Office Hours (through email due to medical necessity)

Please e-mail me with questions either through Canvas or hassettshannon@fhda.edu. All e-mails go to the same account. I will be online to answer your questions in real time on: Mondays 2-4pm (with the exception of holidays). Please allow for up to 72 hours for all other e-mails outside of this time.

Please include the following in your e-mail: **1) Subject Line: Psych 4 and your first and last name that are listed on the roster. If you fail to do this your e-mail will automatically be deleted, 2) A clear and concise (1-2 sentences) question. 3) If you miss an exam and have proper documentation (see the section below on “exam extensions”), please include that in your subject line and be sure to attach your documentation.**

Required Text: Abnormal Psychology and Life: A Dimensional Approach, 3rd Edition, Christopher Kearney; Timothy Trull. **Any edition of this text is fine** (i.e., newer or older).

Advisory: English Writing 1A or English as a Second Language 5

Course Description:

A survey of major theories and concepts of psychopathology and therapy including methods of clinical assessment, classification and diagnosis.

Student Learning Outcome Statements (SLO)

- **Student Learning Outcome:** Explain the historical roots of abnormality and contrast them with current views.
- **Student Learning Outcome:** Explain the symptoms and causes of psychological disorders and compare and contrast them.
- **Student Learning Outcome:** Describe the different types of therapy and be able to apply them to specific case studies.

Course Format:

This course is completely online; it consists of readings, chapter notes, videos, weekly quizzes, exams, discussions and assignments.

Basic Instructions for all turned in work:

All class work will be completed online. There will be weekly quizzes that are due by **Sunday at 11:59pm**. Please refer to the class schedule and/or the class checklist.

Any quizzes or assignments turned in after the deadline will automatically be deducted by 15% per day and will only be available through Tuesday 11:59pm. I do not accept late work beyond Tuesday (unless there are extenuating circumstances, such as a hospitalization or death of a loved one).

*Quizzes and exams may not be re-taken for a higher grade.

The correct answers for quizzes will be viewable within a specific timeframe (**the Wednesdays following the due date from 8-11pm, only**). However, the correct answers to exams will not be posted.

*****Extensions for exams:**

Extensions are only granted under *extenuating circumstances* (with proper documentation of emergencies, such as hospitalization for self or child/other dependent, illness, accident, jury duty or death of a family member), and you must notify me through e-mail (or have a loved one) within 5 days of missing it. Make up exams will be different from the original exam given.

*****In the e-mail request, you must include proper documentation (e.g., doctor's note, police report, death certificate, jury summons, counselor's note, test results with your full name on the documentation). If you do not include documentation, you will not be granted an extension.**

Performance Evaluations:

- 1) **Exams (3 total; 180 points total):** There will be three multiple-choice exams. It is possible that there will be more than one correct answer to the multiple-choice questions. The questions with more than one possible correct answer will allow you to click on more than one answer. Those questions with only one correct answer, will only allow you to click on one correct answer. Exams will cover assigned readings, chapter notes, assignments and film clips. **Study guides** are posted on Canvas under the "[Course Information/Resources](#)" Module. You will only be tested on what is covered on the study guide. All 3 exams are worth 60 points each. You will have 90 minutes to complete each exam. I recommend that you keep a timer to monitor your time (although there is a running timer within Canvas at the top of the exam). **There are NO make-up exams (unless there is a verifiable emergency; see above for extension policy)**. You must complete all exams by the deadline (see schedule). Exams will be posted on the Friday of exam weeks at 12 pm. You will then have access from Friday at 12pm through that Sunday 11:59pm.
- 2) **Weekly quizzes (40 points total):** you will have a multiple-choice quiz (5 questions) every week, except for weeks of exams. They will cover the readings, chapter notes and film clips. It is possible that there will be more than one correct answer to the multiple-choice questions. The questions with more than one possible correct answer will allow you to click on more than one answer. Those questions with only one correct answer, will only allow you to click on one correct answer. There are no make-ups/re-takes (unless extenuating circumstances), and your lowest quiz will be dropped (if you miss a quiz, this counts as lowest grade). Each quiz is worth 5 points, for a total of 40 points. With the exception of the syllabus quiz (your highest attempt

will be recorded), you are allowed one attempt. *Please note: Week 1, you will have 2 quizzes due.

