**Event Design—It will be lively, fun, and productive and will focus primarily on sharing classroom assessment experiences and working with colleagues to create or refine assessments.**

Let's get together to—

- *Share SLOs and assessment methods.*
- *Discuss which SLO you want to assess.*
- *Create an assessment plan/timeline and design an assessment instrument or evaluation rubric to measure your SLO.*
- *Ask the workshop team for advice, clarification and feedback on any stage of the SLO assessment cycle or any related issue.*

**Please bring ideas, assignments, and rubrics related to the SLO you want to assess. We look forward to taking advantage of what you bring to the workshop.**
