

SLOs for Counseling Area

Course/Service Owning Unit	SLO/SSLO Name	SLO/SSLO
Dept SS - (Couns) Counseling / Matriculation (Hybrid)	CLP 75 - College Major and Career Options	<ol style="list-style-type: none"> 1. Assessment Method: Students completed the online survey in Catalyst the first week of the quarter and again the sixth week of the quarter, which was the last week of instruction for this online 6 week course. 2. Assessment Data Summaries: Fifty students provided an average rating of 2.2 at the beginning of the quarter. Twenty students provided an average rating of 3.21 at the end of the course. 3. Reflection: In general, students improved in their knowledge and understanding of choosing a major and career. The challenge with online classes is getting students to complete the online survey particularly at the end of the class. Students are more cooperative at the beginning of the quarter, but many understand their grade is not tied to completing the survey and students may not complete due to fatigue. In a traditional classroom, the instructor can pass out the surveys, but for online courses the student has to take initiative to complete the survey knowing there is no reward in doing so. 4. Enhancement: An enhancement would be to articulate to the student they are providing valuable feedback meant to improve the course thereby doing a service to the instructor and future students. 5. Follow Up: Brainstorm with faculty who teach online best practices for getting students to complete the surveys.
	CLP70_SLO_4	Develop, and evaluate college major and career options by analyzing a multitude of factors involved in career development such as: personality, values, skills, interests, attitudes, and family and culture.
	CLP70_SLO_5	Research and appraise college major and career options by utilizing various resources such as: the online resources and informational interviews. Demonstrates decision-making skills that include the multitude of factors shown in SLO Number One.