- 3) **Case study assignments (3 total; 30 points total):** you will diagnose case studies with specific psychological disorders and choose the best treatment. Each assignment is worth 10 points.
- 4) **Group discussions (5 total; 45 points total):** you will be provided with a prompt, and you will address it in the discussion group. The first discussion will be worth 5 points. For the rest of the discussions, you will be put in random groups (since it's a large class). After posting your response (you won't be able to see others' posts until you post your own), you will reply to another student's post.
- 5) **Stress/Anxiety reduction exercises (5 total; 5 points total):** stress/anxiety is something all humans experience. You will be introduced to some stress/anxiety tracking and coping strategies throughout the term. You will practice them and keep track of your experiences on a log. Each log is worth 1 point, for a total of 10 points. Due dates are on the last pages and online.
- 6) **Extra credit:** will be posted. You may earn no more than 10 points total for extra credit in this course.

Grades:

Grades will be calculated on the points you earned during the term, plus any extra credit.

The total points possible are 300. **Note: I do not give minuses or pluses.*

A= at least 90% (270+ points)

B= at least 80% (240-269 points)

C= at least 70% (210-239 points)

D= at least 60% (180-209 points)

F= below 60% (less than 180 points)

***The California Community College Board of Governors recently passed revisions to Title 5 regarding course repetition. "Students may enroll in a course only three (3) times if they received a substandard grade (D, F, NP or NC) or withdrew from a class with a "W.""**

Class Participation:

This course requires that you actively participate by completing weekly assignments and quizzes. It is **NOT** a self-paced course. It will be organized by weeks in module format, and you will not have access to assignments after the due dates (with the exception of my late policy stated above). You will not have access to all course content ahead of time. **If you have not completed the first 2 assignments (syllabus quiz & first week quiz) by the end of the first week (1/14), you will be dropped. If you do not complete Exam #1 by the deadline (2/4/24), you will be dropped.**

Non-attendance: To prevent being dropped for non-attendance you must complete at least one assignment weekly or e-mail me with a verifiable emergency. The last day to drop is 3/1. After that date, I am required to assign you a grade based on completed work.

Steps to help you be successful in this course:

- 1) Read over the entire syllabus, print out the assignment checklist with due dates (check off completed assignments as you go) and write the due dates in a planner.
- 2) Complete all required readings: while reading each chapter, have the chapter notes either printed or opened and add your own notes.
- 3) Listen to the audio recordings: you can do this on your commute, while waiting for an appointment, etc. or while studying the notes. I often give different examples during lectures than are in the notes, and repetition of material is key to learning new material. The most successful students have told me they listen to the recordings.
- 4) Fill out the **study guides** I developed and posted under “Course Information/Resources” based on your readings, chapter notes and videos.
- 5) Watch the required videos prior to taking quizzes and exams; take any necessary notes.
- 6) Complete all of the homework prior to the due date (allow yourself enough time to complete all of the work).
- 7) **You should study prior to taking each exam** (like you would in a face-to-face class); you will **NOT** have enough time to look up every answer. The goal of exams is to test your understanding and retention of material. Students often think online exams are easier because exams are “open notes”, and they can simply look up the answers. But they don’t consider how much time is wasted looking up answers. Please heed my advice and don’t learn the hard way!
- 8) Make sure that when taking exams that you leave yourself plenty of time to complete them (i.e., don’t begin your exam Sunday night at 11:00pm!).
- 9) When taking exams, be sure to have your notes, study guide and text with you to reference if need be.
- 10) If you are struggling with material, please e-mail me and/or attend study sessions ran by course Teaching Assistants.
- 11) **Complete your work on a computer/lap top. Previous students have had trouble when trying to submit quizzes/exams on their phones.**

Responsibility and Respect:

*Please be respectful to everyone in the class by using appropriate language and appropriate topics of discussion. If you do not abide by these rules you may be dropped.

Academic Integrity:

I expect that all students will act in accordance with the De Anza Code of Conduct Policy (<http://www.deanza.edu/studenthandbook/pdf/studentrights.pdf>, p.11-14) Academic dishonesty, cheating and **plagiarism** will **not** be tolerated. Providing other students with answers **is** also considered cheating, as is looking up answers to quiz/exam questions online. If you are caught cheating or plagiarizing you will fail the exam/assignment and will not be allowed to make it up. Your name will also be forwarded to the student disciplinary officer, and they may take further action.
