graded material until the end of the class in case the COMPUTER file is lost

Getting Help: In addition to coming to me for help during my office hours, you can get help at the Math. Science \& Technology Resource Center (MSTRC) in S43. They are open M-Th 8:30am - 6:30pm and F 8:30am - 12:30pm.

Cheating Policy: Any student caught cheating on a quiz or an exam will receive 0 points on that quiz or exam. The same holds for any student who allows another student to cheat.
*** Disruptive classroom behavior may include (but is not limited to) the following: talking when it does not relate to the discussion topic, sleeping, reading other material (e.g. newspapers, magazines, textbooks from other classes), eating or drinking, monopolizing discussion time, refusing to participate in classroom activities, texting, and engaging in any other activity not related to the classroom activity
${ }^{* * *}$ Cell phones : should be switched off before entering the class and YOU SHOULD NOT use a cell phone AS a CALCULATOR. If I see that if cell phone is on, he/she may be asked to leave the class. And that would be counted as half absent. Also points are subtracted from the earned points.

## Important Dates:

Saturday, April 22 :: Last day to add quarter-length classes. Add date is enforced.
Sunday, April 23 :: Last day to drop for a full refund or credit for all students (quarter-length classes only)..
Sunday, April 23:: Last day to drop a class with no record of grade. Drop date is enforced.
Friday, May 5 :: Last day to request pass/no pass grade. Request date is enforced.
Friday, June 2:: Last day to drop with a "W." Withdraw date is enforced.
Saturday - Monday, May 27-29 :: Memorial Day Weekend (no classes)
