Student Learning Outcomes:

- Apply basic digital camera skills to create images.
- Demonstrate a working knowledge of the digital darkroom using Adobe Lightroom

Objectives: Differentiate between major camera types (analog and digital) and demonstrate basic camera controls. Create and conceptualize images using digital techniques and practices. Organize, process, and output imagery using Adobe Lightroom as the primary digital darkroom. Compare and contrast traditional photographic methods with new digital methods in a rapidly changing technological world. Analyze a variety of photographic works to develop and refine one’s thoughts and understand diverse and multicultural communities. Finally, critique classmate’s work to understand the visual and communicative value of the medium and articulate individual response and expression.

This syllabus is subject to change at any time by the instructor. Any changes made will be notified verbally and on CANVAS.

CLASS POLICIES

Attendance and Participation: In order to keep up with the course material and get your questions answered, it is necessary for you to access Canvas on a weekly basis. Additionally, there is a weekly Zoom office hour available for you to attend if you need clarification. However, attendance at the Zoom office hour is not mandatory.

Your participation in the course will be assessed based on a few factors, including:

1. Watching lecture and tutorial videos, completing weekly quizzes **before their due dates**,
2. Submitting assignments **on time**
3. **Participate** in written critiques by providing meaningful feedback to your classmates.

Your participation is important not only to your success in this class but also to the success of the entire class.

Make Ups and Late Work

Remember, in the real world, when you have a job and do not turn in your work, you will likely be fired or put on work probation. Treat class like it is your job. It is your responsibility to make up missed lectures or late work. Any deadline missed will result in lowering the assignment grade by one letter for each week that it is late. I will not accept any assignment that is turned in 3-week late. (My Canvas settings will not let you upload your late assignments.) Again, talk to me if you are having problems. Do not miss giving critique to your peers' work, even if you don't have work to show.

Academic integrity is taken seriously in my classroom. Cheating, plagiarism (written and/or imagery), or knowingly furnishing false information in the classroom or to me will be met with swift and severe consequences, including one or all of the following: disciplinary action, course failure, and notation on your academic record. If there are any questions regarding the work to be submitted, please ask. [Academic Integrity at De Anza College](#)

Drop Policy

It is the responsibility of the student, **YOUR RESPONSIBILITY**, to officially withdraw from the class if unable to complete the course. The instructor may also hold the right to drop students from class if a student fails to participate in class assignments, weekly quizzes, and critiques. Review and know all important academic calendar dates via your Portal.

Important Dates:

Last Day for Adds: January 21, 2024
Census Date: January 22, 2024
Last Day for Drops w/ Refund: January 21, 2024
Last Day for Drops w/o W: January 21, 2024
